and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.

2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.

3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.

4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.

5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 2 lbs., 4½*d.*; not exceeding 3 lbs., 6*d.*; and so on at the rate of 1½*d* per lb. up to 11 lbs.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.: the second about 8.30 A.M., the third at 10 A.M., and the remaining deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters is usually half an hour before the closing of the letter-box; but, upon payment of an additional late fee of fourpence at the Chief Offices, they may be registered within the half-hour.

Local Bankruptcy Courts.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature*, "J. HARWOOD," inside the cover.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 2 lbs., 4½*d.*; not exceeding 3 lbs., 6*d.*; and so on at the rate of 1½*d.* per lb. up to 11 lbs.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern ...	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.: the second about 8.30 A.M., the third at 10 A.M., and the remaining deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of 3*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters is usually half an hour before the closing of the letter-box: but, upon payment of an additional late fee of fourpence at the Chief Offices, they may be registered within the half-hour.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left, or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

and so on.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 2 lbs., 4½*d.*; not exceeding 3 lbs., 6*d.*; and so on at the rate of 1½*d.* per lb. up to 11 lbs.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for the Home Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	...	N.	Eastern	...	E.
North Western	...	N.W.	Eastern Central	...	E.C.
South Eastern	...	S.E.	Western	...	W.
South Western	...	S.W.	Western Central	...	W.C.

By adding the initials of the Postal Districts to the addresses of letters for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.20 A.M.: the second about 8.30 A.M., the third at 10 A.M., and the remaining deliveries are made hourly. The last delivery commences about 7.45 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Postage of Registered Letters must be prepaid, and by stamps, if the letters be Inland. Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters is usually half an hour before the closing of the letter-box; but, upon payment of an additional late fee of fourpence at the Chief Offices, they may be registered within the half-hour.

MORNING AND EVENING MAILS.

The MORNING MAILS.—*At St. Martin's-le-Grand, E.C.*, letters for midday arrival at Birmingham, Bradford, Bridgewater, Bury, Carmarthen, Huddersfield, Leeds, Liverpool, Manchester, Wolverhampton, &c. must be posted by 4.15 A.M. Mails.

(1) Day Mail to Ireland, for the Provincial Morning Mails by North Western, Great Northern, Great Eastern (viâ Ely), London, Tilbury, Southend, &c.

Local Bankruptcy Courts.

The DISTRICT COURTS OF BANKRUPTCY were abolished by the Act 32 and 33 Vict., cap. 71, sect. 130. When the person sought to be adjudged Bankrupt resides in England, but does not reside or carry on business within the London Bankruptcy District, the proceedings in ordinary cases take place in the COUNTY COURT of his District, subject to an appeal to the Chief Judge in Bankruptcy.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left, or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise: it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. The Attestation should be rigidly complied with, at the end of which the witnesses must sign their names.

The Weather.

RULES FOR PRESAGING THE WEATHER BY THE BAROMETER OR WEATHER-GLASS.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature*, "J. HARWOOD," inside the cover.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.

2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.

3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.

4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection, or the packet is liable to be charged at Letter rates if under 8 ozs. in weight, if above at Parcel Post rates.

5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 2 lbs., 4½*d.*; not exceeding 3 lbs., 6*d.*; and so on at the rate of 1½*d.* per lb. up to 11 lbs.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for Inland Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters (but *not* of parcels) for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 9 A.M., the third at 10.30 A.M., and the remaining deliveries are made hourly. The last delivery commences about 8 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

The Post Office is not by law responsible for any loss or inconvenience which may arise from the damage, non-delivery, mis-sending, or mis-delivery of any letter or postal packet, and liability for actual loss or damage is accepted only in the case of parcels and registered packets, and no information concerning letters or packets can be given to persons other than those to whom it is addressed, and Postmasters are forbidden to return any packet to the sender, or to comply with any request for its detention.

N.B.—Letters posted at the Pillar Letter Boxes before 5 a.m., are sent out by first delivery in London, and by Morning Mails. Newspapers and Book Packets when posted in Town Pillar Boxes are liable to be detained.

REGISTRATION.—Any letter, newspaper, or book packet, on which the postage has been prepaid in stamps, can be registered to any place in the United Kingdom by the prepayment of a fee of 2*d*. This does not guarantee the safe delivery of the letter, but makes its transmission more secure, by rendering it practicable to trace it, when Inland, from the receipt to its delivery; and when Foreign or Colonial, if not to its delivery, at least to the port of despatch.

Inland Letters containing coin, jewellery, &c., are treated as registered, and are charged on delivery with a registration fee of 8*d*., in addition to ordinary postage. At all Post Offices the latest time for posting Registered Letters is usually half an hour before the closing of the letter-box; but, upon payment of an additional late fee of fourpence at the Chief Offices, they may be registered within the half-hour.

Marriages.

BANNS.—If the parties reside in different parishes the banns must be published in both, and a certificate obtained to be handed to the Clergyman of the parish where the marriage takes place, which must be within three months, and between the hours of 8 a.m. and 2 p.m. The names by which the parties are known is sufficient, and a marriage is not necessarily invalidated because of any variation from the true name. There is usually a small fee on obtaining a certificate of publication, and a fee, generally of a guinea, to the Minister, and five shillings to the Clerk, on the performance of the ceremony. The latter fees are paid, even if the service is not conducted by the Clergyman of the Church. An incumbent may refuse to marry a divorced person, but he cannot refuse the use of his church for the ceremony.

LICENSES are obtained on personal application at the Faculty Office, or the Vicar-General's Office, both in Doctors' Commons, and at the Offices of the Bishops' Registrars for the respective dioceses. The cost in London is £2 2*s*. 6*d*. including stamps, and in the country from £2 12*s*. 6*d*. to £3 3*s*. *Special Licences* are granted by the Archbishop of Canterbury to permit of a marriage taking place without previous residence in the district. Application must be made through a Proctor, at the Faculty Office, Doctors' Commons. The cost is about £29 8*s*.

BEFORE A REGISTRAR.—Notice on a prescribed form must be given by the parties to the Superintendent Registrar of the district within which they have resided for seven days. At the expiration of twenty-one days from notice the *Certificate* will issue, and the marriage may take place within three months of date of first notice. *Licences* are obtained after the lapse of twenty-four hours from entry of notice, and are available for three months.

Registration of Births.

Notice of a Birth must, under a penalty of Forty Shillings, be given personally to the Registrar within forty-two days, and the Register must be signed in his presence. There is no fee payable, but the Registrar may claim one shilling if required to attend at the house to register the birth. The parents, the occupier of the house, a person present, or the person having charge of the child may register.

Registration of Deaths.

Notice of a Death must be given personally to the Registrar within five days. Penalty and fee as for Births.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left, or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. It is not advisable that a legatee, or wife or husband of a legatee, witness a will, as the legacy is thereby forfeited. The attestation should on no account be omitted. The following wording will apply to most cases, only requiring alteration in instances where the Testator happens to be blind, or too weak to sign his name or make a mark:—"Signed by the Testator in the joint presence of us, who, in the presence of the Testator, and in the presence of each other, have hereunder signed our names." The address and description should be appended to the signature of witnesses. Any alteration or erasure must be initialled by Testator and witnesses.

The Weather.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature*, "J. HARWOOD," inside the cover.

The Tables given for Foreign Postage Rates (pp. 28, 29) afford some of the most important particulars as to Letters, Book Packets, Newspapers, &c., posted either to the Colonies or to Foreign Countries. The rates charged for newspapers greatly vary both in the question of distance, and also in respect of the means of transit.

NEWSPAPERS.—Registered Newspapers can be transmitted through the Post by affixing a halfpenny stamp, or by using a stamped wrapper.

Packets containing two or more Registered Newspapers are charged with the same postage as Book Packets of the same weight, viz., one halfpenny for every 2 oz. or fraction of 2 oz.

Newspapers must be posted either without a cover or in a cover entirely open at both ends.

INLAND BOOK POST.—Packets of Books may contain writing (when it is not of the nature of a letter); Photographs and Circulars, when printed, lithographed, or engraved, may be transmitted through the Post on the following conditions:—

1. The postage is ½*d.* for every 2 oz., or any less weight.
2. If the packet is posted wholly unpaid it is charged with double the Book Postage; and if posted partially prepaid, with double the deficiency.
3. A Book Packet must be sent either without a cover, or in a cover open at the ends or sides.
4. No Book Packet may contain any written letter, closed or open or any enclosure sealed or otherwise closed against inspection, or the packet is liable to be charged at Letter rates if under 8 ozs. in weight, if above at Parcel Post rates.
5. No Book Packet must exceed 5 pounds in weight, eighteen inches in length, nine inches in width, or six inches in depth.

PARCELS POST.—Parcels are conveyed at the following rates:—Not exceeding 1 lb., 3*d.*; not exceeding 2 lbs., 4½*d.*; not exceeding 3 lbs., 6*d.*: and so on at the rate of 1½*d.* per lb. up to 11 lbs. They may be registered and insured at same rates as letters.

BOOKS, &c., FOR THE COLONIES.—The rates of postage of Book Packets to the Colonies and foreign countries may be ascertained by reference to pp. 28, 29. The postage must be paid in full by stamps, or by using a stamped wrapper, and the other regulations are similar to those given above for Inland Book Post.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters (but *not* of parcels) for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 9 A.M., the third at 10.30 A.M., and the remaining deliveries are made hourly. The last delivery commences about 8 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

The Post Office is not by law responsible for any loss or inconvenience which may arise from the damage, non-delivery, mis-sending, or mis-delivery of any letter or postal packet, and liability for actual loss or damage is accepted only in the case of parcels and registered packets, and no information concerning letters or packets can be given to persons other than those to whom it is addressed, and Postmasters are forbidden to return any packet to the sender, or to comply with any request for its detention.

Marriages.

BANNS.—If the parties reside in different parishes the banns must be published in both, and a certificate obtained to be handed to the Clergyman of the parish where the marriage takes place, which must be within three months, and between the hours of 8 a.m. and 2 p.m. The names by which the parties are known is sufficient, and a marriage is not necessarily invalidated because of any variation from the true name. There is usually a small fee on obtaining a certificate of publication, and a fee, generally of a guinea, to the Minister, and five shillings to the Clerk, on the performance of the ceremony. The latter fees are paid, even if the service is not conducted by the Clergyman of the Church. An incumbent may refuse to marry a divorced person, but he cannot refuse the use of his church for the ceremony.

LICENSES are obtained on personal application at the Faculty Office, or the Vicar-General's Office, both in Doctors' Commons, and at the Offices of the Bishops' Registrars for the respective dioceses. The cost in London is £2 2*s*. 6*d*. including stamps, and in the country from £2 12*s*. 6*d*. to £3 3*s*. *Special Licences* are granted by the Archbishop of Canterbury to permit of a marriage taking place without previous residence in the district. Application must be made through a Proctor, at the Faculty Office, Doctors' Commons. The cost is about £29 8*s*.

BEFORE A REGISTRAR.—Notice on a prescribed form must be given by the parties to the Superintendent Registrar of the district within which they have resided for seven days. At the expiration of twenty-one days from notice the *Certificate* will issue, and the marriage may take place within three months of date of first notice. *Licences* are obtained after the lapse of twenty-four hours from entry of notice, and are available for three months. Fees:—

Registration of Births.

Notice of a Birth must, under a penalty of Forty Shillings, be given personally to the Registrar within forty-two days, and the Register must be signed in his presence. There is no fee payable, but the Registrar may claim one shilling if required to attend at the house to register the birth. The parents, the occupier of the house, a person present, or the person having charge of the child may register.

Registration of Deaths.

Notice of a Death must be given personally to the Registrar within five days. Penalty and fee as for Births.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left, or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. It is not advisable that a legatee, or wife or husband of a legatee, witness a will, as the legacy is thereby forfeited. The attestation should on no account be omitted. The following wording will apply to most cases, only requiring alteration in instances where the Testator happens to be blind, or too weak to sign his name or make a mark:—"Signed by the Testator in the joint presence of us, who, in the presence of the Testator, and in the presence of each other, have hereunder signed our names." The address and description should be appended to the signature of witnesses. Any alteration or erasure must be initialled by Testator and witnesses.

The Weather.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain: but when low, it sometimes rains when clouds are scarcely visible.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters (but *not* of parcels) for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 9 A.M., the third at 10.30 A.M., and the remaining deliveries are made hourly. The last delivery commences about 8 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

The Post Office is not by law responsible for any loss or inconvenience which may arise from the damage, non-delivery, mis-sending, or mis-delivery of any letter or postal packet, and liability for actual loss or damage is accepted only in the case of parcels and registered packets, and no information concerning letters or packets can be given to persons other than those to whom it is addressed, and Postmasters are forbidden to return any packet to the sender, or to comply with any request for its detention.

There is usually a small fee on obtaining a certificate of publication, and a fee, generally of a guinea, to the Minister, and five shillings to the Clerk, on the performance of the ceremony. The latter fees are paid, even if the service is not conducted by the Clergyman of the Church. An incumbent may refuse to marry a divorced person, but he cannot refuse the use of his church for the ceremony.

LICENSES are obtained on personal application at the Faculty Office, or the Vicar-General's Office, both in Doctors' Commons, and at the Offices of the Bishops' Registrars for the respective dioceses. The cost in London is £2 2*s*. 6*d*. including stamps, and in the country from £2 12*s*. 6*d*. to £3 3*s*. *Special Licences* are granted by the Archbishop of Canterbury to permit of a marriage taking place without previous residence in the district. Application must be made through a Proctor, at the Faculty Office, Doctors' Commons. The cost is about £29 8*s*.

BEFORE A REGISTRAR.—Notice on a prescribed form must be given by the parties to the Superintendent Registrar of the district within which they have resided for seven days. At the expiration of twenty-one days from notice the *Certificate* will issue, and the marriage may take place within three months of date of first notice. *Licences* are obtained after the lapse of twenty-four hours from entry of notice, and are available for three months. Notice of a Death must be given personally to the Registrar within five days. Penalty and fee as for Births.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left, or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. It is not advisable that a legatee, or wife or husband of a legatee, witness a will, as the legacy is thereby forfeited. The attestation should on no account be omitted. The following wording will apply to most cases, only requiring alteration in instances where the Testator happens to be blind, or too weak to sign his name or make a mark:—"Signed by the Testator in the joint presence of us, who, in the presence of the Testator, and in the presence of each other, have hereunder signed our names." The address and description should be appended to the signature of witnesses. Any alteration or erasure must be initialled by Testator and witnesses.

The Weather.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

POSTAL DISTRICTS, &c.—London and its environs are divided into Eight Postal Districts. The following are the names of the Districts, with their abbreviations, viz.:—

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters (but *not* of parcels) for London and its neighbourhood, the public will much facilitate the arrangements of the Post Office.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 9 A.M., the third at 10.30 A.M., and the remaining deliveries are made hourly. The last delivery commences about 8 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

The Post Office is not by law responsible for any loss or inconvenience which may arise from the damage, non-delivery, mis-sending, or mis-delivery of any letter or postal packet, and liability for actual loss or damage is accepted only in the case of parcels and registered packets, and no information concerning letters or packets can be given to persons other than those to whom it is addressed, and Postmasters are forbidden to return any packet to the sender, or to comply with any request for its detention.

Marriages.

BANNS.—If the parties reside in different parishes the banns must be published in both, and a certificate obtained to be handed to the Clergyman of the parish where the marriage takes place, which must be within three months, and between the hours of 8 a.m. and 2 p.m. The names by which the parties are known is sufficient, and a marriage is not necessarily invalidated because of any variation from the true name. There is usually a small fee on obtaining a certificate of publication, and a fee, generally of a guinea, to the Minister, and five shillings to the Clerk, on the performance of the ceremony. The latter fees are paid, even if the service is not conducted by the Clergyman of the Church. An incumbent may refuse to marry a divorced person, but he cannot refuse the use of his church for the ceremony.

LICENSES are obtained on personal application at the Faculty Office, or the Vicar-General's Office, both in Doctors' Commons, and at the Offices of the Bishops' Registrars for the respective dioceses. The cost in London is £2 2*s*. 6*d*. including stamps, and in the country from £2 12*s*. 6*d*. to £3 3*s*. *Special Licences* are granted by the Archbishop of Canterbury to permit of a marriage taking place without previous residence in the district. Application must be made through a Proctor, at the Faculty Office, Doctors' Commons. The cost is about £29 8*s*.

BEFORE A REGISTRAR.—Notice on a prescribed form must be given by the parties to the Superintendent Registrar of the district within which they have resided for seven days. At the expiration of twenty-one days from notice the *Certificate* will issue, and the marriage may take place within three months of date of first notice. *Licences* are obtained after the lapse of twenty-four hours from entry of notice, and are available for three months.

Registration of Births.

Notice of a Birth must, under a penalty of Forty Shillings, be given personally to the Registrar within forty-two days, and the Register must be signed in his presence. There is no fee payable, but the Registrar may claim one shilling if required to attend at the house to register the birth. The parents, the occupier of the house, a person present, or the person having charge of the child may register.

Registration of Deaths.

Notice of a Death must be given personally to the Registrar within five days. Penalty and fee as for Births.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left, or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. It is not advisable that a legatee, or wife or husband of a legatee, witness a will, as the legacy is thereby forfeited. The attestation should on no account be omitted. The following wording will apply to most cases, only requiring alteration in instances where the Testator happens to be blind, or too weak to sign his name or make a mark:—"Signed by the Testator in the joint presence of us, who, in the presence of the Testator, and in the presence of each other, have hereunder signed our names." The address and description should be appended to the signature of witnesses. Any alteration or erasure must be initialled by Testator and witnesses.

The Weather.

1. The Barometer is highest during a long frost, and generally rises with a N.E. wind. It is lowest during a thaw after a long frost, and is often brought down by a S.W. wind.

2. When the Barometer is near its greatest height for the season, there is little probability of immediate rain.

3. When the Barometer is low *for the season*, there is seldom a great weight of rain, though a fair day is rare. At such times short, heavy, and sudden showers, with squalls of wind from the S.W., W., or N.W. prevail.

4. In Summer, after a continuance of fair weather, with the Barometer high, it mostly falls gradually, and for a few days before there is much appearance of rain. If the fall be sudden and great, it will probably be followed by thunder.

5. When the sky appears very promising for fair, and the Barometer is at the same time low, it may be relied upon that the appearances will not continue long.

6. Very dark clouds, when the Barometer is high, pass over without rain; but when low, it sometimes rains when clouds are scarcely visible.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS, LIMITED.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS, LIMITED, beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.

Northern	N.	Eastern	E.
North Western ...	N.W.	Eastern Central ...	E.C.
South Eastern ...	S.E.	Western	W.
South Western ...	S.W.	Western Central ...	W.C.

By adding the initials of the Postal Districts to the addresses of letters (but *not* of parcels) for London and its neighbourhood, increased security is afforded against mis-delivery or delay.

The portion of each District within about 3 miles of the General Post Office is called the Town Delivery, and the remainder the Suburban Delivery.

The First, or General Post delivery, including all Inland, Colonial, and Foreign letters arriving in sufficient time, commences about 7.30 A.M.; the second about 9 A.M., the third at 10.30 A.M., and the remaining deliveries are made hourly. The last delivery commences about 8 P.M. Each delivery within the Town limits occupies about an hour from the time of its commencement. There are six despatches daily to the Suburban districts.

The Post Office is not by law responsible for any loss or inconvenience which may arise from the damage, non-delivery, mis-sending, or mis-delivery of any letter or postal packet, and liability for actual loss or damage is accepted only in the case of parcels and registered packets, and no information concerning letters or packets can be given to persons other than those to whom it is addressed, and Postmasters are forbidden to return any packet to the sender, or to comply with any request for its detention.

Marriages.

Banns.—If the parties reside in different parishes the banns must be published in both, and a certificate obtained to be handed to the Clergyman of the parish where the marriage takes place, which must be within three months, and between the hours of 8 a.m. and 2 p.m. The names by which the parties are known is sufficient, and a marriage is not necessarily invalidated because of any variation from the true name. There is usually a small fee on obtaining a certificate of publication, and a fee, generally of a guinea, to the Minister, and five shillings to the Clerk, on the performance of the ceremony. The latter fees are paid, even if the service is not conducted by the Clergyman of the Church. An incumbent may refuse to marry a divorced person, but he cannot refuse the use of his church for the ceremony.

Licenses are obtained on personal application at the Faculty Office, or the Vicar-General's Office, both in Doctors' Commons, and at the Offices of the Bishops' Registrars for the respective dioceses. The cost in London is £2 2*s*. 6*d*. including stamps, and in the country from £2 12*s*. 6*d*. to £3 3*s*. *Special Licences* are granted by the Archbishop of Canterbury to permit of a marriage taking place without previous residence in the district. Application must be made through a Proctor, at the Faculty Office, Doctors' Commons. The cost is about £29 8*s*.

Before a Registrar.—Notice on a prescribed form must be given by the parties to the Superintendent Registrar of the district within which they have resided for seven days. At the expiration of twenty-one days from notice the *Certificate* will issue, and the marriage may take place within three months of date of first notice. *Licences* are obtained after the lapse of twenty-four hours from entry of notice, and are available for three months. Registration of Births.

Notice of a Birth must, under a penalty of Forty Shillings, be given personally to the Registrar within forty-two days, and the Register must be signed in his presence. There is no fee payable, but the Registrar may claim one shilling if required to attend at the house to register the birth. The parents, the occupier of the house, a person present, or the person having charge of the child may register.

Registration of Deaths.

Notice of a Death must be given personally to the Registrar within five days. Penalty and fee as for Births.

Directions for Making a Will.

A will should be simple and concise; it should be written with ink, and if contained in one sheet must be signed at the end by the Testator in the presence of two or more witnesses; and if written on more than one sheet, the Testator and the witnesses had better sign each sheet. It is not advisable that a legatee, or wife or husband of a legatee, witness a will, as the legacy is thereby forfeited. The attestation should on no account be omitted. The following wording will apply to most cases, only requiring alteration in instances where the Testator happens to be blind, or too weak to sign his name or make a mark:—"Signed by the Testator in the joint presence of us, who, in the presence of the Testator, and in the presence of each other, have hereunder signed our names." The address and description should be appended to the signature of witnesses. Any alteration or erasure must be initialled by Testator and witnesses.

Duties of Executors.

After the death of the testator, the duties of the executor may briefly be stated as follows:—To estimate the value of the property left or get it valued. To take the will to the Probate Registry, Somerset House, or to the Probate Registry of the district in which the testator had a fixed place of abode, or to a proctor or solicitor, together with a certificate of the death or burial of the testator, and prove the will. To collect all the property of the deceased and pay all his just debts, and, if necessary, to duly advertise in certain London and local newspapers for all claims against the estate to be sent in before a specified date. Pay the estate legacy or succession duty. Dispose of the residue of the property as directed in the will. Executors are not obliged to act, neither is it necessary that all the executors should act; one alone is competent to prove a will and carry out its provisions. In small estates probate and letters of administration may be obtained through an Inland Revenue Office.

HARWOOD'S

METALLIC MEMORANDUM BOOKS

Of Prepared Paper with Metallic Pencils.

MANUFACTURED BY ALEX. COWAN & SONS, LIMITED.

These highly distinguished Books may be had in almost every form for the pocket, and adapted for a variety of purposes independently of their use for Order and Betting Books, for which they are so well known; they will be found very desirable, ruled with money columns, for Pocket Ledgers, Cash Memorandums, Collecting Books, &c., as they preserve a permanency as durable as ink. Also especially useful, ruled to pattern (with printed headings if required), for surveying and taking levels, &c., for railroads, as they may be used even in wet weather, and retain the same legibility; they possess important advantages for reporting or taking notes of any kind, as they admit of the greatest freedom and rapidity in writing; and preserve the most faithful accuracy and perspicuity without any impediment whatever to their use.

"Invaluable to all Persons engaged in Commercial or other important pursuits, where *rapidity*, CLEARNESS, and INDELIBILITY of writing are of the utmost consequence."

The great celebrity obtained by these books has called forth a number of spurious *Imitations*, which in many cases have been sold to the Public as HARWOOD'S BOOKS. Until the deception is discovered, the fraud is calculated to injure the genuine article, and produce serious disappointment to the purchaser.

ALEX. COWAN & SONS, LIMITED, beg to inform the Public that no book is genuine without the *Signature* "J. HARWOOD," inside the cover.
