REPORT OF THE VESTRY CLERK.

GENTLEMEN,

During the year ending Lady-day, 1890, the amount collected on the Poor's Rate was £84,946 15s. 6d.; the amount in the pound levied for the four quarters was 2/11, being for the quarter to Midsummer, 9d.; to Michaelmas, 10d.; to Christmas, 7d., and to Lady-day, 9d.

During the previous year the Poor Rate was 2/2.

The amount of the Guardians' calls for the year ending Lady-day, 1889, was £57,000; and for the last year, £52,000; and for the half-year, Lady-day to Michaelmas, 1890, is £46,200.

The amount owing to the Guardians at Lady-day, 1890, was Nil.

Further particulars of the expenditure of Poor Rates will be found in the Balance Sheets, as audited and signed.

SEWERS AND GENERAL RATES.

The statement hereto appended will give the details of the Receipts and Expenditure on account of the Sewers and General Rates. It is only necessary here to state that the rates levied for the last year were—

			s.	d.
General—in the £	2	0
Sewers ditto	0	2
			<hr/>	<hr/>
			2	2
			<hr/>	<hr/>

The total amount collected on the Vestry Rates for the year was £63,421 6s. 8d., a decrease upon the previous year of £2,245 15s. 9d.

Of these sums collected by the Vestry as for Poor Rates large amounts are paid to other authorities for purposes over which the Vestry has no control. Thus, in addition to the £55,500 paid to the Guardians, out of which the County Rate and Metropolitan Asylums Board's charges were paid, there was a sum of £13,380 6s. 10d. paid to the Commissioners of Metropolitan Police, and £543 3s. 2d. for Registration, &c., expenses.

From the Sewers Rate was paid the London County Council of £6,169 4s. 8d. From the General Rate is paid the School Board Rate of £23,704 8s. 2d., and the Toll Bridges Precept of £592 12s. 7d. All these charges are based upon the rateable value of the property according to the valuation list, and no reduction is made for empty houses, nor for the allowance to owners.

ASSESSMENT.

The valuation of the Parish for Assessment purposes, for the year beginning the 5th of April, 1890, is as follows :—

	<i>April, 1889.</i>	<i>April, 1890.</i>	INCREASE.
Gross value	£793,299	£794,141	£842
Rateable value...	£644,246	£644,844	£598

The next complete revision of the Valuation List will take place in 1890, and will come into operation on the 6th of April, 1891.

The number of Assessments and the Rateable value of each Ward, omitting such of the Gas, Water, Railway and other Assessments, as are included in several Wards at Lady-day last, were as follows :—

			Number of Assessments.	Rateable Value.
Moorfields Ward	1,451	81,623
Church Ward North	1,981	55,924
Church Ward South	1,097	62,520
Hoxton Ward	2,382	71,493
Wenlock Ward	1,807	54,193
Whitmore Ward...	2,312	54,828
Kingsland Ward...	1,713	44,544
Haggerstone Ward	1,567	33,777
Acton Ward	1,746	39,695

The Rateable Value of the Parish is made up as follows :—

Railways...	£63,034
Gas Company	30,275
Water Companies	7,741
Tramway Company	3,210
Regent's Canal Company	738
Board Schools	12,124
Hoxton House Asylum	1,063
Theatres and Taverns attached thereto				...	1,571
The Town Hall	1,000
Other Assessments of £500 and upwards, including Model Dwellings of that value	25,083

The Workhouse and Infirmary, belonging to the Holborn Union in the City Road, is by Local Act rated at £19 only.

The Shoreditch Workhouse and Infirmary is not assessed.

The total of the above is £145,839, which shows that the ordinary Assessments, under £500, amount to £498,597.

Number of Vestry Meetings	39
Finance Committee (including Meetings of Audit Committee)	35
Sewers, &c., Committee	30
General Purposes Committee	25
Valuation Committee (including Sub-Committee)...	20
Town Hall Committee ditto	20
Parliamentary and Improvement Committee	9
Officers' Committee	19
Special Scavenging Committee	7
Total	204

APPENDICES.

Appended are various Tables showing Receipts and Expenditure, Loans outstanding, Analyst's Reports, List of Contracts, Boundaries of Wards, &c.

I have the honor to be,

Gentlemen,

Your most obedient Servant,

E. WALKER,

Vestry Clerk.

TOWN HALL, OLD STREET,

July, 1890.

ST. LEONARD, SHOREDITCH.

BOUNDARIES OF THE WARDS.

Adopted under the Metropolis Local Management Act.

No. 1.—MOORFIELDS WARD.

All that part of the Parish lying South of a line commencing at the Bethnal Green Boundary in Bethnal Green Road (Church Street) ; and continuing through Church Street, New Inn Yard, and Leonard Street to the St Luke's Boundary.

No. 2.—CHURCH WARD.

North of the line above described. The Eastern Boundary commences at the corner of Boundary Street, Bethnal Green Road, and continues by Boundary Street to Austin Street, Hackney Road, thence to Kingsland Road, and by that road to Mary Street; crosses Hoxton Street to Great James Street, thence by St. John's Road and Pitfield Street to Old Street Road, thence westward through Old Street Road, and thence by the boundary of St. Luke's to Leonard Street.

No. 3.—HOXTON WARD.

West and North of the Boundary of Church Ward. The Northern Boundary of this ward commences at the St. John's Road end of Nicholas Street, through that street to the New North Road, Murray Street, Shepherdess Walk and Edward Street to the St. Luke's Boundary, and thence by that boundary, near the City Road, until it intersects the Church Ward Boundary in Old Street Road.

No. 4.—WENLOCK WARD.

North and West of the Hoxton Boundary. The Eastern Boundary commences at the New North Road, corner of Nicholas Street,

thence by Mintern Street and Bridport place, over the Rosemary Branch Bridge, and thence by the Islington and St. Luke's Boundaries, the Canal, Wharf Road, &c., to the Boundary of Hoxton Ward in Edward Street.

No. 5.—WHITMORE WARD.

All that part North of Church Ward, and East of Wenlock Ward, and West of a line commencing at Kingsland Road, by the end of Mary Street, and continuing a few yards over the Bridge. The Parish of Hackney is the Northern Boundary.

No. 6.—KINGSLAND WARD.

The line commences at the point of Kingsland and Hackney Roads, opposite Shoreditch Church, and continuing by Hackney Road to Brunswick Street, thence to the Regent's Canal, thence by the Canal to Kingsland Road, and by that Road to the point at Shoreditch Church.

No. 7.—HAGGERSTONE WARD.

All that part of the Parish lying East of Brunswick Street and South of the Regent's Canal. The Boundary of the Parish is the Hackney Road, from Brunswick Street to Gloucester Place, and continues by an irregular line and crosses over the Goldsmith's Row Bridge.

No. 8.—ACTON WARD.

All that part of the Parish lying on the Hackney side of the Regent's Canal and East of the Kingsland Road. The Northern Boundary is the Parish of Hackney.

Return as to the Collection of Rates for the Quarter, Lady-day, 1889, to Midsummer-day, 1889.

REPORT OF THE SURVEYOR.

SURVEYOR'S DEPARTMENT.

GENTLEMEN,

I beg to submit a summary of works, &c., carried out under the superintendence of the above Department during the year ending the 25th March, 1890.

MAINTENANCE OF ROADS.

The following quantities of materials were supplied by the Contractors and Guardians at the cost stated, and used on the Macadam and ballast roads in the parish during the year:—

						£	s.	d.
949 $\frac{1}{2}$	yards cube	Broken Granite	674	15	3
23	„	„ Granite Siftings	4	12	0
232 $\frac{3}{4}$	„	„ Flints	70	16	9
162 $\frac{1}{2}$	„	„ Ballast	46	0	10
425 $\frac{3}{4}$	„	„ Hoggin	120	12	7

During the year 588 cubic yards of old pebbles, York, etc., were broken up, costing £58 9s. 5d., and loaded and carted for repairing the roads at a further cost of about £73 10s. 10d.

One foreman and seven laborers on an average were employed in the yard, and on the general repairs of the unpaved roads and over trenches opened by the Gas and Water Companies; their wages

for the year amounted to £438 7s. 3d. The sum of £3 13s. 6d. was also paid for watchman's wages. The companies contributed £46 4s. 4½d. for labour (exclusive of foreman's time) and £138 17s. 3½d. for material required in the said repairs.

In consequence of the use of the Steam Roller the unpaved roads are, generally speaking, in a satisfactory condition. Those requiring attention are enumerated hereafter.

STEAM ROAD ROLLER.

The Steam Road Roller having been at work nearly 10 years, and requiring considerable repairs, the Vestry decided to replace it by a new one of improved design by Messrs. Aveling & Porter, Rochester, at the cost of £400, less £145 14s. 0d. allowed for the old Roller taken in exchange. The new Roller arrived at the yard on the 9th of April.

The Roller was at work 255 days during the past year, and about 10 men on average, under the direction of the road foreman, were employed in scoring, rolling, sweeping and watching the highways under repair. The amount expended in labour was £559 11s. 8½d.

The following Table gives the roads that have been rolled, together with the cost of same, and other details:—

LOCALITY.	MATERIAL AND COST, 1889-1890.					Wages for Labor and Watch- men.	Roller Expenses, and Sharps and Steels.	Water and Horsing Water Cart.	Total Cost.	Super- ficial Area.	Cost per yard.

CARRIAGEWAY PAVING.

The following works at the cost stated have been executed by the contractor during the past year :—

Opposite 106, Goldsmiths Row—

A portion of carriageway taken up, selected and relaid on lime, concrete and grouted £1 0 6

Kingsland Road, for Post Office Telegraphs—

A portion of carriageway taken up and re-laid, 54 new cubes supplied and laid all on concrete and grouted... *£8 2 3

Nichols Square—

New cube channels laid with new 4 × 6 pitchings on concrete and grouted *£154 7 2

Holywell Row—

Carriageway re-paved with new 3 × 9 pitchings, the approaches at ends of streets with old pitchings dressed and re-laid on 6" concrete and grouted £490 9 2

Livermere Road—

Crossings paved with new 4 × 6 and 4 × 4 pitchings on concrete and grouted *£24 11 11

Lamp Refuge, Whitmore Road by De Beauvoir Crescent—

Four 18 × 18 × 9 Granite Quadrant Blocks, supplied and fixed, cube roadway repaired and made good with new 3 × 6 pitchings. £4 6 0

Hoxton Street, opposite Asylum—

A portion of cube carriageway taken up and re-paved with pickled wood blocks by the Improved Wood Pavement Co. *£91 19 0

Hoxton Street, opposite Asylum—

A portion of carriageway taken up, re-laid and grouted £2 8 2

Old Street, by Fire Station—

A portion of crossing re-paved with 6" pickled blocks on 6" concrete £1 15 0

Fanshaw Street, by Hoxton Street—

The cubed portion of carriageway relaid on 3" dry concrete and grouted £15 8 9

Baldwin Street—

Carriageway taken up, cubes sorted and dressed, (worn cubes sent to stone yard, deficiency made good with dressed cubes from yard) and laid on 6" concrete and grouted £35 9 11

Grove Walk—

Old Ballast road and channels removed and paved with old pitchings removed from Hoxton Street and laid on 6" Lime concrete and grouted £43 2 7

Lower John Street—

Paved with Val de Travers 1½" Compressed Rock Asphalte on 6" Portland cement concrete £106 11 0

Bowl Court—

Cost of digging and carting away ground and filling in same with lias lime concrete to receive cube paving £22 6 3

Paving executed by the G.E. Railway Company.

Paved granite crossings (private) as follows :—

45 and 47, Wilson Street	*£10 7 6
Baches Street	*5 4 1
Mansfield Street...	*3 11 6
Felton Street	*4 6 7

*The whole or portion repaid to the Vestry.

Three paviers on average and their laborers were employed in repairing the paved roads, and over trenches opened by the Gas and Water Companies and Post Office Telegraphs; their wages for the year amounted to £599 2s. 9½d. The companies contributed £270 0s. 6½d. for labour, use of tools, &c., and £328 16s. 9d. for material required in the said repairs.

The contractor supplied 12 tons 18 cwt. of Guernsey granite cubes for use in repairing the channels and carriageways at a cost of £18 1s. 2d., and re-dressed 115 super yards of pitchings at the yard at a cost of £10 11s. 8d.

There are about fifty-one miles of carriageway in the parish, fifteen being paved, and the remaining portion constructed of Macadam or Flints.

The carriageway or channel paving in the following localities is in a most unsatisfactory condition, and should be repaved (or steam rolled as required) to prevent danger to traffic :—

Bateman's Row
 Bevenden Street
 Boundary Street
 East Road (portion of)
 Edward Street
 City Road
 Curtain Road
 Grange Street
 Goldsmiths Row (portion of)
 Hoxton Square
 Hoxton Street (portion of)
 Ivy Lane
 Ivy Street
 Laburnum Street (portion of)
 Maidstone Street
 Murray Street
 New North Road (portion of)
 Napier Street
 Nile Street (portion of)
 Paul Street
 Primrose Street
 Shoreditch High Street (portion of)
 Skinner Street
 Upper John Street
 Wenlock Street
 Wilson Street (portion of)
 Worship Street

FOOTWAY PAVING.

The following works at the cost stated have been executed by the contractor during the past year :—

Queens Road—

A portion on West side from Clarence Terrace to No. 57, repaved with new 3" York, old paving taken up, squared and relaid, old granite curb re-fixed and portions of new edge curb supplied and fixed on lime concrete, York channel supplied and laid, Moorstone dressed and re-laid, 14 boxes and posts cut in York stone £200 2 0

Nichols Square—

Old granite curb re-fixed, also a portion of new curb supplied and fixed on lime concrete, one new granite spur stone supplied and fixed *£71 11 10

Nichols Square—

Paved with Val de Travers Asphalte, on 3" Portland cement concrete *£449 6 11

Kingsland Road, on West side, Post Office Telegraphs Trench and additional work—

Curb re-set, a portion of new edge curb supplied and fixed, old York paving re-laid and portions of new 2½" and 3" York supplied and laid, Victoria paving relaid and new ditto supplied and laid *£85 9 7

At 45 and 47 Wilson Street—

A portion repaved with new 2½ York, old ditto taken up, squared and re-laid, portions of new edge curb supplied and fixed on lias concrete and old curb re-set *£10 7 6

Grove Walk—

Repaved with new 2½ York and old paving taken up, squared and re-laid, old curb re-dressed or made good with new curb, and re-set on lime concrete, 3 corners rounded, and York edge crossing re-laid £45 16 3

Livermere Road—

A portion of York paving re-laid. Curb dressed and re-set, a portion re-set only, all on lias concrete and 6 corners, rounded *£21 9 10

Livermere Road—

A portion paved with new 2" Victoria stone, 7 posts fixed and a portion of old York paving relaid ... *£291 8 7

Holywell Row—

Granite curb dressed and re-fixed, portion new edge and flat curb supplied and fixed on lime concrete; new 3" York paving supplied and laid, portions of old York squared and relaid, Moorstone relaid, a portion re-dressed and relaid, and York edge crossing relaid, 1 corner granite block supplied and fixed ... £177 6 2

Lower John Street—

Paved with Val de Travers $\frac{3}{4}$ " Mastic Ashphalte on 3" Portland cement concrete ... £32 16 11

Lower John Street—

Old curb dressed and reset. New curb supplied and fixed all on concrete, repaved with new 3" and $2\frac{1}{2}$ " York and old York relaid—1 granite block, 2 spur stones and 1 iron post fixed ... £33 17 10

Opposite 245 and 247, Old Street—

Old York paving relaid and curb re-set ... *£1 2 11

Lamp Refuge, Haggerston Road and crossing at Lee Street—

New flat curb supplied and fixed on lime concrete, and new 3" York paving supplied and laid ... £3 18 3

Opposite 17 and 18, Paul Street—

A portion of old curb re-set, also a portion of curb dressed and carted from yard and fixed on lime concrete, old York paving relaid, a portion of new $2\frac{1}{2}$ York supplied and laid *£6 8 6

Opposite 47 to 51, Worship Street, and 1, Paul Street—

A portion of curb taken up and re-set, a portion carted from yard and fixed all on lias concrete, a portion of old York paving re-laid, a portion of new $2\frac{1}{2}$ York supplied and laid, 1 guard post re-fixed ... *£14 10 9

Opposite 87, Curtain Road—

Curb carted and fixed, a portion of $2\frac{1}{2}$ " York paving supplied and laid, old paving taken up and re-laid, 2 corner curbs rounded ... *£6 5 4

Opposite 131 to 137, Mansfield Street—

Curb re-fixed on lias concrete, portion of old York relaid, a
portion of new 2½ York supplied and laid ... *£9 1 7

3, Harvey Street—

A portion of new 2½ York supplied and laid, a portion of old
ditto relaid, 1 load rubbish carted to shoot ... *£1 5 3

North end of Clifton Street—

A portion of curb re-fixed, a portion of ditto carted from yard and
fixed. New 2½ York supplied and laid, and portion of old
ditto re-laid ... £11 1 11

Victoria Place—

Paved by St. Luke's Vestry, portion for Shoreditch £9 6 8

The footway paving in the following localities is in a bad
condition, and should be repaved to prevent danger to the public :—

Allerton Street

Baring Street (portion of)

Bateman's Row

Bracklyn Street

Bridport Place (east side)

Boundary Street

Edward Street

Forston Street

Grange Street

Hackney Road (portions of)

Ivy Lane and Street

Kingsland Road (portion of)

Laburnum Street

Maidstone Street

* The whole or a portion repaid to the Vestry.

Mintern Street
 Napier Street
 Paul Street
 Pitfield Street (portion of)
 Rushton Street
 Upper John Street
 Wenlock Street
 Whiston Street
 Wilson Street

The Road Foreman's wages, whose duties include the directing of the masons and paviors, also the Steam Road Roller, amounted to £117 0s. 0d. Four masons on average, and their laborers, were employed in repairing the footways and over trenches opened by the Gas and Water Companies and Post Office Telegraphs; their wages for the year amounted to £576 0s. 3d. The Companies contributed £415 10s. 5d. for labour, use of tools and mortar, and £160 9s. 10d. for material required in the said repairs. Other contributions for paving, &c., amounted to the sum of £253 18s. 3d., part of which was due and paid to the contractor.

The contractors supplied 1950 superficial feet of Victoria patent stone for use in repairing the footways, at a cost of £56 17s. 6d., 16,500 superficial feet of new 2½-in. tooled York paving, at a cost of £536 5s. 0d., and 504 lineal feet of edge Curbs, 12 granite Quadrants and 200 feet super of Moorstone, at a cost of £62 13s. 0d.

The following quantity of stone, in addition, was re-dressed by piece-work in the yard at the cost stated:—

1958 feet run granite edge curb	£40 16 0
55 feet Moor stone	1 16 8
Spur stones and granite blocks worked	1 7 0

SEWERS WORK.

The following works, at the cost stated, have been executed by the contractor during the past year:—

Holywell Row—

174 feet run, new 3ft. 6in. × 2ft. 4in., Egg Shaped Brick
 Sewer. House drains, 3 gullies and connections, air shaft
 and gratings and flushing box connection ... £135 15 5

Underwood Place—

210 feet run, 12in. pipe sewer, 10 feet run, 9in. pipe, with bends, drain and gully connections, 2 new gullies and outlets ... £63 13 0

Fanshaw Street—

534 feet run, 15in. pipe sewer, 8 feet run, 9in. pipe, 72 feet 6in. pipe, with bends, junctions, drain and gully connections, 2 new manholes with covers ... £209 11 8

Shap Street—

160 feet run, 15in. pipe sewer, on concrete, 32 feet run, 9in. pipe, 42 feet run, 6in. pipe, with junctions, bends and all necessary connections, 1 new manhole ... £75 4 8

Besides the reconstruction work enumerated as above, the under-mentioned sewers have been cleaned by the Vestry's workmen, the deposit removed and carted out of the parish as follows, and numerous gullies have been repaired :—

	Sewers.	Length.

Also Private Drain Work—One hundred and nine new house drains (from sewer to line of frontage), re-constructions, &c., £239 18s. 7d.

Ditto by the Vestry's workmen.—Thirty-eight re-constructions (from sewer to line of frontage) and openings, &c., to unstop drains, £59 16s. 8½d.

The Sewers in the following localities are in a very unsatisfactory condition, and should be re-constructed :—

Bateman's Row
 Crondall Street
 Curtain Road
 Dove Row
 Dunloe Street
 Flemming Street
 Maidstone Street
 Moye Street

New North Road (portion of)

Princes Street

Windsor Street (ditto)

Hay Street

Hows Street (ditto)

Rushton Street (ditto)

One ganger and five flushers, on average, with laborers were employed in cleansing, disinfecting, re-constructing, repairing, &c., the sewers, drains and gullies in the parish; their wages for the year amounted to £738 17s. 7d.

The sum of £67 16s. 0d. was also paid for watchmen's wages.

Three men have been constantly employed cleansing the Parish urinals (including Sundays and holidays in the early morning;) their wages for the year amounted to £178 9s. 1½d.

The sum of £314 0s. 2d. was received for 144 cases of new private drains, re-constructions, &c., during the year, and paid into the Treasurer's Account.

The sum of £29 10s. 0d. was received for 180 licenses to erect hoards, scaffolds, &c., and for renewals during the year, and paid into the Treasurer's account.

The sum of £5 0s. 0d. was received for cutting in 59 coal plates during the year, and paid into the Treasurer's Account.

The following, in addition to other smaller amounts, represent the value of materials, &c., supplied during the year:—

 W.C., 1880.

SAINT LEONARD, SHOREDITCH.

LIGHTING DEPARTMENT.

GENTLEMEN,

I beg to present the following report and tables showing the work done by this department, and the operation of the Average Meter System during the twelfth year.

The price of gas supplied to the public lamps during the year was 2s. 2d. per 1000 cubic feet.

The total amount paid for gas, lighting, extinguishing, cleaning, repairs, painting, and maintenance of meters and governors for the year, including 254 improved lamps of increased illuminating power, fixed at refuges and positions where more light was required is £5,534 4s. 0d., being £269 17s. more than last year. This is due to additional lamps being fixed, and the increased consumption of gas in the lamps fixed the latter part of last year.

The average cost per ordinary lamp for the year was £2 17s. 1½d. 14 new ordinary lamps have been fixed and put in lighting, and 6 18-inch lamps during the year, 10 discontinued, 22 removed to more favourable positions, and 2 increased from 4.6 feet per hour to 8 feet per hour.

One new refuge and column has been erected in Haggerston road by Lee street and fitted with a hundred candle power lamp.

The total number of lamps in use is 1648 : 1394 of which are 14 inch ordinary lamps fitted with governors regulated to consume 4.6 feet per hour ; 4 regulated to consume 6.9 feet per hour ; 126 regulated to

consume 8 feet per hour ; 23 regulated to consume 12 feet per hour ; 64 18-inch Victoria lamps regulated to consume 15 feet per hour ; 3 regulated to consume 16 feet per hour ; 1 60-candle power lamp consuming 20 feet per hour ; 4 80-candle power lamps consuming 24 feet per hour ; 3 consuming 30 feet per hour ; 24 100-candle power consuming 33 feet per hour, 1 180-candle power consuming 50 feet per hour, and 1 200-candle power consuming 58 feet per hour.

The annual cost of gas, lighting and maintenance of 12 lamps under railway arches, and 3 in Great Eastern Street amounting to £44 4s. has been paid by the North London Railway Company and the owners of three lamps in Great Eastern Street.

The sum of £13 6s. has been recovered from persons causing damage to lamps by driving against them, or by projections on their vehicles, £1 7s. 6d. has been paid to the police and others for reporting particulars, and £1 for detecting persons, and prosecuting persons for wilfully damaging and extinguishing the public lamps.

During the months of October, November, December, and March, lamps were lighted in the daytime for a period of $13\frac{3}{4}$ hours, on account of the foggy weather.

Additional lamps have been fixed in the following streets during the year :—

1	in	Boot Street
1	„	Bowl Court
1	„	Bracklyn Street
1	„	Brunswick Street
2	„	Commercial Street
1	„	Coronet Street
1	„	Devizes Street
1	„	Dorchester Street
2	„	Georges Square
1	„	Goldsmith Square
1	„	Haggerston Road, and refuge
2	„	Kingsland Road
1	„	Mail Coach Yard
2	„	Phillip Street
1	„	Union Street
1	„	Wilks Place
1	„	Wimbourne Mews

Lamps have been discontinued in the following places during the year :—

1	in	Ann's Place	(Place closed)
1	„	Haggerston Road	(Alterations)
1	„	High Street	„
1	„	Hoxton Market	„
1	„	Kingsland Road	„
2	„	Lyons Buildings	(Place closed)
2	„	Mail Coach Yard	(Part closed).
1	„	York Place	(Place closed)

10

In the following streets the positions of lamps have been rearranged :—

1	in	Baches Street
2	„	Boot Street
1	„	Bracklyn Street
1	„	City Road
1	„	Coronet Street
2	„	Dorchester Street
1	„	Earl Street
1	„	Edmonds Place
1	„	Gifford Street
2	„	High Street
1	„	Kingsland Road
1	„	Livermere Road
2	„	Old Street
1	„	Phillip Street
1	„	Princes Street

19

PUBLIC URINALS.

The Public Urinals, 32 in number, were cleaned and painted in the summer by men employed for the purpose by the Vestry, the cost for labour, paint and tools, amounted to £35.13s. 2d.

The amount paid to the Water Companies for water supplied to the Urinals, and rent of Meters during the year was £281 2s. 8d.

The sum of £12 7s. 11d. was paid during the year for repairs to Urinals.

FLUSHING COURTS AND GULLIES.

The cost of flushing courts and gullies with water direct from the mains through a $2\frac{1}{4}$ inch hose, the East London Company's district being done in the day time, and the New River Company's district in the night time, was for water £164 12s. 5d., and £69 10s. for labour and truck hire, the amount paid for chloride of lime was £11 15s. 2d.

TABLE I.

Cost of New Works for the year to March 1890.

Surveyor's men erecting 7 new lamp columns, rearranging the positions of 24, and re-instating foot and carriage ways disturbed, and re-instating footways to 13 brackets (labour)	£16	6	4½
Mr. Tilley, supplying 50 14-inch lamps, and 24 14-inch cradle irons, supplying and fixing 22 brackets, and removing and refixing 13 brackets, fitting up 7 new columns, removing decayed fittings from 35 lamps and refitting with new, repairing 89 lever cocks, and 3 lighting torches, supplying 4 gross steatite burners, and one dozen lamp governors, and one dozen Bray's burners for large lamps, removing and refixing one meter and box, removing 97 broken street name tablets from lamps and fixing new, and fixing 3 caution tablets	115	8	7
Mr. Ungar, supplying and fixing 6 18-inch Victoria lamps, and 1 100-candle power lamp and column, and fitting up same with ladder irons and spindles, supplying one pedestal, and fixing and fitting up lamp, and supplying 24 brass spindles	26	7	7
Mr. Sears repairing one M.B.W. column with wrought iron core, etc....	1	8	6

Jukes, Coulson, Stokes & Co., supplying 20 lamp columns, weighing 5 tons 19 cwt. 0 qrs. 22 lbs., at 6s. 3d. per cwt.	37	5	0
Mr. Gibbs supplying 78 opal street name tablets ...	8	11	0
Gas Company shifting services for removals and alterations	7	2	5
Mr. Ungar repairing, painting, and glazing 188 large lamps, columns and painting 92 guard posts ...	48	9	8

Town Hall, Old Street,
June, 1890.

I am, Gentlemen,
Your Obedient Servant,
C. H. DOUGHTY, *Inspector.*

TABLE OF DEATHS.

The statistics below given show the rate of mortality in the different Registration Districts of the Parish—

Average per 1000 living.	Deaths.	Population.	
15.50	115	7,370	Holborn
15.08	235	11,907	St. Isambard
17.13	521	29,937	Hoxton New Town
17.19	182	28,080	Hoxton Old Town
28.53	1001	11,907	Haggerston

REPORT

OF THE

MEDICAL OFFICER OF HEALTH,

FOR THE

YEAR ENDING 25TH MARCH, 1890.

:0:

GENTLEMEN,

During the past year 4,543 births—2,323 males and 2,220 females—and 2,882 deaths were registered in this Parish. Deducting 448 deaths of non-residents, which occurred in the Public Institutions situated in this Parish, and bodies found in the Canal, the death rate was 19.22 per 1,000 living—that is, 1.36 per 1,000 below the average of the last five years.

Deaths in the Public Institutions—

	Residents.	Non-Residents.
Shoreditch Infirmary	313	3
Hoxton House	18	59
North Eastern Hospital	15	67
Holborn Infirmary	—	309
Convent Hospital.....	—	4
Bodies found in Canal.....	—	6
	<hr/> 346	<hr/> 448

The statistics below given show the rate of mortality in the different Registration Districts of the Parish—

	Population.	Deaths.	Average per 1000 living.
Holywell	7,376	115	15.50
St. Leonard	14,967	225	15.03
Hoxton New Town ...	29,937	521	17.43
Hoxton Old Town ...	28,036	482	17.19
Haggerston	46,275	1091	23.53

The high rate of mortality ascribed to Haggerston district is due to the 331 deaths which occurred in Shoreditch Infirmary and in the North Eastern Hospital (both situate in Haggerston) these deaths are proportionately due to each of the five Registration Districts.

There were 418 deaths from bronchitis, 270 from phthisis, and 149 from pneumonia, making a total of 837 deaths registered under the above headings as against 701 in the previous year; 705 deaths occurred under one year of age, against 703 in the previous year. The deaths under five years of age were 1,076 against 1,121 in the previous year. 400 deaths occurred of persons 65 years of age and upwards, as against 363 in the previous year, viz.:—225 from 65 to 75, 151 from 75 to 85, 24 from 85 to 95.

In the previous year 213 persons died between 65 and 75 years of age, 124 from 75 to 85, and 26 from 85 to 95.

In childhood (from 1 to 5 years) the largest number of deaths was caused by lung disease, comprising 163 from bronchitis, 70 from pneumonia, and 14 from congestion of the lungs, &c. The diseases which came next in order of fatality were atrophy and debility 163 deaths, convulsions 77, whooping cough 73, premature birth 78, and diarrhœa 94.

From the age of 55 and upwards, 181 deaths were caused by bronchitis, 76 by heart disease, and 20 by paralysis; 86 were registered under the term of old age.

ZYMOTIC DISEASES caused 347 deaths, viz.:—21 by scarlet fever, 10 by enteric, 40 by diphtheria, 24 by measles, 76 by whooping cough, 105 by diarrhœa, and 71 by other zymotic diseases.

Of the 76 deaths from whooping cough, 25 occurred in infants under one year of age, and 19 in infants between one and two years of age.

Of the 105 deaths from diarrhoea, 89 occurred in infants under two years of age.

DISINFECTION.—This has been carefully attended to in all instances of infectious diseases. 672 houses were disinfected; the infected rooms fumigated by sulphur, and subsequently the windows kept open to expose the rooms freely to the oxydising influence of the open air. The walls of the rooms, where necessary, were stripped and otherwise cleansed.

At the disinfecting oven 5298 articles were disinfected. The Sanitary Officer, Inspector Lear, reports that he has been able to secure the removal of 277 of the infected sick to the Asylums, and that he has generally experienced little difficulty in obtaining their removal.

Inspector Alexander reports that in 1845 premises conditions dangerous to health were found, and notices served requiring their abatement.

Much has been done to promote the health of the Parish, during this year, more than in any previous year; more nuisances dangerous to health have been abated; this is briefly indicated in Inspector Alexander's report of the various improvements which have been made. It is evidenced thereby, that a great deal has been done to render dwellings more suitable for health. Some of the alterations were of a structural character. For instance, to remove damp and other dangerous conditions, 140 roofs were repaired; 582 drains were repaired or replaced; 7 cesspools were discovered in the year, and abolished. It may here be mentioned that cesspools have mostly been eradicated, but they are now and then still found. A great deal of attention has again been given for several years past to securing the inhabitants improved closet accommodation—*i. e.*, structures better fitted, more cleanly and with proper water supply. 1033 closets were thus cleansed and repaired, and water supply was restored or newly laid on in 1069 closets.

Much care in inspection has been given to prevent sewage gases entering basement rooms and bed-chambers, and thus in 432 premises the waste pipes of kitchen sinks were securely trapped, or their connection with the drain entirely cut off; and rain-water pipes have also been disconnected from the drains in 394 premises, to prevent the sewage gas entering bedrooms.

Further evidence of the large amount of work done is shewn by the fact that the yards of 1,063 premises have been paved, to prevent dampness in houses; it is indispensable for health to keep the earth under and around the dwellings dry and sweet, for dryness promotes porousness and freshness, and by enabling air to circulate through the surface earth, and so disinfect it by oxidation, and destroy any organic products that might accumulate and become poisonous.

Your Vestry is well aware that there is a very large number of small old houses in Shoreditch which require very much attention from year to year, to keep them moderately fit for human habitation; a great many such dwellings have been pulled down, and their number has been much diminished during this year; but it is usually found, when such premises are re-visited after a year or two, that action is again called for, to abate recurring nuisances, and in these and similar small dwellings a long list of conditions, more or less dangerous to health, might be made out, from time to time, as requiring immediate attention from the Sanitary Officer, and that was done by the Mansion House Council Inspector in the beginning of the year, in which 1,045 premises were thus reported to your Medical Officer. Subsequently most of the premises complained of were carefully examined by Inspector Alexander, and dealt with as their condition required.

The notices from the Mansion House Council called your Medical Officer's attention to 1,916 nuisances alleged to be injurious to health. 997 of these nuisances were due to closets having no water supply, or a defective water supply; 376 to defective dust bins; in 123 premises there were no dust bins; in 220 premises the pavement of yards was defective.

To shew that these complaints had been promptly as possible dealt with, it is enough to mention that in January, out of 1045, 609 had been attended to, and the nuisances abated.

I may here remark that every year, and for several years past, many notices have been served requiring the owners of such dwellings to provide a supply of water to the closets. In previous years these closets were hand flushed ; but merely throwing water down from time to time resulted in much fœcal accumulation, and experience from year to year left no doubt in the mind of the Sanitary Committee that such a practice could not be relied on to keep the closets clean. It was therefore decided, wherever a closet was found to have no constant water supply, that the Sanitary Inspector should call upon the owners to provide such supply with as little delay as possible. But whilst that has been done for several years past, many closets are yet found to be without a constant water supply.

Inspector Alexander further refers to the old dwellings, Nos. 13 to 21, Goldsmith Square (or more familiarly called Piges Island). It has been my duty on several occasions in past years to visit these premises, and recommend your Vestry to call upon the owners to cleanse and repair them. It was considered at that time the houses could be so made fit for habitation, but my attention was this year called to them, and I was obliged to report that they were unfit for human habitation, and that many of them could not be made fit, but should be pulled down. The Sanitary Committee subsequently visited these premises, and advised your Vestry to call the attention of the freeholders to the Medical Officer's Report, and to express to the owners that, in the opinion of the Sanitary Authority, these houses could not be made fit and kept fit for habitation, and therefore ought to be pulled down.

On the receipt of this representation from your Vestry, the owners decided to demolish these houses, and that has been done.

The dwellings, Nos. 52, 54, 56, 58, 60, 62, 64, 66, Dove Row, similar old structures, have also been closed by order of your Vestry. These dwellings will be familiar to the mind of the Sanitary Authority as having been, on various occasions, reported to be injurious to health ; and I may here add, that there are many other houses in the neighbourhood which your Medical Officer finds that he will be obliged to bring under the notice of your Vestry, with a view of bringing about their demolition.

These old houses have been let out on leases, and it has been considered most serviceable for many years past to allow the leaseholders to make sanitary improvements from time to time, but it is now evident that such a course can no longer be followed, it would be detrimental to the health of the parish.

ARTIZANS LABORERS DWELLINGS IMPROVEMENT ACTS.

Some years ago your Medical Officer reported to the Metropolitan Board of Works, under the Artizans Laborers Dwellings Improvement Acts (spoken of as Cross' Act) that the dwellings of Ware Street, Louisa Street, Nancy Street and Watson's Place, were unfit for human habitation, and should be demolished under an improvement scheme ; the same report included Reform Place, Jane Shore Court, Moira Place and Plumber's Place. The Metropolitan Board did not order the houses to be demolished, but when the London County Council took over the Municipal Government, a communication was sent to your Vestry referring to these reports, and the Medical Officer was directed to report on the existing condition of the dwellings.

Consequently I re-visited them and reported their condition, and also what had been done since the report was primarily forwarded to the Metropolitan Board.

The houses of Reform Place had been demolished by the Vestry's decision, the houses on the south side of Jane Shore Court were also demolished under Vestry's notices ; and the houses of Watson's Place were closed and kept closed until, by sanitary alterations, they were rendered fit for habitation.

The London County Council subsequently took into consideration the amended report, but ultimately decided that the area was not of sufficient Metropolitan importance to be dealt with under Cross' Act, but they held out a hope that the Council might see their way to deal with the houses of Ware Street, Watson's Place and Nancy Street, under the Metropolitan Building Acts, as dilapidated structures. Those dwellings have back yards, and a fair amount of ventilation back and front, but they have been constructed of such inferior, worthless materials, that no repairs or cleansing can make and keep them fit for human habitation.

Moira Place and Plumber's Place the Council decided should be dealt with under Torrens' Act; but as I have reported to your Vestry, to merely pull down these dwellings under Torrens' Act, would be to leave two vacant pieces of ground, both of which would be too small for proper houses or even cottages to be built upon. Recognising that the Medical Officer of Health was led to examine other houses in the immediate neighbourhood of Plumber's Place and Provost Street, including some old houses in East Road, which had no back yards, and no place for proper closet accommodation, nor for dust bins. These houses are old structures, and much decayed; therefore the Plumber's Place Area report was extended to make a more efficient improvement scheme; and Moira Place area was also extended; many old decayed houses in Ebenezer Street, Britannia Street and Provost Street being also included in the report so amended, was forwarded to the London County Council under Cross' Act.

Your Vestry is aware that the question as to the best manner of procedure to get these houses demolished was referred by the London County Council to the Home Secretary, and that he appointed an arbitrator under the 5th Sec. of the Housing of the Working Classes Act, 1885, to visit these areas, and to hear evidences on the part of the Central and the Local Authority, with a view to reporting to the Home Secretary, what in his judgment should be done with these areas. It was agreed that the dwellings of Plumber's Place and Moira Place are unfit for habitation and should be demolished; but the Arbitrator has to report to the Home Secretary whether the proceedings should be taken under Cross' Act, and the Metropolis bear the cost, or whether the Metropolis shall contribute partly to the cost, or whether the improvement is to be effected by the Vestry under Torrens' Act.

"INFECTIOUS DISEASE (NOTIFICATION) ACT."

The Infectious Disease Registration Act came into operation in October of 1889, and up to the 25th March, 1890, 499 cases were reported by the Medical Attendants, under this Act, to the Sanitary Department. Of this number 311 were cases of scarlet fever, 83 of diphtheria, and 18 of typhoid fever.

225 of the infected persons were removed to the Asylums for isolation and medical treatment. In the previous year only 97 were

thus removed : the number has therefore increased, but the increase is not in proportion to the additional number of cases reported ; but that is only what might be expected, considering that many of the infected persons do not belong to the pauper class, and that their house accommodation is large enough to permit of them being isolated at home. Where there is such accommodation and isolation practicable, the Sanitary Officer has to see that the rooms (one or more according to their condition) are properly cleansed and disinfected, and to the disinfection of the infected bedding and other articles ; and he has to inspect the premises to see if the drainage is defective, and if there be any accumulation of decomposing organic matters, which would tend to give rise to infectious diseases ; to examine if the water supply and closet arrangements are suitable to health, and if there be sufficient lighting and ventilation in dwellings, or any overcrowding.

It is obvious that in the working of this Act much judgment and tact is required to induce reasonable precautions being taken to prevent the spread of the disease, and to secure the premises and bedding being properly disinfected.

The operation of this Act will afford the Medical Officer of Health much valuable information as to the prevalence of infectious diseases, and what localities and what unhealthy conditions promote the occurrence and spread of such disease in the parish.

I regret that I have to report that the returns issued weekly by the Asylums Board shew that in the Autumn of last year Scarlet Fever was more prevalent in Shoreditch than in many other of the Metropolitan Parishes ; and the returns of some weeks shewed that there were more cases in Shoreditch than in any other parish, with one or two exceptions. But when the number of cases reported from each parish was considered, with the respective population of the parishes, then Shoreditch contrasts more favourably : it manifests that in proportion to the population, Shoreditch did not on the whole compare unfavourably.

Nevertheless, I cannot overlook that in this and in previous epidemics of Scarlet Fever this parish has suffered severely, and similarly with Small-pox epidemics. Undoubtedly there are unhealthy

conditions that promote in an exceptional degree the spread of infectious disease. One of these conditions, and it might be contended the most potent, is the densely crowded state of the parish, from returns supplied, with the exception of Westminster, there are more persons per acre in Shoreditch than in any parish of the Metropolis. The figures here given shew the relative position of each parish as regards the number of inhabitants.

PARISH.	Enumerated Population 1881.	Density of Persons per acre.
SHOREDITCH	126,591	195
Bethnal Green	126,961	168
Bermondsey	86,652	
Battersea	107,262	
Chelsea	88,128	102
Clerkenwell	69,076	
City of London	51,439	70
Camberwell	186,593	42
Fulham	114,839	27
Greenwich	131,233	35
Hackney.....	186,462	47
Hammersmith	71,939	
Hampstead	45,452	20
Holborn	151,835	186
Islington	282,865	91
Kensington	163,151	74
Lambeth	253,699	62
Lewisham	72,548	6
Limehouse	58,543	
Marylebone	154,910	103
Mile End Old Town	105,613	156
Newington	107,850	
Plumstead	33,250	
Paddington	107,218	86
Pancras	236,258	88
Poplar	156,510	59
Rotherhithe	36,024	
Strand	33,582	78
St. Giles.....	45,382	185
St. George's (H. Square).....	149,748	73

PARISH.	Enumerated Population 1881.	Density of Persons per acre.
St. George's (E.)	47,157	193
St. James' (Westminster)	29,941	
St. Martins-in-Field	17,508	
St. Luke's (Middlesex)	46,849	
St. Saviour's (Southwark)	195,164	167
St. George's ,, 		
St. Olave's ,, 	134,632	78
Wandsworth	210,434	18
Westminster	46,549	216
Woolwich	80,845	
Whitechapel	71,363	176

Large experience, and in many parts of the world, has shewn beyond doubt that the danger from these diseases, both as regards their outburst and their rapid extension, is in proportion to the density of the population, and that it is only by removing the decomposing organic products, which accumulate according to the density as much and quickly as possible, that this danger can be kept under.

THE SCAVENGING OPERATIONS.—It was, therefore, with pleasure that your Medical Officer learned that the Vestry had resolved to make other arrangements for the removal of the dust and for the cleansing and watering of the streets; arrangements that will enable the Officers of the Vestry to take more efficient measures, and be more responsible for the proper removal of the refuse.

That much has to be done to improve the drainage cannot be disputed, both as regards the sewers and the house drains; yet year by year more energy is being brought to deal with that difficulty.

THE CONSTANT WATER SUPPLY continues to work well, and comparatively little attention is called for as regards the water supply for drinking purposes; but much more water is needed to keep the closets clean and to flush the sewers and cleanse the streets.

I am, Gentlemen,

Your obedient Servant,

HENRY GAWEN SUTTON,

Medical Officer of Health.

INSPECTOR ALEXANDER'S REPORT.

—o(—

ST. LEONARD, SHOREDITCH,

SANITARY DEPARTMENT.

To the Medical Officer of Health.

SIR,

I beg to present the following report on the Sanitary work done under my superintendence during the year ended 25th March, 1890, showing the number of premises inspected, the nature of nuisances under notice, and the orders made for their abatement.

WORKS DONE TO SECURE ABATEMENT OF
NUISANCES.

Glazed pipe drains provided in lieu of dilapidated brick drains	in 66	premises
Defectively constructed pipe drains repaired or re-laid	in 582	„
Drains provided where there were none before ...	in 1	„
Drains (untrapped) traps provided	in 113	„
Rats infesting, and Sewer gas impregnating (cured)	in 57	„
Cesspools emptied and filled up	in 7	„
Accumulation of sewage removed	from 9	„
Stack pipes (having their heads dangerously close to bedroom windows, permitting sewer gas to pass into the dwellings) disconnected from drains ...	in 394	„
Stack pipes provided	in 207	„
Eaves gutters provided	in 209	„
Waste pipes of sinks within doors (untrapped and permitting sewer gas to impregnate the dwellings) have been securely trapped, or otherwise disconnected from drains, and have now their ends in the open air, and immediately over the yard sinks ...	in 432	„

Roofs repaired	in 140 premises
Stairs repaired	in 146 „
Floors repaired	in 167 „
Hearth stones and jambs provided	in 58 „
Walls and ceilings cleansed, whitened and repaired throughout	in 168 „
Ditto ditto in part	in 388 „
Sashes repaired	in 109 „
Ventilation provided under ground floors	in 13 „
Water closets (foul and dilapidated) cleansed, repaired, and fitted to "Shoreditch Model"	in 1038 „
Water restored or newly laid on to water closets	in 1069 „
Obstructions in water closets removed	in 38 „
Water closets in close, dark and otherwise injurious situations removed into light and air	in 28 „
Water supplied direct from main in lieu of cisterns	in 114 „
Leaking water pipes, causing dampness, repaired	in 14 „
Yards and areas lime washed	in 288 „
Dust bins provided	in 879 „
Dust bins repaired	in 44 „
Yards paved imperviously with stone or cement	concrete in 1063 „
Yard paving repaired and rendered impervious	in 109 „
Areas paved imperviously with stone or cement	concrete in 112 „
Sculleries ditto ditto	in 115 „
Premises unfit for habitation closed	in 18 „

Four public dust bins of improved construction have been provided, which relieves 50 of the above premises from nuisances arising from accumulation of refuse in small back yards.

MISCELLANEOUS.

Overcrowding abated	in 12 premises
Dead bodies removed	from 3 „
Animals, kept so as to be a nuisance, removed	from 11 „
Accumulation of dung and rubbish removed	from 35 „
Notices served requiring the abatement of nuisances injurious to health	in 1845 „

In addition to the ordinary notices served for the abatement of nuisances, 767 letters have been written.

The following details are submitted, showing the character of the work that has engaged attention during the past year.

"THE MANSION HOUSE COUNCIL."

Between the 27th March and August 26th the following series of lists of complaints were received from the above Council, referring to 1045 premises :—

March 27—	Premises complained of in list	116
April 5	Ditto	156
" 25	Ditto	177
May 16	Ditto	198
June 4	Ditto	104
July 19	Ditto	67
August 7	Ditto	126
" 16	Ditto	62
" 26	Ditto	39
Total number of premises.....		1045

An analysis of these complaints show as follows :—

Dust binsnonein 123	premises
"no lids, or otherwise	defective in 376	"
Drainsdefective	in 5	"
W.-C.'sno water, or otherwise	defective in 997	"
Yardsnone	in 9	"
"paving defective	in 220	"
Sinksdefective	in 14	"
Roofsdefective	in 35	"
Eaves gutters.....	defective	in 19	"
Walls & ceilings...	defective	in 68	"
Floors.....	defective	in 50	"
			1916 defects

In reference to these complaints, it was reported in the daily newspapers of January 9th, that at a meeting of the Mansion House Council held on the previous day, the Hon. Secretary, Mr. John Hamer, stated as follows, that "The analysis of cases of insanitary conditions in Shoreditch, notices of which had been sent to the Authority from March to August, 1889, showed that out of 2000 defects reported, about 1200 had been remedied, and the Vestry were actively at work upon the remainder."

The exact number of premises referred to at that time as having been dealt with out of the total of 1045 was 609, including 30 houses in the Vinegar Ground, which were reported to the London County Council, under Cross' Act, as unfit for habitation, previous to the receipt of the Council's complaint.

It would have been comparatively an easy matter to have followed on the footsteps of the Inspectors of "The Mansion House Council," and to have issued notices dealing with the surface conditions to which their complaints generally referred, but that would only have occasioned expense to the owners of property, without permanent benefit to anyone, and would have conveyed to the occupiers of the houses, in very many instances, quite a false assurance of the conditions under which they were living. Therefore, in investigating the complaints of "The Mansion House Council," as directed by the Sanitary Committee, I have been careful in accordance with long-established practice, upheld and approved by the Vestry, to thoroughly examine each premises in order not only to secure the rectification of surface conditions, but also the very much more dangerous conditions lying concealed under houses, water closets and adjacent yards.

To deal with 1045 complaints lodged by one organization, in addition to the ordinary complaints of ratepayers received at the Town Hall from day to day, it became necessary to devolve upon Mr. Lear (the Assistant Inspector) the duty of dealing with a considerable enumber of the daily complaints, somewhat to the detriment of the work he was more especially appointed to attend to, and in that way it became possible, between March and December, to deal with the insanitary conditions of 609 of the premises complained of, and in the manner before indicated. Progress with the remainder of the premises was then

interrupted by the large additional amount of work thrown upon the department by "The Notification of Infectious Diseases Act," which came into operation on the 31st October-

ANN'S PLACE, BOUNDARY STREET.

Ann's Place is a court 11ft. wide, approached by a passage from Boundary Street (under a house) 2ft. 7in. wide. The court is surrounded and enclosed by houses of three floors, rising to a height of 30ft. The houses were condemned under Torrens' Act in 1876, against which the owners appealed to the Court of Quarter Sessions, On hearing the appeal, the Bench visited the premises, and it was shown to the Magistrates, in addition to general dilapidations and want of ventilation, that several of the houses were traversed with a large disused sewer, full of sewage, and that others of the houses were built on the edge of another section of the sewer, into which they were evidently settling. Nevertheless, with all the abominations fully displayed to their view, the Bench decided that the appellant should have an opportunity of effecting alterations so as to make the premises fit for habitation; and it was also decided that the Vestry should bear its own costs in the matter. Following upon that, the owner removed the disused sewer from under the houses, new piers were built into the walls to prevent them falling. The grosser sanitary defects were cured and the houses were again filled with poor people. The premises were shown to Sir Chas. Dilke, President of the Local Government Board, when he visited Shoreditch in 1883, and the facts were reported to the Sub-Committee of the Housing of the Working Classes Committee of the London County Council, on visiting insanitary areas in Shoreditch in October of last year. Following upon that in November of last year, a summons was taken out at Worship Street Police Court, on behalf of one of the tenants, by a correspondent of the *Daily Telegraph*, when I reported the Vestry's action to the magistrate, and I showed in evidence that no expenditure of money could render the houses fit for habitation. The magistrate, on my request, having visited the place, made an order for the closure of No. 9: this was done, and the owners, to avoid further summonses, closed the remainder of the houses, and they remain closed at the present time.

EBENEZER BUILDINGS.

Nos. 1, 2, 3, 4, 5, 6, 7, 8, 9, 10—these cottages have been several times dealt with under Sanitary notices, but the work was done inefficiently by inferior workmen. The houses having therefore again come under notice, the owner recognised it would be better to employ capable workmen, in order that he might secure durable work, which has been done.

The houses abut on a narrow public footpath, each house has a narrow forecourt railed in with a low fence. The front walls were all very damp, from the fact that the surface of the forecourt was unpaved and below the level of the footpath. This has been altered; the forecourts have been raised and paved with cement concrete, so that rain water flows off on to the footpath, and in addition, solid concrete sills, 18in. wide, have been provided in each doorway. The back yards have been paved, and gullies provided for the reception of household slops, water closets fitted up on "Shoreditch pattern," with open space under seat, and water supply; one good public dust bin provided in the front, which obviates the neglect of either dust contractor or tenant in the removal of refuse. These alterations, added to solid internal repairs, have removed damp from the walls, and greatly improved the houses generally.

DOVE ROW.

Nos. 52, 54, 56, 58, 60, 62, 64, 66, are old 4-roomed cottages; they have been dealt with repeatedly under sanitary notices in recent years, but owing to original bad construction, the original inferior quality of all materials used in building, and the disinclination of leaseholders with a constantly diminishing interest in the property, to effect substantial repairs, it became evident that further efforts to improve their condition would be useless. The Vestry, therefore, ordered the houses should be closed as being unfit for human habitation; that has been done, and they remain closed at the present time.

GOLDSMITH SQUARE

(Commonly called Piges Island).

Nos. 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, were old 2-roomed cottages. The

central part of the square contained not a garden, but two rows of cottages. The cottages on the east side, Nos. 13 to 23, were exceedingly small, without thorough ventilation, and very dilapidated. Notices were therefore served by order of the Vestry, requiring these cottages to be closed as unfit for human habitation. On receipt of notices, the owner complied at once with the requirements, and anticipated the further action of the Vestry, by also closing those on the west and south sides, and the two rows in the centre of the square, subsequently demolishing and carting away the whole of the cottages, numbering 22.

This demolition leaves an open piece of land in the midst of a densely crowded district, well adapted for the purposes of a recreation ground for children.

CORONET STREET.

Nos. 6, 8, 10, 12, 14. These were old 3-roomed houses, the condition of which had become dangerous, they were therefore closed under the Vestry's order, and subsequently taken down and carted away.

RED LION STREET.

Nos. 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54. These were very small two-roomed cottages, several of which were in a dangerous condition; they were therefore closed under the Vestry's notice, and subsequently taken down and carted away.

NOTIFICATION OF INFECTIOUS DISEASES ACT.

Since the above Act came into operation on the 31st October, 1889, 499 cases have been notified, making, with 173 previously dealt with, 672 cases. Each case has been enquired into and dealt with, either by simple fumigation of premises, or in addition by removal and disinfection in the Vestry's oven of bedding and all textile articles; and in many premises by the rectification of drains, and other insanitary conditions, as occasion required.

ARTICLES DISINFECTED AT VESTRY'S OVEN.

Milk	30
Butter	10
Pepper	8
Mustard	10
Cocoa	1
Total						<u>72</u>

PROSECUTIONS UNDER "FOOD & DRUGS ACT."

Fines were inflicted amounting to £88 8s. 0d. in 14 cases.

REMOVAL OF DUST.

The number of dust complaints during the past year and the three previous years are shown in the following table.

	Eastern Division.			Western Division.		
	1st.	2nd.	3rd.	1st.	2nd.	3rd.
1889-90	1,676	18	0	2,434	31	1
1888-89	1,502	25	2	2,691	36	2
1887-88	1,247	12	3	2,482	13	4
1886-87	1,785	44	1	1,942	46	1

6000 private dust bins were inspected, of which about 1200 required emptying.

SCAVENGING.

It has been necessary again to report to the Vestry as to non-fulfilment of the covenants of the contract.

WATERING OF ROADS.

This work has been satisfactorily done.

I am, Sir,

Your obedient Servant,

HUGH ALEXANDER,

Chief Sanitary Inspector.
