A large, stylized cursive letter 'C' is written on lined paper. The letter is formed with a single continuous stroke, starting from the middle of the line, curving upwards and to the right, then looping back down and to the left to complete the shape. The paper has horizontal blue lines and two vertical red margin lines.

Report of the Week

Horses	38	Driving Soil up to Ladies airing court
	24	" Vegetables & refuse
	16	" Ashes
	2	" Manure
	9	In town for goods for store

Men & Patients for the past week have been employed in the Garden. Cleaning and repotting plants. Taking up plants to house. Taking out all the chrysanthemum pots that we have got cutting off and throwing away ^{old roots} and getting pots washed and stored past for another season. And attending to the plants in the Greenhouses and frames.

On the Policies they have been wheeling in soil to the Ladies airing court to make up a bank. Lifting and relaying a drain that runs along the lower walk of the airing court. There was a great many of the pipes off the level and had got choked up so we lifted the whole drain and put it in to a new level, cleaning all the pipes also breaking some glass.

On the Farm Keeping the piggery clean and other general work.

We have had very cold changeable weather for
some time which has kept us back from getting
seeds put in to the ground. Peas and Suckers are
the only seeds we have got down yet

The Garden staff is three men short of the
summer strength. It is not easy to get men this
season as men are scarce and wages are very
high. I have advertised four times in the papers
and have got two.

We have got two lots of chickens hatched this
season first lot 60 came out and they are getting
on very well 5% living now, Second lot hatched
yesterday 62 came out and they seem quite healthy
birds at present.

which makes me short of five men at this time of the year and we have the most of our bedding out to do yet. I had an advertisement in the paper for two days but only one has applied and I engaged him to come on Monday

In regard to the prices of our contract for Grain and Straw and the current prices, this is a large market and no one can say at present how long they ^{will be} at those prices so that a six months contract would be long enough in my opinion. Crops in America by all accounts are looking extra well, so that will help to keep the prices down.

good condition

But we had several nights of frost in the end of May and beginning of June with a long continuation of east wind which hurt the fruit crops. But here we seem to be going to have a good Apple crop.

The dry weather was greatly in our favour as we were very short handed and we have now got all the garden and poteries planted out with vegetables and flowers for the season unless our clay the ground being taken up at present with Spinage & Radish. We commenced to cut Cabbage and Turnips for the house a week ago and have also been pulling some peas. our crops in general are looking well at present. It is also a good season for the flowers as far as it has gone (we have had a fine show of Pyrethrums and Campanulas and Roses are doing extra well.

The Hay crop at the foot of the garden is looking very well and by all appearances we are going to have a fine crop.

We have at present about 300 chickens hatched by the incubator and all doing well.

The garden staff is then been short of our summer strength and we have tried to get them several times by advertising but failed to get them men that would be of any use. as I mentioned we are well on with the cropping but a long way behind with the cutting of the grass. that is the grass that is cut with the scythe. The greens and lawn that are cut by the mowers and Cricket & Golf fields have been kept in good order.

The season has turned out to be dry and warm and suitable for our ground, In general we have had good crops. Cabbage, Cauliflowers Pears and Kidney Beans has done well and Pot and Turnips are looking fine. We had an extra crop of Apples and will be able to supply the house for some time with them.

The Flowers has also done well We had a fine show in the beds and borders. Besides supplying the house with large quantities of cut flowers But the early frost hurt us greatly and finished a lot of things for the season.

We had also a fine crop of Hay and got it secured in good condition. But the second crop is not of much value. I have got a lot of chickens on it 295. besides over 40 killed for houses and they are doing well.

Our staff at present is at the winter strength We have had a great many changes during the season

I am again short of two men, on the winter staff
one left a week ago, for being checked for taking drink
at his work, the other left last Saturday as he was
going to get more wages than he had here. He said that
he was going to the Girls home at Maryhill to attend one
and act as porter at 24/- per week with 3/- for sabbath
duty and his Breakfast & Dinner every day. He had here
24/- per week with 1/- per week war bonus and 1/- for
sabbath duty. I advertised in the Herald and the Citizen
for two days and got 6 applicants, not one of them up
to much. But I took the one that was most likely
to come out on Monday and I wrote him a start
I spoke to W. Oswald before he left home about giving
the man another 1/- per week of war bonus to see if it
would settle them as they complain that it is very
difficult to live just now with high rent taxes and
the price of provisions. 1/- per week would add
10/- to the wage bill at present I may say that
W. Oswald had no objection if you was willing to grant
it.
