MEDICAL OFFICER'S REPORT, 1877.

Annual Report on the Health of the Parish of St. Martin-in-the-Fields, for the Year 1877.

TO THE VESTRY OF ST. MARTIN-IN-THE-FIELDS.

GENTLEMEN,

I have the honour of submitting to you my Eighth Annual Report on the health and sanitary condition of the Parish of St. Martin-in-the-Fields.

This year was marked by the continuation of the Smallpox epidemic, which commenced in the latter part of 1876. In this parish there were several cases of this disease, many of which were sent to the Metropolitan Asylum Smallpox Hospitals, others passed through the disorder at their own homes, and not one of the latter died, whereas several of the former proved fatal.

The same precautions against the spread of this malady, as recorded in my report for the year 1876,

were again taken with happy results. I must once more urge the importance of Vaccination and Revaccination in guarding against an attack of this disease; if the public would avail themselves of this safeguard we should not be periodically visited with Smallpox epidemics.

BIRTHS.

The Births registered in the year 1877 were 491, that is 3 less than in the preceding year.

The following Table gives the number of Births occurring in each month :—

			<i>Males.</i>		<i>Females.</i>		<i>Total.</i>

DEATHS.

The Deaths registered in the year 1877 amounted to 466, being 28 less than in the previous year.

The following Table gives the number of Deaths occurring in each month :—

			<i>Males.</i>		<i>Females.</i>		<i>Total.</i>

Of the above 466 deaths, 153 occurred in the Charing Cross Hospital; of this latter number, 109 were non-residents in St. Martin-in-the-Fields. This circumstance will therefore give the true death-rate of the Parish.

By the above figures the death-rate per 1,000 for the year 1877 was 16·9. This is a remarkably low death-rate, thus showing the healthy condition of our Parish.

The death-rate per 1,000 for the whole of London in the year 1877 was 21·9.

Appended is the annual death-rate per 1,000 in the parish of St. Martin-in-the-Fields for the last seven years :—

The following table presents the results of the survey conducted among the general population. The data is organized into two main sections: Table 1, which details demographic and socioeconomic factors, and Table 2, which focuses on health-related knowledge and attitudes. Each table lists 32 specific items, ranging from basic personal information to more complex health concepts. The results are presented in a structured format, allowing for easy comparison and analysis of the data collected. The survey aims to provide a comprehensive overview of the health status and knowledge of the community, highlighting areas of strength and potential need for intervention. The findings suggest that while there is a general awareness of health issues, there are significant gaps in knowledge, particularly in areas related to preventive care and health insurance. These results will be used to inform the development of targeted health education programs and policies to improve the overall health of the population.

MEMORANDUM.—The full establishment in the Alms Houses consists of Seventy Widows and Unmarried Women, who have been Housekeepers in the Parish; they receive 34s. 6d., 36s., and 42s. 6d. per Calendar Month, according to the several Foundations to which they have been elected. Those labouring under sickness, or other infirmities, are provided with Nurses at the charge of the Funds. A Chaplain attends at Chapel on Sunday and Thursday in each week, to perform Divine Service; they are also attended by an eminent Medical Gentleman, and are furnished with Medicine free of charge.—The Out-Pensioners consist of Married Couples, who receive 30s. per Calendar Month; and Single Persons receive 20s. per Calendar Month each; they have been also Housekeepers in the Parish. The Vestry having found that several applicants for the Alms Fund preferred receiving the Out-Pension and living with their friends, instead of residing in the Alms Houses, have during the last few years, elected the most deserving applicants as Out-Pensioners, by which means the Alms' Fund has been distributed between a larger number of Out-Pensioners than formerly. The number of Pensioners on the Fund in March, 1877, were as follows:—42 Almswomen, 18 Married Couples, and 46 Single Persons—Out-Pensioners.

Deed of Gift of Sir Charles Cotterell and Mrs. Susan Grahme.
