A black and white micrograph showing a highly porous, interconnected network of fibers or filaments. The structure consists of numerous small, irregularly shaped voids or cells, creating a complex, sponge-like appearance. The fibers are thin and dark against a lighter background. In the lower center of the image, there is a scale bar consisting of a horizontal line with a small vertical tick at its right end, followed by the text "1000 Å". The entire image is framed by a dark border, and there are some dark artifacts at the top corners, possibly from the scanning process.

1000 Å
