LUNACY 8.

(53 Vict. c. 5, ss. 4, 11, 18, 28, 29.)

Any person who makes a wilful misstatement of any material fact in any medical or other certificate, or in any statement or report of bodily or mental condition under this Act, shall be guilty of a misdemeanor.

(SEE ALSO NOTES ON FLY-LEAF.)

Two Medical Certificates on separate sheets of paper are required in support of a Petition for an Order for the Reception of a Private Patient. One of these Certificates should, whenever practicable, be under the hand of the usual Medical Attendant (if any) of the alleged lunatic.

Each of the Medical Practitioners who signs a Certificate must personally examine the alleged lunatic separately from the other, and not more than seven days before the presentation of the Petition.

Neither of the certifying Medical Practitioners may be the father or father-in-law, mother or mother-in-law, son or son-in-law, daughter or daughter-in-law, brother or brother-in-law, sister or sister-in-law, partner or assistant of the other of them.

One Medical Certificate is sufficient in the case of an Urgency Order. In such case the certifying Medical Practitioner must personally examine the alleged Lunatic not more than two days before reception. The certificate may be signed either before or after the Order.

The following persons are disqualified from signing Certificates:— The Petitioner; the person signing the Urgency Order; the Superintendent, Proprietor, or Medical Attendant of the Asylum, Hospital, or House; any person interested in the payments on account of the Lunatic; or the husband or wife, father or father-in-law, mother or mother-in-law, son or son-in-law, daughter or daughter-in-law, brother or brother-in-law, sister or sister-in-law, partner or assistant of any of the foregoing persons.

Persons signing Medical Certificates will not be liable to any civil or criminal proceedings if they act in good faith and with reasonable care.

 I, the undersigned do hereby certify as follows:

1. I am a person registered under the Medical Act, 1858, and I am in the actual practice of the medical profession.

2. On the 21st day of Feb 1891, at Bessels Home, Riverhead, occupied by Mrs. Kalkans, I personally examined the said Miss Julia Baubury [separately from any other practitioner] of Kent and came to the conclusion that she is a lunatic, or idiot, or person of unsound mind, and a proper person to be taken charge of and detained under care and treatment.

3. I formed this conclusion on the following grounds, viz:--

(a) Facts indicating insanity observed by myself at the time of examination, viz:--⁷

She has the appearance of fixed depression, with an occasional ravenous smile. On being questioned she talks excitedly, saying that she is depressed at the trouble of the world and that she is bringing danger to it. She asks me to speak in my proper tongue, saying I am God but that she is a liar.

(b.) Facts communicated by others, viz:--⁸ Harriet Aylett, of Eastbrook.

Dagraham, Essex, one of her attendants, tells me that she is frequently excited beyond control; she has many delusions, such as that some one is murdering her mother outside her rooms - She is suicidal, asking her nurses to kill her, and she has, on several occasions, tried to strangle herself with a handkerchief, and she would carry this out if she had the chance.
