Further Report

Date of Admission Aug. 17th

Date of Examination

Aug. 17th

Name of Patient

Robert Hoggie

REPORT—

A satisfactory examination of this patient is only possible today - as he has been so acutely maniacal & violent, as to necessitate seclusion in a padded room. In the right side the 6th rib is fractured in front - In the region of the 8th & 10th ribs on left side there is pain and slight bruising of greenish colour - but no fracture is detected. He has various slight greenish discolorations round the neck & on the forehead.

His forehead is much excoriated from rubbing it on the walls of the room. The patient had severe convulsions at several places -

He was brought here by a policeman.

Signature of Medical Officer, A. D. Thomson

 Date of Admission: *May 3rd 1853.*
 Name of Patient: *Miss Letitia Lennoy & Robertson.*

REPORT—
 an elderly woman admitted from the Western
 Infirmary of Glasgow where she was being
 treated for "Rheumatic fever". In con-
 sequence of her excited condition a
 minute physical examⁿ. cannot be
 made. But she is very seriously
 ill, her face & lips very livid, her
 pulse rapid & small & her tongue
 dry & lips sodas covered. There are
 no marks of violence on her person
 and though much excited she is fairly
 easily managed.

Only one Case shall be entered in each page.

Date of Admission: 9th May 1853
 Name of Patient: Agnes Wallace
 Date of Examination: 10th May
 REPORT— an acutely excited young woman
 No evident marks of vesical disease.
 There are 2 large cysts of the skin
 of the lower abdomen, the result of
 the appearance of vesicating fluid previous
 to admission. The girl is thin, an-
 aemic & generally in a poor
 state of health. No morbid organic
 lesion, but a history of ovarian disease

Only one Case shall be entered in each page.

REGISTER OF PHYSICAL CONDITION.
GLASGOW ROYAL ASYLUM, GARTNAVEL.

Date of Examination, *6th August* Date of Admission, *5th August 93*

Name of Patient, *Jeannie Jamieson or Bryson*

REPORT:—
An excited patient admitted in a terrible emaciated condition, the emaciation being the result of restraint by ropes for when at home. Both wrists are much discoloured, & the skin in parts abraded & both hands much swollen. The left elbow is very painful to touch & the skin over about 4" round the olecranon almost black. No fracture detected. Over her chest & abdomen there are some smaller discolorations, on the knees & shins are several bruises, but no actual wounds. She is feverish & generally in a state of excitement, owing to which an accurate examⁿ of her chest & abdomen is not possible.

Only one Case shall be entered in each page.
Signature of Medical Officer, *Lauder R.O. was n.b.*

REGISTER OF PHYSICAL CONDITION,

Patient's mental cond. is one
of pretty acute excitement & a detailed
exam. of her thoracic & abdominal
organ is impossible, but so far as can
be made out there is no diseased
condition of these organs & her physical
condition is good. There are a
few slight eruptions on her body.

Only one Case shall be entered in each page.

Signature of Medical Officer, L. R. Dowd
