**Testimonials.**

From Miss ELAM, Thorn's Hall, Scarborough, Yorks. October 24th, 1882.  
 "Miss Elam encloses a Post Office Order for 12s. 6d., and will thank Mr. Harness to send her a pair of the Electric Socks for a friend, size No. 2. Since Miss Elam has been wearing these sent, she finds her feet are wonderfully warm and comfortable. She had previously suffered much from cold feet."

From T. L. SNELLING, Esq., Royal Hotel, Ross, Herefordshire, September 14th, 1882.  
 "I have had one of your Galvanic Generators, and a pair of your Electric Socks, from which I have experienced very great relief."

**POSITIVE REMEDY**

**FOR CHILBLAINS & COLD FEET.**

**Testimonials.**

From Rev. R. TAYLOR, Twyford Vicarage, Melton Mowbray.  
 "Gentlemen,—Please send me circular of Dr. Scott's Electric Flesh Brush and appliances for the arms when afflicted with shaking or tremulousness. I recommended your Socks to a lady, who has found great benefit in them. Yours truly,  
 R. TAYLOR."

From T. J. BLAKE, Esq., St. James' Terrace, Buxton, Derbyshire, June 27th, 1882.  
 "On Wednesday last I purchased a Generator, and Pair of Electric Socks, and am quite satisfied there is a great virtue in the application of them, and now enclose the size required for a pair for my wife and a cheque for 12s. 6d. The Socks are a remarkable cure."

**T**HE celebrated DR. BOERHAAVE declared that the quintessence of all medical science is, "To keep your head cool and your feet warm." It is indisputable that the latter desideratum can best be obtained by electric currents. Attempts have been made to protect the feet from cold and damp by cork socks, felt, flannel, and other non-conductors of heat. Such socks answer their purpose under certain conditions, viz., when the boots are perfectly water-tight, and even then, only as long as they do not get damp by perspiration do they prevent the heat which is actually in the body from escaping; in short, though they can to a certain extent preserve the existing heat, they cannot generate it.

The **ELECTRICPATENT SOCKS** create a constant electro-magnetic current, producing, according to physical laws, a high degree of warmth. The **SOCKS** are simply put inside the shoes or boots, and after wearing them a short time a continued and most beneficial warmth penetrates the body. If the **SOCKS** have become perceptibly damp, they must be dried again, which will only take a short time.

The **ELECTRICPATENT SOCKS** produce a current acting congenially on the body, and is far superior to the prickling and disagreeable influence of an induction coil. Against spinal complaints, the first symptoms of which are numbness of the feet and prickling sensation (so-called "pins and needles,") they act very effectively, the electric current influencing the spinal cord through the peripheric ends of the nerves.

**ELECTRIC SOLES** should be worn by those who have Rheumatic or Gouty Affections in the feet, or are liable to coldness or **CHILBLAINS** in those parts. The circulation is at once stimulated, and an agreeable warmth diffused.

**Importance of Wearing Electricpatent Soles.**

Few are conscious of the very great advantage of wearing under the feet a medium that will not only prevent the abstraction of electricity by the cold earth, but will at the same time generate in the feet those electric currents on which warmth depends.

*A pair of Electricpatent Socks forwarded, post free, on receipt of Post Office Order or Cheque for 12/6, made payable to C. B. HARNESSE, Managing Director,*

**PALL MALL ELECTRIC ASSOCIATION,**  
 Limited,  
 21, HOLBORN VIADUCT, LONDON, E.C.,  
 Or ask your Chemist to get a pair for you.

In ordering the **ELECTRICPATENT SOCKS** a paper pattern showing the exact size of the foot should be forwarded.

**Testimonials.**

From an Eminent Authority who does not wish his name to appear.

The testimony of one of my patients in whom I have implicit confidence is so undeniable, that I have unhesitatingly recommended, in cases of Acute Gout, the use of the Electricpatent Socks. The principle upon which the Socks are made is strictly in accordance with my theory of its successful application, and is a most ingeniously agreeable mode of conducting the vital power required.

Space forbids our publishing innumerable letters of praise and gratitude from those using these Socks. On application we will send Pamphlet of Testimonials to any address post free.

**Testimonials.**

From Dr. C. Lempiere, D.C.L., &c.

St. John's Col., Oxford, Jan. 20, 1882.

Your Electricpatent Socks are indeed a wonder and a solace to those suffering from Gout, and another proof of the great future which is open to the scientific development of Electricity.

30, Clumber St., Nottingham, July 3rd, 1882.

Dear Sir,—A customer of mine having purchased two pairs of Electric Soles for the Rheumatics, informs me they have done him great service, kindly give me wholesale terms as I am having several enquiries for them.

Yours faithfully,  
 T. G. ARIS, Chemist.
