PHILADELPHIA.

BEEF PEPTONIDS!

THE ONLY PERFECT FOOD EVER PRODUCED.

The Nutritive Constituents of BEEF and MILK with GLUTEN

Each ounce of Powder represents 10 ounces of Beef, Wheat or Milk.

- 1st. BEEF PEPTONIDS, as now prepared, is both *pleasant to the taste and smell*.
- 2d. There is no food preparation that compares with it in nutritive properties.
- 3d. It contains over 98 per cent. of nutritious matter.
- 4th. One ounce of BEEF PEPTONIDS contains more nourishment than five pints of beef tea prepared from eighty ounces of beef.
- 5th. BEEF PEPTONIDS is the only preparation, rich in nitrogenous matter, that is pleasant to the taste.
- 6th. It has the advantage of being easily and quickly prepared for use.

BEEF PEPTONIDS

Received the only GOLD MEDAL and Highest Award at the INTERNATIONAL HEALTH EXHIBITION, LONDON, 1884, after a critical examination of numerous food productions by a Jury composed of the best Chemists in Europe.

"Beef Peptonoids is by far the most nutritious and concentrated food I have ever met with. Indeed, a palatable and assimilable and in every way acceptable article of food, containing nearly 70 per cent. of purely nutritive nitrogenous material, has never before, to my knowledge, been offered to the Medical Profession or to the Public."

PROF. JOHN ATTFIELD, London.

Price in four-ounce packages, \$1.00; also for convenience and economy, we put up BEEF PEPTONIDS in 17-oz. tins, which will be sent to any physician's address, post-paid, on receipt of \$2.50. Sample mailed on application.

Thanking the profession for generous support in the past, we remain,

Very Respectfully,

REED & CARNRICK,
NEW YORK.

PEPTONIZED

COD LIVER OIL AND MILK.

Physicians who use Cod Liver Oil, or who have discontinued its use in consequence of its offensiveness or its injury to digestion should not fail to give this preparation consideration. It is so far in advance of the Emulsions and all former preparations of the Oil that they bear no comparison with it.

1st. Both the OIL and MILK are perfectly digested and wholly assimilable and consequently will agree with the most delicate stomach, while the use of the PLAIN OIL or the EMULSIONS soon injures digestion to such an extent that but a small portion is assimilated.

2d. It is so palatable that many Physicians administer it to delicate patients as a preparation of cream.

3d. The complete masking of the OIL in Peptonized Cod Liver Oil and Milk is almost wholly due to the digested milk.

4th. Peptonized Cod Liver Oil and Milk is furnished at the same price as PLAIN OIL or the EMULSIONS, although it costs one-third more to produce.

9th. PHYSICIANS OR DRUGGISTS NEED NOT HESITATE TO ORDER Peptonized Cod Liver Oil and Milk, FOR IF IT DOES NOT PROVE SATISFACTORY IN EVERY RESPECT, WE WILL IMMEDIATELY REFUND ITS COST.

We also manufacture the above preparation combined with Hypophosphite of Lime and Soda. We will furnish gratuitously to any Physician who will pay carriage, a pint bottle of the above preparation.

Send for Pamphlet giving a full description.

PHILLIPS' PALATABLE COD LIVER OIL—Emulsion.

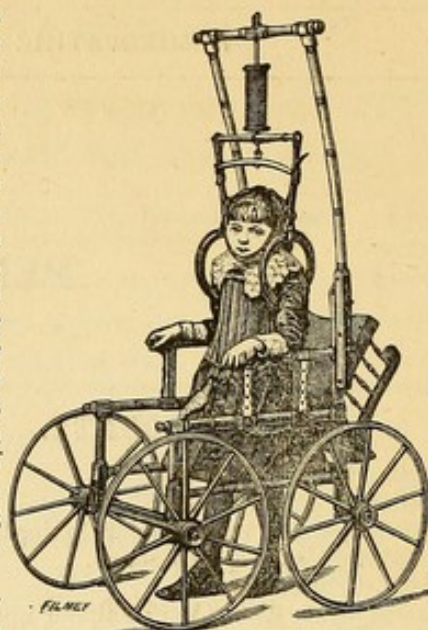

It presents the most MINUTE DIVISION OF THE OIL GLOBULES yet attained in an Emulsion. IS PERFECTLY MISCIBLE with MILK, WATER, or other fluid in any proportion. The Oil is PEPTONIZED or partly digested by means of PANCREATINE.

❖ DR. MEIGS CASE'S SPINAL APPARATUS. ❖

[See Leading Article in MEDICAL RECORD, New York, Dec. 27, 1884.]

This apparatus applies to the treatment of Spine Disease the principle of extension, already well established as a most efficient method for the cure of diseases of the joints. With this it combines these additional requirements in spinal cases: Relief from the weight of the head and shoulders (without casting the burden on some other part of the body); the straightening of the curves (by means of the traction exerted by the weight of the body itself); and opportunity for exercise without restraint under these favorable conditions.

The results of daily exercise in this apparatus quickly demonstrate its utility. The patient improves rapidly in strength and height; the muscles concerned in maintaining an erect position are developed and invigorated, and a few weeks will frequently show a greater gain than can possibly be reached by months of treatment with the restrictive appliances in general use. For price, directions for measurement and use, and other information in respect to this apparatus, apply to

L. REICH,

Office, 63 EAST 11th STREET, NEAR BROADWAY, N. Y.

IMPORTER OF THE CHOICEST AND PUREST

HUNGARIAN WINES

As Commended by the Most Eminent Medical Men of the Country.

THIS IS TO CERTIFY that I have examined Mr. Reich's TOKAYER AUSBRUCH, TOKAYER MASLAS and BUDAI IMP. I take great pleasure in commending these wines to the medical profession because of their purity.

R. OGDEN DOREMUS, M.D., LL.D.,
Prof. of Chem. and Tox., Bell. Hosp. Med. Coll., and Prof. of Chem. and Physics, Coll. City of N. Y.

WE have used in our practice the Hungarian Wines sold by Mr. Lorenze Reich. Mr. Reich puts them on the market unadulterated, just as they are imported; to this fact we attribute their great value as a medicine in diseases where tonics are indicated, especially in those which are attended by defective digestion and imperfect assimilation. We cordially recommend Mr. Reich and his wines to our professional brethren.

Used in all Hospitals, Cliniques and Public Institutions throughout Europe, and by the entire medical profession.

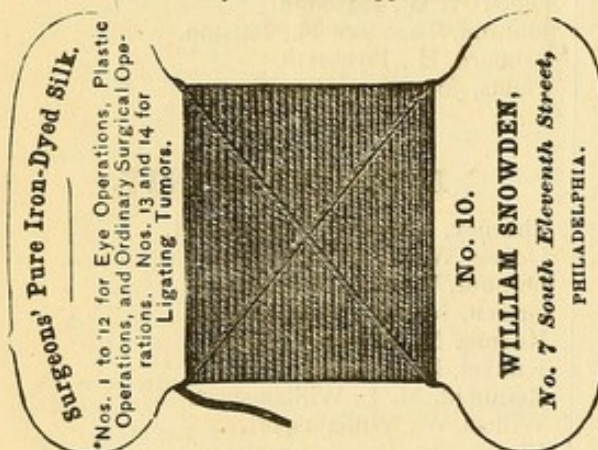

TO THE

MEDICAL PROFESSION.

CHERRY-MALT PHOSPHITES, as its name indicates, is a combination of Wild Cherry, Extract of Malt and the Elixir of the Hypophosphites, together with a sufficient proportion of Spirit to prevent the formation of mould or fermentative decomposition.

Full size bottle sent upon receipt of 50 cents, with which to prepay express.

A Sample card of the Iron-Dyed Silk (14 Sizes) will be sent to any address on application.

Iron-dyed silk ligature is the best and cheapest for general use.

It is round, not plaited, well finished and durable.

Can be waxed, oiled or carbolized.

Can be readily seen.

Is not inflammatory.

Nos. 1 and 2 will remain in the flesh a long time without causing irritation.

It is the best for plastic surgery.

It is a most delicate strong ligature.

No. 14 is as strong as ever needed.

Does not soften and loosen itself, as catgut does.

Price, per Reel, 10 Cents.

Established 1821.

The Oldest Surgical Instrument Manufacturing and Importing House in the U. S.

WILLIAM SNOWDEN,
Manufacturer and Importer of Surgical Instruments,
No. 7 SOUTH ELEVENTH ST., PHILA.

PHILLIPS' PALATABLE COD LIVER OIL—Emulsion. It presents the most MINUTE DIVISION OF THE OIL GLOBULES yet attained in an Emulsion. Is PERFECTLY MISCIBLE with MILK, WATER, or other fluid in any proportion. The Oil is PEPTONIZED or partly digested by means of PANCREATINE.

Established 15 years.

Observe this Name.

Beware of Imitations.

COLDEN'S LIQUID BEEF TONIC.

ORIGINAL LABEL:

"Colden's Liebig's Liquid Extract of Beef and Tonic Invigorator."
(Originated and first prepared by the Liebig Meat Extract Co., London, England.)

This preparation consisting of the Extract of Beef (prepared by Baron Liebig's process), the very best Brandy, soluble Citrate of Iron, Cinchona, Gentian, and Simple Aromatics, is submitted to physicians as a RELIABLE TONIC for a trial of its virtues. There are several preparations purporting to contain some of the same ingredients, but the high cost of manufacture and the consequent reduction of profit, have caused the manufacturers to allow many of these to deteriorate by the use of impure and cheap materials.

SIR ERASMUS WILSON, of London, says:—"Several cases of incipient consumption have come under my observation that have been cured by a timely use of LIEBIG'S LIQUID BEEF TONIC (COLDEN'S)."

We are in receipt of several hundred similar commendations, but prefer instead of introducing them here, to merely append an official analysis of this preparation, made by the eminent London chemist:

ARTHUR HILL HASSALL, M.D., F.R.S.

"I obtained the samples indiscriminately from the Company's Warehouse, Lower Thames Street, London, E. C. I find this preparation contains:

| | |
|---|----|
| 20 per cent. saccharine matter | 20 |
| 25 per cent. glutinous or nutritious matter obtained in the condensation of the beef, | 25 |
| 25 per cent. spirit rendered non-injurious to the most delicate stomach by the extraction of the fusel oil | 25 |
| 30 per cent. of aqueous solution of several herbs and roots, among which are most discernable Peruvian and Calisaya Barks | 30 |

Total 100

I have had the process explained by which the beef in this preparation is preserved and rendered soluble by the brandy employed, and I am satisfied this combination will prove a valuable adjunct to our pharmacopoeia.

ARTHUR HILL HASSALL, M.D., F.R.S.,
Pres. of the Royal Analytical Ass., London,
Russell Square, London, W.C., 3d Jan., 1868."

Since the date of the above analysis, and by the urgent request of several eminent members of the medical profession, I have added to each wineglassful of this preparation two grains of SOLUBLE CITRATE OF IRON.

T. COLDEN.

COLDEN'S LIQUID BEEF TONIC

Is therefore presented to the profession with a confidence inspired by a knowledge of its properties, and a guarantee of its purity and perfect assimilability.

Its benefit is particularly marked in lowered states of the system, such as simple anæmia, and that resulting from malarial poison, in chlorosis, spinal irritation, mental and nervous debility of over-worked business men, and especially in convalescence from protracted diseases. Its simple bitter principle acts directly on the sentient gastric nerves, stimulating the follicles to secretion, and giving to weakened individuals that first requisite to improvement—an appetite. The Cinchona which it contains makes it indispensable in the treatment of the results of malarial poison, whilst its Iron is a direct blood food, and its alcohol acts in the double capacity of assisting the local effect of the simple bitters upon the gastric mucous membranes, and also as a direct nervous stimulant.

N. B.—COLDEN'S LIQUID BEEF TONIC is sold by Druggists generally. In prescribing or ordering our article, physicians should be particular to mention "COLDEN'S,"—viz.: "CARNIS, FL. TONICI (COLDEN'S)." To guard against imitation, see fac-simile of T. Colden on bottle label. I will send to ANY PHYSICIAN who will apply to me in person, or by letter (enclosing card), a sample bottle delivered free of expense to any part of the United States.

C. N. CRITTENTON, General Agent,
115 FULTON STREET, NEW YORK.

ANGLO-SWISS

MILK-MAID BRAND.

TRADE MARK.

MILK FOOD

For Infants and Invalids.

Made at Cham, Switzerland, by the Anglo-Swiss Condensed Milk Co.

Prescribed by leading practitioners, and used in prominent institutions.

Decided superiority is claimed for the Anglo-Swiss Milk Food in comparison with any other farinaceous Food for infants and invalids.

CHEMICAL ANALYSIS.

| | per ct. |
|---|-------------|
| Moisture | 5 to 6 " |
| Nitrogenous matter (Nitrogen, 2.25 to 2.35) | 14.5 " 15 " |
| Carbo-hydrates, soluble in water | 54 " 55 " |
| Carbo-hydrates, insoluble in water | 15 " 16 " |
| Fat | 4 " 5 " |
| Ash (inclusive of 0.6 Phosphoric Acid) | 2 " 2.5 " |

"The proportion of nitrogenous matter or plastic aliments to carbo-hydrates or respiratory constituents in mother's milk is 1:4.5, and in this food the proportion is practically the same, namely, 1:5.7. The fat, as a respiratory substance is here reduced to the equivalent of starch."

"My analysis perfectly agrees with the analysis given on their labels and bears witness to the excellent and rational manner in which this food is compounded."—Dr. E. GEISSLER, Dresden, April 10, 1880.

"I recommend it with confidence for infants or invalids. The introduction of Anglo-Swiss Milk Food into America is a great blessing to sick children, weary mothers, and almost discouraged physicians."—E. A. JENNINGS, M.D., Provident Dispensary, 62 W. 14th St., N. Y.

"Used in New York Infant Asylum."—J. LEWIS SMITH, M.D.

"The Diarrhoea had been persistent for four months in spite of the use of other foods. After using two days the evacuations became normal and the puny child is now plump and healthy."—Geo. M. OCKFORD, M.D., Vincennes, Ind.

"Used in our Sea-Side Nursery. It nourishes and strengthens every child to whom it is given"—JOHN W. KRAMER, M.D., Master of St. John's Guild.

"Our little ones love it. It regulates and strengthens the bowels."—SISTERS OF CHARITY, St. Vincent's Home, Philadelphia.

SAMPLES FURNISHED TO PHYSICIANS GRATIS.

Addresss, ANGLO-SWISS CONDENSED MILK CO., P. O. Box 3773, N. Y.

SOLD BY DRUGGISTS GENERALLY.

The annual production of Condensed Milk is estimated at 60,000,000 cans, manufactured by eleven different firms in Europe and America; that is to say, the Anglo-Swiss Condensed Milk Co. supplies two-thirds of the world's entire demand, and the other ten firms the remaining third.

Fresh
and Reliable
Vaccine

WE receive our supply of
reliable Bovine Virus

FRESH EVERY DAY,

And fill orders as soon as received with
a Pure, Reliable Article.

Terms to Physicians:

10 well charged Ivory Points in metal case, \$1 00
Single Points, 15 cents.

10 Quill Slips, each wrapped in air tight enclosure, 1 00

We guarantee all virus, in the above forms, that fails to
take on *Primary* Cases when reported within two weeks, if kept
and used according to the directions.

ORDERS BY MAIL

With the amount enclosed, receive immediate attention, and are usually
mailed within an hour after they are received.

Try some and be convinced of its superiority.

Address, HENRY C. BLAIR'S SONS,
Walnut and 8th Sts., Philadelphia.

THIS ALTERATIVE was first introduced to the profession and the public
in the year 1820. It has the recommendations of the most eminent pro-
fessors of Physic in the Universities of New York and Philadelphia; the late
Dr. Valentine Mott, Professors Gibson, Chapman, Dewees and others, and has
been used by thousands of families.

In **Scrofula**, whatever may have been its origin, and in dis-
eases known as "**Secondary Symptoms**," in that distressing
malady called **Coxalgia**, and **White Swelling**; in *Mercurial*
Rheumatism, *Scrofulous Ophthalmia*, *old Chronic Ulcers*, etc., it
displays its controlling influence, and in the great majority of
cases *arrests* the *progress* of the disease and restores the patient
to health. It has been the means of saving thousands from beds
of suffering and lingering deaths.

Druggists unacquainted with the properties of this remedy are assured it

**DOES NOT CONTAIN ANY MERCURIAL
INGREDIENT WHATEVER.**

Bear in mind this is not a new ephemeral remedy gotten up for speculative
purposes, but has an unblemished record of more than half a century of testing,
and stands to-day alone and unrivalled. Hundreds of Physicians, thousands
of families have used it advantageously. To these we confidently appeal for
recommendations of its value, and a fair trial will soon verify our statement.

Address orders to **DR. FRANKLIN STEWART, Manager**, (under whose super-
vision it has been manufactured the past thirty-five years).

SWAIM'S LABORATORY,

Seventh Street, below Chestnut, Philadelphia, Pa.

The fac-simile of our bottle will protect purchasers from being imposed on by a base imita-
tion sold on our reputation by a person who puts up a so-called Panacea; but the name is
different. Druggists must be on the lookout for it, or they may be swindled,

VIN MARIANI ERYTHROXYLON COCA.

Most agreeable and efficacious
Tonic, nourishing, strengthen-
ing and stimulating without
unpleasant reaction

PEPTONIZING TUBES.

PEPTOGENIC MILK POWDER.

By means of this digestive powder, with the very simple and practical process originated and perfected by us, the caseine of cow's milk is modified and predigested, and other essential components so supplied as to yield a product almost identical in physiological, chemical and physical properties with human milk.

"Yields a *humanized* milk which in taste, physical characters and chemical constitution, approaches very closely to woman's milk."

ALBERT R. LEEDS, PH.D.,

Prof. of Chemistry, Stevens Institute of Technology, Hoboken, N. J.

"I have carefully tried the Peptogenic Milk Powder with infants, and am truly delighted with the results. It certainly is a great advance, and I really believe it to be as near perfection as we can get it."

"I feel satisfied that the question of infant feeding is solved. It is especially valuable for infants who are early deprived of breast milk."

J. M. KEATING, M.D.,

*Visiting Obstetrician to Philadelphia Hospital, and
Lecturer on the Diseases of Women and Children, etc.*

"In the present state of our knowledge of infant feeding, therefore, we can recommend no better substitute for human milk than peptonized cow's milk."

J. LEWIS SMITH, M.D.

Pamphlets giving explanation and description of these preparations sent gratis, upon demand to our address.

For simplicity and novelty of construction, and solid workmanship combined with elegance in appearance, these instruments stand without rivalry; they are used and endorsed by high medical authority throughout our own and foreign countries, and are officially adopted by our U. S. Government as the most perfect. *For Catalogue and Price List, address*

OTTO FLEMMING, 1009 Arch St., Philadelphia, Pa.

"These plates are a wonderful success."—J. C. WHITE, M.D., Prof. Dermatology, Harvard University.

48 Quarto Plates (76 Cases from Life), Colored by Hand, with descriptive text,

By DR. G. H. FOX, Professor Diseases of the Skin, College of Physicians and Surgeons, N. Y.

THIS ATLAS OF SKIN DISEASES is the labor of years, and in its preparation the author has not only selected from thousands of cases under his charge in the New York Dispensary, but has had access to the Bellevue and Charity Hospital collection of several thousand negatives, taken from patients in various hospitals and private practice.

This series of plates are produced by the Artotype process, which not only possesses the sharpness of detail, and brilliancy of photographs, but, unlike the latter, will not fade through age or exposure of light. They are carefully colored by hand and more accurately represent disease than any lithographs or colored photographs which have ever been offered to the profession. 100 pages of Text, with treatment accompany the plates.

In 12 Numbers. \$2 Each, Complete in One Vol., Half Roan, \$26.75; Half Morocco, \$28.

Sold only to subscribers. Send orders to.

LACTOPEPTINE,

**The most important remedial agent ever presented to the Profession
for Dyspepsia, Vomiting in Pregnancy, Cholera Infantum,
Constipation, and all Diseases arising from
imperfect nutrition.**

LACTOPEPTINE precisely represents in composition the natural digestive juices of the Stomach, Pancreas and Salivary Glands, and will, therefore, readily dissolve all foods necessary to the recuperation of the human organism.

CAUTION.

We regret that we are compelled to caution the profession in prescribing Lactopeptine, but very careful investigation has proven to us clearly the necessity of it.

Substitution of cheap and worthless compounds are being made in many cases where Lactopeptine is prescribed.

Lactopeptine is always UNIFORM, and its effects are SPECIFIC, and no one has ever been able to imitate its digestive value. If you do not obtain positive results when you prescribe Lactopeptine, you can be sure that some substitution has been made, and in such cases it may be necessary for the physician to prescribe Lactopeptine in the original ounce package to insure certainty of obtaining the genuine article. We can confidently make this assertion, knowing the scrupulous uniformity in digestive value of every ounce of Lactopeptine.

Lactopeptine has always been kept strictly in the hands of the Medical Profession, never having been admitted in any publications but Medical Journals. It is prescribed by the most intelligent and educated physicians in all parts of the world, and there are but few physicians who have ever used Lactopeptine that will not agree with the late Prof. I. P. Yandell, when he says: "Lactopeptine is one of the certainties in medicine, and in this respect ranks with Quinine."

In the various forms of Dyspepsia, in Vomiting in Pregnancy, and in Malnutrition of children, there is no known remedy so positive in results.

291 Broadway, Cor. Reade St., N. Y.

The American Homœopathist.

GEO. W. WINTERBURN, Ph.D., M.D., Editor

During the year 1884 we presented one hundred and fourteen original articles from seventy-three writers; in addition to this the editor contributed one hundred and eight columns of original matter, one hundred and forty-three condensations and original translations from foreign periodicals were given, besides book reviews, news and items, etc. Over 280,000 words a year for \$2. Send for it and you will find its monthly visits a source of pleasure and profit.

Homœopathic Journal of Obstetrics and Diseases of Women and Children.

HENRY MINTON, A.M., M.D., Editor.

Issued quarterly, 550 pages, elegantly printed. \$4 per year.

The diseases peculiar to women and children are the subject of special study to a large portion of the medical profession, and this journal is of a practical character, necessary to the general practitioner, and particularly to those giving special attention to the subjects within its limits.

NEW MEDICAL BOOKS.

A Treatise on the Breast.

By H. I. OSTROM, M.D., New York.
Cloth, \$3.

A complete exposition of the surgical and medical treatment; a work evidencing great research and study.

DISEASES OF THE EAR.

By CHAS. F. STERLING, M.D.

A condensed and thoroughly practical work, including both local treatment and indications for homœopathic remedies. Designed as a manual for the student and practitioner. Cloth, \$1.25.

Diseases of the Nares, Larynx and Trachea in Childhood.

By THOMAS NICHOL, M.D., LL.D., B.C.L., Montreal.

Cloth, \$2.50. A valuable work by one of the most popular and able writers of the day.

UTERINE THERAPEUTICS.

By HENRY MINTON, A.M., M.D. Sheep, \$6.

"Those who wish to affiliate a remedy to a given case, one in which the menstrual symptoms predominate, and the collateral symptoms confirm the indication, will find in this book just what they want."—Prof. R. Ludlam, M.D.

WHOLESALE, IMPORT AND EXPORT :

No. 145 GRAND STREET, NEW YORK.

LABORATORY AND MANUFACTORY :

No. 1011 ARCH STREET, PHILADELPHIA.

ALCOHOL.—It is of paramount importance that this factor in the development of drug action be of the utmost purity, and it is especially in the preparation of dilutions that its quality should be above suspicion. The improved methods and appliances of the present day are vastly superior to the comparatively crude process of purification in Hahnemann's time. The various methods are described at length in *Boericke & Tafel's Bulletin* of Jan. 1885, and the careful purchaser can easily procure a perfectly reliable article. We would reiterate, however, although it ought to be superfluous, that the physicians should themselves experiment on the goods they are purchasing, instead of trusting to the facile drummer or to specious advertisements. The tests for Alcohol are fully described in the *American Homœopathic Pharmacopœia*.

| | |

* The strength Hahnemann used in making potencies.

SUGAR OF MILK.—This is the inert substance selected by Hahnemann for the purpose of reducing and comminuting the mineral substances of the Homœopathic Pharmacopœia. To serve this purpose properly it is necessary that it should be freed as well from mechanical impurities as from an excess of the animal salts contained in it. We refine and re-crystallize our sugar of milk on our own premises, and after having been thoroughly dried it is pulverized on our mills that were never used for any other purpose. Many sophistications are introduced into this article by various dealers, and physicians should be careful from whom they purchase. Its character and test are for the most part easily applied. They are also described in the *American Homœopathic Pharmacopœia*.

| | |

| Coarse, for prescriptions, per pound | .60 |
| " " " 10 pounds | 5.50 |

Larger quantities at special rates.

GLOBULES.—Cane Sugar Globules are the old and legitimate vehicle for dispensing the potentized homœopathic remedies. Purity is evidently no less essential in this article than in the agents aforementioned. Our pellets are made from cane sugar guaranteed by the refiners to be free from Muriate of Tin or other chemicals frequently employed in the process of refining. We use nothing beside this cane sugar in preparing the pellets, the starch and Acid Tartrate of Potassa often employed to render them porous or soft being obviously inadmissible in vehicles for homœopathic remedies. It is illogical, where the potencies are employed, to give the preference to the medium absorbing the largest volume of the attenuated medicine, when, on the contrary, the purest and most neutral vehicle should be preferred. Our pellets, saturated with dilutions, made with alcohol of the proper strength, will be found to absorb quite the

necessary quantum with no danger of altering the effect of the medicine from adulterations.

Prices from No. 10 upwards:

| | |
|------------------------------------|--------|
| Per pound in box..... | \$.35 |
| " ten pounds in boxes..... | 3.25 |
| " " " in bulk..... | 3.00 |
| " twenty-five pounds in boxes..... | 7.50 |
| " " " in bulk..... | 7.00 |

Larger quantities at special rates.

Where greater absorbing power is required for large doses of tinctures we recommend our

DISKS, which will be found to meet such requirements perfectly. They are composed of pure cane sugar and true white of eggs. No other substance is employed in their manufacture, and their absorbing power is extraordinary. Whoever has tried *Boericke & Tafel's Disks* will use no others, their soft texture, handsome appearance and freedom from offensive odor proving the careful selection of material and skill in preparation. They should be kept in a pasteboard box and medicated fresh when dispensed.

Price, per pound\$.50

BOERICKE & TAFEL'S TRITURATIONS.—We have the best triturating machine that has so far been invented. Each mortar is isolated, that is, inside of a glass top case capable of being taken apart and thoroughly cleansed. The aperture, through which the wooden arm claspings the four pestles passes, is closed by a movable slide which accommodates itself to its every motion. As we use four pestles with every mortar it stands to reason that our triturator is much more effective than any similar contrivance using but one. The working parts are made of hard polished wood and no metal of any kind can come into contact with our triturations, nor need any metallic particles from abrasion be feared. The running gear being underneath the triturating bench and outside of the encasement, the otherwise unavoidable smell of the lubricating oils is prevented from permeating and contaminating the triturations; it also renders the occasional trickling down of the oil into the mortar an impossibility, which danger is incurred by the other machines. All our 1x triturations are triturated four hours or as much longer as is necessary to obtain our standard grade of comminution. Subsequent triturations run two hours each. The longer a preparation is triturated the lighter and more bulky it becomes, we therefore provide larger bottles to enable us to give full weight to our customers.

Price, per $\frac{1}{2}$ ounce, 15 cts.; 1 ounce, 25 cts.; 2 ounces, 40 cts.; 4 ounces, 75 cts.

BOERICKE & TAFEL'S ARNICA OIL.—A prominent English homœopathic physician, while sojourning in San Francisco, chanced to make use of our *Arnica Oil*, and was highly pleased by the good effect following its application. On returning to England he was surprised not to find it in use there, and prevailed on some pharmacies to order a supply. The doctor then asked us by letter to entrust him with our formula, so as to be able to prepare it himself should he be unable to procure it, assuring us, at the same time, that he would regard our communication as strictly confidential.

We immediately wrote back that we had no trade secrets, and referred him to the Appendix of the *Am. Hom. Pharmacopœia* for the requisite formula.

In preparing this article we use only the best *Latour's Olive Oil* that is imported, this together with the fine quality of the drug employed, enables us to produce a very superior article.

Price, per ounce.....\$.35
4 ounces..... 1.00

BOERICKE & TAFEL'S ARNICA and CALENDULA TINCTURES

We claim to make the finest Arnica and Calendula Tinctures for external use offered for sale in this country. The arnica root which we use is gathered and carefully dried in the shade specially for us in Europe. Of Calendula, we use the fresh succulent plant, and we find that such a tincture is far superior to any made from dried material only. The price of these tinctures is somewhat higher than those of most other pharmacies, but it is worth the difference. Our sales have more than trebled in the last three years.

Price, per pint, \$1.25; per quart, \$2.00; per gallon, \$7.00, bottle included.

AQUA DESTILLATA. We distill this water in a nickel-plated copper still. We thus obtain a *pure* article which will keep for a year or longer unchanged, if kept in a glass-stoppered bottle. Distilled water made in glass retorts is inadmissible, as steam dissolves appreciable quantities of siliceous matter from the glass vessel used.

Per quart, including glass-stoppered bottle \$.35
Refilling bottle15

HAMAMELIS EXTRACT (Witch Hazel). A strong elegant preparation.

Per quart, \$0.75; per gallon, \$2.50, including bottles.

BOERICKE & TAFEL'S DECOCTION OF APOCYNUM CAN. In obedience to numerous demands for a first-class decoction of apocyn. can. we made such a one from the fresh root according to the method described in *Hale's New Remedies, Vol. 1*, and have succeeded in furnishing a preparation that has given universal satisfaction. Its value in *Dropsy* is too well known to require repetition.

Price, per pint, \$1.00; 8 ounces, \$0.60; 4 ounces, \$0.35.

TUBE VIALS. All our vials are made from specially selected, bright, and clean glass, free from grease or smoke.

FIRST QUALITY. Extra full measure and uniform size. Heavy tubing.

PATENT LIP

| | <i>Per Gross.</i> |

THE GREAT DISINFECTANT.

Platt's Chlorides,

A Saturated Solution of the Chlorides of Metallic Salts (comprising Zinc, Lead, Aluminium, Calcium, Potassium, etc.), forming a DISINFECTANT, DEODORIZER, and ANTI-SEPTIC of great power and efficiency, entirely free from odor or objection, clean, stainless, economical, and invaluable to every practitioner as a sick-room sanitary assistant.

In Combating Fevers, for deodorizing the apartments and disinfecting the discharges, the bedding, and the utensils of the room.

In Obstetric Practice, in high dilution, as an anti-septic, or sprayed about as a deodorant.

In Cancer Cases, and to deodorize old offensive sores or wounds.

In Consumption, to neutralize the poisonous sputa.

In all Contagious Diseases, to arrest their spread; and

For all purposes of Household Disinfection, Platt's Chlorides, having no odor, destroying all poisonous matter, gases, and disease-germs, by direct chemical action, its great value and usefulness should be known to every physician. It is sold in Quart Bottles at 50 cents each, by druggists generally.

INDORSED BY 16,000 PHYSICIANS.

*To any Physician still unacquainted with
this valuable disinfecting solution, a sample bot-
tle will be sent free of all expense, by addressing*

PEPTOGENIC MILK POWDER.

By means of this digestive powder, with the very simple and practical process originated and perfected by us, the caseine of cow's milk is modified and predigested, and other essential components so supplied as to yield a product almost identical in physiological, chemical and physical properties with human milk.

"Yields a *humanized* milk which in taste, physical characters and chemical constitution, approaches very closely to woman's milk."

ALBERT R. LEEDS, PH.D.,

Prof. of Chemistry, Stevens Institute of Technology, Hoboken, N. J.

"I have carefully tried the Peptogenic Milk Powder with infants, and am truly delighted with the results. It certainly is a great advance, and I really believe it to be as near perfection as we can get it."

"I feel satisfied that the question of infant feeding is solved. It is especially valuable for infants who are early deprived of breast milk."

J. M. KEATING, M.D.,

Visiting Obstetrician to Philadelphia Hospital, and

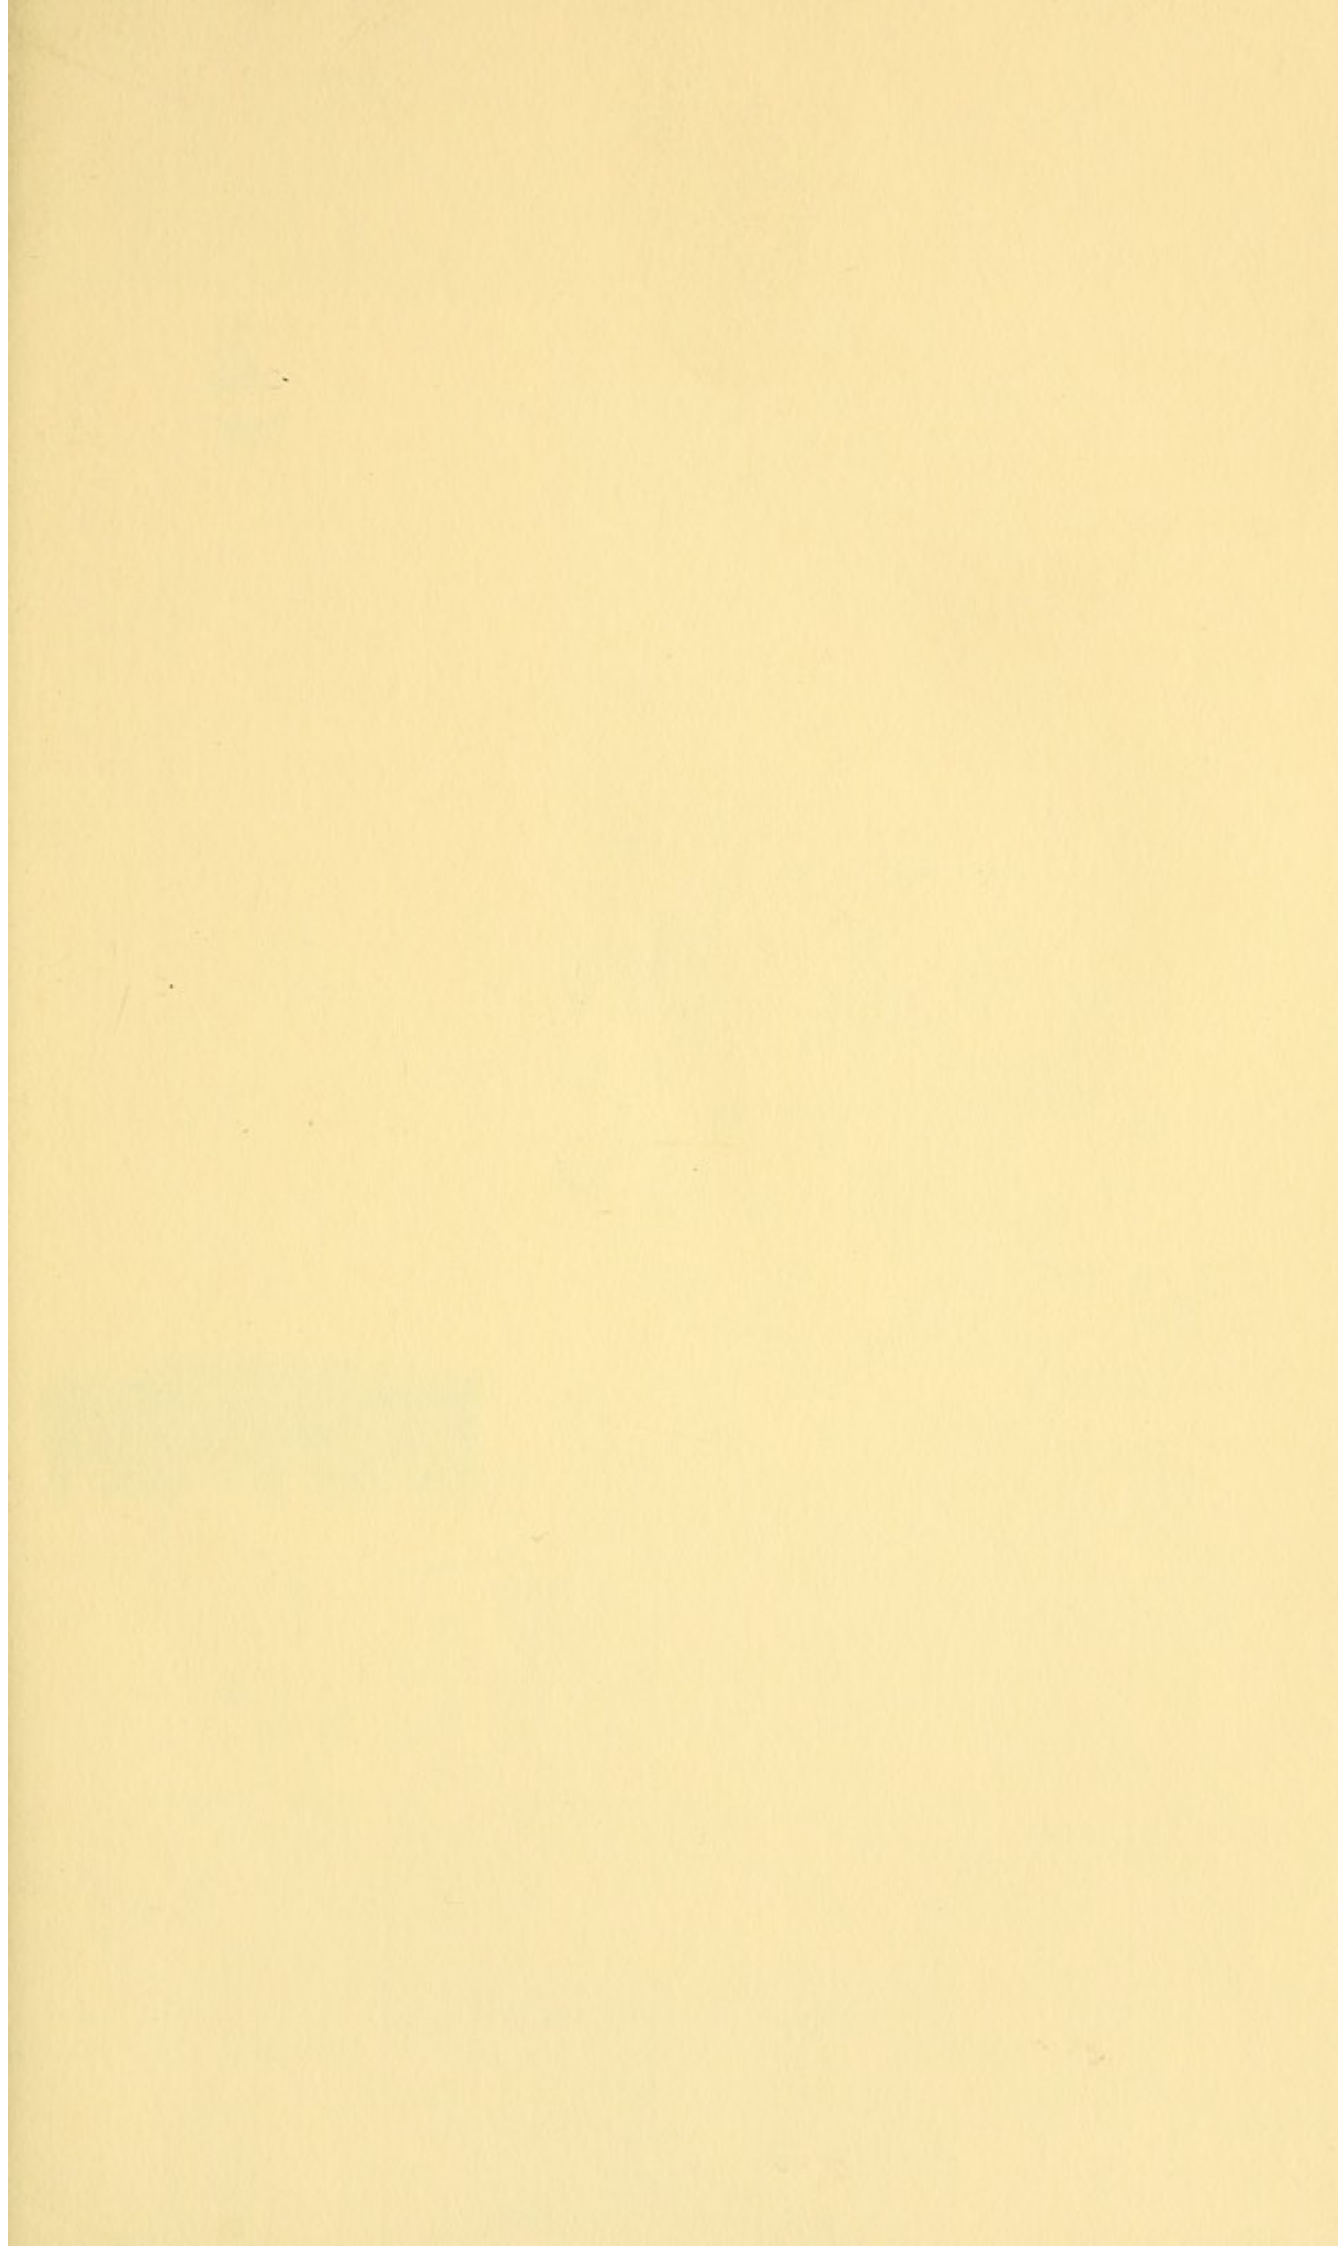

Lecturer on the Diseases of Women and Children, etc.

"In the present state of our knowledge of infant feeding, therefore, we can recommend no better substitute for human milk than peptonized cow's milk."

J. LEWIS SMITH, M.D.

Pamphlets giving explanation and description of these preparations sent gratis, upon demand to our address.
