ANNUAL REPORT

STATEMENT OF THE
MONIES RECEIVED & EXPENDED
BY THE VESTRY

FOR THE YEAR ENDING MARCH 31ST, 1887.

PRINTED BY THE VESTRY

AT THE OFFICE OF THE VESTRY CLERK,
ST. MARTIN'S CHURCH, LONDON, E.C. 4.

1887.

ALBERT LEONARD SHORRIDGE, VESTRY CLERK.

A REPORT

Of the proceedings of the Vestry of the Parish of St. Leonard, Shoreditch, in the County of Middlesex, in the execution of the Act passed in the Session of Parliament, held in the 18th and 19th years of the reign of Her Majesty Queen Victoria, cap. 120, intituled "*An Act for the better Local Management of the Metropolis,*" and of the Works commenced and completed respectively, for the year ending 25th March, 1867, the Works remaining in progress at the termination of such year, also the proceedings taken by them up to the said period, for the Removal of Nuisances, or the improvement of the Sanitary condition of the Parish.

VESTRY RATES.

The total amount of the rateable value of the property in the Parish as assessed in the Rate Book at March, 1867, was £322,847.

The following have been the rates made by the Vestry for the year ending March, 1867 :

		Sewers Rate.	General Rate.	Main Drainage Rate.
Midsummer	1866	2d ..2588 0 10	4d...5176 1 8	1d...1294 0 5
Michaelmas	1866	1d...1298 9 9	5d...6492 8 9	1d...1298 9 9
Christmas	1866	2d...2631 15 4	5d...6579 8 4	1d...1315 17 8
Lady-day	1867	1d...1345 3 11	6d...8071 3 6	1d...1345 3 11
		£7863 9 10	26319 2 3	5253 13 9

MAIN DRAINAGE RATE.

The Vestry on the 3rd day of April, 1866, made a Rate of 4d. in the pound, to be collected in the four following quarters in equal proportions of 1d. each quarter, for the purpose of paying the precept issued by the Metropolitan Board of Works for the sum of £4825 11s 0d., that being the proportion to be paid by this parish towards the expenses of the Board in regard to the works now being carried out for the Main Drainage of the Metropolis, for the year ending 1st August, 1867.

The Main Drainage Rate Account for the year ending the 25th day of March, 1867, is as follows :

Balance in hand on the	Paid the Metropolitan
25th day of March, 1866	Board 4825 11 0
4175 4 0	„ Collectors Poundage 123 12 0

Maintenance of the Roads, Streets, &c.

The extent of the Roads kept in repair by the Vestry is about 50 miles :

Macadamized and Ballast	45 miles
Paved with Granite Cubes	5 miles

the materials used in the un-paved roads being Broken Granite, Flints, and Ballast.

PAVING WORKS.

The following Paving Works have been done during the year ending 25th March, 1867 :

KINGSLAND ROAD—from Woolpack Passage to Pearson Street, a new Granite Channell laid down and the footway repaved with new 3-in. York, at a cost of £288 16s. 4d; *and* from Canal Road to Mill Row the footway repaved with new 3-in. York, at a cost of £16 17s. 7d.; *also* opposite “Kings Head” and adjoining shops the footway repaved with new 3-in. York, at a cost of £47 10s. 9d.

HACKNEY ROAD—from Nichols Square to Union Street, a new Granite Channell and Curb laid down; from Nichols Square to Thomas Street the footway repaved with new 3-in York; and from Thomas Street to the “Old Axe” Public House the footway repaired, at a cost of £200 5s. 4d.

PITFIELD STREET—from Old Street Road to Buttesland Street on the West side, and from Old Street Road to Ashford Street on the East side, the footway repaved with new 3-in. York, at a cost of £367 17s. 11d.

CITY ROAD—the whole of the carriage way in this parish, paved with new Granite Cubes, at a cost of £2460 0s. 1d.

WALLBROOK PLACE—a new Curb laid down, at a cost of £18 8s. 0d.

CATHERINE STREET, (part of)—the footway paved with new 3-in. York, and the carriage way with new Granite half-sovereigns, at a cost of £121. 7s. 7d.

BRUNSWICK PLACE AND CITY ROAD, (Triangular space at the end of)—paved with new 3-in. York, at a cost of £24 13s. 3d.

PITFIELD STREET—the Cab Rank paved with new Granite half-sovereigns, at a cost of £60 10s. 2d.

WORSHIP STREET (East end)—the carriage way repaired with new Granite Cubes, at a cost of £84 18s. 5d.

BRANCH PLACE—a new Curb laid down, and the whole of the footway repaved with old York, at a cost of £39 18s. 7d.

PENN AND NORTHPORT STREETS, (by St. Saviors Church)—a new Curb laid down, at a cost of £15 0s. 4d.

BARING STREET (East end)—a new Granite crossing laid down, at a cost of £26 9s. 7d.

OLD STREET ROAD (in front of Timber Yard by Wood Street)—the footway paved with new 3-in. York, at a cost of £40 2s. 10d.

SAINT JOHN'S TERRACE (the whole of)—a new Curb and Granite Channell laid down, and the footway paved with new 3-in. York, at a cost of £176 13s. 8d.

The Surveyor has under his control, two foremen, one for the Eastern district, and one for the Western district of the parish, and it is their duty to superintend the repair and maintenance of the roads and footways, to see that the watering is properly done, and to report to the Surveyor and Paving, &c., Committee, all matters relating to such roads footways, &c., from time to time.

The number of laborers employed by the Surveyor on the roads is 16, and they have to attend to the general repair and maintenance of the roads throughout the parish.

Also from 25th June there has been 17 Laborers employed for Sweeping and Scraping the Macadamized and Ballast Roads, and Cleansing Gullies, &c.

The Surveyor has also 2 masons with a laborer each, for the repair of the footway pavements, and in most cases to repair the pavement after trenches have been opened by companies or contractors.

There are also 3 paviors for the repair of the carriage-ways, crossings, channels, &c., and 5 laborers generally employed, throughout the parish.

There is one man employed to cleanse the Urinals (14) belonging to the Vestry. (This man has been placed under the control of the Sanitary Committee.)

The Surveyor has 3 men employed in flushing the Sewers in the parish, also a bricklayer and laborer generally employed on sewers work.

The expense of maintaining the roads thrown upon the Parish by the 26th and 27th vic. cap. 78, being the "Metropolis Turnpike Roads Acts Amendment Act," for the year ending the 25th March, 1867, is £2383 15s. 3d. thus apportioned.

SANITARY CONDITION OF THE PARISH.

REPORT of the ASSISTANT INSPECTOR of NUISANCES.

GENTLEMEN,

I beg to submit for your information the following summary of proceedings for the removal of Nuisances, and the number of Sanitary Works executed during the year ending March, 1867, all independent of and distinct from what has been done under the direction of the Special Sanitary Committee.

In consequence of the death of Mr. KIRKHAM, your late Inspector of Nuisances, I am sorry to say that I cannot give you the number of houses inspected by him during the year.

81 Cesspools have been abolished.

292 proper Water Closets have been erected, all provided with proper trapped soil pans, and properly drained to the Sewers.

160 House Drains have been cleansed and repaired, also a great many yards have been re-paved so as to improve the surface drainage. Dust-bins have been provided for 34 houses, and 73 houses that had been the seat of contagious disease were thoroughly lime-washed.

The number of Sanitary Works executed since the establishment of the Vestry are as follows:—3,521 Cesspools have been abolished; 5,347 proper Water Closets have been erected, and all properly drained to the Sewers; 2,707 House Drains have been cleansed and repaired; 991 Dust-bins have been provided.

During the year 1866 there were 1,468 applications to have dust removed, which were all promptly attended to.

I am Gentlemen,

Your obedient Servant,

JOHN ROBINSON,

Assistant Inspector.

Vestry Offices, 17th July, 1867.

The committee to whom it was referred "to consider if any and what alterations should be made in the arrangements of the Office of "Inspector of Nuisances," after a very careful consideration of the subject, reported to the Vestry as follows :—

They are firmly of opinion that the sanitary duties of the Vestry would require the undivided attention of two Officers, to be entirely under the direction of the Medical Officer of the Vestry, one as Chief Sanitary Inspector, to inspect dwellings, to determine the works necessary, to lay his recommendations before the committee, see to their proper and due execution, &c.; to recover the costs, to take and conduct all proceedings before the Magistrate, to superintend the inspection of Cow-houses, Slaughter-houses, Bake-houses, Firework makers and other dangerous trades coming under the Vestry's supervision, as well as an inspection of the perishable food sold to the poor—a most important matter at all times, especially during the prevalence of epidemics—and to keep all books and records necessary in his department; he should not be over 45 years of age, active and intelligent, and capable of conducting a case before the Magistrate against the legal advisers of the defendant, in respect of which duty it may be observed that the 48th section of the Sanitary Act, 1866, authorizes the appointment of such officer by the Vestry, who need not be in the legal profession. And that the salary to be paid to such Officer be £130 per annum.

That the other officer should be an Assistant Sanitary Inspector, to make out and serve Notices, and to actually inspect the Works while in progress, whether done by the Owners or the Vestry, and to report all cases of the observance of Vestry's orders, in order that the Chief Officer might take the necessary steps to enforce them, and generally to act under the orders of the Chief Officer and the Sanitary Committee, and that the salary to be given to such Officer be £80 per annum, and that a suitable livery be annually provided.

Acting upon this Report, the Vestry at their meeting on Tuesday, the 18th day of June, 1867, appointed Mr. Thomas Dennis, of 95 Paul Street, as a Chief Sanitary Officer, and Mr. John Robinson as an Assistant Inspector of Nuisances, to perform the duties mentioned in such report, and at the salaries as recommended.

Bills in Parliament, Session 1866-7.

East London Water Works, (Thames supply).

This Bill proposed to obtain a supply of water from the Thames near Sunbury, and convey it by pipes or conduits to reservoirs at Hackney and Walthamstow. (This Bill was promoted by the East London Water Works Company).

The Vestry did not oppose this Bill, but was of opinion that the Company should not obtain a supply from the Thames.

East London Water Works. (various powers).

This Bill proposed to enable the Company to make Reservoirs, Filtering Beds, &c., at Leyton and Walthamstow, and to construct intercepting drains from Ponders End to Cheshunt, to prevent sewage from flowing into the river Lea. To raise additional capital, &c.

The Vestry did not oppose this Bill.

East London Water Supply.

This Bill was to make the East London Water Works Company provide a pure and sufficient supply of water, and intercept the sewage, &c., from flowing into the river Lea.

This Bill, which was not opposed by the Vestry, was not proceeded with.

The Gas Light and Coke Company's Bill.

This Bill was intended to empower the Company to embank the river Thames at Barking, and make and maintain Gas Works, &c. there, and to discontinue making the Gas at Curtain Road.

The Vestry did not oppose this Bill.

Imperial Gas Company's Bill.

This Bill was to empower the Company to purchase land at West Ham in Essex, and Hammersmith and Acton in Middlesex, and laying down mains and pipes to connect works and limits of supply.

The Vestry did not oppose this Bill.

Metropolitan Tramways Bill.

This Bill proposed to empower the promoters to lay down Tram-

ways from Holloway to Finsbury Place, passing over certain parts of this Parish.

The Vestry petitioned against this Bill.

North London Railway (widening, &c.) Bill.

The Vestry have succeeded in obtaining the insertion of the following clauses for protecting the interests of the Parish.

For the payment of the Parish Rates for Empty Houses required by the Company during the construction of the Railway.

For Lighting under Bridges under certain regulations, and a General Saving Clause for the Vestry.

The Company have also entered into an agreement with the Vestry to leave a clear space of 28 feet on the East side of the New Town Hall at the North end, and of 20 feet at the South end.

Traffic Regulation Bill.

The Vestry petitioned against this Bill, as being quite unnecessary and uncalled for in a parish like Shoreditch.

Spiritual Destitution Bill.

Thames Embankment and Metropolis Improvement (Loans) Bill.

Metropolis Improvements Bill.

Artizans and Labourers Dwellings.

Meetings of Vestry and Committees.

The Vestry have held	63 meetings during the year.

The Pumps in the Parish.

During the year all the pumps, with the exception of the one in Brunswick Street, have been removed to the Stone Yard.

The Gullies are now required to be cleansed by the Contractor for cleansing the Parish, and form part of the contract.

The number of Gullies in the Parish is as under :

For the East Division	967
For the West Division	1087
			<u>2054</u>

The following are the places where the Urinals are now
in use :

				Will accommodate Persons.	
Tabernacle Square	stone	.. 6
Swan Yard	slate & iron	10
Hoxton Street, front of Red Lion Yard	brick & slate	4
Kingsland Road Bridge	slate	.. 3
Great Chart Street	iron	.. 2
Wenlock Street	iron	.. 2
Hoxton Street, back of Workhouse	iron	.. 2
Cavendish Street	iron	.. 2
North end of Curtain-road	brick & slate	4
South side of Rosemary Branch Bridge	iron	.. 2
George Square, Hoxton Street	slate	.. 2
Mill's Court, Curtain Road	slate	.. 2

Two new iron Urinals have been supplied and fixed during the year, one opposite Shoreditch Church, to accommodate six persons, at a cost of £70, and one in Pitfield Street, by Hoxton Church, to accommodate four persons, at a cost of £50.

**PROCEEDINGS TAKEN BY THE VESTRY WITH REGARD TO
THE VISITATION OF CHOLERA IN THE PARISH.**

IN July, 1866, the Vestry received an Order of Council, dated the 21st July, giving power for the adoption of measures for the preservation of the health of the inhabitants, and the treatment of Cholera, also that the "Diseases Prevention Act" should, after such date, be put in force in England.

The Vestry also received a copy of the Regulations as issued by the Lords of the Privy Council, for the sanitary arrangements to be made with regard to the treatment of Cholera or Diarrhœa.

The Vestry, at their meeting on the 31st day of July, 1866, appointed a committee to consist of the Churchwardens and eighteen members of the Vestry, to put in force the regulations contained in the Order in Council, and with full powers to adopt such measures as they might think fit, or as the Medical Officer might advise, for the preservation of the health of the inhabitants of the Parish.

The following persons were appointed to form the committee to be called the "Committee of Health," and that three members constitute a quorum.

	Mr. W. A. H. HOWS	}	The Churchwardens.
	Mr. CHARLES PITT		
Mr. OWEN	Mr. DEATH	Mr. WARREN	
„ FELL	„ WALKER	„ C. STEVENS	
„ SARSON	„ T. TURNER	„ LARGE	
Rev. G. P. POWNALL	„ ATKINS	„ BAKER	
„ H. KELLY	„ LINES	„ CHAMBERS	
Mr. SYER	„ EMMS	„ E. KING	

The committee held their first meeting on Thursday, the 22nd August, 1866, and continued their meetings weekly until the 21st day of November, 1866, when the following Report was agreed to and ordered to be presented to the Vestry.

SAINT LEONARD, SHOREDITCH.

Vestry Offices, 37, Hoxton Square,
November, 1866.

R E P O R T

Of the Committee appointed to put in force the regulations contained in the Order of Council, of the 21st July, 1866, with full power to adopt such measures as they may think fit, or as the Medical Officer may advise for the preservation of the health of the inhabitants, and for the treatment of Cholera and Diarrhœa patients.

An Order of the Privy Council was passed on the 21st July, 1866, stating that the "Diseases Prevention Act, 1855," and the amending Act, 23rd and 24th Vic., cap. 77, should from and after the date of such order, be put in force within the whole and every part of England.

The Lords of the Privy Council also issued certain directions and regulations to be in force within the Metropolis so long as the provisions aforesaid should be in force under the said order.

In consequence of such order, a special Meeting of the Vestry was held on the 31st day of July, 1866, when the above order was considered

and a Report by your Medical Officer, establishing the prevalence of Cholera in the parish, having been read :

A Committee consisting of the churchwarden and eighteen members of the Vestry was appointed, with authority to make the necessary arrangements to carry out the regulations as requested by the Order of the Privy Council.

Your committee met on Thursday, the 2nd day of August, 1866, and in order to carry into effect the object contained in the reference from the Vestry, of the 31st July, 1866, proceeded to make the necessary arrangements for that purpose, as follows :

- 1.—That the parish should be sub-divided into six districts.
- 2.—That a Medical Visitor should be appointed for each district, as follows :

Dr. BUSS, 56, Holywell-street—Holywell district
 ,, LEONARD, Tabernacle-square—Hoxton Old Town
 ,, GRIFFITH, 79, New North-road—Hoxton New Town
 ,, BURCHELL, 2, Kingsland-road—St. Leonard's
 ,, WALLACE, 243, Hackney-road—Haggerstone West
 ,, GREENWOOD, 26, Queen's-road—Haggerstone East

That six Dispensaries, being the surgeries of the six medical visitors, be open day and night, for affording advice and medicines to any persons attacked with Diarrhœa or Cholera.

That placards and hand-bills be issued, giving public notice that such dispensaries were open, and also containing other directions as to the course to be adopted for the prevention of disease.

- 3.—That the remuneration to be given to such medical officers, be at the rate of £1 1s. per day, to include the medicine supplied.

- 4.—That six Assistant Medical Visitors should be appointed for each of the before-named districts, to make an inspection of the sanitary condition of the parish, and report daily thereon to the medical officer of the Vestry: and that the remuneration to be paid to each assistant,

should be at the rate of £4 4s. each per week. The following gentlemen were appointed, viz :

Mr. HATCH,	for the district of	St. Leonard's
„ STRONG,	ditto	Hoxton Old Town
„ MORGAN,	ditto	Haggerstone East
„ ASTON,	ditto	Hoxton New Town
„ BERRY,	ditto	Holywell
„ AYLWIN,	ditto	Haggerstone West

That such assistant medical visitors, under the instructions of the medical officer, had made a house to house visitation, and had reported every place requiring sanitary improvements.

That such cases had been copied for the use of the inspectors into a book, provided for that purpose, and the necessary sanitary improvements were being carried out.

That medical visitors made daily reports to the medical officer of health of the new cases of diarrhœa, choleraic diarrhœa, and cholera, attended by them. These reports supplied information as to the localities where disease arose, as well as of the extent to which it prevailed. These reports were summarised weekly in the form of tables, which were printed. The first report gave the sickness-returns for the week ending on the 12th August. The last for the week ending on the 21st October, when the services of the district medical visitors were discontinued. During these eleven weeks, the medical visitors attended to 7,449 cases of diarrhœa, 806 cases of choleraic diarrhœa, and 148 of cholera. Many cases applied directly to the dispensaries and many were discovered by the assistant medical visitors in the course of their house to house visitations, and thus received immediate care.

During the interval from the 7th July to the 10th November, namely 18 weeks, which includes the entire period of prevalence of the epidemic, 170 deaths from cholera, including choleraic diarrhœa were registered.

This number includes, not only the deaths registered in Shoreditch, but also the deaths of persons attacked in Shoreditch and removed to

the London, or to the Temporary Cholera Hospital. These amounted to 5 deaths in the London Hospital and 38 in the Temporary Cholera Hospital.

The total number of patients admitted from Shoreditch into the Commercial Street Hospital was 80.

It is a remarkable fact, that in the epidemic of 1849, the deaths in Shoreditch amounted to 889 out of a population of 83,132, being one per cent. or 10 in a 1,000, which was precisely the same rate of mortality as that which occurred during the same epidemic in Bethnal Green. During that epidemic the mortality from cholera in Whitechapel was 7 in a 1,000, and in St. George's in the East 5 in 1000. During the recent epidemic the loss in Bethnal Green has been about 7 in 1000; in Whitechapel 10 in 1000; and in St. George's 7 in 1000; proportions not materially differing from those of 1849. On the other hand, the loss in Shoreditch scarcely exceeded 1 in 1000, being only ten per cent. of the loss sustained during the epidemic of 1849.

The epidemic of 1854, was less severe than that of 1849. But both differed from that of 1866, in being more equally distributed over the metropolis. In 1854, the mortality in Shoreditch equalled 2 in 1000 of population, it was 2 in 1000 in Bethnal Green, 4 in 1000 in Whitechapel, and 3 in 1000 St. George's in the East.

The committee think they are justified in regarding it as a subject for thankfulness, that the epidemic which raged so severely in the districts immediately adjoining Shoreditch, has caused a mortality so small as 170 compared with the loss experienced in former epidemics in this district, they venture to believe that it affords some presumption of an improved sanitary condition and of the operation of an effective sanitary administration.

5.—That the necessary arrangements with regard to the destruction of infected clothing, had been made and carried out, under the superintendence of the assistant-inspector, Mr. Robinson.

6.—That communications had been made to the water companies, re-

questing a better supply of water, and the companies had promised to attend to the requests of the committee.

That on the 15th August, 1866, your committee appointed Mr. Thomas Spurin an additional assistant inspector, at 30s. a week, it being considered necessary in consequence of the accumulation of work required to be carried out by the sanitary inspectors.

That on the 15th August, by the advice of the medical officer to the Vestry, your committee gave instructions to the Surveyor to the Vestry to provide a temporary Mortuary in the stone yard, in Hoxton-street, for the temporary reception of the bodies of persons who had died of cholera, which orders were carried out; the expense of which will be found at the end of this report.

That your committee have examined into the several applications that have been made to them from time to time, for compensation for the destruction of infected clothing, and having had the evidence of the inspector, under whose superintendence this duty had been carried out, they have awarded to the applicants the following amounts, viz :

Fredk. Riley, 6, Union-street, Haggerstone ..	1	0	0

Sophia Alderson, 3, Willow-place	..	1	18	6

£77 10 3

Thus it will be seen that the committee has awarded the sum of £77 10s. 3d., as compensation in 48 cases, all of which were stated by the medical officer as cases of cholera or choleraic diarrhœa, and the value of each article destroyed ascertained and reported by the assistant inspector, and every case was carefully gone into and considered by the committee.

Your committee have reported to the Vestry as to the arrears of sanitary business in the parish, with suggestions as to the remedies which in their opinion are expedient; and which report is now under your consideration.

Your committee have been informed by the medical officer, that the temporary Hospital for cholera patients in Commercial-street, was closed on Saturday, the 3rd inst.; and they cannot make this report, without expressing to the officers managing the arrangements of that establishment, and all the persons connected therewith, their grateful acknowledgment for the benefit received by the poor of this parish, and they have instructed the clerk to communicate such acknowledgments to the proper quarter.

Your committee have also had their attention drawn to the great benefit that would be derived by substituting in the place of a temporary Hospital, a permanent institution, to be erected as near as possible to the parish of Shoreditch, for the reception of all cases of fever arising within the eastern districts of the metropolis, and which suggestion your committee has forwarded to the Honorary Secretary of the late temporary Cholera Hospital.

Your committee feel, at this stage of its proceedings, it cannot help expressing its satisfaction at the manner in which its orders have been carried into execution by the several officers under their control, who have been most assiduous in their efforts to perform the duties entrusted to them.

Your committee beg to lay before the Vestry, an account of the expenses

incurred in carrying into effect the orders and regulations required under the Orders of the Privy Council, of the 21st July, 1866.

Medical Visitors, 11 weeks, from August, 3rd. to October 20th, 1866	411	12	0
Assistant Medical Vistors, 11 weeks August 3rd to October 20th, 1866	216	6	0
Two Sub-Inspectors, 14 weeks to the 17th November, 1866	42	0	0
Compensation for Clothing destroyed	76	11	9
Erection of Mortuary	33	1	10
Disinfectants used under the Orders of the Medical Officer	37	19	11

The committee cannot present this report, without expressing its high appreciation of the services of Mr. Davis, the Vestry Clerk, and of Dr. Barnes, the Medical Officer, which have been most cheerfully and ably rendered. The committee consider that those services are deserving not only of public recognition, but merit pecuniary compensation. The committee have not thought it expedient to suggest any sum for adoption, but recommend the question to the consideration of the Vestry.

T. SIMPSON EVANS, VICAR.

Chairman.

Return of the Medical Visitors for the Parish of Saint Leonard, Shoreditch, of the Number of Houses Visited, Cases Attended to, &c., &c., during the prevalence of Cholera, 1866.
