I beg leave also to enclose quotations of prices for seeds &c. They are from the same firms that we got them last year. Austin & M'Aslan, Thomas Ogilvie & Co, & D. G. Purdie. — Thomas Ogilvie & Co will be cheapest he gives 35% off Catalogue prices Austin & M'Aslan 33⅓% and D. G. Purdie 35%
The Implements and Manures on both prices and

over

I enclose a list of them. so that you may see the difference of the prices of the three firms. They were also very dear last year and the order was divided between the three. Austin & M'Aslan got the Vegetable seeds. Thomas Wyllie & Co got the implements & Manures and half of Flower seeds and D. G. Purdie got the other half of Flower seeds I think we should withdraw the Cabbage plants at the present time from the list and just get them as we have the ground ready for planting. and they could be got from the firm that has the best plants. There is no prospect of them being dear this season, Will I divide the list up as last year or give it to one firm

I have also a quotation from Austin & M'Aslan for some fruit trees to replace the old ones that was taken out. And some Rhododendrons to replace the Elders that is growing between trees from front gate alongside avenue towards the house. The Elders look all right in summer but are bare and scraggy in winter, the Rhododendrons if they grow well will be always green. which will give the place a better appearance.

The accounts Submitted Amount to £153.6.4 as compared with £194.15.10 in 1913 which makes them less this year by £41.9.6 Last year we had an extra outlay for Hand Cart and Barrows £27.9.10. And for Blair £7.7.3. And an extra this year of £13.19.– for fruit trees & shrubs The planting of the Rhododendrons along side of Avenue has made a decided improvement to the look of the place. The Garden Seeds are a little less Having saved some seeds last year the season being so fine The feeding and Straw for Horses and Pigs is £16.3.1 down from last

year otherwise the accounts are normal

Pigs to the Value of £170.10.10 have been sold
& Pork has been sent to the Store

We have had a very cold wet Spring and never
can get a chance of geting seeds put in to the
ground the weather being so changeable.

The Garden Staff is two short at present

The amount of Accounts submitted is £88.16.- as compared with £81.0.3 in 1913.
The total amount is £7.13.9. more than the same time last year. The Straw & Grain is up £7.19.11, But was done last quarter £16.3.-
The account for repairing Mowers is generally in the last quarters accounts. And we are down £6.13.8 for Coke as we have had no need for much firing this last quarter otherwise the accounts are normal

Pigs have been sold to the value of £160.13.-
No Pork has been sent to the store
Pigs are a long way down in price from what they were this time last year, they will average 10/- per cwt. all round less

The Weather has been very dry and warm But in May & part of June was cold at nights Some of our crops are a great deal earlier than last year, We have been cutting Cabbage for the whole house since the middle of last

over

Month. and we are now pulling Peas. We lost
our early Turnips after they was branded with
the cold winds and fly. and had to sow over
again and of course they are making slow progress
owing to the dry weather. But our crops in general
are looking very well although their is some things
not so far advanced with the dry weather.
Some of the Flowers have been making a grand
show. but dont stand long the ground being
so dry. As far as I can at present the Apple
crop is going to be extra small. We had
a splendid blossom but at the time of setting
fruit we had very cold winds
The Hay Crop at the foot of the garden
is really good for such a dry season and
if we get good weather at the making we
should have some good hay
The Hatching of chickens with the Incubator
has been a success the first did not do well
two thirds of them went off their legs after being
three weeks old But the others has done very
well. We will have over 300 Young chicks

The Garden Staff is two short at present

The accounts submitted amount to £76.10.10
As compared with £66.10.4 in 1913
The Bran this year is three pence more a bag and the Shuds are a sixpence more a bag which makes a difference £10.6.3. One sick insurance £1.13.8 giving a total £5.19.11 costs from last year, and as we have a larger stock of young pigs this year we have been using a little more feeding
The other items are less than last year
Pigs to the value of £58.3.2 was sold
No Pork was sent to the store,
The season has turned out to be dry and warm very suitable for our grounds. We have very large and good crops of vegetables, cabbage, Cauliflower, Beans, Peas and Parsley have done extra well, Our crop of Apples

was small but what was of them was good.
We have had a good show of flowers all the season
in the borders and beds and a plentifull supply
for the house to decorate the Galleries
Our Hay crop was good and we got it secured
in fine condition, We have also a good second
cut and got it now in quite

Our Staff at present is at the Winter strength
