Letters weighing not above ½-oz. ..... 1*d.*
" above ½-oz. but not above 1 oz. 2*d.*
" " 1 oz. " 1½ oz. 3*d.*

and so on; one penny being charged for every additional ½-oz or fraction of ½-oz.†

The postage, if not prepaid, is double the foregoing; and if the payment in advance be insufficient, double the deficiency is charged.

Petitions and Addresses to Her Majesty, Petitions and Addresses to either House of Parliament, if sent to a member of either House, are exempt from postage, provided they do not weigh more than two pounds, and are without covers, or in covers open at the sides.

POST-CARDS, which bear a half-penny impressed stamp, are available for transmission between places in the United Kingdom.

POSTAGE STAMPS.—Every head Postmaster is required to have on hand a stock of half-penny Post Cards, Postage Labels, and Embossed Penny Envelopes.

Rural messengers are also authorised and required to do the same.

The present LABELS are of the respective values of ½*d.*, 1*d.*, 1½*d.*, 2*d.*, 3*d.*, 4*d.*, 8*d.*, 6*d.*, 10*d.*, 1*s.*, 2*s.*, and 5*s.*

EMBOSSED PENNY ENVELOPES are sold at the following rates:—

1 for 1½*d.*	3 for 3½*d.*	6 for 6½*d.*	12 for 1*s.* 1*d.*
2 " 2½	4 " 4½	8 " 8½	24 " 2 2

The Envelopes are made of four sizes, viz. 5¼ ins. × 3⅜ ins., 5¼ ins. × 3 ins., 4⅜ ins. × 2⅞ ins., and 4 ins. × 2½ ins.

* Inland Letters are those which pass between places in the United Kingdom, including the Orkneys, Shetland, Scilly, the Channel Islands, and the Isle of Man.

† Rates proposed to be established under the scheme submitted by the Postmaster General to Parliament on the 14th of March, 1871:—

LETTERS AND PARCELS.—Not exceeding 1 oz. 1*d.*; 1 oz. but not above 2 oz. 1½*d.*; 2 oz. but not above 4 oz. 2*d.*; 4 oz. but not above 6 oz. 2½*d.*; 6 oz. but not above 8 oz. 3*d.*; 8 oz. but not above 10 oz. 3½*d.*; 10 oz. but not above 12 oz. 4*d.* No letter or parcel to exceed 12 oz. in weight.

BOOK PACKETS.—No change is proposed in the rates of postage on Book Packets.

PATTERNS AND SAMPLES.—It is proposed that the special rates and regulations for Patterns and Samples be abolished, and that these articles be transmissible under the same rates and regulations as Letters and Parcels.

The prepayment of Inland Letters, Newspapers, Patterns, &c. can only be made in money, at the Chief and District Offices, London, and at the Branch Offices at Lombard Street and Charing Cross, and also at the Metropolitan Offices at Edinburgh and Dublin, from 10 A.M. to 4 P.M., when the postage amounts to not less than £1. The Letters, Books, &c. to be tied up in bundles representing 5*s.* each.

The Tables given for Foreign Postage Rates (pp. 28–9) afford some of the most important particulars as to newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

BOOK AND CIRCULAR POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. The postage must be prepaid by affixing Postage Stamps, or by using a stamped wrapper. If not paid, the deficiency and an additional rate will be charged. If without Postage Stamps, the packet is charged with double the Book Postage.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 14 pounds in weight, 2 feet in length, or 1 ft. in width or depth.

BOOKS, &c. FOR THE COLONIES.—The rates of postage of Book Packets and Printed Papers of every kind may be ascertained by reference to pp. 28–29.

The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

INLAND PATTERN AND SAMPLE POST.—The following are the rules of the Inland Pattern and Sample Post:—

The Postage is ½*d.* for every weight of 2 ounces or fraction of that weight. No packet of patterns or samples must exceed 12 ounces in weight, or 2 feet in length by 1 foot in width or depth.

The postage must be prepaid by means of postage stamps, or by means of a stamped wrapper, except in London at the Chief and District Post Offices and the Branch Offices at Lombard Street and Charing Cross, where, from 10 A.M. to 4 P.M., patterns may be prepaid in money, provided the amount be not less than £1 in any one case, and that the patterns be tied in bundles representing postage to the amount of 5*s.* each.

The patterns or samples must be sent in covers open at the ends, or in such a manner as to be easy of examination.

If a packet of patterns or samples be posted altogether unpaid, it is charged

with double the postage which should have been prepaid. If a portion of the postage be prepaid, the packet is charged with the amount of the deficiency, together with an additional rate of one penny.

POSTAL DISTRICTS, &c.—London and its environs are divided into Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N	Eastern	E.
North Western	N.W.	East Central	E.C.
South Eastern	S.E.	Western	W.
South Western	S.W.	West Central	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily:—The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 9.45 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7 45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are seven despatches daily to the Suburban districts.

REGISTRATION:—Any letter, newspaper, book, or packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom or the British Colonies, by the prepayment of a fee of 4*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Registration of Inland Letters, containing coin, is compulsory.

A Registered Letter must be posted half an hour before the closing of the box for the Mail by which it is to be despatched.

The DISTRICT COURTS OF BANKRUPTCY are abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8. and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her separate and especial use.

DIRECTIONS FOR MAKING A WILL.—A Will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain, but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS,

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c. for railroads, as they may be used even in wet weather and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing, and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

and so on; one penny being charged for every additional ½-oz. or fraction of ½-oz.

A letter above 12 oz. is charged with a postage of 1*d.* for every ounce, beginning with the first ounce. A letter posted unpaid is chargeable with double postage; and a letter insufficiently prepaid is chargeable with double the deficiency.

No letter may exceed the dimensions of eighteen inches in length, nine in width, and six in depth.

Petitions and Addresses to Her Majesty, and Petitions and Addresses to either House of Parliament, if sent to a member of either House, are exempt from postage, provided they do not weigh more than two pounds, and are without covers, or in covers open at the sides.

POST-CARDS, which bear a half-penny impressed stamp, are available for transmission between places in the United Kingdom. The front side is intended for the address only.

On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed; but such communication must not extend to the front side.

POSTAGE STAMPS.—Every head Postmaster is required to have on hand a stock of half-penny Post Cards, Postage Labels, and Embossed Penny Envelopes. The present LABELS are of the respective values of ½*d.*, 1*d.*, 1½*d.*, 2*d.*, 3*d.*, 4*d.*, 6*d.*, 9*d.*, 10*d.*, 1*s.*, 2*s.*, and 5*s.*

EMBOSSED PENNY ENVELOPES are sold at the following rates:—

2 ,, 2¼	4 ,, 4½	8 ,, 8¾	24 ,, 2 2

* Inland Letters are those which pass between places in the United Kingdom, including the Orkneys, Shetland, Scilly, the Channel Islands, and the Isle of Man.

The Envelopes are made of four sizes, viz. 5¼ ins × 3⅝ ins., 5¼ ins. × 3 ins., 4⅝ ins. × 2⅞ ins., and 4 ins. × 2¼ ins.

The prepayment of Inland Letters, Newspapers, and Book Packets can only be made in money, at the Chief and District Offices, London, and at the Branch Offices at Lombard Street and Charing Cross, and also at the Metropolitan Offices at Edinburgh and Dublin, from 10 A.M. to 4 P.M., when the postage amounts to not less than £1. The Letters and Book Packets to be tied up in separate bundles representing 5*s.* each.

Postmasters at whose Offices Money Order business is transacted, are permitted to purchase Postage Stamps from the public, not soiled or otherwise damaged, at a charge of 2½ per cent.; the charge, however, never being less than one halfpenny. Under this arrangement the payments are as follows:—

For Stamps not exceeding 1*s.* 8*d.* in value, the full price minus ½*d.*

,,	above 1*s.* 8*d.*	but not exceeding	3*s.* 4*d.*	the full price minus	1*d.*
,,	,, 3*s.* 4*d.*	,,	5*s.*	,, ,,	1½*d.*

,,	,, 6*s.* 8*d.*	,,	8*s.* 4*d.*	,, ,,	2½*d.*

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

Newspapers must not exceed 14 lbs. in weight, nor two feet in length, or one foot in width or depth.

BOOK AND CIRCULAR POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. The postage must be prepaid by affixing Postage Stamps, or by using a stamped wrapper. If not paid, the deficiency and an additional rate will be charged. If without Postage Stamps, the packet is charged with double the Book Postage.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, and six inches in depth.

BOOKS, &c. FOR THE COLONIES.—The rates of postage of Book

Packets and Printed Papers of every kind may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western	N.W.	East Central	E.C.
South Eastern	S.E.	Western	W.
South Western	S.W.	West Central	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily:—The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 8.15 A.M., the third at 10.30 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, book, or packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom or the British Colonies, by the prepayment of a fee of *4d.* This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Registration of Inland Letters, containing coin, is compulsory. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of a late fee of fourpence, Letters may be Registered until the closing of the letter-box for each despatch.

Local Bankruptcy Courts.

The District Courts of Bankruptcy were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the County Court of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her separate and especial use.

DIRECTIONS FOR MAKING A WILL.—A Will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain, but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS,

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c. for railroads, as they may be used even in wet weather and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing, and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

SCOTTISH PROVIDENT INSTITUTION,

ITS ADVANTAGES, as compared with other Offices, are—

A greatly larger immediate assurance for the same premium, with the prospect to good lives (for whom exclusively the whole profits are reserved) of eventually receiving very considerable additions.

THE PREMIUMS are so moderate that at most ages an assurance of 1200*l.* or 1250*l.* may be secured from the first for the same yearly payment which would elsewhere assure 1000*l.* only.

The whole PROFITS go to the Policy-holders, on a system at once safe, equitable, and favourable to good lives—no share being given to those by whose early death there is a *loss*. The effect of reserving the surplus for the survivors (who will, however, comprise more than half the members) has been that policies for 1000*l.* have already been increased to 1400*l.*, 1600*l.*, and even to 1800*l.*

The FUNDS, accumulated entirely from the premiums, are securely invested, chiefly on mortgage of lands and other non-fluctuating securities. The amount —above TWO MILLIONS—is larger (notwithstanding the lowness of the premiums) than that of any Office, of the same age, in the Kingdom. The increase during the last three years was 400,000*l.*

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c, posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

Newspapers must not exceed 14 lbs. in weight, nor two feet in length, or one foot in width or depth.

BOOK AND CIRCULAR POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c. FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper,

and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western	N.W.	East Central	E.C.
South Eastern	S.E.	Western	W.
South Western	S.W.	West Central	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily:—The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M; the second about 8.15 A.M, the third at 10.30 A.M, and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, book, or packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom or the British Colonies, by the prepayment of a fee of 4*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Registration of Inland Letters, containing coin, is compulsory. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of an additional late fee of fourpence at the Chief Offices, Letters may be Registered until the closing of the letter-box for each despatch.

Local Bankruptcy Courts.

The District Courts of Bankruptcy were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the County Court of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8. and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her separate and especial use.

DIRECTIONS FOR MAKING A WILL.—A Will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer

high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6 Very dark clouds, when the Barometer is high, pass over without rain, but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS,

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c. for railroads, as they may be used even in wet weather and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing, and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

THIS SOCIETY differs in its principles from any other Office. Instead of charging rates admittedly higher than are necessary, and afterwards returning the excess, in the shape of periodical Bonuses, it gives from the first as large an Assurance as the Premiums will with safety bear—reserving the Whole Surplus for those Members (who will form a majority of the whole) who have lived long enough to secure the Common Fund from loss.

A Policy for £1200 to £1250 may thus at most ages be had for the Premium usually charged for £1000 only; while, by *reserving* the surplus, large additions have been given—and may be expected in the future—on the Policies of those who live to participate.

ITS TERMS are thus well calculated to meet the requirements of intending Assurers. They are specially adapted to the case of Provisions under Family Settlements, or otherwise, where it is frequently of importance to secure, for the smallest present outlay, a competent provision, of definite amount, in the case of early death.

FINANCIAL POSITION.

NEW BUSINESS in year 1873, 1745 Policies issued for **£980,560.**
SUBSISTING ASSURANCES, 18,059 Policies for **£8,903,358.**
THE REALIZED FUND, accumulated entirely from the Premiums, amounted to **£2,253,175**—the increase in the year being **£203,354.** Notwithstanding its low rates, no Office of the same age has so large a Fund, or shows so large an increase from year to year.

EXAMPLES OF ANNUAL PREMIUM BY DIFFERENT MODES OF PAYMENT for assurance of £100 at death (with profits).

Age.	Payable during life.	Premiums limited to 20 payments.	Premiums limited to 10 payments.
25	£1 18 0	£2 13 8	£4 5 7
30	2 1 6	2 16 8	4 10 3
35	2 6 10	3 1 6	4 17 7

45	3 5 9	3 19 0	6 1 2
50	4 1 7	4 13 8	6 19 7

INTENDING ASSURERS are invited to compare these rates with the corresponding scales of other Offices.

No letter may exceed the dimensions of 18 inches in length, 9 in width, or 6 in depth.

Petitions and Addresses to Her Majesty, and Petitions and Addresses to either House of Parliament, if sent to a member of either House, are exempt from postage, provided they do not weigh more than two pounds, and are without covers, or in covers open at the sides.

POST-CARDS, which bear a half-penny impressed stamp, are available for transmission between places in the United Kingdom. The front side is intended for the address only. On the reverse side any communication, whether of the nature of a letter or otherwise, may be written or printed; but such communication must not extend to the front side. Post Cards are not sold singly, but in packets of 12 for 6½*d.*

* Inland Letters are those which pass between places in the United Kingdom, including the Orkneys, Shetland, Scilly, the Channel Islands, and the Isle of Man.

The prepayment of Inland Letters, Newspapers, and Book Packets can only be made in money at the Chief and District Offices, London, and at the Branch Offices at Lombard Street and Charing Cross, and also at the Metropolitan Offices at Edinburgh and Dublin, from 10 A.M. to 4 P.M., when the postage amounts to not less than £1. The Letters and Book Packets to be tied up in separate bundles of 60, with the addresses arranged in the same direction.

Postmasters at whose Offices Money Order business is transacted are permitted to purchase Postage Stamps from the public, not soiled or otherwise damaged, at a charge of 2½ per cent.; the charge, however, never being less than one halfpenny. Under this arrangement the payments are as follows:—

For Stamps not exceeding 1*s.* 8*d.* in value, the full price minus ½*d.*

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

Newspapers must not exceed 14 lbs. in weight, nor two feet in length, or one foot in width or depth.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.

2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.

3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.

4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.

5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c. FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper,

and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western	N.W.	East Central	E.C.
South Eastern	S.E.	Western	W.
South Western	S.W.	West Central	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily:—The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 8.15 A.M., the third at 10.30 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, book, or packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom or the British Colonies, by the prepayment of a fee of 4*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Registration of Inland Letters, containing coin, is compulsory. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of an additional late fee of fourpence at the Chief Offices, Letters may be Registered until the closing of the letter-box for each despatch.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her separate and especial use.

DIRECTIONS FOR MAKING A WILL.—A Will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain, but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS,

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c. for railroads, as they may be used even in wet weather and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing, and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

LAMPLOUGH'S PYRETIC SALINE.

Have it in your houses, and use no other.

For it is the only safe antidote in Fevers, Eruptive Affections, Sea or Bilious Sickness, & Headache, having peculiar and exclusive merits.

SOLD BY ALL CHEMISTS.

CAUTION.—Worthless Salines being placed before the public with the mere transposition of the words of my Labels, which do not contain any of the health-restoring elements of Lamplough's Pyretic Saline, it is of the utmost importance that the name and trade-mark on a buff-coloured wrapper envelopes each bottle, and on which dependence alone can be placed.

DARLOW & CO.'S
PATENT
MAGNETINE APPLIANCES,

Recommended and used by many eminent in the Profession,
FOR ALL KINDS OF
Spinal, Liver, Kidney, Heart, Lung, Throat, and Chest Complaints, Gout and Rheumatism, Hernia, &c.

MAGNETINE is an original invention of Messrs. DARLOW & Co., improved by them on their previous invention patented in 1866. It is unique for its possession of the following qualities: **Peculiar Softness, Entire Elasticity, Perfect Flexibility,** and **Permanent Unchangeable Magnetic Power.**

The MAGNETINE APPLIANCES are as comfortable as an ordinary garment. They are manufactured in a variety of forms suitable to their several requirements, and the Softness and Flexibility of the Material increase with using. They can be worn over one or more articles of clothing, and neither **Acids,** nor **Chemical Preparations of any kind,** are required to render them effective. **They give no Shocks, Produce no Sores,** and do not Discolour or Injure the Wearing Apparel.

The beneficent Healing Properties of the MAGNETINE APPLIANCES have secured to them a **world-wide reputation,** and Messrs. DARLOW & Co. are honoured by the patronage of hundreds of the highest families in the Kingdom, including Ladies and Gentlemen of Her Majesty's Household, Members of both Houses of the Legislature, Gentlemen of the Legal and other Learned Professions, Officers in the Army and Navy, Clergymen of all Denominations, Bankers, Merchants, Writers, Speakers, Artists, Musicians, and others, whose written testimonies of the benefit derived from the use of these Appliances are in the possession of Messrs. ITS ADVANTAGES as compared with other Offices are—

A greatly larger immediate Assurance, at most ages, for the same Premium; and eventually to good lives very considerable additions.

Thus a Policy for £1200 or £1250 may be had for the Premium usually charged for £1000 only—the difference being equivalent to an *immediate* Bonus, irrespective of what may be looked for from *eventual* additions from the profits.

THE WHOLE PROFITS are divided exclusively among the lives that *prove* good—that is, among those (forming ultimately a majority of the whole) whose Premiums, with compound interest at 4 per cent, amount to sums equal to those originally assured under their individual Policies. No share is given to those by whose early death there is a *loss* (and not *profit*) to the Common Fund.

At the Septennial investigation of 1873, the additions made to Policies then sharing for the *first* time varied (according to the values) from about 17 to upwards of 30 per cent. Policies, say for £1000, which then received a *second* addition were raised to sums ranging from £1250 to £1450; while, in a few cases, Policies which had shared at the whole *four* divisions that had taken place were doubled.

Extracts from (37th) Annual Report for 1874:

NEW POLICIES issued in year, 2461	£1,120,572
TOTAL RECEIPTS in year	£374,697
THE SUBSISTING ASSURANCES at 31st December amounted to ...	£9,885,753
The FUND, accumulated entirely from the Premiums, amounted at same date to...	£2,419,005

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

Newspapers must not exceed 14 lbs. in weight, nor two feet in length, or one foot in width or depth.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c. FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper,

and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western	N.W.	East Central	E.C.
South Eastern	S.E.	Western	W.
South Western	S.W.	West Central	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily:—The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 8.15 A.M., the third at 10.30 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, book, or packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom or the British Colonies, by the prepayment of a fee of 4*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Registration of Inland Letters, containing coin, is compulsory. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window: but upon payment of an additional late fee of fourpence at the Chief Offices, Letters may be Registered until the closing of the letter-box for each despatch.

The District Courts of Bankruptcy were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral. Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her separate and especial use.

DIRECTIONS FOR MAKING A WILL.—A Will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain, but when low, it sometimes rains when clouds are scarcely visible.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c. for railroads, as they may be used even in wet weather and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing, and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

No packet of Newspapers must exceed 14 lbs. in weight, two feet in length, or one foot in width or depth.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c. FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper,

and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western	N.W.	Eastern Central	E.C.
South Eastern	S.E.	Western	W.
South Western	S.W.	Western Central	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily:—The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 8.40 A.M., the third at 10.30 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom or the British Colonies, by the prepayment of a fee of 4*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Registration of Inland Letters, containing coin, is compulsory. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of an additional late fee of fourpence at the Chief Offices, Letters may be Registered until the closing of the letter-box for each despatch.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8. and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her separate and especial use.

DIRECTIONS FOR MAKING A WILL.—A Will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain, but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS,

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c. for railroads, as they may be used even in wet weather and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing, and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

No packet of Newspapers must exceed 14 lbs. in weight, two feet in length, or one foot in width or depth.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c. FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper,

and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western	N.W.	Eastern Central	E.C.
South Eastern	S.E.	Western	W.
South Western	S.W.	Western Central	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily:—The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M; the second about 8.30 A.M., the third at 10 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom or the British Colonies, by the prepayment of a fee of 4*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Registration of Inland Letters, containing coin, is compulsory. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of an additional late fee of fourpence at the Chief Offices, Letters may be Registered until the closing of the letter-box for each despatch.

The District Courts of Bankruptcy were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her separate and especial use.

DIRECTIONS FOR MAKING A WILL.—A Will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder,

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain, but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS,

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c. for railroads, as they may be used even in wet weather and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing, and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

LAMPLOUGH'S
EFFERVESCING PYRETIC SALINE.

Important to all, more especially English Ministers, British Consuls, and Europeans seeking to reside in safety in tropical and Foreign Countries.

Her Majesty's Representative, the Governor of Sierra Leone, in a letter of request for an additional supply of PYRETIC SALINE, states:—'It is of great value, and I shall rejoice to hear it is in the hands of all Europeans visiting the tropics.'

SICKNESS, HEADACHE, and NAUSEA are in most cases immediately relieved by taking a teaspoonful in a tumbler of cold water. This can be repeated once or twice in two hours, if needful.

SEA VOYAGES.—It is a very valuable accompaniment, and should on no account be omitted. It instantly allays the sea or bilious sickness.

FOR BILIOUS CONSTITUTIONS, giving rise to vitiated secretions, Indigestion, and Eruptions on the Skin, a teaspoonful should be taken daily with the dinner in a tumbler of water, and the same quantity on going to bed. May be obtained of the Proprietor,

H. LAMPLOUGH, Consulting Chemist, 113 High Holborn, E.C.

Second door from Hatton Garden, London, and of all respectable Chemists.

In Bottles, 2s. 6d., 4s. 6d., 11s., and 21s.

The Letters and Book Packets to be tied up in bundles representing a postage of 5*s.* each, with the addresses arranged in the same direction.

Postmasters at whose Offices Money Order business is transacted are permitted to purchase Postage Stamps from the public, not soiled or otherwise damaged, at a charge of 2½ per cent.; the charge, however, never being less than one half-penny. Under this arrangement the payments are as follows:—

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

No packet of Newspapers must exceed 14lbs. in weight, two feet in length, or one foot in width or depth.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper,

and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily: The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.; the second about 8.30 A.M., the third at 10 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of an additional late fee of fourpence at the Chief Offices, Letters may be registered until the closing of the letter-box for each despatch.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her especial use.

DIRECTIONS FOR MAKING A WILL.—A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much

appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

Of Prepared Paper, with Metallic Pencils.

MANUFACTURED BY A. COWAN AND SONS.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these Books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

A. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

Harwood's Metallic Memorandum Books are sold by every respectable Stationer in the United Kingdom.
