SYLLABUS OF LECTURES

ON THE

10.

PRINCIPLES AND PRACTICE

OF

SURGERY.

BY

JAMES SYME,

FELLOW OF THE ROYAL COLLEGES OF SURGEONS

IN LONDON AND EDINBURGH,

AND

SURGEON TO THE EDINBURGH SURGICAL HOSPITAL.

EDINBURGH:

PRINTED BY JOHN STARK.

1831.

PLAN OF THE COURSE.

- I. INTRODUCTION.
- II. INFLAMMATION.
- III. CONSEQUENCES OF INFLAMMATION.
- IV. SURGERY OF THE BLOOD-VESSELS.
- V. EXTERNAL INJURIES.
- VI. AMPUTATION.
- VII. SURGERY OF THE BONES.
- VIII. _____ JOINTS.
- IX. _____ MUSCLES.
- X. _____ TENDONS.
- XI. _____ THROAT.
- XII. _____ THORAX.
- XIII. _____ ABDOMEN.
- XIV. _____ PELVIS.
- XV. _____ BRAIN AND NERVES.
- XVI. _____ SKIN.
- XVII. _____ EYE.
- XVIII. _____ MOUTH.
- XIX. _____ NOSE.
- XX. _____ EAR.

I. INTRODUCTION.

Definition of Surgery—Its great Importance and Interest—How to be learned.—The Object of Lectures.—Plan of the Course.

II. INFLAMMATION.

Constitution of the body.—Vascular and non-vascular parts.—Action of vascular parts—Healthy and morbid.—Morbid may be destructive, or restorative of structure.—Inflammation.—Generally intermediate between healthy and morbid action.—Symptoms of Inflammation—Redness—Swelling—Heat—Pain—Derangement of Function.—Derangement of Nutrition—Symptomatic Fever.—State of the Blood.—Nature of Inflammation—Obstruction—Debility.—Objections to Mechanical Explanations.—Proofs that the Fluids of Organic Beings are moved by Attraction as well as Impulsion.—Definition of Inflammation.—Division into Acute and Chronic.—Terminations.—Causes of Inflammation.—Direct, or Irritations ;—Indirect, or Disturbances in the Balance of Action.—Equivalents of Action.—Treatment of Inflammation.—Object of Treatment—Resolution—Removal of cause—General Bleeding—Venesection—Arm—Neck—Foot, &c.—Arteriotomy.—Effects of loss of blood—Re-action—Local bleeding—Scarifying—Cupping—Leeching—Purgatives—Injections—Diaphoretics—Warm bath—Fomentations—Poultices—Depressing medicines—Astringents—Stimulants—Counter-irritants—Friction—Rubefacients—Blisters—Eruptive ointments—Moxa—Actual

Cautery—Issues—Setons—Acupuncturation.—
Choice of Remedies.

III. CONSEQUENCES OR TERMINATIONS OF INFLAMMATION.

1. *Mortification.*

Definition—Description.—Local Symptoms.—Constitutional Symptoms.—Connection between local and constitutional Symptoms.—Causes of Mortification, or Circumstances which induce Inflammation to terminate in Mortification—1. Weakness—of Tissue—of Individual—of Part.—2. Excessive Irritability, or Disposition to act.—3. Excessive Irritation.—Treatment.—Preventive.—Remedial.—Question as to Amputation.

2. *Effusion.*

a. Of Serum.—Œdema.—Dropsy.—*b.* Of Lymph—Superficial.—False membranes—Interstitial—Thickenings.—Union by first intention.—Principles for the treatment of incised wounds.

3. *Absorption.*

Description of Action implied by this term—Causes—Effects—Mode of inducing.

4. *Granulation.*

Description of—Cicatrization.—Question as to Reproduction.—Proofs that it is a Delusion, except in the case of Bone and Skin.—Remedy of Contractions caused by Cicatrization—Ulcers—Definition—Mode of treating—When tending to heal—When not tending to heal.—Owing, 1. To de-

fect of action.—2. To excess of action.—3. To other causes.

5. *Suppuration.*

Properties of Pus.—*a.* Superficial Suppuration.—Runnings.—Treatment of acute—of chronic.—*b.* Interstitial Suppuration.—Abscess.—Treatment of acute—of chronic.—Hectic Fever.—Sinuses.—Fistulas.

6. *Diseased Nutrition.*

Division of Tumours into those depending on Displacement, and those depending on Morbid Growth.—General Remarks on Morbid Growths.—Sarcomatous Tumours—Vascular—Adipose—Cystic—Carcinomatous—Medullary—Scrofulous—Encysted.

IV. SURGERY OF THE BLOOD-VESSELS.

Arteries.—General remarks.—Consequences of Inflammation affecting their Coats.—Wounds of Arteries.—Opinions as to their reparation.—Mode of repressing Arterial Hæmorrhage.—Ligature—Pressure—Styptics—Hæmorrhagic Diathesis—Transfusion.—Aneurism—Definition.—Question as to formation of sac.—Aneurisms divided into True—*a.* By Dilatation—*b.* By Rupture of Internal Coats;—and False.—Symptoms of Aneurism.—Natural course of Aneurism.—Treatment—Starvation—Pressure—Ligature—Bad consequences—Proper principles of its application.—Internal Aneurisms—External Aneurisms.—Popliteal.—Surgical Anatomy.—Operation.—After-treatment.—Surgical Anatomy of

Arteries below Knee.—Operations for their Ligature.—Surgical Anatomy of Iliac Arteries.—Femoral—Inguinal—and Gluteal Aneurism.—Operations.—Surgical Anatomy of Arm.—Operations.—Surgical Anatomy of Neck.—Operations.—Ligature of Carotid—Subclavian—and Innominata.—Aneurism by Anastomosis and Nævus.—Description.—Treatment.—Pressure. Ligature.—Excision.—Aneurism of Bones.—Veins.—General Remarks on their Structure, &c. Inflammation of Veins.—Causes.—Treatment.—Wounds.—Bloody Tumours from their Rupture.—Varix.—Aneurismal Varix.—Varicose Aneurism.

V. EXTERNAL INJURIES.

Wounds—Incised.—Treatment.—Remarks on the performance and after-treatment of Operations in general.—Punctured Wounds.—Contused Wounds.—Ecchymosis.—Gunshot Wounds.—Injuries from cold—Chilblains.—Frost-bite.—Injuries from Heat.—Treatment of slight Burns—of severe Burns—Injuries from Poisons.—Mineral—Vegetable—Animal—Natural Animal Poisons—Morbid Animal Poisons.

VI. AMPUTATION.

History of Circular Incision.—Best mode of operating in this way.—History of Flap Method.—Amputation of Fingers and Toes—of Metatarsus and Tarsus—of Leg—of Thigh—of Arm—at Shoulder-joint— at Hip-joint—of Lower Jaw.

VII. SURGERY OF BONES.

General Remarks on the Structure and Growth of

Bone.—Fractures.—Causes.—Simple Fracture.—Compound Fracture.—Reparation.—Treatment of Simple Fractures.—Treatment of Compound Fractures.—Question as to Amputation.—Fracture of Toes.—Metatarsus.—Fibula.—Tibia and Fibula.—Patella.—Femur—through its Shaft—through its Condyles—through its Trochanters—through its Neck.—Fingers—Metatarsus—Radius—Radius and Ulna—Olecranon—Humerus—through its Shaft—through its Condyles—through its Neck—Clavicle—Acromion—Sternum—Ribs—Pelvis—Vertebræ—Lower Jaw—Nose—Cranium.—Detachment of Epiphyses.—Bending of Bones.—False Joints—Remedy.—Inflammation of Bones.—Periostitis—Treatment of Acute—of Chronic—Exostosis—Solid—Hollow—Acicular, or Foliated.—Absorption of Bones.—Mortification or Necrosis.—Causes.—Necrosis of external Surface—of internal Surface—of whole Thickness.—Opinions as to Restoration—Treatment.—Necrosis of particular Bones.—Caries—Description—Causes—Treatment—by Caustic—by Cautery—by Excision—Osteo-Sarcoma—Description—Treatment.—Rachitis—Description—Treatment.—Mollities Ossium—Affections of Spine.—Inflammation.—Suppuration.—Lumbar and Psoas Abscess.—Caries.—Lateral Curvature—Club Foot.

VIII. SURGERY OF JOINTS.

General Remarks on Connections of Bones.—Symphysis.—Articulation.—Structure of Joints.—Strains.—Dislocations in general.—Symptoms—Causes—and Treatment—Dislocation of Shoulder

—Elbow—Wrist—Thumb—Fingers—Clavicle
 —Lower Jaw—Vertebrae—Hip-joint—Knee—
 Ankle—Astragalus.—Wounds of Joints—Com-
 pound Dislocation.—Inflammation of Joints.—
 Dropsy of Joints.—Absorption of Cartilage.—
 Anchylosis.—Loose Cartilages.—Gelatinous De-
 generation of the Synovial Membrane.—Ulcera-
 tion of the Cartilages.—White Swelling.—Mor-
 bus Coxarius.—Excision of carious Joints.

IX. SURGERY OF MUSCLES.

Wounds.—Rupture.—Contusions.—Contraction.
 —Paralysis.—Wry Neck.—Absorption.—Dis-
 placements.

X. SURGERY OF TENDONS.

Rupture.—Wounds.—Ganglion.—Bursæ—Drop-
 sy of—Moveable Cartilages in.

XI. SURGERY OF THROAT.

Surgical Anatomy.—Cut Throat.—Stricture of
 Œsophagus.—Foreign Bodies.—Extraction.—
 Œsophagotomy.—Stomach Pump.—Tracheoto-
 my.—Laryngotomy.—Bronchocele.—Tumours
 of other kinds.

XII. SURGERY OF THORAX

Wounds.—1. Not penetrating.—2. Penetrating.—
 3. Penetrating with Wound of Lungs.—4.
 Wound of Lungs and Pleura Costalis without
 external opening.—Emphysema.—Gunshot
 Wounds of Chest.—Paracentesis.—Diseases re-
 quiring it.—Operation.—Mamma.—Description.
 —Inflammation.—Suppuration.—Milk Abscess.

— Deep-seated Chronic Abscess. — Irritable Tubercle.—Chronic Hardness.—Fibrous and Cystic Tumours.—Scirrhus.—Cancer.—Question as to Extirpation.—Operation.—Medullary Sarcoma. — Mammilla. — Glands of Axilla.—Suppuration.—Extirpation.

XIII. SURGERY OF ABDOMEN.

Wounds — 1. Of Parietes — 2. Penetrating—3. With Wound of Intestines.—4. Rupture of Viscera without external aperture—Gastrotomy.—Paracentesis.—Cases requiring it.—Operation.—Hernia.—Surgical Anatomy of Inguinal—Description of Common—*a.* external—*b.* internal—Congenital—Infantile?—Causes.—Symptoms of Reducible — Incarcerated — Strangulated. — Treatment of Reducible—Incarcerated—Strangulated. — Operation. — Preternatural Anus. — Surgical Anatomy of Femoral.—Description.—Causes.—Symptoms.—Treatment.—Operations.—Umbilical and Ventral Hernia.—Perineal, &c.—Intussusception.

XIV. SURGERY OF PELVIS.

Rectum.—Imperforate Anus.—Stricture.—Foreign Bodies.—Prolapsus Ani.—Hæmorrhoids.—Fistula in Ano.—Fissures.

Urinary Organs.

Kidneys.—Inflammation.—Suppuration.—Calculus.—Ureter.—Description—Obstructed by Calculus.—Bladder and Urethra.—Surgical Anatomy.—Retention of Urine—from 1. Palsy—

How induced—Introduction of Catheter.—2. Spasm—Causes—Treatment.—3. Enlarged Prostate. — Symptoms. — Treatment. — Abscess of Prostate.—Calculi of ditto.—4. Stricture of Urethra — Causes. — Symptoms.—Treatment.—Fistula in Perineo.—Extravasation of Urine.—Puncture of Bladder.—Above Pubes—from Perineum —through Rectum.—5. Rupture of Urethra—how caused—Remedy.—6. Calculus—Formation — Composition —Symptoms—Sounding—Treatment — Palliative — Radical — *a.* By Removal through Urethra—*b.* By excision—History of Lithotomy — Apparatus Minor—Apparatus Major —Lateral Operation—Surgical Anatomy—Proper Mode of performing the Operation—Alleged Improvements since Cheselden shown to be, with few exceptions, no improvements.—Lithotomy above the pubes—Lithotomy by the Rectum.—Incontinence of Urine — From palsy—From Irritable Bladder.—Common, but most mischievous mistake of its Symptoms for those of Stone or Stricture — Treatment — Hæmaturia—Retention of Urine in Female—Calculus of Bladder in Female—Removal by Dilatation—by Incision.

Genital Organs.

History of Venereal Diseases—Syphilis—Gonorrhœa—Symptoms — Treatment—Chordee.—Inflamed Absorbents — Bubo — Gleet — Preputial Gonorrhœa—Warts—Sores of Penis—Of Mechanical Origin.—Of Poisonous origin.—Constitutional Symptoms.—Sloughing Sore—Phymosis.—Paraphymosis.—Cancer of Penis—Amputation

of Penis.—Excision of Clitoris.—Imperforate Vagina.—Extirpation of Uterus—Of Uterine Polypus—Testicle—Hydrocele—Diagnosis—Treatment—Palliative—Radical—By Excision—By Incision—Seton—Injection—Hæmatocele—Circoscele—Hernia Humoralis—Chronic Enlargement of Testicle.—Abscess of Testicle.—Scirrhus.—Medullary Sarcoma, &c.—Castration.—Scrotum—Enlargement—Cancer.

XV. SURGERY OF NERVOUS SYSTEM.

Anatomical Description of the Brain.—Inflammation of the Brain and its Membranes—Consequences—Hydrocephalus—Acute—Chronic.—Absurdity of paracentesis—Effects of Violence—Concussion—1. Of the Cerebral Substance—Causes—Symptoms—Treatment.—2. Of the Membranes—Causes—Symptoms and treatment—Compression—Causes—Symptoms—Treatment—Operation of Trepanning—Wounds of Brain—Hernia Cerebri—Fracture—Fissure—Depression—Puncture—Contusion of Cranium—Exposure of Cranium.—Wounds of Scalp.—Contusions of Scalp.—Congenital Tumours of Head.—Encysted Tumours of Scalp.—Spinal Marrow.—Spina-Bifida—Description—Treatment—Injuries of Spinal Marrow—Concussion—Compression.—Fracture. Nerves.—Injuries of Nerves.—Effect of pricks.—Partial Division.—Laceration and Lodgment of Foreign Bodies.—Tic-Douloureux.—Tetanus—Tumours of Nerves.—Subcutaneous Nervous Tubercle.—Enlargement of Truncated extremities.

XVI. SURGERY OF SKIN.

Anatomy of Skin.—Inflammation of Skin.—Erysipelas.—Symptoms.—Causes—Treatment.—Phlegmonous Erysipelas.—Œdematous Erysipelas.—Gangrenous Erysipelas.—Furunculus or Boil.—Anthrax or Carbuncle.—Cutaneous Diseases—General remarks on their Causes and Treatment.—Warts.—Callosities.—Corns.—Hair.—Nails—Inverted.—Onychia—Paronychia.

XVII. SURGERY OF EYE.

Anatomical Description of Eye and Appendages.—Conjunctiva.—Inflammation—Acute Ophthalmia—Chronic—Consequences.—Purulent Discharge—Infantile—Gonorrhœal.—Egyptian.—Granular Surface.—Nebula.—Pterygium.—Ulcer—Sclerotic.—Inflammation.—Iris.—Inflammation. Consequences of Iritis—Hypopion.—Operations for Artificial Pupil.—Vascular Cornea—Abscess of.—Perforation.—Prolapsus Iridis.—Staphyloma—Retina.—Inflammation.—Medullary Sarcoma.—Extirpation of Eyeball.—Cataract—Symptoms—Causes—Treatment—Lenticular—Displacement—Extraction—Breaking up.—Capsular.—Eyelids.—Ophthalmia Tarsi.—Hordeolum.—Ectropium.—Warts.—Encanthis.—Entropium—Trichiasis.—Lachrymal Gland—Extirpation of Orbital Tumours—Epiphora—Operation.—Abscess of Sac.—Fistula Lacrymalis.

XVIII. SURGERY OF MOUTH.

Anatomical Description of Mouth and Appendages—Salivary Glands—Fistula—Calculus—Ranula—Extirpation of Parotid Tumours—of Sub-maxil-

lary Tumours — of Sub-lingual do.—Cancer of Lip. — Hare-Lip.—Split Palate — Wounds of Tongue.—Ulcer of tongue.—Cancer of do.—Ex-
tirpation of do.—Swelling of Tongue. — Short Frænum.—Teeth. — Remarks on Growth, &c.
—Extraction.—Stumps,&c.— Gum-boil. — Can-
crum Oris. — Epulis. — Malignant Tumours of
Gums.— Excision of Jaws.—Tonsils.—Inflam-
mation. — Abscess. — Chronic Enlargement.—
Excision.

XIX. SURGERY OF NOSE.

Anatomical Description.—Epistaxis. — Polypus —
Mucous—Warty—Fibrous. — Medullary. — Fo-
reign Bodies.—Antrum Maxillare.—Abscess.—
Polypus.—Frontal Sinuses—Abscess of, &c.—
Noli-me-tangere—Cancer of Nose—Amputation
—Restoration.

XX. SURGERY OF EAR.

Anatomical Description of—Inflammation. — Puru-
lent Discharge. — Polypus. — Accumulation of
Wax.—Foreign Bodies.—Obstruction of Eusta-
chian Tube.—Puncture of Tympanum.
