ROBERT GARDNER  
CHIEF SANITARY INSPECTOR

LETTERS TO BE ADDRESSED TO "CHIEF SANITARY INSPECTOR"

CORPORATION OF PAISLEY  
SANITARY DEPARTMENT  
20 BACK SNEDDON STREET

PAISLEY, 15th December, 1971.

The National Society for Clean Air,  
134-137 North Street,  
BRIGHTON, BN1 1RG.

For the attention of Mrs. Christine Smith,  
Librarian/Information Officer.

Dear Sirs,

I am returning today under separate cover, per Registered post, the Ottway "Telesmoke" which you were good enough to let me have on loan last June. I now have Council approval for the purchase of a similar instrument made by Londesborough Instruments Limited, Kings Heath, Birmingham, 14., and in the circumstances I hasten to let you have your equipment back.

Your assistance has been of great value.

Yours faithfully,

*R. Gardner*

Dear Sir,

I am returning today under separate cover, per registered post, the  
"leaflet" which you were good enough to let me have on 10/10/71.  
I now have Council approval for the purchase of a further  
quantity of leaflets, and in the circumstances I would be glad to have  
your equipment back.

Your assistance has been most helpful.

Yours faithfully,

## THE 'TELESMOKE'

### Instructions for use

1. Stand 100 yards (approx.) from the chimney (the best viewing distance is between 50-200 yards).
2. Adjust the eyepiece so that the filters are clearly defined.
3. Sight on to the smoke **at the head of the chimney stack.**

The smoke must be kept in the clear part of the filter unit so that a proper comparison can be made.

It will be noted that the image is upside down, but this will not impair in any way the ease with which an observation can be made.

To keep the instrument compact and portable it has been produced as an inverted image telescope.

*Sole Manufacturers:*

**W. OTTWAY & COMPANY LIMITED,**  
**Orion Works, Northfield Avenue, Ealing, W.13.**
