The accounts submitted Amount to £81.0.3 as compared with £96.7.11. in 1912 The total amount is £15.7.8. less than the same time last year. Straw £4.13.3. Bunches for Tennis Courts £1.12.— Dreg for Pigs £5.— Blaes for Tennis Courts £3.— Making a total of £14.5.3. otherwise accounts are normal

Pigs have been sold to the value of £118.1.0. Pork to the Value of £70.5.10 sent to the store I have been taking advantage of the high prices that was going for Pork and have sold every pig I could get ready for market It is the only time in my experience that I have got 6d/ per cwt.

The weather has been greatly against us with our cold clayey soil for early crops and we are a good deal later than usual in getting them forward First sowing of Peas are very poor. But the second sowing with the same kinds of seed are looking very well. We will be fully a fortnight behind with cutting cabbages and we will be three weeks behind with the pulling of Turnips. The other crops are looking fairly well but late.

As far as I see at present the Apple Crop is just going to be an ordinary one. The bloom was splendid but the cold weather we had at the time of fruit setting were greatly against them.

The Hay Crop at the foot of the garden is rather heavy and if we are favoured with good weather at the time of making it we should have a splendid crop.

The Garden staff is two short at present but I expect two to start this week. The old hands that are constantly employed all the year round have remained at work. But the summer men has been coming and going. I never have had a full staff this season Wages being so high at other work outside.

The Accounts submitted Amount to £66.10.4
As compared with £71.15.- in 1912
The straw is a good deal cheaper than last year being 12/6 per ton less than it was this time last year, Bran 1/ per Bag & Thirds 9d per Bag less which makes a difference of £11.17.- the other items are just the usual for keeping up our stock of working implements &c

No Pigs were sold during the quarter Pork to the value of £75.6.2 have sent to the store

The season has turned out to be very dry and warm, so that it has suited our ground well. We have had splendid crops of vegetables. Cabbage. Cauliflower Peas and Beans have done extra well

and our crop of Apples has also been good. Flowers of all kinds have been plentiful and they have had a large supply sent to the house to decorate the galleries. The borders & beds were also very good and we had a fine show for a length of time

Our Hay Crop was good and we got it secured in fine condition.

Our Staff at present is two men short of the summer strength - Keep on. Short in summer.

James Barr.

I beg leave also to report that the young Boar

Boar

pig that I got from the Earl of Rosebery Farm
in the begining of September has got wrong in the
hind legs and is no use for the purpose we
got him for. We paid £5.-.- for him and he
will be about the value of £3.- now for pork
As we cant do without one at this season of the
year I went out to Woodilee Asylum and saw one
there that I think will suit us his price is
£5.- and I think him cheap at that price as
he is just ready for serving pigs,
we cant go back on the Earl of Rosebery stock
as he was all cleaned out about three weeks
ago with swine fever
