Dear Sir
I have the pleasure to
acknowledge the receipt of
your letter of the 11th
inst. in relation to the
above mentioned matter.

It is not necessary to

Dear Sir,

After about 5 hours
careful examination of the
Flues connected with the
Kitchen - along with Frank's,
the bricklayer, and your own
Plumber. We all came to the
conclusion that the damp
which has affected the arch
in the 9th Gallery is not attributable
to steam.

The Pipe Flues which were
put in some time ago were
examined at the bottom, top, &
intermediately in the roof, and
everywhere found to be perfectly
tight, and no indication of
any leakage having taken place.

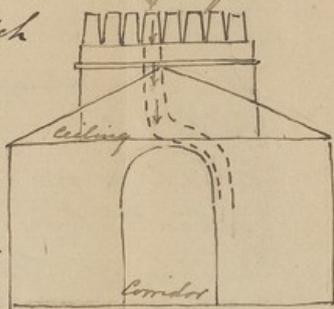

may find its way into an ordinary flue: consequently if there is a ledge, in a disused flue somewhere near the top, it receives the rain or snow falling on it and becomes a focus of damp, which becomes worse according to the amount of rain falling. - the sketch here given shows the flue in its relation to the arch below.

I asked the Plumber to make a lead

capping to cover the flue. I believe this will be found a remedy.

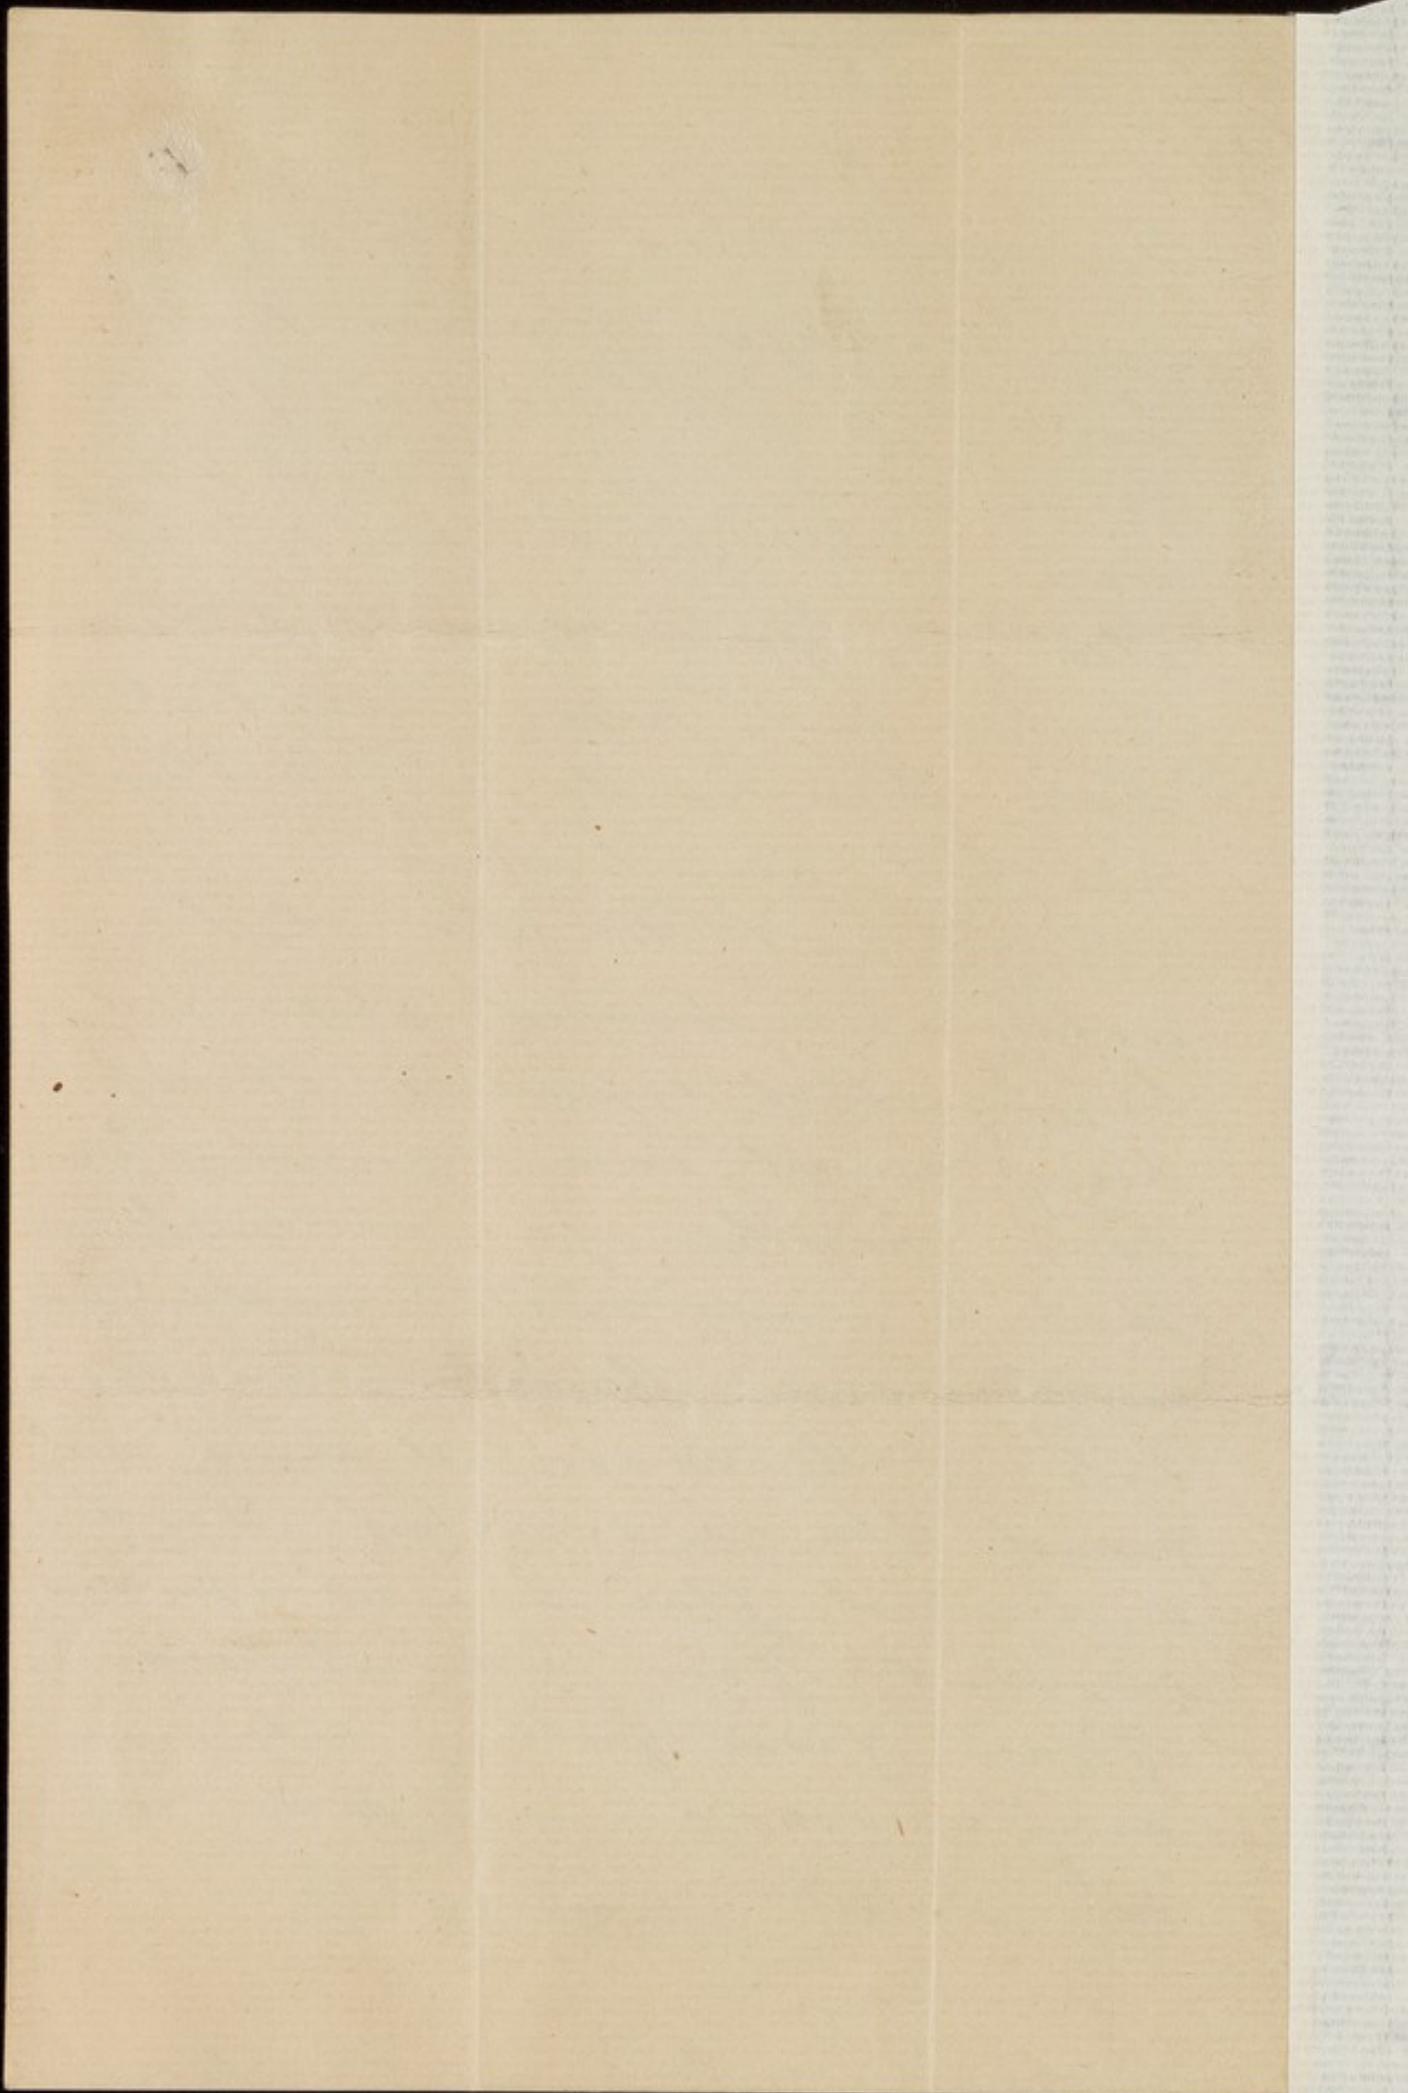

Yours Truly
Edward Taylor.

R. Baker Esq. M. D.
The Retreat.

We next tried to discover if any leakage of steam could have got into the wet flue from any main steam pipe but could find nothing. We also carefully examined the Tanks and pipes connected with them in the room but could not find any leakage.

We found the flue which was wet was a disused flue - and having had experience of wet being found in a disused flue some months ago: it struck me that the same cause might operate in this case. The flue was cut into at the suspected point and found to be as expected. This then a disused flue has no upward current of air to divert the drops of rain from falling into it, nor any warm current to dry up any small quantity of rain that

Dear Mr. Moon.

I have made several attempts to see you respecting your son, but have failed - so send this -

I have talked the case over with my partner, & we both have come to the conclusion that he should see one of the best "mental men" in London or if more convenient to you in Manchester. I should myself hesitate to have him placed under legal restraint until such an opinion as I have indicated, has been

obtained & I think without
anticipating that opinion
the placing of him with some
medical man accustomed
to these cases, would certainly
conduce more to his recovery
than his remaining under
the present conditions at

most unsatisfactory -

My dear Baker,

Miss Russell is still improving in strength and can walk about pretty well. Today she was down stairs. Nurse Thornton says she takes plenty of food with a little coaxing and I gather that she would like to return to the Retreat. She says there is no further need for her with Miss Russell and that an

old servant of the Russells, who has taken occasional night duty, would be quite sufficient.

The mental condition is disappointing for she talks incessantly all kinds of nonsense, but is not at all violent or even excitable. Nurse says there is a farm at Acouch where you place patients. How would that do for Miss R? Of course

she would still require an attendant but Nurse Thornton says that you have one who would suit her admirably, a lady of 40 or 45.

Hoping to hear from you soon & with kind regards

P.S. May 18. I did not post this thinking that there might be some change today & there has for the worse. She had a fair night but early this morning she became so excitable

that they had to call the nurse up and
they have come to the conclusion that Miss
R. must have a skilled attendant. The
Miss Edgar now want to go clean away.
How much would the Acorn farm
cost her week? I cannot help thinking
that she would improve ^{more} quickly

My dear Baker

The feeding tube came
all right on Saturday at 10.30
and I went straight off to use
it. The patient wriggled a
good deal but at the third
attempt I got it into the
stomach and gave her some
food. She then began to try
to vomit & got so blue in the
face that I withdrew it and
told her that if she would
take the food without, I
would not trouble her more.

She drank the remainder
of the 1/2 pint well and ever
since has taken quite as
much as 1/2 pint every 4 hours
and often more.

Many thanks also for the
nurse, who said she would not
write as I said I was going to do
so. She says the patient is still
very troublesome, but she can
always succeed in getting her
to take food. Miss Edgar has
exploded violently several
times but the full force of her
visits of wrath has burst
upon me, not on the nurse!

I hope you will be able to let
Miss Thornton stay for a
good while; - say until
Miss Russell can be got away
to Scarborough or Ilkley.

The Miss Edgars talk of
going to Scotland for a rest.
Are your houses at Scarbri
"Asylums" or simply private
houses, into one of which Miss
Russell could go as a boarder
with her nurse? If so what
would be the cost?

There certainly has been a
decided improvement since

the staffing system commenced
and I think that in a month
or so she might be removed.

What is your idea?

The report of your fathering
was very interesting.

My dear Sir, I am again
compelled, but with the
greatest reluctance (remembering
your past kindness) to trouble
you, and ask you, if you know
of any suitable person, you
can recommend me, to take
charge of my wife... who, I
am grieved to say, gets no
better of her failing for either
"rheum" or "chlorodynia"; for
altho, when under restraint
she appears to lose the craving
~~but~~ as soon as she has her
liberty alone, she soon gives
away to it... I retained
the services of the nurse, you
last recommended, Miss Pickens

for 9 months and Mrs Taylor
having gone to the South, to visit
& stay with her friends, I was
hoping the entire change of
air, scenery & society would
have a beneficial effect, and
judging from her letters to me,
I thought, all was going on
most satisfactorily... and
to save expenses, I let Miss
Pickens go... from Mrs Taylor
has returned & is as last we saw
and unfortunately during the
short interval, Miss Pickens
has been engaged... If you
can recommend me to a person
similar to Miss P, I shall esteem
it a great favour... as to
having a "nurse" or attendant, is
more than I can afford, with
my income... Apologizing
for thus troubling you and
asking favour of reply, at
your early convenience

My dear friend

My Mr. James
called on me last
week and hoped I wd
write to you on a point
which turned up in con-
versation with Dr. Baker
It seems he ^{Dr. B.} fears that
as Bedford Pierce
will not have any
of the old resident
med. staff, he will
be in danger of being
placed in a position
of care & responsibility

likely to militate against
his successful hold
of the reins of office.
My Mother thought that
perhaps there could
be use of the counter,
making it worth
me of the reins while
to stay on. I can
understand the
force of D. B's fears
and it wd be very
sad if Bedford

P. G. health broke
down from over
remembering his respon-
sible duties too
single handed

I should have thought
that D. B. wd have
spoken to you on the
subject I suggested
some remedy
probably he has.

As B. P. was yr
guest at York

I should much like
to know in confidence
the impression produced
upon you; especially
as to whether he
seems likely to be admin-
istrative as well
as medical.

Yours truly

Dear Sir

I am very anxious
to have my wife Mrs. Walker
placed under your care
at the Retreat. She is 60 years
of age. She has been for
3 months in private
Lodgings at Southport.
She had the right day
Nurse constantly with
her. They have been very
attentive & kind to her, but
they have comparatively
no grounds. I Mr. Walker

suffered from want
of sleep. My neighbour
Mr Wrigley was under
your care & that has been
a marvellous cure -

I am not a rich man
from 3 to 4 guineas a
week is the utmost I
can afford to pay
Can you kindly arrange
to take Thursday week
July 7th, why I find
that date they asked me
to pay a little advance
to help them with their
rent being about due.

I should have to bring
one of the Nurses with me

but I am told you
object even for them to
stay one night.

I can give you a number
of references. I am personally
known to Mr Wente of the
brother to Mr Fielden Thorp.
or any of the friends here.
I had a letter with me on
Monday for Mr Rawntree
but I did not call on
him or use it.

If you can help me I
shall be forever grateful.
My wife is naturally
amiable & kind, but has
been a great sufferer
from Rheumatism not joint

It seems to me, the
disease has got onto the
head.

I am sure she would
require a Night Nurse
to begin with. I fear
w'd be no use;

I remain,

Yours Sincerely

Dr. Baker

Dear Sir

I wrote to you a
short time ago about
Dr. Walker and I
shall all being well
send him to York
next Tuesday under
your care if you
can receive him.

His mental condition
is immediately following
a severe fall from
his horse, ^{about 2 months ago} with concussion
& contusion of the brain

with probably some
effusion of blood, consciousness
returned gradually in
the course of a few days
but there was always
loss of memory showing
the severity of the contusion.
He has no teeth and
cannot eat hard food
he likes milk & eggs
& rice pudding & sweet
fish.
He has sometimes a
little nervous difficulty
in passing water when
strangers are present -
but does not require
catheterism.

I hope you will
be able to put
him on your most
favourable terms
as he has not been
able to save very
much money. -
He has at times
attacks of mania
and has been treated
up to now with
fresh air & exercise
& drive out with
occasional doses of
Bromidia when the
excitement was great
& accompanied with
insomnia.

I should say he has in
my opinion always
been excentric, excitable
& has not a well balanced
mind (this is of course
between ourselves)

He has been always of
very abstemious habit,

I am

Dear Sir,-

My sister-in-law, Mrs Bernard Walker desires me to enquire the terms per week upon which you are prepared to receive her husband for medical treatment.

Dr Garrard, of Rotherham, a friend and colleague of Dr Walker's has, I believe, already communicated with you in reference to the case.

The patient would require a bed-sitting room and the services of an attendant as he is at present suffering

from acute mania.

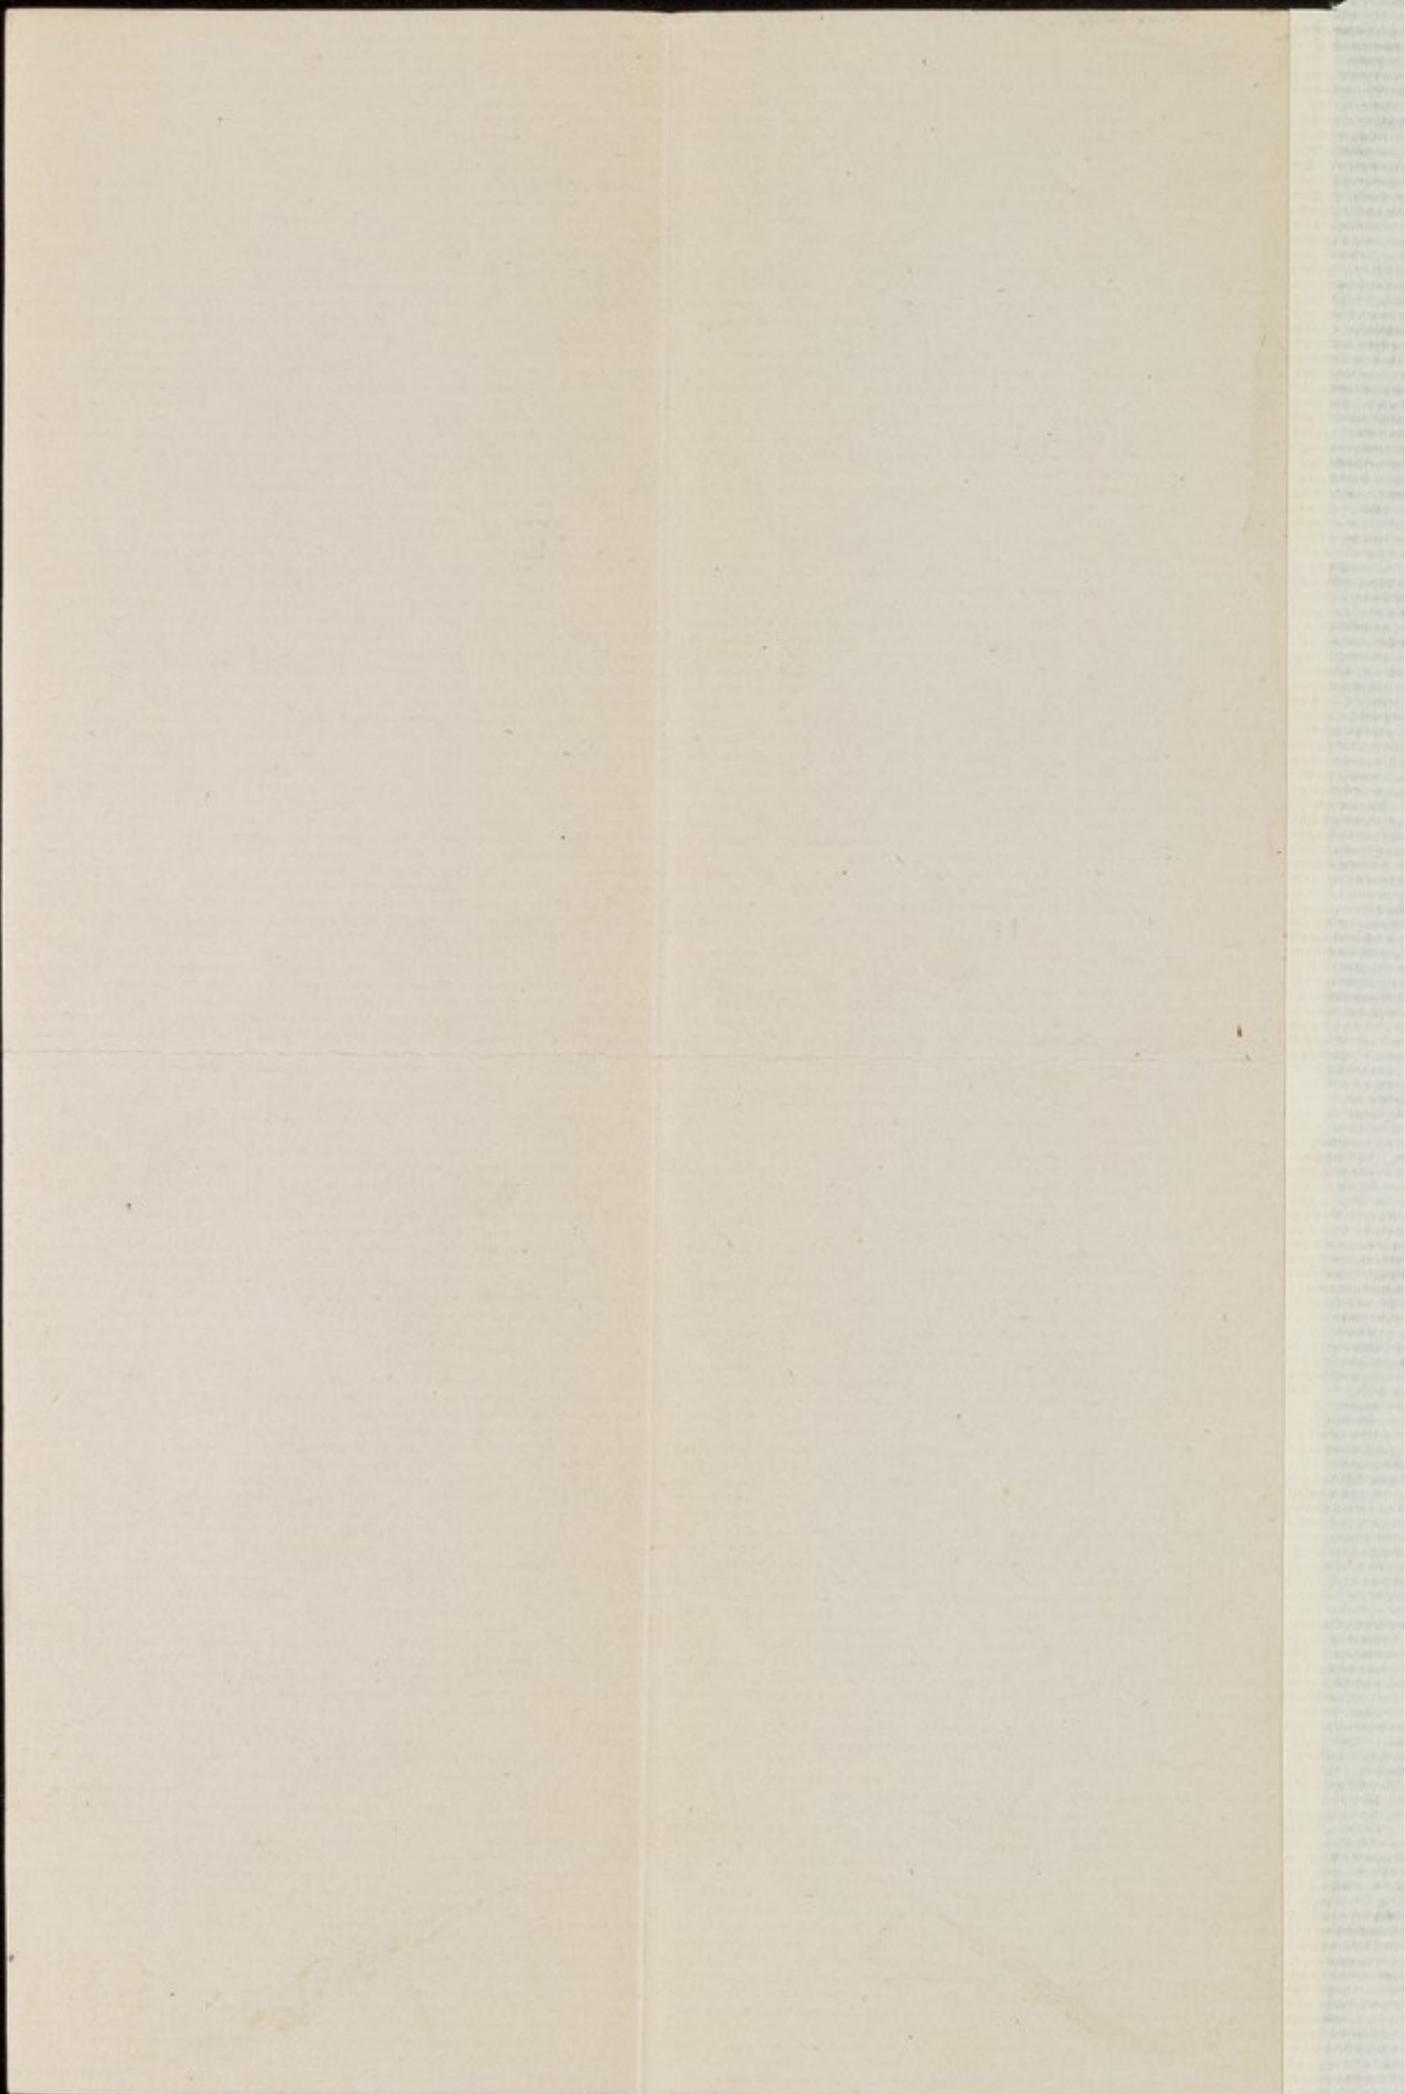

I may add that, whilst Mrs Walker is desirous that her husband should receive every care and attention, ~~and~~ it is essential that the terms of payment should be very moderate, inasmuch as she is under very great expense at present having had to appoint a medical man to take charge of Dr Walker's practice during his illness. I mention this circumstance because I believe it is the rule for the Medical Supt of an institution like yours to treat a colleague on more favorable terms than an ordinary patient.

Please be good enough to let me have a reply by return of post

Yours faithfully

Dr. Urybark. He has
taken a great interest

Our letters crossed.
Henry's address
is to last only $\frac{1}{2}$
an hour. This would
be unusually short.
The remarks are ^{generally} ~~generally~~
rather short on addresses
so that the afternoon

poor if the old

Dear Sir

Your Report on the health of my son reached me this morning with the quarterly paper for which I am sending a cheque to the Secretary to day.

We are sorry to find that there is no improvement in the mental aspect of my son's case, as we had gathered from our last interview with you in June that there was a good prospect of his speedy release from treatment. Your present report however appears to indicate a continued course of treatment

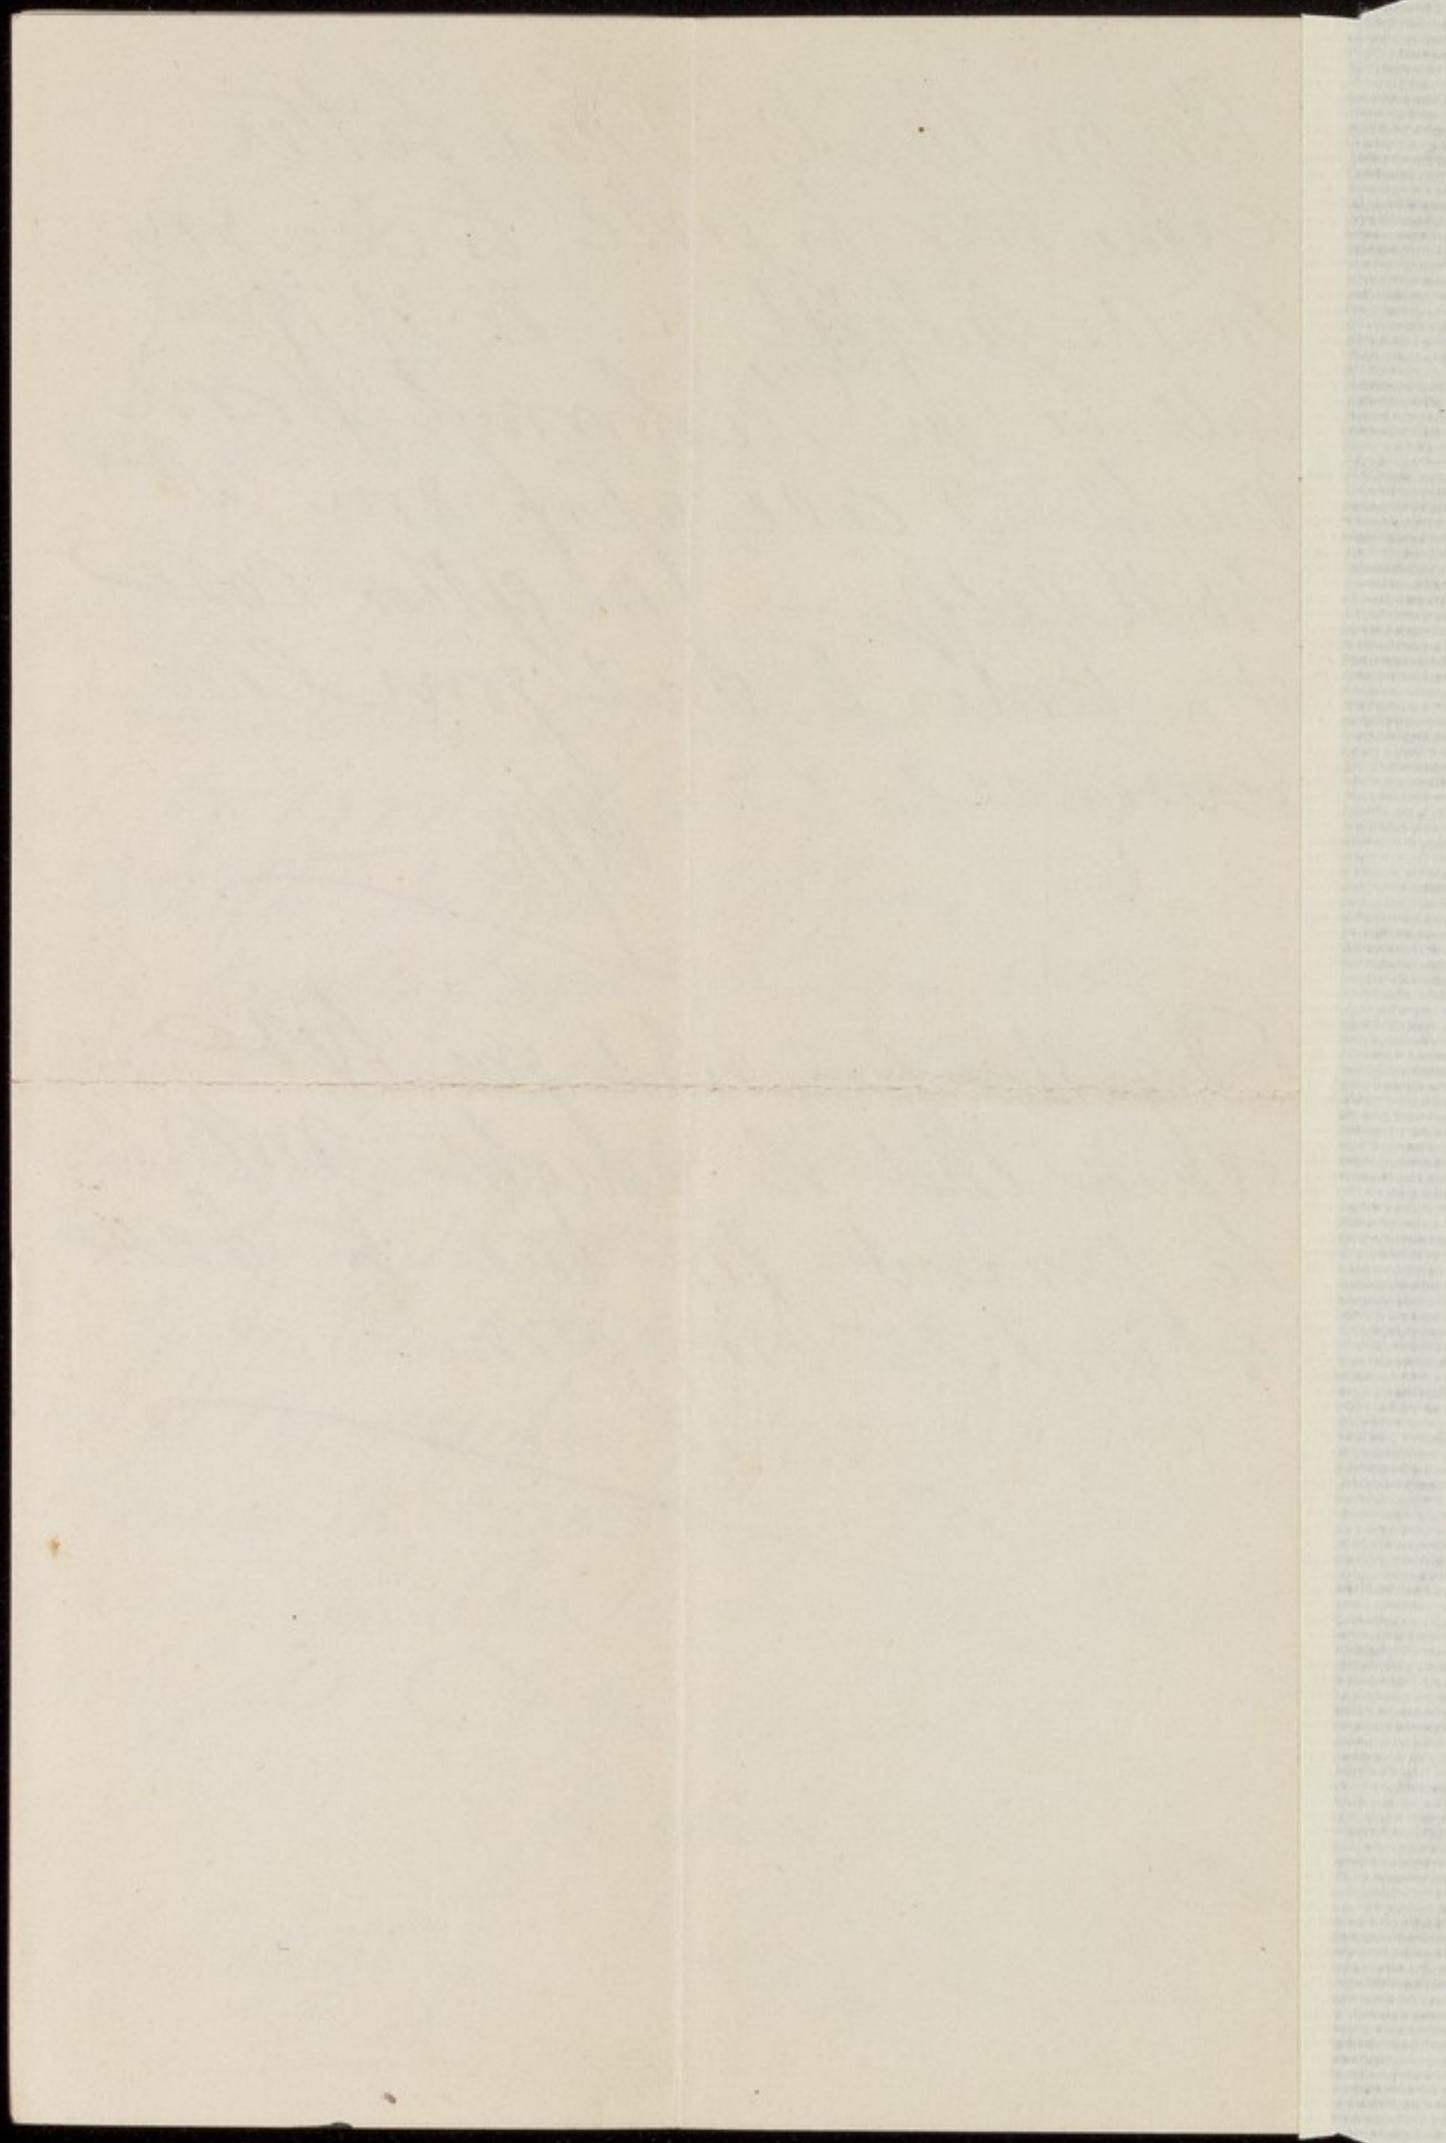

And detention. In such case
I shall be compelled to make
some fresh arrangements for
him as I have two other sons
now waiting and requiring means
to provide them with a start
in life and I shall be unable
to continue my eldest son
at or good a place as the
Retreat without dipping into
the small fund I have been
able to save in view of future
contingencies, and which I should
hardly be justified in doing.

If you could give us any details
as to the cause of your latter
opinion in regard to my sons
case we should be very much
obliged I am dear Sir

Enclose short
report on Maberley
Case for friend.

I found slight
but sufficiently

well marked

unequality of pupils

the left being the

more dilated

& with less reaction

to left than the
right -

There was decided
tremor of the tongue

The articulation
was the most striking
physical symptom

The knee jerks
were somewhat
exaggerated.

No ankle clonus.

On the mental
side there was
great exaltation

in regard to his strength
his wealth, and
his future. He is
going to travel
round the world
next week - but
he is also going
to Harrogate for
a month first.

His Syphilis
& (qu.) alcoholic history
makes me a little
cautious in speaking
diagnostically, especially
as he has had influenza

but my own opinion
is that he is a
G. P.

I wd. be disposed to give
him \$10.00. but I
confess with little
hope of any benefit

My dear Sir -

It was very kind of you
to write to me - & give me par-
ticulars of my poor Child's state
It is indeed a sad one, & I fear
the out-look is not hopeful -
I am satisfied she is well
Cared for - & the mistake if
there has been any - was
that she was left to drift
into that state of listless
Apathy - into wh: she
appears to be. The time for ^{guiding}
^{her in the way.} systematic occupation is I
fear now past. When

She was sent to the Retreat
about 16 months ago - the
curative process might
have taken more time - &
Dr. Baker's excellent theories
might have been tried with
success. Now I fear it is too late.
- She has rapidly deteriorated
since February & the only consolation
is that she is less sensible of
& feels her position much
less acutely. Now she did
- There was at first such a
strong repugnance & reluctance
to it - that the mental excitement
was considerably increased,
& at times the depression

was also increased. When I
saw her in August she struck
me as bordering on an imbecile
state - as though the mental
condition had been normal
& was not as I supposed it
must be, due to actual
disease of the brain - The
idiotic state I could better
understand - had she shown
signs of deficiency or of
weak intellect from
childhood - but so far from
that she had splendid
intellectual power - & was
gifted in an exceptional
way. Her tastes for painting
& music were cultivated

to a high degree - & she
loined the greatest love
for really good books &
literature - Should you come
to Hartford - I sh^d like to
show you her paintings -
- She has a fine brace & was
Medical & the pupil of Dr
Naylor Precentor of York Cathedral
- In dealing with the patients
I feel sure you wd wish to
know the antecedents & history
of those you are striving to cure
- In Annie's case for some
years past - there has been
a marked habit of living too
much apart from others
& a shadow of melancholia

seems to have fallen on her
until it developed into
marked
Symptoms of
Mind giving way. But the cause
of the affliction is not apparent
& I think the difficulty
of tracing such causes - is an
empowering one, with those
who like you, have to deal with
Mental diseases. The association
of the weak minded & deficient
is certainly a great hindrance
to improvement by care -
Poor Anna seemed so much
more rational than her
companions - now it seems
the reverse. I am very thankful
to know Mrs. Hodgson

is still in the West Hill -
My naval son will have
to ^{WEST PARK HOUSE,} ^{FALSGRAVE,} ^{GOARBOROUGH} pass thro' York early
in next week - & will call
& see his sister. Tho' she
may be able to see you also
& Dr. Struvel. Meanwhile
let me introduce you through
the medium of the Provincial
Medical Journal - to my
eldest son - whose acquaintance
I trust you will make
- His portrait & a biographical
sketch appears in this month's
Journal. I should mention
that I cannot trace any

approach to hereditary
insanity in any branch
of our family - either that
of my husband's or my own
- & of all the mysterious
ills wh. attend it here to -
it seems to me that the
cure of the insane presents
the greatest difficulties
- May you be in every
way blessed in your
exceptionally arduous and
responsible work - & accept
my best thanks for whatever
you may do - to mitigate
the sufferings of all -

Conditions of humanity - the
long death to the poor Cousin
Ann words. Wh. she is under

Friends' Retreat, York.

The attention of Friends who accept the duties of Visitors to the Retreat is invited to the following Memoranda.

(a) The York Retreat and similar Institutions are now periodically visited by Inspectors appointed by the Government. An intelligent, unprofessional visitor may, however, see things with regard to both the management and the arrangements of an Institution from a point of view different from that likely to be taken by the Government visitors; and the interests of the Retreat will be best served by both these views being freely brought before the attention of those responsible for its management.

(b) The visits of Friends appointed by the Directors' Meeting afford opportunities for manifesting kindness and sympathy to the patients, and for infusing additional happiness and fresh interests into their lives. It is to be remembered that patients should uniformly be addressed as if they were of sound and educated mind, and as little notice as possible taken of the evidences of a departure from a healthy mental condition. On no account should patients be addressed as if they were children or persons of inferior mental capacity.

(c) The Superintendent is empowered to keep back such patients as he deems it inexpedient for the Visitors to see, reporting each time to the Visitors the number of patients so withheld from inspection.

(d) The Visitors are invited to ask for explanations from the Medical Officers upon any matters that occur to them in the course of their visits, and it is desired that the Visitors should freely enter in the Report-book all particulars the mention of which is likely to be of service in the management of the Retreat.

(e) ~~It~~ It is distinctly to be understood that information connected with the patients, acquired during the visits, is to be regarded as strictly confidential, and not to be divulged except to the Committee or the Medical Officers of the Retreat.

(e) (to be inserted ~~at~~ after (d))
In addition to the Main building
of the Retreat, with the
attached buildings, known
as the Gentlemen's Lodge &
the ~~new~~ Ladies' West Villa
the Institution includes the
following ^{separate} buildings

Pelle Vue, Ladies' Villa
East Entrance Villa
Entrance Gate Lodge
Gainsboro' House, Scarbro.

It is not considered in-
cumbent on the Visitors ap-
pointed by the Directors'
Meeting to visit all the above
named departments, but they
are encouraged to include
in their visits so many of
the various ~~at~~ branches as
they may find convenient.

Dr. Pierce;

Dear Sir,

On Thurs day
next all being well, I
intend to leave here for
Biarritz where I hope to
remain for a time.

May I trouble you again
for more news of my dear
brother Cyrus whom I so
yearned to see on my last
visit to York. But would
not ask in case my visit
should retard, in any way
his progress towards ere:

covery, which I firmly trust
as being possible, sooner or
later.

May I also trouble you to tell
me what amount is being paid
for my brother's comfort and
treatment, and if you think
he has all the comforts ne-
cessary for him and for
me able to afford it? -
I wanted to ask you all these
questions when at York, but
did not feel equal to the
trial at the time.

At present my youngest
brother is managing our
brother Cyrus's affairs, en-
tirely on his own responsibility
which of course he has no
power to do. And as he
has been very secret and
somewhat disagreeable in

his closing the bill he has

Dear Dr. Babber

As you may be
expecting to hear from
me about my sister.
I write to say that
we have decided to
place her for the present
at Garswood. We
were induced to come to
this decision on account
of the report in the Lancet
of a very remarkable cure
of a similar case there.
If the experiment should
not prove successful, we
shall of course wish to ^{move} ~~be~~
her nearer home perhaps.

hope these few lines
will find you the same.
I have not much news
to write at present.

Dear Dr. Pierce,

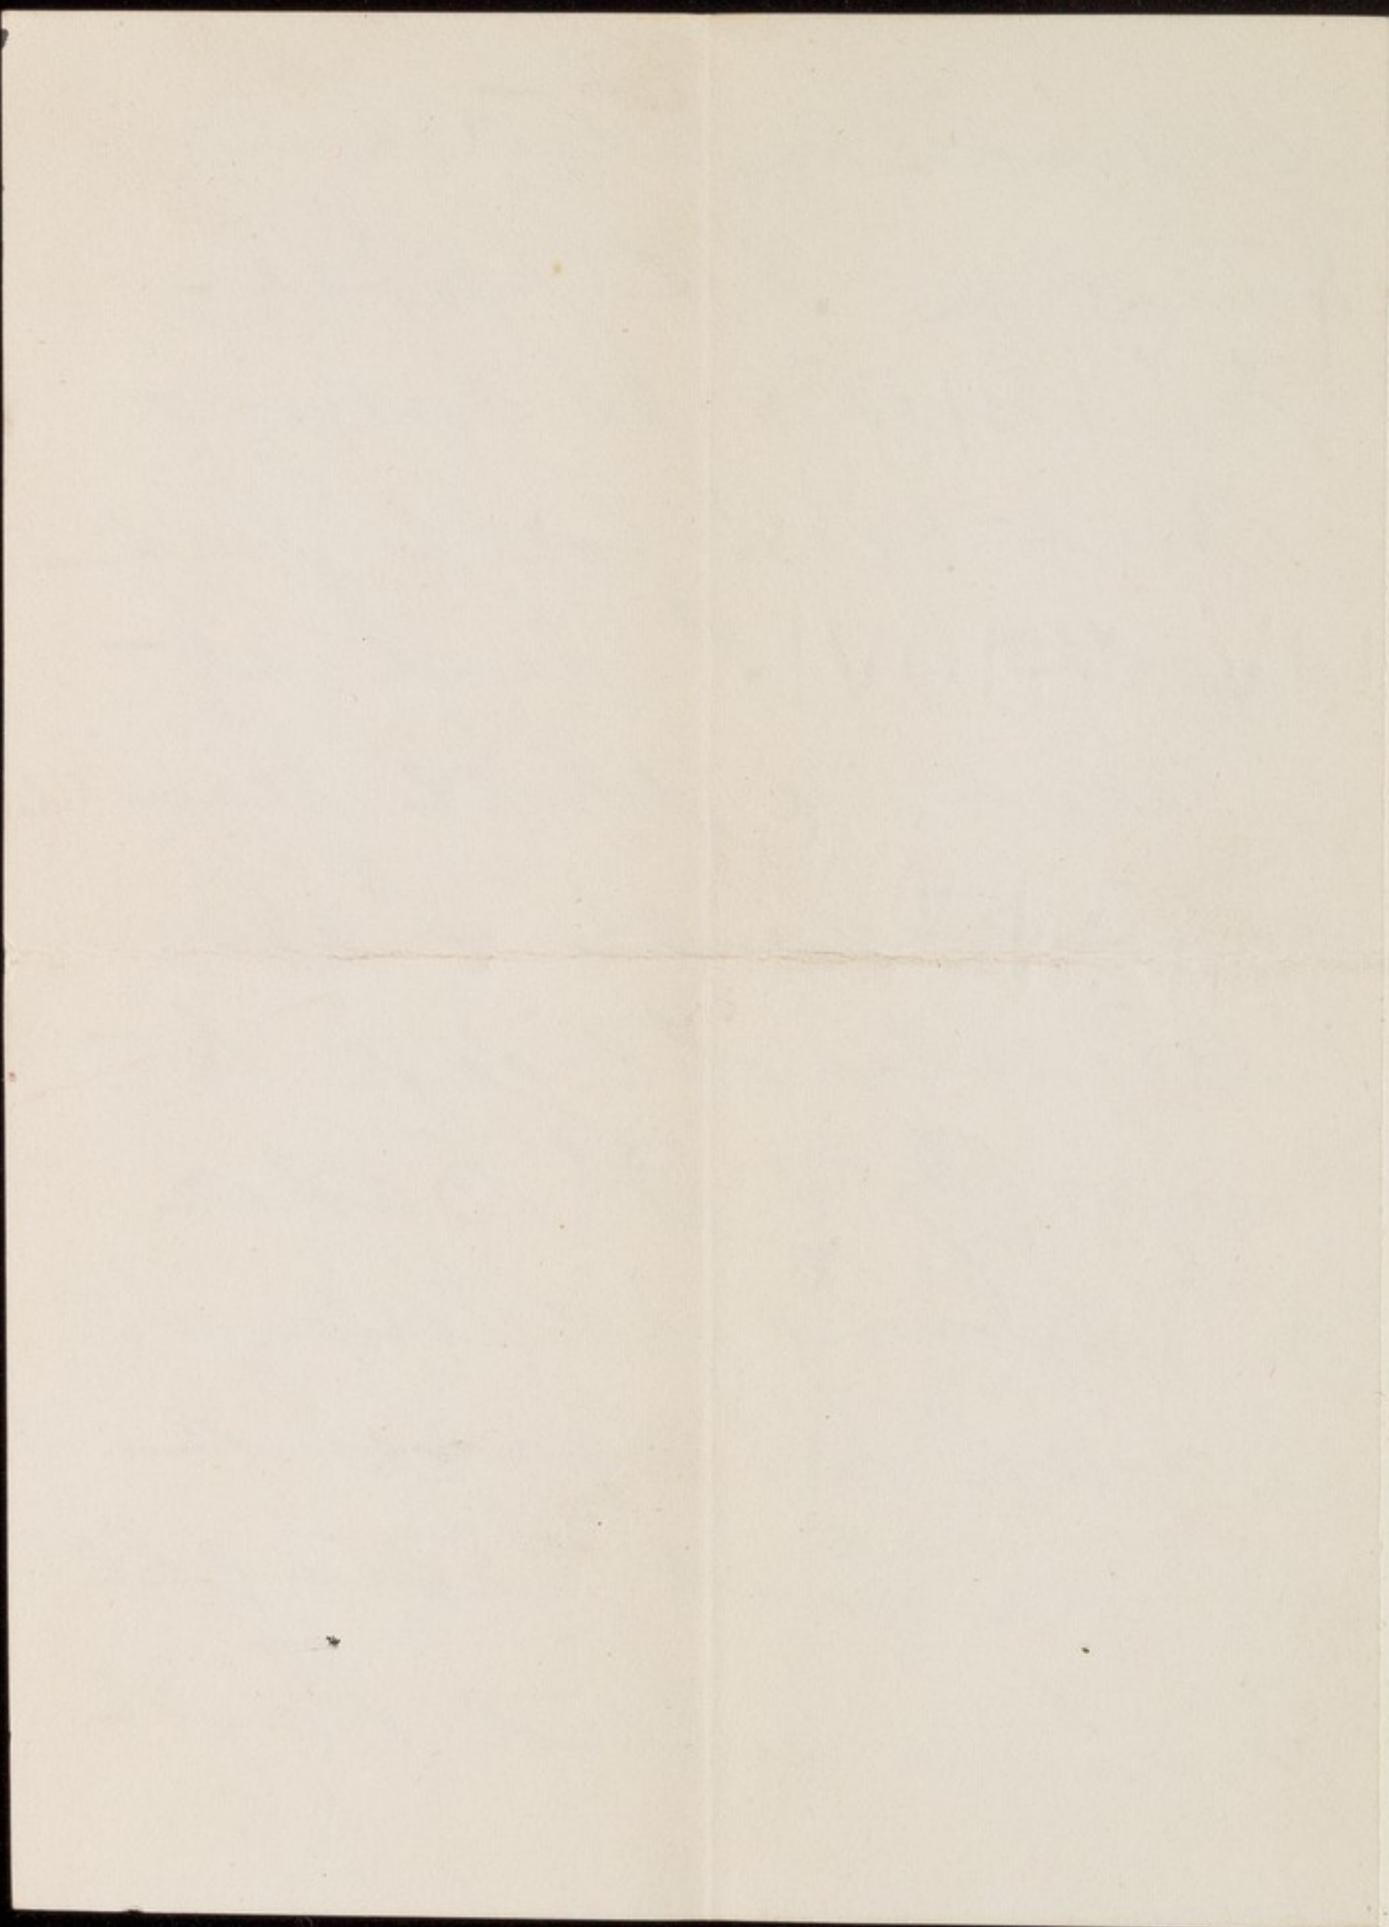

I think it is quite unnecessary for Darley to come so long as I am here - My husband is quite willing to do so I wish him & I can assure you I shall take every care of him -

Addison is returning
tomorrow I suppose.
My brother is coming
next week for a fortnight
so I think at
present we shall require
no attendant. I am
extremely obliged to
yourself & Mr. Baker
for allowing Addison to
be with my husband
for the last fortnight.

you left yesterday I
wrote to ask particu-
lars about Mr. Sker-
ton, the gentleman
I named. Captain
Beverley has an
idea he knows him,
I believe so too.

& he is at liberty
to willing to find
no companion to
my husband he
thinks he would
like him. so please
don't engage anyone
just at present:

I had a letter from
my mother this morn.
she saying she had
made all arrang-
ments for coming on
Friday to stay for

A short time. so please think
allow me to stay what I like
to see. He shall both occupy
the same room, as there will
be no possible chance of my
husband seeing me so as to
prevent state of health the
promise faithfully he will
not. so complying to the Dr's orders.

If he does of course
I will leave at once.
He is brighter & happier
altogether when I am
here. I assure you
he does nothing con-
trary to your orders.

If you cannot spare
Whisk from the Fleet;
any of the attendants
will do whilst I am

consequently the charge
for the above was
altered from 2d. to 2 1/2d. p

aware that any alteration
was made in regard
to the patents benefit

in the matter of

in the bill now sent
a charge for "Disturbance 13.7.9"
I should be much obliged
by your informing me how
this exceptional increase
has been caused - for
19 years there had
dealings with the Retail

most uniform footing.

I will just add
the list of payments

My dear Dr Baker

I have been reading with
very great interest - the report of
the proceedings of the medico Psycho-

congratulate you on the success
of the meeting under your Presidency
Your address gives a very interesting
historical sketch of the growth of
improvements in the Retreat which
was most appropriate to the occasion
If you will excuse my saying so

I should have been better pleased if
you had omitted Sydney Smith's
criticisms on the style of my Father's
writing as to "quotation". He was
a personal friend of my Father & by
no doubt understood me another -
otherwise it would seem like a sneer
which I feel sure Sydney Smith did
not intend & which I feel certain
you could not wish to perpetuate
in reference to a work which I think
may be its demerit produced a
marvellous change in the treatment
of the insane - I have only just

returned from a few weeks in Ireland
& have only today been able to read
the Report of the Meeting, hence my rather
late letter to you. - I am reminded also
that you may perhaps be requiring
a cheque for the Books to be presented
to the attendants & which you so
kindly offered to select when you
had the leisure - a period which
never seems to come to some of us -
& which you can have known nothing
of lately - I hope you had a
pleasant time in Norway & saw
the glorious effects of the Medusae

Sept. 5. 1892

Dear Dr. Baker

I ought to have written
by now long ago to acknowledge
the papers you were most kind to
send. They arrived at a time
when I was very much engaged
& I put them aside to await a
convenient season for their perusal.
This did not occur until last
week when I read them with
much interest especially that
on The Turkish Bath. It is very

suggestion on several points - especially in its influence over the mental health of attendants - explain morbidity. I rather expected that you would have found it useful in insomnia - but I see no reference to this. If you publish any future observations on the Turkish Bath I should be very much obliged if you would bring it under my notice.

In your review of Dr. Tuke's work you quote a description of the condition in which he found the patients in a Canadian Asylum

It corresponds exactly with what I saw in 1879 in a Charity Commission Hospital on Ward's Island ~~or~~ - a condition due entirely to the Board of Commissioners whom nothing could move.

The Villa residences you have around the Retreat must be a great advantage to you. I remember seeing something of the kind some years ago at an Asylum ~~near~~ at Box near Bath then under the care of the late Dr. Nash - and he expressed to me the value of these separate villas.

The article on Speculation is a good illustration of the importance of little things - of which indeed

life taken as a whole is largely made
up.

The last time I was at the
Retreat was at a friend's friend
somewhere about 1885 - If I am down
in York I shall hope to have
the pleasure of calling on you
& seeing some of the changes which
have been made during the last

50 years

With very kind regards

Yours truly

Sept 6th 1892

Dear Dr. Baker:—

As at our interview this morning my brother was present the whole time, I take the earliest opportunity of writing to you explicitly on one point which, had we been alone, need not have remained for elucidation now.

I will only remind you of what I said at the very outset of our conversation; namely this:— We, the family - are ~~of~~ in agreement on the main point that an opportunity should be afforded my brother of trying to gain employment outside; the point on which we do not agree is

the condition under which
such opportunity should be
afforded.

I twice stated this, and now
I write to say explicitly and
definitely that we do not agree,
and are not likely to agree to
the immediate cancelling of his
certificates.

We agree to any reasonable
steps for finding him — immediately
if you will — employment and
lodgings with reliable persons,
quite away from the Retreat.

But I must point out to you
that we agree to this on the distinct
understanding, which we supposed
ever since my interview with you

in London in June to be the
basis of proceeding, that there
shall be a trial on leave of
absence as a preliminary step
to any cancelling of certificates.

We are advised that only the
strongest pressure of circumstances
beyond our control, such as do not
(as I apprehend) exist, would
justify us in taking the extreme
step of cancelling certificates right
off at the critical time when
the experiment is being tried of
giving my brother outside employment.

We are advised that it would
not be right to do so, however
much we may desire that he
should be given an opportunity
of the fullest sort of gaining
for himself ~~on~~ a position of
independence.

Subject to this condition, I
shall be glad, so soon as you

have seen the proposed employers, to learn what arrangement they are willing to make for taking my brother into their factory.

We are all glad - emphatically glad - to believe that my brother's mental health is so much established that we may now contemplate a move: and we shall be doubly rejoiced when the time of probation on leave is safely passed, when it shall be right for us to assent to a complete discharge.

Believe me,

Dear Dr. Baker,

Yours ever sincerely

Dear Dr. Baker:—

Are you likely to be in town this month? If so I should like to see you about my brother, and the suggestions which I discussed with you and with him in June.

He more than hinted to me that he wanted to

lodge with one John(?) Lee a builder, living somewhere on Bishophill "within three minutes' walk of Cooke's works". I have been unable to learn anything of this person; but doubtless you have much more favourable means of gaining information than I have at this distance.

Wakefield

July 17th 1892

Dear Sir,

The following facts have recently come to my knowledge concerning my brother Captain Beverley which may probably influence you in your treatment of his case: —

1. Some 12 or 14 years ago, I am, told, he received a severe blow on the head whilst playing football which caused complete

insensibility and frothing
at the mouth. No after
effects, however, so far as
we could judge, were
apparent.

2 Dr. Hollings of Wakefield
treated him for Syphilis
from May 5th to November 6th
1879 and again for secondary
symptoms from Oct. 4th
1880 to February 2nd 1881.

The attack was a severe
one judging from the
quantity of medicine &c.
supplied.

3 Dr. Haley of Wakefield
also treated him at a
later period say 8 or 9 years

ago for the same disorder.

Dr. Hollings has kept a
complete record of the treatment
and will gladly afford all
the information in his power.

I understand that he, my bro-
ther, misled both Dr. Lett and
Dr. Barrs with regard to
facts 2 and 3. Hoping that
you will soon be in a position
to report favourably

I am
Yours faithfully
J. B. Cowley

Dear Sir

When I saw you yesterday
I quite omitted to mention
an important matter. and it
is this. —

That for various reasons
I request that no one be

Dear Sir
1 P. Dr. Walker

I shall feel much
obliged if you will send
me your opinion &
prognosis in the above
case because it will
influence me in arranging
for his practice being
carried on, of course
your opinion will be
in confidence & strictly
a private matter, as

Dr. Walker's medical attendant
I have formed my own
opinion which is not
very favourable, but
am anxious not to
make final arrangements
without your views
will you kindly write
to the above address
as I am away for
a holiday by return
of post if possible
