FLY-LEAF

TO

THE RECORD OF FAMILY FACULTIES.

BY

FRANCIS GALTON, F.R.S.

MR. FRANCIS GALTON offers £500 in prizes to those British subjects resident in the United Kingdom who shall furnish him before May 15, 1884, with the best Extracts from their own Family Records.

These Extracts will be treated as confidential documents, to be used for statistical purposes only, the insertion of names of persons and places being required solely as a guarantee of authenticity and to enable Mr. Galton to communicate with the writers in cases where further question may be necessary.

The value of the Extracts will be estimated by the degree in which they seem likely to facilitate the scientific investigations described in the preface to the *Record of Family Faculties*.¹

More especially:

(a) By including *every* direct ancestor who stands within the limits of kinship there specified.

(b) By including brief notices of the brothers and sisters (if any) of each of those ancestors. (Importance will be attached both to the *completeness* with which each family of brothers and sisters is described, and also to the *number* of persons so described.)

(c) By the character of the evidence upon which the information is based.

(d) By the clearness and conciseness with which the statements and remarks are made.

The Extracts must be legibly entered either in the tabular forms contained in a duplicate copy of the *Record of Family Faculties*, (into

¹ *Record of Family Faculties*, (consisting of tabular forms and directions for entering data, with an explanatory preface,) by Francis Galton, F.R.S. Macmillan & Co., 1884.

Works on similar subjects by the same author, and issued by the same publishers:—

Inquiries into Human Faculty and its Development, 1883.

English Men of Science, their Nature and their Nurture, 1874.

Hereditary Genius, its Laws and Consequences, 1869.

To these may be added the following, as one in which the author has taken part:—

Life History Album, prepared by the direction of the Collective Investigation Committee of the British Medical Association. Edited by F. Galton, Chairman of the Life History Sub-Committee, 1884.

FLY-LEAF TO THE RECORD OF FAMILY FACULTIES.

which, if more space is wanted, additional pages may be stitched,) or they may be written in any other book with pages of the same size as those of the *Record*, provided that the information be arranged in the same tabular form and order. (It will be obvious that uniformity in the arrangement of documents is of primary importance to those who examine and collate a large number of them.)

Each competitor must furnish the name and address of a referee of good social standing (magistrate, clergyman, lawyer, medical practitioner, &c.), who is personally acquainted with his family, and of whom inquiry may be made, if desired, as to the general trustworthiness of the competitor.

The Extracts must be sent prepaid and by post, addressed to FRANCIS GALTON, 42 Rutland Gate, London, S.W. It will be convenient if the letters "R.F.F." (Record of Family Faculties) be written in the left-hand corner of the parcel, below the address.

The examination will be conducted by the donor of the prizes, aided by competent examiners.

The value of the individual prizes cannot be fixed beforehand. No prize will, however, exceed £50, nor be less than £5, and £500 will, on the whole, be awarded.

A list of the gainers of the prizes will be posted to each of them. It will be published in one or more of the daily newspapers, also in at least one clerical, and one medical journal.

* * * The above conditions are in lieu of those provisionally sketched out by MR. GALTON in the *Fortnightly Review* of August, 1883, for the purpose of eliciting suggestions, and which were subsequently submitted in a more elaborate form to many members of the medical profession. Their present shape is fixed in accordance with the balance of opinions elicited by these preliminaries, which was in favour of throwing them open to general competition, and not to medical men only, as at first intended.

MR. GALTON would add, that extracts from the Records of any family would be very acceptable to him, even such as may be too incomplete in the opinion of their authors to have the chance of gaining a prize, or which for any other reason should have the words, "not for competition," written upon them.

He sincerely trusts that his efforts to draw the attention of the public to the utility of family records, to induce them to rescue facts that are steadily gliding into oblivion, and to collect materials for serious scientific study, will be taken in good part and in the spirit in which they are made.

Family Records were compiled in the year 1884 by many persons, and sent to Mr. Francis Galton in response to his offer of prizes, afterwards awarded.

Those Records have afforded a much needed basis for determining approximately the statistical laws of heredity, which were published in his *Natural Inheritance* (Macmillan). They have since been frequently referred to, but are now of no further use to Mr. Galton.

Believing that many of the contributors would like to have them back as documents of interest to their respective families, he will be happy to return them if the accompanying form of application be filled up in strict accordance with the annexed instructions. But he cannot return a Record to any member of a family other than the original contributor.

A few days after receiving the application in due form, the Record will be dispatched by Parcel Post.

Those Records have afforded a much needed basis for determining approximately the statistical laws of heredity, which were published in his *Natural Inheritance* (Macmillan). They have since been frequently referred to, but are now of no further use to Mr. Galton.

Believing that many of the contributors would like to have them back as documents of interest to their respective families, he will be happy to return them if the accompanying form of application be filled up in strict accordance with the annexed instructions. But he cannot return a Record to any member of a family other than the original contributor.

A few days after receiving the application in due form, the Record will be dispatched by Parcel Post.

Family Records were compiled in the year 1884 by many persons, and sent to Mr. Francis Galton in response to his offer of prizes, afterwards awarded.

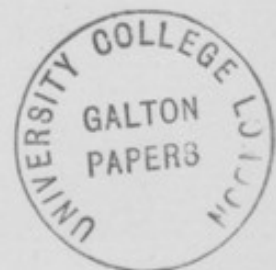

Those Records have afforded a much needed basis for determining approximately the statistical laws of heredity, which were published in his *Natural Inheritance* (Macmillan). They have since been frequently referred to, but are now of no further use to Mr. Galton.

Believing that many of the contributors would like to have them back as documents of interest to their respective families, he will be happy to return them if the accompanying form of application be filled up in strict accordance with the annexed instructions. But he cannot return a Record to any member of a family other than the original contributor.

A few days after receiving the application in due form, the Record will be dispatched by Parcel Post.

12. Oct: 1895.

Dear Sir,

In response to
your offer of
prizes in 1884
in "Family Records",
my late wife,
Mrs Charlotte Batchelor,
the youngest daughter
of the late Sir William

Lewis Salusbury Helandway
 Bart. - Lord lieutenant
 of Cornwall - compiled
 a Family Record for
 you, & a prize of
 £7 was awarded to
 you. I deeply regret
 to say, that we had
 several disagreements
 about it, because I
 was vexed, & hurt
 that he should rake
 up, & state in writing, a
 history of the temper
 diseases & idiosyncrasies
 of my family, as

f.91

well as of her own -

She never would
allow me to see
the Record, but, kept
it locked up in her
Seed Box. When, however,
she died on June 15,
1894, I immediately
designed my son
Jonathan to obtain
possession of the Record
& burn it - This he, at
once, did, without
reading it, & I was
really lapped in the
thought, that there
was an end of it -

But now to my
 great dismay, a
 vexation, I am
 informed by you,
 that you have in
 your possession

"two 16 S Reads
of Family Faculties"

viz one of my family
 & one of my wife's
family (the relatives)
 and "that you cannot
 & return them to any
 member of the family
 other than the original
 contributor" But

The contributor is
dead - Surely
you won't refuse
to hand them over
to me for destruction!
I warned her over
and over again as to
the possible & probable
result of what she
was doing, but to
no purpose - All
that I said is
coming true, my
family are in
your power, & there

records may be
 handed down for
 the gratification of
 inquisitive & unscrupulous
 people - i.e. if you do
 not send them to me
 in destruction -

Your circular has
 resuscitated a feeling
 of anger, & distress,
 wth reference to those
 Records, which I had
 hoped ~~would~~ ^{would} not see
 in even.

I beg of you to
 send the Records

f. 11r

to me without
delay & I am
sure that I may
rely on ^{you} as a
gentleman, &
man of honour to
do so.

I am
Yours faithfully
F. T. Butcher.

Francis Galton Esq.

P.S. I promise
 you that I will
 not read the
 Records I shall
 be only too
 thankful to
 know them.

Will you, at least,
 send to me the
 the Record of my
Family - the Relandings,
 must take care of
 themselves - but I
 would rather have
 all Records sent to me

later on. Meanwhile I

make two ends meet by
teaching. I went to Board

Dear Uncle Francis;

I was in hopes that we should have had a chance to call in person for the Record but, as we cannot yet fix upon a day, I am sending the "application" filled up. I am afraid that my one page account of my ancestor cannot have been of

much use to you.

Someday I hope to compile
a record for my small boy
for, starting a generation
later, we could get a more
perfect account. The most

interesting thing about him
is his very unusual ear
for musical sounds, for at
four years old he could tell
by ear any note sounded
on the piano even to the

useless power of Ear could be
 produced by evolution, but I
 suppose that it would come
concurrently with the sharpening
 of the Ear by did a monkey
 or a savage detected the
 gliding of a snake or the
 approach of an enemy. I
 don't know whether this is
altogether.

Vera sends her love to you
 & Aunt-Louisa,

Yours sincerely

Mr. Galton had noted Miss Browne's wish that the book sh^d-be destroyed when done with but he nevertheless thinks it w^l-be agreeable to her to have it back, instead.

Family Records were compiled in the year 1884 by many persons, and sent to Mr. Francis Galton in response to his offer of prizes, afterwards awarded.

Those Records have afforded a much needed basis for determining approximately the statistical laws of heredity, which were published in his *Natural Inheritance* (Macmillan). They have since been frequently referred to, but are now of no further use to Mr. Galton.

Believing that many of the contributors would like to have them back as documents of interest to their respective families, he will be happy to return them if the accompanying form of application be filled up in strict accordance with the annexed instructions. But he cannot return a Record to any member of a family other than the original contributor.

A few days after receiving the application in due form, the Record will be dispatched by Parcel Post.

Dear Sir.

I should much like
to receive back the "Family
Records" sent you in 1884
in accordance with your
kind offer & return you
the necessary form.

The further information
as to my dear Mother who
died this spring contained in
the newspaper cutting I enclose.

May be of some interest to you.^{p. 31}
+ may I trouble you to kindly
return it to me -

I should wish the "Family Record" were
attached to the connection with the D:
Guest. but we only recently established
the fact through old Family letters.
Religious differences having caused a
total estrangement. I enclose a
slip showing the Pedigree.

I am quite aware that the
family characteristics inherited in
~~connection~~ from the common
ancestor William Guest would
probably be slight but the fact
remains that the strong interest

With reference to the commission of ^{p. 34}

THE COVENTRY HERALD

THE LATE MRS. JOHN CASH.

Our obituary contains the name of Mrs. John Cash, who died at her residence, Rosehill, on Monday last after a short illness due to paralytic seizure. Mrs. Cash was known to a large circle of friends, and in some degree to a wider public, as a woman of more than ordinary qualities. She was the daughter of the Rev. John Sibree, minister of Vicar-lane Congregation from 1820 to 1858, who was in his day a prominent figure in Coventry. On her mother's side she was descended from the Guests, of King's Norton, near Birmingham: Edmund Geste—as the name was then spelt—who died Bishop of Salisbury in 1578, was a member of this family. A more recent member, Dr. Edwin Guest, Master of Gonville and Caius College (1852-80), was described by Freeman, the historian, as an illustrious scholar, who "ranks with Palgrave and Kemble." In 1852 Miss Sibree was married to Mr. John Cash, whose public activities as a member of the Town Council, chairman of the Free Library Committee, and as an ardent friend of popular education, made his untimely death in 1880 a severe public loss. Mrs. Cash, within her own sphere, was not less devoted to the cause of progress: she had a wide outlook on life, and a firm faith in human possibilities. She took a private and unostentatious part in many movements of social amelioration which made no great outward stir in the world; among them may be mentioned the Girls' Industrial School (of which she was hon. secretary), and the Society for the Prevention of Cruelty to Animals. She was also one of the lady visitors at the workhouse.

An interesting phase in Mrs. Cash's history was her connection with Miss Evans, afterwards known as George Eliot; her recollections of the famous novelist are contained partly in an appendix to "George Eliot's Life as Related in Her Letters and Journals," edited by Mr. J. W. Cross, and partly in the text of that work. The beginning of this intimacy was in 1841, when Mrs. Cash — then Miss Sibree — was sixteen years of age. Miss Evans resided in Foleshill with her father; the Sibree's were near neighbours. Mrs. Cash's memories of her friend, give many valuable glimpses of one who was destined to attain a world wide celebrity, and from this and other points of view they form a remarkable chapter in local history. Mr. Cross in writing of this period says:—

To J. Felton, Esq.

Dear Sir,

This morning I have received, from my house, the enclosed note and form, from you. I am pleased to learn that my Family Records have been of service to you, and, if of no further use, I shall be glad to have the book as a souvenir of, what, at the time, was most interesting work to me. I regret that you should

F. 47V

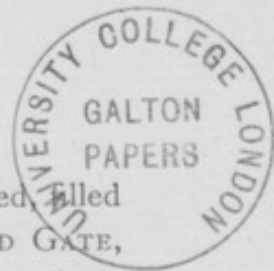

have had so much trouble in
finding my address, it ought to
have been, as I notified, to the Post-
Office officials at Plymouth my change
of residence, now nearly 4 years ago.
You will I am sure be very sorry to hear
that the intervening years since I
last wrote to you have been full of
sickness and bereavements, my beloved
eldest and youngest brothers having
both been taken away within eight-
months of each other, the former from
^{short} a severe nervous illness, the latter
from lingering Consumption, at the
same time I was confined to my
room for nearly one year, from
Influenza and complications, that
had settled in affecting my eyesight
so badly, that about the middle of

Last month, I came up to London
 to seek better advice, and I am
 much comforted by the ^{Dr's} opinion:
 "That one Light is all Right; only
 weak from long illness, and I must
 always for the future wear Spectacles."
 I have tried to write Fiction to
 increase my income, but my success
 has not been great in that line, I
 gave a story to the S. P. C. Kitchen
 Knowledge, but I expect to say they
 have returned the M. S. to me to-
 day. I am wishful of obtaining
 a position as Lady Secretary,
 or Journalist, but do not know
 how to set about it to gain my
 wish. At present I am visiting
 friends for a few days, but shall
 return to my home at Saltash,
 Cornwall, about Nov. 4th if

it would not inconvenience you
 to retain my book until that date,
 otherwise, kindly send it to me
 here? I sincerely hope the years
 that have passed, have been bright
 and happy ones to yourself,
 and that the coming ones may be
 equally so. With many thanks
 for your kind consideration
 in returning the Records, I am
 Yours faithfully,
 Amelia Knowling-Edwards.

Dear Sir,

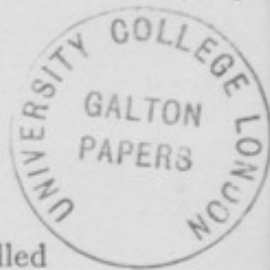

Many thanks for
kindly offering to return
the Record of Faculties.
I have no wish to have
it back, so would you
be good enough to
burn it. Before doing

so, if it would not that there is a crisis
 be troubling you, would in "The Race." My life
 you cut out the photo. has been a very
 graphs of my Father suffering one since
my Mother they must wrote to you &
 children & send them I have passed through
 to me, as I should many changes. My eldest
 like to have them sister passed away
 back very much. last June, having suffered
 I don't know whether long & heroically. She
 my record particularly unfortunately married
 interested you. Today however it's a long
 you have discovered lane that has no

 most firmly in the
 fulfillments of God's
 promises to the Race
 & to the coming in of
 a better day! To the
 Faithful, the Perfect
 the Meek & the Upright
 that will inherit the
 promises. ^{Proverbs II, 21, 22} I am fond

of Kingsley's little Verse
 And hasten, Lord, that perfect
 when pain & death shall cease,
 And thy just rule shall
 fill the earth
 with health & light & peace

Family Records were compiled in the year 1884 by many persons, and sent to Mr. Francis Galton in response to his offer of prizes, afterwards awarded.

Those Records have afforded a much needed basis for determining approximately the statistical laws of heredity, which were published in his *Natural Inheritance* (Macmillan). They have since been frequently referred to, but are now of no further use to Mr. Galton.

Believing that many of the contributors would like to have them back as documents of interest to their respective families, he will be happy to return them if the accompanying form of application be filled up in strict accordance with the annexed instructions. But he cannot return a Record to any member of a family other than the original contributor.

A few days after receiving the application in due form, the Record will be dispatched by Parcel Post.

21 Oct. 1895

My dear Sir,

In sending you an
application in response
to your courteous offer,
may I ask you a question?
Have you observed in
the course of your researches
any confirmation of the
popular belief that turns

S. L. J. GARDNER, W. J.

possession of one brain
between them?

I know of instances which
contradict such an idea
(notably that of my friend
the late Lady Eastlake), but
there is a case under my no-
tice at the present time where
one twin appears to have
just the mental faculties
which the other wants.

we go so far as to tell
her in her fits of absence of
mind that her brother is at
those periods making too
much use - as the predomi-
nant partner - of the avail-
able mind, & that as she
talks in her sleep & some-
times walks it is because
the brother, though his sounder
sleep, has released for her

a large amount of brain
power, that demands exercise.

Of course, this is all non-

sense, but there may be some
truth in the notion that twins
are not so fully equipped
when they enter the world as
the singly born.

Yours truly
Charles J. Robinson

Dear Mr Galtus

It seems so

interesting to hear of the Family
Reunited again after an interval
of 11 years! in which so much
has happened. I have lost no
whit of my interest in such
matters though I am not sure
my ideas move always exactly
on the same lines as your own -
having still more belief in the mother's influence.
My nine sons are all still
alive & doing well as far
as their conduct goes I am
thankful to say. Their abilities
are not equal so far to three

f. 1265

Mr. I think I have
expressed
how natural I feel
that we get to
work back!

f. 126v

of their maternal uncles, with
me or two exceptions. My 2^d
son is in a very good position in
the Commercial world for his age
and has something of his uncles
brilliance (it sounds excited
but is the only appropriate
word I can think of) we have
our 4th son at Maydalen Oxford
our 5th at Sandhurst & all
but the youngest at Charterhouse
where he will shortly go. They
all are "above the average"
in games, in size, sports, etc
and are all quick in the
General affairs of life, but not
at present learned - They almost

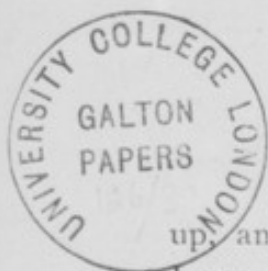

all are taller than their father ^{father}
& his family, throwing back either
to his Scotch relatives or my
mother's family & my own brothers.

Mr Ewing you would see died
in May 1885 after the operation
for an internal tumour, excited
I believe into sudden irritation
(as there was no suspicion of its previous
existence) by blood poisoning from
impure vaccination

My 3^d brother is now Chief Justice
of Sikkim, ^{his wife is dead & left no child} My eldest brother
& 2 boys are at Cambridge artistic
rather than learned in their tastes.
His only girl is in the Fair children
gallery at this moment. My 2^d
brother's eldest boy is artistic, the
other (enormously tall like his mother's
family) has just gone to Rugby

F. 1271

to the my sisters married. Horatia has
no children & lives at Rugby. The
youngest has 5 surviving & lives near there.
My youngest brother was one of Ellis
the Whips' secretaries in the late Govt.
My father is still alive (82) & after
3 months severe illness from Septi-
cemia is taking duty again. ~~He~~
is better than he was before it. His
voice seems as good as ever which
is very striking at his age -
Certain longevity is hereditary!
I had no idea when I first wrote to you
that Miss Galtun of Leamington was
your sister. If he still survives
I should so like to be remembered
to her though 35 or 36 years is
a long way to look back! I forgot to
say my husband's father died in 1888 2
days after completing his 93^d year in full
possession of his mental faculties from sheer old age

Dear Mr. Galton,

It seems to belong to
a past state of things when I
as one of your contributors, ("Jessie
Carter, of Cheltenham, in those days) sent
in a book of "Notes of Family History"

Thank you for so kindly taking
the trouble to return them, and
thank you a great deal more

for having stimulated the
interest in the question of
"Hereditiy" which I had always
to some degree felt, but
which was immensely helped
by the researches for the "Notes",
and by your books and writings

The question as to which
is the preponderating influence
in a child's life, - "Hereditiy" or
"Environment", - is one over which
I constantly ponder, but do not
seem able to come to any conclusion.

even with the study of my
own four little ones to help me.

My little son Eric, who is just
right, has already begun to
keep a diary; - an unassisted
record of anything that interests
him in everyday life. -

Again thanking you for the
range of thought and study which
you have so much helped me to,

Believe me to be

Yours very sincerely

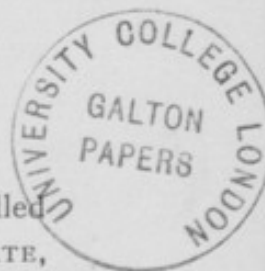

Jessie E. Walker.

Dear Sir

I thank you very much
for your kind offer to
return my m.s. of my Family
Records (Bayot's), & I
should like to have it in
my possession again extremely

If I could receive the
M.S. by or before Thursday
the 17th, I should be so
very grateful as I should
like to refer to the point
in it before leaving home
this day.

But if it comes from

the slightest inconvenience

I hope you will not give

my request another thought

Believe me

Yrs faithfully

A. de la Motte
