4. For the censure or suspension of a Fellow, the mode of procedure shall be as follows, viz.:—

(5) If it be determined that the motion shall be proceeded with, said motion shall be decided upon at a meeting of the Faculty specially convened for the purpose, after an interval of not less than one month nor more than three months from the date of the meeting at which it was determined that said motion should be proceeded with.  “and ability, for the good, safety, and welfare of all persons
 “committing themselves or committed to my care: and I
 “hereby promise as a Licentiate in Dental Surgery that I will
 “not advertise or employ any other unprofessional modes of
 “attracting business, nor will I allow my name to be connected
 “with any one who does so: and that I will loyally obey all
 “bye-laws of the Faculty, made or to be made, for the regula-
 “tion of Licentiates in Dental Surgery.”

Any Licentiate who may be proved to the satisfaction of the Council to have violated the obligation in the foregoing Declaration shall, if the Council so decide, render himself liable to the forfeiture of his diploma, and to his name being erased from the list of Dental Licentiates.

3. The mode of procedure for the deprivation of a Dental Licentiate of his Licence shall be the same as that prescribed in Chapter IV., 4, in respect to Fellows and Licentiates.

4. Any Licentiate of the Faculty, whose name may be erased from the Dentists' Register, by direction of the General Council of Medical Education and Registration of the United Kingdom, shall *ipso facto* cease to be a Licentiate in Dental Surgery of the Faculty, and his name shall thereupon be struck off the Register of Licentiates in Dental Surgery.

3. All Meetings of the Faculty shall be convened by circular, delivered by the Officer, or sent by post to the Fellows residing in Scotland, at least one lawful day before the date of Meeting, intimating the business to be brought forward.

4. Twelve Fellows, duly convened, shall constitute a Quorum of the Faculty, and shall have full power to transact all business regularly brought forward at any Meeting. In the absence of both the President and the Visitor, the Meeting shall appoint a Chairman, who, at that meeting, shall be vested with the powers of the President.

5. At Ordinary Meetings the Minutes of the preceding Meeting or Meetings having been read and confirmed, the business intimated in the

billet, and thereafter any business the President may introduce, shall be considered before any other subject is taken up: After which questions may be put, and motions tabled for consideration at next Meeting.

6. All Motions and Amendments shall be submitted in writing, with the names of the Movers and Seconders.

7. No Motion shall be finally disposed of by the Meeting at which it is tabled, unless in the case provided in the clause immediately following. But when any matter requires immediate decision, the Faculty may, by agreement of two-thirds of the Fellows present, remit it to the Council, with full powers to take the necessary action thereon.

8. Any proposal originating with or recommended by the Council may be decided at the Meeting at which it is submitted to the Faculty, provided notice of such proposal has been given in the billet calling the Meeting—such notice also to include express intimation that the proposal will be decided at that Meeting; but no proposal for a grant of money or an alteration in the Regulations shall be disposed of by the Meeting at which it is introduced.

9. When any alteration of, or addition to, the Regulations is proposed, it shall, if thought proper by the Faculty, be remitted to the Council, with or without the addition of the Mover and Seconder, or to a Committee; and the report of the Council or Committee in reference thereto shall not be

decided upon at the same Meeting of the Faculty at which it is brought up.

10. All questions shall be determined by a majority of votes, if not otherwise provided for by these Regulations; and upon the request of any three Fellows present the voting shall be by Ballot.

11. The mode of voting shall be as follows:— If an Amendment be proposed on a Motion, the Amendment shall be disposed of, as against the original Motion, before any other Amendments shall be moved. Such Amendment shall be put first to the vote; if negatived, a second Amendment may be moved, and shall be disposed of in the same way as the first Amendment, and so on till no further Amendment shall be proposed. Should every Amendment be negatived, the original Motion shall then be put to the vote. If any Amendment be carried as against the original Motion, which is thus lost, it shall be put as a substantive Motion, and treated as to further Amendments, and the right of speaking on it, as an original Motion.
