On the back of this Circular you will find printed a PRIVATE ADVICE FORM. If you fill it up and return it, the Consulting Electrician of the Association will give you ADVICE FREE, on all matters relating to Health and the application of Curative Electricity.

A REMARKABLE ENGLISH INVENTION.

THE LONDON GALVANIC GENERATOR.

A ROYAL REMEDY

NOW OFFERED TO THE WORLD BY THE

Pall Mall Electric Association Limited, London.

A GREAT revolution in medical practice has spread throughout the world. It has been discovered that most remarkable cures attend the application of the newly invented Galvanic Generator to diseased parts of the body. Experience has shown that it acts immediately upon the blood, nerves and tissues, producing more relief in a few hours than medicine has given in weeks and months. There is no shock or unpleasant feeling attending its use, and it can be worn day or night, interfering in no way with the dress or occupation of daily life. Full directions accompany each one. Every post brings us most gratifying letters from those using it.

The Generator Quickly Cures

Stomach, Liver, and Kidney Complaints, Constipation, Debility, Heartburn, Rheumatism, Weak Stomach, Dyspepsia, Aches and Pains, Weak Back, Malaria, Chills and Fever, Nervous Troubles, Sciatica, Vertigo, Indigestion, and all their complications.

There is no waiting. It acts immediately. Money returned if not as represented.

This GENERATOR being Patented in Great Britain, United States of America, France, Belgium, Germany, Austria, and other Countries, this Association gives notice that it will spare no expense to prosecute any Manufacturer, Wholesale Dealer, or other persons infringing their Patent Rights, Registration, or Copyrights.

CAUTION.—A Liberal Reward will be Paid to anyone reporting to the Association any infringement, upon conviction.

DIRECTIONS FOR USE.

For Rheumatism, Dyspepsia, Heartburn, Flatulency, Weak Stomach, Debility, Vertigo, Indigestion, Constipation, and their complications, wear the Generator over the stomach; but for Lumbago, Sciatica, Aches and Pains, Liver and Kidney Complaints, wear it in the locality of affected parts, where possible.

When necessary to Cleanse the Generator, rub the metal bright with a cotton or woollen cloth.

NO TWO PERSONS SHOULD WEAR THE SAME GENERATOR.

TESTIMONIALS.

From B. Bingham, Gringley, Bawtry, Jan. 13, 1882.—Dear Sir,—The Galvanic Generator has taken away the pain of the individual I proctored it for. I have application for two more; when it becomes known, believe I shall have more applications. Enclose stamps. Kindly send these at once. Yours, &c., B. BINGHAM.

From H. S. McKay, 39, Charles Street, Aberdeen, N.B., January 19, 1882.—Dear Sir,—Your Galvanic Generator came promptly to hand, and I am glad to say had good effect in a very short time. It is a grand invention. Please send me another, and an Electric Tooth Brush by return of post, for which find enclosed 8s. 6d. These are for my own family.—Yours very truly, H. S. M'KAY.

From Miss Monro, Altyferin, Nantgarid, Caernarvon, July 19, 1882.—Dear Sir,—I feel it is only right to inform you of the great relief she has experienced by wearing the "Galvanic Generator," she had from you a few months ago. She had suffered severely from pains in the chest, side, and under each shoulder, and rarely, if ever, was free from such pains for a whole fortnight together, but since wearing the "Generator" on her chest she has been quite free from pain for four months. Please send her by return of post "Dr. Scott's Electric Hair Brush" for which she encloses 12s. 6d. Mr. C. B. Harness, 21, Holborn Viaduct, E.C.

From Samuel Smith, 3, Arthur Street, Waterhouse, July 19, 1882.—Dear Sir,—I have written to you before this, I sent for a Generator for one James Smith, and a pair of Electropathic Socks for John Pallister, men who did not work much more than half-time before they wore your Generator and Socks, and now are at work every day, and feel very grateful to you. I got a Generator from you last week for another friend, and it is already doing him good. I now enclose you P.O.O. for 8s. 6d.—Yours truly, SAMUEL SMITH, Pall Mall Electric Association Limited, 21, Holborn Viaduct, E.C.

From T. E. Beck, Long Street, Atherstone, June 18, 1882.—Sir,—Having received as much benefit from your

Galvanic Generator; I shall feel obliged if you will please to forward me another. I enclose stamps 5s. 6d.—Yours respectfully, Mr. Harness, T. E. BECK, Pall Mall Electric Association Limited, E.C.

From E. M. Robinson, 4, Royal Terrace, The Lees, Folkestone, June 13, 1882.—Sir,—A month ago I bought one of your Galvanic Generators, and it has done my back more good than anything else I have tried. The little ring has broken; please let me know by return if it can be repaired. Yours truly, E. M. ROBINSON, C. B. Harness, Esq.

From Mrs. Hughes, 2, Segontium Road, Caernarvon, N. Wales.—Please send me another Galvanic Generator, for which I enclose 5s. 6d. The one you sent a few days ago has improved my digestion already. Pall Mall Electric Association Limited.

From A. McCarmel, Crows Hall, Debenham, near Stoneham, Suffolk, June 9, 1882.—Dear Sir,—With much pleasure and satisfaction I have to inform you that I have derived very great benefit from wearing the Galvanic Generator I purchased of you about three months ago. If you will kindly send me a few circulars I will show them to my friends and do my very best to make the remedy known. Yours very truly, A. MCCARMEY, Mr. Harness, 21, Holborn Viaduct.

From John Wm. Raine, Wetherby Union, near Tadcaster, Yorks, April 7, 1882.—Sir,—Be good enough to send me another of your Galvanic Generators. The one I got about six weeks ago answers the purpose admirably, in fact I cannot speak too highly of it for a torpid liver.—I am, Sir, yours faithfully, JOHN WM. RAINE.

From Thos. Clarkson, Silver Street, Ruth, Richmond, Yorks.—Gentlemen,—Please forward to address as under one of Dr. Scott's Electric Hair Brushes for which I enclose P.O.O. for 12s. 6d. I had one of the Generators, which has been of very great benefit to me. Respectfully yours, THOS. CLARKSON, Pall Mall Electric Association Limited, 21, Holborn Viaduct, E.C.

From H. Woolwright, Berkeley Lodge, near Faversham, July 17, 1882.—Dear Sir,—I bought a Galvanic Generator from Mr. Edward Bing, Chemist, Canterbury, and cannot speak too highly of it. I applied it Friday morning, taking it off in the evening, and have repeated it each day since, and wonderful to say, it has completely cured me. I felt better from the first hour, and now I am quite free from pain or inconvenience. For years my back and bones, extending to my hips, have been a trouble to me, and recently I have thought I must become a fixture in my chair, as it has been hard work, and painful to me, to raise myself to my feet. In fact, I have shopped at times, but now can raise myself perfectly easily, in fact, as well as ever, and I feel my strength increasing. It is a wonderful discovery, and cannot be too widely circulated, so simple, so cheap, and so convenient, surely no person ought to be without one. I have no doubt of its efficiency in all cases where the nerves and muscles are affected.—Believe me, my dear Sir, yours very truly, H. WOOLWRIGHT, C. B. Harness, Esq., 21, Holborn Viaduct, E.C.

From A. J. Holbourne, Capt. R.A., Ormonds, Lostwithiel, Cornwall, January 22nd, 1883.—Dear Sir,—When I wrote you last I told you I had gone in for a Galvanic Generator, and you were kind enough to inform me that as I had already purchased one of your 6s. Belts, I should not find much use for the smaller article, and I accordingly put it away as a reserve for any susceptibility that might arise. My wife had suffered for some years from a pain in the back, more particularly when in bed, and it was so bad sometimes that she couldn't turn without assistance. A day or two after my Generator arrived she had one of these bad turns, and it struck me that perhaps the opportunity for testing its virtues had arrived. I accordingly asked my wife to try it, and as a dutiful wife (not under the new Act) she did so; the pain immediately disappeared, and, up to date not a sign of it has returned. So my investment turned out a lucky one—no doctor's bills with their professional attendance and muck, *adus* medicine, 10s.—and bread and

cheese for two, 21s.—oh, no, my little Generator saved me all that. Wishing you every success to your inventions—they richly deserve it.—Believe me, &c.

From John Tinsley, Esq., Chase Town, near Walsall, November 13th, 1882.—I purchased one of your Galvanic Generators a week ago, and received so much benefit that I told my neighbours about it. They were so impressed with my story that they got me to write for five more which came safely to hand; and I now write to say they are all satisfied with them. As for myself, I was always in pain between the shoulders, but since I have worn the Generator I have scarcely felt any at all. I enclose 12s. 6d. for one pair of your Electric Socks, which are for myself, as I am troubled with rheumatism in my legs; my feet are always cold, and I am told these will relieve me.

From W. Leadley, Shenley Hill, Barnet, Herts.—I have found great benefit in wearing your Galvanic Generator. It has taken away much stiffness and pain, and I have recommended it to several friends. Please send me Dr. Scott's Electric Hair Brush, for which I enclose P.O.O., 12/6.

From J. J. Gilks, 31, Stanley Street, Leicester, May 25th, 1882.—Will you kindly inform me if I am right in wearing the Galvanic Generator on the bare flesh, or should I wear it over one course of linen. I may say I have felt the benefit already. (Answer to this question)—To be worn next the skin.)

From Mr. William Vernon, 47, Castle Street, Hinckley, Leicestershire, July 3rd, 1882.—Dear Sir,—Your Galvanic Generator has proved a great success in the case of my mother, who has suffered of late years with her stomach. It has also twice proved successful in curing the Toothache. Kindly send me one of your Patent Electric Tooth Brushes.

From M. Moorduff, 10, Church Street, Worthington, May 11th, 1882.—I enclose 5s. 6d. in stamps for another Galvanic Generator. I have derived so much benefit from wearing the one you sent me. I have recommended it to a friend who wishes to try it for headache.

We could fill many pages with similar letters which have been voluntarily sent to us by those using the Generator, but we feel confident that the above are quite sufficient to convince any fair-minded person that this article has real merit, and will do all we claim for it. Many persons have bought cheap toy "Batteries" and "Medals" and found no relief. These should not be confused with this Genuine English Invention of "The Pall Mall Electric Association." If you have bought any of these imitations thinking it to be the London Galvanic Generator, you have been imposed upon.

PRICE FIVE SHILLINGS & SIXPENCE. For Sale by all First-Class Drug or Fancy Stores throughout the World, or can be obtained of the

PALL MALL ELECTRIC ASSOCIATION, LIMITED, 21, HOLBORN VIADUCT, LONDON, W.C.

Who will send it Post Paid to parties living in the Country, on receipt of 5/6. Remittances can be made in Currency, Stamps, Post Office Orders, or Drafts, payable to C. B. HARNESS, Managing Director, 21, Holborn Viaduct, London, E.C.

Proprietors and Manufacturers of DR. SCOTT'S ELECTRIC HAIR BRUSHES, DR. SCOTT'S KLESH BRUSH, and the ELECTRIC TOOTH BRUSH.—Circulars Post Free.

Send for Circulars of the PATENT ELECTROPATHIC SOCKS, for Sciatica, Gout, &c.

Abstainer or otherwise :—	
Measurement round Waist, Hips, and Chest :—	

1.—The Consulting Medical Electrician of the Association, advises in every case, on behalf of the Association, without charge, and will be greatly assisted in forming a clear idea of the patient's requirements by receiving the particulars indicated under the different headings stated as explicitly as possible. Compliance with these suggestions will often prevent delay and disappointment.

2.—During a prolonged experience in the treatment of intricate and obscure affections, often of the most delicate character, he has frequently found that nervous delicacy has deprived him of full information; he would therefore recommend correspondents to communicate freely, and without reserve, every communication with which he is favoured being regarded as strictly confidential. In some instances, special permission is given to use a statement respecting successful treatment.

3.—A letter has often been of more service to the patient and value to the

practitioner than a personal consultation, enabling the writer to state unreservedly minute details, which might be overlooked by nervous patients in the natural agitation and diffidence of an interview.

4.—The interest which former patients evince in favour of Electropathy has proved sufficient to inspire confidence in others. By this means its reputation has been so far extended that the "Electropathic" treatment as introduced by THE PALL MALL ELECTRIC ASSOCIATION, LIMITED, has obtained a well established reputation, and is superseding all other methods of combating disease.

5.—Explain any point not included in the foregoing inquiries, but which should be known as a condition of, or helping towards, successful treatment.

6.—Future reference by letter to this case should have its folio number prefixed.

An Eighty-page Treatise, copiously illustrated, entitled "ELECTROPATHY: OR, DR. SCOTT'S GUIDE TO HEALTH"
(published at One Shilling), post free on receipt of Six Penny Stamps.

PALL MALL ELECTRIC ASSOCIATION, LIMITED, 21, HOLBORN VIADUCT, LONDON, E.C.
