on both fa & me sides the family are Yorkshire yeomen, back to about 1500
fa's family were "Friends". Present generation are in the bulk successful
business men. Several have raised themselves from v small to large incomes.
me's family contains Wharfedale & Bethel blood, erratic, just waiting in genius
Those of the above can be called 'noteworthy'.

- me + Ann Flinders (Petrie) writer of some books and articles about 1840 popularizing numismatics. learned both Hebrew & Greek unassisted

It is curious how all the Petries in the Dict. Nat. Biog. are of the same type and exactly what is known of our family. Starting enterprises which they barely succeed in, and at chronic feud with officialdom of the time. The uniform type suggests one stock.
