FOURTH REPORT

OF THE

LINCOLN LUNATIC ASYLUM.

An important change has been effected, during the last year, in the affairs of the Asylum. At a Special General Meeting in April, the Right Honorable the PRESIDENT in the Chair, being by much the most numerous and respectable Board of Governors hitherto held, the Institution was placed under a new system of management; and it was resolved that a Committee should be appointed for carrying into effect a Plan, that might combine all the necessary improvements, which the advanced state of public knowledge has so long imperatively pointed out. Among various other advantages the new Plan embraces the following objects:—

1. The means of Classing the Patients generally, or of separating them according to circumstances, are effectually afforded.

2. The CONVALESCENTS are separated from the other Patients, and are placed in apartments at the ends of the Front Galleries, eminently cheerful and not presenting any appearance of confinement.

3. The ORDINARY Patients have the uninterrupted use of the Front Galleries.

4. The INSENSIBLE, and the highly excited Patients, withdrawn from the rest, are removed from the Front of the Building, to a situation affording every comfort, and every facility for the attention, which their cases may require.

5. The Upper Rank Patients are brought from the Back to the Front; and the degrees of rank are more rigidly observed, as the Patients approach to convalescence, and as they consequently become more sensible of such distinctions.

6. The Airing Courts are greatly enlarged, and extend *beyond the shade of the Buildings*: all have prospects, and some of them of great extent.

7. The Front Grounds are rendered more private by the formation of a second entrance for persons on business: and the Patients will not see their friends approaching the house, which is often very improper.

8. The Kitchen, and the Noisy Cells, are removed from the Front to the Rear of the Building, which renders the whole South Front available for the enjoyment of the more sensible Patients.

9. The House is relieved from the smell of the Kitchen, and the smoke of the Outbuildings.

10. The Laundry and other offices, which can give employment to the Female Patients, are attached to the Female side of the House.

11. There will be accommodation for 20 additional Patients.

Towards the attainment of these objects very considerable progress has been made: and, on the male side of the Building, the present year will offer the gratifying spectacle of Airing Grounds, most amply sufficient for health and amusement, with every facility for that Classification, which, together with exercise and employment, may be deemed the corner stone of complete recovery.

The Governors in the course of these improvements have not ventured to trespass, even to the smallest extent, beyond the funds in hand, which are already sufficient to complete the male side of the Building. Effectively to place the Female Wing and Grounds on a proper footing, would probably require an additional sum of from £1,500 to £2,000, which it may reasonably be hoped will be accumulated by a few years of rigid economy, and the gradual accession of Benefactors to this munificent monument of Public Charity. Till such a sum can be raised, this part of the Asylum must remain in its present state, subject to all the disadvantages, which have been so long and so seriously regretted.

By the former Rules a Benefaction of *twenty guineas* at a *single* payment, constituted a LIFE GOVERNOR ; by a new Rule, Benefactors increasing their former donations to twenty guineas at a *second* payment, acquire the same privilege : a change which, it is expected, will be the means of adding to the funds, and of introducing many active and intelligent Gentlemen into the management. Some privilege might be usefully conferred upon Governors recommending Patients *at the commencement of their malady* ; the hope of cure depending almost wholly upon proper treatment, before any organic change has had time to take place.

A very important benefit has been derived to the Asylum, during the last year, by a successful attempt, which has been made for the procuring of water. Even the *sparing* use of an article so essential to health, cleanliness, and comfort, has occasionally cost this Institution as much as £4. per week. Whereas the supply is now unbounded, and of the best quality.

Instead of the irregular publication, which has hitherto taken place, an order has been made for laying annually before the Governors an abstract of the Receipts and Expenditure, a list of the Benefactors and Subscribers, an account of the Patients, and a general Report upon the condition and prospects of the Institution.

FORM FOR LEGACIES.

Those who are disposed to contribute to this Asylum by their last Will, are particularly desired to use the following words :

I give and bequeath unto A. B. and C. D. or the Survivor of them, the Sum of upon trust, that they or one of them pay the same to the Treasurer of a Society, who call themselves GOVERNORS OF THE LINCOLN LUNATIC ASYLUM ; which Sum I charge on my personal Estate, and order that it shall be paid out of the same, and applied to the charitable uses of the said Asylum ; for which, on payment, the Treasurer's Receipt shall be a sufficient discharge.

For want of this form, many Charities have lost their Legacies, the Testators having charged them on their *real* instead of *personal* Estate.

Benefactions are received by the Treasurer, or at the Lincoln Bank, or at the Asylum.

*** Subscriptions become payable on the First Day of January annually.
