The Letters and Book Packets to be tied up in bundles representing a postage of 5*s.* each, with the addresses arranged in the same direction.

Postmasters at whose Offices Money Order business is transacted are permitted to purchase Postage Stamps from the public, not soiled or otherwise damaged, at a charge of 2½ per cent.; the charge, however, never being less than one half-penny. Under this arrangement the payments are as follows:—

For Stamps not exceeding 1*s.* 8*d.* in value, the full price minus ½*d.*

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

No packet of Newspapers must exceed 14lbs. in weight, two feet in length, or one foot in width or depth.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper

and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily: The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.; the second about 8.30 A.M., the third at 10 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of an additional late fee of fourpence at the Chief Offices, Letters may be registered until the closing of the letter-box for each despatch.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or specialty.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her especial use.

DIRECTIONS FOR MAKING A WILL.—A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much

appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

No packet of Newspapers must exceed 14lbs. in weight, two feet in length, or one foot in width or depth.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open, or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily: The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.; the second about 8.30 A.M., the third at 10 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of *2d.* This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of *3d.*, in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window: but upon payment of an additional late fee of fourpence at the Chief Offices.

Local Bankruptcy Courts.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her especial use.

DIRECTIONS FOR MAKING A WILL.—A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much

appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

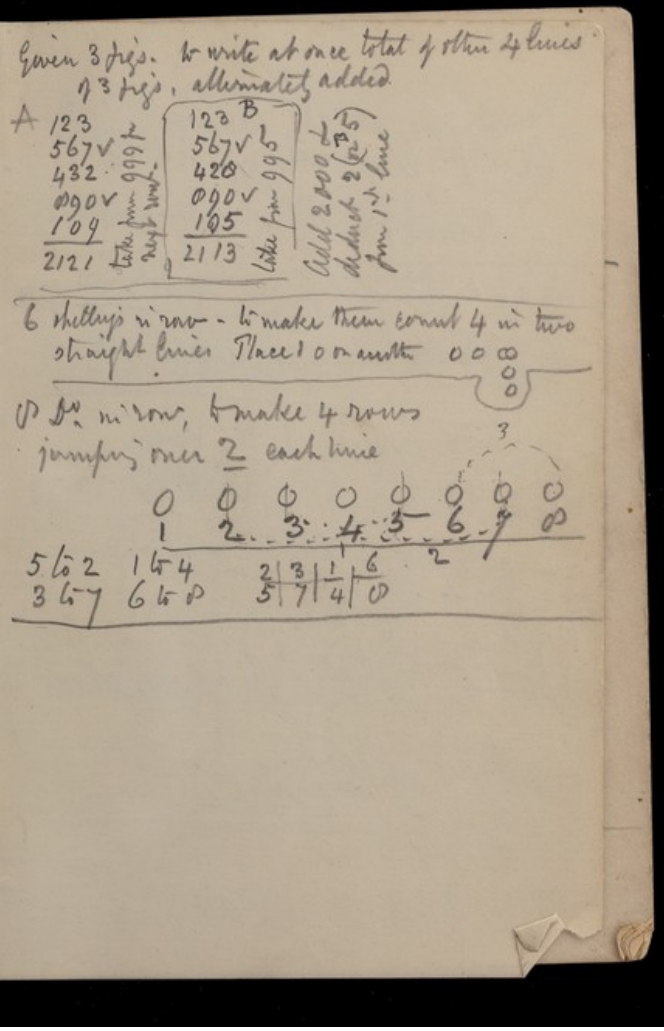

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

No packet of Newspapers must exceed 14lbs. in weight, two feet in length, or one foot in width or depth.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29.

The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily: The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.: the second about 8.30 A.M., the third at 10 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of an additional late fee of fourpence at the Chief Offices.

Chief Judge—Vice-Chancellor Sir J. Bacon, Knt.
Senior Registrar—W. Hazlitt, Esq.
Registrars—J. R. Brougham, Esq., W. P. Murray, Esq., and P. H. Pepys, Esq.
Comptroller—Mansfield Parkyns, Esq.

Local Bankruptcy Courts.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and husband must be taken, unless the Legacy is left for her especial use.

DIRECTIONS FOR MAKING A WILL.—A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much

appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter): Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½d. for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3d.; not exceeding 3 lbs., 6d.; not exceeding 5 lbs., 9d.; not exceeding 7 lbs., 1s.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

Within the Town limits there are twelve deliveries of Letters daily: The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.: the second about 8.30 A.M., the third at 10 A.M., and the next nine deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of *2d.* This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of *8d.*, in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters at the ordinary fee is exhibited in the office window; but upon payment of an additional late fee of fourpence at the Chief Offices.

Chief Judge—Vice-Chancellor Sir J. Bacon, Knt.
Senior Registrar—W. Hazlitt, Esq.
Registrars—J. R. Brougham, Esq., W. P. Murray, Esq., and P. H. Pepys, Esq.
Comptroller—Mansfield Parkyns, Esq.

Local Bankruptcy Courts.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and husband must be taken, unless the Legacy is left for her especial use.

DIRECTIONS FOR MAKING A WILL.—A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD" inside the cover.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 3 lbs., 6*d.*; not exceeding 5 lbs., 9*d.*; not exceeding 7 lbs., 1*s.*

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.; the second about 8.30 A.M., the third at 10 A.M., and the remaining deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of *2d.* This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of *8d.*, in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters is usually half an hour before the closing of the letter-box; but, upon payment of an additional late fee of fourpence at the Chief Offices, they may be registered within the half-hour.

Local Bankruptcy Courts.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her especial use.

DIRECTIONS FOR MAKING A WILL.—A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD" inside the cover.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.

2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.

3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.

4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.

5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 3 lbs., 6*d.*; not exceeding 5 lbs., 9*d.*; not exceeding 7 lbs., 1*s.*

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.: the second about 8.30 A.M., the third at 10 A.M., and the remaining deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters is usually half an hour before the closing of the letter box: but, upon payment of an additional late fee of fourpence at the Chief Offices, they may be registered within the half-hour.

Local Bankruptcy Courts.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Brief Directions to Executors.

Having caused the Property to be described and valued, take the Inventory with the Will to your Proctor (this should not exceed six months after decease of Testator). In due course the Will is deposited in the Registry of the Ecclesiastical Court, and a copy (the Probate) delivered to you with a Certificate of it having been proved. Then collect the Debts and satisfy all demands upon the Estate; the latter in conformity with the following order, which shows the precedence required by law:—

1. Funeral, Testamentary, and all other expenses incurred in the due execution of the Will.—2. Debts due to the Crown on record or speciality.—3. Debts which by particular statutes are given precedence over others, as Poor-rates and the like.—4. Mortgages, Judgments, Decrees of Chancery, &c.—5. Special Contracts, as Leases, Bonds, and the like.—6. Bills of Exchange, and so forth.—7. Book Debts.—8, and last (usually about 12 months after decease, as the Executor is liable to the claims of all creditors, who seldom fail to declare themselves by that time) the Legacies; first deducting the amount of duty thereon (which must be paid to Government within 21 days), and taking a receipt provided for that purpose by the Stamp Office. Care should be taken not to pay them to parties unqualified to give a proper discharge, a Minor, for example, or a Married Woman; in the latter case, the joint receipt of herself and Husband must be taken, unless the Legacy is left for her especial use.

DIRECTIONS FOR MAKING A WILL.—A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 3 lbs., 6*d.*; not exceeding 5 lbs., 9*d.*; not exceeding 7 lbs., 1*s.*

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.: the second about 8.30 A.M., the third at 10 A.M., and the remaining deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its safe transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters is usually half an hour before the closing of the letter box; but, upon payment of an additional late fee of fourpence at the Chief Offices, they may be registered within the half-hour.

Bankruptcy Court.

PORTUGAL STREET, LINCOLN'S INN FIELDS.

Hours of business, in term, and during the sittings, 10 to 4; on Saturdays 10 to 2; during vacation, 11 to 2.

Chief Judge—Vice-Chancellor Sir J. Bacon, Knt.
Senior Registrar—W. Hazlitt, Esq.
Registrars—J. R. Brougham, Esq., J. H. Pepys, Esq., and P. H. Pepys, Esq.
Comptroller—Mansfield Parkyns, Esq.

Local Bankruptcy Courts.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left, or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

Let x = no. of month of birth 10th

y = age in years 70

Then $(2x+5)\times 50 + y - 365 = Z$ (1)

$\therefore Z + 115 =$ no of month of birth + age (2)

Eg: May be more stated

$+5 \times 50$

$2x \times 50 + y - 365 = Z$

or $2x \times 50 + y + 250 - 365 = Z$

or $100x + y - 115 = Z$

$Z + 115 =$ month + age

100 times the month + once the age added together $100x = 1000$

$y = 70$

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature*, "J. HARWOOD," inside the cover.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 2 lbs., 4½*d.*; not exceeding 3 lbs., 6*d.* and so on at the rate of 1½*d.* per lb. up to 11 lbs.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.: the second about 8.30 A.M., the third at 10 A.M., and the remaining deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters is usually half an hour before the closing of the letter-box; but, upon payment of an additional late fee of fourpence at the Chief Offices, they may be registered within the half-hour.

MORNING AND EVENING MAILS.

The MORNING MAILS.—*At St. Martin's-le-Grand, E.C.*, letters for midday arrival at Birmingham, Bradford, Bridgewater, Bury, Carmarthen, Huddersfield, Leeds, Liverpool, Manchester, Wolverhampton, &c. must be posted by 4.15 A.M. Mails.

(1) Day Mail to Ireland, for the Provincial Morning Mails by North Western, Great Northern, Great Eastern (viâ Ely), London, Tilbury, Southend, &c.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left, or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature*, "J. HARWOOD," inside the cover.
