- 1—ADAMS's OBSERVATIONS on MORBID POISONS, in Two Parts:—Part I. Containing Syphilis, Yaws, Sivvens, Elephantiasis, and the Anomala confounded with them. Part II. On Acute Contagions, particularly the Variolous and Vaccine. Second Edition, illustrated with four coloured Engravings, copious practical Remarks, and further Commentaries on Mr. Hunter's Opinions; by JOSEPH ADAMS, M. D. F.L.S. Physician to the Small Pox and Inoculation Hospitals, in one large quarto, boards, £1 5s

"Some judicious remarks on Variolus and Vaccine Inoculation terminate this work; which must be considered as far superior to the ephemeral productions of authors, who want to write themselves into a high road to riches and renown. This volume is valuable in another point of view, because it inculcates the habit of analyzing diseases, and shows the importance of minute attention in tracing the history and progress of every series of morbid action."—Vide Edinburgh Journal, Vol. III.
