Parish of Saint George the Martyr, Southwark.

ANNUAL REPORT

MADE TO THE VESTRY

BY THE

MEDICAL OFFICER OF HEALTH.

FOR THE YEAR ENDING LADY-DAY, 1890.

CHAIRMAN AND GENTLEMEN,

I have now the pleasure to present to you my Twelfth Annual Report to  
the Vestry, 25th, 1890.

During the year 985 Males, and 1,107 Females were registered in this  
Parish, giving a total of 2,092.

The Deaths were 1,132, viz: 509 Males and 541 Females. The excess  
of Deaths of Females over Males was 32.

The Death Rate was 21.0.

The Births exceeded the Deaths by 960.

There have been no Deaths from Small-pox, and only 11 from Se Fever.

TABLE No. 1.

Years .....	1880-1	1881-2	1882-3	1883-4	1884-5	1885-6	1886-7	1887-8	1888-9	1889

176 Bodies have been moved to the Mortuary, and 117 Inquests

93 Post Mortems have been held.

1 Bodies have been moved to the Mortuary, and 117 Inquests held.

9 Post Mortems have been held.

Twenty Eight Pounds Fifteen Shillings have been received from the  
for the use of the Court Room.

Forty Pounds Eight Shillings have been paid to the Undertaker for  
removal of Bodies.

The Cow Houses and Slaughter Houses have been inspected.

I have also inspected the Bake-houses.

The Water supply has been good in quality, although I have frequently  
written to the Companies respecting a deficiency of supply.

We have passed through an epidemic of Influenza. The first scattered cases  
appeared at the end of December. These however gradually increased, and the  
epidemic was fully established in the beginning of January, and raged for about  
eight weeks with constantly increasing severity, and declined towards the end  
of the month. The epidemic of course did not come to an end but gradually  
subsided.

This is a remarkably short flourishing period for an epidemic. In the  
great capitals it continued to increase in severity for many weeks. The one  
epidemiological point to which attention has generally been paid is the temperature,  
and I think a great deal may be attributed to the low vitality and stagnation in the  
atmosphere and the great want of ozone. During the year there had been fewer  
cases. The deaths were few considering the severity of the cases.

An important Act of Parliament came into force in October last, viz: the  
Regulation of Infectious Diseases, compelling every medical man to report to the  
Sanitary Authority any infectious disease he may be called upon to attend, and  
to inform the relatives, with a penalty.

I remain,

Yours obediently,

THOS. H. WATERWORTH, M.D.

# SURVEYOR'S ANNUAL REPORT,

*For the Year ending 25th March, 1890.*

SIR, CHAIRMAN AND GENTLEMEN,

I have the honor to submit my Twentieth Annual Report for the year ending the 25th March last.

I have to report that the completion of the fifth year of the Contract with the Improved Wood Paving Company for the Paving of the Carriageway of the Borough High Street with Wood, terminated in May last. The pavement was laid in May, 1885, and in accordance with the contract the wood blocks must be reinstated with new at the end of the five years, the time I estimated the life of the paving in this street.

I may mention that the terms of the Contract between the Vestry and the Improved Wood Paving Company are shortly as follows: "That the Company shall pave the Carriageway, Borough High Street with Wood as specified, and maintain the same in good repair for twenty years, and that at the end of every five years during the contract the Company shall repave with new

wood blocks, or oftener if so required, receiving payment for the same at the rate of 2/- per square yard per annum. the first payment to be made at the end of twelve months after the completion of the work."

I have to state that in my opinion the Company have fulfilled the terms of the Contract in a satisfactory manner to the present time, and in making this statement I would respectfully suggest the Vestry the adoption of a similar contract as to the Carriageway, London Road, as the most economical and efficient manner of repaving the Carriageway of this most important thoroughfare. The repairs that have been done from time to time in the London Road have been unsatisfactory, and the repairs that are now needed will involve a considerable cost. If a similar Contract were adopted with the Wood Paving Company for London Road as in the Borough High Street, it will be very little in excess of the cost of relaying, and the old Granite Cubes will be available for paving side streets where the traffic is not heavy. The first instalment to the Company will be payable twelve months after the completion of the work (about £400). Against this would be the value of the Old Cubes, which may be dressed and laid by the Vestry workmen.

The Vestry's workmen relaid the Paving on the southern side of the carriageway Old Kent Road, from Darwin Street to Kinglake Street, at a cost of 1/2½ per square yard. It will be necessary without delay to relay the Carriageway Paving on the northern side of the road from Waleran Buildings to Boundary.

The Brunswick Rock Asphalte Paving Company have laid 1,191 square yards of Asphalte in the Parish during the past year.

making a total quantity of Asphalte laid in the Parish since 1882 by this Company of 19,960 square yards, including Carriageways and Footways in 33 Streets. The work has been done to my satisfaction.

The Vestry's workmen have repaved the Footways, Tower Street, with new  $2\frac{1}{2}$  inch York Paving, the cost including material being at the rate of  $6/3\frac{1}{2}$  per square yard.

The nuisance of the Borough Road Railway Bridge still continues unabated, and I fear unless the Vestry adopt stringent measures in the shape of legal proceedings against the Company, no effort will be made by them to remedy the evil.

As directed by the Vestry I have prepared plans and return as to Roads in the district, suggested to be taken as Main Roads, by the London County Council; also the plans of Gun Street, Faxon Court, Wickham Gardens, part of King's Bench Walk, as insanitary areas, and detail plans and sections of the same.

I have prepared a report of the number of Footways and Carriageways in the Parish requiring repaving, a copy of which has been sent to each member of the Roads Committee, but no decision in the matter has yet been arrived at.

No car having been run over the tram lines, in the St. George's Road, for over twelve months, I should recommend the Vestry to call upon the South London Tramway Company to remove the tramrails and make good the paving; the same being in many places sunken below the tramrails.

The Contractors, Messrs. Ponsford & Son of Brixton have planted 84 fresh Trees in place of the dead ones during the months of November and December last. The additional space given to the fresh trees ordered by the Vestry will, I feel confident be of very great benefit to them, and if carried out to all the trees in the Parish would prevent many of them dying.

## SEWERS DEPARTMENT.

I have sent a report to the London County Council, of the premises occupied, from the insufficient capacity of Main Sewers, Old Kent Road and New Kent Road.

The whole of the Brick and Pipe Sewers have been flushed and cleared.

The necessity for the construction of Flushing Chambers at the summits of the Pipe Sewers that cannot be flushed by means of brick sewers, still continues. This is in consequence of the Water Company having laid on the constant water supply, in place of the intermittent, by this means stopping the flow of water that occurred, which was the means of flushing the pipe sewers.

It would be a very desirable improvement, to construct an Underground Urinal, Old Kent Road, in place of the present slate urinal near the Bricklayers' Arms, Old Kent Road, accidents are of frequent occurrence. By placing the urinal underground in accordance with plan and specification, presented and approved by Committee and Vestry, much greater space would be available for people crossing the road, and there would be much less chance of accident.

I again beg to draw the attention of the Vestry to the benefit that would arise to this Parish by the main sewers under the control of the London County Council being more thoroughly flushed by utilizing the water from the River Thames; this could be done by connecting the summits of main brick sewers on Southern side of Thames by means of 9-inch pipes with the river when an unlimited supply would always be available at high water. I have also again to report that the Main Sewer, Old Kent Road, is of insufficient capacity for the quantity of Sewage and Storm Water it has to take.

The undermentioned Works have also been executed, viz:—

Sewers opened, cleansed and repaired ... ..	52
House Drains connected into sewer ... ..	38
New Gullies constructed ... ..	11
House Drains cleared by Flushers... ..	38

I have the honor to be, Gentlemen,

Yours obediently,

A. M. HISCOCKS, C.E., *Surveyor.*

June, 1890.

STATEMENT  
OF  
ALLOWANCE BY THE AUDITORS  
OF THE  
ACCOUNTS OF THE CHURCHWARDENS.

(18 & 19 Vic., cap. 120, s. 196.)

We, the undersigned, Auditors of the Accounts for the Parish of St. George the Martyr, Southwark, having attended at the Office of the Vestry of the said Parish and there Audited the Accounts of the Churchwardens from the 26th day of March, 1889, to the 25th day of March, 1890, do hereby give our Allowance of the said Accounts, as the same are, in the Churchwardens' Cash Book and the Churchwarden's Ledger, signed by us, and we find the Cash Balances on the said 25th day March, to be as therein shewn, and the General Cash Balance in the hands of their Bankers to be Four hundred and Fourteen Pounds, Seventeen Shillings and Eight Pence.

Dated this 18th of day of August, 1890.

LORENZO EDMUND WILKINS,

THOMAS POCOCK,

JOHN GIBBERD,

Auditors for the Parish of St.  
George the Martyr, Southwark.
