That a notice of any inspector of any local board of health to abate any nuisance, or by the executive officer or other authorized member of said board, shall be taken as a notice from the board, and if the owner or person notified shall fail to abate the nuisance complained of, the said board may cause the same to be abated in a summary way, giving written directions to the inspector in relation thereto, and he shall proceed according to the directions so given.

How nuisances abated on failure to obey notice.

28. That any such local board of health, instead of proceeding in a summary way to abate a nuisance hazardous to the public health, may file a bill in the Court of Chancery, in the name of the State, on the relation of such board of health for an injunction to prohibit the continuance of such nuisance, and such actions shall proceed in the Court of Chancery according to the rules and practice in such cases on the relation of individuals, and cases of emergency shall have precedence over other litigation pending at the time in the Court of Chancery, and may be heard on final hearing within such time and on such notice as the Chancellor shall direct.(a)

How board may proceed to abate nuisance.

(a) Under this authority a local board may file a bill as relators, in the name of the State, for an injunction. In this respect the remedy to restrain a nuisance, which formerly was required to be in the name of the State and at the instance of the Attorney-General, has been extended so that a proceeding in equity for an injunction to restrain a nuisance hazardous to the public health may be taken by such board. *Hutchinson v. Board of Health of Trenton*, 12 *Stew.* 569.

5. That no person shall offer or expose for sale, or sell, or have in possession for the purposes of sale, any oleomargarine, butterine, suine or any substance in imitation of natural butter or cheese, or any substance that is rendered, made, manufactured or compounded out of any animal or vegetable or mineral fat or oil, not produced from pure milk or cream from pure milk, that is colored, stained or mixed with annatto or any other coloring matter or substance. (b)

6. That for the purposes of this act the terms "natural butter," or "natural butter or cheese," shall be taken to mean the product or products usually known by these names and which are made and manufactured exclusively from milk or cream, or both, with salt or salt and rennet, and with or without coloring matter or sage; and the terms "oleomargarine," "butterine," "suine" or "substance in imitation or semblance of natural butter or cheese," shall be to mean any substance that is rendered, made, manufactured or compounded out of any animal or vegetable or mineral oil or fat, not the product of pure milk or the cream from pure milk; also, any compound or mixture of natural butter or cheese, or milk or cream, with any of these substances not milk or cream.

Evidence of intent to sell.

(a) In an action for a penalty for violation of this section, it has been held that notice must be given to each purchaser according to the terms of the statute; that the statute does not require it to be shown that the article sold was deleterious, or that deception was practiced; it is sufficient if notice be not given. *Bayles v. Newton*, 27 Vr. 549; affirmed 22 Vr. 553. The complaint must set out the name of the person to whom sale was made, if known or ascertainable, and if such name be unknown or not ascertainable, then such fact must be set out. *Feigen v. McGuire*, 35 Vr. 152.

(b) Under this section it is not essential to the guilt of a person selling oleomargarine colored with annatto that he should know that the oleomargarine was so colored. *Waterbury v. Newton*, 21 Vr. 534. This act is valid as applied to a sale made in this State by the agent of the manufacturer in Indiana, although the package sold here had been sent by the manufacturer from Indiana to this State for sale. *Ib.* The clause "annatto or any other coloring matter or substance," includes only those substances which, in the manufacture of oleomargarine, etc., are used, like annatto, solely or chiefly to color the product, and does not extend to the materials which are employed chiefly to make up the substance of the compound and which impart color only as a necessary incident to their use. *Ammon v. Newton*, 21 Vr. 543. If oleomargarine derive any color or stain from "annatto or any other coloring matter or substance," mixed in it at any stage of the manufacture, whether of the several ingredients or of the final product, the sale is forbidden by the act. *Waterbury v. Newton*, 21 Vr. 545.

As to what conviction should recite where section of law may be violated in several respects, see *Schneider v. Marinelli*, 33 Vr. 739.

the provisions of section three of this act, shall be prima facie evidence of intent to sell the same.

Not to
obliterate
band or
brands.

8. That no person shall in any way or manner erase, cancel or obliterate, deface or cover over or remove either the band or stripe of paint, or the brands required by section three of this act to be placed on the tub, box, pail, or vessel containing any oleaginous substance, mixture or compound, as defined by this act.

Costs and expenses of abatement to be a first lien upon the lands.

6. That if such cost and expense of abatement be not paid to such collector or receiver within ninety days from the date of approval by the corporate authorities of such city, such collector or receiver shall return the same in like manner as return is made of unpaid taxes and assessments; and the corporate authorities shall thereupon direct the sale of the lands whereon such nuisance had been abated; and the clerk of such city shall thereupon proceed to advertise and sell the same, in the same manner as lands are sold under the charter of such city for non-payment of taxes and assessments; and a declaration of sale shall be issued to the purchaser thereof, as under sales for taxes; *provided*, that the owner of such premises, or any person holding any encumbrance thereon, shall have such right to redeem such premises as is provided by the charter of such city in cases of sale for non-payment of taxes and assessments.

On failure to pay, lands to be sold.

1. It shall be the duty of the director of the State Experiment Station, by himself or through an executive officer to be appointed by him to carry out the provisions of this act, to survey or cause to be surveyed all the salt-marsh areas within the State, in such order as he may deem desirable, and to such extent as he may deem necessary, and he shall prepare or cause to be prepared a map of each section so surveyed, and shall indicate thereon all the mosquito-breeding places found on every such area, together with a memorandum of the method to be adopted in dealing with such mosquito-breeding places, and the probable cost of abolishing the same.

2. It shall be the further duty of said director, in the manner above described, to survey, at the request of the board of health of any city, town, township, borough or village within the State, to such extent as may be necessary, any fresh-water swamp or other territory suspected of breeding malarial or other mosquitoes, within the jurisdiction of such board, and he shall prepare a map of such suspected area, locating upon it such mosquito-breeding places as may be discovered, and shall report upon the same as hereinafter provided in section eight of this act. Requests as hereinbefore provided for in this section may be made by any board of health within the State, upon its own motion, and must be made upon the petition, in

writing, of ten or more freeholders residing within the jurisdiction of any such board.

3. Whenever, in the course of a survey made as prescribed in section one of this act, it is found that within the limits of any city, town, township, borough or village there exist points or places where salt-marsh mosquitoes breed, it shall be the duty of the director aforesaid, through his executive officer, to notify, in writing, by personal service upon some officer or member thereof, the board of health within whose jurisdiction such breeding points or places occur, of the extent and location of such breeding places, and such notice shall be accompanied by a copy of the map prepared as prescribed in section one, and of the memorandum stating the character of the work to be done and its probable cost, also therein provided for. It shall thereupon become the duty of the said board, within twenty days from the time at which notice is served as aforesaid, to investigate the ownership, so far as ascertainable, of the territory on which the breeding places occur, and to notify the owner or owners of such lands, if they can be found or ascertained, in such manner as other notices of such boards are served, of the facts set out in the communication from the director, and of the further fact that, under chapter sixty-eight of the laws of one thousand eight hundred and eighty-seven, as amended in chapter one hundred and nineteen of the laws of one thousand nine hundred and four, any water in which mosquito larvæ breed is a nuisance and subject to abatement as such. Said notice shall further contain an order that the nuisance, consisting of mosquito-breeding pools, be abated within a period to be stated, and which shall not be more than sixty days from the date of said notice, failing which the board would proceed to abate, in accordance with the act and its amendments above cited.

Owners notified.

Notice to abate nuisance.

4. In case any owner of salt-marsh lands on which mosquito-breeding places occur and upon whom notice has been served as above set out, fails or neglects to comply with the order of the board within the time limited therein, it shall be the duty of said board to proceed to abate under the powers given in sections thirteen and fourteen of the act and its amendments cited in the preceding section, or, in case this is deemed inexpedient, it shall certify to the common council or other governing body of the city, town, township, borough or village the facts that such an order has been made and that it has not been complied with, and it shall request such council or other governing body to provide the money necessary to enable the board to abate such nuisance in the manner provided by law. It shall thereupon become the duty of such governing body to act upon such certificate at its next meeting and to consider the appropriation of the money necessary to abate the nuisance so certified. If it be decided that the municipality has no money available for such purpose, such decision shall be transmitted to the board of health making the certi-

Special inspector.	<p>5. If, in the judgment of the director aforesaid, public interests will be served thereby, he may set aside out of the moneys appropriated by this act such an amount as may be necessary to abate the nuisance found existing and to abolish the mosquito-breeding places found in the municipality which has declared itself without funds available as prescribed in the preceding section. Notice that such amount has been set aside as above described shall be given to the board of health within whose jurisdiction such mosquito-breeding places are situated, and said board shall thereupon appoint some person designated by said director or his executive officer a special inspector of said board for the sole purpose of acting in its behalf in abating the nuisance found to be existing, and all acts and work done to abate such nuisances and to abolish such breeding places shall be done in the name of and on behalf of such board of health.</p>
Municipalities may assist in abating breeding spots.	<p>6. If in the proceeding taken under section four of this act the common council or other governing body of any municipality appropriate to the extent of fifty per centum or more of the money required to abate the nuisance and to abolish the mosquito-breeding places within its jurisdiction, it shall become the duty of said director of the Agricultural Experiment Station to set aside out of the moneys herein appropriated such sum as may be necessary to complete the work, and in all cases preference shall be given, in the assignment of moneys herein appropriated, to those municipalities that contribute to the work and in the order of the percentage which they contribute; those contributing the highest percentage to be in all cases preferred in order.</p>
Preference.	<p>7. In all cases where a municipality contributes fifty per centum or more of the estimated cost of abolishing the breeding places for salt-marsh mosquitoes within its jurisdiction, the work may be done by the municipality as other work is done under its direction, and the amount set aside as provided in section six may be paid to the treasurer or other disbursing officer of such municipality for use in completing the work; but no payment shall be made to such treasurer or other disbursing officer until the amount appropriated by the municipality has been actually expended, nor until a certificate has been filed by the director or his executive officer stating that the work already done is satisfactory and sufficient to obtain the desired result, and that the arrangements made for its completion are proper and can be carried out for the sum awarded.</p>

from other points, and, in the case of migrants, their probable source, whether the territory in question is dangerous or a nuisance because of mosquito breeding, the character of the work necessary to abate such nuisance and abolish the breeding places, and the probable cost of the work. Said board of health must then proceed to abolish the breeding places found under the general powers of such boards, but if it shall appear that the necessary cost of the work shall equal or exceed the value of the land without increasing its taxable value, such board may apply to the director aforesaid, who may, if he deems the matter of sufficient public interest, contribute to the cost of the necessary work, provided that not more than fifty per centum of the amount shall be contributed in any case, and not more than five hundred dollars in any one municipality.

9. All moneys contributed or set aside out of the amount appropriated in this act by the director of the Agricultural Experiment Station in accordance with its provisions shall be paid out by the Comptroller of the State upon the certificate of said director that all the conditions and requirements of this act have been complied with, and in the case provided for in section five payments shall be made to the contractor upon a statement by the person in charge of the work, as therein prescribed, attested by said director, showing the amount due and that the work has been completed in accordance with the specifications of his contract.

10. For the purpose of carrying into effect the provisions of this act, the said director of the State Agricultural Experiment Station shall have power to expend such amount of money, annually, as may be appropriated by the Legislature; *provided*, that the aggregate sum appropriated for the purposes of this act shall not exceed three hundred and fifty thousand dollars. The Comptroller of the State shall draw his warrant in payment of all bills approved by the director of the State Experiment Station, and the Treasurer of the State shall pay all warrants so drawn to the extent of the amount appropriated by the Legislature.
