Admitted July 29<sup>th</sup> 1877  
I look, thin, light brown  
hair, fair complexion  
blue eyes, aged 35 years  
About seven weeks ago  
she fell down at Irvine  
when in the act of running  
to reach a steam boat  
which was then going to  
said she was taken up  
to a neighbouring house  
a Surgeon visited her  
and ordered her some  
purgative medicine &  
bladders of hot water

sent home in two days  
in a very outrageous  
state at first tried  
to injure her daughter  
by hitting her & after  
wards bit her own lips  
& tongue severely - but  
is now very affectionate  
to her child - at first  
she raved on religious  
subjects but is now  
very silent rarely ever  
speaking or moving -

So constantly very  
thirsty - at first refused  
her food but takes  
it now very regularly  
at first her bowels  
were very costive; she  
had a purgative of  
Calomel & Gamboge  
which brought away  
much dark coloured  
fœtid Fœces - her head  
was shaved & applica-  
tions of cold water &  
vinegar applied to it;  
likewise her body  
bathed with cold

water

more or less during the  
last twenty years -  
Intervals of perfect  
soundness of mind for  
months, & even for a  
twelve month have  
=quently been enjoyed  
by her - But of late  
particularly within the  
last two years, these

have become less fre-  
 quent, and have not  
 allowed the appearance of  
 any thing so complete as  
 was formerly. No cause can  
 be assigned for her con-  
 tinued complaint. Two of her  
 sisters were affected in  
 a like manner to whom  
 the disease proved fatal  
 without any other part of the  
 system being affected. Her temper  
 was free from the influence  
 of her disorder, was rather  
 mild than otherwise, and  
 during such lucid intervals

she might be deemed  
sensible of possessing  
good share of understand-

of those paroxysms which  
which she has been lately

to her maid servant.

Sarah M<sup>rs</sup> Ewan  
Jan 25<sup>th</sup> 1810. Tall, thin  
sallow complexion, blue  
eyes dark hair aged  
52 years. During the last  
12 months has been almost  
always whimsical & flighty  
& her deportment in general  
extremely irascible & her  
behaviour unreasonable  
all about her affairs & tra-  
dicent spirits to excess  
of late Sandalwood in  
quantities. 12 months  
was as much deranged  
at present - The symptoms  
at first were thought to  
highly hysterical and

hypochondriacal; but  
 during the exacerbations  
 are altogether those of real  
 mental derangement. In  
 a violent temper once ran  
 out to drown herself from  
 which she narrowly escaped  
 has frequently hurt others  
 if late has not offered  
 any self injury - Is prone  
 to roll about the house for  
 hours (during the fits) making  
 the most hideous complain  
 always endeavoring to tear  
 her clothes & break the things  
 about her - At first the  
 ravings was principally in

suppressing herself affected  
with dreadful Bodily  
Distempers, with which  
she was swifter by no  
affected - She has now  
changed to dreadful  
imaginations about  
mind which she says  
is Dead - and superseded  
by an evil spirit. only  
a foot long - & no more  
whose field of torment  
operations is confined  
the space between her  
stomach & throat - The  
spirit she says impels  
her to the hideous scream-  
ing & cursing & wailing

which she sometimes for  
 days & nights together  
 indulges in - on some  
 subjects she is in general  
 perfectly rational -  
 There are lucid intervals  
 though not entirely com-  
 plete - Paroxysms some-  
 times for a few hours -  
 after days & nights -  
 Lucid intervals much  
 shorter - even during  
 these the mania is very  
 of manner & complete  
 hallucination about the  
 state of her mental &  
 bodily health continues

Though quiet, at present  
she mentions that  
whole family as well  
as herself are ill bodied  
& that their minds are  
gone as well as her own  
She is afraid that the  
evil spirit should make  
her cry out in her usual  
way & affront herself  
among strangers she  
speaks sometimes with great  
rationality on the subject  
of her hallucinations -  
During two or three days  
that she staid in Greenock  
under the care of Drs

Mallison & Kirk the violence  
 that a paroxysm was endeavour  
 ed to be subdued by  
 bloodletting & laxatives &  
 afterwards by opiates and  
 antimonials but without  
 effect - She is now conside  
 rably emaciated Pulse 100

conversation touching  
immediate cause of  
Lunacy - is whimsical  
in the extreme. - She im-  
gines a Gen. Kemar to whom  
she has for many years  
been attached. Kept  
from her by the malevolence  
& hatred of her friends -  
altho' the person is at a

distance & hold no com-  
munication with her  
whatever - yet no power  
could persuade her but  
that he lives in the neigh-  
bourhood - waiting for  
an opportunity to carry  
her from her bondage  
The Amasy has been in  
its progress for two or three  
years - but until the last  
eight days - she was able  
to conduct herself in  
common matters with  
propriety - since that  
time - she is employed in  
the most childish & trifling

amusements & engaged in them with all her  
Her Lunacy arises altogether from an attachment  
which she early formed  
None of her relations were ever Insane - Her  
was occasionally boisterous & violent - She has  
no attempt to injure one but on the contrary  
seems more affable & courteous since this  
no disposition to destroy any thing in her possession  
has been manifested -

She has never since this  
 attack exhibited anything

Day she got a stone  
 broke the leg lock & got  
 on the wall. The servant  
 seeing her, ran for the  
 purpose of assisting her  
 down - but when she  
 saw the servant, she jumped  
 into the paved court, which  
 is distant about twelve  
 feet & severely sprained  
 her right foot. Let the  
 foot & leg be kept wet  
 with the following solution

April 5<sup>th</sup> Since her foot  
has been injured she  
has become more  
- posed in mind -  
Continue the use  
the lotion - Bowels regu May

April 9<sup>th</sup> Her leg is  
fast mending -  
more unsettled in mind

— 14<sup>th</sup> Her leg is mu.  
better. She is very much  
eased in mind —

— 17<sup>th</sup> She continues  
in mind —

April 26<sup>th</sup> She continues  
foreswore in mind - I occas  
sionally strikes the  
servant - She is also  
very dirty - voids her  
urine & feces in bed

May 2<sup>nd</sup> She will not  
wear a shift - She frequently  
throws the bed clothes over  
the window -

6<sup>th</sup> Her hair was cut  
this day It was done with  
great difficulty -

21 - She is rather more quiet  
but continues to wet her  
bed every day -

a Widow, with 4 Children,  
Mary<sup>n</sup> Forester, Admitted to  
April 25<sup>th</sup> 1818. Rather  
short, fair complexion  
dark eyes, dark hair  
aged 50 years. Before one  
requiring confinement  
she showed symptoms  
a failure of reason, <sup>the</sup>  
calling on persons <sup>she</sup>  
and there and talking  
of things that had no  
existence except in her  
own imagination, she  
wrote letters of the same  
kind to persons with  
whom she had no connection  
she showed great liking

to change of sleep, gets  
restless, leaves home,  
and goes about talking  
in the way already mentio-  
ned - lately supports  
herself, while quite well,  
to be labouring under  
the jaundice and kept  
in bed for some time  
on that account - The  
insanity rose to its present  
height about three weeks  
ago, no cause whatever is  
known - None of her  
relations ever laboured  
under a similar malady  
nor has any thing particular

been remarked in the

 cured

May 1. Since admission has  
 been obliging to a fault, excep-  
 tively loquacious & vain of  
 displaying her superiority. Com-  
 plains of nothing but dis-  
 turbance from a noisy Pati-  
 ent near her. Being now re-  
 moved to a distance she is  
 not only content but happy

always in extremes. Complains  
a little of her throat, which she  
values herself on having cured  
by a gargle which was quite  
sufficient for removing a disease  
existing only in her fancy. Irre-  
gular. Looks well.  
So has kept easy & as much en-  
joyed as possible.

Sept 18. Has written several  
letters one of them very rha-  
sodical. Occasionally describe  
complaints very graphically  
but solely for the purpose of  
exhibiting her powers of dis-  
crimination & description, which  
indeed are no ways despic-  
ble; but the complaints are  
always gone before the descri-

tion, in consequence of her  
own prudent management. She  
is very kind to all her Com-  
panions, very liberal of ad-  
vice, exhortation & reproof.  
She seems to enjoy in their turn with  
no little self-complacency,  
& not without benefit to  
some, this with disgust to  
others. She looks well, reads  
& works, & on the whole, in-  
clines to amend.
