ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH.

THE HEALTH STATISTICS OF THE METROPOLITAN BOROUGH OF SOUTHWARK FOR THE YEAR 1901.

By the London Government Act, 1899, the four Parishes of Christchurch, St. Saviour, St. George the Martyr, and St. Mary, Newington, were incorporated under the title of the Borough of Southwark. The latter two parishes up to that time had existed each as a separate Sanitary Area, whilst the former two parishes were associated together for public health administrative work under the title of the St. Saviour's District Board of Works. The population of these sanitary bodies at each Census since 1841 was—

	Newington.		St. George's.		St. Saviour's and Christchurch.
1841...	54,693	...	—	...	—
1851...	64,816	...	51,824	...	35,731
1861...	82,157	...	55,510	...	36,169
1871...	88,691	...	56,083	...	31,294
1881...	107,831	...	58,652	...	28,628
1891...	115,663	...	59,740	...	27,161
1901...	121,863	...	60,998	...	23,319

The ancient and historic parishes of St. Saviour and Christchurch will be seen by this return to have suffered in each decade a serious depletion of its inhabitants. This was due to the building of large warehouses, which displaced the ordinary dwellings, and the widening of certain main thoroughfares. This decrease in the population by the substitution of warehouse accommodation for that of private houses has not been so marked in the other parts of the Borough up to the present time, yet there are indications that the same process is steadily at work.

TABLE 1.

The following particulars taken from the Census return show the population of the several Wards, the area of each, and the number of inhabited houses:—

	Area in Statute Acres.	HOUSES. 1901.				POPULATION.				
		In- habited.	Uninhabited.		Building.	1891.	1901.			Persons per Acre.
			In Occu- pation.	Not in Oc- cupation.		Persons.	Persons.	Males.	Females.

POPULATION.

The Registrar General's estimate of the population of the Borough at the middle of 1901 was 206,219.

The Ward Distribution was as follows :—

TABLE 6.

WARD.	Area in Acres	Population.		Total.	Persons to the Acre.
St. Mary ...	126	{ Males Females	{ 11,071 10,624 }	21,695	172
St. Paul ...	129	{ Males Females	{ 10,337 10,678 }	21,015	163
St. Peter ...	90	{ Males Females	{ 9,285 9,822 }	19,107	212
St. John ...	85	{ Males Females	{ 10,896 11,227 }	22,123	260
Trinity ...	108	{ Males Females	{ 9,310 8,525 }	17,835	165
All Saints ...	89	{ Males Females	{ 9,859 10,253 }	20,112	226
St. Michael ...	90	{ Males Females	{ 12,714 12,139 }	24,853	276
St. Jude ...	97	{ Males Females	{ 7,084 7,927 }	15,011	154
St. George ...	97	{ Males Females	{ 10,536 10,607 }	21,143	218
Christchurch ...	93	{ Males Females	{ 6,311 4,955 }	11,266	121
St. Saviour ...	161	{ Males Females	{ 5,879 6,180 }	12,059	74

BIRTHS.

The number of Births registered in the Borough during 1901, was 6,875, of which 3,478 were males, and 3,397 females. This represents a birth-rate of 33·3 per 1,000 inhabitants.

The accompanying table shows that the births in the two larger parishes for some years have been steadily declining in numbers.

Birth-rate for the previous Ten Years, for the Three Divisions of the Borough as formerly existed :

	Newington.	St. George.	St. Saviour.
1891 ...	36·2	35·9	31·7
1892 ...	35·0	36·0	31·4
1893 ...	36·9	36·3	29·1
1894 ...	35·4	34·6	28·9
1895 ...	35·4	36·5	32·4
1896 ...	35·2	36·9	30·9
1897 ...	34·7	35·1	30·9
1898 ...	33·8	35·5	30·2
1899 ...	33·6	35·2	28·7
1900 ...	33·3	34·6	29·8
<hr/>			
Mean Birth-rate for the ten years, 1891-1900 ...	34·9	35·6	30·4

DEATHS.

The number of deaths registered in the year under consideration was 3,600, of which 1,857 were males and 1,743 females. Of the 3,600 deaths registered in the sub-districts of the borough, 770 occurred in the Poor-Law institutions, the various hospitals, and other public places for the treatment of the sick found within our boundaries. These deaths in institutions comprised 288 belonging to Southwark, and 482 to other boroughs of the Metropolis. The various localities in which the "outlying" deaths occurred are shown in the following table. The number of inhabitants belonging to the Borough dying away from home—that is, outside our boundaries in the various hospitals and infirmaries—was 1,295. Of this very large number as many as 705 died in the Southwark Infirmary at Champion Hill. The remainder, with but few exceptions, died in the large public hospitals.

The percentage of persons dying away from home in relation to the total number of deaths occurring in the Borough was 29·3.

TOTALS	786	509	1295

When those persons who were non-parishioners, but who died in our Borough have been deducted, and the outlying deaths added, the actual or "corrected" number of deaths belonging to the Sanitary Area is found to be 4,413, of which number 2,376 were males, and 2,037 females.

The death-rate when calculated on this "corrected" number is 21·4 per 1,000 inhabitants for the whole Borough for the year 1901, as against 21·9 for Newington, 27·3 for St. George the Martyr, and 25·2 for St. Saviour's for 1900.

Death Rate for the previous Ten Years for the three Divisions of the Borough.

		Newington.	St. George's.	St. Saviour's.

Report submitted to the Council on 23rd July, 1902, on the Epidemic of Small-Pox in Southwark during 1901, and from January 1st to June 28th, 1902.

“ For many years previous to the present epidemic Southwark had been entirely free from Small-pox. From time to time cases had been reported as belonging to the true disease but they were found on examination not to be as certified.

Small-pox in epidemic form was prevalent in Paris during 1900. The disease reached its maximum towards the end of that year and then rapidly declined. In the spring of 1901 it recommenced and again was at its height in the months of June and July. There are strong grounds for believing that persons arriving in London from the Continent introduced the disease into the Metropolis. About the end of June, 1901, several independent outbreaks of Small-pox occurred in different parts of London. An unrecognised case in Wandsworth was followed by a very serious spread of the disease, not only in that district, but in many other boroughs. Cases appeared in Marylebone, in St. Pancras, in Islington, and a little later in Holborn. The rapidity with which the disease at first spread in some of these districts was thought to be largely due to the difficulty, owing to the mildness of the complaint, of getting the cases recognised early, or in persuading the parents that any care was required.

The first case which occurred in Southwark was that of a compositor, who was accustomed to visit a social club in the Clerkenwell Road, where an outbreak of the disease had occurred. He was removed to hospital on August 21st. The disinfecter, who attended to the room and who had not been re-vaccinated, fell ill with the disease at the end of the fortnight, and he in turn communicated it to his bed-fellow, a Borough dustman. For some time the disease spread very slowly in the Borough, only 11 cases being notified up to November 7th. In the course of the epidemic

five distinct outbreaks, which at the time threatened to be serious, occurred. I mention these in order to show the measures that were taken to stop the spread of the disease :—

OUTBREAK 1.—On the 7th November a man fell ill with malignant Small-pox which was thought to be Erysipelas. The house in which the man lived was a large tenemented one holding 12 families. The whole household was transferred to the Council's Reception House and re-vaccinated. Of the 30 residents in the tenemented house 7 persons were removed with the disease to the hospital. The house was cleansed and disinfected from top to bottom and no one else in the street took the complaint.

OUTBREAK 2.—In the latter part of November the disease appeared at 67, Union Street, a common lodging-house accommodating 84 women. The disease, in spite of careful disinfection of the rooms and frequent inspections made by our own officers and those of the London County Council, continued to spread until on December 10th the whole house was infected. On that date I vaccinated the entire population with the result that, excepting a woman who had the disease in the incubating stage when vaccinated, and another who was found to have the disease, whilst seeking admission in the week ending February 8th, no one else became infected, nor has the disease appeared in the lodging-house since.

OUTBREAK 3.—In the early part of February, 7 cases occurred at 57, Webber Row, and houses adjoining. The disease continued to spread until I had a house to house inspection made when some 50 unprotected persons were vaccinated, with the result that no other case occurred.

OUTBREAK 4.—In the months of March and April an increasing number of cases were being notified in connection with St. Olave's Chambers until at the end of April every part of this common lodging-house appeared to be infected. In the early part of May I vaccinated, with the consent of the Council who allowed me to give to each person 2/- as a compensation for probable loss of work, 500 residents. This had the effect of completely arresting the disease in this locality.

OUTBREAK 5.—This occurred in the latter part of April at 131, Great Suffolk Street. Revaccination in this case completely cleared the lodging-house of the disease.

With regard to the remainder of the cases which were scattered over every part of the Borough, the disease in nearly every case was confined to the house in which it first appeared.

It will be seen on reference to the tables that 409 cases occurred in private houses, 12 in the workhouses, and 134 in common lodging-houses. The case-rate per 1000 of the population is for private houses 1·9, and for common lodging-houses 32·0.

The total deaths at all ages during the epidemic numbered 86, and the total cases 555. This is a percentage of deaths on the total cases of 15·5. No person who was vaccinated in infancy died under the age of 19 years—I made very careful enquiries into all the cases and I was unable to find the disease occurring in any person vaccinated or re-vaccinated within the last ten years. Two men between ages 35 and 45, who were removed to hospital with the disease, stated that they had been re-vaccinated before they were 20, but they seemed unable to give any clear account of it.

Preventive Measures.

REMOVAL OF FAMILY TO THE RECEPTION HOUSE—

Every endeavour was made to get the family, in which a case of Small-pox had occurred, at once into our Reception House, and in the case of a tenemented house to get as many families removed as it was possible. It was a rule with us to require all persons who had not been recently vaccinated to submit to the operation as soon after residence as it could be conveniently done. In this way as many as 550 persons were either vaccinated or re-vaccinated in the Reception House during the epidemic. The table referring to the work carried on at the Reception House shows the large number of persons admitted and the very small cost at which they were maintained. At times as many as 30 persons have been resident. The splendid service done to the Borough by the Reception House, which very often was found too small for our needs, and the comfort it gave to families are very pleasant matters to look back upon. I do not remember a single case of complaint, either of the fare provided for the residents or of the housing accommodation.

We were able to achieve two things by this residence (1) the vaccination of all persons who had been in contact with a case of Small-pox, and (2) the thorough disinfection of the rooms the patient occupied. At no time was complete quarantine maintained. As soon as vaccination had been performed the male workers were allowed to resume work and a certificate was given informing their employers, that, in the opinion of the Medical Officer, the individual referred to was not likely to convey infection to his fellow work-

men. In a large number of "Contacts" the vaccination was done on the second day of exposure to infection, and I have no doubt saved many from taking the disease.

I am satisfied that this early removal of the family to the Reception House, and the subsequent vaccination, prevented serious outbreaks in private houses. A reference to the weekly number of cases will show that with one exception no such outbreak in connection with a private house did occur.

THE DISTRIBUTION OF PAPERS CONTAINING INFORMATION IN RELATION TO SMALL-POX—

In the early part of the epidemic large posters were affixed to the walls in the more prominent portions of the Borough. These posters described the chief symptoms of the disease. Handbills containing the same information were left at a large number of houses, especially in neighbourhoods likely to suffer from an invasion of the disease. At the same time two women inspectors were employed in making a house to house inspection in streets where cases had occurred, in order to find out the persons unvaccinated.

All this information as to vaccination was brought to the notice of the vaccination officials daily. In cases where much difficulty was experienced in getting persons vaccinated the Medical Officer of Health assisted in the work.

The publicity given to the symptoms of the disease induced numbers of persons to attend at the Public Health Office. The general effect was to bring all cases at once to the notice of the Medical Officer.

In addition a circular letter was sent to all employers of labour in factories, informing them that if they wished it the Public Vaccinator would attend and vaccinate their workpeople free of cost. In this way thousands of factory workers were vaccinated.

DISINFECTION OF ROOMS—

Our procedure in that respect was as follows, viz.:—Immediately after a case had been removed to hospital the room with all the clothes and bedding, just as the patient had left it, was treated with sulphur vapour by burning 2lbs. of roll sulphur in an ordinary brazier and keeping the room closed for at least 8 hours. Next morning the bedding and clothes were removed to a Washington Lyon's Steam Disinfector and exposed to steam of 20lbs. pressure for 20 minutes. The room in the meanwhile had the paper stripped off the walls and the whole interior of the room washed down with a solution of formalin applied with an ordinary garden syringe. The room was

again fumigated and after that allowed to remain for two days with all the windows open. The bedding then was returned home and the family allowed to re-occupy the room. The prolonged steaming of articles of attire frequently did harm to their general appearance, and in many cases compensation had to be made for the damage. The amount of money expended in this way for the whole epidemic has not exceeded £80.

There are two disinfecting stations in the Borough, one of which was kept exclusively for Small-pox, together with the collecting and discharging vans and ambulance for the removal of families, which had been in contact with cases, to the Reception House. In the table giving the number of families which have passed through the Reception House, it is shown that in the early part of the epidemic each person remained on an average 5 days, whereas in the later period the time was only 3 days.

CONTACTS—

In respect to persons who had been in contact with cases of Small-pox, and who worked or resided in other boroughs, information was at once sent to the Medical Officer of those Boroughs. It was found in a few cases that information as to their workplace was withheld by contacts. Considerable tact and care had to be exercised in the use of information so obtained from other boroughs. Our way was to send for the person who had been in contact, vaccinate him, and give him a certificate to enable him to continue his work.

All unvaccinated contacts were visited regularly for 14 days.

All contacts not feeling well were directed to send at once to the Medical Officer of Health.

THE MEDICAL OFFICER AS EXPERT.

From the commencement of the epidemic a very large part of my time was occupied in this work. To my mind it was all important that no case for want of this assistance should be kept at home.

I find on referring to our records that 44 cases were returned home from the hospital as not suffering from Small-pox. This number does not include some 150 cases, of suspicious rashes in which the diagnosis was corrected. I feel that the Borough has been much indebted to the medical men practising in it for their ready and indeed anxious desire to get cases removed from the district to hospital.

I have at the same time to acknowledge with pleasure the services of all those officers who have been concerned in this epidemic, and to regret that recently we have lost through death the Superintendent

of the Reception House, to whose energy much of the success of that place was due."

POSTER AND HANDBILL ISSUED.

"To the Inhabitants of the Borough of Southwark—

"Small-pox is very prevalent in many parts of the Metropolis. Many cases have occurred in Southwark. In order, as far as possible, to guard against the spread of the complaint and for the proper treatment of those so suffering, it is highly necessary that the first symptoms of the disease should be understood and recognised.

"What is termed the incubation or hatching period of the disease, that is the time from the infection to the real beginning of the illness, is in nearly all cases twelve days. The first symptoms of the complaint are nausea or sickness, giddiness, pains in the head and back, and a miserable feeling of depression. After forty-eight hours pimples appear on the face, forehead and wrists, and later on the body and legs.

"A person suffering with these symptoms should without delay seek medical advice, either by applying to his own medical attendant or to the Medical Officer of Health at the Public Health Office, 81, Borough Road. In any case, and almost at any time, the Medical Officer of Health, when applied to, is ready to give advice and assist in every way possible.

"Re-vaccination is practically a complete safeguard against taking the complaint, and is necessary for persons who have not been vaccinated since childhood.

"Parents whose children are now unvaccinated run great risks, and, in the event of the children becoming infected, are likely to lose them. The Medical Officer of Health will be glad to receive information that can in any way assist him in preventing the spread of the disease in the Borough.

"The following are the addresses of the Public Vaccinators:—

- Dr. C. Lloyd Jones, 174, Blackfriars Road, S.E.
- „ Alfred Matcham, 116, St. George's Road, S.E.
- „ James Wills, 232, Old Kent Road, S.E.
- „ Joseph Parratt, 2, Grosvenor Terrace, Camberwell Road.
- „ T. H. P. Peers, 2, Surrey Square, Old Kent Road.

"GEORGE MILLSON,

"Public Health Office,

"81, Borough Road.

"September, 1901."

"Medical Officer of Health."

MAINTENANCE.

The cost of maintaining persons admitted to the Reception House in connection with infectious disease other than Small-pox was under £2 for the year, 1901.

In the same year 135 persons, either "suspects" or "contacts," in connection with Small-pox were maintained for 775 days at a total cost of £15 17s., or at the rate of 5d. per person per day.

In the year 1902, from January to the 28th of June, 684 persons in connection with Small-pox were maintained for 2,247 days at a total cost of £60 16s. 5d., or at the rate of 6½d. per person per day.

SCARLET FEVER

The deaths from Scarlet Fever were 54 in the Borough during 1901, as against 22 in the year 1900.

The total number of cases notified was 1,301 this year, as against 689 for last year.

The annual mortality per 1,000 living was $\cdot 26$.

Deaths from Scarlet Fever during the last ten years :—

1892	...	69	1897	...	54
1893	..	111	1898	...	45
1894	...	42	1899	...	21
1895	...	36	1900	...	22
1896	...	51	1901	...	54

Of the 1,301 cases notified as many as 1,188 were removed to hospital. The deaths in the hospital were 51, a mortality of 4·3 per cent. The cases treated at home numbered 113, of which 3 died, a mortality of 2·6 per cent.

The percentage of cases removed to hospital was 91·3.

In the year under consideration not only has there been a very large increase in the number of cases when compared with the previous year, but the case mortality has been also higher. On referring to Tables 15 and 17, it will be seen that for a portion of the Borough (Newington), Scarlet Fever has been more than usually fatal.

One feels bound to mention year by year, the long period that cases are kept in hospital. That this lengthened stay in hospital, besides being a heavy burden upon the Borough's exchequer, is distinctly harmful to the patient I do not think there can be much doubt.

We have been hoping for years that the vexed question of how long a patient should be retained in hospital would be boldly considered by the Asylums Board's Medical Officers. It is known that there is a disinclination to discharge the cases from hospital at an early date, for fear of blame attaching. I think that this fear is groundless. If the Medical Officers of the hospitals would only discharge all cases of Scarlet Fever after a residence in hospital of six weeks or thereabouts, and duly advise the Medical Officers of Health of such discharge, so that the cases can be watched, much benefit, in my opinion, would accrue. The present way of discharging patients to their homes without advising the Medical Officer of Health, so that the family can be watched, is, to say the least, an unbusinesslike method of doing things.

DIPHTHERIA.

The deaths from this disease have still fallen during the year 1901, the number being 53 as against 108 for 1900.

The total number of cases notified, including Membranous Croup, was 558 as against 784 in 1900.

The annual mortality was .25 per 1,000 living.

Deaths from Diphtheria and Membranous Croup during the last ten years :—

1892	...	70	1897	...	105
1893	...	155	1898	...	123
1894	...	130	1899	...	184
1895	...	82	1900	...	108
1896	...	129	1901	...	53

Of the 558 cases notified, 484 were removed to hospital with 42 deaths, a mortality of 8.6. 74 cases were treated at home, with 11 deaths, a mortality of 14.8 per cent. The percentage of cases removed to hospital was 86.7.

In regard to Diphtheria, not only has there been a diminution in the number of cases occurring in the Borough during the year under consideration, but the case mortality, both in those treated in hospital and those at home, has been very remarkable.

In those treated at hospital, the lessened mortality has been as much as 40 per cent., and the same decrease has been noticed in those remaining at home. Either this has been due to a change in the type of the disease, or to the better treatment afforded to all cases at the present time.

WHOOPIING COUGH.

The deaths from this disease during the year were 98, as against 120 for the year 1900.

This is a large diminution in the number of deaths when the average for the last ten years is taken into consideration :—

The annual rate per 1,000 living was .47.

Deaths from Whooping Cough during the last ten years :—

1892	151	1897	126
1893	203	1898	93
1894	111	1899	146
1895	122	1900	120
1896	140	1901	98

TYPHUS FEVER.

No death occurred from this disease in the Borough during the year and no case was notified.

MEASLES.

The deaths from Measles during the year numbered 161, as against 116 in the preceding year.

The annual rate per 1,000 living was .78.

This is slightly below the average number of deaths for the last ten years.

Deaths from Measles during the last ten years :

1892	...	274	1897	...	184
1893	...	75	1898	...	145
1894	...	229	1899	...	171
1895	...	198	1900	...	116
1896	...	192	1901	...	161

In all cases of Measles, Whooping Cough, and other non-notifiable diseases in which information has been sent to the Medical Officer from the Schools in the Borough, it has been our practice for the Women Sanitary Inspectors to visit at once and inspect the premises. At the same time that a visit was made, such advice and instruction as a Sanitary Inspector is allowed to give, was offered to those in charge of the patient. The work carried on by the Women Inspectors in this field has been of the most important character, and I believe has been fully appreciated by the inhabitants of the Borough.

The visiting of cases of infectious disease by the Women Inspectors has occasionally been a little misunderstood, and has been thought to savour of unnecessary interference.

The few cases which have arisen during the year calling for an explanation, speak eloquently to the tact and care shewn by the Women Inspectors in the carrying out of their very important but delicate duties.

ENTERIC FEVER.

The deaths from Enteric Fever during the year 1901 numbered 18, as against 39 for the preceding year.

The number of cases notified was 135 for 1901, and 307 for 1900.

The annual rate per 1,000 living was .09.

Deaths from Enteric Fever for the last ten years :—

1892	...	18	1897	...	21
1893	...	29	1898	...	20
1894	...	21	1899	...	32
1895	...	23	1900	...	39
1896	...	26	1901	...	18

Of the 135 cases notified, as many as 120 were removed to hospital, a percentage of 88·8.

The number of deaths occurring in hospital was 14, a mortality of 11·6 per cent.

The cases treated at home numbered 15, of which four died, a mortality of 26·6 per cent.

This large increase in the percentage of deaths in cases treated at home has been referred to by me in previous Annual Reports.

An interesting case of Enteric Fever arose in connection with the sending home of the kit of a soldier who had died at Krugersdorp from Enteric Fever. The following report was made to the Public Health Committee in relation to this matter :—

“**TYPHOID FEVER DUE TO INFECTED CLOTHING SENT HOME FROM THE TRANSVAAL.**—The case was that of John Dexter, aged 19 years, of 25, Price's Street, Blackfriars Road, who was notified on August 22nd, as suffering from Typhoid Fever. His father, who was serving with the Fusiliers in the Transvaal, died at Krugersdorp in July, 1900, of Typhoid Fever. His kit was sent home to his family, and after several misdirections ultimately reached them in the middle of July, 1901. The patient, John Dexter, unpacked them at once, and found them soiled, just as they had been taken from his father's body after his decease. He began to wear the boots at once, and also the socks after they had been washed. Both father and son suffered from tender and offensively smelling feet. The son, after a little more than a week, began to feel ill, and on August 1st was not able to attend to his work of porter to a hatter in Fore-street, City. On August 6th he was admitted to St. Bartholomew's Hospital, and after a fortnight he was certified as suffering from Typhoid Fever. This case clearly shows that it is highly dangerous to send kits home in the way this was done. Even on sentimental grounds I have heard friends say that they would rather the things had been destroyed. I am strongly of opinion that the War Office should give instructions that all articles of clothing taken from the bodies of soldiers who have died from Enteric or Typhoid Fever should be at once burnt, and on no account should they allow any other article to be sent home without having it previously satisfactorily disinfected.”

DIARRHŒA.

The deaths during the year from this disease were 222, as against 233 for 1900.

The annual rate per 1,000 living was 1·07.

The deaths from Diarrhœa during the last ten years were as follows :

1892	...	134	1897	...	300
1893	...	214	1898	...	306
1894	...	96	1899	...	260
1895	...	205	1900	...	233
1896	...	214	1901	...	222

In the case of every death from Diarrhœa the house was examined, and the history of the circumstances of the case fully reported upon.

PHTHISIS.

The deaths from this disease during 1901 were 516, as against 571 in 1900.

The annual rate per 1,000 living was 2·50.

The deaths from Phthisis during the past eight years were as follows :

1894	...	473	1898	...	565
1895	...	533	1899	...	621
1896	...	490	1900	...	571
1897	...	520	1901	..	516

During the last six years it has been our practice to visit and examine every house in which a person has died from Phthisis.

Disinfection of rooms after Phthisis takes place in about two-thirds of the total deaths from that complaint.

DEATHS of INFANTS Under ONE YEAR of Age.

The deaths of Infants under one year of age to 1,000 births were 168 during the year 1901.

The deaths under one year of age to 1,000 births for the last ten years were as follows :

1892	...	177	1897	...	187
1893	...	178	1898	...	190
1894	...	163	1899	...	199
1895	...	201	1900	...	192
1896	...	192	1901	...	168

INSPECTION of HOUSES in which Deaths have occurred.

It had been the custom for the last nine years to visit every house in Newington in which death had occurred, and to make a complete inspec-

tion and report upon the sanitary state of the premises. This practice has been attended by the best results, and during the year under consideration has been extended to the other portions of the Borough.

DISINFECTION.

The Borough is provided with two disinfecting stations containing in each case one of Manlove, Alliott & Co.'s Washington-Lyon apparatus.

In the disinfection of rooms we endeavour in all cases of notifiable infectious disease, other than Erysipelas, to strip the walls of all paper, and to spray the interior by means of a garden syringe with a solution of Formalin. After this has been done, the room is placed under sulphur fumigation for at least eight hours before it is allowed to be reoccupied.

During the year 2,184 rooms have been disinfected after the occurrence of Infectious Diseases.

TABLE 26.

The Locality of Rooms Disinfected.

Applications were made to this Department at various periods for special disinfection of school rooms, &c. The staff accordingly carried out the disinfection of the following:—

Paragon Board Schools:—One class room.

Newington Workhouse:—2 rooms, 3 lavatories, passage, and staircase.

King and Queen Street Board Schools:—One class room.

Newington Workhouse:—2 rooms, 2 closets, and 1 wash-house.

Sandford Row Board Schools:—One class room.

INFECTIOUS DISEASES.

In order that an efficient supervision might be maintained of all cases of Infectious Disease, the Council, on the 9th January resolved —

“That for the purpose of visitation of cases of infectious disease, the Borough be accordingly divided into districts north and south of a line running from the Borough boundary on the east along the centre of Bermondsey New Road, New Kent Road, Newington Butts and Lower Kennington Lane.”

Miss E. M. Nicholas was appointed as Inspector in the north district commencing her duties on March 4th, and Miss Moffatt as Inspector in the south district, the duties of which were not commenced until a later period as the last mentioned Inspector continued for some time to carry out part supervision of No. 1 District (Houses let in Lodgings).

4,450 inspections and re-inspections have been made at premises after the occurrence of infectious disease by these Inspectors, and much good work has been done.

Immediately upon the occurrence of a case becoming known to the Medical Officer a visit was made by one of the Inspectors, and printed instructions, together with verbal advice, were given to the heads of families in every instance, the cases being kept under supervision until after the patients had either been removed to hospital or had recovered.

ST. MARY'S WARD.

House to house inspections have been carried out and blocks of houses have been inspected in the following localities:—

Sherston Place, Roy Place, Borrett Road, De Laune Street, Wesley Place, Doddington Grove, Crampton Street, Marsland Road, Sharsted Street, Peacock Square, Faunce Street, New Street, Suffield Road, Manor Place, Tarver Road, Berryfield Road, Horse and Groom Court, Walworth Road, Delverton Road, Brune Place, Hurlbutt Place, Steedman Place, Alms Houses, Draper Street, Ventry Place, St. Mary's Mansions, Newington Crescent, Danson Road, Chapter Road, Farrell Court, Alberta Street, Longville Road, St. Gabriel Street, Penton Place, Peacock Street, Gaza Street, Pasley Road.

Miscellaneous Nuisances abated, with Localities.

ANIMALS :—

Fowls.—Walworth Road, Delverton Road, Amelia Street, Manor Place (several), Crampton Street, Danson Road, Berryfield Road, Farrell Court, Borrett Road, Newington Crescent.

Rabbits.—Wesley Place, Manor Place, Borrett Road.

Pigeons.—Marsland Road, Farrell Court, Gaza Street.

Ducks.—Berryfield Road.

MANURE.—Iliffe Street, Occupation Road, Ostend Place (several), Manor Place, De Laune Street, Amelia Street, Gaza Street.

FOUL ACCUMULATIONS.—Newington Butts, Manor Place (several), St. Gabriel Street (several), Canterbury Mews, Ventry Place, New Street, Amelia Street.

FOUL CISTERNS.—Borrett Road, Penton Place, Manor Place.

DISCHARGING GREASE INTO SEWER.—De Laune Street.

ST. PAUL'S WARD.

House to house inspections have been carried out and blocks of houses have been inspected in the following localities:—

Royal Terrace, Chapter Road, Alpha Square, Avenue Road, Horsman Street, Sturgeon Road, Goschen Street, Hillingdon Street, Lorrimore Street, Grosvenor Terrace, Grosvenor Park, Kettle Court, Jerome Place, Draco Street, Olney Street, Cook's Road, South Place, St. Agnes Place, Walworth Road, Aldred Road, Montpelier Street, Farmer's Road, Carter Street, Royal Road, St. Paul's Road, Sutherland Square, Finchley Road, Beresford Street, Sutherland Place, Lorrimore Square.

Miscellaneous Nuisances abated, with Localities.

ANIMALS :—

Fowls.—Horsman Street (several), Avenue Road (several), Blucher Street, Lorrimore Square (several), Hillingdon Street (several), Jerome Place, Palmerston Street, Sutherland Square, Royal Terrace, Lorrimore Road, Sutherland Street, Cambridge Street.

Ducks.—Beresford Street (several), Lorrimore Road, Avenue Road Carter Street.

Goat.—Kettle Court.

Cats.—Royal Road.

Pigeons.—Horsman Street.

Rats.—Hillingdon Street.

Rabbits.—Horsman Street.

FOUL ACCUMULATIONS.—Aldred Road.

FOUL CISTERN.—Lucas Road.

MANURE.—Farmers Road, Avenue Road (several), Beresford Street, Royal Terrace.

SURFACE WATER.—Olney Street, Sturgeon Road.

DEAD CATS.—Fleming Road (several).

ST. PETER'S WARD.

House to house inspections have been carried out and blocks of houses have inspected in the following localities :—

Brettell Street, Wooler Street, Beckford Place, Date Street, Red Lion Mews, Bronti Place, Inville Road, Trafalgar Street, South Street, Queen's Row, Merrow Street, Blackwood Street, Faraday Street, Little Mount Street, Westmoreland Road, Boyson Road, Runham Street, Liverpool Street, Burton Street, Shaftesbury Street, Portland Street, Thornton Street, Boundary Lane.

Miscellaneous Nuisances abated, with Localities.

ANIMALS :—

Pigeons.—Westmoreland Road (several).

Cats.—Westmoreland Road (several).

Dogs.—Westmoreland Road (several).

Rats.—Faraday Street (several), Boyson Road, Trafalgar Street.

Fowls.—Portland Street.

TRIPLE STORES.—Walworth Road.

MANURE.—Portland Street, Bronti Place (several), Red Lion Mews.

FOUL ACCUMULATIONS.—Boyson Road, Clandon Street, Walworth Road, Hope Cottages, East Street, Thornton Street, Liverpool Terrace, Bronti Place.

FOUL CISTERNS.—Blewitt Street (several) Westmoreland Road.

FISH OFFAL.—Walworth Road.

ST. JOHN'S WARD.

House to house inspections have been carried out and blocks of houses have been inspected in the following localities :—

Munton Road, Henshaw Street, Louise House, Salisbury Buildings, Victoria House, Beddome Street, Gurney Street, Winch Place, Wadding Street, Victory Place, King and Queen Street, Chatham Street, Revesby Street, Little Chatham Place, King's Arch Place, Albert House, Beatrice House, Larcom Street, South Street, Orb Street, Lock Square, Content Street, Townley Street, Lestock Place, Morecambe Street, North Row.

Miscellaneous Nuisances abated, with Localities.

ANIMALS :—

Horse.—Angle Street.

Donkeys.—Angle Street, Orb Street.

Fowls.—Victory Place, Brandon Street.

FOUL CISTERNS.—Wadding Street, Gurney Street, Deacon Street (several), York Street.

FOUL ACCUMULATIONS :—Deacon Street, Ash Street, Henshaw Street, Walworth Road (several), Victory Place (several), King and Queen Street, Ash Street (several), New Kent Road, Winch Place, East Street, Chatteris Road.

MANURE.—Little Trafalgar Place, Hard Street, Content Street, Rodney Road.

TRINITY WARD.

House to house inspections have been carried out and blocks of houses have been inspected in the following localities :—

Circular Road, Silvester Buildings, Great Bland Street, Deverell Street, Ripley Mews, Globe Street, Cole Street, Tabard Street, Arch Street, Brunswick Court, Hulme Place, Bath Terrace, Trinity House, Linwood Place, Uxbridge Street, Dorset Street, Foston Place, Uxbridge

Place, King's Place, Avon Place, Worsdale Place, Iris Place, Margaret's Place, Goode's Court, Tarn Street, Harper Street, Arcadia Buildings, Arnott Street, Avonmouth Street, Rockingham Street, Swan Street, St. David's Street, Standard Street.

Miscellaneous Nuisances abated, with Localities.

ANIMALS :—

Fowls.—Cole Street.

Rabbits.—County Terrace Street (several), Meadow Row, Adam Street.

MANURE.—Arch Street, Meadow Row (several), Tabard Street, Adam Street (several), Tarn Street, Brockham Street (several), Trinity Place, New Kent Road, Avonmouth Street, Upper Bland Street, Great Dover Street, Nebraska Street, Parel Place, Borough High Street (several).

FOUL ACCUMULATIONS.—Tabard Street (several), Great Bland Street, Great Dover Street, Falmouth Road (several), Borough High Street.

SURFACE WATER.—Swan Street.

ALL SAINTS' WARD.

House to house inspections have been carried out and blocks of houses have been inspected in the following localities :—

Darwin Buildings, Beckway Street, Bagshot Street, Mina Road, Tisdale Place, Alvey Street, East Street, Namur Terrace, Albany Road, Ann's Row, Eagle Place, Cook's Cottages, Elsted Street, Thurlow Street, South Street, Acre Street, Henshaw Street, Hillery Road, Flint Street, Darwin Street, Alvey Mews, Little Chatham Place, Barlow Street, Westmoreland Road, Rossett Place, Aylesbury Street.

Miscellaneous Nuisances abated, with Localities.

ANIMALS :—

Dog.—East Street.

Cats.—Catesby Street.

Rats.—Mann Street, Huntsman Street.

Fowls.—Hillery Road, Thurlow Street, Chatham Place, York Place, Beckway Street.

Pigeons.—Henshaw Street, Chatham Place.

Rabbits.—Henshaw Street, Flint Street.

MANURE.—South Street, Catesby Street, Rodney Road, Thurlow Street, Salisbury Row, Barlow Street (several), Elsted Street.

BURNING RUBBISH.—Albany Road (several), Bagshot Street.

FOUL ACCUMULATIONS.—Catesby Street, Flint Street (several), East Street, Huntsman Street (several), Chatham Yard, Alvey House, Acre Street.

ST. MICHAEL'S WARD.

House to house inspections have been carried out and blocks of houses have been inspected in the following localities :—

Valentine Place, Great Suffolk Street, Monarch Buildings, Queen's Court, Webber Street, Southwark Bridge Road, Quilp Street, Lant Street, Scovell Road, Pocock Street, Gray Street, Friar Street, Caffrey Place, Gun Street Buildings, Aster Place, Sturge Street, Drapers' Alms Houses, Collinson Street, Bean Street, Gable Cottages, King's Court, St. George's Buildings, Sussex House, Princess Place, Wellington Place, Waterloo Road, New Winchester Buildings, Clenham Street, Gilbert's Buildings, Little Lant Street, Quinn Square, Belvedere Buildings, Grotto Place, Little Grotto Place, Lant Place, Goldsmith's Place, Dodson Street, Miniver Street, Salisbury House, Nelson Place, Westminster Bridge Road, Blackfriars Road, Obelisk Yard, Borough High Street, Friars Place.

Miscellaneous Nuisances abated, with Localities.

ANIMALS :—

Fowls.—Waterloo Road, Clenham Street, Williams Place, Webber Street, Dodson Street.

HOUSES LET IN LODGINGS.

It was resolved by the Council on the 9th January, 1901, that for the proper supervision of the houses let in lodgings, etc., the Borough be divided into three Districts, as follows:—

DISTRICT No. 1.—All that portion of the Borough lying to the north-west of a line drawn from Lower Kennington Lane northward, along the centre of Newington Butts, Newington Causeway and Borough High Street, to the centre of the River Thames.

DISTRICT No. 2.—All that portion of the Borough lying on the westerly side of a line drawn from the Borough boundary, along the centre of Thurlow Street to Sedan Street, and along the centre of that street, Alvey Street, Elsted Street, Rodney Road, and on the southerly side of Deacon Street, Hampton Street, the south-westerly side of Crampton Street, and the easterly side of Newington Butts (between Crampton Street and Lower Kennington Lane), and Kennington Park Road.

DISTRICT No. 3.—The remainder of the Borough.

Three Women Inspectors have accordingly been appointed for the discharging of the undermentioned duties:—

- (a) Obtaining information for Registration, and Inspection of Houses Let in Lodgings.
- (b) Inspection of Factories and Workshops.
- (c) Inspection of Premises where Outworkers carry on their work.
- (d) Such other duties as the Public Health Committee may from time to time direct.

At the commencement of the year 1901, the number of houses upon the Register was 702.

These were situate in the various Districts of the Borough, as follows:—

In No. 1 District	369
„ 2 District	49
„ 3 District	284
		Total	702

At various periods during the year, upon representations made by me, the Council, after due consideration, resolved to place upon the Register the following 170 additional houses:—In No. 1 District 18 houses, in No. 2 District 63 houses, and in No. 3 District 89 houses.

PREMISES.

Date of Resolution
of Council, 1901.

POLICE COURT PROCEEDINGS.

During the year 166 summonses were taken out under the above Acts. Convictions have been obtained in 118 instances, 29 summonses have been withdrawn, mainly in cases where the persons serving the samples were not the actual proprietors of the business.—(Duplicate summonses were generally taken out in such instances and were withdrawn upon a conviction being obtained against either the proprietor or his servant). 16 summonses were dismissed and 3 summonses were not served (in two instances as the defendant had gone away, and in the third instance as the defendant had died.)

TABLE 37.

Showing the Wards in which proceedings were taken under the Adulteration Acts.

	St. Mary's Ward.	St. Paul's Ward.	St. Peter's Ward.	St. John's Ward.	Trinity Ward.	All Saint's Ward.	St. Michael's Ward.	St. Jude's Ward.	St. George's Ward.	Christ-church Ward.	St. Saviour's Ward.	Total.
No of Summonses taken out	15	8	6	18	14	10	26	15	10	17	27	166

The following have been, from time to time during the year, reported to the Public Health Committee as cases of interest:—

David Jones, 10 & 11, Sturge Street.—Milk from which 21 per cent. of cream had been abstracted.

This sample was taken in pursuance of a suggestion made in Court upon the hearing of a summons taken against the same vendor in respect to another sample of Milk which was certified to have had 16 per cent. of cream abstracted therefrom. The above sample was therefore taken direct from the same cow in the presence of the Inspector (Mr. Weatheritt), and upon analysis was found poorer in quality than the first by 5 per cent. of cream. No proceedings could therefore be taken in this instance, and the summons in respect to the first sample (16 per cent. deficiency in cream) was withdrawn.

Evan Rees, 84, Deacon Street.—Milk 30 per cent. deficient in cream.

Evan Davies, 169, Borrett Road.—Milk 16 per cent. deficient in cream.

It was shown in evidence, at the hearing these two summonses, that the milk was demanded by the purchaser in each instance from a particular vessel pointed out by him.

The Magistrate thereupon held that the milk being demanded from a certain vessel and being so supplied, the vendor had sold what was asked for, and no objection could be taken as to the quality of the milk. These cases were accordingly dismissed.

Joseph Carrick, 337, Walworth Road.—Syrup sold as golden syrup, but constituted as follows:—Cane sugar syrup 20 per cent., glucose syrup 80 per cent.

The summons in this instance was withdrawn, the Council not being in a position to show that there is a proper commercial standard for "Golden Syrup."

Edward Gardiner, 150, Tabard Street.—Obstructing the Inspector (Mr. Weatheritt), in the carrying out of his duty (purchasing samples of milk and butter) and assaulting the latter's assistant. Fined 60/- and 42/- costs in respect to the obstruction, and 40/- and 21/- costs in respect to the assault.

WEATHERITT *v.* DRURY.

A MILK CASE—ABSTRACTION OF CREAM.

The defence set up in this case, "that the milk was genuine as drawn from the cow," is so important and far reaching as to require our closest attention. The particulars of the case are clearly given by Mr. Weatheritt in report to me, which I submit.

October 16th, 1901.

SIR—

I beg to submit the following report on the case of myself *v.* Drury, heard at the Lambeth Police Court on 2nd inst.

On the date named, Henry Drury, 8, Alvey Street, was summoned under Sec. 9 of the Sale of Food and Drugs Acts, 1875, for selling on 28th August last, a pint of New Milk from which 12 per cent. of its cream had been abstracted so as to affect injuriously its quality, without making disclosure of its abstraction. When the case came on for hearing the defendant's solicitor, Mr. Ricketts, produced a tabulated report of the analyses of milk, alleged to have been collected from four cows on the morning of the 25th September last, being the same cows that produced the milk which was the subject of the summons. The report showed that the mixed milk of these cows was 57 per cent. deficient in cream. Mr. Ricketts also stated that he had the analyst and the man who collected the samples in Court, and was prepared to put them in the witness box.

The Magistrate (Mr. Horace Smith) said if Mr. Ricketts' statements were correct he would suggest the withdrawal of the summons. Mr. Topham was not at that time in a position to dispute the figures given in the report. The summons was accordingly withdrawn. As you are aware, under Sec. 4 of the Act, 1899, and the Board of Agriculture Regulations, the defendant cannot be convicted if he can show that, notwithstanding the fact that the milk is below the standard, the milk was genuine as drawn from the cow.

It is, of course, known that stall-fed cows do, under certain conditions, give milk below the standard. The Act of 1899, and the Board of Agriculture Regulations, really now give defendants a defence which was formerly not open to them.

On the 8th inst., you will remember, we visited Mr. Drury's cow shed and procured samples of milk from two of the cows before mentioned (the other two having been sold), and from three other cows in the shed. The result of the analyses of this milk is set out in the following table, alongside of which is a copy of the report produced by Mr. Ricketts.

TABLE 38.

Samples Analysed by Mr. de Hailes for Mr. Drury.							Samples Analysed by Dr. Muter for the Borough Council.				
Mark.	Date.	sp. gr.	Total.	Fat.	Solids not fat.	Observations.	Date.	Total.	Fat.	Solids not fat.	Observations.
1 Red ...	Sept. 25	1033·5	9·34	0·50	8·84	Skim Milk ...	—	—	—	—	— —
2 Red ...	„	1031·5	9·95	1·20	8·75	60% Def. in Fat	Oct. 8th	12·03	3·28	8·75	9% excess of Fat.
1 Roan ...	„	1033·5	11·58	2·20	9·38	27½% „ „	„	14·00	4·65	9·35	55% „ „
2 Roan ...	„	1034·0	10·98	1·30	9·68	57% „ „	—	—	—	—	— —
Total 4 Mixed	„	1033·5	10·55	1·30	9·25	57% „ „	—	—	—	—	— —
	—	—	—	—	—	— —	„	14·30	4·90	9·40	63% „ „
	—	—	—	—	—	— —	„	13·36	4·35	9·01	45% „ „
	—	—	—	—	—	— —	„	13·14	4·00	9·14	33% „ „

The difference in these milks may be partially accounted for by the difference of the time between the milkings. Those on the 25th September being taken at 8 a.m., the previous milking would be about 15 or 16 hours before. Those on the 8th inst. were taken in the afternoon about 3 o'clock, the cows having been milked about eight or nine hours before. The feeding of the cows may have been better attended to after the first samples were taken; and the milking better done on the second occasion.

(Signed) JAS. WEATHERITT,
Sanitary Inspector.

The points which suggest themselves by this report are—

- (a) Can the amount of solids and fat in milk be influenced by the way in which the cow is fed?
- (b) Is the first portion of milk taken from a cow at the milking period usually deficient in fat?
- (c) Is the first portion of milk taken from a cow at the milking period usually deficient in solids?
- (d) Can the amount of fat be influenced by the period of milking adopted by the milkman?

SALE OF FOOD AND DRUGS ACTS.
PROCEEDINGS TAKEN, WITH THE RESULTS.

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
John Evans, 99, Crampton-street	Margarine (improperly labelled)	Margarine	Fined 5/- and 12/6 costs
Isaac Bowen, 89, Gravel-lane	Margarine (improperly labelled)	Margarine	Fined 10/- and 12/6 costs
William H. Sims, 96, New Kent-road	Milk	14 per cent. deficient in cream	Fined £5 and 12/6 costs
Edward Chappell, 169, Old Kent-road	Milk	13 per cent. deficient in cream	Fined 20/- and 12/6 costs
Mary Davies, 54, Tabard-street	Milk	16 per cent. deficient in cream	Fined £5 and 12/6 costs
Isabel Goff, Secretary, Sud- bury Dairy Co., Ltd., 172, Wardour-street	Refusing to sell a sample of milk to the inspector (Mr. Weatheritt)		Fined 20/- and 2/- costs
Timothy John Davies, 62, Beckway-street	Milk	12 per cent. abstraction of cream	Summons withdrawn owing to the indisposition of the witness who purchased the sample
Timothy John Davies, 62, Beckway-street	Milk	12 per cent. abstraction of cream	Ordered to pay 12/6 costs only.
Jenkin Evan Evans, 68, St. George's-road	Milk	11 per cent. extraneous water	Fined 20/- and 12/6 costs.
William Gooday, 16, Orient-street	Milk	11 per cent. extraneous water	Summons withdrawn. Note :—This summons and the preceding one apply to the same sample.

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Joseph Fogden, 94, St. George's-road	Margarine (improperly labelled)	Margarine	Summons withdrawn (see following summons)
Joseph Fogden, 94, St. George's-road	Butter	10 per cent. of margarine	Fined 40/- and 12/6 costs. Note :— This summons and the preceding one apply to the same sample
David Jones, 10, Sturge-street	Milk	16 per cent. abstraction of cream	Summons withdrawn. This case was adjourned in order that a second sample might be taken from the same cows; this was done in Mr. Weatheritt's presence, and upon analysis this second sample was found poorer in quality by 5 per cent. than the first.
Henry William Smith, 37, Deacon-street	Butter	96 per cent. margarine	Fined 40/- and 12/6 costs.
Henry William Smith, 37, Deacon-street	Margarine(unmarked)	96 per cent. margarine	Summons withdrawn. Note:—This summons and the preceding one apply to the same sample
Henry William Smith, 37, Deacon-street	Cocoa	55 per cent. sugar and starch	Fined 20/- and 12/6 costs
James Haley, 8, Upper Bland-street	Milk	15 per cent. abstraction of cream	Fined 20/- and 12/6 costs
George Bourne, 16, Mason-street	Milk	14 per cent. abstraction of cream	Summons withdrawn. Note:—This summons and the following one refer to the same sample
Arthur Handsley, 306, Kennington-road	Milk	14 per cent. abstraction of cream	Summons dismissed. The defendant proved a warranty from the dealer who supplied him with the milk

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Mary Tatnell, 27, Crosby-row	Milk	5 per cent. extraneous water	Ordered to pay costs only, 12/6. The Magistrate thought a summons should not have been taken out for so small a percentage
Joseph H. Potter, 30, Meymott-street	Coffee	50 per cent. (about) of chicory	Fined 20/- and 12/6 costs
William R. Ash, 25, Albany-road	Milk	11 per cent. extraneous water	Fined 5/- and 12/6 costs
Mary Ward, 52a, Brandon-street	Milk	9 per cent. extraneous water	Fined 10/- and 17/6 costs
John Griffiths, 68, Old Kent-road	Milk	19 per cent. deficiency of cream	Fined 20/- and 12/6 costs
John Evans, 52, Darwin-street	Milk	5 per cent. extraneous water	Fined 20/- and 12/6 costs
Edward Thomas, 146, Lorrimore-road	Milk	5 per cent. extraneous water	Fined 10/- and 12/6 costs
William Wells, 31, Princes-street	Butter	Containing boracic acid to the extent of 62 grains to the lb.	Fined 10/- and 23/- costs
John Evans, 7, Crompton-street	Butter	97 per cent. margarine	Fined 40/- and 12/6 costs
Catherine Lewis, 109, London-road	Butter	97 per cent. margarine	Fined 60/- and 12/6 costs
Sarah J. Jones, 83, Sumner-street	Milk	30 per cent. deficiency in fat	Fined 40/- and 12/6 costs
John Price, 10, Avenue-road	Milk	15 per cent. deficient in cream	Fined 20/- and 12/6 costs
Susan Stevens, 347, Kennington-road	Milk	10 per cent. deficient in cream	Fined 10/- and 12/6 costs

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Robert Burnside, 38, Westminster Bridge road	Milk	20 per cent. deficiency of cream	Fined 20/- and 12/6 costs
Evans Rees, 84, Deacon-street	Milk	30 per cent. deficiency in cream	Summons dismissed. It was shown in evidence that the milk was demanded by the purchaser from a particular vessel pointed out by him. The Magistrate held that the milk being demanded from a certain vessel, and being so supplied, the vendor had sold what was asked for, and no objection could be taken as to the quality of the milk.—(Mr. Hopkins at Lambeth.)
John Povey, 138, Vauxhall-street	Milk	7 per cent. extraneous water	Fined 10/- and 12/6 costs
Isabella Park, 30, Wellington-place	Milk	24 per cent. deficiency of cream	Fined £5 and 12/6 costs
Joseph Carrick, 337, Walworth-road	Golden syrup	80 per cent. glucose syrup	Summons withdrawn. The Council at the adjourned hearing were not in a position to show that there was any recognised standard in the trade for golden syrup
John Evans, 7 & 99, Crampton-street	Milk	15 per cent. deficiency of cream and 4 per cent. extraneous water	Summons dismissed. Defendant produced a warranty from the Great Western and Metropolitan Dairies, Ltd. A summons was taken out against the latter (see page 138)

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Evan Davies, 169, Borrett-road	Milk	16 per cent. deficiency in cream	Summons dismissed. The same point was raised by the Magistrate as in Evan Rees case (see page 135), which was heard at the same time with same result
Hugh Morgan, 161, Manor-place	Butter	84 per cent. of margarine	Fined £3 with 12/6 costs
William Copps, 17, Mina-road	Milk	17 per cent. deficient in cream	Fined £3 with 12/6 costs
David Thomas, 103, Villa-street	Butter	95 per cent. margarine	Fined 40/- with 12/6 costs
David Jones, 24, Gt. Bland-street	Milk	6 per cent. extraneous water	Summons dismissed. Mr. Ricketts, for the defendants, contended that the Council had not sufficiently proved that the person summoned was the "legal" seller of the milk. The Magistrate (Mr. Slade) upheld his contention, and dismissed the summons
Henry Ward, 120, Rodney-road	Butter	87 per cent. margarine	Fined 20/- and 12/6 costs
John Davies, 44, Red Cross-street	Milk	9 per cent. extraneous water	Fined 40/- and 12/6 costs
William Abisham Hale, 301, Boro' High-street	Milk	38 per cent. deficient in cream	Summons dismissed. Mr. Ricketts for the defence raised the same point as in Jones case (see above), which was heard at the same time with same results

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Frederick Walter Bartlett, Cream Dairy Company, 2½, St. Andrew's-hill, E.C.	Milk	12 per cent. deficient in cream	Summons dismissed. Defendants produced a warranty from the wholesale dealer who supplied them with the milk
Thomas Oliver, 75, Brandon-street	Milk	17 per cent. deficient in cream and 6 per cent. extraneous water	Summons withdrawn. It appeared that the milk was supplied to defendant by Evans (see page 135), on the same day as the sample was taken. It was thought advisable to withdraw
William Morgan, 17, Sutherland-square	Milk	22 per cent. extraneous water	Fined £10 and 12/6 costs. Defendant challenged Council's analysis. 3rd portion sent to Somerset House. This last analysis agreed with that of Council's
Alexander Baird, 3, Henshaw-street	Milk	14 per cent. deficient in cream	Fined 20/- and 12/6 costs
Richard Nightingale, 18, Villa-street	Milk	6 per cent. extraneous water	Fined 20/- and 12/6 costs
Richard Higgs, 64, Camberwell-road	Milk	18 per cent. deficient in cream	Fined 5/- and 12/6 costs
Rees Jenkins, 79, Tower-street	Butter	100 per cent. margarine	Fined 40/- and 12/6 costs
Margaret Jones, 185, Union-street	Butter	Containing boracic acid to the extent of 70.7 grains to the lb.	Fined 10/- and 12/6 costs
Henry Williams or Henry Falkner, 65, Abbey-st.	Neglecting to have his name and address on barrow		Fined 20/- and 2/- costs

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Mary Jane Bushnell, 145, East-street	Butter	93 per cent. of margarine	Fined 10/- and 12/6 costs
Arthur Handsley, 356, Kennington-road Great Western Dairy Co.	Milk	25 per cent. deficient in cream	Fined 20/- and 12/6 costs
	Milk	15 per cent. deficient in cream and 4 per extraneous water	Summons withdrawn
Reuben Thomas, 35, Tarn-street	Butter	93 per cent. of margarine	Fined £20 and 12/6 costs
Henry Williams or Henry Falkner, 65, Abbey-st.	Skimmed milk	33 per cent. extraneous water	Fined 40/- and 12/6 costs
Edward Gardiner, 150, Tabard-street	Obstructing the In- spector		Fined £3 and 42/- costs
Edward Gardiner, 150, Tabard-street	Assaulting the agent		Fined £2 and 21/- costs
Herbert Jones, 21, Globe-street	Milk	18 per cent. deficient in cream	Summons dismissed. The defendant challenged the result of the Council's analysis. Third portion was accordingly sent to Somerset House and the result of this last analysis showed the milk to be of normal quality. The defendant also had his portion of the sample analysed by his own analyst, and the result of this analysis practically agreed with that of Somerset House
David Davies, Salvation Army Shelter, Blackfriars-road	Refusing to sell a sample of milk to the Inspector		Fined £3 and 4/- costs. In default 1 month imprisonment

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Isaac Price, 95, Union-road	Milk	20 per cent. deficient in cream	Fined 10/- and 12/6 costs
Sabiah Sulston, 39, Warner-street	Butter	96 per cent. margarine	Fined 10/- and 12/6 costs
John W. Pickersgill, 143, South-street	Milk	14 per cent. extraneous water	Fined 20/- and 12/6 costs
Thomas James, 112, Great Suffolk-street	Butter	94 per cent. margarine	Fined £10 and 12/6 costs
James Turner, 65, Nelson-square	Butter	100 per cent. margarine	Fined £4 and 12/6 costs
Samuel Gallagher, 348, Old Kent-road	Milk	17 per cent. deficient in cream	Fined 10/- and 17/6 costs
David Davies, Salvation Army Shelter, Blackfriars-road	Neglecting to have his name on can from which he was selling milk		Fined £1 and 2/- costs. In default 14 days' imprisonment
John C. Muirison, 51, Deacon-street	Milk	8 per cent. extraneous water	Fined 20/- and 17/6 costs
William Henry Sims, 96, New Kent-road	Butter	95 per cent. margarine	Fined 40/- and 12/6 costs
Jane Thomas, 33, Horsman-street	Milk	13 per cent. deficient in cream	Ordered to pay 12/6 costs only, as the Magistrate thought the percentage was very small
John Edward Naylor, 2a, Avenue-road	Butter	90 per cent. margarine	Fined 40/- and 12/6 costs
Arthur Handsley, 2, Stannary-street, Ken- nington	Milk	14 per cent. deficient in cream	Summons dismissed. Defendant proved a warranty

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
James F. West, 98, Gt. Suffolk-street	Milk	21 per cent. deficient in cream	Fined 5/- and 12/6 costs
Timothy James, 200, St. James-road	Milk	8 per cent. extraneous water	Fined 20/- and 22/6 costs
Amelia Reed, 102, Lancaster-street	Milk	11 per cent. deficient in cream	Summons withdrawn. (This summons refers to the same sample as the following)
Arthur Reed, 102, Lancaster-street	Milk	11 per cent. deficient in cream	Fined £3 and 12/6 costs
Mack Brannan, 1, Gt. Bland-street	Coffee	50 per cent. chicory	Fined 2/6 and 12/6 costs
Edith Brannan, 1, Gt. Bland-street	Coffee	50 per cent. chicory	Summons withdrawn. (This summons refers to same sample as the preceding)
Alfred Leichte, 45, Union-street	Margarine(unmarked)	Margarine	Fined £3 and 12/6 costs
William Frederick Gilder, 16, Clenham-street	Margarine(unmarked)	Margarine	Defendant went away, address unknown
Rhoda Gilder, 16, Clenham-street	Margarine(unmarked)	Margarine	Defendant went away, address unknown
James F. West, 98, Gt. Suffolk-street	Margarine(unmarked)	Margarine	Fined £3 and 12/6 costs
Jessie Small, 30, Pepper-street	Milk	18 per cent. extraneous water	Fined £5 and 12/6 costs
Henry Hovell, 10, Draper-street	Milk	18 per cent. extraneous water	Fined 10/- and 12/6 costs
Henry William Smith, 37, Deacon-street	Butter	94 per cent. of margarine	Fined £20 and 12/6 costs

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
James Small, 30, Pepper-street	Milk	18 per cent. extraneous water	Summons withdrawn. (This summons refers to the same sample as the following)
William Morgan, 17, Sutherland-square	Milk	13 per cent. deficient in cream	Fined £20 and 12/6 costs
John Price, 10, Avenue-road	Milk	8 per cent. deficient in cream	Defendant died (summons withdrawn)
David Evans, 205a, Waterloo-road	Margarine(unmarked)	Margarine	Fined £3 and 12/6 costs
Caroline Rickard, 149, Brook-street	Milk	9 per cent. deficient in cream	Fined 20/- and 12/6 costs
Edward Biddle, 1, Park-street	Milk	15 per cent. deficient in butter fat	Fined 40/- and 12/6 costs
Emily James, 83, Sumner-street	Margarine unmarked (package exposed for sale)	Margarine	Fined £3 and 12/6 costs
Gertrude Swinfen, 83, Sumner-street	Margarine unmarked (exposed for sale)	Margarine) These summonses were withdrawn. They refer to the same sample as the two summonses taken out against Emily James (see above)
Gertrude Swinfen, 83, Sumner-street	Margarine unmarked (sold in wrapper)	Margarine	
Iltyd Thomas, 8, Canvey-street	Margarine unmarked (exposed for sale)	Margarine	
Iltyd Thomas, 8, Canvey-street	Butter	100 per cent. margarine	Dismissed. This summons refers to same sample as the preceding
Iltyd Thomas, 8, Canvey-street	Coffee	50 per cent. chicory	Fined 40/- and 12/6 costs.

Name and Address of Vendor.	Samples.	Result of Analysis.	Result of Proceedings.
Elizabeth Morgan, 27, Little Surrey-street	Butter	92 per cent. margarine	These four summonses were dismissed. The Magistrate (Mr. Baggaley), was satisfied that the labels were taken off the packages for a necessary purpose—viz., to wash them and not with the intention of evading the Act
Elizabeth Morgan, 27, Little Surrey-street	Margarine, unmarked (exposed for sale)	Margarine	
Elizabeth Morgan, 27, Little Surrey-street	Butter	94 per cent. margarine	
Elizabeth Morgan, 27, Little Surrey-street	Margarine, unmarked (exposed for sale)	Margarine	
George Fairhall, 107, Westmoreland-road	Milk	10 per cent. extraneous water	Fined 20/- and 12/6 costs
Henry Wyatt, 38, South-street	Milk	15 per cent. extraneous water	Fined £10 and 12/6 costs
Henry Wyatt, 38, South-street	Neglecting to have name on barrow		Fined 20/- and 2/- costs
James Searle, 7, Sayer-street	Butter	91 per cent. of Margarine	Fined 10/- and 12/6 costs
Henry Drury, 8, Alvey-street	Milk	12 per cent. deficient in cream	Summons withdrawn. Note: Solicitor for the defendant was prepared to prove that the milk from which the sample was taken on August 28th, was supplied to us as it came from the cows; and was also prepared to prove that the cows in question gave very poor milk. The Magistrate thereupon made the suggestion that if the Council were not in a position to refute these statements, the summons had better be withdrawn

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Emily James, 83, Sumner-street	Margarine unmarked (sold in wrapper)	Margarine	Ordered to pay 2/- costs. (This refers to the same sample as the preceding)
John Hall, 10, Kenwood-avenue, New Cross	Separated milk	57 per cent. extraneous water	Fined £4 and 12/6 costs
John Hall, 10, Kenwood-avenue, New Cross	Neglecting to have name on barrow		Fined 20/- and 12/6 costs
Richard Vaughan, 39, Union-street	Butter	100 per cent. margarine	Fined £10 and 12/6 costs
Richard Vaughan, 39, Union-street	Margarine unmarked (sold in wrapper)	Margarine	Ordered to pay 2/- costs only
Robert Ince, 25, Bear-lane	Milk	6 per cent. abstraction of milk fat	Summons withdrawn. This refers to the same sample as the following
Jones, Perry & Jones, 10 & 11, Sturge-street	Milk	6 per cent. abstraction of milk fat	Fined 30/- and 12/6 costs
Albert Joseph Clark, 147, Blackfriars-road	Milk	7 per cent. abstraction of milk fat	Fined 10/- and 12/6 costs
William Donnelly, 79, Red Cross-street	Milk	8 per cent. abstraction of milk fat	Fined 1/- and 12/6 costs
Margaret Donnelly, 79, Red Cross-street	Milk	8 per cent. abstraction of milk fat	Summons withdrawn. This summons refers to the same sample as the preceding
David Thomas, 103, Villa-street	Butter	90 per cent. margarine	Fined £3 and 12/6 costs
Thomas Oliver, 75, Brandon-street	Milk	5 per cent. abstraction of milk fat	Fined 5/- and 12/6 costs

Defendant
went to
prison

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
John Hall, 10, Kenwood-avenue, New Cross	Separated milk	16 per cent. extraneous water	Fined £2 and 12/6 costs
David Thomas, 103, Villa-street	Margarine unmarked (sold in wrapper)		Ordered to pay 2/- costs
Arthur Reed, 102, Lancaster-street	Skimmed milk	11 per cent. extraneous water	Ordered to pay 12/6 costs
William Smith, 76, Newburn-street, Vauxhall-street, S.E.	Skimmed milk	11 per cent. extraneous water	Withdrawn. This summons refers to same sample as the preceding
Arthur Reed, 102, Lancaster-street	Skimmed milk	14 per cent. extraneous water	Fined £8 and 12/6 costs
William Smith, 76, Newburn-street, S.E.	Skimmed milk	14 per cent. extraneous water	Withdrawn. This summons refers to same sample as the preceding
Emily James, 83, Sumner-street	Margarine cheese un- marked (exposed for sale)	Margarine cheese	Ordered to pay 2/- costs. Note: This, and the following two sum- monses apply to the same sample
Emily James, 83, Sumner-street	Margarine cheese unmarked (sold in wrapper)	Margarine cheese	Ordered to pay 2/- costs
Emily James, 83, Sumner-street	Cheese	Skimmed milk cheese, 70·00, Margarine fat, 30·00	Fined £1 and 12/6 costs
Emily James, 83, Sumner-street	Butter	100 per cent. margarine	Fined £4 and 12/6 costs
Emily James, 83, Sumner-street	Margarine unmarked (sold in wrapper)		Ordered to pay 2/- costs
Emily James, 83, Sumner-street	Margarine unmarked (exposed for sale)		Ordered to pay 2/- costs

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Henrietta Elizabeth Cooper, 43, Tarn-street	Milk	14 per cent. abstraction of milk fat	Fined £2 and 12/6 costs
Elizabeth Young, 55, Stamford-street	Milk	2 per cent. extraneous water	Fined 10/- and 12/6 costs
Higgs Dairy Farms Limited, 1 & 3, New-street	Milk	26 per cent. extraneous water	Withdrawn. Note: This summons refers to the same sample as the following
Charles Woodason, 1, Marsland-road	Milk	26 per cent. extraneous water	Fined £5 and 25/- costs
Arthur Reed, 102, Lancaster-street	Milk	7 per cent. abstraction of cream	Fined 5/- and 17/6 costs.
Helen Miller, 68, Alvey-street	Milk	8 per cent. abstraction of cream	Dismissed. Defendant proved a warranty
John Jenkins, 234, Old Kent-road	Milk	18 per cent. abstraction of cream	Fined 5/- and 17/6 costs
Margaret Griffiths, 63, Dante-road	Margarine (exposed for sale unmarked)	Margarine	Dismissed. The prosecutor was unable to swear that the box from which the margarine was taken was not branded with the word margarine
William Brown, 224, Southwark Bridge-road	Margarine (exposed for sale unmarked)	Margarine	Ordered to pay costs of 2/-
William Brown, 224, Southwark Bridge-road	Margarine (sold in unmarked wrapper)	Margarine	Ordered to pay 2/- costs
William Brown, 224, Southwark Bridge-road	Butter	86 per cent. of margarine	Fined £2 and 12/6 costs

These 3 summonses refer to the one sample

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
William Lloyd, 56, Brunswick-street	Milk (sample not of the nature, substance, and quality demanded)	Containing about 11 grains per pint of boracic acid	Withdrawn. (This summons refers to the same sample as the following)
William Lloyd, 56, Brunswick-street	Milk (injurious to health)	Containing about 11 grains per pint of boracic acid	Fined £2 and 12/6 costs
Llewellyn Jenkins, 15, Gt. Suffolk-street	Butter	94 per cent. of margarine	Fined £3 and 12/6 costs
Llewellyn Jenkins, 15, Gt. Suffolk-street	Margarine (exposed for sale unmarked)	Margarine	Ordered to pay 2/- costs
Llewellyn Jenkins, 15, Gt. Suffolk-street	Margarine (sold in an unmarked wrapper)	Margarine	Ordered to pay 2/- costs
Albert Joseph Clark, 13, Boundary-row	Milk	15 per cent. abstraction of cream	Fined £2 and 12/6 costs
Clara Clark, 13, Boundary-row	Milk	15 per cent. abstraction of cream	Withdrawn, 2/- costs. (This summons refers to the same sample as the preceding)
Rees Jones, 7, Meymott-street	Butter	100 per cent. margarine	Fined £20 and 12/6 costs
Magdalene Jenkins, 7, Meymott-street	Butter	100 per cent. Margarine	Withdrawn
Magdalene Jenkins, 7, Meymott-street	Margarine (sold in an unmarked wrapper)	Margarine	Withdrawn
Richard Wright, 103, Gt. Suffolk-street	Margarine (exposed for sale unmarked)	Margarine	Fined 10/- and 12/6 costs

These 3
sum-
monses
refer to
the same
sample

Name and Address of Vendor.	Sample.	Result of Analysis.	Result of Proceedings.
Rees Jones, 7, Meymott-street	Margarine (sold in an unmarked wrapper)	Margarine	Ordered to pay 2/- costs. (This summons refers to the same sample as the preceding)
Joseph Fogden, 103, Gt. Suffolk-street	Margarine (exposed for sale unmarked)	Margarine	Withdrawn. Note:—This summons refers to the same sample as the previous
Evan Rees, 84, Deacon-street	Butter	90 per cent. Margarine	Fined 40/- and 12/6 costs
Evan Rees, 84, Deacon-street	Margarine (sold in an unmarked wrapper)	Margarine	Withdrawn. Note: This summons refers to the same sample as the preceding
Taylor & Tasty, 176, Boro' High-street	Butter	92 per cent. Margarine	Dismissed. Defendant swore that a notice to the effect that slices were spread with a mixture of best Danish butter and margarine, although Mr. Weatheritt did not see the notice at the time of purchase
Louisa Griffiths, 176, Boro' High-street	Butter	92 per cent. Margarine	Withdrawn. This summons refers to the same sample as the preceding
Thomas Connor, 78, Tabard-street	Milk	5 per cent. of extraneous water	Fined £1 and 12/6 costs
George Rivers, 1, Gt. Suffolk-street	Milk	10 per cent. abstraction of cream	Fined £1 and 12/6 costs

MILKSELLERS.

During the year 1901 201 applications to be registered as Milksellers in the Borough were received at this office. The number of Milksellers actually on the Register at the end of the year was 426.

617 inspections of the various Milkshops were made during the year, and with the exception of the following seven instances the whole of the premises were found to be in a clean and satisfactory sanitary condition.

Locality of Premises.	Conditions complained of.
New Kent Road	Milk stored where likely to become contaminated.
Bagshot Street	
Broadwall	
Friar Street	Insanitary conditions.
Great Guildford Street	
Deverell Street	
Park Street	

The whole of the nuisances complained of were subsequently abated.

Proceedings taken under the Dairies, Cowsheds and Milkshops' Order, 1885.

The following are the particulars of two summonses taken out during the year for contraventions of the above orders :—

Name and Address of Vendor.	Offence.	Result of Proceedings.
David Davies, Salvation Army Shelter, Blackfriars-road	Not being registered as a milkseller in the Borough	Fined £1 and 2/- costs. In default 14 days imprisonment.
John Hall, 10, Kenwood-avenue, New Cross	Purveying milk whilst not registered as a milkseller in the Borough	Summons withdrawn.

SLAUGHTERHOUSES.

The number of Licensed Slaughterhouses in the Borough is seven. 41 inspections of these Slaughterhouses were made during the year, and upon every occasion the several premises were found to be in a good sanitary condition and no nuisance to exist.

The periodical lime-washing was found to have been duly carried out.

List of Licensed Slaughterhouses :—

Situation of Premises.	Name of Licensee.
129, Hillingdon Street ...	Charles Newbury
3, Lucas Road ...	Charles Skinner
70, Union Road ...	John Cuss
244, Walworth Road ...	Thomas Ferris
283-5, Walworth Road...	Alfred James Mitchell
146, Borough High Street ...	Frederick Redman
73, London Road ...	John Rowe

NOXIOUS TRADES.

There are eight premises in the Borough upon which noxious businesses or trades are carried on, as under :—

Situation of Premises.	Description of Business.	Names of Occupiers.
55, Union Street ...	Tripe boilers ...	W. Henson & Son
24 and 25, Great Suffolk Street	„ ...	J. Martin
329, Walworth Road ...	„ ...	J. L. Henson
Yard, Green Street ...	Knackers ...	Harrison, Barber & Co., Ld.
22, Suffolk Grove ...	Soap boilers ...	R. S. Cleaver & Sons
65, Blackman Street ...	Tallow melters ...	Carter & Shelley
33, Green Street ...	Gut manufacturers	W. Potier & Son
5, Hatfield Street ...	Fat melters ...	J. Ewen & Son

60 inspections of these premises have been made during the year.

The several businesses were found upon each inspection to be carried on in a satisfactory manner, and the premises were clean and in a proper sanitary condition, with the exception of one instance, as follows:—

Tripe Boilers ; vessels for receiving garbage defective.

A notice was accordingly served to provide proper vessels and this has been duly complied with.

COWHOUSES.

Several inspections have been made of each of the Cowhouses in the Borough during the year. At each inspection the premises were found to be in good condition and clean.

The following is a list of the Licensed Cowkeepers in the Borough:—

Situation of Premises.	Name of Occupier.
8, Alvey Street	Henry Drury
21, Globe Street	Herbert Jones
5, Holland Street	Sarah Ann Thompson
17, Mina Road	William Copps
10 and 11, Sturge Street	Jones & Perry
89, Red Cross Street	John Evans

SMOKE NUISANCES.

During the year 1901 32 complaints as to alleged nuisance from smoke were received at the Public Health Office. The locality of the premises complained of was as follows:—In St. Mary's Ward 4, St. Paul's Ward 2, St. John's Ward 1, St. Michael's Ward 4, Christchurch Ward 2, and St. Saviour's Ward 19.

75 observations were made by the Council's Inspector at various periods during the year, and nuisances were found to exist in 12 instances. Notices were accordingly served as follows:—

Situation of Premises.	Intimation notices served.	Statutory notices served.
Princess of Wales Theatre	1	—
Premises at side of St. Saviour's and St. Olave's School, New Kent Road	1	—
Old Barge House Wharf	1	—
22, Southwark Bridge Road	2	—
Horse Shoe Wharf, Clink Street	1	—
56-58, Sumner Street	1	—
62, Park Street	1	—
City of London Electric Lighting Co.'s Works, Bankside	3	3
S.E. Railway Co.'s Shed, Clink Street ...	1	—
Total	12	3

In each instance the nuisance complained of was abated.

BAKEHOUSES.

There are 126 Bakehouses situate in the Borough as follows :—

TABLE 39.
Locality of Bakehouses in Wards.

St. Mary's Ward.	St. Paul's Ward.	St. Peter's Ward.	St. John's Ward.	Trinity Ward.	All Saints' Ward.	St. Michael's Ward.	St. Jude's Ward.	St. George's Ward.	Christ-church Ward.	St. Saviour's Ward.	Total.
9	11	16	13	12	11	17	7	19	7	4	126

During the year 1901 the number of inspections of Bakehouses made was 411, in the several Wards as under :—

TABLE 40.
Inspections of Bakehouses.

St. Mary's Ward.	St. Paul's Ward.	St. Peter's Ward.	St. John's Ward.	Trinity Ward.	All Saints' Ward.	St. Michael's Ward.	St. Jude's Ward.	St. George's Ward.	Christ-church Ward.	St. Saviour's Ward.	Total.
20	39	56	42	38	25	48	27	65	33	18	411

Defects were found to exist in 64 instances, and notices were accordingly served to abate the nuisances complained of :—

TABLE 42.—Continued.

ADDRESS.	Position of Bakehouse, above or under ground.	Description of floor: concrete, flagging, or wood.	Are the walls cemented up to a height of 4 ft. 6 in. from the floor, or brick, or plastered, or wood?	Are the troughs on Casters?	Is there a closet in direct communication with the Bakehouse?	Is the cistern supplying the water to the Bakehouse separate from any cistern supplying water closets?	Is there any drain opening within the Bakehouse?	Is the Bakehouse interior painted or limewashed?	Is there any sleeping place on a level with the Bakehouse not constructed according to the Act?	Means of ventilation: permanent or otherwise.	Can the work in the Bakehouse in the daytime be carried on without the aid of artificial light?	Is the bread made by hand?	Are there any animals, such as dogs or fowls allowed in the Bakehouse? If so state what they are.	Any evidence of beetles or cockroaches.	State of Bakehouse as to cleanliness: clean or foul.

21, Westmoreland Road	Above ground	Concrete	Cemented	Yes	No	Yes	No	Limewashed	No	Window	Yes	Yes	No	No	Clean
32, Westmoreland Road	Above ground	Wood	Cemented & Brick	1 of 2	No	Yes	No	Limewashed and painted	No	Skylight	Yes	Yes	No	No	Clean
61, Westmoreland Road	Above ground	Concrete	Bricks	No	No	Yes	No	Limewashed	No	Windows	Yes	Yes	No	Yes	Clean

* Note:—These premises have never been used as a bakehouse since they were built in 1898.

The state of foulness referred to in this Report on Bakehouses means that the ceilings and walls needed Limewashing, &c., on a letter being sent pointing out this condition the necessary cleansing was at once carried out.

MORTUARIES.

During the year 420 bodies were received into the several Mortuaries :—

Reasons bodies were brought to Mortuary.	Collier's Rents Mortuary.	Ewer Street Mortuary.	Manor Place Mortuary.	Total.
