UNDEFEATED

Life Hurts

Based on the real-life stories of young people living with HIV, **UNDEFEATED** is a story of youth, hatred, courage and pace in an inner-city London school. This is one girl's struggle to survive in a world intent on holding her back. Blessing dreams of stillness, but has a secret that has forced her to run her whole life. When her secret is exposed she has to face her fears, her future, her friends and herself.

Debuting a fresh and original voice, award-winning director Tudor Payne holds nothing back in his portrayal of London youth in order to capture a gritty story with a witty and dynamic edge. Joined by Executive Producer Finola Dwyer, (Oscar nominated and Bafta award winning Producer of 'An Education') and Casting Director Gary Davy, **UNDEFEATED** features a cast of fresh young performers and stars Pearl Mahaga, winner of a National Star Search, to create a powerful and original film set to force viewers to sit up and see things from a different perspective.
