THE
Thirty-first Annual Report
OF THE PROCEEDINGS OF
THE VESTRY
OF THE PARISH OF
ST. MARTIN-IN-THE-FIELDS,
COMMENCING 26TH MARCH, 1886, AND ENDING
25TH MARCH, 1887.

IN conformity with the 198th Section of the Metropolis Local Management Act, 1855, the Vestry submit the following Report for the year 1886-87, viz.:—

A Statement of the General and Sewers Rates made, and amounts collected, irrecoverable, and uncollected for the year ended 25th March, 1887 (pages 24 to 27).

A Statement of their Receipts and Expenditure during the year ended 25th March, 1887, and of their Assets and Liabilities on that day, with the Schedules referred to in such Statements, containing detailed particulars of each item therein (pages 30 to 42).

A Statement of the Contracts of the Vestry in force during the year ended 25th March, 1887 (page 43).

A Statement of the Receipts and Expenditure of the former Charity Trustees from the 1st January to the 31st October, 1886 (pages 46 to 49).

A Statement of the Churchwardens' Alms Account from the 19th May to the 31st October, 1886 (pages 52 to 55).

A Statement of the Receipts and Expenditure of the Trustees of the Almshouse and Pension Charity, and of the Churchwardens on their behalf, from the 1st November to the 31st December, 1886 (pages 58 to 63).

A Statement of the Churchwardens' Church Account from the 19th May, 1886, to the 20th May, 1887 (pages 66 to 69).

A Statement of the Receipts and Expenditure on account of the Poor Rates for the half-years ending respectively Michaelmas, 1886, and Lady Day, 1887 (pages 72 and 73).

A Statement of the Receipts and Expenditure of the Commissioners of Public Baths and Wash-houses for the year ended 31st December, 1886 (pages 76 to 79).

The Report of the Vestry's Medical Officer of Health, for the year ended 31st December, 1886, containing particulars of the population, rate of mortality, and other statistics relating to the general health of the Parish (pages 81 to 96).

And the Report of the Vestry's Surveyor for the year ended Lady-day, 1887, in which will be found the particulars of the works carried out under his supervision (pages 98 to 103).

VESTRY MEETINGS AND COMMITTEES.

The return attached to this Report (pages 6 and 7) shows that the Vestry have held 26 meetings, and the various Committees 36 meetings, during the year ended Lady-day, 1887.

SANITARY.

The Vestry have caused 107 Notices for Abatement of Nuisances to be served during the past year, and in all cases such notices have been complied with.

PARLIAMENTARY BILLS.

The following Bills were reported to have been withdrawn on the dates undermentioned, viz.—

METROPOLITAN STREET IMPROVEMENTS ACT (1877) AMENDMENT, H.C., 1st April, 1886.

PUBLIC PARKS AND WORKS (METROPOLIS) BILL, H.C., 10th June, 1886.

ELECTRIC LIGHTING ACT (1882) AMENDMENT.—This is a Bill to repeal the 27th section of the Electric Lighting Act, 1882, which enacts that local authorities may purchase undertakings at the expiration of 21 years, and subsequent periods of 7 years each at the *then* value of all lands, buildings, works, material, and plant, allowance being made in respect of the condition and state of repair of the same, but without any addition in respect of compulsory purchase, or of *goodwill*, or of any profits, or of any similar considerations, and instead thereof to extend the period of purchase to 42 years and subsequent periods of 10 years each, upon the local authorities paying the *then* market value of the *goodwill* of the business of the undertaking, and of all lands, &c., as above. Powers are sought to be obtained to enable the Board of Trade to vary the terms upon which any local authority may require the Undertakers to sell. On the 17th March, 1887, the Vestry determined to take no action thereon.

METROPOLIS LOCAL GOVERNMENT.—The Bill provides for the formation of 13 Municipal Boroughs for the purpose of governing the Metropolis, for the appointment of Mayors, Aldermen, and Councillors for the respective Boroughs, for the formation of a Metropolitan Municipal Council (of which the Lord Mayor of London shall be Chairman), the transference of all powers now vested in the Metropolitan Board and the City Corporation to the Metropolitan Municipal Council, the transference of all powers now vested in the Vestries, District Boards, Paving Commissioners, Burial Boards, Commissioners for Public Baths, &c., and Commissioners for Public Libraries, &c., to the Municipal Boroughs, and the transference of all powers possessed by the Metropolitan Board

PARLIAMENTARY BILLS—*continued.*

over the Vestries and District Boards to the Metropolitan Municipal Council over the Municipal Boroughs.

Under the Bill it is proposed that the Metropolitan Municipal Council may apply to Parliament for powers for any of the following purposes, viz.:—The regulation of hackney and stage carriages, the amalgamation and transfer of the City and Metropolitan Police Forces to the Council, the purchase of gas and water and any artificial light undertakings, and improving and extending the main drainage of the Metropolis, and the prevention of the precipitation of sewage matter into the Thames at any point nearer than 30 miles eastward of London Bridge. In addition to the works proposed to be transferred by the Government to the Metropolitan Board under the Public Parks and Works (Metropolis) Bill, the powers, duties, debts, and liabilities of Trafalgar Square, New Palace Yard, St. Margaret's Street, Old Palace Yard, Little Abingdon Street, and adjoining streets, all in Westminster, and Brompton Cemetery, are proposed to be transferred to the Metropolitan Municipal Council. On the 17th March, 1887, it was resolved that no action be taken thereon, but that it be an instruction to the Parliamentary Committee to watch the progress of the Bill, and to report thereon from time to time.

METROPOLIS MANAGEMENT ACTS (AMENDMENT).—This Bill proposes to confer further powers with respect to the subsoil of Streets, and the laying of Mains and Pipes in the Metropolis, that the former may not be removed without the consent in writing of the local authorities, or on appeal, of the Metropolitan Board of Works, and as regards the latter that any company or person intending to lay, for the first time, mains or pipes under any street, &c., shall give notice to the local authority, showing the position, &c., in which the same are proposed to be laid, and in case the local authority do not approve of the proposed positions and substitute others, an appeal may be made to the Metropolitan Board of Works, whose decision shall be final. On the 17th March, 1887, it was resolved that no action be taken thereon.

METROPOLITAN BOARD OF WORKS (FIRE BRIGADE EXPENSES).—On the 23rd December, 1886, it was resolved that the Metropolitan

PARLIAMENTARY BILLS—*continued.*

Board be informed that the Vestry are of opinion that any Bill which may be promoted by the Board should limit the *maximum* rate to be made for the purposes of Fire Brigade expenses at 1*d.* in the £, and they are further strongly of opinion that as the Fire Insurance Companies will be materially benefited by such enlargement, the *minimum* amount to be contributed by them should be the sum of £40 per £1,000,000 insured per annum; that a copy of the resolution be forwarded to the Right Hon. W. H. Smith, M.P., and he be requested to support any Bill which may be promoted on the above terms, and copies to the Metropolitan Vestries and District Boards, suggesting their adoption of a similar course.

PUBLIC PARKS AND WORKS (METROPOLIS).—On the 3rd February, 1887, it was resolved that the Vestry take no action with regard to the Bill.

SCHOOL BOARD FOR LONDON (PENSIONS).—This Bill proposes to enable the School Board to grant superannuation allowances to any officer or servant retiring from their service by reason of permanent infirmity or old age. No allowance shall be paid unless the officer agree to a deduction of 2 per cent. from his salary, wages or emoluments, which deductions shall be carried to a separate fund and invested. If the Fund be insufficient for the purpose, it is proposed that the Board may pay the deficiency out of any money properly applicable as revenue, and that the revenue account shall be recouped all such payments, but without interest, out of the next available moneys which would otherwise be carried to the Fund. On the 17th March, 1887, it was resolved that the Board be informed the Vestry approve of the principle of the Bill, but are opposed to any charge being made upon the revenue account in respect of the same, and that a Petition be presented against the proposal to pay allowances or gratuities, either temporarily or otherwise, out of the revenue account.

SOUTH EASTERN RAILWAY COMPANY, VARIOUS POWERS ACT, 1882 (EXTENSION OF TIME).—On the 17th March, 1887, it was resolved to present a Petition against the proposed extension.

PARLIAMENTARY BILLS—*continued.*

VESTRYMEN'S QUALIFICATION.—This Bill proposes to enact that the Vestry elected in any parish shall consist of persons rated or assessed to the relief of the poor, and that *any* person shall be capable of being elected who is rated or assessed as the occupier of a house, lands, tenements, or hereditaments in such parish. On the 17th March, 1887, it was ordered that a Petition be presented against the Bill.

HYDE PARK CORNER (NEW STREETS) BILL.

On the 1st April, 1886, letters were submitted from the Metropolitan Board of Works, and the Vestry of St. George, Hanover Square, stating that the Bill having been referred to a Parliamentary Committee, the Conference proposed by the Vestry's Solicitors was unnecessary and undesirable.

On the 15th April it was reported that the Select Committee of the House of Commons had decided that so much of this parish as is outside the present railings of the Green Park be severed from the parish and be thrown into that of St. George, Hanover Square, that the cost of maintenance of the new roads should be borne in equal moieties by the Metropolitan Board of Works and the Vestry of St. George, Hanover Square, and that the Government had abandoned that portion of the Bill directing that any expenses for maintenance in the past be repaid to the Commissioners of H.M.'s Works, &c.

On the 29th April Mr. James, M.B.W., informed the Vestry that the Metropolitan Board had determined to petition in the House of Lords against the amended Bill of the Commons' Select Committee. On the 13th May it was resolved to petition the House of Lords against alterations being made in the Bill, and to appear if necessary by Counsel to support the petition. On the 24th June it was reported that the Bill had that day been thrown out by the Select Committee of the Upper House.

The Clerk reported on the 25th November that Gazette Notices had been published of the intention of the Government to re-introduce the Bill. On the 3rd February it was reported that the

HYDE PARK CORNER (NEW STREETS) BILL—*continued*.

Bill had been set down for second reading in the House of Commons on that day, and the Solicitors were instructed to take all necessary proceedings in opposition. On the 17th February the Solicitors reported that the Bill was precisely the same as that thrown out by the Lords' Select Committee last Session. It was reported on the 3rd March that the Bill had been read a second time on the 1st March, and that the Vestry's Petition against alterations had been sealed and forwarded to the Rt. Hon. W. H. Smith, M.P., for presentation.

ELECTRIC LIGHTING.

On the 27th May, 1886, it was reported that the Board of Trade had declined to accede to the request of the West London Electric Lighting Order (Draft) to allow the Provisional Order to proceed, and to leave the objections of the local authorities to be dealt with at a later stage. On the 8th July a notice was submitted of intended application to be made in the then ensuing Session by the West London Electric Lighting Company for a Provisional Order to supply electricity within this parish, and for extending, altering, or varying the St. James, St. Martin, and St. George, Hanover Square (West London) Electric Lighting Order, 1884. On the 9th December a letter was submitted from the Board of Trade stating that the Undertakers having failed to show to the satisfaction of the Board that they are in a position fully and sufficiently to discharge their obligations, the Board propose to revoke the Order. On the 17th February, 1887, a notice of the revocation of the Order by the Board was submitted to the Vestry.

TREES IN PARISH CHURCHYARD.

It was resolved, on the 17th March, 1887, that the best thanks of the Vestry be accorded to the Vicar and Churchwardens for permitting the planting of trees in the parish Churchyard, and also to the Metropolitan Public Garden, Boulevard, and Playground Association for their generous gift of the trees.

ALMSHOUSE AND PENSION CHARITY.

On the 30th September, 1886, a letter from the Charity Commissioners was submitted, enclosing copies of the Order made by them for the establishment of the new Scheme, and stating that they had fully satisfied themselves as to the claims of all the parishes enumerated therein to participate in the benefits of the Charity. The further consideration of the Scheme was taken on the 19th October, when it was decided to convene a Public Meeting of ratepayers of the parish, for the purpose of considering the Scheme, and of taking such action thereon as might be considered desirable. At the Public Meeting referred to a deputation was appointed to wait upon the Charity Commissioners for the purpose of endeavouring to obtain a revocation of the Order; the Commissioners, however, declined to receive the deputation.

On the 28th October Captain Clifford Probyn and Mr. William Challice were appointed Representative Trustees under the Scheme.

NEW STREET FROM CHARING CROSS TO TOTTENHAM COURT ROAD (CHARING CROSS ROAD).

On the 22nd July, 1886, it was resolved that the Metropolitan Board be requested to plant trees in so much of the roadway as is situate in this parish on both sides. On the 9th December it was resolved that having regard to the objectionable line of the footway caused by the position of the land at the eastern end of the National Gallery, the Metropolitan Board be requested to take steps to acquire so much of the land as may be necessary for the purpose of widening the roadway at the point indicated. On the 17th March, 1887, a letter was submitted from the Metropolitan Board stating that the sole power and authority of maintaining the new street (called Charing Cross Road) rests upon the local authorities in which the same is situate.

METROPOLITAN BOARD OF WORKS.

A comparative statement of the amounts of the above Board's Precepts for the last 10 years is hereunder shown.

* NOTE.—The Board's Precept for the half-year ending Michaelmas, 1887, has, up to the present, only been issued.

ELECTION EXPENSES.—A letter was, on the 1st April, 1886, submitted from the Education Department stating that a return of the cost of the last election had been ordered by Parliament, and that it might be inspected at the Office of the School Board.

SCHEDULING OF SITES AT LONG ACRE AND DUKE'S COURT.—On the 1st April, 1886, a letter was submitted from the Board stating they had decided not to proceed with the Scheduling of the above Sites.

On the 28th October, 1886, it was resolved that the Education Department be requested to introduce a Bill to provide for the filling up of casual vacancies by direct election by ratepayers of the divisions in which such vacancies have occurred, instead of by the Board itself.

On the 17th March, 1887, it was resolved that in the opinion of the Vestry succeeding generations should be made chargeable to a greater extent with the cost of the freeholds, school-buildings, and other permanent works of the Board, and in order to that end, that payments to the sinking fund should be extended from 50 to 100 years; and that it is desirable that the Board be authorised to obtain Parliamentary powers to issue 3 per cent. Stock; or that the Metropolitan Board be required to advance loans to the School Board on the same terms at which the Stock is taken up by the public, and copies of the resolution were ordered to be forwarded to the Education Department, Metropolitan Members of Parliament, the Corporation of the City of London, the Metropolitan Board of Works, and the Vestries and District Boards, and that they severally be requested to urge the School Board representatives to support the same.

SCHOOL BOARD FOR LONDON—*continued*

ELECTORAL DIVISIONS.—On the 17th March, 1887, it was resolved to inform the Board that the Vestry approve of the alterations proposed by the Board, viz.:—that 19 divisions in place of 11 be created, and that 71 members be returned instead of 51; but they are opposed to the principle of cumulative voting, and are of opinion that casual vacancies should be filled up by the ratepayers, and not by the members of the Board.

POOR, GENERAL AND SEWERS RATES.

A statement of the above Rates made by the Vestry for the last 10 years is hereunder shown.

NOTE.—The General Rate includes the amount required by the School Board for London to meet their Precept, which, in 1886, was at the rate of about $9\frac{3}{4}d.$ in the £., and the Sewers Rate is inclusive of the amount required by the Metropolitan Board of Works under their Precept, at the rate of about $7\frac{1}{4}d.$ in the £.

CHURCHWARDENS AND SIDESMEN.

On the 29th April, 1886, Mr. David Laing and Mr. James Cantlie, F.R.C.S., were respectively elected Senior and Junior Churchwardens, and Messrs. Thomas Hill, Robert Stokes, William Challice and William Stephens Cross, Sidesmen for the then ensuing year.

DEATH OF A MEMBER OF THE VESTRY.

On the 20th January, 1887, the decease of Mr. H. R. Burton, a member of the Vestry, was reported; a resolution expressive of the sympathy of the Vestry was ordered to be forwarded to Mrs. Burton and her family, and on the 3rd February a letter was submitted from Mrs. Burton, expressing her thanks for the same.

VESTRY ELECTIONS.

The Annual Election of members of the Vestry took place without contests in the several Wards on the 3rd May, 1886.

INDUCTION OF THE VICAR (THE REV. J. F. KITTO, M.A.).

On the 15th April, 1886, the Rev. John Fenwick Kitto, M.A., formerly Rector of St. Dunstan, Stepney, was inducted to the Vicarage, in accordance with ancient form and custom.

ST. MARTIN'S PUBLIC BATHS AND WASH-HOUSES.

The Rev. John Fenwick Kitto, M.A. (the Vicar), and Mr. Churchwarden David Laing were, on the 13th May, 1886, elected Commissioners of the above for the usual period of three years.

ARCHBISHOP TENISON'S SCHOOL.

On the 13th May, 1886, Mr. Francis John Barron was re-elected a representative Governor of the above School for the usual term of three years.

COAL, CORN AND WINE DUTIES.

On the 30th September, 1886, it was resolved that the Metropolitan Board be informed that, in the opinion of the Vestry, it is desirable that the Duties, expiring in 1889, be renewed for a further period of seven years, and the amount receiveable therefrom be applied to the purposes of Metropolitan Improvements. Similar communications were subsequently ordered to be forwarded to the City Corporation, and the Vestries and District Boards, and the Metropolitan Members of Parliament. On the 17th February, 1887, it was resolved that the Vestry suggest to such of the local authorities as are in favor of the continuance of the Coal and Wine Duties, the desirability of a Conference with a view to the holding of public meetings for the purpose of urging upon H.M.'s Government the reconsideration of their determination not to renew the Duties.

PROPOSED NEW VESTRY HALL AND OFFICES.

On the 9th December, 1886, a Committee of the whole Vestry was appointed to consider and report as to the cost of and site for the above. On the 17th February, 1887, in reply to a letter from

the Metropolitan Board of Works, it was resolved to inform the Board that, conditionally upon the Vestry obtaining from the Board the piece of land fronting St. Martin's Place, they would be disposed to negotiate with the Marquis of Salisbury for the acquisition of the site fronting St. Martin's Lane, or that the Vestry would be prepared to negotiate with the Board after the purchase by them of the site fronting St. Martin's Lane for the transfer of the same to the Vestry, and that in the event of the Vestry being able to acquire the site fronting St. Martin's Lane, they would set back the frontage of their premises to the general line of frontage of the street, and enquiring whether, in the event of the improvement being effected, the Board would contribute any proportion of the cost. On the 17th March, a letter from the Board was submitted stating that a resolution had recently been passed by them to submit their surplus lands in the first instance to public auction, and they therefore had no power to treat with the Vestry for the sale of the land, and further stating that in the event of the Vestry undertaking to set back the premises, Nos. 113, 114 and 115, St. Martin's Lane, the Board would contribute one moiety of the cost, whereupon it was resolved to treat with the Marquis of Salisbury for the acquisition of the premises referred to, or as an alternative for the acquirement of the premises at the rear of the Vestry Hall, known as St. Martin's Mews.

PUBLIC LIBRARIES AND MUSEUMS.

On the 17th February, 1887, a letter was received from the Overseers of the Poor of the Parish, stating, as a result of a poll, a majority of ratepayers had declared in favor of the adoption of the Public Libraries Acts, and on the same day the Vestry appointed the following gentlemen Commissioners to administer the Acts, viz. :—The Rev. J. F. Kitto, M.A. (the Vicar), Mr. W. Challice, Mr. L. C. Drummond, Mr. G. James, the Hon. A. F. Kinnaird, Mr. D. Laing, Mr. T. Prescott, Captain C. Probyn, and Mr. E. J. Watherston.

JUBILEE OF HER MAJESTY'S REIGN.

On the 3rd March, 1887, it was resolved to request the Vicar and Churchwardens to convene a public meeting to consider the above subject.

DRINKING FOUNTAIN

On an application made by Mrs. Humphry, the Vestry, on the 17th March, 1887, gave their permission for the erection of a drinking fountain in Adelaide Street, at the South-East corner of the parish Churchyard wall, in memory of the late Vicar (the Rev. W. G. Humphry, B.D.).

ASTENOR

ASTENOR, the first of the Astenor family, was born in the year 1780, in the town of Astenor, in the State of New York. He was the son of John Astenor, a farmer, and Mary, the daughter of John Smith, a merchant.

He was educated in the common schools of his native town, and at the Astenor Academy, where he received a liberal education. He was a member of the Astenor Society, and was elected its president in the year 1800.

He was married in the year 1805, to Mary, the daughter of John Smith, a merchant. They had three children, John, Mary, and Elizabeth. He died in the year 1850, at the age of 70 years.

He was a man of great industry and energy, and was distinguished by his talents and his virtues. He was a member of the Astenor Society, and was elected its president in the year 1800.

He was a man of great industry and energy, and was distinguished by his talents and his virtues. He was a member of the Astenor Society, and was elected its president in the year 1800.

CHARITY ESTATES.

Amount of Stock on the 31st October, 1886:—	£	s.	d.
Mrs. Wood's Legacy and Lord Henry Seymour's Bequest,			
3 per Cent. Consols	9,632	18	4
Sinking Fund, New 3 per Cent. Annuities	3,440	13	7
	£13,073	11	11

MEMORANDUM.—The full establishment in the Alms Houses consists of 42 Widows and Unmarried Women, who have been Housekeepers in the Parish; they receive 34s. 6d., 38s. 6d., and 42s. 6d. per Calendar Month, according to the several Foundations to which they have been elected. Those labouring under sickness, or other infirmities, are provided with Nurses at the charge of the Funds. A Chaplain attends at Chapel on Sunday and Thursday in each week, to perform Divine Service; they are also attended by an eminent Medical Gentleman, and are furnished with medicine free of charge.—The Out-Pensioners consist of Married Couples, who receive 30s. per Calendar Month; and Single Persons receive 20s. per Calendar month each; they have also been Housekeepers in the Parish. The number of Pensioners on the Fund on the 31st October, 1886, was as follows:—36 Almswomen, and 14 Married Couples, and 62 Single Persons Out-Pensioners.

Deed of Gift of Sir Charles Cotterell and Mrs. Susan Grahme.

	£	s.	d.
SIR CHARLES COTTERELL, in 1686, gave for 8 Alms Women in the Alms Houses on his Foundation	20	0	0
	per annum arising from the Manor of Drayton and Westover, in the County of Somerset.		
AND			
MRS. SUSAN GRAHME, in 1686, for 4 Alms Women in the Alms Houses on her Foundation	50	0	0
	per annum arising from the same Manor.		
	8	19	7
	per annum, the residue of the Rent-charge purchased by the Vestry with £179 Parish Stock.		
	£78	19	7

The above amount is paid to the twelve Alms Women above referred to by monthly payments, independently of the monthly payment they each receive from the Parish Foundation.

Smith's Charity.

HENRY SMITH, Esq., bequeathed by will, in 1626, to 24 parishes the Rents, &c., of his Manor, and the amount of their respective shares vary from £12 to £30 per annum, according to the declarations of the Will.

The proportion of the Rent received by this Parish varies from £20 to £24 per annum, and arises from the Manor and Rectory of Longney, in the county of Gloucester. The proceeds are distributed by the last senior Churchwarden, in Clothing, Provisions, or Moneys to poor persons of good character, who have been or are residents, or who have lived in the Parish at least five years, either as Housekeepers or Lodgers.

MEDICAL OFFICER'S REPORT,
1886

*Annual Report on the Health of the Parish of St. Martin-in-the-Fields,
for the Year 1886.*

TO THE VESTRY OF ST. MARTIN-IN-THE-FIELDS.

GENTLEMEN,

I have the honour of submitting to you my Seventeenth Annual Report on the health and sanitary condition of the Parish.

This year has not been marked by the visitation of any special epidemic, such as small-pox, &c.

The deaths were one less than in the preceding year, and the death-rate, after deducting those non-parishioners who died in the Charing Cross Hospital and adding those parishioners who died in institutions outside the Parish, was less than in the previous year.

We may, therefore, congratulate ourselves that sanitary science, the better knowledge and treatment of disease, are tending to the lowering of the death-rate. Of course, we are not perfect—if such a state of things can be attained—but within the last few years great and wonderful progress has been made in reducing the mortality, as the gradual decline in the death-rate of London will show. London, the largest city in the world, can fairly claim to be the healthiest.

Some short time since I met an American gentleman who had travelled much, and in the course of conversation he informed me that he considered this metropolis the best kept city he had ever seen.

BIRTHS.

During the year 1886 there were registered 356 Births, of which 191 were males, and 165 females. This, with the exception of last year, is the lowest number of the last ten years.

The following Table gives the number of Births occurring in each month of the year:—

				<i>Males.</i>	<i>Females.</i>	<i>Total.</i>
January	15	19	34
February	23	13	36
March	17	17	34
April	12	12	24
May	7	7	14
June	20	15	35
July	15	12	27
August	19	11	30
September	20	19	39
October	24	9	33
November	10	20	30
December	9	11	20
				<u>191</u>	<u>165</u>	<u>356</u>

The Birth-rate of the Parish for the year 1886 was 19·6 per 1,000.

The Births registered in London in 1886 numbered 133 700, giving the proportion of 32·3 Births in the year to 1,000 inhabitants.

This is the lowest rate on record since 1850, when the rate was 32·0.

DEATHS.

In the year 1886 there were registered 425 Deaths, of which 235 were males, and 190 females; this number is one less than in the previous year.

The following Table gives the number of Deaths occurring in each month of the year :—

			<i>Males.</i>		<i>Females.</i>		<i>Total.</i>
January	30	..	23	..	53
February	17	..	21	..	38
March..	40	..	35	..	75
April	23	..	17	..	40
May	20	..	12	..	32
June	20	..	15	..	35
July	14	..	15	..	29
August	13	..	9	..	22
September	15	..	10	..	25
October	13	..	9	..	22
November	16	..	15	..	31
December	14	..	9	..	23
			<hr/>		<hr/>		<hr/>
			235		190		425
			<hr/>		<hr/>		<hr/>

Of the above 425 Deaths, 160 occurred in the Charing Cross Hospital, and of this number who died in that Institution, 140 were non-residents in the Parish. In public Institutions situate without the Parish, 52 deaths of Parishioners occurred. Amongst the tables will be found one giving details of those 52 deaths.

The Death-rate of the Parish for the year 1886 was 18·2 per 1,000, more than one less than in the previous year. Ratio of deaths to population, 1 in 55.

The Deaths registered in London during the year 1886 were 82,276, and corresponded to an annual death-rate of 19·9 per 1,000.

Appended is the annual death-rate per 1,000 in the Parish of St. Martin-in-the-Fields, during the last ten years :—

1877	16·9
1878	17·5
1879	18·6
1880	16·8
1881	18·5

1882	17·6
*1883	19·0
1884	19·7
1885	19·3
1886	18·2

AGES AT DEATH.

The ages of the total 425 deaths occurring in the Parish were as follows:—

73	were	under	1	year.
46	from	1	to	5 years.
34	„	5	„	20 „
84	„	20	„	40 „
97	„	40	„	60 „
85	„	60	„	80 „
6	above	80	years.	

CAUSES OF DEATH.

ZYMOTIC DISEASES.—The seven principal Zymotic Diseases are Small-pox, Measles, Scarlet Fever, Diphtheria, Whooping Cough, Fever, and Diarrhœa. In computing the number of deaths from this class of malady, I have this year adopted a different method. In former years I included all those deaths which occurred in the Charing Cross Hospital to compensate for those deaths of parishioners who died in public institutions outside the parish, and of which I was ignorant, until within the last four years, when I have been supplied with quarterly returns of such deaths from the office of the Registrar-General. The revised table No. 5, at the latter part of my Report, will demonstrate my plan, and the number and classification of this class of disease. It will be seen on referring to this table, that in the four years 1883, 1884, 1885 and 1886, there has been a steady decline in the mortality, with the exception of a rise of 4 in 1886, over that of 1885. Of course all diseases have a tendency to fluctuate from year to year, but at the same time St. Martin-in-the-Fields will compare favourably with other districts.

* This is the first year returns have been supplied to me from the Registrar-General's Office of deaths of parishioners occurring in Public Institutions outside the Parish, which deaths have been added to the death-rate.—J. J. S.

SMALL-POX.—No death or illness from this disease came to my knowledge.

MEASLES.—Five deaths occurred within the parish, and 1 outside.

SCARLET FEVER.—No death occurred from this complaint. Five cases were removed to the Metropolitan Asylums Hospital, and all recovered.

DIPHTHERIA.—Five deaths occurred from this complaint in the Charing Cross Hospital, all non-parishioners, and 1 death of a parishioner occurred in Hospital outside the parish.

WHOOPIING COUGH.—Eleven deaths were registered in the parish, and 2 outside.

FEVER.—This includes Typhus, Typhoid, Simple Continued Fever, and Remittent Fever. Four deaths were attributed to this class of malady, 2 of which were non-residents who were admitted into the Charing Cross Hospital. One death of a parishioner occurred in Hospital outside the parish.

DIARRHŒA.—Fifteen deaths were due to Diarrhœa, a number in excess of previous years.

Diseases of the Respiratory Organs, inclusive of Consumption destroyed 158

The deaths from all other causes, with the ages at death, will be found fully detailed in a table further on.

INQUESTS.

In the year 1886, there were held 60 inquests. Subjoined are the causes which produced death:—

Natural causes	22
Burns and Scalds	2
Suffocations — Infants when in bed with parents	3

SANITARY WORK.

In the year 1886, 107 notices were served upon the owners or occupiers of property, besides numerous verbal recommendations to remedy nuisances and sanitary defects. One summons was taken out against the owner of a house who disregarded the notice served upon him to perform certain specified sanitary works; the constable was unable to serve the summons, owing to his inability to find the owner. The ground-landlord however caused the house to be

vacated and closed, and the premises have since been put into a proper state of repair.

Cecil Court.—After some delay and further communications with the ground-landlord and his agent, the remainder of the houses were vacated and closed. The whole of the Court is to be pulled down and re-built.

In my fortnightly report of March 4th, I brought under your notice a case of overcrowding, and in so doing pointed out the hardships the poor had to contend with in respect to house accommodation. I addressed you as follows:—

“I have to draw your attention to a case of overcrowding on the first floor front at 10, Turner’s Court. The cubical contents of the room are 1190 ft. This space, according to the regulations of houses let in lodgings, would accommodate three adults if used for a day and night room, and four adults if used only as a sleeping room. On my visiting the place I ascertained that the room was used as a day and sleeping room, and was occupied by a man, wife, a girl 10 years of age, a boy of 8 years of age, a boy of 7 years of age, a girl of 5 years of age, and a girl nearly 3 years of age, in all 2 adults and 5 children. For this room they paid 4s. 6d. per week, which is equivalent to £11 14s. per annum. Formerly these people rented both back and front rooms, but in consequence of the man’s precarious earnings, he was compelled to give up the back room; I should state this man is employed as a porter in Covent Garden Market. I have detailed this case thus fully to show you the crying and urgent necessity of providing the poorer class with decent and wholesome dwellings at a reasonable rent compatible with their means. The rent they now pay for their miserable rooms and accommodation is exorbitant, and when you consider the precarious earnings of the poor, the claim for rent presses very harshly upon them. How can it be expected that children brought up in such surroundings will turn out good men and women?”

The above cited case is a type of many thousands in London. With the demolition of so many houses occupied by the poor, they are driven away to overcrowd other neighbourhoods. What is

wanted are wholesome dwellings at a reasonable rent consistent with the scanty earnings of the poor. The Peabody Buildings are admirable and excellent institutions, but they do not meet the means of the poorest class.

BAKE-HOUSES.

The bake-houses have been duly inspected, and with the exception of one which required lime-whiting, they were all in a cleanly and orderly condition. I could not ascertain that any lad under the age of 18 was employed during the restricted hours, viz., from 9 o'clock at night till 5 o'clock in the morning.

HOUSES LET OUT IN LODGINGS.

Your Inspector, whom you appointed permanent inspector of these houses, has regularly inspected them, and reported to me all sanitary defects that came under his notice.

DUSTING.

During the year 3,360 applications have been made at the Vestry Hall for the removal of dust. This number does not represent the whole of the work done by the contractor—those houses and large establishments where the contractor has certain specified days for its removal, are not included in the above figures. Your Surveyor and Inspector both agree as to the satisfactory and punctual manner in which the work is done. Whilst speaking on the subject of dust removal, I would draw your attention to the inconvenient and improper situations in which dust-bins are placed, often within the house; and when it is considered what refuse is frequently thrown into them, refuse consisting of animal and vegetable matter, which, in the course of decay, sends forth a noxious and offensive effluvia, it will be patent that such an arrangement and practice is highly detrimental to health and comfort. In some parts of the parish the Continental system is adopted, that is, placing the dust in proper receptacles, and every morning at an early hour these are deposited on the pavement, when, the dust-cart passing by, the contents of each are shot into it. It is a pity this salutary measure is not universally adopted. It is to be recommended on the grounds of cleanliness, saving of time and trouble.

FOOD AND DRUGS ACT.

Your Analyst under this Act has made 29 analyses. The following are the samples with the result, of each examination:—

2	samples of bread	..	genuine.
5	„ „ butter	..	„
2	„ „ coffee	..	„
2	„ „ tea	..	„
2	„ „ mustard	..	„
7	„ „ milk	..	„
2	„ „ whiskey	..	„
3	„ „ arrowroot	..	„
2	„ „ carbolic acid*		
2	„ „ „ powder*		

The pipe-sewers have been regularly flushed, those gullies emitting offensive effluvia have also been flushed with carbolic acid and water, and the several courts and passages in the Parish lime-whited.

In conclusion I must again bear testimony to the zeal and intelligence of your Inspector in the discharge of his duties, and also acknowledge with thanks the promptitude with which the Relieving Officer of the district keeps me informed of all infectious diseases and nuisances coming under his notice.

I have the honour to be, GENTLEMEN,

Your obedient Servant,

JOHN J. SKEGG,

Medical Officer of Health.

29, CRAVEN STREET,

June, 1887.

* These disinfectants used by the Vestry were found on analysis not up to standard of contract.
