the said Sarah Ellen Detmold

(e) Lunatic, or an idiot, or a person of unsound mind.

is a (e) person of unsound mind and a proper Person to be taken charge of and detained

under Care and Treatment, and that I have formed this opinion upon the following grounds, viz.:—

1. Facts indicating Insanity observed by myself :

(f) Here state the facts.

(1) Found wandering about on the pier in a state of agitation and excitement having jumped off the ship (the Mackay) at the pier at which she had just arrived from Australia accompanied by her maid and the attendant of an asylum in which she has been confined at Richmond, Melbourne. She declared that on the day of her husband's funeral she was carried off to an asylum, that it was all a great political outrage, and that I knew all about it. She was to have been protected by the Duke of Genoa to whom she was engaged to be married, if this had not happened. Reported that she had been dreadfully insulted and ill treated on the voyage the Captain and sailors having sung filthy songs especially in her neighbourhood & hearing.

2. Other facts (if any) indicating Insanity communicated to me by others :

(g) Here state the information, and from whom.

(2) Margaret Peatt, her maid, who has been her maid for about 4 years — before she went to the asylum — that she is now very much as when she was placed in the asylum, that she talks continually of the Duke of Genoa to whom she is to be married and that it is quite untrue that the Captain and sailors sang filthy songs

Person, John Alfred Detmold of 28 Bridge Row Cannon Street informs she has no knowledge whatever of the Duke of Genoa, and that she thought when he was placed in an asylum that she was going to marry other persons as well as him —

I Hereby Give you Notice, That Edward Odmar
 a Private Patient received into this House on the 2nd day of May
 18 85, died therein on the 1st day of September 18 85,
 and I further Certify that Attendant John Haggis
 was present at the death of the said Edward Odmar
 and that the apparent cause of death of the said Edward Odmar

(ascertained by post mortem examination) was Apoplexy

of the brain, following a convulsive seizure incident to Insane Mental Disease the form of his units from which he suffered - General Paralysis of the Insane.

Signed H. H. H.

Joint Medical Proprietor

of The Ticehurst Asylum.

Note for the coroner.

This gentleman was 55 years of age. He was admitted laboring under well marked symptoms of general paralysis of the insane. The course of the case was somewhat more hurried than usual. Eight days before death he had a convulsive seizure, such as is certain to occur sooner or later in his ~~disease~~ ^{form of insanity}. This considerably accelerated the progress toward death, and a weak circulation rendered him still less able to cope with his disease.

Edward Delmar.

1. Facts indicating Insanity observed by myself :

(f) Here state the facts.

(f) He wanders about the country in a dirty, ragged condition and persists in so doing, though he could have a comfortable home provided for him, his condition is becoming more emaciated & deplorable every day. He cannot give any reason for his ways, except a rambling statement about a family sorrow which he tries to tell me about, but does not seem able to give me any definite idea about the matter. He makes his shoes himself of coarsened melting canvas, and they are completely inadequate to keep out the damp or answer purpose of shoes. He says he lives on meat and cannot eat meat because the Bible says it is wicked to do so unless the meat has been sacrificed.

My opinion is that unless he is taken care of he will gradually die from starvation and exposure —

2. Other facts (if any) indicating Insanity communicated to me by others :

(g) Here state the information, and from whom.

(g) That he sufficient means, and a comfortable home available, but wanders about without any apparent reason or preference for it. It is now some three weeks since he has had any place of residence, though he professes to be anxious to find one — this is communicated
