Historical Sketch .--- The origin of the Post-office is involved in obscurity. Letters were originally sent by special messenger and there are records of payment to nuncii for carrying letters for the King which commence in the reign of King John and are continued through the following reigns; and more recently by common Carriers who began to ply regularly with their pack horses about the time of the wars of the Roses. In the reign of Edward II. horses were kept by private individuals so that messengers might travel post; and the words "Haste, Post Haste" are found written on the back of private letters of this period. In 1481 Eduard IV. established a system of relays of horses, the Post Stations being 20 miles apart and letters were conveyed 200 miles in three days. In 1548 the charge for post horses impressed for the service of the crown was fixed by statute at a penny per As early as 1514 the Alien mile. merchants residing in London had established a Post Office of their own

from London to the Outports, appointing from time to time their own Postmasters. In 1568 a quarrel arose among them. The Spaniards appointed one and the Flemings appointed another. A petition was presented to the King; and the English merchants appear also to have presented a petition in the matter complaining that this Post acted unfairly towards them by keeping back their letters and so giving the foreigners the advantage of the market; the issue of this dispute is not known but incredible as it may seem, it proves that a postal service existed to places abroad maintained by foreigners for their own benefit, before a similar institution was established for our own country. Some years later for the benefit of the merchants James I. appears to have established a letter Post to Foreign Countries. In 1635 Charles I. issued a proclamation : "Wherefore he now commands his Postmaster of England for foreign parts to settle a running post or two, to run night and day between Edinburgh and London, to go thither and come back again in six days, and to take with them all such letters as shall be directed to any post town in or near that road." Posts were also to be established at the same time to Lincoln, Hull and other towns; to Exeter and Plymouth; and to Chester and Holyhead. The Rates of Postage were: under 80 miles 2d.; under 140 miles 4d.; beyond 140 miles 6d.; and to Scotland 8d. The Post Office may therefore be said to date from that time. In 1637 the monopoly of the Postmaster General was virtually set up. A weekly conveyance of letters into all parts of the Kingdom was established in 1644 by a man named Prideaux. In 1649 the Revenue of the Post Office was \$5000 a year. In the same year the Common Council of London set up a Post in rivalry with that of Parliament; but the Commons the proceeded to put down the infringement of their own monopoly. In 1657 Cromwell and his Parliament give as a motive for the establishment of Posts "that they will be the best means to

discover and prevent many dangerous and wicked designs against the Commonwealth." In 1683 Robert Murray established for the conveyance of letters and small parcels a Penny Post who assigned it to William Dockwra. It was denounced by the ultra Protestant party as a contrivance of the Jesuits and it was alleged that if the bags were examined they would be found full of Popish plots. It was also in the same year that the London District Post was made a separate establishment from the General Post. A Statute of Queen Anne in 1710 remodelled the Post Office and it remained in force until 1837. In 1720 Ralph Allen suggested an improved method of working the cross country posts and he farmed them of the government at a rent of £6000 a year; he made a profit of £12,000; and he lived 44 years, spending it mainly in works of charity and in hospitality to men of learning and genius. In 1784 John Palmer devised the plan of sending mail bags by passenger coaches; the speed of post horses was between three and four miles an hour; but the coaches carried the mails at more than six miles an hour. In 1792 a system of sending money orders was set on foot by a few Post Office Clerks on their own account; it had the sanction of the Postmaster General but it was a private undertaking. In 1796 the Inland Rates of Postage were raised to a scale varying from 3d. to 9d.; and afterwards they were further raised until 1839, when the charges varied from 4d. to 1s. 8d. for a single letter of one sheet, an enclosure however small constituted a double letter at double postage. On the 25th of September, 1829, the General Post Office was removed from Lombard Street to St. Martins le Grand. In 1830 Mails were first conveyed by Railway-between Liverpool and Manchester. In 1835 the Mail to India was first conveyed through the Mediterranean and over the Isthmus of Suez, and it was subsequently extended to Australia. On the 1st of July, 1837, a Travelling Post Office was established on the Railway between Birmingham

and Liverpool. In 1838 the Money Order Office was constituted a part of the Post Office. On the 12th of November, 1839, as a preliminary of the Penny Post a uniform Letter Rate of 4d. was established. On the 10th of January, 1840, after most formidable difficulties and great opposition the Penny Post Scheme of Rowland Hill was introduced. The scale of postage was 1 oz. 1d.; 1 oz. 2d.; 2 oz. 4d.; and 2d. for every additional oz. up to a maximum weight of 16 oz. In the same year, on the 6th of May, postage stamps were introduced; and shortly afterwards Day Mails were established. The Book Post was established in June, 1848. Telegraph Messages were first used for Post Office business on the 31st of August, 1849. The Post Office Savings Bank was opened on the 16th of September, 1861. The Telegraphs were transferred from the old Companies to the Post Office 5th February 1870, at a cost of £8,000,000. £2,130,000 was expended on extensions. Total £10,130,000. Post Cards were first issued on the 1st October, 1870. The International Treaty at Berne was concluded, forming the General Postal Union, on the 9th of October, 1874, and it came into operation 1st of July, 1875. The Postal Union has resulted in a uniform 21d. postage throughout the whole world. Postal orders were first issued 1st January, 1881. Reply Post Cards were first issued 1st October, 1882. The Parcel Post was introduced the 1st of August, 1883. The charge for Telegrams reduced to sixpence for twelve words on I October, 1885. The London and Paris Telephone opened 1st of April, 1891. Foreign Telegraph Tariff greatly reduced 1st of July, 1891. Letter Cards were first issued 11th February, 1892. The Trunk Telephone Wires were opened by the Post Office 4th April, 1896. Reduction in letter and parcel rates of postage; extension of free delivery of letters etc., to every house; and extension of free delivery of telegrams from one to three miles; as well as many other reforms were made in commemoration of the Record Reign

Day 22nd June, 1897.

Statistics .- Few people have any conception of the vast amount of work which the Post Office performs; on reference to the various headings in subsequent pages some idea will be gained of its multifarious duties; but when we consider that this great department employs in Great Britain and Ireland no fewer than 140,000 employees (1894), distributed among 20,270 Post Offices; that in London alone there are no less than 7,657 Postmen, and it has been estimated that the aggregate number of miles they walk a day in their work covers a no less distance than 48,360 miles or more than twice the circumference of the globe. Then we must remember that there passes through the Post in the course of one year : 1,770,900,000 letters; 312,800,000 post cards; 614,000,000 book packets, circulars, and samples; 151,800,000 newspapers; and 57,136,000 parcels, making a total of 2,907,236,000 articles; also that the number of registered letters is 11,958,264, registered parcels590,788, and the Express Delivery Service 273,540. The number of inland telegrams is 58,907,408, containing 970,000,000 words; press telegrams 5,401,783, containing 650,000,000 words; foreign telegrams 5,937,715; railway free telegrams 1,048,064 ; railway half rate telegrams 21,445; government telegrams 272,649, making a total of 71,589,064. The London local telegrams number 6,354,481. In addition to the 20,270 Post Offices of which 11,377 are Money Order Offices, there are 26,819 letter boxes. No less than 10,685,206 money orders—representing £28,923,127—are issued in a year; and Postal Orders number 60,681,078 for £22,759,282. Then the Post Office has standing to the credit of its Savings Bank Depositors £89,266,066. The number of deposits in the year being 10,973,651, representing £30,439,449; and withdrawals 3,863,886 representing £23,786,927. While the Interest amounts to £2,015,903 a year. The new accounts opened in a year number 1,135,525;

of Her Majesty Queen Victoria on Jubilee | and the number closed 775,001; the total number of Depositors being 6,108,763. The average balance standing to the credit of each Depositor being in England and Wales £14 12s. 2d.; Scotland £9 15s 1d; and Ireland £19 25. 11d. There are 11,323 Post Offices which conduct Savings Bank business. In the London District alone there are nearly 1000 Savings Bank Offices, in Liverpool 118, in Manchester 99, in Birmingham 115, and in Glasgow 86. The payments by telegraph numbered 44163 representing £187,889. The Stock accounts number 71304 representing £7,028,197. Annuity contracts number 9781, amount £601, 744 16s. od., and there is also a large number of Insurants. Since the Savings Bank Department was formed in 1861 to December 31st 1894 there had been 19,303,782 deposit accounts opened and 152,216,675 deposits received for an amount of £410,704,600 1s. 4d.; while 13,195,019 accounts had been closed; 53,206,098 withdrawals made for an amount of £321,438,533 10s. 5d. The Surplus of assets over liabilities was £6,014,248 16s. 1d.

> Inland Letter Postage.-Letters not above 4 oz. in weight ..... Id.; and  $\frac{1}{d}$ , for every additional 2 oz.

> Limit and Size .- No letter to be above 24 inches in length, 12 inches in width, and 12 inches in depth. For rates of Foreign letter post see p. 511.

> Postage Stamps.-At Money Order Offices the following are kept for sale to the public, viz., postage stamps, which are also available for the prepayment of telegrams, of the respective values of 1d., Id., 11d., 2d., 21d., 3d., 4d., 41d., 5d., 6d., 9d., 10d., 1s., 2s. 6d., 5s., 10s., 1l. and 5l. [the higher priced stamps are not kept at offices at which no demand for them is likely to arise];registered letter envelopes;-newspaper wrappers with impressed halfpenny and penny postage stamps;-Inland and Foreign Post Cards, Envelopes, with embossed stamp, and Letter Cards.

> Post Cards (Inland).—Rates single Id., thin 51d or thick 6d., for ten. Reply Cards single 11d., thin 5 for

54d., or 10 for 11d., thick 5 for 6d. or 10 for 1/-. There must be nothing written, printed, or otherwise impressed on the front side, which by inconvenient proximity to the postage stamp or by obscuring the address may embarrass the officers of the Post Office. Nothing may be attached to the card on either side except stamps in payment of additional postage or stamp duty and a gummed label, not exceeding 2 ins. long and 3 in. wide, bearing the address at which the card is to be delivered. An official Post Card may not be folded, nor may it be cut or otherwise altered so as to reduce the size below 31 by 21 inches. If anyone of these rules be infringed, the card will be charged 1d. on delivery. Inland post cards are rendered transmissable abroad by affixing an additional halfpenny stamp. See Foreign and Colonial mails p. 511.

Private Cards.—The private cards must be composed of ordinary cardboard, not thicker than the material used for the Official Card, and must have a halfpenny stamp affixed to the face. The maximum size must correspond as nearly as may be to the size of the Inland Official Card, and the minimum size must not be less than 31 by 21 inches. For information as to the conditions under which private cards are impressed with a halfpenny stamp, application must be made to the Office of Inland Revenue. Private post cards are transmissable abroad provided they fulfil the official conditions. See Foreign and Colonial mails.

'Letters by Railway.—By an agreement with the Postmaster General certain Railway Companies are permitted to accept and convey by the next available train or steamship Single Inland Post Letters, not exceeding 4 oz. in weight, either to be called for at the station of address, or to be transferred there to the nearest Post Office Letter Box for delivery by postman. In addition to the postage of Id, which must be prepaid by means of adhesive stamps, the Companies are authorised to charge a fee of 2d, per letter. For a list of the Com-

panies and further particulars, see the current edition of the Post Office Guide, or the public notice which may be seen at any Post Office. Under certain regulations they can be delivered express by special messenger.

Re-direction of Letters, etc.-No charge is made for the re-direction of letters, post cards, newspapers, book packets and sample packets, whether registered or not, and whether re-directed by an officer of the Post Office or by an agent of the addressee after delivery, provided in the latter case that they are re-posted not later than the day (Sundays and public holidays not being counted) after delivery, and that they do not appear to have been opened, or tampered with. Registered Letters or packets, when redirected must be taken back to the Post Office. Notices of Removal and applications for letters, etc. to be re-directed, must in all cases be duly signed by the persons to whom the letters are addressed. Printed forms can be obtained from the local Postmaster, and in London of any District or Branch Office, or from the postman of the walk. The Post Office does not undertake the re-direction of letters, etc., for a person temporarily leaving home, unless the house be left uninhabited, nor, as a general rule, does it redirect letters addressed to hotels, boarding houses, or lodgings.

**Poste Restante.**—There is a Poste Restante at every Head Office in the United Kingdom; and at all Branch Post Offices in London—that is, all Post Offices not held at shops. Letters, etc., addressed to a Poste Restante to be called for are retained for one month. If not called for by the end of that time, they are sent to the Returned Letter office for disposal. But if a letter be addressed to a Post office at a seaport town for a person on board a ship, expected to arrive at that port, it is kept two months.

Undelivered Correspondence.— On reaching the Returned Letter Office, a letter originating in the United Kingdom is at once returned, if possible, to the writer. If it does not contain either the writer's address or an enclosure of importance, the letter is destroyed. Any letter or packet which, on being opened, is found to contain value is, for its safety, recorded and returned registered, and, unless registered at the time of posting, the registration fee of 2d. is charged on the sender. abroad are returned Letters from unopened to the country of origin, after a brief detention in the Returned Letter Office. Undelivered Book Packets not exceeding 2 oz. in weight, inland post cards and newspapers, are returned only when they bear the sender's name and address with a request for return in case of non-delivery, and they are liable to a second postage for return. The name and address of the sender, with the request for return, should be placed on the outside of such packets before posting, if it is desired to recover them in case of non-delivery.

**Newspaper Post.**—For each Newspaper— $\frac{1}{2}d$ ., no packet of Newspapers to be above 5 lbs. in weight, 2 feet in length, I foot in width, and I foot in depth. A Newspaper is a publication which fulfilling certain conditions has been registered at the General Post Office to pass within the United Kingdom at the Newspaper rate of postage. Without such registration a Newspaper cannot be sent at less than the book rate of postage. Newspapers so registered usually announce the fact in their columns.

**Book Post.**—For every 2 oz. ro part of that weight  $\frac{1}{2}d$ . Above 2 oz. the same as Letter Postage. Book packets should be posted either without covers (in which case they must not be fastened in any way) or in unfastened envelopes, or in covers which can be easily removed for the purposes of examination. If anything is written or printed on the inside of the covers, the covers must be left unfastened. It is not forbidden to tie the ends of a book packet with string, but the string should be easy to unfasten.

Definitions .- I. Any matter wholly

printed or written not being in the nature of a letter on paper or some substance ordinarily used for printing, with the exception of paper money. 2. Books and other publications or works of a literary character. 3. Sketches, drawings, paintings, photographs, engravings, maps, plans and charts, on paper or some other substance ordinarily used for the purpose, provided it is not of a brittle or exceptionally fragile substance. 4. The binding or mounting of any article hereinbefore described provided such binding or mounting be of a kind ordinarily used for the purpose, be not made of glass or any brittle or exceptionally fragile substance, and be transmitted in the same packet with the article in respect of which it is used. The following documents, whether 5. containing matter in the nature of a letter or not, provided they respectively conform to certain conditions-advice notes, agreements, assurance proposals and policies, bills of lading, certificates, deeds, examination papers with corrections and instructions, invoices, licenses, manuscript for press and printed proofs, with corrections and instructions, market reports, orders for goods, powers of attorney, prices current, proxy papers, receipts, statements of account, voting papers, way bills, and also notices, reports, returns, and certificates issued, made or given by officers of a Court of Justice, or other public officers in the discharge of their duties, and returns or reports made to public officers or public bodies.

Parcel Post (Inland).—A Parcel must be presented at the counter of a Post Office for transmission as a Parcel; or it may be accepted by Rural Postmen. The words "Parcel Post" should be written or printed on the left hand side, immediately above the address. The Sender's name and address should appear on the cover. The **Rates of Postage** are for a Parcel not exceeding I lb. in weight 3*d*., 2 lb. 4*d*., 3 lb. 5*d*., 4 lb. 6*d*., 5 lb. 7*d*., 6 lb. 8*d*., 7 lb. 9*d*., 8 lb. 10*d*., 9 lb. 11*d*., 10 lb. and 11 lb. 1/-. For each additional lb. up to 11 lbs.  $1\frac{1}{2}d$ . Conditions.— No Parcel can be sent exceeding 11 lbs. in weight.

Dimensions .- The dimensions allowed for an Inland Postal Parcel are,-Greatest length 3 ft. 6 in.; Greatest length and girth combined 6 ft. o in. For example.- A parcel measuring 3 ft. 6 in. in length may measure as much as 2 ft. 6 in. in girth. A shorter parcel may be thicker; thus,-if it measure no more than 3 ft. in length it may measure as much as 3 ft. in girth, i.e.,round its thickest part. The full postage must be prepaid by means of postage stamps, which must be affixed by the sender. Certificate of Posting .-A certificate of the posting of a parcel can be obtained at any Post Office. This certificate must be filled up by the sender and handed to an Officer of the Post Office, who will sign and return it to him. To be called for.-Parcels addressed to a Post Office to be called for are kept (unless containing perishable articles) for three weeks. After they have remained in the office one clear day, they are liable to a charge of 1d. a day, called "demurrage." This charge is not made in respect of Sundays, holidays, etc., nor is it levied on parcels addressed to persons residing outside the free delivery, or to persons on board ship. Re-direction .- A charge at the full rate of postage originally payable is made for every re-direction of a parcel unless the original and corrected addresses are both in a delivery from the same Post Office. In such cases no additional charge is made for re-direction. Persons desiring parcels to be re-directed, as well as letters, &c., must fill up two re-direction notices, one for parcels, and one for letters and other postal packets. If the notice for letters be alone filled up, parcels will not be forwarded. The name and address of the sender should appear outside all parcels. Undelivered Parcels.-When a parcel bearing on its outside the name and address of the sender cannot be delivered owing to wrong or insufficient address, or from any other

cause, it is retained at the Head Post Office of the District, and a notice is forwarded to the sender stating that the parcel will be given up free of charge on application at that office, or that it will be forwarded to a fresh address or returned to him on payment of a fresh postage. If the parcel be neither applied for, nor the proper charges paid for forwarding it within six days from the date of the notice, the parcel is sent to the Returned Letter Office of the District. An undelivered parcel which does not bear the name and address of the sender outside is sent to the District Returned Letter Office, and if on its being opened the sender's name and address are found, it is treated in accordance with the preceding rule. If not, the name of the addressee and other particulars are entered on a list exhibited at the Returned Letter Office in question. All undelivered parcels are retained at a Returned Letter Office for three months, after which time they are disposed of, if still unclaimed. If, however, the contents of a parcel become, or are likely to become offensive or injurious, or worthless through natural decay, they are liable to be disposed of forthwith. Rural Collection.-Rural Postmen, whether on foot or mounted, are required, under certain regulations and restrictions, to collect parcels from the public for despatch wherever they collect letters. The sender is held responsible that parcels so posted are within the prescribed limits of weight and size, and properly prepaid.

Compensation for Loss or Damage.—The Postmaster General is not legally liable to make good any claim arising out of the conveyance of a parcel sent by post, but he will accept liability under certain conditions. If the parcel is registered, compensation will be given under the rules and regulations.

Registration and Compensation Registered Letters, Parcels, etc.— Letters, parcels, etc. may be registered at the following rates under the following conditions. The Postmaster General will (not in consequence of any legal liability, but voluntarily, and as an act of grace), subject to certain rules, give compensation up to a maximum limit of 50*l*. for the loss and damage of Inland Registered Postal Packets of all kinds upon prepayment of a fee in addition to the postage. **Rates.**—The scale of fees and the respective limits of compensation are as follow :—

| Fee.          | Limit of<br>Compensation. |  |
|---------------|---------------------------|--|
| 2 <i>d</i> .  | 57.                       |  |
| 3d.           | 101.                      |  |
| 4d.           | 151.                      |  |
| 5 <i>d</i> .  | 201.                      |  |
| 6d.           | 25 <i>l</i> .             |  |
| 7 <i>d</i> .  | 301.                      |  |
| 8 <i>d</i> .  | 352.                      |  |
| 9d.           | 40 <i>l</i> .             |  |
| 10 <i>d</i> . | 45%.                      |  |
| 11 <i>d</i> . | 50 <i>l</i> .             |  |

Conditions.-Every article to be registered must be given to an agent of the Post Office and a receipt obtained for it. It must be packed and enclosed in a reasonably strong case, wrapper, or cover; and if it be desired to secure compensation for damage to a postal packet (other than a parcel) it must bear the words "Fragile, with Care." The Packet must be marked with the word "Registered," and with the amount of the fee proper to the value up to which the sender desires to secure compensation, thus :- Registered 2d.; Registered 3d.; and so on. If sent unregistered, valuable articles are exposed to risk; consequently inland postal packets which contain coin, watches, or jewellery, and also all inland postal packets on the cover of which the word "Registered," or any word or phrase to that effect, are compulsorily registered, and a fee of fourpence is charged on delivery; but this gives no title to compensation. Money may be sent in a registered parcel, but no compensation will be given in respect

of the loss or damage of such parcel or any of its contents. Every application for compensation should be made to the Secretary of the Post Office, London, Edinburgh, or Dublin, within seven days after the date on which the postal packet was posted. Acknowledgment of Delivery .- The sender of an inland registered letter, parcel, or other registered postal packet, may obtain an acknowledgment of its due delivery to the addressee by paying in advance, at the time of posting, a fee of 2d. in addition to the postage and registration fee. The sender must enter in the form provided for the purpose both his own name and address and the name and address of the person to whom the packet is sent, and he must also affix to the form a stamp of the value of 2d. in payment of the fee.

Foreign and Colonial Mails. —Letters:— $2\frac{1}{2}d$ . per  $\frac{1}{2}$  ounce. Post Cards (single):—1d., (reply):—2d. Printed Papers (Newspapers, Books, etc.):— $\frac{1}{2}d$ . per 2 ounces. Commercial Papers:— $\frac{1}{2}d$ . per 2 ounces, with minimum charge of  $2\frac{1}{2}d$ . Patterns and Samples:— $\frac{1}{2}d$ . per 2 ounces, with minimum charge of 1d. Registration fee:—2d.

Conditions.-No letter for a Colony or Foreign Country may exceed two feet in length or one foot in width or The addresses of letters for depth. Russia should by very plainly written; the name of the town, and of the province in which it is situated, should also be added in English, French, or German. Post Cards, single and reply, are' transmissible to all parts of the world. Price: single cards 1d., reply cards 2d. Inland Post Cards are rendered transmissible abroad by affixing an additional 1d. stamp. Private Post Cards are also transmissible abroad provided they are in conformity with the official Post Card, and must have the words "Post Card" printed on the address side without the Royal arms. The reply halves of private double cards must bear in print the words "Post Card-Great Britain and Ireland" and "Reply." Plain cards without any

511

printed inscription cannot be sent abroad. Nothing must appear on the face of a Post Card but the stamps required for postage, postal direction (such as Registered, Acknowledgment of Delivery, etc.) the name and address of the recipient in writing, or on a gummed label not exceeding in size 2 inches by 1 inch, and the name and address of the sender. Private Box or Bag.-A Private Box can be rented at any Head Post Office, the charge varying from one guinea a year at the smaller offices, to  $\pm 3$  a year at some of the larger offices. Also the charge for a Town Private Bag is usually one guinea a year; but the charge for the conveyance of a Private Bag conveyed upon Rural Posts differs according to the nature of the service and the weight of the bag when empty.

Letters for Soldiers, and Seamen in H.M.S.-(1) Non-commissioned officers, schoolmasters, schoolprivate soldiers, seamen, mistresses, writers in Her Majesty's Navy, whether serving on sea or land, in a British possession or Foreign Country, the Cape Mounted Rifles, and enrolled pensioners in Canada, can send and receive prepaid letters not exceeding the weight of half an ounce for a postage of 1d.; but if any such letters have to pass through a foreign country they are subject, in addition, to the foreign postage, whatever that may be. When sent by private ship, such letters are in addition liable to the captain's gratuity. The person claiming the privilege must at the time be actually employed in the service of Her Majesty, and must not be either a Commissioned Officer or Warrant Officer in the army, or an assistant engineer, gunner, boatswain, or carpenter in the navy, the privilege not extending to these officers. (2) The name of the soldier or seaman, with his class or description, must appear in the direction; and the officer having the command must sign his name and specify the ship or regiment, corps, or detachment to which the soldier or seaman belongs, the name of the ship or regiment being

entered in full. The foregoing particulars must be given in one of the following forms :---

#### Seamen.

From A.B., Seaman, H.M.S. (Here the direction of the Letter to be inserted) C.D., Captain (or other Commanding

Officer),

H.M.S.-

To A.B.

Seaman, H.M.S. (Here the direction of the Letter to be finished.)

Soldiers.

From A.B., Sergeant, &c.—Regt.— (Here the direction of the Letter to be inserted)

C.D., Colonel (or other Commanding Officer),

Regt,----

To A.B.,

(Here the direction to be finished.)

Letters for Passengers on board Mail Packets.-Special arrangements are made for the delivery of letters addressed to passengers on board the packets for America calling at Queenstown, the packets for Canada calling at Londonderry, the Royal Mail Company's packets for Brazil, etc., calling at Lisbon, the Peninsular and Oriental packets from Brindisi with mails for Egypt, India, Australia, China, etc., and the Orient packets from Naples with mails for Australia. Such letters may be posted in any part of the United Kingdom up to the time at which ordinary registered letters to go by the same packets are received, but they must be registered, the postage and registration fee must be fully prepaid, and they must be addressed to the care of the Commander of the packet. The letters should be addressed thus: "Mr.----, on board the mail packet\_\_\_\_, for\_\_\_\_, at Queenstown, Londonderry, Lisbon, Brindisi, or

Naples, care of the Commander of the packet."

Letters, etc. by Private Ships. —Letters intended to be sent by Private Ship must be addressed "By Private Ship;" and if by a particular vessel, the name of the ship must be added. The Postage and conditions of transmission of letters, etc. by a Private Ship are the same as by Mail Packet.

Foreign and Colonial Registration .- There are a few countries where no arrangements for Registration exist. To some countries an article can be registered only to the port of arrival. Registration is applicable equally to letters, post cards, newspapers, book packets, and patterns addressed to places abroad. The sender of a registered article addressed to any Foreign Country or British Colony in the Postal Union, or to Bechuanaland, or Orange Free State, may obtain an acknowledgment of its delivery to the addressee on paying a fee of  $2\frac{1}{2}d$ . as well as the registration fee, in advance, at the time of registration. The name and address of the sender must be left at the Post Office at which the article is registered. Every letter must be placed in a strong cover securely fastened. It is forbidden to send coin, jewellery, or precious stones to several foreign countries. Re-direction.-Free re-direction 15 adopted throughout the Postal Union and is subject to certain restrictions :- Letters, etc., re-directed after delivery at the first address, must be reposted not later than the day (Sundays and public holidays not being counted) after delivery. Any which may appear to have been opened will be liable to charge as freshly posted unpaid letters or packets. Whenever thought necessary a receipt may be required from the addressee of a re-directed letter or packet at the second address. All parcels sent by parcel post are chargeable with fresh postage if redirected. All registered letters or packets, on being re-directed, must be taken back to the Post Office to be dealt with as registered, and must not be dropped into a letter box as ordinary letters or

packets. Letters for commissioned officers, non-commissioned officers, private soldiers, or seamen in the Army or Navy on actual service, are exempt from any charge for re-direction, and are not subject to the usual restriction as to time for reposting. Letters, etc., returned to the senders that they may rectify or complete the address are not, when reposted, treated as re-directed, but as liable to fresh postage. Undelivered Correspondence.-Undelivered correspondence of all kinds returned to this country from places abroad is disposed of in the same manner as inland correspondence.

Foreign and Colonial Parcel Post. Regulations.-(1). The maximum dimensions allowed are as follows :---Parcels for British Possessions (except Canada), Beyrout, Colombia, Constantinople, Costa Rica, Egypt, Jeddah, Hawaii, Siam, Smyrna, Tangier .- Greatest length, 3 ft. 6 in.; greatest length and girth combined, 6 fr. For European countries (except Spain, Portugal viâ Spain, Greece and Turkey), and for Japan, Liberia, and Madeira .- Greatest length, breadth, or depth, 2 ft. For other Foreign countries .--- Greatest length, 2 ft.; greatest length and girth combined, 4 ft. For Canada.-Greatest length, 2 ft.; greatest breadth or depth, 1 ft. (2). Dangerous and offensive articles, and contraband articles (a list of which can be seen at any Post Office) must not be sent by means of the Parcel Post. Parcels exceeding 50l. in value are not transmissible to Aden, India, Egypt, St. Helena, Ascension, the Cape of Good Hope, Natal and Zanzibar. (3). Foreign and Colonial Parcels must not be handed to a Rural Postman or a Mail Cart Driver. (4). One declaration or more of the contents and their value must accompany every parcel. Customs duty is collected on delivery. (5). Parcels for Foreign Countries, the Australian Colonies, South and Central Africa, Natal, Fiji, New Zealand, Jamaica, Mauritius, Seychelles, the Straits Settlements, and Trinidad, must not contain a letter. (6). Parcels for the under-mentioned Foreign Countries and British Possessions may be insured. Insurance is obligatory in the case of parcels addressed to these places containing coin, jewellery, watches or any article of gold or silver; Austria-Hungary, Azores (by sea to Lisbon), Belgium, Beyrout, Cameroons, China, Constantinople, Denmark, Egypt, Finland, France, Germany, Holland, Italy,\* Luxemburg, Madeira, Montenegro, Norway, Portugal (by sea), Roumania, Servia, Smyrna, Sweden, Switzerland. Aden Antigua, Ascension, Bahamas, Barbados, Bermuda, British Guiana, British North Borneo (as far as Sandakan), Ceylon, Cyprus,† Dominica, Falkland Islands, Gambia, Gibraltar, Grenada, Hong Kong, India, Labuan, Lagos, Mombasa, Montserrat, Nevis, Newfoundland, Niger Coast Protectorate, St. Helena, St. Kitts, St. Lucia, St. Vincent (West Indies), Straits Settlements (Malacca, Penang, Province Wellesley, and Singapore only), Tobago, Tortola, Trinidad, Zanzibar.

(8). No parcel can be insured for more than 50%. A parcel addressed to Holland, Italy, or Montenegro cannot be insured for more than 40%, or to Egypt viâ Constantinople, Beyrout, France, Finland, France, Italy viâ France, Roumania, Servia, Smyrna, and Switzerland via France, for more than 201. (9). An insured Parcel must be packed with special care and sealed with wax by the Sender. The sum for which it is insured, which must not exceed the real value of the contents, must be inscribed on the cover. (10). There is at present no system of insurance for parcels exchanged with any Foreign Country or British Possession,

\* No compensation is given for fragile or perishable parcels damaged in Italy.

t No compensations is given for parcels containing watches or jewellery lost or damaged in Cyprus.

except those mentioned in paragraph 6, Express Delivery.—Postal Packets, Letters and Parcels are delivered by Express Messenger under the following conditions. Local Service.— Express throughout by being conveyed the entire distance by Special Messenger. In London they are accepted at about 260 Post Offices. In the Provinces they are accepted at all Post Offices from which there is a delivery of Telegrams, and are delivered in any part of the Town or Rural District.

Scale of Charges.—(a.) For a Letter, Packet, or other Article not exceeding I lb. in weight, the Express Fee is for every mile or part of a mile 3d. For a Letter, Packet, or other Article over I lb. in weight, the Express Fee is for every mile or part of a mile 3d. to which is added for every lb. or part of a lb. beyond the first lb. 14d. Ordinary postage is not charged. (b.) If the sender desires that a cab or other special conveyance be used, the actual cost (generally Is. per mile) must be paid in addition to the express or mileage fee. Where a special conveyance is used for the whole distance at the sender's expense no weight-charge will be levied. In such cases the charge will be merely 3d. a mile in addition to the actual cost of the special conveyance. (c.) If the distance exceeds two miles, and a public conveyance (i.e., railway, omnibus, or tramcar) is not available in both directions, the actual cost of a special conveyance must be paid in addition to the Express Fees. Exception .- Any Express Packet, Letter, or Parcel, not exceeding 5 lb. in weight, may be delivered by foot messenger up to a distance of three miles if the sender does not wish to pay for a special conveyance. The Express Fees chargeable in this case are 3d. a mile for the first two miles and a double fee of 6d. for the third mile, or 1s. in all, in addition to the weight charge, if any. For distances of more than three miles the cost of special conveyance must be paid in all cases (if no public conveyance is available) in addition to the Express Fees. (d.) When several packets are tendered for delivery to one person they should be tied by the sender so as to form one packet, which will be chargeable with the single Express Fee: but the total weight carried in each case for a single fee of 3d. a mile must not be more than I lb. If is exceeds I lb., the ordinary weight-charge of 11d, per lb. will be made. The weight carried by a single messenger must not exceed 15 lbs. unless a cab is provided at the cost of the sender. See also par. (b). (e.) When several letters or packets are tendered by one sender for delivery by the same Messenger at different addresses, or to different persons at the same address, the Express Fee of 3d. a mile will be charged for the full distance to be traversed by the Messenger in the delivery of all the articles entrusted to him, and an additional fixed charge of 2d. for each article above one. The number of articles delivered by one Messenger must not exceed 10. The usual weightcharge of 11d. per lb. will be made for each article exceeding I lb. in weight, and the aggregate weight of all the articles must not exceed 15 lbs, unless a special conveyance be used. See also par. (b). In calculating the distance charge, the whole mileage traversed up to the delivery of the last article will be charged for. The sender may determine the order in which the packets are to be delivered. A Messenger engaged in this service may accept any further service from any one of the addressees according to the usual rule (see Reply and Further Services) subject to this condition that no such service is to be performed until after the delivery of every packet originally entrusted to him. (f). All charges must be prepaid in postage stamps to be affixed to a form provided for the purpose.

**Conditions.**—Hours of Posting 8.0 a.m to 8.0 p.m. In London, however, certain offices are open later. There is no Express Delivery on Sunday, Good Friday (except Scotland), or Christmas Day. The words "*Express Delivery*" must be

boldly written by the sender above the address in the left hand corner of the cover. The delivering Messenger may take a reply or perform a further express delivery service, and the fee must be prepaid. The words "Wait Reply" or "Further Service" should be written above the address of the packet, and the messenger is allowed to wait for the reply 10 minutes free of charge, but after that time 2d, is charged for every quarter of an hour or part of that period. A Telegraph Messenger, on delivering a telegram may if desired take back to the Post Office where he is employed a Postal Packet for Express Delivery. The charge must be prepaid and the fee will be charged from the residence of the sender. Letters to be posted in the Late Fee Letter Boxes attached to the Mail Trains may be sent by Express Service to the Railway Station. If desired they can be met by an Express Messenger at the station of arrival provided the Mail Train is due during the hours for Telegraph business, and that the Postmaster of the nearest Telegraph Office is advised by Telegram. Such articles should be marked: "To be handed to Post Office Express Messenger at——Station." Under certain regulations a letter may be sent Express to a Railway Station, conveyed thence as a Railway letter and then be met by an Express Delivery Messenger at the Railway Station of its destination. Letters sent by Post can be delivered Express on arrival at Office of delivery. Living Animals may be accepted for express delivery, also Liquids in Glass Bottles though excluded from the ordinary post.

Express Delivery from Chief Offices.—Letters and Parcels transmitted by Mail in the regular course of Post from any Provincial Office to London can be delivered by Special Messenger from the General Post Office or other Chief District Office at which the bag containing the Letter or Parcel is first opened, thus gaining considerably in time of delivery. Similarly, Letters and Parcels addressed to any part of the town or rural district served from a Provincial Head Post Office, can, if desired, be sent out for delivery by Special Messenger immediately on their arrival at the Head Office. Fee.—The Express Delivery Fee is chargeable subject to the same conditions as in the foregoing Service, and is calculated according to the distance of the address from the office from which delivery is actually made. In no case must a fee of less than 3d. be prepaid in addition to the Postage, and if the distance be over two miles, or in any case where a special conveyance is used, one half of the amount chargeable must be prepaid in stamps affixed to the letter or parcel. Distinctive Marking .- The words "Express Delivery from Chief Office" must be boldly and legibly marked above the address on the front of the cover of Letters and Parcels, and Letters must in addition be marked with a perpendicular line from top to bottom both on the front and back. Letters and Parcels for delivery in London should be marked "Express Delivery from General Post Office " or "Express Delivery from Head District Office," whichever is desired.

Special Delivery of Letters, etc., may be obtained by Express Service in advance of the ordinary Deliveries by Postmen upon application being made to the Postmaster or Chief Officer on duty.

Messengers called by Telephone or Private Wire.—Subscribers to the Telephone Exchanges of the Post Office, and Renters of private wires terminating at a Post Office, can use their wires for the purpose of summoning a Messenger for the Express Delivery of Letters or Parcels. The fees for such Express Service are charged to deposit account, and are calculated on the whole distance traversed by the Messenger from the Office from which he is summoned to the place of call and thence to the place of delivery.

International Express Service.— Arrangements have been made for the delivery by Special Messenger of letters, etc., marked "Express," despatched from

this country to the under-mentioned foreign countries, and also for the delivery in the United Kingdom by Special Messenger of Express Letters, etc., received from those countries, viz.:-

Argentine Republic (Buenos Ayres, Rosario, and La Plata only).

Austria-Hungary.

Belgium.

Bosnia-Herzegovina (places served by a Post Office only).

Chili.

Denmark (places served by a Town Postman only).

France.

Germany.

Holland.

Italy.

Japan.

Liberia (Monrovia, Buchanan, Edina, Greenville, and Harper only).

Luxemburg.

Montenegro.

Paraguay (Asuncion only).

Portugal. Salvador (San Salvador only).

Servia.

Siam (places served by a Post Office only).

Switzerland.

The letters, etc., intended for Express Delivery in any of these countries should be marked "Express," and be prepaid 3d, in addition to the postage. When the addressee resides in the immediate neighbourhood of a Post Office no charge will be made on delivery but when the place of address is beyond the limits of the ordinary Postal Delivery an additional charge will be levied in the country of destination at its Inland Express rate, allowance being made for the 3d. prepaid here by the Sender. Letters, etc. from these countries marked for Express Delivery, and prepaid and Express fee in addition to the postage, will be delivered by Express Messenger from the usual delivery office in London, or within a distance of one mile from the local Post Office in the provinces without further charge, but if Express Delivery is required to be made from the General Post Office or from a Head District Office in London, at an address outside the ordinary delivery of such office, or beyond a distance of one mile from the local Post Office in the provinces, the charge will be at the same rate as for Inland Express letters, viz., 3d. a mile, and will be collected from the Addressee, but in consideration of the fee prepaid by the Sender 3d. will be deducted from the charge for the full distance.

Money Orders (Inland).-Atevery Post Office at which there is a Savings Bank, Money Orders can be obtained. The commission for these Orders is :---For sums not exceeding £1 2d. " above £1 and not exc. £3 3d. ... " exc. £3 and not exc. £10 4d. The person who purchases a Money Order must give his name and address, the name of the person to whom he wishes the money to be paid, and the office at which it is to be paid. A money order may be paid through a bank, in which case it may be crossed like a cheque.

Money Orders (Foreign).-Money can be sent by means of Foreign or Colonial Money Orders to India, \* Hong Kong, † New Zealand, the United States, Australia, Canada, the Cape of Good Hope, to almost all our Colonies, and to the following Foreign Countries :---Africa, East (German Possessions). Africa, West (Cameroons and Togo, through Germany).

Austria, Belgium. Bosnia. Bulgaria, Chili. Congo Free State. Denmark, with Faroe Islands. Danish West Indies. Dutch East Indian Possessions. Egypt. Finland. France (with Algeria). German Empire.

\*Including agencies at Aden, Bagdad, Bunder Abbas, Bushire, Bassorah, Guadur, Jask, Linga, Muscat, and Zanzibar.

fIncluding agencies at Amoy, Canton, Foo Chow, Hankow, Hoihow, Ningpo, Shanghai, and Swatow,

Hawaii (Sandwich Islands). Herzegovina, Holland. Hungary. Iceland. Italy (with offices on the Red Sea, and at Tripoli). Tapan. Labuan. Lamu (East Africa). Luxemburg (Grand Duchy of). Mombasa (East Africa). New Guinea (German Protectorate of). Norway. Orange Free State. Salvador.

North Borneo (Sandakan and Kudat).

Portugal (including Madeira and the Azores).

Roumania.

Sarawak (Borneo).

Siam.

Sweden.

Switzerland.

Transvaal.

Tunis.

United States.

Uruguay.

Tangier.

The Ottoman Towns of Adrianople, Beyrout, and Salonica.

The following places in Asia Minor and the Levant :--

Candia.

Canea (Khania, La Canee).

Chios (Khios).

**Telegraph Money Orders.**— Money may be transmitted by Telegraph Money Order between all Post Offices in the United Kingdom authorised to transact Telegraph and Money Order business, with the exception that at those Offices which forward but do not deliver Telegrams, Telegraph Money Orders can be issued, but cannot be paid.

### Charges for Telegraph Money Orders----

s. d. The commission is :---- 0 For sums not exceeding 3*l*. 4 above 31. and not exc. 101 - 0 6 In addition to the commission, a charge is made at the ordinary Inland rate for the Official Telegram authorising payment at the Office of Payment and for the repetition thereof, the minimum being 9d. The telegraph charges only cover the cost of transmitting the Official Telegram of Advice to the Postmaster of the Office of Payment and its repetition. Any telegraphic communication which the Remitter may wish to despatch to the Payee must be paid for at the ordinary Inland rate, the minimum being 6d.

By the use of not more than five penny stamps affixed to the face of the Order, any broken amount may be made

up. Perforated stamps cannot be accepted for the purpose. The person who sends one of these Orders must fill in the name of the person to whom it is sent, and, if he so wishes, he can also fill in the name of any particular Money Order Office, and the order will be cashed at that office and no other. No Postal Order will be paid, even though presented for payment by a Banker, unless the name of the Pavee be inserted in the body of the Order. These orders should be cashed within three months of the last day of the month in which they are issued. The holder of a Postal Order may, in writing, on the face thereof, direct that payment be deferred for any period not exceeding 10 days; but in such case the name of some Money Order Office at which the Order shall be paid must be inserted in the body. Payment of the Order will then not be made until the period specified by the holder has elapsed. Every person before parting with an Order should preserve a note of the number of such Order. Postal Orders are now issued at all Money Order Offices in the United Kingdom, at the British Post Office at Constantinople, and in Malta, Gibraltar, India, Straits Settlements, Hong Kong, and Newfoundland. Such Postal Orders are paid at all Money Order Offices in the United Kingdom, and at the British Post Office, Constantinople. Payment is also made in Malta and Gibraltar provided the orders were issued in the United Kingdom or at the British Post Office, Constantinople.

**Telegrams (Inland) Rates.**— Rate for 12 words 6*d.*, every additional word  $\frac{1}{2}d$ . Every word telegraphed is charged for, whether in addresses or text. Telegrams are now delivered free within three miles of the Terminal Office, or within the Town Postal Delivery of the Head Office when that delivery extends beyond three miles. Telegrams are now delivered free at all hours within the Metropolitan Postal District. **Porterage.**—When the address is beyond the Free delivery, porterage is charged at the rate of 3d. per mile, or part of a mile, the charge being calculated from the Office door. For the arrangements for sending telegrams on Sundays in London, the reader is referred to pages 526-529, where a list of offices open on that day is given. The sender is liable for all charges incurred for delivery; which must, when practicable, be paid in advance; or a deposit given. Telegrams to be forwarded by post or train must bear the word "post" or "train" at the end of the address; and if sent per train a deposit of 1/- is taken to cover cost of conveyance. Telegrams Repeated .- The receiver of a telegram may have it repeated by depositing half the amount paid for its transmission to him. The cost of a reply, not exceeding forty-eight words in length may be prepaid. Telegrams redirected are liable to an additional charge. Multiple Addresses .- Copies of a telegram directed to more than one person in the same free delivery are delivered at an additional charge of two pence per copy, in addition to  $\frac{1}{2}d$ . for each word in the address of the copy. Each London Postal District is regarded, for this purpose, as forming a separate delivery. Telegrams may be handed to Rural Postmen (but not to Town Postmen) on their way to a Telegraph Office; Telegrams may also be posted in a letter box and when collected will be transmitted free of extra charge. They should be legibly addressed " Telegrams Immediate." Unpaid telegrams are not forwarded. Late Telegrams.-Postmasters may accept telegrams after office hours on certain conditions and by paying additional fees. Combinations and Abbreviations .- No combination of words is counted as one, with the exception of those which are ordinarily written as one, or coupled by hyphens, such as "sub-lieutenant," "alms-houses," "twopence," etc. All names of Towns and Villages in the United Kingdom are counted as one word, thus Malvern Wells and Upton Warren are chargeable as single words; but all other names are counted according to the number of

words they contain, thus Drury Lane counts as two words. As exceptions, O'Neil, Macdonald, and De La Rue are counted as one word each. So also are names with the prefix St., but double names of persons (like Smith-Payne), althought written with a hyphen, are counted as two words. The abbreviations can't, won't, don't, and shan't are counted as one word; but there is a great risk of error. Words underlined, or placed in a parenthesis, or within inverted commas, two extra words are charged for. Special instructions may be written on the envelope, and are charged for as part of the message. The sender may have his message cancelled. Telegrams addressed to a Telegraph Office to be called for are kept two clear days. Press Telegrams .- Information respecting Press Telegrams may be obtained on application to the Secretary, General Post Office, London, E.C.

Weather Forecasts one day in advance of the weather in any one District not bordering on the Atlantic can be obtained by telegraph from the Meteorological Office on payment of 1/- in addition to the cost of a telegram and reply. The Meteorological Office is open between the hours of 11 a.m. and 8 p.m. on weekdays and between 6 p.m. and 8 p.m. on Sundays, and its telegraphic address is "Weather London."

Signalling Stations have been established by the Post Office, by Lloyds, and by others, at various points round the coasts of the United Kingdom, and telegrams to and from vessels passing such stations may be signalled when the vessels are passing. The charge for signalling the passing of a ship, at Hurst Castle, is 10*d*. and must be prepaid. The charges at other places vary in amount and are collected by Lloyds. All telegrams must in addition be prepaid at the ordinary rate.

Foreign Telegrams.—Foreign telegrams are divided into two classes—those written in plain language and those written in secret language. Secret language comprises (1) preconcerted language or code, only telegrams written in English, French, German, Italian, Spanish, Portuguese, Dutch and Latin are allowed; and (2) cypher composed wholly or in part of figures. Groups of letters not forming words are only admissible when they represent trade marks. Words of more than 10 letters are not allowed, but with telegrams in *plain language* the length allowed for a single word is 15 letters additional letters being charged for at the rate of 15 letters respectively to the word. Compound words and names of persons and places written without a break are counted as single words. If joined by a hyphen, or separated by an apostrophe, or other sign of punctuation, they are counted as so many separate words. In the *address* of a telegram the names of the place and country, province or district, for which the telegram is intended, are counted as single words, whatever their length. Every separate figure is charged for as one word, and every group of five figures is counted as one word, plus one word for any excess. Groups of letters denoting trade marks are counted like figures. Bars of division, decimal points, and stops used in numbers, are counted as figures, as are also letters added to figures to form ordinal numbers. Addresses should be written in French or the language of the country to which the telegrams are to be sent; and the full address of the addressee should be stated: the sender is held responsible for an incorrect or insufficient address. The senders of a telegram can prepay a reply. If the reply is to contain 10 words, the indication "R P" is inserted and charged for as one word; if it is to consist of more or less than 10 words, "RP-----" are inserted and charged for as two words. More than 30 words cannot be prepaid. In telegrams to be left until called for at Telegraph Offices or at Post Offices, the words " Telegraphe Restant" or "Poste Restant" must be inserted as part of the receiver's address. Multiple addresses. A telegram addressed to several persons in the same town, or to the same firm at different localities in the same town, is charged for as a single telegram, and a sum of 5d. must

be prepaid for every extra copy to be delivered if the number of chargeable words does not exceed 100; an additional sum of 5d. being charged for every additional 100 words or part of 100 words. In calculating the charge all the names and addresses are included. Telegrams having *Multiple addresses* are not accepted for *America*. Claims for *reimbursement* in the case of European telegrams are not entertained unless made within two months of the date of the original telegram; not in the case of Extra-European telegrams, unless made within six months.

Abbreviated Addresses. for Telegrams .- Any person may register an abbreviated or arbitrary address on payment of a fee of 11. 1s. a year, dating from the day of registration. The address must consist of two words, one of which is to be the town or place of delivery. Telegrams intended to be delivered to the care of a person who has registered an abbreviated address must have "care of" "c/o" written before the abbreviated address, thus, "Smith care of Hercules London." The symbol "c/o" counts as one word, Ordnance Survey Maps may now be obtained through upwards of 700 Head Post Offices where specimen maps are on exhibition.

Inland Revenue Stamps.—Impressed Bill Stamps of the respective value of 1*d.*, 2*d.*, 3*d.*, 6*d.*, 9*d.*, and 1*s.*; Civil Service, and Judicature Fee Stamps, are sold at all Head Post Offices in England (they can also be obtained through any Money Order Office in Ireland or Scotland); also Inland Revenue Stamps of all kinds.

Postage stamps are in future to be used instead of adhesive Inland Revenue stamps of the value of 1d., 2d., 3d., 6d., 9d., 1s., and 2s., 6d., to denote the duties payable on documents requiring Excise Stamps.

.076

Licenses.—1. Excise Licenses are issued at all Money Order Offices in England and Scotland, as follows :—  $\pounds s. d.$

The Post Office Savings Bank. -There are more than 11000 Post Office Savings Banks open every week day; in the Country between 8.0 a.m. and 8.0 p.m. and in London the hours can be ascertained from the window notice exhibited at each Post Office. A person can only have one Savings Bank account at one time, but when he has opened an account he can use his deposit book to deposit or withdraw at any Post Office transacting Savings Bank business in the United Kingdom and Ireland. Any person who cannot attend at a Post Office to sign the usual declaration form may desire a friend to obtain such a form and when it has been filled up by the intended depositor on presenting the form and the money at a Post Office an account will be opened. Husband and wife may have separate accounts. Children over the age of 7 may also open accounts on their own behalf, and the parents or friends of children under 7 may open accounts for them. A person

may open an account as Trustee for another person if the latter is not already a depositor; and two or more persons who are not depositors may open an account in their joint names. Limits and Conditions of Deposits.-Any sum from a shilling up to  $\pounds 50$ , excluding pence, may be deposited at one time. The annual limit in one year (ending 31st December) is £50. Beyond this a person can only replace money withdrawn during the year. No deposit can be made which will increase the amount due to over £200. A Charitable or Provident Society or Club may deposit beyond these limits; but application accompanied by a copy of its Rules should first be made to the Controller of the Savings Bank Department, General Post Office, London. An acknowledgment for every deposit is made from the Savings Bank Department. This can be addressed where he pleases or to a Post Office to be called for. For savings of less than one shilling, a form

can be obtained and postage stamps affixed. Perforated stamps cannot be accepted. Interest on ordinary deposits is allowed at the rate of  $\pounds 2.10.0$  per cent per annum on every complete pound up to £200. A depositor can at any time withdraw part or the whole of his deposits. He has only to fill up and sign a Notice of Withdrawal, and forward it by post to the Controller who will at once send him a warrant. Deposits may be withdrawn by telegraph up to £10 in one day or by "return of post" payable on the following day up to £20. The cost of the telegrams being paid by the depositor. Applications by telegraph should be made between the hours of 9.0 a.m. and 4.0 p.m. or Saturdays 9.0 a.m. and 1.0 p.m. at any Post Office Savings Bank which is also a Telegraph Office.

Penny Banks .- Encouragement is also given in the establishment of Penny Banks in connection with the Post Office Savings Bank, and aid is afforded to those concerned in their management by furnishing them with-1. Specimen rules for such institutions. 2. Deposit Books, or cards, free of charge, to be issued gratuitously to the Depositors. 3. Cash Books and Ledgers at cost price. Full information in regard to these matters may be obtained from the Controller of the Savings Bank Department. Other Advantages .- Among other advantages of the Post Office Savings Bank the following may be mentioned :-a. For the purpose of aiding thrift, Postal Orders, Money Orders, and Cheques are received for deposit, but they must not be crossed to a particular Bank. b. No postage need be paid on any letter or other communication sent by post to the Controller of the Savings Bank Department, c. The strictest secrecy in regard to Savings Bank transactions is observed by the officials of the Post Office. d. A depositor over 16 years of age may, without expense, nominate any person or persons to receive his deposits in the event of his death, and such nomination may take effect to the extent of 100l. e. In the

event of the death of a depositor, whether he has made a nomination or not, his deposits are payable to his representatives upon the necessary evidence being furnished in support of the claim. Government Stock. Investments .--A depositor may buy Government Stock without any trouble beyond filling up a form of application, and sending a form with his Deposit Book to the Savings Bank Department. Such forms may be obtained at any Post Office Savings Bank. There are four kinds of Stock in which investments may be made, namely :- 23 per cent. Consols (1903); 23 per cent. Stock (1905); 21 per cent. Stock; and Local Loans 3 per cent. Stock.

Any sum from 1s. upwards may be invested in Stock at one time at the current price of the day, and any number of investments may be made in the course of a year (ending 31st December) up to a limit of 2001. Stock, and, beyond this, Stock may be bought to replace the amount of one sale in the year. A person may have 500l. Stock in all, in addition to 2001. on deposit. Dividends .- The dividends on Stock become due quarterly. The Post Office Savings Bank will collect these for the dispositor without charge, and will place them to the credit of his deposit account, where they can remain and bear interest like deposits. Commission .- The commission of the purchase or sale of Stock is as follows: c d

| On Stock  | not e         | xcee | ling | 252. |       | 0 | 9 |
|-----------|---------------|------|------|------|-------|---|---|
| Exceeding |               |      |      |      |       | Ι | 3 |
| "         | 50 <i>l</i> . |      | ,,   |      | 752.  | Ι | 9 |
| 37        | 752.          |      | ,,   |      | 1001. |   |   |

Beyond this a charge of 6d. is made for each additional 100*l*. Stock or part of 100*l*. Stock. The commission can be paid in as part of a deposit, or it can be taken from deposits made previously.

Life Insurance.—Any man or woman between 14 and 65 years of age can effect a Life Insurance for any sum from  $\pounds 5$  to  $\pounds 100$ . Children between 8 and 14 years of age can be insured for  $\pounds 5$ . Insurances may be effected

by the payment of a lump sum, or by the payment of annual premiums. An Insurance may be effected on the life of a man or woman, payable-(1) At death, (2) On the attainment of the age of 55, 60, or 65 years or sooner if death occurs before that age is reached, and (3) On the expiration of 10, 15, 20, 25, 30, 35, or 40 years, or sooner in the event of death The following examples show various ways in which Insurances may be effected :- The life of a male or female between 24 and 25 years of age may be insured for 101.-By an annual payment throughout life of £0 4s. 4d. (1d. a week) or, By an annual payment to the age of 60 of 20 4s. 10d. or, By a single payment of £4 9s. od. Proposal Forms can be obtained at any Post Office Savings Bank. When the amount to be insured does not exceed  $\pounds_{25}$ Medical Examination may not be required, but should the Insurant die before the second premium has been paid the amount of the first premium only will be paid to his representatives; and if he should die before the third premium becomes payable, half the amount insured, only, will be paid to his representatives. If after having paid not less than two annual premiums an insurant should be unable to continue, or should desire to discontinue, the payments, such portion of the premiums as the National Debt Commissioners shall specify will be returned. Any person, not under the age of 16 years, to whom an Insurance is granted may nominate a person to receive the money due at death, and a form of nomination, with full instructions as to filling it up, can be obtained upon application to the Controller, Savings Bank Department, General Post Office, London. Permission is granted to persons over 30 years of age who have been insured five years to reside in any part of the world without the payment of any extra premium. A Friendly or Provident Society can make arrangements with the Post Office for effecting Life Insurances for its members. Annuities or Old Age Pay. - Imme-

diate annuities or old age pay can be

bought at any Post Office Savings Bank provided that the person on whose life the Annuity is to depend is not less than five years of age. Proposal forms can be obtained at any Post Office Savings Bank. By the payment of a lump sum an Annuity from £1 to £100 can be secured for life. The sums payable vary with the age and sex of the person on whose life the Annuity is to depend. Any two persons may purchase an Immediate Annuity on their joint lives, with or without the continuance of the Annuity to the survivor. Old Age Pay (Deferred Annuities), may be secured by the payment of a lump sum or by annual premiums, Old Age Pay from f I up to  $\pm$  100 a year, to commence at a particular age may be purchased. The premiums vary with the age and sex of the person on whose life the Annuity is to depend, with the number of years which are to pass before the commencement of the Old Age Pay, and with the conditions of the contract as to the return or non-return of the purchase money. Payments for Old Age Pay are made through the Post Office Savings Bank, and are accepted in addition to both Ordinary Deposits and Investments in government sock. A friendly or Provident Society can purchase Old Age Pay for its members.

Some of the advantages of the Post Office system of Life Insurances and Old Age Pay are that there is direct Government Security for the payment of the money at the proper time. The cost of a Certificate of Birth may be avoided by furnishing a statement giving such particulars of age as\_can be verified by the Registrar General for England. In the case of Insurance, the Insurant, if not under 16 years of age, may nominate free of charge a person to receive the money at his death. Insurances for sums not exceeding £25 are granted without medical examination under certain conditions. If an Insurant after having paid two annual premiums, cannot pay any more the surrender value of the policy is returned, or a paid up policy will be granted to him.

Private Wires and Telephone

**Exchanges.**—A line of private wire between the place of business or residence of a firm or private individual and a Postal Telegraph Office, or between two or more places of business or residence, may be rented.

Besides receiving from and sending to the Postal Telegraph Office his messages by wire instead of by hand, the renter has the privilege of sending messages over his private wire to be forwarded from the Post Office as ordinary *letters*, or of calling a messenger for the Express delivery of a letter or parcel.

In any town where a sufficient number of wires are led into the Head Postal Telegraph Office, a Telephone Exchange can be formed, and messages transmitted by one renter to another *direct* without the necessity for repetition at the Postal Telegraph office.

Greenwich mean time is supplied by electric current every hour in the day in London, and at either 10 or 1 o'clock to places in the country.

The list of charges and the regulations can be consulted at any Post office.

Trunk Telephone Lines.—Where Post Office Telephone Exchanges in different towns are connected by Trunk lines, such lines may be used for conversation by local subscribers and the general public on payment of the following charges:

For 25 miles or under threepence.

ninepence.

one shilling.

" 75 " " 100 " For every additional 40

miles or fraction thereof sixpence.

The same charges are made to a subscriber to a Telephone Exchange worked under license from the Postmaster-General and connected with the Post Office Trunk system. But when the conversation is between such a subscriber and a subscriber to a Post Office Telephone Exchange in either direction, the following additional charges, which also apply to conversations between Call Offices, are made:—

When the Trunk wire charge for three minutes conversation does not

exceed 1/6, threepence. When the charge exceeds 1/6 but does not exceed 3/-, fourpence. When the charge exceeds 3/-, sixpence.

The period of conversation is limited to three minutes, but any person may secure an uninterrupted use of a Trunk line for six minutes by prepaying a double fee.

London-Paris Telephone.—Public Call Offices.—General Post Office West (Bath Street), open always; West Strand Branch Office, open always; and Threadneedle Street Branch Post Office (near Royal Exchange), open on weekdays, 8.0 a.m. to 8.0 p.m.

Charge, 8s. per conversation of three minutes. \*

Hours for Telegraph Business. —Telegraph Offices (with the exception of Town Sub-Offices in London and other large towns) are, as a rule, open from 8 a.m. to 8 p.m. on Week days. On Sundays the hours of attendance are usually from 8 a.m. to 10 a.m. in England, and from 9 a.m. to 10 a.m. in Scotland and Ireland. Certain Offices are open longer, and information as to the hours at those Offices can be obtained at any Telegraph Office.

Hours for Postal Business. Country .- All provincial Post Offices, whether in town or country, are open for every description of business on week days (Bank Holidays excepted) from 8 a.m to 8 p.m. In all offices which are open to the Public for a longer period, viz., from 7 a.m. to 10 p.m. (including Head and Country Sub-Offices generally) the sale of postage stamps, registration of letters, etc., and acceptance of parcels, is continued during all the hours in which they are so open; unless the offices are open for telegraph business only, in which case the sale of postage stamps only is continued. Town Sub-Offices are open to the Public from 8 a.m. to 8 p.m. In those places, however, where one afternoon in the week is observed as a half-holiday Town Sub-Offices are

\* In making appointments for conversations with correspondents bear in mind that Paris time is 10 minutes in advance on London time,

in many cases closed early. London .- Postage stamps and stamped envelopes are sold on week days at the Chief Office, St. Martin's-le-Grand, between the hours of 6.45 a.m. and 10 p.m., and at other Post Offices in the London District between the hours of 8 a.m. and 8 p.m. Postage stamps and stamped envelopes can also be purchased during exceptional hours on week days and on Sunday at Post Offices open for Telegraph business. Inland Revenue Stamps and Licenses are sold at all Post Offices in London between the hours of 8.0 a.m. and 8.0 p.m on week days. Postal Orders are sold and paid at any Post Office which is a Money Order Office during the time the Office is open on week days for the sale of stamps. Business relating to Money Orders, Savings Banks, Investments and at 8 a.m.

Sales of Government Stock, Annuity and Insurance, etc., is transacted on week days at the Chief Office between 6.45 a.m. and 10.0 p.m., and at other offices in the Eastern Central District between 8 a.m. and 8 p.m., at the District Offices, the Branch and Sub-Offices in the other Town Districts between 10 a.m. and 4 p.m., at Branch Offices in the Western and South-Western Surburban Districts between 10 a.m. and 5 p.m., at Branch Offices in other Suburban Districts between 9.30 a.m. and 5 p.m.; and at Sub-Offices in the Suburban Districts generally between 9 a.m. and 6 p.m. Savings Bank Deposits are received however at all the District Offices and Branch and Sub-Offices which are Money Order Offices, during the hours the Offices are open on week days for the sale of Stamps, commencing

§ Open until 6 p.m. from 1st May to 30th September.

#### WEIGHTS AND MEASURES.

Avoirdupois Weight .-- The standard of the Imperial pound avoirdupois is a cylinder of platinum in the custody of the Warden of the Standards. The weight of this cylinder equals that of 7000 grains and is the legal standard by which weights, and measures used as equivalents to weights, are tested. Avoirdupois weight is used generally in weighing all metals, except silver and gold-all household stores, groceries, chandleries, bread, meat, and vegetables when sold by weight. It is used also by carriers in weighing and determining the freight of goods sent by road, rail, or water.

TABLE.

| -    |          |       |   |                 |

A stone of eight pounds is used in the London meat market.

Troy Weight is used in weighing gold, silver, precious stones, amber, etc. It is also used in weighing liquids. The ounce and pound Troy are the same as the ounce and pound Apothecaries weight, but the latter are divided and sub-divided differently. Standard gold for coinage

is 22 carats of fine gold and 2 carats of copper fused. Standard silver for coinage is 11 oz. 2 dwts. of fine silver mixed with 18 dwts. of alloy. Troy weight bears the proportion of 14 to 17 Avoirdupois, a pound Troy containing 5,760 grains and a pound Avoirdupois 7000.

#### TABLE.

4 Grains equal I Carat

6 Carats " I Pennyweight

20 Pennyweight (480 Grains) equal I Ounce

12 Ounce (5760 Grains) equal I Pound. Apothecaries' Weight .-- Up to the year 1864 the old apothecaries' weight was used in compounding medicines, but in that year the General Medical Council of the United Kingdom directed the discontinuance of the ounce Troy in favour of the ounce Avoirdupois as the standard for Apothecaries' weight. The council also directed the discontinuance of the drachm and scruple in medical prescriptions. Under this arrangement

437<sup>1</sup>/<sub>2</sub> grains equal I ounce

(16 oz.) equal 1 pound. 7000 ,, Avoirdupois weight is used in the sale and purchase of drugs, but the old measures are still sometimes used in dispensing, and are therefore appended.

| 12 Ounces " I     | Pound   |

### WEIGHTS AND MEASURES.

Wool Weight is always used in the weighing of wool. The weight of a stone differs in different places and in the weighing of different classes of goods; English woolstaplers give 15 lbs. to the stone to allow for waste; Irish wool-staplers 16 lbs. The terms tod, wey, sack, and last, are now almost obsolete, wool being generally sold by pounds and stones.

Measures of Extension are of three kinds: Linear, having regard to length of line; Superficial, having regard to area of surface, and Solid, having regard to volume of body in things having length, breadth, and depth. The standard unit, as determined by the "Weights and Measures Act," of 1878, is the

Imperial Standard yard, defined as "The straight line between the centres of two gold plugs in a certain bronze bar deposited in the Standards department of the Board of Trade, when the bar is at a temperature of 62°, Fahrenheit's thermometer." One thirty-sixth of this measure is an inch, which may be taken as the unit for short measurements. The inch is divided into eight parts or eighths for trade purposes, into twelve parts or lines by engineers, and into tenths and hundredths by scientists. Long or Linear Measure is used for measuring distances, lengths, heights, and depths.

10 Sq. Chains " 1 Acre

Cubic or Solid Measure is used in measuring bodies having length, breadth, and depth.

1728 Cubic inches equal I Cubic Foot

27 " feet " I " Yard Measure of capacity.-The standard measure of capacity as determined by Act of Parliament is "the Gallon, containing ten Imperial standard pounds weight of distilled water, weighed in air against brass weights with the water and the air at 62° Fahrenheit's thermometer, and with the barometer at 30 in" -41 and 42 Vict., 15. The act further stipulates that "In using an Imperial measure of capacity, the same shall not be heaped, but either shall be stricken with a round stick or roller straight and of the same diameter from end to end; or, if the article sold cannot, from its size or shape, be conveniently stricken, shall be filled in all parts as nearly to the level of the brim as the size and shape of the article will admit." The Gallon was formerly said to equal 277.274 Cubic inches, but more recent calculations give it as equal to 277.123 cubic inches.

Liquid Measure is used in measuring liquids, and Troy weight in weighing them.
