To Steadiness of Temper,
1000 Potash & Calcii Chloridum
are used; three of former & 100
of latter are the Potash used.

Stable Essence of Lemon is made
in the same way. The Potash used
for a Gallon of Stable Essence are
3000 Grains of Potash & Calcium
and $1\frac{1}{2}$ oz. of Potash & Soda
12 lb. sufficient Carbonate of Potash
neutralize. The same will be found
of Bicarb. Potash - 12 lb. and Carbonate
of Soda may be used.

192/38. *Oxford*.—The Sausage-flavourings are too complex to give anything more definite than what is suggested by physical examination. The “special” flavouring contains powdered cinnamon-bark. A very good formula is

White pepper	8	oz.
Jamaica pepper	3	oz.
Black pepper	1½	oz.
Ginger	1½	oz.
Capsicum	1	oz.
Mace	½	oz.
Cloves	40	grains

All in fine powder.

(4) Messrs. Parke, Davis & Co. make a black-leg vaccine. You can get all particulars from them.

216/66. *Heroin*.—We cannot undertake to find out for subscribers what words are registered as trade-marks, or to select for them names for specialities. As a rule it is advisable to associate the name of the maker with the preparation.

206/32. *H. B. R.*—*Manufacture of Lakes*.—Consult either of the following works : Hurst's "Painters' Colours etc." (J. Griffin & Co.), or Jennison's "Manufacture of Lake-pigments" (Scott, Greenwood & Co., 7s. 6d.).
