ZOOLOGICAL

PHACOPS CAUDATUS.--From the Limestone of Dudley

In the Private Collection of Professor J. TENNANT, F.G.S.

CATALOGUE
OF
FOSSILS,
FOUND IN THE BRITISH ISLES,

FORMING THE PRIVATE COLLECTION

OF

JAMES TENNANT, F.G.S.,

Professor of Mineralogy and Geology in King's College, London; Lecturer on Mineralogy and Geology to the Gentlemen Cadets in the Practical Class of the Royal Military Academy, Woolwich; Mineralogist by appointment to Her Majesty: Member of the Geological Society of France; Fellow of the Chemical, Microscopical, Zoological, and Royal Geographical Societies of London, etc.

LONDON:
J. TENNANT, 149 STRAND, W.C.

1858.

INTRODUCTION

should this Catalogue be used by those interested with Geo-
logy it will only appear to be a list of names; but it has the
use. It combines the principal specimens in my private Collec-
tion, and may be considered as a list of 2000 of the most common
fossils, which are found in the British
Geological rocks.

I take this opportunity of thanking Mr. G. T. Wood,
F.G.S., author of the admirable treatise on "Recent and Fossil
Serpents," published by Mr. Wm. Pickering, and indebted to the student
in Geology. Mr. Woodward sending the Collection, with his
early researches and theories, during his leisure hours, between
1830 and 1839, may have saved the first writer passing through
the press. The Collection is contained in sixty drawers, and is
thoroughly prepared at a considerable expense, so as to worthily
illustrate geological history to the student.
It was arranged for the
Professor T. Phillips, 1834; Professor Astley, 1840.

I was appointed Lecturer on Mineralogy in 1828, and succeeded
Professor Astley in 1832; since then I have made the specimens
of my private collection to illustrate the lecture. This Catalogue
was printed originally with a view to assist the Students attend-
ing the Lecture on Geology at King's College, and the Committee
Chairs in the Royal Military Academy, Woolwich. It may also
be found useful to a large class of intelligent persons who are
studying Geology in different parts of the country; if they want
particular mentioned in the text.

To aid those desirous of knowing more of Geology, both general
and specific, I have added a limited catalogue of the best books
now in use, and specimens to be had at present.

[This is to be noted that the names of the Fossils are those used
in the last edition of Morris's "Catalogue of British Fossils"; and
except the subdivisions of the various groups, the whole being on
the next page.]

INTRODUCTION.

SHOULD this Catalogue be read by those unacquainted with Geology, it will only appear to be a list of *hard names*; but it has its use. It comprises the principal specimens in my private Collection, and may be considered as a list of 2000 of the most common fossils, which is about one-fourth of those found in the British fossiliferous rocks.

I take this opportunity of thanking my friend Mr. S. P. Woodward, F.G.S., author of the admirable treatise on "Recent and Fossil Shells," published by Mr. Weale, and indispensable to the student in Geology. Mr. Woodward arranged the Collection, with his usual accuracy and neatness, during his leisure hours, between 1840 and 1850, and has revised the list whilst passing through the press. The Collection is contained in sixty drawers, and, although formed at a considerable expense, has led me to many interesting geological rambles in collecting most of the specimens. It was arranged for reference in making up the elementary collections to illustrate some of the numerous and useful works on Geology published in the last thirty years by my predecessors in the Geological Chair at King's College,—viz. Sir Charles Lyell, 1831; Professor J. Phillips, 1834; Professor Ansted, 1840.

I was appointed Lecturer on Mineralogy in 1838, and succeeded Professor Ansted in 1853; since then I have used the specimens of my private cabinet to illustrate the lectures. This Catalogue has been printed chiefly with a view to assist the Students attending the Lectures on Geology at King's College, and the Gentlemen Cadets in the Royal Military Academy, Woolwich. It may also be found useful to a large class of intelligent persons who are studying Geology in different parts of the country: they must bear in mind, however, that the fossils are not confined to the localities mentioned in the list.

To aid those desirous of knowing more of Geology, both general and special, I have added a limited catalogue of the best books, maps, and diagrams to be had at present.

[It should be noted that the names of the Fossils are those used in the last edition of Morris's "Catalogue of British Fossils;" and that the abbreviations of the names of Authors are explained on the next page.]

CATALOGUE OF FOSSILS.

STRATIFIED FOSSILIFEROUS ROCKS.

TERTIARY SERIES.

Pliocene Group.	<table><tr><td>NEWER PLIOCENE OR GLACIAL PERIOD.</td><td>Freshwater formations with recent shells and some extinct animals. Caves of Kirkdale, Swansea and Torquay.</td></tr><tr><td>OLDER PLIOCENE OR CRAG.</td><td>Marine formations with above 50 per cent. recent shells.</td></tr></table>	NEWER PLIOCENE OR GLACIAL PERIOD.	Freshwater formations with recent shells and some extinct animals. Caves of Kirkdale, Swansea and Torquay.	OLDER PLIOCENE OR CRAG.	Marine formations with above 50 per cent. recent shells.		
NEWER PLIOCENE OR GLACIAL PERIOD.	Freshwater formations with recent shells and some extinct animals. Caves of Kirkdale, Swansea and Torquay.						
OLDER PLIOCENE OR CRAG.	Marine formations with above 50 per cent. recent shells.						
Miocene Group.	(Wanting in England, or doubtfully represented by the Coralline Crag and Hempstead beds.)						
Eocene Group.	<table><tr><td>UPPER EOCENE.</td><td>Hempstead beds, Isle of Wight. Bembridge, or Binstead beds.</td></tr><tr><td>MIDDLE EOCENE.</td><td>Headon beds, Isle of Wight. Barton clay, Hants. Sands of Bagshot and Bracklesham.</td></tr><tr><td>LOWER EOCENE.</td><td>London clay and Bognor rock. Plastic clay and Woolwich sands. Thanet sands.</td></tr></table>	UPPER EOCENE.	Hempstead beds, Isle of Wight. Bembridge, or Binstead beds.	MIDDLE EOCENE.	Headon beds, Isle of Wight. Barton clay, Hants. Sands of Bagshot and Bracklesham.	LOWER EOCENE.	London clay and Bognor rock. Plastic clay and Woolwich sands. Thanet sands.
UPPER EOCENE.	Hempstead beds, Isle of Wight. Bembridge, or Binstead beds.						
MIDDLE EOCENE.	Headon beds, Isle of Wight. Barton clay, Hants. Sands of Bagshot and Bracklesham.						
LOWER EOCENE.	London clay and Bognor rock. Plastic clay and Woolwich sands. Thanet sands.						

SECONDARY SERIES.

Cretaceous Group.	<table><tr><td>Upper.</td><td>White chalk with flints. Lower chalk. Chalk marl and grey chalk.</td></tr><tr><td>UPPER GREEN-SAND.</td><td>Warminster, Blackdown and Cambridge.</td></tr><tr><td>GAULT.</td><td>Blue clay of Folkestone and red chalk of Hunstanton and Flamborough.</td></tr><tr><td>Lower.</td><td>Shanklin sands. Kentish rag and Atherfield clay. Speeton clay, Yorkshire.</td></tr><tr><td>LOWER GREEN-SAND OR NEO-COMIAN.</td><td></td></tr></table>	Upper.	White chalk with flints. Lower chalk. Chalk marl and grey chalk.	UPPER GREEN-SAND.	Warminster, Blackdown and Cambridge.	GAULT.	Blue clay of Folkestone and red chalk of Hunstanton and Flamborough.	Lower.	Shanklin sands. Kentish rag and Atherfield clay. Speeton clay, Yorkshire.	LOWER GREEN-SAND OR NEO-COMIAN.	
Upper.	White chalk with flints. Lower chalk. Chalk marl and grey chalk.										
UPPER GREEN-SAND.	Warminster, Blackdown and Cambridge.										
GAULT.	Blue clay of Folkestone and red chalk of Hunstanton and Flamborough.										
Lower.	Shanklin sands. Kentish rag and Atherfield clay. Speeton clay, Yorkshire.										
LOWER GREEN-SAND OR NEO-COMIAN.											
Wealden.	<table><tr><td>WEALD CLAY.</td><td>Freshwater formation of the Weald of Kent and Sussex, Brook Point, Isle of Wight, and Elgin, N.B.</td></tr><tr><td>HASTINGS SANDSTONE.</td><td></td></tr><tr><td>PURBECK BEDS.</td><td>Freshwater limestone and terrestrial deposits of Purbeck and Portland.</td></tr></table>	WEALD CLAY.	Freshwater formation of the Weald of Kent and Sussex, Brook Point, Isle of Wight, and Elgin, N.B.	HASTINGS SANDSTONE.		PURBECK BEDS.	Freshwater limestone and terrestrial deposits of Purbeck and Portland.				
WEALD CLAY.	Freshwater formation of the Weald of Kent and Sussex, Brook Point, Isle of Wight, and Elgin, N.B.										
HASTINGS SANDSTONE.											
PURBECK BEDS.	Freshwater limestone and terrestrial deposits of Purbeck and Portland.										

Oolitic Group.	Middle.	PORTLAND BEDS.	Marine limestone of Portland, Tisbury and Brill.
		KIMMERIDGE CLAY.	Dorsetshire; Swindon; Aylesbury.
		CORAL RAG.	Upper calcareous grit of Wilts. Oolite of Calne and Malton.
		OXFORD CLAY.	Lower calcareous grit of Weymouth. Weymouth; Chippenham; St. Neots.
	Lower.	GREAT OOLITE.	Kelloway rock. Cornbrash. Forest marble and Bradford clay. Bath freestone. Stonesfield slate.
		INFERIOR OOLITE.	Fuller's earth of Cotteswolds. Iron-shot oolite, Bridport, Dundry.
		LIAS.	Upper lias or Alum shale. Marlstone or Middle lias. Lower lias.
		RED MARLS.	Bone-bed of Axmouth and Severn. Salt marls or Keuper.
	Triassic Group.	MUSCHELKALK ...	(Wanting in England.)
		NEW RED SAND-STONE.	Cheshire and Lancashire.

PALÆOZOIC SERIES.

Permian Group.	MAGNESIAN LIMESTONE.	Lower red marls of Manchester. Zechstein of Germany.
	COAL MEASURES.	Coal-shale and sandstone with plants and (chiefly freshwater) shells.
Carboniferous Group.	MILLSTONE GRIT.	
	CARBONIFEROUS OR MOUNTAIN LIMESTONE.	Upper limestone and shales. Scar limestone. Lower shale. Yoredale series. Wharfdale series.
	OLD RED SAND-STONE.	Petherwin limestone. Yellow sandstone of Scotland. Plymouth limestone. Tilestone of Herefordshire.
	LUDLOW ROCK.	Upper Ludlow rock. Aymestry limestone. Lower Ludlow rock.
Upper Silurian Group.	WENLOCK ROCK.	Wenlock limestone and shale.
	CARADOC SAND-STONE.	May-hill sandstone.
Lower Silurian or Cambrian Group.	LLANDEILO FLAGS.	Bala rocks.
	LINGULA FLAGS...	Primordial zone.

NEWER PLIOCENE FRESHWATER DEPOSITS.

CONCHIFERA.

<i>Unio litoralis</i> , <i>Drap</i>	Clacton, Essex.
<i>Cyrena fluminalis</i> , <i>Müll</i>	Grays, Essex.
<i>Cyclas cornea</i> , <i>Lam</i>	Grays, Essex.
<i>Pisidium pusillum</i> , <i>Turt</i>	Copford, Essex.
<i>Pisidium amnicum</i> , <i>Müll</i>	Grays, Essex.
<i>Pisidium Henslowianum</i> , <i>Shep</i>	Grays, Essex.

GASTEROPODA, PULMONIFERA.

<i>Limax agrestis</i> , <i>Müll</i>	Maidstone.
<i>Helix nemoralis</i> , <i>Müll</i>	Copford, Essex.
<i>Helix hortensis</i> , <i>Müll</i>	Copford, Essex.
<i>Helix arbustorum</i> , <i>L</i>	Copford, Essex.
<i>Helix rufescens</i> , <i>Penn</i>	Copford, Essex.
<i>Helix plebeia</i> , <i>Drap</i>	Copford, Essex.
<i>Helix aculeata</i> , <i>Müll</i>	Copford, Essex.
<i>Helix lamellata</i> , <i>Turt</i>	Copford, Essex.
<i>Helix pulchella</i> , <i>Müll</i>	Copford, Essex.
<i>Helix pygmæa</i> , <i>Drap</i>	Copford, Essex.
<i>Helix ruderata</i> , <i>Studer</i>	Copford, Essex.
<i>Helix rotundata</i> , <i>Müll</i>	Copford, Essex.
<i>Helix fulva</i> , <i>Müll</i>	Copford, Essex.
<i>Helicella cellaria</i> , <i>Müll</i>	Copford, Essex.
<i>Helicella nitidula</i> , <i>Drap</i>	Copford, Essex.
<i>Helicella nitida</i> , <i>Müll</i>	Copford, Essex.
<i>Helicella radiatula</i> , <i>Alder</i>	Copford, Essex.
<i>Helicella crystallina</i> , <i>Drap</i>	Copford, Essex.
<i>Pupa muscorum</i> , <i>L</i>	Copford, Essex.
<i>Pupa umbilicata</i> , <i>Drap</i>	Copford, Essex.

4 NEWER PLIOCENE, FRESHWATER.

<i>Vertigo pygmæa</i> , <i>Drap.</i>	Copford, Essex.
<i>Vertigo pygmæa</i> , var. <i>major</i>	Copford, Essex.
<i>Vertigo substriata</i> , <i>Alder</i>	Copford, Essex.
<i>Vertigo antivertigo</i> , <i>Drap.</i>	Copford, Essex.
<i>Vertigo Venetzii</i> , <i>Charp.</i>	Copford, Essex.
<i>Vertigo pusilla</i> , <i>Müll.</i>	Copford, Essex.
<i>Clausilia nigricans</i> , <i>M. & R.</i>	Copford, Essex.
<i>Clausilia laminata</i> , <i>Mont.</i>	Copford, Essex.
<i>Clausilia plicatula</i> , <i>Drap.</i>	Copford, Essex.
<i>Zua lubrica</i> , <i>Müll.</i>	Copford, Essex.
<i>Azeca tridens</i> , <i>Pult.</i>	Copford, Essex.
<i>Succinea oblonga</i> , <i>Drap.</i>	Swale Cliff, Herne Bay.
<i>Succinea putris</i> , <i>L.</i>	Grays, Essex.
<i>Succinea Pfeifferi</i> , <i>Rossm.</i>	Grays, Essex.
<i>Carychium minimum</i> , <i>Müll.</i>	Copford, Essex.
<i>Planorbis vortex</i> , <i>L.</i>	Copford, Essex.
<i>Planorbis albus</i> , <i>Müll.</i>	Grays, Essex.
<i>Planorbis marginatus</i> , <i>Drap.</i>	Grays, Essex.
<i>Ancylus fluviatilis</i> , <i>Müll.</i>	Grays, Essex.
<i>Limnæa peregra</i> , <i>Müll.</i>	Copford, Essex.
<i>Limnæa truncatula</i> , <i>Müll.</i>	Copford, Essex.
<i>Limnæa auricularia</i> , <i>L.</i>	Grays, Essex.
<i>Limnæa palustris</i> , <i>L.</i>	Grays, Essex.
<i>Physa hypnorum</i> , <i>L.</i>	Copford, Essex.
<i>Acicula lineata</i> , <i>Drap.</i>	Copford, Essex.

GASTEROPODA, PECTINIBRANCHIATA.

<i>Hydrobia marginata</i> , <i>Mich.</i>	Grays, Essex.
<i>Bithynia tentaculata</i> , <i>L.</i>	Copford, Essex.
<i>Valvata antiqua</i> , <i>Morris</i>	Grays, Essex.
<i>Valvata piscinalis</i> , <i>Müll.</i>	Grays, Essex.

MAMMALIA.

<i>Equus fossilis</i> , <i>Meyer</i>	Caves.
<i>Rhinoceros tichorhinus</i> , <i>Cuv.</i>	Caves.
<i>Elephas primigenius</i> , <i>Blum.</i>	Essex.

<i>Cervus</i> , sp.....	Kirkdale Cave.
<i>Bos</i> , sp.....	Essex.
<i>Hyæna spelæa</i> , <i>Goldf.</i>	Kirkdale Cave.

NEWER PLIOCENE MARINE DEPOSITS.

CONCHIFERA.

<i>Tellina calcaria</i> , <i>Gmel.</i>	Clyde.
<i>Tellina solidula</i> , <i>Pult.</i>	Postwick, Norwich.
<i>Tellina Balthica</i> , <i>L.</i>	Clacton, Essex.
<i>Astarte borealis</i> , <i>Chemn.</i>	Clyde.
<i>Astarte elliptica</i> , <i>Br.</i>	Clyde.
<i>Astarte compressa</i> , <i>Mont.</i>	Clyde.
<i>Astarte compressa</i> , var. <i>multistriata</i>	Clyde.

GASTEROPODA.

<i>Puncturella Noachina</i> , <i>Chemn.</i> . .	Clyde.
<i>Litorina litorea</i> , <i>L.</i>	Valley of Nar, Norfolk.
<i>Lacuna vincta</i> , <i>Mont.</i>	Clyde.
<i>Turritella communis</i> , <i>Risso</i>	Nar Valley.
<i>Aporrhais pes-pellicani</i> , <i>L.</i>	Nar Valley.
<i>Natica clausa</i> , <i>B. & S.</i>	Clyde.
<i>Natica nitida</i> , var. <i>Alderi</i> , <i>Forbes</i> .	Nar Valley.
<i>Trophon clathratus</i> , <i>L.</i>	Clyde.
<i>Trophon Gunneri</i> , <i>Lovén</i>	Clyde.
<i>Buccinum undatum</i> , <i>L.</i>	Clyde.

OLDER PLIOCENE CRAG.

- N.C. Norwich, or Mammaliferous Crag.
 R.C. Red Crag.
 C.C. Coralline Crag (Suffolk).

FORAMINIFERA.

<i>Biloculina</i> , sp.	C.C. Sutton.
<i>Polymorphina</i> , sp.	C.C. Sutton.

<i>Textularia</i> , sp.	C.C. Sutton.
<i>Bulimina</i> , sp.	C.C. Sutton.

ZOOPHYTA.

<i>Cryptangia Woodii</i> , <i>M.-Edw.</i>	C.C. Ramsholt, Suff.
<i>Flabellum Woodii</i> , <i>M.-Edw.</i>	C.C. Orford.
<i>Sphenotrochus intermedius</i> , <i>Münst.</i>	C.C. Sudbourne.
<i>Balanophyllia calyculus</i> , <i>Wood</i> ..	R.C. Walton, Essex.
<i>Alcyonium circumvestiens</i> , <i>Wood</i> .	R.C. Sutton, Suffolk.
<i>Cellepora</i> , sp.	C.C. Orford & Sutton.
<i>Theonoa globosa</i> , <i>König</i>	C.C. Aldborough.
<i>Fascicularia aurantium</i> , <i>M.-Edw.</i>	C.C. Aldborough.
<i>Hornera striata</i> , <i>M.-Edw.</i>	C.C. Aldborough.
<i>Hornera reteporacea</i> , <i>M.-Edw.</i> ..	C.C. Aldborough.
<i>Eschara</i> , sp.	C.C. Sudbourne.
<i>Tubulipora</i> , sp.	C.C. Orford.
<i>Heteropora dichotoma</i> , <i>Bl.</i>	C.C. Ramsholt.
<i>Cellaria fistulosa</i> , <i>L.</i>	C.C. Aldborough.
<i>Lunulites</i> , sp.	C.C. Sutton.

ECHINIDÆ.

<i>Echinus Woodwardi</i> , <i>Desm.</i>	C.C. Orford.
<i>Temnechinus excavatus</i> , <i>Wood</i> ..	C.C. Sutton.
<i>Temnechinus melocactus</i> , <i>Forbes.</i> ..	C.C. Sutton.
<i>Amphidotus cordatus</i> , <i>Penn.</i>	C.C. Orford.
<i>Echinocyamus pusillus</i> , <i>Müll.</i>	R.C. Sutton.
<i>Echinocyamus Suffolciensis</i> , <i>Ag.</i> ..	R.C. Walton, Essex.
<i>Echinocyamus oviformis</i> , <i>Forbes</i> ..	C.C. Gedgrave.

ANNELIDA.

<i>Vermilia</i> , sp.	C.C. Aldborough.
<i>Ditrupa subulata</i> , <i>Berk.</i>	C.C. Aldborough.

CIRRIPEDA.

<i>Balanus idoneus</i> , <i>Darwin</i>	C.C. Ramsholt.
<i>Balanus improvisus</i> , <i>Darwin</i>	R.C. Walton.
<i>Balanus crenatus</i> , <i>Brug.</i>	C.C. Sutton.

<i>Balanus bisulcatus</i> , <i>Darwin</i>	C.C. Gedgrave.
<i>Scalpellum magnum</i> , <i>Darwin</i>	C.C. Gedgrave.

CRUSTACEA.

<i>Cancer</i> , sp.....	C.C. Ramsholt.

TRIASSIC SYSTEM.

"Bone-bed" of Axmouth, Aust, and Westbury on Severn (*Keuper*).

Red marls and sandstone, with salt and gypsum (*Keuper*).

Muschelkalk of Brunswick and Bavaria.

New Red Sandstone (*Bunter Sandstein* of Germany).

ENTOMOSTRACA.

? <i>Estheria, sp.</i>	Westbury.
----------------------------------	-----------

PISCES.

- ? *Hybodus rericostatus* Aust, near Bristol.
? *Nemacanthus monilifer* Aust, near Bristol.
? *Ceratodus*, sp. Westbury.
? *Saurichthys apicalis* Westbury.

REPTILIA.

- Rhynchosaurus articeps*, Owen (foot-print) New Red S. Cheshire.

PERMIAN SYSTEM.

Magnesian Limestone (*Kupfer-schiefer*).

Red marls of Manchester (*Roth-todt-liegende* of Germany).

BRYOZOA.

- Fenestella retiformis*, Schl. Durham.
Synocladia virgulacea, Phil. Durham.

CONCHIFERA.

- Pleurophorus costatus*, Brown Manchester.
Edmondia elongata, Howse Durham.
Axinus obscurus, Sby. Leeds.
Arca striata, Schl. Durham.
Arca tumida, J. Sby. Durham.
Myalina squamosa, J. Sby. Durham.
Bakewellia antiqua, Münst. Durham.
Monotis speluncaria, Schl. Durham.
Pecten pusillus, Schl. Durham.

BRACIOPODA.

- Terebratula elongata*, Schl. Durham.
Spirifera multiplicata, J. Sby. Durham.
Athyris pectinifera, J. Sby. Durham.
Camarophoria Schlotheimi, Buch. Durham.
Camarophoria Humbletonensis, Howse. Durham.

- Strophalosia Goldfussi, Münst..... Durham.
Producta horrida, Sby..... Durham.*

GASTEROPODA.

- Turbo? Mancuniensis, Brown Manchester.
Turbo helicinus, Schl. Durham.
Rissoa Gibsoni, Brown Manchester.*

PALÆOZOIC SERIES.

CARBONIFEROUS SYSTEM.

COAL-MEASURES.

DICOTYLEDONOUS PLANTS.

- Sternbergia approximata, Artis .. Yorkshire.*

GYMNOSPERMS.

- Trigonocarpum olivæforme, L. & H. Bolton.*

MONOCOTYLEDONES.

- Cyperites bicarinata, L. & H. Newcastle.
Palmacites..... Newcastle.*

PTEROIDES.

- Asterophyllites foliosus, L. & H... Newcastle.
Calamites approximatus, Ad. Br.. Somerset.
Calamites dubius, Ad. Br. Yorkshire.
Calamites undulatus, Ad. Br. Wigan.
Calamites cannæformis, Schl. Wigan.
Lepidodendron obovatum, Sternb.. Newcastle.
Lepidodendron Sternbergi, Ad. Br. Newcastle.*

- Lepidodendron elegans*, *Ad. Br.* ... Newcastle.
Lepidodendron gracile, *L. & H.* ... Newcastle.
Lepidostrobus ornatus, *Ad. Br.* ... Newcastle.
Lepidostrobus variabilis, *L. & H.* ... Newcastle.
Ulodendron majus, *L. & H.* Newcastle.

FILICES.

- ? *Sigillaria tessellata*, *Ad. Br.* Newcastle.
? *Stigmaria ficoides*, *Ad. Br.* Newcastle.
Cyclopteris oblata, *L. & H.* Coalbrook Dale.
Cyclopteris obliqua, *Ad. Br.* Coalbrook Dale.
Neuropteris flexuosa, *Sternb.* Somerset.
Neuropteris gigantea, *Sternb.* Newcastle.
Neuropteris heterophylla, *Ad. Br.* Newcastle.
Neuropteris rotundifolia, *Ad. Br.* .. Newcastle.
Sphenopteris crenulata, *Ad. Br.* .. Dudley.
Sphenopteris serrata, *L. & H.* Yorkshire.
Sphenopteris artemisiæfolia, *Sternb.* Burdie House.
Pecopteris laciniata, *L. & H.* Salop.
Pecopteris nervosa, *Ad. Br.* Newcastle.
Pecopteris pteroides, *Ad. Br.* Somerset.
Pecopteris oreopteridis, *Ad. Br.* .. Salop.
Pecopteris abbreviata, *Ad. Br.* .. Somerset.
Alethopteris serra, *L. & H.* Salop.
Alethopteris heterophylla, *L. & H.* .. Newcastle.
Alethopteris Mantelli, *Ad. Br.* Newcastle.
Alethopteris lonchitica, *Sternb.* .. Salop.
Alethopteris Serlii, *Ad. Br.* Somerset.

CRUSTACEA.

- Limulus monocularis*, *Mart.* Salop.

CONCHIFERA.
