THE
Thirty-fifth Annual Report
OF THE PROCEEDINGS OF
THE VESTRY
OF THE PARISH OF
ST. MARTIN-IN-THE-FIELDS,
COMMENCING 26TH MARCH, 1890, AND ENDING
25TH MARCH, 1891.

IN conformity with the 198th Section of the Metropolis Local Management Act, 1855, the Vestry submit the following Report for the year 1890-91, viz.:—

A Statement of the General and Sewers Rates made, and amounts collected, irrecoverable, and uncollected for the year ended 25th March, 1891 (pages 28 to 31).

A Statement of their Receipts and Expenditure during the year ended 25th March, 1891, and of their Assets and Liabilities on that day, with the Schedules referred to in such Statements, containing detailed particulars of each item therein (pages 34 to 48).

A Statement of the Contracts of the Vestry in force during the year ended 25th March, 1891 (page 49).

A Statement of the Receipts and Expenditure of the Trustees of the Parochial Charities, for the year ended the 31st December, 1890 (pages 52 to 55).

A Statement of the Receipts and Expenditure of the Trustees of the Almshouse and Pension Charity, for the year ended the 31st December, 1890 (pages 58 to 61).

A Statement of the Churchwardens' Church Account from the 29th April, 1890, to the 2nd May, 1891 (pages 64 to 67).

A Statement of the Receipts and Expenditure on account of the Poor Rates for the half-years ending respectively Michaelmas, 1890, and Lady-day, 1891 (pages 70 and 71).

A Statement of the Receipts and Expenditure of the Commissioners of Public Baths and Wash-houses for the year ended 31st December, 1890 (pages 74 to 77).

A Statement of the Receipts and Expenditure of the Commissioners for Public Libraries and Museum for the year ended Lady-day, 1891, a Statement relative to the opening of the new building and other information (pages 80 to 82).

The Report of the Vestry's Medical Officer of Health, for the year ended 31st December, 1890, containing particulars of the population, rate of mortality, and other statistics relating to the general health of the Parish (pages 83 to 105).

And the Report of the Vestry's Surveyor for the year ended Lady-day, 1891, in which will be found the particulars of the works carried out under his supervision (pages 107 to 129).

VESTRY MEETINGS AND COMMITTEES.

The return attached to this Report (pages 6 and 7) shows that the Vestry have held 25 meetings, and the various Committees 72 meetings, during the year ended Lady-day, 1891.

SANITARY.

The Vestry have caused 145 notices for Abatement of Nuisances to be served during the past year, and in all cases the works ordered have been executed.

PARLIAMENTARY BILLS AND ACTS OF PARLIAMENT.

BEER ADULTERATION.—This Bill, which is for better securing the purity of beer is almost identical with that introduced in the previous Session, and on the 24th April, 1890, it was determined that no action be taken thereon. The Bill was subsequently dropped.

CHEAP TRAINS (LONDON).—The object of the Bill is to fix for passengers by all workmen's trains arriving at a Metropolitan Terminus before 8 a.m. from any station within 12 miles of the terminus, a maximum return fare of $\frac{1}{2}d.$ per mile, such tickets to be available to return by any train departing from the terminus after 5 p.m. on the day of issue, and after 12 at noon on Saturdays. Second reading of the Bill was negatived on the 24th February, 1891.

COMPANIES (WINDING UP).—The object of this Bill is evidenced by its title. No action was taken by the Vestry thereon.

COUNTY COUNCILLORS (QUALIFICATION OF WOMEN).—This Bill, which is to enable women to act as County Councillors and Aldermen in the same manner and on the same condition as men, was eventually dropped.

HOUSING OF THE WORKING CLASSES (METROPOLIS) No. 2.—The object of the Bill is to enable the London County Council to acquire land, build and let houses, provide open spaces, baths, halls, &c., for the benefit of the poorer classes. The Bill was subsequently dropped.

INFECTIOUS DISEASE (PREVENTION).—The adoption of the provisions of the Bill is optional upon local authorities. It is sought to be enacted that cowkeepers and others shall furnish lists of their customers in certain cases. Powers are sought to be obtained for enabling Medical Officers of Health to inspect dairies situate beyond their districts. Persons engaged in washing or mangling may be compelled to give the names and addresses of their customers. The local authorities, if they think fit, may themselves, without consent

of the occupiers, disinfect premises and make compensation for any articles destroyed. Persons may not cease to occupy houses without previous disinfection, must give notice to the owners, and may not make false answers. No body of a person who has died of an infectious disease may be retained in a house elsewhere than in a mortuary for more than 48 hours without the sanction of a medical practitioner. Bodies of persons so dying in any hospital or place of temporary accommodation, may be removed therefrom only for burial except with the like sanction, and save and except to a mortuary. Justices may in certain cases order bodies to be buried, and they may order the detention of infected persons in hospital in default of proper lodging elsewhere. Corpses may not be carried in a public conveyance, except a hearse, without notice to the owner or driver, who shall immediately disinfect the conveyance. Penalties are provided for the preceding and other similar offences enumerated in the Bill. Clauses 5 and 6, requiring dairymen and persons engaged in washing or mangling to furnish lists of their customers, were subsequently withdrawn, and other minor amendments having been made, the Bill was read a third time in the Commons and passed.

LONDON OVERHEAD WIRES.—This is a Bill to provide for the control and regulation of Overhead Wires, and, unlike previous Bills, with the exception of any street, road, embankment, bridge, park, garden, or open space, vested in the London County Council, the Commissioners of Sewers, and the Vestries and District Boards, are constituted the Local Authorities. Under its provisions the Council may require Companies to remove existing wires over streets in which there are subways, and to charge for the use of the same; wires must be maintained in proper condition and repair, and in case of failure, the Council may execute any works and recover their cost. New overhead wires may not be placed without the permission of the Council and the Local Authority. Rights over private properties are not to be acquired except by agreement. Wires in such a condition that danger to the public may be apprehended may be required to be removed or altered. On the 26th February, 1891, it was resolved to request the Member for the Borough to support the Bill.

PARLIAMENTARY BILLS, ETC.—*continued.*

LONDON SCHOOL BOARD ELECTIONS.—This is a similar Bill to that of last Session, and on the 26th February, 1891, it was resolved to inform the Board that the Vestry approve of the proposed alterations in the representation, but are opposed to cumulative voting, and the filling up of casual vacancies by the Board.

LONDON STREETS (STRAND IMPROVEMENT).—This Bill, the provisions of which have been widely and exhaustively discussed, applies the principle of "betterment" to the area alleged by the London County Council to be improved by the proposed widening of the Strand. The area most affected is that under the jurisdiction of the Strand District Board. The area affected in this parish has a rateable value of £2,326 only. On the 9th June, 1890, the Hybrid Committee threw out the Betterment clause, and the Bill was eventually withdrawn.

LONDON SUBWAYS AND OVERHEAD WIRES.—The Bill is to empower the London County Council to make subways under streets, and to provide for the compulsory use of the same by companies, and also for the control and regulation of overhead wires by the Council. The Bill was thrown out in the House of Commons on the 26th June, 1890.

LONDON WATER COMMISSION.—This Bill proposes to constitute a Commission for improving the supply and diminishing the cost of water in the metropolis and adjoining boroughs and populous places. Powers are sought to promote Bills to secure an alternative supply, to purchase the powers of any existing or future Water Companies, for the raising of moneys to supply by meter or otherwise (including, if thought fit, a free supply to public baths and hospitals), to regulate the price to be charged and the dividends to be paid by any Company, with a view to the equalisation of the price to be charged within the area. It is proposed that the Commission shall consist of 51 members, viz., the Lord Mayor, the Chairman of the London County Council, 1 member each to be nominated by the Local Government Board and the Board of Agriculture, 5 by the City

PARLIAMENTARY BILLS, ETC.—*continued.*

Corporation, 20 by the London County Council, 15 by the County Councils of Middlesex, Surrey, Essex, Herts, Bucks, Berks, and Oxford, and 7 by the Corporations of West Ham, Richmond, Kingston-upon-Thames, Windsor, Reading, Abingdon, and Oxford. On the 26th February, 1891, it was resolved that the Rt. Hon. W. H. Smith, M.P., be requested to support the Bill.

LONDON WATER (METER).—This Bill proposes to give to domestic consumers the option of paying for water as for other commodities, *i.e.*, in proportion to the quantity used, and on the 26th February, 1891, the Vestry determined to request the Borough Member to support the Bill.

METROPOLIS MANAGEMENT AND BUILDING ACTS AMENDMENT.—Powers are sought to enable local authorities to repair any road which may not have become a new street, without prejudice to the recovery of expenses from the owners. Penalties are to be imposed for making sewers contrary to plans approved. For purposes of effecting the widening, &c., of any street, local authorities may take portions only of houses and buildings. Subsoil may not be removed without the consent of the local authorities or the London County Council. Local authorities are not to be liable for injury, caused by steam rollers not exceeding 10 tons in weight, to mains or pipes, if laid at a less depth than 24 inches from the surface of the street. No action was taken thereon by the Vestry.

METROPOLITAN WATER COMPANIES CHARGES.—The purpose of the Bill is to prevent the increase of water rates by reason merely of an increase in the rateable value of premises which may be unconnected with water supply, and may involve no increased consumption of water, and it is proposed that the rate charged in the last financial year shall not be increased because of the rateable value having been raised except for the reasons particularised in the Bill. In case of dispute, a County Court Judge shall have power to make an absolute order for payment of the proposed increase, or a less amount, but in no case shall the Company be entitled to

PARLIAMENTARY BILLS, ETC.—*continued.*

recover a greater amount than they would have been entitled to if the Bill had not been passed. On the 26th February, 1891, it was resolved that the Rt. Hon. W. H. Smith, M.P., be requested to support the Bill.

POLICE (METROPOLIS).—This is a Bill for placing the Police of the Metropolis under the control of the London County Council. It provides that all appointments of Commissioners shall be made by the Council, and that the accounts of the force shall cease to be laid before Parliament. Provision is made for the employment of police in the protection of public buildings, dockyards, &c., the cost of the same to be paid out of monies provided by Parliament. Provisions are made with respect to separate police forces for the County of Middlesex and the Boroughs of Croydon and West Ham, and with respect to Counties included in the present Metropolitan Police district. On the 19th June, 1890, it was resolved to petition against the Bill, which was subsequently dropped.

POLICE (METROPOLIS).—This Bill, which is similar to that introduced last Session, proposes to place the Metropolitan Police under the London County Council, and on the 26th February, 1891, the Vestry resolved to petition against the Bill.

PUBLIC LIBRARIES ACTS AMENDMENT.—This Bill is to amend the law relative to ascertaining the opinion of voters. Provision is made for the making of $\frac{1}{2}d.$ and $\frac{3}{4}d.$ rates, for the subsequent raising of the $\frac{1}{2}d.$ rate to $\frac{3}{4}d.$, or to be altogether removed, or where fixed at $\frac{3}{4}d.$ to be altogether removed. The Bill will enable any library authority, subject to certain consents, to agree with the governing body of any contiguous library maintained by the Charity Commissioners for the use of such library by the inhabitants of such library district. The Bill was subsequently dropped.

RATING OF MACHINERY.—This Bill is identical to that introduced last Session, and on the 19th June, 1890, the Vestry resolved to petition against it. The Bill was subsequently withdrawn.

PARLIAMENTARY BILLS, ETC.—*continued.*

RATING GROUND VALUES.—The Bill seeks to enact that leaseholders for more than 150 years are to be deemed freeholders. No Local Authority may levy a rate for repayment of any loan for the purpose of effecting permanent improvements, and it is proposed that existing liabilities of Local Authorities shall be transferred to the London County Council (save as regards the payment of interest), and the Council be empowered to levy an improvement rate for the repayment of loans so transferred upon the *gross* rateable value. Occupiers will be entitled to deduct the rate from their rent. Where premises are held at a nominal rent under long leases the Council will refund the rate to the occupier, and apply at Quarter Sessions for an order charging the amount on the freehold of the premises with interest payable at 3 per cent., and it is provided that immediately on the determination of the tenant's interest amounts due under the order shall be payable out of such premises as if the same were arrears of the rate for the past year. Owners are to be prohibited from contracting themselves out of their liabilities. The Bill was eventually dropped.

SALARIED SHOP ASSISTANTS' WEEKLY HALF-HOLIDAY.—By the Bill it is provided that every keeper of a shop shall, in each week, on a working day to be selected by him, grant a half-holiday to every assistant who has been employed by him for not less than three months, such holiday to commence not later than 4 p.m. A register of the holidays to which each assistant is entitled must be kept. A fine, not exceeding £5, is to be imposed upon shopkeepers contravening any of the provisions of the Act. Provision is made in case of offences committed by servants or agents. Appeal against conviction may be made to Quarter Sessions. The provisions of the Act will not apply in cases of shops regularly closed on one working day in each week before 4 p.m. The term shop is not to include refreshment houses, premises in which intoxicating liquor is sold for consumption on the premises, or tobacconist's shops. On the 19th June, 1890, it was resolved to request the

PARLIAMENTARY BILLS, ETC.—*continued.*

Member for the Borough to oppose the Bill, which was eventually withdrawn.

SCHOOL BOARD FOR LONDON ELECTIONS.—This is a Bill similar to that introduced last Session, and on the 19th June, 1890, it was resolved that the Board be informed the Vestry approve of the proposed alterations in the representation, but are opposed to the principle of cumulative voting and the filling up of casual vacancies by the Board. The Bill was subsequently withdrawn.

SCHOOL BOARD FOR LONDON (SUPERANNUATIONS).—This Bill, which is to enable the Board to grant superannuation allowances to officers who have become disabled, by infirmity or age, to discharge the duties of their offices, is similar to a Bill introduced last Session, and on the 19th June, 1890, it was resolved that the Board be informed the Vestry disapprove of the Bill.

SHOPS (WEEKLY HALF-HOLIDAY).—This is a Bill to enable local authorities to establish a weekly half-holiday, and is similar to that of last Session. On the 19th June, 1890, the Vestry resolved to request Mr. W. H. Smith, M.P., to oppose its passing. The Bill was subsequently dropped.

SHOPS (WEEKLY HALF-HOLIDAY).—This Bill is similar to that of last Session. On the 26th February, 1891, the Vestry resolved to request Mr. W. H. Smith, M.P., to oppose its passing.

TECHNICAL EDUCATION.—This Bill is intended to clear up any doubt as to the legality of the provision of technical and manual instruction in public elementary schools. It is sought to be enacted that managers may provide such instruction, and it shall be deemed to be attendance at public elementary schools, and that the conditions on which Parliamentary grants shall be made shall be

PARLIAMENTARY BILLS, ETC.—*continued.*

contained in the Minutes of the Education and the Science and Art Departments in force for the time being. No action was taken by the Vestry thereon. The Bill was eventually thrown out.

VESTRYMEN'S QUALIFICATION ABOLITION.—This Bill proposed to abolish the present ratable qualification for members of Vestries in any parish in the Metropolis, and to authorise the election of any person who is the occupier of a house, lands, tenements, or hereditaments, and is rated or assessed within such parish, and on the 26th February, 1891, the Vestry resolved that the Member for the Borough be requested to oppose the Bill.

THE ASSISTANT VESTRY CLERK AND COLLECTOR OF RATES FOR WARD No. 1.

On the 15th January, 1891, Mr. James Cook, having resigned the above offices, his resignation was accepted with regret, and on the 17th March following, a superannuation allowance of £60 per annum was granted to him.

PARISH CHURCHYARD.

The London County Council having enquired whether the Vestry would contribute £40 per annum towards the cost of maintaining the above, were informed on the 10th April, 1890, that the Vestry had no desire to disturb the arrangement with the Metropolitan Gardens Association for its maintenance. On the 24th April, a letter was considered from the Association requesting the Vestry to contribute the whole or a portion of the cost of maintenance, when it was resolved to inform the Association that the Vestry would in future maintain the Churchyard at their own cost. The property of the Association therein was formally taken over by the Vestry on the 9th May, 1890. Iron bars have since been fixed between the standards to prevent access through or over the railings to the churchyard when closed.

NEW VESTRY HALL.

On the 19th June, 1890, the Solicitors reported that at the hearing of the motion for an interim injunction on the 6th inst., in the suit of *Delaparelle v. the Vestry*, Mr. Justice Stirling dismissed the motion with costs, that at Plaintiff's request this was treated as applying to the action, the result being that the claim for damages as well as the claim for injunction was dismissed with costs, and the Solicitors further reported that the case indirectly disposed of the claims of the Marquis of Salisbury and Messrs. Peto Bros.

The Deed of Covenant executed by Mr. W. S. Gilbert, of the Garrick Theatre, to secure the payment of additional fire insurance premiums upon the New Vestry Hall, was submitted to the Vestry on the 14th August, 1890. On the 20th November, the tender of Mr. H. South, for laying electric wires for £205, and Messrs. Berry & Son's tender of £440 for heating the building, were accepted.

FREE PUBLIC LIBRARY.

On the 24th April, 1890, the Rt. Hon. Lord Kinnaird, Major Probyn and Mr. Lionel Charles Drummond were re-elected Commissioners.

The sanction of the Vestry was, on the 10th April, 1890, given to the borrowing, by the Commissioners, of £15,000, in respect of the purchase of the land and the erection of the building.

The building was opened by the Rt. Hon. W. E. Gladstone, M.P., on the 12th February, 1891, and on that day the Vestry passed a vote of thanks to him for the honour conferred upon the parish.

THE VICAR (THE REV. J. F. KITTO, M.A.).

On the 9th October, 1890, a congratulatory letter was ordered to be forwarded to the Vicar and Mrs. Kitto on their having celebrated their Silver Wedding on the 3rd October, and at the same meeting it was reported that at a meeting of members, held on the 25th September, 1890, it had been determined to present a piece of plate to Mrs. Kitto, and to request the Vicar to sit for his portrait, to be

THE VICAR (THE REV. J. F. KITTO, M.A.)—*continued.*

hung in the New Vestry Hall, that a pair of silver candelabra had been presented to Mrs. Kitto and the Vicar had acceded to the request. At the same meeting a letter was submitted from the Vicar expressing his appreciation of the kindness shown to him on this and many other occasions.

MR. WILLIAM CHALLICE.

On the 17th July, 1890, an illuminated and framed copy of a resolution of the Vestry relative to Mr. Challice's service of the office of Churchwarden, was presented to him, together with a canteen containing a service of plate and cutlery, and a chest containing a dessert service. A further presentation of a plated spirit stand was made on the 14th August, 1890. His resignation as a member of the Vestry was, on the 4th December, 1890, accepted with expressions of great regret.

MR. J. ANDERSON ROSE, DECEASED.

The death of the above gentleman, who served the office of Churchwarden in 1857, was reported on the 25th September, 1890, and on that day a vote of condolence with Mrs. Rose was passed, which was duly acknowledged by her.

POOR, GENERAL, SEWERS, AND LIBRARY RATES.

A statement of the above Rates made by the Vestry for the last 10 years is hereunder shown.

NOTE.—The Poor Rates for 1889 and 1890 include the amount required by the London County Council and the Library Commissioners of the Parish; and the General Rate includes the amount required by the School Board for London. No Sewers Rate was made in 1890.

CHURCHWARDENS AND SIDESMEN.

On the 10th April, 1890, The Right Hon. Lord Kinnauld and Mr. Lionel Charles Drummond, were elected Senior and Junior Churchwardens, Messrs. Thomas Prescott and William Stephens Cross, Sidesmen to the Senior Churchwarden, and Messrs. Henry Grant and William Cope, Sidesmen to the Junior Churchwarden, The death of Mr. L. C. Drummond was reported on the 12th March, 1891, when a vote of condolence with Mrs. Drummond was passed.

VESTRY ELECTIONS.

The Annual Election of Members of the Vestry and Auditors for the Parish took place, without contests, on the 5th May, 1890.

DEATH OF A MEMBER OF THE VESTRY.

The death of Mr. Richard Banks was reported on the 19th June, 1890, and on that day a vote of condolence with Mrs. Banks was passed, which was subsequently acknowledged.

DISQUALIFICATION OF MEMBERS OF THE VESTRY.

The disqualification of Mr. Thomas Whaley, he having ceased to reside in the parish, was reported on the 17th July, 1890. Mr. William Wakefield having ceased to be a rated occupier in the parish, his disqualification was reported on the 14th August, 1890.

WHITCOMB STREET IMPROVEMENT.

The London County Council not having made their promised contribution towards the cost of the improvement, and having declined to pay any portion of the charge for interest on temporary overdrafts or any professional charges, on the 10th April, 1890, the

WHITCOMB STREET IMPROVEMENT—*continued.*

Vestry determined to request the sanction of the Council to a loan in respect of the professional charges, and the payment of the Council's promised contribution without any further delay. On the 3rd July, 1890, the seal of the Vestry was affixed to a mortgage to secure to the London County Council the sum of £9,500 advanced by them, and on the same day the receipt of the Council's contribution of £8,561 was reported.

GREEN STREET IMPROVEMENT.

On the 10th April, 1890, the seal of the Vestry was affixed to the agreement with the London County Council for the widening of the above street on its northern side. On the 25th September, 1890, it was reported that the jury had awarded the freeholder of Nos. 1, Green Street, and 31, Leicester Square, the sum of £3,823 15s. for his interest therein, the amount being £333 5s. less than the Vestry's sealed offer, and £3,133 15s. less than the amount claimed. An offer of £200, under seal, was made to the leaseholder for his interest in the premises, which was subsequently increased to £225 and accepted. The Parliamentary Committee having on the 26th February, 1891, reported that the London County Council (General Powers) Bill contained no provision for the completion of the improvement, inquiries were made of the Council relative to the omission. On the 17th March, 1891, a letter was submitted from the Council, stating that the reason why no provision had been made in the Bill, was that they had not yet decided to effect the improvement.

HEMMING'S ROW.

The order for closing the above and a small portion of Castle Street was duly confirmed at the Clerkenwell Sessions on the 23rd June, 1890.

MAIN ROADS, MAINTENANCE OF.

On the 22nd May, 1890, a letter was submitted from the London County Council, stating they were of opinion that there is not probable cause for the Vestry's application requesting that certain

MAIN ROADS, MAINTENANCE OF—*continued.*

thoroughfares in the parish may be declared by the Council to be main roads. Whereupon it was determined to request the Local Government Board to give their advice and assistance thereon, and on the 19th June, 1890, a letter was submitted from the Board, stating the subject rested entirely with the Council, and they (the Board) had no power to interfere.

DRURY LANE GARDEN.

On the 5th June, 1890, it was determined to construct a gymnasium in the above garden, and 6 swings, 5 see-saws, 3 parallel bars, and 1 horizontal ladder have been erected therein.

HOUSING OF THE WORKING CLASSES ACT, 1890.

Correspondence having taken place with the London County Council relative to certain houses alleged by the Council to be insanitary, a conference was requested with the Council's Sub-Committee, which was held on the 11th December, 1890. At the conference the Sub-Committee expressed themselves satisfied with what had been effected in the houses on the south side of White Hart Street, and were of opinion that a reconstruction scheme should be applied to Turner's Court. With regard to Russell Court no arrangement was made. On the 15th January, 1891, the Vestry's Special Committee submitted a scheme prepared by the Surveyor, relative to certain houses situate in Turner's Court which could be dealt with under Part 2 of the Act, and they suggested the preparation of an alternative scheme, to include other houses contiguous thereto, which could be dealt with by the Council under Part 1, and the submission of the schemes to the Council to ascertain what proportion they would contribute towards the cost of carrying out the same. The suggestions were adopted, and plans were forwarded in order to obtain an expression of opinion from the Council's Committee as to which they would prefer. They were also requested to state whether they considered the areas should be dealt with under Part 1 or Part 2 of the Act.

SALE OF FOOD, &c.. ACTS.

Samples of milk having been taken for the purpose of analysis and two of the samples having been certified by the Analyst to be adulterated (but he considered the adulteration not to be of sufficient extent for the purposes of conviction) it was resolved on the 24th April, 1890, to request the vendors of the milk to exercise more care in the future that legal proceedings against them may be avoided.

PUBLIC BATHS AND WASH-HOUSES.

Messrs. Thomas Hill, George James, and John McMaster were, on the 8th May, 1890, elected Commissioners of the above for the usual term of 3 years.

ARCHBISHOP TENISON'S SCHOOL.

On the 24th April, 1890, Major Probyn was re-elected a Representative Governor of the above for the customary period of 3 years.

TRADE REFUSE.

In the action of Mr. Frederick Gordon, of the Hôtel Métropole, against the Vestry, relative to the removal of clinkers, an order was obtained compelling the Magistrate sitting at Bow Street Police Court to state a special case for a superior court, the Judges intimating an opinion that the Vestry's contention was correct. On the case being heard in the Divisional Court the decision of the Magistrate was upheld, but the Judges expressed the opinion that it was a case which might properly be taken to the Court of Appeal. On the case being heard in the Court of Appeal, before the Master of the Rolls and Lords Justices Lindley and Lopes, the appeal was dismissed. On the 20th November, 1890, it was determined to print the judgment, to forward copies of the same to the local authorities of the Metropolis, and to request them to contribute towards the costs of an Appeal to the House of Lords. There being only in two instances contributions of small sums promised, the Vestry decided on the 15th January, 1891, to take no further legal proceedings.

CHÂLET ACCOMMODATION.

On the 26th February, 1891, working drawings, specification and quantities for the construction of an Underground Châlet at Charing Cross, were approved, the plans providing the following accommodation, viz., for men, 12 closets, 28 urinals and 2 lavatories, and for women, 5 closets and 2 lavatories, at an estimated cost of £4,646.

HOUSES LET IN LODGINGS, &c.

Monthly inspections of the above houses, which, in 1884, amounted to 263, but are now reduced to 218 in number, have been made by the Inspector for that purpose, who has found the regulations generally complied with. 117 notices have been served during the year, and the works required to be effected have in all case been executed.

(By order)

GEO. WEBSTER MURNANE,

Clerk to the Vestry.

VESTRY HALL,

ST. MARTIN'S PLACE, W.C.

25th June, 1891.

CHIEF ACCOUNTANT

On the 20th February 1901, having obtained a certificate from the Registrar of Companies for the incorporation of a limited liability company, I have the honor to acknowledge the receipt of your letter of the 19th inst. in relation to the above mentioned company, and in reply to inform you that the same has been forwarded to the Registrar of Companies for his consideration.

NOTICE OF THE BOARD OF DIRECTORS

Monthly inspection of the above company's accounts has been made by the Board of Directors, and the same have been found to be correct and in accordance with the provisions of the Companies Act, 1862, and the regulations made by the Registrar of Companies for the purpose of carrying out the provisions of the said Act. The Board of Directors have also resolved to recommend the dividend of 10% on the paid-up capital of the company for the year ending 31st December 1900.

The Board of Directors have also resolved to recommend the dividend of 10% on the paid-up capital of the company for the year ending 31st December 1900.

A TRUE STATEMENT

of the affairs of the company for the year ending 31st December 1900, as shown in the accounts of the company, and as certified by the Board of Directors.

GEO. WESTER MURRAY

Secretary of the company, and one of the directors, do hereby certify that the above is a true and correct statement of the affairs of the company for the year ending 31st December 1900, as shown in the accounts of the company, and as certified by the Board of Directors.

Witness my hand and seal this 20th day of February 1901.

1890-91.

13th May, 1891.

THOMAS MASON, Clerk.

I hereby certify that I have compared the entries in the above statement with the vouchers and other documents relating thereto, and that the regulations with respect to such statement have been duly complied with.

I hereby further certify that I have ascertained by audit the correctness of such statement, and that the amount expended by the Commissioners during the year ended the 25th day of March, 1891, included in such statement, and allowed by me at the audit, is Four thousand five hundred and twelve pounds, two shillings and sevenpence.

As witness my hand this 18th day of July, 1891.

T. BARCLAY COCKERTON, Assist. District Auditor.

PARISH OF ST. MARTIN-IN-THE-FIELDS.

Statement with reference to Loans obtained by the Commissioners for Public Libraries and Museums,
for the Year ended the 25th day of March, 1891.

Amount authorised to be borrowed.	Date of Sanction of Poor Law Board or Local Government Board.	Amount actually borrowed.	When borrowed. 13th day of May, 1891.

THOMAS MASON, *Clerk.*

Examined by me in connection with the Financial Statement for the year ended the 25th day of March, 1891, and found correct.

18th day of July, 1891.

T. BARCLAY COCKERTON, *Assist. District Auditor.*

FREE PUBLIC LIBRARY, 115, ST. MARTIN'S LANE.

The Free Public Library was opened on Thursday, the 12th of February, 1891, by the Right Hon. W. E. Gladstone, M.P., in the presence of the Right Hon. W. H. Smith, Member for the Borough of Strand, Lord Kinnaird, Lady Frederick Cavendish, the Library Commissioners, and a large and representative audience of parishioners and those interested in Libraries.

Mr. Gladstone unlocked the door of the Reference Library with a handsome silver key made by Messrs. Chapple and Mantell.

Rev. John F. Kitto, Chairman of the Library Commissioners, presided, and in a brief speech invited Mr. Gladstone to declare the Library open. In performing this ceremony Mr. Gladstone delivered a long and eloquent speech on the advantage of Free Libraries. The speech was given at length in the London papers and attracted attention all over the country. A full and able account of the proceedings of the day, with Mr. Gladstone's Speech unabridged, appeared in the "St. Martin-in-the-Fields Monthly Messenger."

The Library was opened for public use on Monday, 16th February, 1891, and was at once largely taken advantage of—the News-room in particular. From the 16th February to the 25th March, 1891 (the end of the Financial Year), the Library was open on 33 days, and during this period 7,824 volumes were issued, 3,955 of them in the Reference Department, and 3,869 in the Lending Department.

The News and Magazine Rooms were visited by 39,592 persons, being a daily average attendance of 1,200.^a

MEDICAL OFFICER'S REPORT, 1890.

*Annual Report on the Health of the Parish of St. Martin-in-the-Fields,
for the Year 1890.*

TO THE VESTRY OF ST. MARTIN-IN-THE-FIELDS.

GENTLEMEN,

I have the honour of submitting to you my Twenty-first Annual Report on the health and sanitary condition of the Parish.

BIRTHS.

The Births registered in the Parish amounted to 267, a number 16 less than in the previous year.

The following Table shows the number of Births registered in each month of the year:—

			Males.		Females.		Total.
January	16	..	10	..	26
February	10	..	16	..	26
March..	.	..	13	..	12	..	25
April	12	..	10	..	22
May	7	..	6	..	13
June	8	..	9	..	17
July	10	..	10	..	20
August	7	..	9	..	16
September	15	..	11	..	26
October	13	..	9	..	22
November	12	..	14	..	26
December	12	..	16	..	28
			<u>135</u>		<u>132</u>		<u>267</u>

The Birth-rate of the Parish would be 14·7 per 1,000.

The Births registered in London in the year numbered 130,690, being in the proportion of 29·1 annually to 1,000 of the estimated population. This is by far the lowest birth-rate as yet recorded in London, the rate having fallen continuously year by year since 1879, when it was 35·5 per 1,000.

DEATHS.

In St. Martin-in-the-Fields during the year 1890, the total Deaths numbered 382, being 2 more than in the previous year.

The following Table shows the number of Deaths registered in each month of the year:—

				<i>Males.</i>		<i>Females.</i>		<i>Total.</i>
January	29	..	22	..	51
February	8	..	16	..	24
March	17	..	12	..	29
April	26	..	9	..	35
May	13	..	13	..	26
June	15	..	14	..	29
July	27	..	16	..	43
August	15	..	10	..	25
September	14	..	10	..	24
October	16	..	5	..	21
November	21	..	11	..	32
December	26	..	17	..	43
				<hr/>		<hr/>		<hr/>
				227		155		382
				<hr/>		<hr/>		<hr/>

These 382 Deaths include those non-parishioners who died in the Charing Cross Hospital, and therefore must be omitted in calculating the death-rate, and on the other hand the deaths occurring outside the Parish among persons belonging thereto, must be added. On referring to Table 7, it will at once clearly show my meaning.

The death-rate for the year 1890, is 17·9 per 1,000, a rate a trifle higher than the previous year, but I must remind you that the death-rate over the whole of London in 1890, was higher than in former years. The Registrar-General in his *Annual Summary of Births, Deaths, and Causes of Death* for 1890, says:—

“The deaths registered in the year numbered 91,243, and corresponded to an annual rate of 20·3 per 1,000 of the estimated population. This rate was higher than the rate in any one of the five next preceeding years, and was an interruption to the almost unbroken fall in the London mortality that began in 1879.”

Appended is the annual death-rate per 1,000 in the Parish of St. Martin-in-the-Fields, during the last ten years:—

1881	18·5
1882	17·6
*1883	19·0
1884	19·7
1885	19·3
1886	18·2
1887	18·1
1888	17·3
1889	17·1
1890	17·9

CAUSES OF DEATH.

ZYMOTIC DISEASES.—The principal Zymotic Diseases are Small-pox, Measles, Scarlet Fever, Diphtheria, Whooping Cough, Typhoid Fever, Typhus Fever, Cholera, and Diarrhœa.

The total number of deaths occurring in the Parish from the above-named diseases was 22. This number includes those non-parishioners who died in the Charing Cross Hospital. After deducting those non-parishioners, and adding those parishioners who died in Public Institutions outside the Parish, the mortality due to St. Martin-in-the-Fields would be 23. (*See Table 5.*)

* This is the first year returns have been supplied to me from the Registrar-General's Office of deaths of parishioners occurring in Public Institutions outside the Parish, which deaths have been added to the death-rate.—J. J. S.

SMALL-POX.—There was no death from this complaint, but one case of illness from it was reported. The patient, who was living in one room, was removed to hospital. In London only four deaths were caused by small-pox in the year.

MEASLES.—Seven deaths occurred in the Parish, and one of a parishioner in the Homœopathic Hospital.

SCARLET FEVER.—No death from this disease was recorded as occurring in the Parish, but one of a parishioner occurred in the Western Fever Hospital.

DIPHTHERIA.—Three deaths were due to this complaint, two of which took place in the Charing Cross Hospital, and were non-parishioners.

WHOOPING COUGH.—Five deaths were registered from Whooping Cough, and one of a parishioner in the Strand Union Workhouse.

TYPHOID FEVER.—Four deaths were attributed to this complaint.

DIARRHŒA.—Three deaths of children all under five years of age were registered from this complaint.

The deaths from all causes, with the ages at death will be found fully detailed in Tables 2 and 6.

INFLUENZA.

In the early part of the year we were visited with an epidemic of Influenza, a visitor unknown to us for many years. In my fortnightly report of 9th January, 1890, I drew your attention to the complaint as follows:—"In reference to the present epidemic of Influenza which has now invaded our shores, a few details may not be out of place. This disease is, so to speak, a new complaint to the present generation of doctors, for it is many years since we have had an epidemic of Influenza. During the last week I have seen several cases, and have observed the symptoms are characterised as follows:—The patient previously in good health, is suddenly seized with a shivering fit, afterwards a febrile state of the system sets in, with more or less running from the eyes and nose, but in some cases absent; cough, dull aching pains in the forehead, muscular pains all over the body, more particularly in the back, with extreme debility and lassitude. If the disease progresses favourably these symptoms

gradually terminate in about a week, leaving the patient in a weakly condition. Influenza in itself is not a dangerous malady, it is the complications which render the complaint dangerous, such as bronchitis and pneumonia, but these may be guarded against if the patient submits to perfect rest and remains in a warm temperature; and with medical advice and good nursing, he will escape these dangers. Young children are less susceptible to it than adults, and when attacked it is of a mild type, but in the aged it is more virulent. It is said that those who take plenty of out-door exercise are not so liable to contract the complaint."

Three deaths from Influenza occurred within the Parish, and three of parishioners in Institutions outside.

INQUESTS.

During the year 1890, there were held 54 inquests. The causes which produced death were as follows:—

Natural causes	24
Pistol shot wound (suicide)	6
Poison, Belladonna, Accidental.. .. .	1
Drowning	2
Hanging (suicide)	1
Burns	1
Suffocation—Infants	3
Injuries received from being knocked down or run over in the street	3
Injuries received from being thrown from and run over by a dust cart	1
Injuries received from a fall into a basement..	2
" " " " from an omnibus..	2
" " " " " a wall ..	1
" " " " at the Charing Cross Foot-bridge	1
Injuries received from jumping out of a window into an area (suicide)	1

Injuries received whilst cleaning machinery ..	1
" " " carrying a load in Covent Garden Market	1
Injuries received in a lift	2
Injuries received by being run over by a train at Charing Cross Station, S.E.R. (suicide) ..	1

THE HOUSING OF THE WORKING CLASSES ACT.

The following is a resumé of this Act:—

PART 1.

This part deals with insanitary areas, and in the Metropolis is under the administration of the London County Council and Commissioners of Sewers.

PART 2.

Buildings unfit for human habitation.

Section 30.—Representation to be made by the Medical Officer of the district of “unfit” dwelling houses.

Section 31.—Representation by 4 or more householders of any street in which “unfit” house is situate to Medical Officer of that district, then Medical Officer shall inspect and report his opinion thereon.

Section 32.—Local authority to make periodical inspection of their district to ascertain existence of “unfit” houses. Penalty not exceeding £20 and Order for closing from Magistrate to be obtained. Notice to occupier to vacate, penalty 20s. a day for disobedience. Court may order reasonable expenses to tenant for removal, to be repaid by owner.

Section 33.—If after order obtained not made fit, authority to pass resolution it is expedient to demolish. Notice of resolution to owner, who may attend to state objections. If objections overruled, owner not consenting to execute works, authority to make order under seal (see Section 86) for demolition; or if, after undertaking to repair within stated time default made, demolition order to be made.

Section 34.—If default in owner to demolish, authority shall do so, sell material, and deducting expenses, hand over balance (if any) to owner.

Section 35.—Appeals against decision of authority may be made to Quarter Sessions. Notice of appeal must be given within one month after order has been served.

Section 36.—Charging order may be made on house in favour of owner, at 6 per cent. per £100 expended, for term of 30 years.

Obstructive Buildings.

Section 38.—Powers to authority to purchase houses stopping ventilation or prejudicially affecting others. Medical Officer to inspect and report. Complaint also may be made by 4 or more *inhabitant* householders. Representation and copies of report to be served on owner, who may attend to state objections. Authority may allow objection or direct pulling down. Appeal may be made. If no appeal, or appeal fail, authority may purchase in like manner as if authorised by Act of Parliament. Owner may after notice claim site, and receive compensation for pulling down building. Not competent for owner to require authority to take entire holding where part only proposed to be taken, If increase in value of other buildings, authority may make improvement rates on occupiers. Authority may keep whole site as open space, sell portion, or throw into highway.

Section 39.—Gives power to authority to prepare schemes for improvement of areas too small to be dealt with by Council, to which sanction of Local Government Board required, and if opposed, sanction of Parliament.

Section 40.—Local Government Board shall insert scheme of provisions (if any) for accommodation of working classes.

Section 41. — Provides for settlement of compensation by arbitrator at fair market value, without any improper inflation, and without allowance for compulsory purchase; and the only evidence arbitrator may receive is therein set out. Payment of costs by owner if the same, or a less sum awarded than has been offered by authority.

Sections 42 and 43.—County Council may lend money to authority for purposes of Act.

Section 45.—Copies of all representations, complaints, etc., of Medical Officer and householders must be forwarded to County Council, who may execute works and recover expenses in default of execution by authority.

Section 46.—County Council may apply to a Secretary of State to make order for contribution by authority towards cost of improvement of an area, and in like manner the authority may apply for an order against the Council.

Section 47.—In default of execution of works, etc., in a manner prejudicial to owner, Court may make order for entry of applicant for execution by him.

Section 52. — A Representation from Medical Officer of any County forwarded by the Council to the Local Authority shall have the like effect as a Representation made by Medical Officer of the Authority.

Section 72.—An official representation to the Council relating to not more than 10 houses will not be dealt with by them, but referred to local authority whose duty it will be to deal with the case.

Section 73. — Differences of opinion between Council and Authority as to which body shall effect an improvement of an area are to be referred to an arbitrator.

Section 76.—A Medical Officer appointed by the Council is deemed to be a Medical Officer of the Local Authority.

Section 78.—No member of an authority may vote on any question relating to property in which he is beneficially interested. Penalty not exceeding £50.

SECOND SCHEDULE.

Contains provisions with respect to the purchase and taking of lands otherwise than by agreement, and otherwise amending the Lands Clauses Acts.

THIRD SCHEDULE.

Contains enactments applied for the purpose of proceedings for closing premises.

Under the above Act it has been proposed to apply it to Turner's Court, in accordance with Part 2. Several plans have been suggested, and two deputations of the Vestry have waited upon committees of the London County Council, with the object of coming to some understanding for the improvement of the said area; also a vast amount of correspondence has passed between your Vestry and the London County Council, but, as yet, nothing definite has been arrived at.

INFECTIOUS DISEASE (PREVENTION) ACT.

The following is a summary of this Act:—

Infectious Disease (Prevention) Act, 1890.

Under this Act dairies, milk-shops, or any place from which milk is supplied may be inspected, and where infectious disease is attributable to the milk supplied, such supply may be prohibited. Local authorities have power summarily to disinfect premises and infected articles. Persons may not cease to occupy houses without previous disinfection, must give notice to the owners, and may not make false answers. No body of a person who has died of an infectious disease may be retained (except in a mortuary), for more than 48 hours without the sanction of a medical practitioner. Bodies of persons so dying in any hospital or place of temporary accommodation may be removed therefrom only for burial, except with the like sanction and except to a mortuary. Justices may order bodies to be buried, and the detention of infected persons in hospital in default of proper lodging elsewhere. Corpses may not be carried in a public conveyance, except a hearse, without notice to the owner or driver, who shall immediately disinfect the conveyance. Infectious rubbish must not be cast into ash-pits or other receptacles without previous disinfection. Local authorities must provide, free of charge, temporary shelter for persons who have been compelled to leave their dwellings for purposes of disinfection.

The provisions of the Act came into operation on the 4th December, 1890.

TABLE I.

TABLE OF THE CAUSES OF DEATH at Various Ages.

In the Parish of St. Martin-in-the-Fields, for the Year 1890.

SANITARY WORK.

During the year 117 notices were served upon the owners or occupiers of property, also numerous verbal recommendations to remedy sanitary defects, and 26 notices were served for the purpose of disinfection after infectious disease. One summons was taken out against the owner of a house who refused to obey a notice served upon him to do certain specified sanitary works. On the service of the summons the works were at once commenced.

For flushing the pipe-sewers and gullies we now use, in place of carbolic acid, a combination of manganate of soda and sulphuric acid mixed with certain proportions of water. It is said to be more effectual than carbolic acid and is used by the London County Council in the treatment of the sewage at the outfalls.

BAKE-HOUSES.

The bake-houses have been regularly inspected, and were found in a satisfactory condition.

HOUSES LET OUT IN LODGINGS.

Your Inspector, whom you appointed permanent inspector of these houses, has regularly inspected them, and reported to me all sanitary defects that came under his notice.

The pipe-sewers have been regularly flushed, those gullies emitting offensive effluvia have also been flushed with the above new disinfectant, and the several courts and passages in the parish lime-whited.

I have the honour to be, GENTLEMEN,

Your obedient Servant,

JOHN J. SKEGG,

Medical Officer of Health.

SURVEYOR'S ANNUAL REPORT.

1890-91.

TO THE CHAIRMAN AND MEMBERS OF THE VESTRY OF
ST. MARTIN-IN-THE-FIELDS.

GENTLEMEN,

I beg to report as follows upon the work of my Department for the year ending March 25th, 1891.

This report is the second I have had the honour of submitting for your consideration, and the first which includes works executed wholly under my own supervision, my previous report embracing work carried out by my predecessor.

NEW PAVING WORKS.

The following is a list of the new paving works as carried out, with the cost of each street:—

	£	s.	d.
<i>Charing Cross and Whitehall.</i> —Wood paving taken up and relaid with new 6 in. yellow deal blocks from No. 49 Charing Cross, to the Parish boundary, opposite the Horse Guards main entrance	1,788	10	8
New kerb laid between No. 10 Charing Cross, and Craig's Court, and sundry repairs to old kerbs	25	6	0
<i>Cockspur Street.</i> —Wood paving taken up and relaid with new 6 in. yellow deal blocks from Spring Gardens to the Haymarket	1,016	8	6
Redressing kerbs and sundry repairs to footways	28	6	9
<i>Coventry Street.</i> —Wood paving taken up and relaid with new 6 in. yellow deal blocks from Arundel Street to the Parish boundary in Whitcomb Street	365	11	5
Carried forward	3,224	3	4

NEW PAVING WORKS—*continued*.

	£	s.	d.
Brought forward	3,224	3	4
<i>Duncannon Street</i> .—Wood paving taken up and relaid with new 6 in. yellow deal blocks to crossings at east and west ends of street	158	10	9
<i>Endell Street</i> .—Granite carriageway taken up and relaid with 6 in. yellow deal blocks from Long Acre to Castle Street, including floating over the foundation with cement concrete	330	4	4
New kerbs with new York footway to the west side	58	0	1
<i>Great Newport Street</i> .—Granite carriageway taken up and relaid with 2 in. Val de Travers compressed asphalt upon a 6 in. bed of concrete, in conjunction with the Strand District Board of Works (moiety of cost)	141	14	11
<i>Long Acre, north side</i> .—New 12 in. by 8 in. kerb (a small portion of old being reset), with new 3 in. York stone footway, re-using old York stone as far as practicable	526	5	9
<i>Northumberland Street</i> .—Granite carriageway taken up, the lower portion relaid with new 6 in. yellow deal blocks, the upper portion relaid with 3 in. by 6 in. Enderby granite setts ..	271	17	6
New kerb to west side and repairs to old and to both footways	69	4	3
<i>Pall Mall East</i> .—Wood paving taken up and relaid with new 6 in. yellow deal blocks from No. 12 to the Haymarket	598	6	1
New kerbs from No. 12 to Suffolk Street, including sundry repairs to footways	28	9	11
<i>Spring Gardens</i> .—Macadam carriageway taken up and relaid with new 6 in. yellow deal blocks upon cement concrete foundation 8 in. thick from Cockspur Street to No. 16	100	3	11
New kerb to west side and sundry repairs to both footways ..	16	2	2
Total	£5,523	3	0

The whole of the wood blocks used were of yellow deal, laid directly upon the concrete foundation, having $\frac{3}{8}$ -in. joints, formed by means of cast metal studs.

The advantages of the studs are that a more uniform joint is obtained, greater rigidity is given to the work while being grouted, and in case of a heavy rain falling while the work is in progress the wood will not lift or float on the water, thus obviating the necessity and expense of relaying.

The roadways of Northumberland Street, a portion of Pall Mall East, and Coventry Street were laid with close joints, having $\frac{3}{8}$ -in. expansion joints at intervals of every 2 ft. 6 in. This system is

preferable in streets where the gradients are easy, and gives the roadway a cleaner appearance owing to the absence of joints. Cement grouting was adopted throughout, which through its greater hardness prolongs the life of the wood by reducing the wear upon the edges of the blocks, and also materially assists in giving the pavement a clean surface.

The pavement around the statue of King George III in Pall Mall East has been remodelled and raised at the joint expense of the Vestry and Her Majesty's Office of Works. The old pavement to this statue was on the street level, and formed an objectionable hollow for water to accumulate.

A considerable improvement has been effected in Endell Street by moving the refuge more to the east and altering the axis of same so as to allow of an easier division of the through traffic from Bow Street. The level of the upper portion of this street has also been lowered, while at the same time the bottom portion was slightly raised, an easier gradient being thus obtained, which is an improvement greatly needed.

The principal work in connection with the footways for the past year is the footway on the north side of Long Acre, which has been entirely renovated and remodelled, including the Drury Lane footway from Long Acre to Wilson Street. In connection with this work, the owners of property were required to have their areas, where defective, renewed.

All the new York pavements are being laid upon a bed of ashes, instead of as heretofore upon the natural ground. The ashes are readily procured from the furnace clinkers removed by the Vestry, and by their adoption it is impossible for water to lodge under the pavement, which, in case of frost, is the cause of numerous displacements throughout the parish, rendering the cost of repairs in winter considerable.

In connection with the repaving of Northumberland Street, considerable improvements were effected in the footways on both sides, they being made of a more uniform width by straightening the kerb lines. The opportunity was also taken of abolishing a step in the east footway, immediately above the stables at No. 1, which was a source of danger.

REPAIRS TO STREETS.

The following is the actual cost of repairs to carriageways and footways :—

	£	s.	d.		£	s.	d.
Adelaide Street	6	8	1	Brought forward ..	512	11	4

Turnstile Alley	27	10	5	White Hart Street	3	4	
Upper St. Martin's Lane	18	0		York Buildings	4	17	5
Carried forward	1,454	18	10	TOTAL	£1,551	15	3

The total sum, it will be noticed, includes £386 9s. 8d., the annual cost of maintenance of King William Street and Northumberland Avenue, paid to the Improved Wood Pavement Company.

It also includes for extensive repairs in Brewers Lane, and for new Jarrah wood opposite the West Strand Post Office.

The granite carriageway of Orange Street has also been thoroughly repaired, the same having been broken up by the operations of the Water and Gas Companies in diverting their mains, consequent upon the closing of Hemmings Row.

LIGHTING.

The following is a statement of the number of public lamps on the 25th March, 1891, with consumption of gas and cost per annum:—

No. of Lamps.	Cubic feet of Gas consumed per hour.	Cost per annum.
		£ s. d.
565 ..	6	3 9 3 per lamp.
28 ..	10	5 3 4 „
6 ..	15	7 6 1 „
2 ..	19	9 12 2 „
14½ ..	20	10 0 9 „
1 ..	25	12 3 5 „
1 ..	50 till midnight	} 17 13 6 „
	20 after „	
2 (on meter)	84 3 8 both.

During the year the following lamps have been cut off :—

- 1 in Hemmings Row.
- 2 in Salisbury Street.
- 2 in Ivy Bridge Lane.
- 1 in Taylor's Buildings.

Two lamps have also been temporarily removed in Neal Street, one consequent upon the rebuilding of No. 106 Long Acre, and one originally fixed to No. 10 Neal Street, destroyed by the recent fire.

The refuge lamps in Charing Cross and Whitehall, together with the guard posts, have been thoroughly overhauled and repainted of a dark green colour, the old drab paint which had accumulated to a thickness of one-eighth of an inch having previously been entirely removed.

The four gas meters which were fixed to lamps in Long Acre, St. Martin's Place, Burleigh Street, and the Haymarket, have been removed, they having become useless owing to the boxes having been full of water for some time.

The following lamps have been set back to avoid contact with vehicular traffic, or the position has been slightly altered in connection with the street paving works :—

- 2 in Charing Cross.
- 2 in Pall Mall East.
- 3 in Long Acre.
- 2 in Adelaide Street.
- 1 in James Street, Haymarket (bracket shortened).

The cost of lighting, cleansing, and maintaining is as follows :—

	£	s.	d.
Gas Light and Coke Company—Gas	2,483	18	3
Repairs to lanterns and painting	18	18	5
Alterations in the position of lamps	7	17	10
	<hr/>		
	£2,510	14	6
	<hr/>		

The lamps in the parish are generally in an unsatisfactory condition as to their general appearance and want of uniformity, but I hope shortly to bring up a special report for your consideration, dealing with the whole question.

SLOP AND DUST COLLECTING.

From the tabulated statement attached to this Report it will be seen that there have been removed from the parish 8,070 loads of house refuse, and 2,658 loads of slop.

8 sweepers, 2 machine brooms, and 9 Slop and Dust Vans have been employed in this work. In addition to these it is occasionally found necessary to employ an extra slop van.

The cost has been as follows:—

	£	s.	d.
Wages, Sweepers	423	14	10
„ Dustmen	148	4	5
Gabriel, J. S., receiving rough dust (contract) ..	1,255	16	0
„ „ slop („) ..	534	6	0
Clarkson, H., Hire of Horses and Drivers and Machine			
Brooms (contract)	1,655	6	0
Repairs to vans	44	2	6
Brooms, baskets, shovels, &c.	36	4	2
Fines for alleged sweeping of mud into gullies ..	2	0	6
	4,099	14	5
Credit Amount receivable in respect of trade refuse			
removed for parishioners	334	5	4
Net cost	£3,765	9	1

The surfaces of the wood and asphalte pavements are washed as often as is found necessary, eleven orderly men are also employed in collecting horse droppings, and for the first part of the day in spreading ballast upon these pavings. The footways in front of vacant spaces are swept and cleansed.

This work has cost £619 8s. 6d., viz.:—

	£	s.	d.
Labour	507	6	6
Horse Hire (washing)	59	8	0
Brooms, squeegees, and sundries	23	8	6
Water	5	15	0
Street orderly bins	23	10	6
	£619	8	6

Considerable difficulty continually arises in supervision and management, owing to the fact of the drivers not being directly the servants of the Vestry. This matter I have fully reported upon to your Works Committee, with a view to more efficient management, and I trust some system can be shortly introduced whereby the Vestry will have *direct* control over every man in their service.

In April last, Mr. Gabriel, your Contractor for the disposal of slop, made application for an increase in the price per load, when the Vestry increased the price from 3s. to 3s. 3d.

An additional orderly man has been employed for Coventry Street and the adjoining thoroughfares, also one for St. Martin's Lane and neighbourhood, in both of which districts this work was undermanned.

A new street orderly bin has been placed in each of the following streets:—

Whitehall,
Pall Mall East,
Long Acre (near Mercer Street), and
Oxendon Street.

An orderly bin has been removed from Longs Court, it having become a nuisance by being used as a receptacle for house refuse. This bin has been recently placed in the yard of the Vestry Hall in place of an old defective brick receptacle.

BALLASTING STREETS.

The wood and other pavements have been frequently ballasted during frosty or wet weather at the following cost for the year:—

	£	s.	d.
Labour (exclusive of use of orderlies)	29	15	9
Ballast	58	19	9
Horse hire, repairs to trucks, &c. ..	7	11	6
	<hr/>		
	£96	7	0
	<hr/>		

By special permission of the Vestry I also used as an experiment granite chippings for ballasting; their general adoption, however, cannot be recommended, as I find from the fact of the granite having once passed through a crushing machine the material is so "bruised" as to quickly grind up under heavy traffic.

STREET WATERING.

The cost of watering the streets has been as follows :—

	£	s.	d.
Hire of Horses and Drivers	210	5	6
Supply of Water	129	6	0
Repair to Stand Posts	2	11	6
Repairs to Vans and Painting	8	18	0
	<hr/>		
	£351	1	0
	<hr/>		

In the very hot weather a solution of manganate of soda and sulphuric acid, being similar to the disinfectants used in flushing the courts and alleys, is mixed with the water.

The stand post in Rose Street has been found of little use, consequently the supply has been cut off and the post will presently be removed.

SNOW REMOVAL.

The past winter has been an exceptional one as regards severity and the continued falls of snow, causing a large amount of anxiety to those responsible for the clearance of the streets.

Regulations for clearing away the snow had already been prepared by me and approved by the Vestry, so that every arrangement had been made preparatory to the first fall of snow, which occurred on November 27th, the snow continuing to fall at intervals throughout the winter until January the 16th, the greatest falls occurring on November 28th, December 16th, 20th, and 30th, and on January 15th. Another heavy fall, accompanied by a blizzard, occurred on the night of March 9th.

For the effectual removal of the snow the parish has been divided into two main districts, each under a chief superintendent. The districts are again subdivided into streets, tabulated forms of which, in the order for clearing, are given to each superintendent.

During the past winter the snow was cleared chiefly by spreading salt upon the roadways and immediately proceeding to flush with an open hose into the gullies. Carting was also adopted, the snow in this case being tipped into the river. The flushing system is by far the best that has been adopted to ensure a speedy removal of the

snow, but it necessitates the use of salt which is for many reasons objectionable, but in my opinion in most cases a necessary evil.

The total cost incurred for the removal is as follows :—

	£	s.	d.
Extra Labour	45	15	1
*Vestry's Labourers	173	19	11
Hire of Horses, &c.	183	10	3
Salt	141	2	0
Additional Slop at Shoot	30	0	0
Water used in Flushing	41	5	6
Fines for alleged sweeping of mud into gullies	18	16	0
	<u>£634</u>	<u>8</u>	<u>9</u>

LIMEWHITING COURTS.

The courts and other passages in the parish have been limewhitened twice, at a cost of £32 11s. 0d.

VESTRY HALL.

The iron gates to front entrance have been cleaned, repaired, and painted. The lavatory has also been painted and whitewashed. An improvement has also been effected by removing the old brick receptacle for dust in the yard, and substituting one of iron.

The hot water heating apparatus has been overhauled and the old cistern being worn out, has been replaced by two smaller galvanized iron tanks, with a separate one for the hot water circulation, at a total cost of £27 17s. 6d.

STREET NAME PLATES.

New name plates have been fixed in the following streets and courts :—

Duncannon Street, Chapel Place, Martlett Court, Cross Court (2) Salisbury Street, Whitcomb Court, Exchange Court. These plates were chiefly required in place of broken glass ones and are of zinc metal painted, consequently unbreakable, and of slightly less cost.

* This item includes the time of the orderly men and night sweepers.

TREES—CHARING CROSS ROAD AND CHURCHYARD.

Six new trees have been planted in Charing Cross Road and one in the Churchyard, to replace the dead ones, at a cost of £9 10s. The whole of the trees have also been re-tied and staked where necessary, at an additional cost of £8 9s. 9d. The trees are also watered occasionally in very dry weather.

HYDE PARK CORNER ROADS.

The Vestry's share for the past year of the cost of maintaining the above roads (viz.: one-third of the total cost as provided in the Hyde Park Maintenance Act, 1887), amounts to £254 17s. 2d.

CLEANSING SEWERS AND GULLIES.

The Gullies in the parish, (about 420), exclusive of those under the control of the London County Council, have been emptied from time to time and flushed with a solution of manganate of soda and sulphuric acid; the surfaces of all courts have also been flushed periodically at the following total cost—

	£	s.	d.
Labour	49	15	3
Carbolic Acid, Manganate of Soda, &c...	16	13	3
Horse Hire.. .. .	136	13	6
Water	10	16	0
Sundries	6	2	0
Shooting of deposit removed	6	12	0
	<hr/>		
	£226	12	0
	<hr/>		

The sewers in King William Street, Blue Cross Street, James Street, Haymarket, Cranbourn Street, Garrick Street, Long Acre, Strand, Spur Street and Neal Street, have been cleansed and any silt removed, the pipe sewers have been frequently flushed with water through an open hose, at a total cost of £188 0s. 7d., being—

	£	s.	d.
Labour	96	0	6
Supply of Water	77	4	10
Sundries	14	15	3
	<hr/>		
	£188	0	7
	<hr/>		

HOUSE DRAINAGE.

Twenty-one new connections of house drains to the sewers and fourteen examinations of the sewers have been made by the Vestry at the owners' cost.

Regulations for house drainage drawn up by myself are now under your consideration, and, if approved, will provide for all connections from private property within the street being constructed by the Vestry at the owners' expense; this will be a great improvement upon the old system, as being a means of ensuring satisfactory work in all connections to the sewers; many of the complaints now made by householders consequent upon defects in the drains having arisen from connections being improperly made in the past.

Plans for the drainage of the following new properties have been submitted and approved, viz.:—

Nos. 13, 14, 15 and 16, James Street and No. 47, Long Acre.

11 and 12, James Street, Haymarket.

4 and 6, Charing Cross Road.

105, Long Acre.

21, Panton Street.

12, Charing Cross Road.

Premises on the north side of Cecil Court from Charing Cross Road to St. Martin's Lane.

Also plans for the reconstruction of the drainage of the following premises:—

19, Carlton House Terrace.

Vaudeville Theatre, Strand.

18, Oxendon Street.

The Garrick Club, Garrick Street.

395, Strand.

13, Cleveland Row.

STREET GULLIES.

Two gullies have been abolished in connection with the closing of Hemmings Row.

The following additional stoneware trapped gullies have been fixed and connected to the sewers :—

- 1 in Brewers Lane.
- 1 in Charing Cross (opposite Messrs. Drummond's Bank).
- 1 in Pall Mall East (opposite No. 3.)
- 1 in Wilson Street.
- 1 do. do (brick gully).
- 1 in Little Catherine Street.

The following untrapped brick gullies have been taken out and stoneware trapped gullies substituted :—

- 1 in St. Martin's Street.
- 1 in Agar Street.
- 1 in James Street, Covent Garden (by contract).
- 2 in Green Street (by contract).
- 2 in Orange Street (do.).
- 2 in Charing Cross Road (late Castle Street).
- 1 in Whitcomb Court.

The following brick gullies have been reconstructed :—

- 1 in James Street, Covent Garden (by contract).
- 1 in Charing Cross Road (by contract).

A charcoal deodorizing box has been fixed over the sewer in Spring Gardens.

The total cost of this work, exclusive of contract work, has been £79 18s. 4d.

REPAIRS TO SEWERS.

A new side entrance cover has been fixed to the Long Acre Sewer, near James Street.

NEW SEWERS.

HEMMINGS ROW.

The most important work under this head has been the construction of a new 4 ft. by 2 ft. 8 in. egg-shaped brick sewer (9 in. brickwork), in continuation of the Green Street sewer, necessitated by the abolition of the Hemmings Row Sewer.

Plans and Specifications were prepared by myself, and the work was satisfactorily carried out by Mr. J. H. Neave, Contractor, of Fulham, the amount of his contract being £429 14s. 6d.; owing however, to the County Council Authorities insisting upon the old connection with the sewer in Charing Cross Road being utilized, an extra length of new work (in my opinion unnecessary) was entailed, making a total net cost of £631 5s. 7d.

The whole of this expense will, however, be borne by the Trustees of the National Portrait Gallery.

This work also included the construction of a 12-inch pipe sewer, in what was formerly Castle Street, from Orange Street to Green Street, with the necessary gully connections, man-hole, side-entrance, bell-mouthed junction to the old Castle Street sewer and surface ventilator grating over same.

An improved outlet has been afforded for the drainage of the New National Portrait Gallery by means of laying 9-inch pipes in the invert of an existing 5 ft. by 2 ft. 6 in. arm of the St. Martin's Lane sewer, which arm appears to have been originally the outlet for the sewer in Duke's Court, a Court formerly occupying a portion of the National Gallery site.

This work has been carried out at the sole expense of the Trustees for the New Portrait Gallery.

JAMES STREET, COVENT GARDEN.

A new 3 ft. by 2 ft. egg-shaped brick sewer (9 in. brickwork) has also been constructed in this street, including bell-mouthed junction to the Long Acre Sewer, gullies, connections, and surface ventilation, the work being carried out by Mr. J. H. Neave, whose contract amount was £127 15s.

The new sewer extends to the parish boundary, and is constructed to meet the requirements of the buildings now being erected in this street, there having previously been no sewer.

EAGLE COURT.

A short length of 9 inch pipe sewer has also been constructed in Eagle Court from White Hart Street southwards for a distance of 40 feet, a lamp shaft being provided for flushing the sewer and inspection.

The total cost of this work was £15 8s., one half of which was borne by the owner of Nos. 20, 21, 22, White Hart Street, the sewer having been put in chiefly for the purpose of enabling him to efficiently drain this property.

BULL INN COURT.

A new 9-inch iron pipe sewer is being constructed by the Electricity Supply Corporation at their expense in place of the 9-inch stoneware pipe sewer; this is a diversion necessitated by the extensive alterations now being made to the Electric Light Station. Provision for flushing this sewer is being made.

NEW ADMIRALTY OFFICES.

The extensive excavations necessary for the foundations of the New Admiralty Offices in the rear of the Horse Guards has considerably interfered with several large sewers running through St. James's Park.

The necessary diversions have, however, been carried out by H.M. Office of Works, and the altered lines of the sewers are such as to in no way interfere with the drainage system of the Parish. The drainage from the rear of a portion of Spring Gardens has, however, been cut off, but provision is about to be made for diverting or reinstating same.

PUBLIC URINALS.

The following is a list of the public urinals in the parish, to all of which water is supplied by meter:—

Brewers Lane	2 Compartments	Slate.
Charing Cross Road	..	6
Charles Street	..	4
Durham Street	..	6
Leicester Square	..	6	Iron.
Orange Street	..	4
Rose Street	..	4
Taylor's Buildings	..	3	Slate
Vinegar Yard	..	8	Iron.
Whitehall	..	6	Slate.

Considerable improvements have been effected in the outlet for the Brewers Lane urinal which originally passed under the "Craven" Hotel into the Craven Street sewer. This was a continual source of complaint owing to the drain being jointly used by the hotel. A new 6-inch shallow pipe-drain has now been laid from this urinal down the centre of Brewers Lane, joining the main pipe sewer in Brewers Lane immediately above the Craven Passage archway. An inspection pit has been provided beneath the pavement opposite the urinal whereby the drains can at any time be thoroughly examined, and flushed if necessary, without disturbing the street surface. An additional screen has been fixed from the railings of the Craven Hotel area to the urinal, thus enclosing an objectionable corner space.

The Charles Street urinal has been provided with an inspection chamber and trap and the drainage overhauled. An easy inspection of the drains can now be made without involving the expense of opening up the footway pavement.

The urinal in Whitehall has been painted throughout.

The automatic flush to each urinal has been carefully adjusted and made to flush once in every twenty minutes; in the hot weather a more frequent flush is allowed.

The total cost of this maintenance is as follows:—

	£	s.	d.
Labour (flushing and cleansing)	69	15	10
Supply of water, and rent of meters	81	0	2
Repairs and alterations	27	7	11
	<hr/>		
	£178	3	11
	<hr/>		

UNDERGROUND CONVENIENCES.

The question of providing underground urinal and lavatory accommodation has been for some time past under consideration, and acting upon your instructions I have prepared several schemes and reported fully upon the sites in the Parish; the sites having been reduced to two, viz.: St. Martin's Place and Charing Cross, you finally decided to erect a convenience on the Charing Cross site,

adjoining the Statue of King Charles I., with the following accommodation:—

For Men .. 12 W.C.'s; 28 Urinals; and 2 Lavatories.

For Women.. 5 W.C.'s, and 2 Lavatories.

Together with Caretaker's Rooms, Stores, &c.

The necessary Working and Detail Drawings, Specifications, and Quantities have been prepared, and it is proposed to divide the work into two Contracts—one for the General Builder's work and one for the Sanitary Fittings. Advertisements have been issued for Tenders, and the work will I trust be completely finished in the autumn of the present year.

GREEN STREET IMPROVEMENT.

The work in connection with this much needed improvement has been commenced by pulling down the buildings occupying the sites of No. 31 Leicester Square, and No. 1 Green Street. A temporary fence has been erected diagonally across the site, and the portion outside same given up to the street, thus allowing the public the immediate benefit of a portion of the improvement.

The net cost of this work has been—

	£	s.	d.
For erection of fence	12	14	7
Paving works	45	4	0
	<hr/>		
	57	18	7
Less amount received for building materials	3	0	0
	<hr/>		
	£54	18	7
	<hr/>		

WHITCOMB STREET IMPROVEMENT.

This improvement from Coventry Street to Panton Street has now been completed, the net cost of the paving works being £135 15s. 8d.

The proprietors of the Lyric Club have extended their awning to the increased width of footway.

HEMMINGS ROW.

The order for closing this street was made on June 23rd, 1890, consequently Hemmings Row has now disappeared from the list of streets in the Parish.

The closing of the street also necessitated the diversion of the sewer, upon which I have already reported. The old paving materials from the roadway were taken up and disposed of by the Vestry. The removal of the gas and water mains was undertaken by the Companies, and involved a considerable amount of work.

When the new buildings are completed and the hoarding taken down, the proposed improvements to the Charing Cross Road can be proceeded with.

SALISBURY STREET AND CECIL STREET.

The greater portion of Salisbury Street has been closed by the Contractors for the new buildings on the Salisbury Estate without the sanction of the Vestry; the matter is now under the consideration of the Vestry, both as regards this street and Cecil Street, the lower portion of which for a distance of about forty feet has been dealt with in a similar manner by the Contractors.

CECIL COURT.

The new buildings abutting upon this court are now in a very forward state. Plans for the construction of a 12 in. pipe sewer, which will become a public sewer, were submitted to the Vestry and approved conditionally upon a space being retained for a width of 2 feet 6 in. for the whole length of the Court, serving as a subway for the inspection of the sewer and connections therein. This will render the drainage of this Court easily accessible in every part, and access to the sewer can be had without passing through the premises of private owners, too often the case in the older Courts of the Parish.

DRURY LANE GARDENS.

These gardens have been converted into an out-door gymnasium for the benefit of the poorer children of this populous district

Swings, see-saws, parallel bars and an horizontal ladder have been provided for the children, at the same time seats have been retained for the benefit of older people. The interior portion of the ground has been asphalted, and an additional iron fence fixed to the north and west sides in continuation of that on the south side, as an enclosure to the shrubbery. New gullies have been fixed to receive the surface drainage and connected to the sewer in Drury Lane. The worn out chimney cowls to caretaker's residence have been taken down and the chimney stack carried up and finished with new cowls. Iron steps have also been fixed to the front palisade wall beneath the drinking fountain, thus enabling little children to easily reach the water supply, which they could only do with difficulty before.

The windows and rain water spouting to the mortuary have also been repaired.

The total cost of the above work is as follows:—

	£	s.	d.
Labour	8	9	4
Asphalting Ground	79	9	2
Gymnastic Apparatus	49	2	6
Drainage	5	10	5
Sundry Repairs to Lodge and Mortuary ..	46	8	9
	<hr/>		
	£189	0	2
	<hr/>		

The gymnasium was opened on August 1st, 1890; Caretaker's wages and sundries having amounted to £25 4s. 10d. from that date.

CHURCHYARD.

The Metropolitan Gardens Association, who until last year were responsible for the management and control of the Churchyard as an open space for the public, have, by arrangement with the Vestry, transferred their authority to the Vestry, together with the Caretaker's box, seats, and other appliances.

Regulations have been drawn up by the Vestry, and a Caretaker appointed for the preservation of order, and to generally look after

the ground. The prevention of trespass through the iron palisade fence, required for the more effectual supervision of the ground, has been secured by the insertion of wrought iron bars between the cast iron standards or balusters. The cost of the alterations to the iron railing amounted to £127 10s. 11d. The Vestry subsequently decided to treat the railing in front of the Church in a similar manner at an additional cost of £39 4s. 9d.

APPLICATIONS.

The following applications for various works have been made during the year.

	Granted.	Refused.
To construct vaults	10	—
„ „ pavement lights ..	9	—
„ „ awnings	—	1
„ erect private lamps	14	1
„ erect sign boards	—	3
„ to enlarge coal plate	—	1
„ erect pillar letter-box (by 448, Strand)	1	—
„ place direction on public lamp ..	1	—
„ erect automatic machines ..	—	1
„ divert pipe sewer (Bull Inn Court)	1	—
„ erect gas device	—	1
„ construct cartway	1	—

LICENCES.

54 Licences (not including renewals) have been granted for hoardings and scaffolds for the purpose of pulling down, re-building, and alterations. Licences have also been granted, in 12 cases, to take up pavements for repairing rain water pipes, connections to sewers, and other similar purposes. The cost of making good these openings has been charged to the person taking out the Licence.

TRENCHES OPENED BY COMPANIES AND OTHERS.

The following statement shows the superficial area of pavements disturbed by the Gas, Water, Electric Lighting Companies, and others, for the laying and repair of their mains and services.

Company.	Kerb yds. lineal.	York Footway. yds. super.	Asphalte Footway. yds. super.	Asphalte Carriage- way. yds. super.	Granite Carriage- way. yds. super.	Wood Paving. yds. super.	Maca- dam. yds. super.
Chelsea Water Works Co.	3½	21½	3½	—	7	21½	28½

Total	101½	3,035½	208½	202½	874	984½	125½

The areas have been relaid by the Vestry at the expense of the companies, the total amount receivable therefrom being £1,599 3s. 9d.

VAULTS UNDER FOOTWAY.

Owing to the large number of applications to construct vaults, extending in many cases for a considerable distance into the street, the Vestry have decided to limit the projection so as not to exceed two-thirds of the width of the footway. Regulations as to height and method of construction are also under your consideration, which if adopted, will for the future greatly facilitate the consideration of similar applications.

VESTRY'S WORKMEN.

The average number of workmen employed is as follows:—

Masons and Paviers	5	at 8d. per hour.
Labourers to ditto	5	„ 5½d. „
Sewerman	1	„ 30/0 per week.
Labourer to ditto	1	„ 24/0 „
Labourers (general works)	4	„ 24/0 „
Orderlies	11	„ 19/0 „
Sweepers	6	„ 20/0 „
Ditto Gangers	2	„ 21/0 „
Dustmen	3	„ 4½d. per load.
			—	
			38	
			—	

In addition to these there are the drivers of the slop, dust, and water vans supplied under contract.

On the 30th July, in response to your instructions, I submitted an exhaustive statement of the wages paid to the Vestry's employees, together with a schedule of wages paid by other Vestries and District Boards, upon the consideration of which your Vestry decided that for the future the wages be paid as per above rates, and the working hours be, in summer from 6 a.m. to 5.30 p.m. and in winter from 7 a.m. to 5.30 p.m.

CONCLUSION.

I have in the foregoing Report, entered into matters more minutely than in my report of last year, by giving descriptions of the works as well as mere statistics of what has been done, thinking that by so doing, the Members of the Vestry will be more interested in the perusal of what would otherwise be a somewhat uninteresting report.

I have the honour to be,

GENTLEMEN,

Your obedient Servant,

CHAS. MASON, Assoc. M. Inst. C.E., A.R.I.B.A., etc.,

Surveyor to the Vestry.

VESTRY HALL,

ST. MARTIN'S PLACE,

W.C.
