REGULATIONS,
&c.
RESPECTING
THE MANNER OF PRINTING
INAUGURAL DISSERTATIONS
OF CANDIDATES FOR THE DEGREE OF
DOCTOR OF PHYSIC
IN THE UNIVERSITY OF EDINBURGH ;

*Proposed by the Medical Faculty, and sanctioned by
the authority of the SENATUS ACADEMICUS.*

By the Statutes of the University of Edinburgh, respecting the degree of Doctor of Physic, it was formerly enacted, That the Printer to the University should, upon certain conditions, have the sole privilege of printing

the Inaugural Dissertations of candidates for that degree. By this regulation, the SENATUS ACADEMICUS trusted that the Dissertations would be printed in the most correct manner, and on the most equitable terms. Experience has proved, that the ends proposed are not thus obtained.

THE SENATUS ACADEMICUS, therefore, have now resolved to extend this privilege to different Printers; and, in order to secure accuracy, elegance, and uniformity of execution, as well as to prevent all disputes with respect to price, the following REGULATIONS, proposed by the Medical Faculty, have received the sanction of the SENATUS ACADEMICUS.

I. ALL Inaugural Dissertations shall be printed with the letter known by the name of *Pica*, in a form and manner similar to the printed copy of these Regulations, to be delivered to each Candidate.

II. THE Dissertations shall be printed on the best *demy* paper, and at the following rates :

PRINTING and Paper for *one* sheet, or 16 pages, *May*, 1812.

100 copies,	-	-	-	L. 2	1	0
150 copies,	-	-	-	2	5	6
200 copies,	-	-	-	2	10	0
250 copies,	-	-	-	2	16	0
300 copies,	-	-	-	3	2	0

But if any Candidate choose to have copies of his Dissertation on a finer paper, if he add any notes requiring a different type, or if he make any alterations in his text, after the types have been set, an additional charge shall be allowed on these accounts, according to the ordinary rate of printing.

III. THAT the Medical Faculty may be assured these Regulations, with respect to price, are strictly complied with, each Can-

didate, upon receiving his *Diploma* from the Under Janitor, shall deliver to him a discharged copy of the Printer's account.

IV. ALL *Extracts* from works already published, shall be thrown into an Appendix, or into Notes at the bottom of the page; this rule, however, does not extend to short Quotations, necessarily forming a part of a paragraph.

V. THE privilege of printing Inaugural Dissertations shall be granted to Messrs CREECH, BALFOUR, and STEWART, printers to the University; NEILL and Co.; SMEL-LIE; MURRAY and COCHRANE; ALLAN; BALLANTYNE; WILLISON; SCHAW; and ABERNETHY and WALKER; in terms of these Regulations; but, on the condition, that any of them who shall allow a Dissertation inaccurately printed to issue from his or their press, or shall fail in giving satisfaction to the Medical Faculty, with respect to the ele-

gance and proper execution of the work, shall forfeit this privilege.

VI. FORTY-ONE copies of each Dissertation, *uncut and stitched in blue paper*, shall be delivered to the Under Janitor of the University, for the use of the College, exclusive of the eight copies for the Medical Faculty, as ordained by the Statutes of the University respecting medical degrees; of which Statutes, each Candidate shall be furnished with a printed copy, either by the Secretary of the University, or by the Dean of the Faculty of Medicine.

VII. ALL the Commentaries on Aphorisms, Questions and Cases, must be written on the Paper delivered to the Candidate by the Under Janitor of the University. The paper must be folded in quarto, and proper margins left for binding. A copy of the case, question or aphorism, must be prefixed to the commentary, and with this, the copy

delivered to the Candidate must also be restored to the Professor proposing it.

VIII. ANY Candidate who shall not be present on the stated days of examination, at the time when his name is called, shall be considered as having relinquished his intention of graduating for that term, and must not expect a future examination till another term. Should he be confined by sickness, or any other unavoidable accident, he must send notice of his situation, previous to the time at which the examinations commence, both to the Dean of the Medical Faculty, and likewise to the Professors, by whom the Exercises, which he was to have defended, have been assigned to him.

ANDREAS DUNCAN, *Junior*, M. D. Professor of
Medical Jurisprudence, *Secretary and Librarian*.

May 10. 1812.
