5<sup>th</sup> January 1882

My dear Sir

I hope you will  
excuse my not-answering  
your letter sooner but I  
have been so much engaged  
for the last few days that  
I have been unable to manage  
it - I presume you will  
be aware of Robertson's  
previous attack of insanity  
or rather the symptoms  
displayed when he was

formerly Composed, in the  
Crichton I think, from  
the records kept.

I don't think he has ever  
supposedly returned to  
called quite same  
His actions have been most  
unstable so far as he  
has been under my own  
eye but he was for a  
considerable time in  
Newton Stewart where he  
took a business which collapsed  
When he returned here  
about 12 months ago or  
more he was tolerably quiet

but at times when he took  
the least drink he was  
outrageous more so than  
can be fairly attributable  
to the action of the stimulant  
alone. The least quantity  
excited him so that he  
was ~~most~~ most violent & dangerous,  
not tipsy in the ordinary  
sense of the term.

Soon after he returned to  
reside here he attempted  
suicide with Strychnia &  
very nearly succeeded.  
Lately he has been uttering  
threats against his fellow  
workman & frequently accusing  
his wife of inconstancy (thus his

wife says he has always  
done more or less without  
the slightest reason.

The night before he was sent down  
he attacked his wife & seized  
her by the throat and he  
then proceeded to conduct himself  
most violently — He had  
had some drink but he  
was not tipsy — His irrational  
suspicion of his wife & his  
attack upon her on that  
ground made me fear that  
he allowed his own way some  
bad result would happen  
to her & perhaps to himself.  
He is cunning enough to deceive  
a stranger but I am decidedly  
of opinion that I should

not have ~~lost~~ other  
safety - He will be much

Castle Douglas.

The better of being kept  
awake at all events, even  
though you did not  
consider it necessary  
to detain him the whole  
winter - When he does  
not taste drink he seems  
to have little control over  
himself for he certainly has  
the violent fits when he has  
been tasting still when he  
is perfectly abstinent he  
is still brooding threatening &  
accusing making one rather  
timorous as to the result

if he be not carefully  
watched whenever he  
is

I am Dear Sir

Your most sincerely

Walter Lawrence

Dear Mother + Sister Ellen +  
Jennie I have been staying at the  
Southern Counties Asylum Dundee  
since James was here in Dec -  
+ have been getting attendance  
from Drs + Nurses but it has come  
to an end now I have broken the  
ordnances of the Church according  
to the Bible + John seems to have  
been a Bible reader all along. He  
has taken the Children + says Aunt  
Ellen is caring for them, but it  
is criminal I wish I had never  
been born It has a do with School  
Boards + nothing that I know  
nothing about.

it must have been all arranged  
before we left the Cross, for I don't  
believe there is either Insurance Policy  
+ the letters must have been kept <sup>insurance tickets on the journey</sup>  
up to prove his & I must own I  
made up letters which I should  
not have done. I will clear you  
as far as I can. Would you see  
Uncle at Partick, as I don't know  
what the expenses will be, I can  
make nothing more of it now it is  
a fearful end to fall a victim  
to the scaffold as I dream about  
& drink & not telling always  
the truth has been the cause of it  
I think it will have been carried  
on at Airdrie at the same time  
as I have never got the marriage  
lines if you mind & it seems  
that the Salvation Army &

Religion Papers have all been torn.  
It is all traced through the  
Munie we have altho' we  
did not buy it. If you mind we  
were nearly drowned going to  
Falkirk. After coming to the cross-  
our Ages have not been right  
nor anything it is utter ruin -  
I don't believe he has ever written  
at all. It has been going on  
a long time. Could you come on  
Monday as I don't know how soon  
I may be taken away. It is  
a fair mystery to me. I don't know

Copy of Crown Counsel's notes in  
the case of P. Lee or Dolan who is in  
Dumfriesshire Prison charged with a serious  
assault.

3 Aug 1881

Having regard to the additional  
information sent up the Procurator Fiscal  
is to cause the accused to be seen and  
examined (if necessary more than once)  
by two additional medical men ob-  
tained if possible from the Crichton  
Institution.

These medical men are to state  
in their reports respectively whether in  
their opinion (1) The accused was a  
dangerous Lunatic on 19<sup>th</sup> July last  
(2) What his mental condition is now  
and whether he can answer in-  
telligently to any indictment which  
may be brought against him in  
give instructions for his defence.

is at present a prisoner in Dumfries Prison  
on the 19<sup>th</sup> July he committed an assault  
at Dalston on another man of the  
name of W<sup>m</sup> Hyslop by striking him with  
a shovel on the back of the head: he  
was about to strike a second blow when  
he was stopped by a fellow-workman  
who had to use considerable force before  
he wrested the shovel from him & then  
to strike him. He was taken into custody  
and put into a cell with two other prisoners  
but he became outrageous and struck  
them - was noisy so the governor  
put him on a straight waistcoat  
after which he became quiet.

On the 20<sup>th</sup> he was also in a maniacal  
condition but on the straight waistcoat  
being brought in he became quieter.

An attempt was made to examine  
him before the Court but he was so  
noisy & obstreperous that the Sheriff  
could not proceed with the case.

On the 22<sup>nd</sup> he was seen & examined by  
Dr McDonald & Ken who certified  
him as insane.

He was quiet on the night of the 22<sup>nd</sup>  
& the morning of the 23<sup>rd</sup> there was  
no violence and he only occasionally  
rambled in his conversation.

He was rational on Sunday & on  
the 25<sup>th</sup> he did some work & the  
improvement in his state has since  
continued - He was seen on the  
25<sup>th</sup> by Dr Scott

he has since expressed himself as thinking  
that the man he struck was not killed &  
he said they had had a squabble.

There was no provocation for the act.  
The man struck states that the only thing  
he remembers was that he may have  
touched his (Lee's) ~~head~~ <sup>spine</sup> with his ~~finger~~ <sup>pick</sup>.  
The Governor of the Dumfries Prison is of  
opinion that the man was insane & that  
he is likely to become dangerous if excited by  
drunk: therefore an unfit subject for liberation  
from a place of custody.

Lee was in the Poor House - Dumfries  
as an ordinary pauper between 25<sup>th</sup> Feb  
or 3<sup>rd</sup> March 1873 & was insane; was ordered  
for his case.

In March 1873 he was in Annan in  
a lodging house - He threatened to stab  
a person and was called the "Daff Dodge".  
He was also in Workington Cumberland.

(81)  
Between 26<sup>th</sup> May & 25<sup>th</sup> June he was confined  
for assault in Carlisle Jail. He was not  
regarded as insane but as weak-minded  
near the dividing line: sentence was pro-  
nounced when medical men gave evidence  
that the prisoner had suffered from the  
effects of drink.

Milne who slept with him in Mr Macdonald's  
Lodging house stated in evidence on the  
22<sup>nd</sup> July that 14 days previous to the 19<sup>th</sup>  
July he & John Seaton & Co. had slept  
together - they entered with the gang of navvies  
at Dalserwinth - previous to that time.

decent: he ~~then~~ talked disjointedly  
skipping from one subject to another &  
muttered to himself - he ~~saw~~  
him affected by drink on Monday  
18<sup>th</sup> July - Lee went out after supper  
& returned bet 10 & 11 pm at which  
time Melne was in bed

Lee talked incoherently the whole night  
and till 4 am. his usual time for  
getting up for work. Melne could not  
get any sleep from the disturbance  
"I'm sure Lee will know in the army"  
"My number is."

On the night of 17<sup>th</sup> July he was also  
restless and talked to himself but was  
not under the influence of drink.  
The woman who kept the <sup>Melne is of opinion that</sup> ~~the~~ <sup>State</sup> ~~the~~ <sup>house</sup>  
Hale that on the 18<sup>th</sup> he took a sheet  
to bits (he stated) for foot clothes. She  
got a pair of scissors from her to  
shave his beard - "He turned the front of  
his bed shirt back off his hat trying his  
hands, (talked) gossamerically, his eyes  
were staring. He had a wild look and  
I thought him mad."

On the 19<sup>th</sup> the man assaulted state that  
before dinner time he accidentally  
touched his shoulder & a piece but he  
(Lee) did not complain of that  
From his unconnected talk & speaking to  
himself he had come to the conclusion he  
was not right in his mind & he had  
a wild look

Joseph Ferguson also writing at Dales - his  
"from his talk and wild looks he thought  
something was wrong with him - he did  
not think him fit to be among other men

Patience Hughes is of a similar opinion he  
arrested the accused's hand in dealing the  
second blow with the shovel he had a  
great struggle to him before he got the shovel  
from him - he knew of no provocation.

James Crompton A Carter considered he  
was not right in his mind from his incoherent  
talk and wild looks

John Graham saw the first blow struck  
and the second aimed he knows of  
no provocation - he thought him not of

would his assistant feel very weak  
at Bottom of Bellie. If you <sup>look at my</sup>  
in that in Dumps he smells there which  
I think is caused by working at the Bench.  
that is to say he is no ant. + I speak  
through Sleep, + you will understand  
there is more than Castron can  
do that, I will thank you for a  
penny worth of paper. Thursday 9<sup>th</sup>

Dr Adam

They were at me  
over night last week  
& some nights Castrow  
would spend most half  
of the night in Gallery.  
I am sure that there  
were two of them on  
Friday & Sunday & Sunday. they  
could not get at private  
on Saturday night & they took  
my eyes which Mr. Fortuth  
could not but see on Sunday  
Morning, as they were employed  
round Eplishes. last night  
Monday I would <sup>be</sup> Castrow him-  
self. He could not get Private  
& they put when I wakened  
they in a great heat. I grewed

I guessed them before going  
to sleep & when I awoke,  
the most of the Bed Room  
were coaken, all the men  
knows what is going on  
from the youngest  
to the oldest & from <sup>the</sup> Deafest  
to ~~the~~ the Deafest. Bar one  
He must use a dark  
Lamp, I would ask what  
kind of conduct is that  
to be tolerate, on Sunday night  
they brought up to my  
vision a woman & I  
think they will be reading  
my head & then they will  
<sup>know</sup> every part about me.

I am as well today as I  
can <sup>now</sup> expect to get me

meat as I could & more than would  
Sustain my body. There is to little Porrach  
S T U V W X Y Z & C

Comes up in the Mornings. My body  
is ~~my~~ better than it was, but  
My legs from the Knees up they  
are smaller. And the <sup>cause</sup> of them being  
smaller is <sup>they</sup> sucking at prints at  
nights. Now Dr. If you have <sup>any</sup> question  
the men I have mentioned, ~~first~~ <sup>first</sup>  
and ~~your~~ Hall see. The first time  
that prints were done it was the ~~pro~~  
putting matter in Sept<sup>r</sup> Home all it was  
the assisting I know by him on the Sunday  
morning he much put about like & could  
like himself. but, <sup>I want</sup> none of this writing  
at all, let me out. Its only wasting  
my good time being here. When I would  
be of use to my Country if fellow man  
outted. So I again pray put these  
aside and let me out as you &

morning Buck me a little but rose well  
+ Judy + Saturday Mornings he made me  
to speak thrang my sleep + hume the  
attendant can make me spe. it for a  
athing that I never did, my Younger  
Brother who in Dumpsies dose, but not  
my elder Brother, Night watch learns  
the others + they do things save him  
from doing them, but what will  
he not do when he dose these things  
in face of this writing, he knows

I feel again sorry  
to complain to you  
but cannot help  
thinking you are to  
blame, for not letting  
me out. I have plead  
for it, + for a return  
+ I never get the  
chance of a speak  
yaw or just run  
past ~~past~~ + I do  
not get time. On  
Thursday night the  
night watch sucked  
me at the parents  
+ Friday + Saturday  
+ last night Sunday

I ~~had~~ had a good supper  
of Potatoes + will + went  
to Bed well strong + this  
Morning was scarce able  
to do my little work being  
that weak, and a little pain  
at the bottom of Billin  
And my legs when the  
knee up as getting smaller  
+ this Morning is the only  
time that I have seen  
my seed on Bed. and did  
not feel it come off. It is the  
night watch that it takes  
it off + sucks me then  
+ have away but they can  
make me make water

without him as I think  
it must be ~~the~~ <sup>my</sup> ~~the~~ before  
he begins. There was  
one night when Dr  
Balfour was attending  
night watch took me  
off my feet for a fortnight  
It was done with I  
think with accid stuff  
When I walked it was on the  
heels of my bones. I  
may say that was done  
about fortnightly or there  
And in the month of  
Sept<sup>r</sup> nearly all the  
attendants did it night  
about. Mr Fortish can  
stop night watch, you

P.S. to prevent my legs being made worse  
I have Quinine North. Act.

Now could but it would only be  
a little better, and the more would  
be doing things to make them worse.

in Bedroom he used to give the patient  
Jalapa for their waterings and  
they would not have done you any
