LIEBIG COMPANY'S PEPTONE OF BEEF

PEPTONE
A highly Nourishing & Palatable Food
For INVALIDS & CONVALESCENTS

Invalid Diet.

When a patient has been pulled down by illness, and left with digestion weakened and without appetite, it is difficult to select just the right diet to enable him rapidly to regain his former vitality, so that the danger of relapse may be quickly passed over, and the period of convalescence shortened. A Food is wanted which

Will tempt the appetite.

Is highly nourishing.

Requires no effort to digest.

The best Invalids' Food is

PEPTARNIS

the new Peptone of Beef recently brought out by Liebig's Extract of Meat Company, Limited. It combines all the above qualities, and is inexpensive.
