The following Hospitals have been selected :—

CONSUMPTION HOSPITAL,
GUY'S,
KING'S COLLEGE,
LONDON,
LONDON OPHTHALMIC,
MIDDLESEX,
ST. BARTHOLOMEW'S,

ST. GEORGE'S,
ST. MARY'S,
ST. THOMAS'S,
SKIN,
UNIVERSITY COLLEGE,
WESTMINSTER.

PREFACE.

HAVING had occasion, whilst engaged in the preparation of the British Pharmacopœia, to make frequent reference to the formulæ used in the different London Hospitals which I had classified for convenience ; it occurred to me, as also to some of my friends, that such a classified collection of these formulæ, many of them very valuable and not generally known, would be acceptable to the Profession in general, and particularly useful as a ready work of reference to Pharmaceutists who may be called upon to make up prescriptions according to the Hospital formulæ.

I also thought that their publication in this form might suggest to the different Hospital authorities, when preparing new editions of their

respective Pharmacopœias, whether it would not be advisable to modify many of their formulæ so as to assimilate them to those of a like nature in the British Pharmacopœia, and thus simplify and reduce the number of compound drugs.

P. SQUIRE.

277, Oxford Street,
March 25th, 1863.

Note.—I have omitted all formulæ which are identical with those already contained in the London, Edinburgh, and Dublin Pharmacopœias, and I have reduced many of the London Hospital formulæ to smaller quantities, in order to compare them with others, and thus it is that fractional parts have been introduced.
