Good health
head strong (marked)

Hendlow
Excellent
F. Good
f. good

Sabine
Generally very good
F. Generally very good
f. Generally very good

Balfour J. H.
Generally good
F. Always good till last days of life
f. Good to create part of life
then paralysis

Bowman
Good
F. Good
f. Good.

Foster
Generally good
F. Generally good
f. Generally good

Strocker
Good average
F. Good average
f. Good average

J. Garton
Good
F. Good but gouty
f. Good

Balfour T.S.
very delicate as a child from cramps
but very healthy since, only 10 days
sickness at 37 years service
F. always good
f. General good health

Raunsey
Delicate in last life, strong
as a man & capable of enduring
great fatigue
F. Good till about 50 then
paralysis
f. always good. slipped out of
life at 84

Phillips
never ill for more than 2 or 3 days
except with neuralgia. No surgical
operation except inoculation, drawing
of the tooth and cutting of corns.
F. not known
f. believed to have been good

Weak health
head strong (marked)

Farrer
as a child delicate; as a youth
healthy; as a man never ill, or
about five professional duties 2 days
in 30 years - but 2 weeks lay up in life
F. much illness but not disabled
f. always healthy

X mark

Witherstone
very delicate in childhood
away well when not overworked
F. Strong constitution but
much dyspepsia
f. Excellent health but not
especially strong.

Flower
variable, generally good
F. Generally good
f. Good

Evans
very indifferent; strong frame but
weak-winded liver
F. delicate when young, robust in
appearance afterwards, but always
nervous & depressed
f. (in return)

Spencer
rather feeble as a child, grew
up strong, at 35 had 3 days
of a severe overwork & lay
in bed recovering
F. Originally strong. Health
soon went overwork at 33
remained recovery for many
years but by case became weakly
as he got towards 60. Strong
when old.
f. rather feeble when young
but result of moderate strength

Evans
Generally pretty good; never very
strong, never any severe illness, not
twice in life 3 days together in bed
F. rather delicate when young, after
wards strong & always well
f. always delicate

Smithy and
very good in youth & early
manhood, weakened in middle
life by intense work; subsequently
broken by overwork
F. Good but not very strong
had malaria in last manhood
which left his health delicate
f. fair

Paid P. B. Co.

Francis G. Bell

Cayley
I had an early taste for mathematics.

Young Cobden
Yes, I was always attracted to men of ability.

Haughton
As far back as I remember I loved Nature and desired to learn her secrets.

Herzst.
My taste for mathematics appears to be innate.

Walford
Innately innate.

Sept Hill
I had an innate aptitude for miscellaneous information.

Buller's Wood
Yes, I remember distinctly when I first wrote.

Bushell
Perhaps wholly innate.

Claborn / H
Yes, the date from a very early period and there is not doubt possible from my early surroundings.

Harcourt
Innately.

Arceus
Yes, I was always observing & inquiring.

Wooler
From an early age I had an innate taste for all branches of natural science.

Anders
Quite a natural taste.

Spotton Sir D. de Grey
Yes, I was always fond of natural history.

Peel
Yes, I can well recollect as a boy of 10 or so.

Washington Weymouth
Yes, decidedly.

Adams
Innate, long of nature and of natural phenomena.

Bull Hill
Decidedly innate, I had no natural shyness.

Balmain James
I was always fond of plants.

Carver
I was always fond of objects of natural knowledge.

Cottrell
Yes, I believe my taste was inherited from my mother's father.

Barrow
Certainly innate.

Gray John Brown
Yes, inherited from my father's family.

Green
My love for natural science was inherited from my father's family. I had a special interest in the study of natural life under any conditions.
J. Guller Hooker
In born.

Labrook Wm
Innate and I believe, according to my degree from my father's father.

Milner
Innately innate.

Down
Innate & derived from my mother.

Newton
Yes, I cannot recollect the time when I was not fond of animals & of birds in their respective things.

Parke Wm
Innate.

Solter
I believe so, I began collecting birds & studying them when I was 6 or 7 and without any instruction.

Steele
Yes, the aptitude to be inherited from my father.

Strom
Innate.

Strom
Innate & developed afterwards.

Armstrong Wm
If any taste ~~was~~ be innate, mine was; my date began by collection.

Rankin Henry
Decidedly.

Anderson
Partly innate, partly acquired by an eminent friend.

Playfair James
Scarcely innate.

S. Forbes
In great measure innate.

Baird John
A natural inclination encouraged by my father.

Balmain John
Natural taste, inherited from my father, though my mother's side, I may presume.

Page Wm
In a great degree innate.

Allen Thomas
I believe a great degree the result of natural disposition & education.

Francis Wm
I cannot perceive.

Tarver S. A.
I perceive no evidence (one way or the other).

Williamson Wm
I cannot say, but I doubt that innate character.

Gay W.
I think innate.

W. Rowland Hill
I cannot distinguish.

Fairbairn Wm
I cannot tell.

Herschel
I cannot say.

Bentham
No.

Currey
No.

Fox (London)
No.

Hampden
Not at all.

Watson Sir John
No.

Inmate
bales

Inmate bales

Paget
Always very studious

Bole
Hardly accomplished

Cayley
no scheme
[very smart]

Barwin
Very studious but not
hardly accomplished

Ball
Very interesting in camp
life.

Hooker
Smart.

Hirst
Smartest of us.

Westwick
Innocent, never tired
of endless branches of
study.

Jeffrey
Studious and gentle
-hearted.

Anderson
General science and a
taste for general classical
literature.

Forbes
Studied over a wide field
too much so, not concentrated
enough.

Young
Studious always.

De la Rue
Always a student but
not a scholar.

Harcourt
Chemistry was the
favorite occupation of
my holidays.

Quintan
For

Thomson - same
Considerable range but
not capable of very deep
thought.

Scott
Very fond of study; 22
of work.

Balmain James
Considerable.

Peckes
For, but work hardily.

Watterson 100
Considerable.

May fast
more receptive than
studentship.

Freeman 100
He is a general student
but will work with the
best of us.

Gray
Certainly.

Hill
Yes, but has wanted
science.

Warrfield
100

Stokes
100

Quintan
Not remarkable, but fine
large veins around
mounts.

James Earl
100

Johnson
Not studious but
discipline.

Simons
Not naturally studious but
accepts an instruction.

James
Great fellow, is a
long.

Stadiounefs

Steadfast

Chambers
Steady and intense
perseverance

Armsstrong
Strongly judgment of an
object is the most
strongly marked charac.
feature

De la Rue
Determination never to
be unaccomplished a
matter is hard

Macbride
Perseverance and industry
the most prominent
qualities

Loans Clerk
A certain degree of firm
ness and a firmness
of spirit is necessary

Tele
Perseverance & determination

Gray
Determination always
to succeed

Carter
Determination & success
of habits

Terrell
Determination and to be
satisfied in carrying out
the purpose of the day

Scott
Determination in working
at what is strongly
desired

Williamson
Determination in
definite pursuit

Lesford
Very persevering

Forbes
Determination, perse-
vering.

Hirst
Steadfast, decidedly
marked.

May well
Great steadiness

Herrifield
Very persistent. Cool
and strong nerve.

Hampden
Tenacity of purpose

Barrow
Steadfast

W. H. Gray
Steady love of pursuit

Worles
Steadfast

Neal
Steadfast

Sanborn
(but himself F. E. King
at the position)

Luftail
Steadfast

Stiles
Steady with strong
feelings.

Reid
Determination & perse-
verance - strong love
of his own pursuit

Proctor
I do all things at a
single heat, but never
lose

Simons
Simplicity & determined
in object of importance

Osborn
Impulsive.

Ford
Naturally impulsive

Thompson, Allen
Impulsive in spirit
& action

Wester
Persistent

Business habits

Schley
Determination & energy
of purpose. Firmness
of will. Strongly
persistent.

Scott
Strong business habits

Barrow
Determination in
business. Strongly
persistent.

Luftail
Clear business habits

Spencer
Practical business habits

Osborn
Practical & business
habits

Greenlee
Business habits strong

Mayhew
Strong practical business
habits

Ball
Business administrative
habits

Proctor
Strong business habits

Williamson, W. C.
Business habits

Johnson
Practical & business
habits

Tele
Practical business habits

Hill
[clear business habits]

Page
Practical business

De la Rue
Clear business habits, but
some fear of business.

Gray
Practical business

Worles
Very strong practical business
habits

Williamson, W. C.
Business habits

Thompson, Allen
Practical business

Luftail
Practical business

Sanborn
Practical business of business

Loans
Practical business

Herrifield
Practical business habits

Carter
Good business talent

Stiles
Business habits

Carter, W. C.
Business habits

Worles
Very low business

Handwritten text on a small paper slip, possibly a label or note, pasted onto the brown paper. The text is written in cursive and includes:

St. Olineh
Impulsiv
Bunings Habel

Below the main text, there is a circular stamp or seal, partially legible, which appears to contain the word "POST" and some other markings.

Independence of character

Role
Very independent indeed
will not trust to any body
in authority

Young
Always has other schemes
usually in secret, but a well
kept secret

Deborah
Independent in all
F. not independent.

George
Intellectual challenges con-
ventional values.

George
More headstrong, marked
F. definitely fearful

Laura
In, remarkable.

F. Gaskell

Deborah
I think fairly - I mean, I'm
always willing to stand up for
what I believe in, but I'm not
stubborn.

Deborah
checked out my own study

Deborah
Quite independent

Deborah
Strong independent character
but still very much influenced
by her mother's views. I think
she would not be very different
if she were a man. I think she
is very independent character.

Deborah
I think she is very independent
character. I think she is very
independent character. I think
she is very independent character.

Deborah
I think she is very independent
character. I think she is very
independent character. I think
she is very independent character.

Independence of
Character

Harber
Hard endurance of fatigue
as best thing. (Resistant
to fatigue) - travelled
back in various climates

Obbott
Abundant energy activity
in field work.

Back
Suffered from fatigue in
France (1914). Three
articles last report

Forbes
Intense energetic, all the
time (1914) - worked for
years in various climates
and in the field

De la Rue
Capable of any amount of
work. (1914) - worked
in the field

Smith (conductor)
Worked in the field
for years in various
climates and in the
field

Boatman
Has done his share (1914)
in the field

Harwood
Worked in the field
for years in various
climates and in the
field

Hill
One of the best runners and
leapers at school, a perfect
- but weak.

Quinton
When feeling a sharp
ache in the leg, never
resting.

Tracy
Active energetic from
infancy to 24 years

Ball
Capable of activity but
not good strength. (1914)
- but weak.

Reardon
Capable of activity but
not good strength. (1914)
- but weak.

Townsend
Considerable in field
work, hard (1914)
- but weak.

Scott
Hardly energetic all last
year. (1914) - but weak.

Parsons
Worked in the field
for years in various
climates and in the
field

Anders
Very energetic, active
in the field (1914)
- but weak.

W. Boulton
Strong, worked 50 miles
a day in the field (1914)
- but weak.

Evans
Made an office (1914)
- but weak.

Parot
Very active (1914)
- but weak.

Scott R.R.
Active in the field
for years in various
climates and in the
field

Newton
Influence of rough (1914)
- but weak.

Dezell
Remarkable energy and
endurance (1914)
- but weak.

Aderson
Very energetic, athletic
(1914) - but weak.

Hausman
Considerable when young;
a good runner, swimmer
and jumper, could walk.

Macfarland
Strong (1914) - but weak.

Boatman James
Great energy & power of
endurance (1914) - but weak.

Leubrock
Active (1914) - but weak.

Obbold
Excellent in athletic at
school & college. Jumped
18 feet.

Young
Endurance energy and
endurance of fatigue.

Schaler
Then a bold rider with
horse, number of (1914)
- but weak.

Stewart
Active (1914) - but weak.

Cayley
Has been a good (1914)
- but weak.

Stokes
Great energy (1914)
- but weak.

Newton (Anita)
Very good vitality; (1914)
- but weak.

Armstrong
Active (1914) - but weak.

Williamson
Active (1914) - but weak.

Anders
Active (1914) - but weak.

Orain
Considerable power of
endurance (1914) - but weak.

Very
Active; can endure
fatigue.

Parsons
Active (1914) - but weak.

Boatman John
Fair, has walked
40 miles a day.

Curry
Not capable of (1914)
- but weak.

Schaler
Then a bold rider with
horse, number of (1914)
- but weak.

Stewart
Active (1914) - but weak.

Cayley
Has been a good (1914)
- but weak.

Stokes
Great energy (1914)
- but weak.

Newton (Anita)
Very good vitality; (1914)
- but weak.

Armstrong
Active (1914) - but weak.

Williamson
Active (1914) - but weak.

Anders
Active (1914) - but weak.

Barrow
Worked in the field
for years in various
climates and in the
field

Leubrock
Active (1914) - but weak.

Quinton
When feeling a sharp
ache in the leg, never
resting.

Harber
Hard endurance of fatigue
as best thing. (Resistant
to fatigue) - travelled
back in various climates

Parot
Very active (1914)
- but weak.

Stewart
Active (1914) - but weak.

Boatman
Active (1914) - but weak.

De la Rue
Capable of any amount of
work. (1914) - worked
in the field

Parot
Very active (1914)
- but weak.

Newton
Influence of rough (1914)
- but weak.

Dezell
Remarkable energy and
endurance (1914)
- but weak.

Aderson
Very energetic, athletic
(1914) - but weak.

Newton
Considerable energy in
field work.

Cayley
Very good

Hausman
Considerable energy in
field work.

Parsons
Worked in the field
for years in various
climates and in the
field

Parot
Very active (1914)
- but weak.

Stewart
Active (1914) - but weak.

Boatman
Active (1914) - but weak.

De la Rue
Capable of any amount of
work. (1914) - worked
in the field

1st Books

Harlow
great power of association
forms a kind of systematic
method. Some of the things
are abstract, original, and
familiarity with Latin

Keane
very strong both in style
in their collection and in
social interaction

De la Rue
Keane's memory, but
to know good to what
is connected together

Ball
in great in some
lectures, blank in
others (2 in mind)

Queller
Excellent but forgetful
recollections of names

Beck
Strong local memory

Parsons
Good in facts &
ideas

Locher
Excellent but not
in dates & names

Croft
Strong in all 3's, still
able to name and describe
from 2000 to 3000 species

Queller L. H. very
attention to botanical
not to numbers or history

Southman
lecturer of botanical
names

Ballman Jr
Good in names, the rest
of which he is good
before class

Hayden
Considerable. Can
learn a great deal
from Darwin & other
early & 3 times

Stiles
very remarkable

Dean
Naturally better
about dates

Hill
Excellent, verbal
strong in facts and
figures

Cooper
Good, far above
the others

Gray
very good

Harwood
very retentive and can
carry first half of
things

Barwick
very good in dates and
particular facts but good
in general retention of
facts

Scott
very retentive but not
exactly accurate

Balman Jr
used to be great

Toy
very good as a boy
and young man

Williamson
considerable

Parley
24

Locher
Excellent in method,
not in things

Stewart
Good in facts

Harcourt
Very retentive in
particular; retention of
dates

Osborn
good

Frederick
good

Hampden
verbal memory but

Smith (University)
very moderate

Thomas
not good

Hewitt
not retentive

Carrington
very poor

Gray
Bad, especially of
names

Baile
Bad in names, dates,
and abstract facts
