OFFICE OF COMMISSIONERS IN LUNACY,

19, Whitehall Place, S.W.,

30<sup>th</sup> Oct. 1891.

Sir,

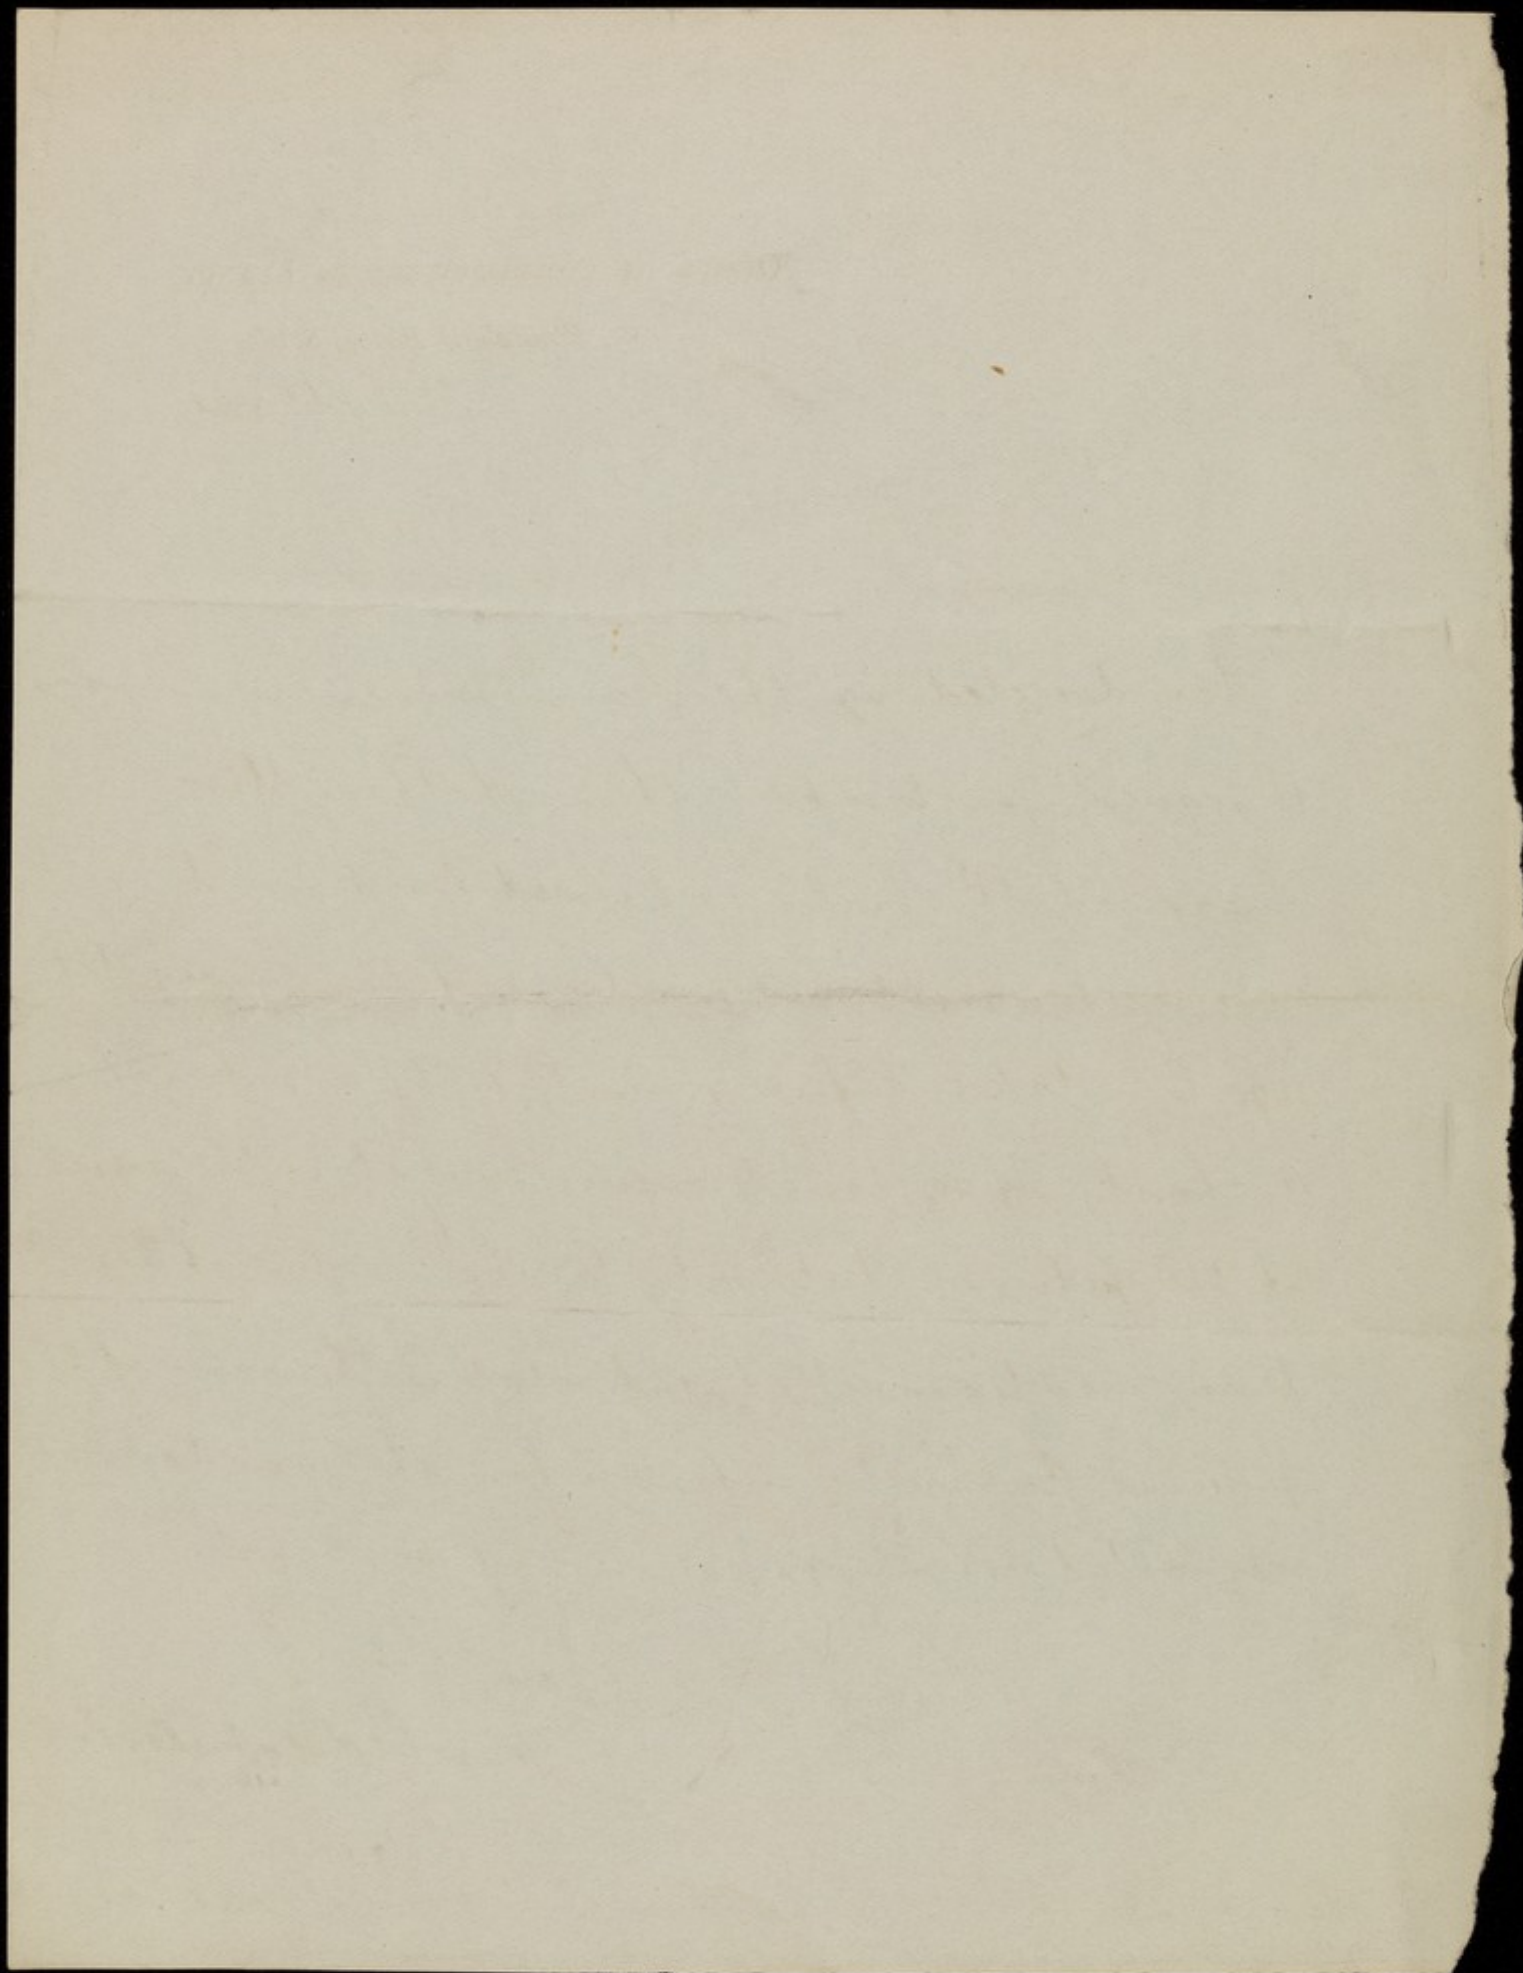

I am directed by the Commissioners in Lunacy to request you to inform them whether Miss Susannah W. Smith expressed her desire to exercise her right, under sections of the Lunacy Act 1890, to be taken before or visited by a Judicial Authority. If so, I am to enquire what is the name of the Judicial Authority to whom notice of her desire was transmitted, and what is the name of the Judicial Authority before whom she was taken, or who visited her in consequence of such notice.

I am, Sir,

Your obedient servant,  
G. Harold Wilson  
Secretary.

Dear Sir

Glass. From the enclosed, you will see Pilkington Bros' quotation for 21oz Horticultural glass is  $2\frac{1}{2}$  per foot, nett, for squares of 2ft up to 11 feet superficial. To this you would have to add the carriage from Leeds of  $\frac{1}{4}$  or  $\frac{1}{6}$  on a small crate. If I remember rightly you were paying 3<sup>d</sup>. The difference would hardly be appreciable on very small quantities, but where you want considerable quantities, as in the last order, there would be a saving of 10 to 15 %.

Assessment. When you have any reply from the Assessment Committee, I shall be glad to see it.

Yours truly  
Rich Thompson

The Retreat

Dear Sir

I was intending to come up this afternoon to ask whether anything has yet been done about the repairs to the omnibus, but I find I am quite unable to do so. Mr Yoman writes that he thinks the wheels should be attended to promptly before more hot weather occurs, or they will go further; and if anything is to be done in the direction of painting & varnishing, it should of course be <sup>done</sup> ~~away~~ at the same time. I expect also that Mr Baker & you would prefer to have it done promptly, so as to be tidy for July 19<sup>th</sup>. If Mr Waller could call here this afternoon with your views, we could then doubtless decide, & he could probably write for two competing tenders by tonight's post, so as to get the matter in hand promptly, or it will be too late to do anything.

It would be well also to ascertain, before he comes down, whether the old omnibus is in such a state as to be suitably used while these repairs are going on, or whether another would have to be borrowed from the Coach Builders for the interval.

Yours truly  
Rich Thompson

THE RETREAT,  
YORK.

Richard Thompson Esq.

Dear Sir,

I understand from Frank Parker that when he was engaged as Engineer in the place of J. Shaw, he was to have the same wages Shaw was getting - Shaw had an allowance of a quart of milk daily, by agreement; which allowance has not been continued to Parker.

Parker has mentioned this to Dr. Baker several times, & Dr. Baker fully intended, I know, to bring this before the Committee, but other matters probably intervened. Parker has  $2\frac{1}{2}$  weekly - house, coals & gas.

Perhaps the matter might be arranged on the 21<sup>st</sup>, as it seems a pity that a grievance should exist for want of a clear understanding.

Yours faithfully  
A. J. Woods Esq.

Joseph Rowntree Esq.

Dear Sir,

Mr. Thompson has read the enclosed, and wishes me to refer the matter to you -

He suggests that as it is not thought well for Milk to be allowed, an equivalent of  $\frac{1}{4}$ , or  $\frac{2}{5}$  a week should be given to Parker; if, as appears to be the case, he was told he should have the same wages as Shaw -

If I do not hear from you I will make a note on the agenda for next committee.

Yours faithfully,

A. J. Woods  
Esq.

Sir,

A patient was recently admitted to the Retreat on an Urgency Order, necessitating the speedy procuring of a Petition, fresh Medical Certificates, & Magistrate's Order.

The Petition & Certificates having been properly filled up & signed, the petitioner took the forms to a Magistrate having jurisdiction in York. The Magistrate referred the petitioner to the Justice's Clerk, who detained the papers, and forwarded the following letter.

Under these circumstances I have to ask you to be good enough to inform me.

1<sup>stly</sup> Whether the Justice's Clerk has legal authority to detain such papers, until the payment of a fee?

2<sup>dly</sup> Whether the charge of such fee is in accordance with the intention of the Lunacy Acts?

I should also be greatly obliged if you would inform me whether, in the event of a patient claiming to see a Magistrate (not having done so previously to admission) is the Clerk who accompanies the Magistrate, at the Magistrate's request, entitled to charge a fee to the friends of the patient for such attendance.

OFFICE OF COMMISSIONERS IN LUNACY,

19, Whitehall Place, S.W.,

16<sup>th</sup> July 1892.

Sir,

In reply to your letter of yesterday I am directed to say that the Commissioners in Lunacy have been given to understand that some clerks to justices claim to be entitled to charge for work in connection with Reception Orders under the Lunacy Acts according to a general table of fees authorized by the Home Secretary.

The Commissioners are not sufficiently acquainted with the law on this matter to offer an definite opinion as to the legality of the claim: but they think that the intention of the Legislature as expressed in sec. 9 of the Lunacy Act 1890 was that the additional

R. Baker, Esq. M.D.

remuneration of an officer affording assistance to the Judicial Authority should be derived from the same source as that from which his remuneration was previously derived, and that it was not intended to charge the patients' friends fees in connection with Reception Orders. The Justices have power to remit fees and in cases where the payment of them presses heavily on the friends of poor patients whose means are probably all the more crippled by the insanity of the patient the Commissioners have no doubt that applications for remission will be favourably entertained.

As respects your last enquiry the Act makes no express provision for the payment

by a patient's friends of fees in connection with a visit paid to a patient upon his request under sec. 8 of the Act, and the Commissioners are at a loss to understand how the friends can be liable for fees for such a visit.

Your obedient servant,

Dear friend I have been in communication with  
J. Westcombe of Worcester relative to the maintenance  
of C. Dixon at the Retreat. An arrangement has been  
now come to between Worcester & Warwickshire North  
Monthly Meetings to contribute £4.10/- Each per yr.  
for the next 3 years - I enclose cheque from the  
former & will at once remit the other amount when  
received - There seems to be some misunderstanding  
between the two M. Ms as to when the new arrangement  
is to begin thence the delay. I am yours sincerely  
J. A. Barringer

P.T.O.

P.S. I have instructions from John W<sup>m</sup> Dixon to pay on  
his account the balance between the amount paid  
by the M<sup>c</sup> Meetings the account sent - This amounts  
to 17/9 -

He informs me that he will be unable to do this  
in the future, but J. Westcombe has written to him  
on the subject.

I have no word as to the amount of arrears which  
has accumulated owing to the new rule -

Dear Friend,

Be kind enough to inform me (address Wilmslow near Manchester) what is the lowest price charged to Monthly Meetings for a man patient requiring no special care. This information is desired by Cheshire Monthly Meeting and has reference to Robert S. Lees whose means it is informed have now entirely failed. I requested this information a short time ago but no reply came and I have been requested to ask a second time. We should also be obliged by being informed whether the case in question is one in which recovery may be looked for or whether it would be fitting that he should be kept under <sup>moderate</sup> moral care at home.

Dear J. Baker

You know how we  
are circumstanced with  
regard to Edward Fox's  
means. But I do not  
like to prevent his having  
the charge of the Sea side  
The cost must not exceed,  
however, that of last year  
& all extras must be  
in consideration of my

AL

A summa per se is the cost of a patient  
being to the item be kept  
at their lowest possible figure  
to bring down Fox's  
again before the  
attention of the Committee as  
I cannot believe that by  
doubling the cost of his  
maintenance at the Retreat  
they intended contemplated  
springing upon the capital  
source of his income

I conclude that the Committee  
is somebody by their authority  
made an assessment fixed  
the proportionate increase  
of these patients payments  
with reference to their  
supposed means. In  
this case, if such is  
the correct view, a serious  
error has been committed  
from which  
R. Reynolds Fox

him they are asking his  
Trustees to do more than  
they have the power to  
perform. They are  
willing to go to the  
extent of their means  
but they are certainly  
not going to send a  
Lat grant to amongst  
those who do not consider  
Edward Fox has any claim  
upon them & who are

aware that a fund exists for his benefit

Plymouth  
19 June 1892

Dear Mr Woods,

The Committee are  
evidently under a mistaken  
apprehension as to Edward  
Fox's means or the funds  
which are available for  
his maintenance at the  
Retreat. It is necessary  
to state that his father  
at one time led a very

unsatisfactory. life and at  
that time ~~he~~ married a  
person in a very different  
sphere of life to his own.

Previously to the marriage  
Edward Fox was born.

His father having wasted  
his private resources became  
dependent upon his friends  
& his family were of  
course left destitute.

Under these circumstances  
Edward Fox  
~~he~~ has absolutely no funds  
to fall back upon but  
that left in trust for him  
by two sisters of his father  
& the income of that amount  
to about £60. The  
Committee will see from  
this statement of facts  
that in doubling the  
payment to be made for

Dear Dr. Baker

It gave us great  
pleasure to see you last  
Saturday & to hear so  
good an account from  
you of our dear son  
W. H. B. Moon, we are  
quite sure he has had  
all needed skilful &  
kind attention whilst  
under your care & have

no doubt of the great benefit he has received. There is only one point which troubles us, we have had much serious illness in the family & consequently heavy expenses & find the charges for our son press rather heavily upon us & we should be very thankful if any re-duction could be made in our favour in these exceptional circum-

stances which I think you understand from what I said to you on Saturday.

With our kindest regards & apologies for thus troubling you, believe me

Yours sincerely

Dear Sir,

I venture to trouble you  
once more with reference to  
Martha Foster's fee, which by  
your kind offices was reduced  
in 1889, and I would ask you  
whether it is practicable to  
effect a further saving by  
placing her in a less expensive  
part of your Institution. -

Martha Foster's capital of  
£2700, as mentioned to you  
at the time, has been out on  
mortgage at 4% ; this mortgage  
unfortunately will be paid  
off next month. - It is impossible

to reinvest the money at more than 3 to 3½%.

It is the desire of Martha Foster's friends, that she should be so placed as to defray her maintenance, out of the interest of her capital, say abt. £90 p. annum. - Can this be done without removing her from your Institution? -

Her friends would greatly prefer this course, knowing what care and kindness she receives with you, and would only think of removing her under compulsion.

I may mention for the information of the Council of your Institution that Miss

Foster's brother, after whose bankruptcy in 1889 the former reduction was made, has not been able to earn a livelihood since & that in consequence my wife and myself have had to bear the whole of the difference between Miss Foster's income & the cost of her maintenance, a charge which would now be materially increased.

I know your time is most valuable and should not be trespassed upon; still if you think that a personal interview is at all desirable I shall be most happy

Dear Sir,

In reply to your favour of  
17<sup>th</sup> inst. By this post we send  
you guarantee sheet for No. 2  
boiler due to the recent "Entire"  
examination of that boiler.

No. 1 boiler does not fall  
due for renewal till July next.

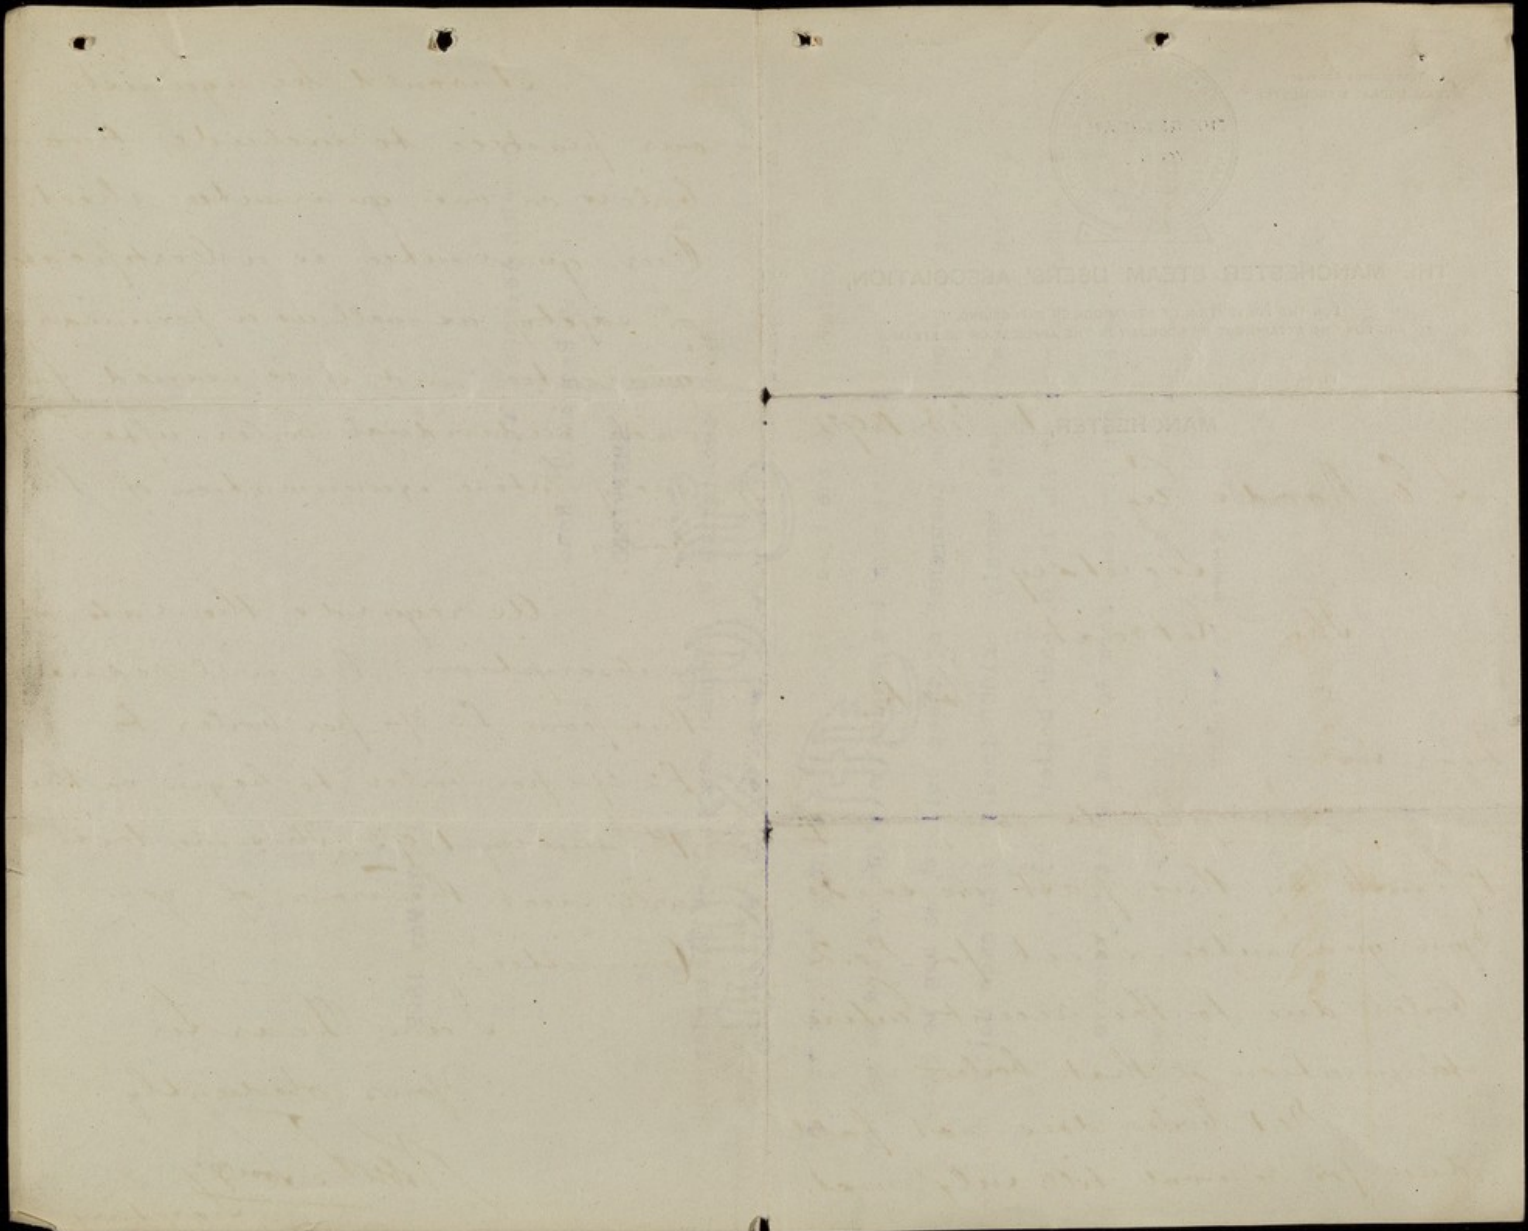

It would be against  
our practice to include two  
boilers on one guarantee sheet.  
Our guarantee is a Certificate  
of safety as well as a pecuniary  
guarantee, and it is issued for  
each individual boiler after  
every "Entire" examination of the  
boiler.

As regards the rate of  
subscription. We will reduce  
this from £3-3/- per boiler to  
£2-2/- per boiler to begin on the  
1<sup>st</sup> January 1893. This we trust  
will meet the views of your

Dear Sir,

Our representative Mr Horsman was at York yesterday and had the pleasure of seeing Mr Wood of the Friends Retreat in that town in reference to the insurance of the two steam boilers at that place. We find that they are renewable about now and as we are anxious to secure the insurance of these boilers, we beg to quote you the following rate, namely: £1000 insurance on each boiler for an annual premium of £1. 15. 0. each boiler.

We enclose proposal Form &c. and trust to receive instructions from you or Mr Wood to proceed with the insurance.

Dear Mr. Yeoman, March 3/92

Our policies cover damage  
(by explosion <sup>of Boilers</sup> or collapse of  
flues tubes) to Boilers, Building,  
plant, stock, & loss under the  
Employers' Liability Act & at  
Common Law.

	Total per Annum

£1500 - - - - - do - - - - -	3:16:0
+ £1000 on <u>each</u> two boilers - - -	3:3:0
£1500 on <u>each</u> two boilers. - - -	4:10:0

Of course, these are exceedingly  
low rates because it is a

Our Secretary writes - "The

BOILER AND ENGINE INSPECTION WITH INSURANCE having now become so well known and appreciated by Steam users, it is hardly necessary specially to call attention to the great safety and economy secured thereby to life and property. It is, however, deemed desirable that the public should be made aware of the special success which has attended this Company since its formation, seventeen years ago. During the whole of that period not one Boiler under its care has exploded, nor has there been the least casualty to life. The Directors are firmly convinced that this has resulted mainly from the special "system" of inspection practised by the Company, and to the regular Annual Thorough Examination, which is rigidly adhered to.

Bradford Office: SUNBRIDGE CHAMBERS.  
 London Office: 70, CHANCERY LANE, W.C.

### INSURANCE OF BOILERS.

The Insurance of Boilers includes the cost of the periodical "external" inspections, made when the Boilers are at work, and also the annual "thorough" examination, which is done when the Boilers are empty and cleaned by the Insured, at his convenience. The premium covers compensation for damage done to the Boilers and the surrounding property of every description, caused by the explosion of the Boilers or the collapse of the flues occurring from whatever cause.

It also includes claims made under "Common Law," and claims by workpeople, made under the Employers' Liability Acts, for personal injuries sustained through such explosion or collapse.

All inspections to be made during weekdays. If, however, it should be at any time absolutely necessary to inspect on a Sunday, a special charge is made, which goes to the Inspector for his extra labour.

After each inspection, whether "thorough" or external, a Report is forwarded to the insured by post, pointing out defects found, with suggestions as to their remedy, special attention being given to those defects that are considered as dangerous. The first object of the Company being to prevent explosion, no effort to that end is spared.

After a Boiler has been thoroughly examined and found satisfactory, a Certificate to that effect is forwarded to the owner, this Certificate being intended to vouch for the general safety of the Boiler, notwithstanding minor defects reported. The Certificate can also be submitted to the inspection of the Government Inspectors of Factories and Workshops, or produced in case of sale or valuation of the Boiler.

RATES ON APPLICATION.

### INSURANCE OF ECONOMISERS.

Accidents to Economisers through explosion of the pipes are of frequent occurrence, and therefore special attention is drawn to the advantages of insuring them. The explosion of an Economiser pipe or pipes not unfrequently results in loss of life, and rarely occurs without doing considerable damage to surrounding property; and as the Company's Policies cover all such damage up to the amount insured, and claims under the Employers' Liability Acts, the advantage of insuring them is obvious. The premiums charged include all costs of inspection.

Owing to their construction, Economisers cannot be examined thoroughly and satisfactorily; but in order to ascertain their actual fitness for the required working pressure, the Hydrostatic Test is occasionally applied.

### INSURANCE OF STEAM ENGINES.

The Insurance of Steam Engines includes the cost of periodical indications and examinations, and annual overhauling of the working parts, such as pistons, valves, &c., and covers claims for the breakdown of any of the principal parts. After each visit of the inspector, copies of diagrams and full reports are forwarded to the insured, together with suggestions for safe and economical working.

Rates necessarily vary according to the type and dimensions of engine and mode of transmitting power.

RATES ON APPLICATION.

### INSURANCE OF GAS ENGINES.

This Company undertakes the Insurance of Gas Engines against breakdown, and to periodically inspect and report to owners as to their condition. It is well known that as soon as any defect occurs with the igniting or admission arrangements, not only is the power of the Engine at once reduced, but the gas consumption for work done is considerably increased.

The competent Periodical Inspection of such Engines by experienced Inspectors prevents much of the inconvenience and expense arising from stoppages, and also effects a great and important annual saving of gas. It is confidently asserted that this item alone covers the Annual Premium, while the owner has the satisfaction of knowing that no waste is going on, and he is deriving the full duty of the Engine.

The Insurance covers to the extent of the amount insured, all damage to the Engine of the nature of a breakage or fracture of any of the principal parts, such as would necessitate the immediate stopping of the Engine; the terms include—

- (1) The competent Periodical Inspection, and written reports thereon to owner, pointing out defects, if any.
- (2) A thorough examination of all the bearings and working parts, valves and adjuncts, at the convenience of the owner, once a year.
- (3) The indication of the Engine once a year, if fitted with the necessary gear (by which alone the economy of the Engine can be tested and regulated).

RATES ON APPLICATION.

### INSPECTION WITHOUT INSURANCE.

Boilers, Economisers, and Engines, not insured, are examined and reported upon, either periodically, for an annual payment, or specially at one or more visits. Terms according to the nature of the service required.

### NEW OR SECOND-HAND BOILERS

Intending purchasers of new or second-hand Boilers or Economisers may have the benefit of the services of the Company to examine and witness the hydraulic test of such before completing the purchase. Plans and specifications supplied at a small charge.

### AUDITOR'S CERTIFICATE RE THOROUGH EXAMINATIONS.

"I have to report the result of my investigation, for the year ending 30th September last, of the proportion of 'thorough' examinations to the total number of Boilers insured by your Company. Taking the whole of your London and Yorkshire business together, and including the very small number of 'internal' and 'external flue' inspections, which are for the most part practically equal to 'thoroughs,' the proportion is 103 PER CENT."

Auditor.

Dear Sir,

Insurance of Retreat Boilers

I have received a letter  
from the Yorks Boiler Insurance Co  
Ltd @ Bradford enquiring as to  
the above, with an offer of  
annual premium of 3.10 0  
for an insurance of 1000 <sup>to</sup> one each  
boiler. you will no doubt  
remember the subject of the  
premiums at present paid  
is to be considered by the Committee

28

before the next payment is due.

Please say if I am correct in assuming that at present we are paying 3/3/0 for an annual insurance of <sup>5</sup>1000 on each boiler - that is 6.60 in all.

Further that the premium on one boiler was paid last July

and the other is due in July  
(Please give me the exact dates)  
I am aware the Manchester

Steam users association, with whom they are at present

insured have agreed to reduce their premiums from the 1 Jun 1893 to <sup>1000</sup>2.20 per boiler for the same insurance.

Are the two Boilers, coupled together or worked separately?

And are you aware of any difficulty, (if the Committee thought best to insure in another Co) to prevent the Boiler due in July being transferred to a Competing Insurance Co?

Yours truly,

Dear Sir,

(Insurance of Retreat Boilers.)

In reply to your letter of the 25<sup>th</sup> inst. the payment made to the Manchester Steam Users' Association on 19<sup>th</sup> Jan'y. last, was £6.6.0 - being at the rate of £3.3.0 per Boiler, per annum. for the year ending Dec. 31<sup>st</sup> 1892.

No. 2 Boiler is guaranteed to 22<sup>nd</sup> Jan'y. 1893.

No. 1 Boiler is guaranteed to 3<sup>rd</sup> July 1892.

The Boilers are coupled & worked

together. The premiums for the current year having been paid, I do not see that any change can be made advantageously till Jan'y. 1893. unless the Manchester Steam Users' Association would consent to refund some part of the premiums paid them, on account of being relieved of responsibility.

I see no reason why the Insurance should not be transferred to another Company, who can give us more favorable terms.

Yours faithfully,

A. Woods.

Dear Sir,

Retreat Boiler Insurance

The premiums are payable in advance, and are due on Jan. 1<sup>st</sup> in each year; but the "Engagements for Guarantee" run for a year from the date of the last "Entire Examination" of the Boilers.

No 1. should have an "Entire Examination" next month; & when this is made, I presume a fresh guarantee will be issued for a year from the date of the Examination -

We certainly seem to have been paying much too highly -

No further payment will be

due to the Manchester Co. on account of the coming examination. Can we make the Company refund any part of the premiums paid them? Perhaps they might be induced to do so, if they knew there was a probability of the Insurance being transferred to another Company.

If this letter does not fully explain the present position, I shall be glad to forward you the Insurance Reports and Certificates of Safety &c.

It would be months before

Dear Mr Woods,

I am sorry for the delay in replying to your letter of the 29<sup>th</sup> ult. - I have been away from the office on business, or should have written you earlier. -

After my visit to the Retreat last week, I wrote to Dr. Baker with regard to the Storekeeping arrangements but have not yet received a reply. - consequently I am unable to reply fully to your letter until I hear from him. - Meantime, I am very glad to hear of the progress made with last year's accounts, & am quite

satisfied that there is all the material for a satisfactory analysis under the various heads of expenditure.

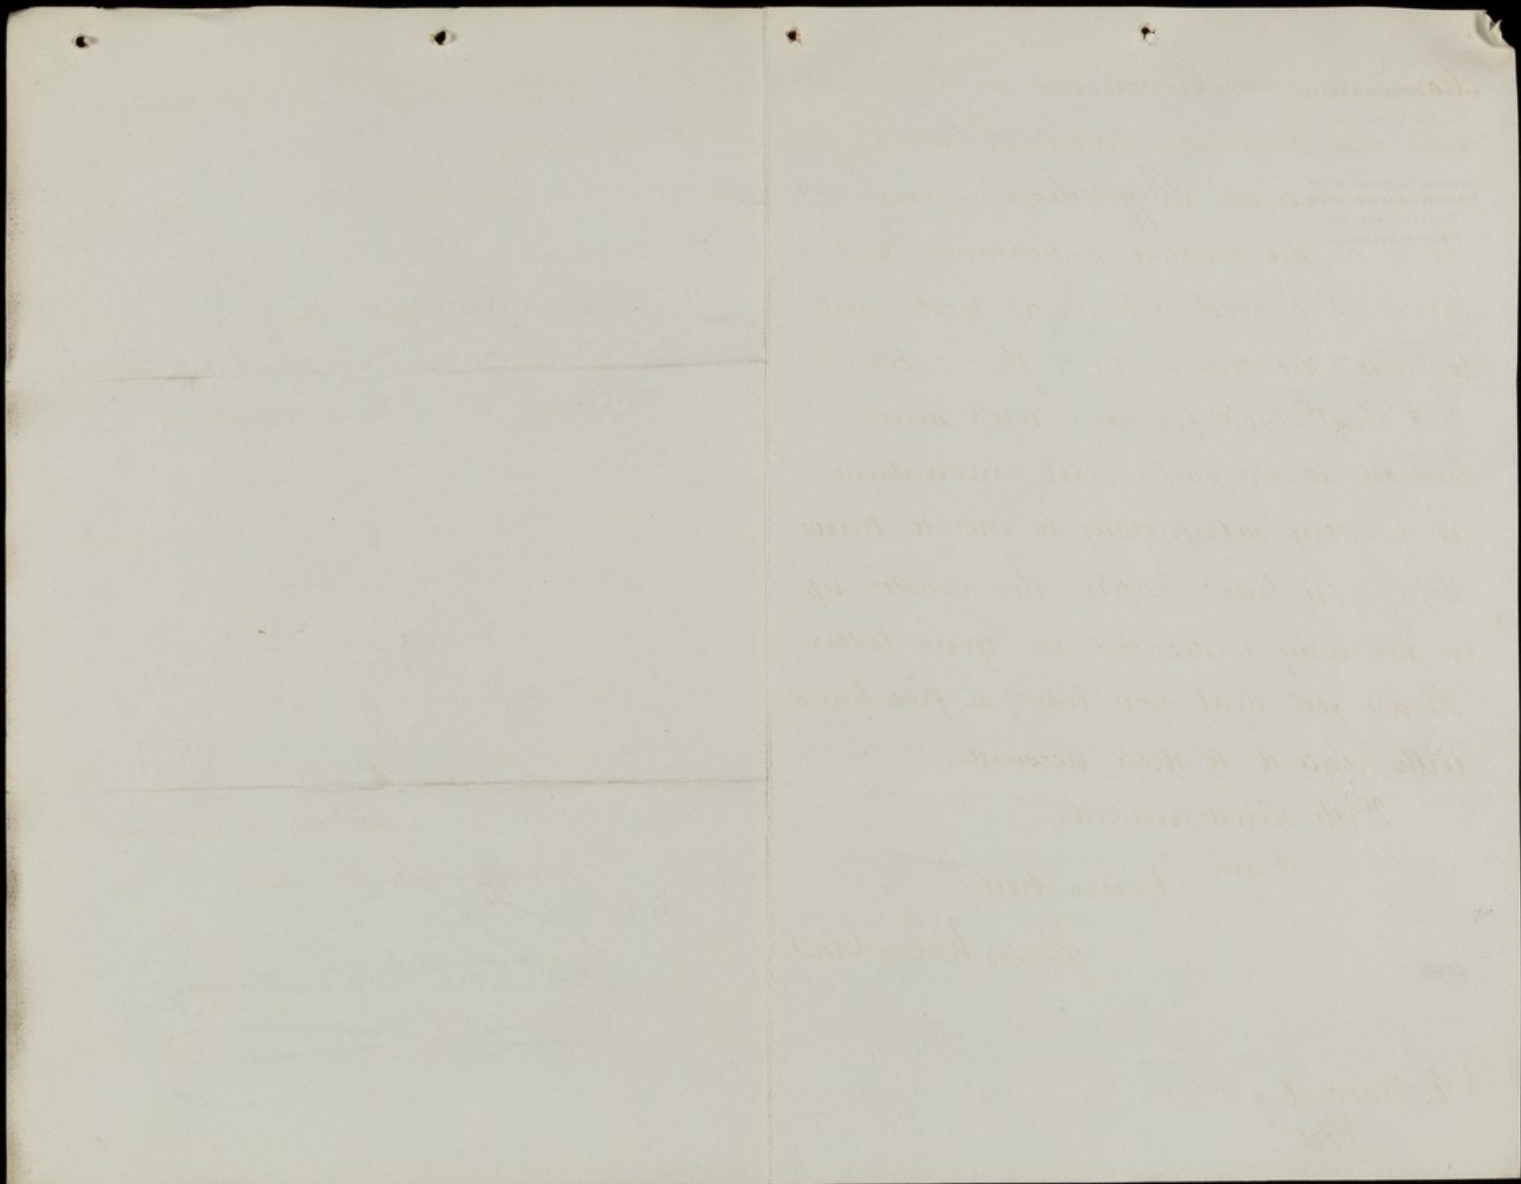

Yours very truly

Dear Mr. Woods,

I am very sorry for the delay in replying to your last letters, consequent upon my absence in South Wales during nearly the whole of last week, & stress of business on my return.

I am very glad indeed to find that you & Mr. Simmons have been able to make such progress with the Stores accounts in the past few weeks, & regret I cannot possibly get over to York this week, & fear I may not be able to next, as I have to be in London for two or three days. - I fully approve

of your suggestion to make in the first instance a draft book, to serve as a Ledger account for the various articles of consumption. - I should have thought that one account with properly ruled columns would serve for the four distinct departments, under each heading.

The question of subdivision of the various accounts of articles consumed such as bread &c is important, & could I think, by a little internal arrangement be made tolerably easy, but I am very desirous not to overburden the system & thus make it unworkable. - If therefore you do not see your way to this division into sub-sections, we must be satisfied with a general total. -

I am satisfied that under your supervision, the results desired by the

Committee can be got out in harmony  
with the Tabular statement which has  
been prepared in previous years. -

It is of the greatest importance (as I  
think I agreed when at York) not  
to break the continuity of this account. -

I shall look forward with much  
interest to an early visit, meantime  
it is very satisfactory to me to know  
that you have taken the matter up  
in the way indicated in your letters. -

Please feel that you have a free hand  
with regard to these accounts. -

With kind regards,

I am, Yours truly

The Retreat, York.

Dear Sir

Referring to our repeated conversations re  
Trestles & deal table tops in Recreation room, I saw,  
some days ago, Messrs Hunter & Smallpage & find they  
belong to the Trustees of a Chapel, & therefore cannot be  
bought outright, but only hired: indeed it is at some  
inconvenience to them, that we have had them on loan so  
long. They will therefore <sup>have</sup> to be returned: & I think your  
suggestion is probably the best, to have them replaced  
by trestles & table tops made by your own joiner.

If Dr Baker approves this, will you arrange with  
Mr Woods to have it done as soon as practicable, in order  
that those now on loan may be returned & the hire  
charges stopped.

I would suggest having them made in four equal  
lengths of say 10ft each, instead of 12ft: 8ft:  
10ft 6in: & 9ft: 6ins. as now, unless there is some  
special object in the latter measurements in order  
to fit some other purpose.

Breadth. The measurement is 2ft 6in: which  
you thought was rather narrow. 2ft: 9in: might  
perhaps <sup>be</sup> better if you think this will not limit unduly

15

the passage room behind the chairs, for waiting etc:

The boards should, I think, be one inch thick, if they are well dressed, & nicely covered with Baize, they will look quite tidy, & save the expense of more costly tables, for the present at any rate.

Will you please show Mr Woods this letter, & tell him Mr Hunter promised to write me some days ago as to whether he could reduce the hire charge, in consideration of the long time we have had them. He has, however, not yet done so, & I am leaving home on Thursday for a month, so his account, which is only small, can probably stand over till my return. Mr Hunter says there are also some items of furniture at the lodge on loan, full particulars of which he also promised to look into, & write me about. But he has not done so yet

Knowledge that the present  
steam boilers are under then work  
~~to~~ and that sometimes there is  
shortness of steam, but Mr. Stansley  
has been informed, that this is  
sometimes the case -

I wonder if this is really correct.

If we had plenty of Boiler  
room in the existing steam  
Boiler, the heater could have  
been coupled to one of them.

Of course the small  
heating Boiler is not actually  
dangerous - but it is desirable  
something should be done before  
the winter months, as a break  
down then, would prove serious  
to the comfort & health of the  
household ~~then~~

Dear Mr. Thompson,

I am sorry I am so  
circumstanced I find it impossible  
to get to the Retreat Committee on  
Monday, and I am <sup>also</sup> sorry to have  
to trouble you with the matter  
of the small heating boiler -  
but will you kindly bring the  
enclosed report on its present  
condition, before the Committee.

I am now perfectly  
satisfied that the Boiler is not  
worth repairing, as a thorough

examination, not only confirms  
Parker's report as to the fractured  
plates in the front, but also that  
the shell is worn & thin throughout.

It is now evident that  
the shortness of the life of this  
boiler, is not due to any  
inferiority of quality or workman-  
ship - but solely to the scouring  
action of circulating water -  
so that without expressing any  
opinion as to whether, the  
remedy suggested by Hawksley  
& Wilding is the best one, I  
think it would be wise to

Carefully consider it, with a  
view either to <sup>the</sup> adoption, of  
this or some other method to  
avoid the wear & tear of an  
ordinary circulating boiler  
in the future.

My instructions to Hawksley & Co.  
were simply to examine &  
report, as to this boiler's condition  
& their suggestion as to a heater  
is entirely gratuitous on their  
part.

I am writing the Gloucester  
asylum, as to their experience  
in the matter, but the reply  
will not be to hand before  
Monday.

Dear Sir,

In reply to your favor of 21<sup>st</sup> inst, re  
the rate of subscription. We can quite understand  
that you may have lower rates ~~for~~ for insurance  
offered to you than the rate you pay us, but we  
would wish to observe, that our main object is  
not to incur risks, but to ensure safety by  
careful scientific inspection of boilers, and in this

we have been most successful. We may say that we could very much reduce our rates were we to simply insure boilers, since we could, on a system of averages, sufficiently secure ourselves, as regards pecuniary liability, at a small rate. Our fundamental principle is however inspection, and it is a strict rule with us that we do not guarantee any ~~thing~~<sup>boiler</sup> that we have not ascertained by actual inspection ~~that the boiler is~~<sup>to be</sup> safe. Our guarantee, therefore, is not a simple insurance, but is first of all a "certificate of safety".

As you are aware, the subscription on your boilers is paid to 31<sup>st</sup> December next. From the 1<sup>st</sup> January 1893 the rate will be reduced to £2-2/- per boiler, per annum. It is not usual to make these reductions retrospective, but in order to satisfactorily arrange the matter and meet

your views, we will let the reduction date from  
the present half year, viz. from July 1<sup>st</sup> 1892, and  
will credit you with £1-0/- in rendering next  
year's invoice.

My dear Friend

re Walker Woodward.

I do not of course wish to trouble you needlessly about this matter but not having heard from you in any way since my letter to you of the 7<sup>th</sup> Inst it has occurred to me that I may not perhaps have been sufficiently explicit with reference to the Affidavit or Affirmation which should be made by someone to justify the Master in Lunacy in making an Order for the additional expenditure in this case of One Guinea a week which will be incurred by the removal of the patient to the New Lodge Buildings.

Under the rules of the Office we are not allowed to

issue a summons to bring the question before the consideration of the Master without leaving at the Office at the same time that the summons is issued the evidence which we propose to use in support of the application.

The view which the Masters in Lunacy take is so strongly in favour of giving a lunatic all the accommodation that his means will permit that I do not expect the slightest difficulty in obtaining the desired order but in order to justify such Order the Master will certainly require to have some statement before him showing that the apartments which it is proposed to give the patient in this case in New Lodge Buildings are superior to the accommodation which he has at present and what I shall be

glad to. Rave is the name of some officer of the  
Retreat or any other person acquainted with the facts  
who can state them shortly.

An Affirmation by yourself would of course  
be eminently satisfactory if it would not be giving you  
too much trouble to make one and if you like I will  
sketch out and send you the skeleton of such an affirma-  
tion as I mean that you may fill it up-

I find there is attached to the 95<sup>th</sup> Report  
of the Retreat which I have recently received from you  
a photograph of what purports to be West Villa and  
and also a ground plan thereof but I do not know  
whether this is the same as is referred to in your recent

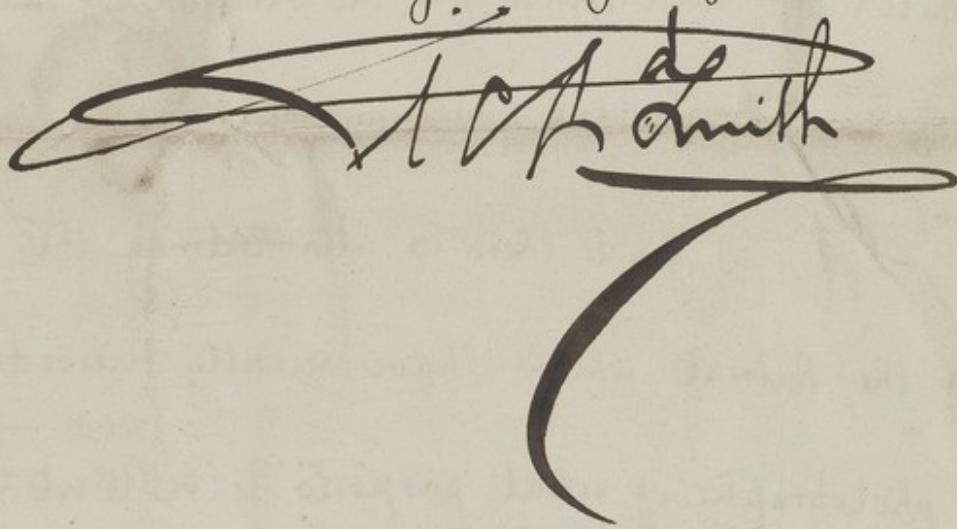

letter as the New Lodge Buildings.

I well remember your kindness in showing me over the Institution but my local knowledge of the premises is not quite sufficient to enable me to prepare such an Affirmation as I should like to have without a little more information.

With kind regards

Yours very truly

Enclosed is form of short affirmation which  
I should be glad if you will affirm and send  
me in support of the application which I propose  
to make for the additional allowance for the  
above-named patent at the Retreat assuming  
of course that I have stated the facts correctly.

Robt Baker Esq<sup>r</sup> MD,

Dear Sir.

J. H. Appleton.

Enclosed I have pleasure in  
handing you draft value £11.14.9.  
in payment of enclosed account.  
For some time past J. H. A. has  
been urging his mother to take  
him home & a short time ago she  
consulted me upon the matter.

My advise was on no account  
to do so till you certifi<sup>d</sup> that he  
was in a fit state to be at home.

Mr A has the wants of a numerous  
family to look after & there is no  
one to care for J. H. A. well

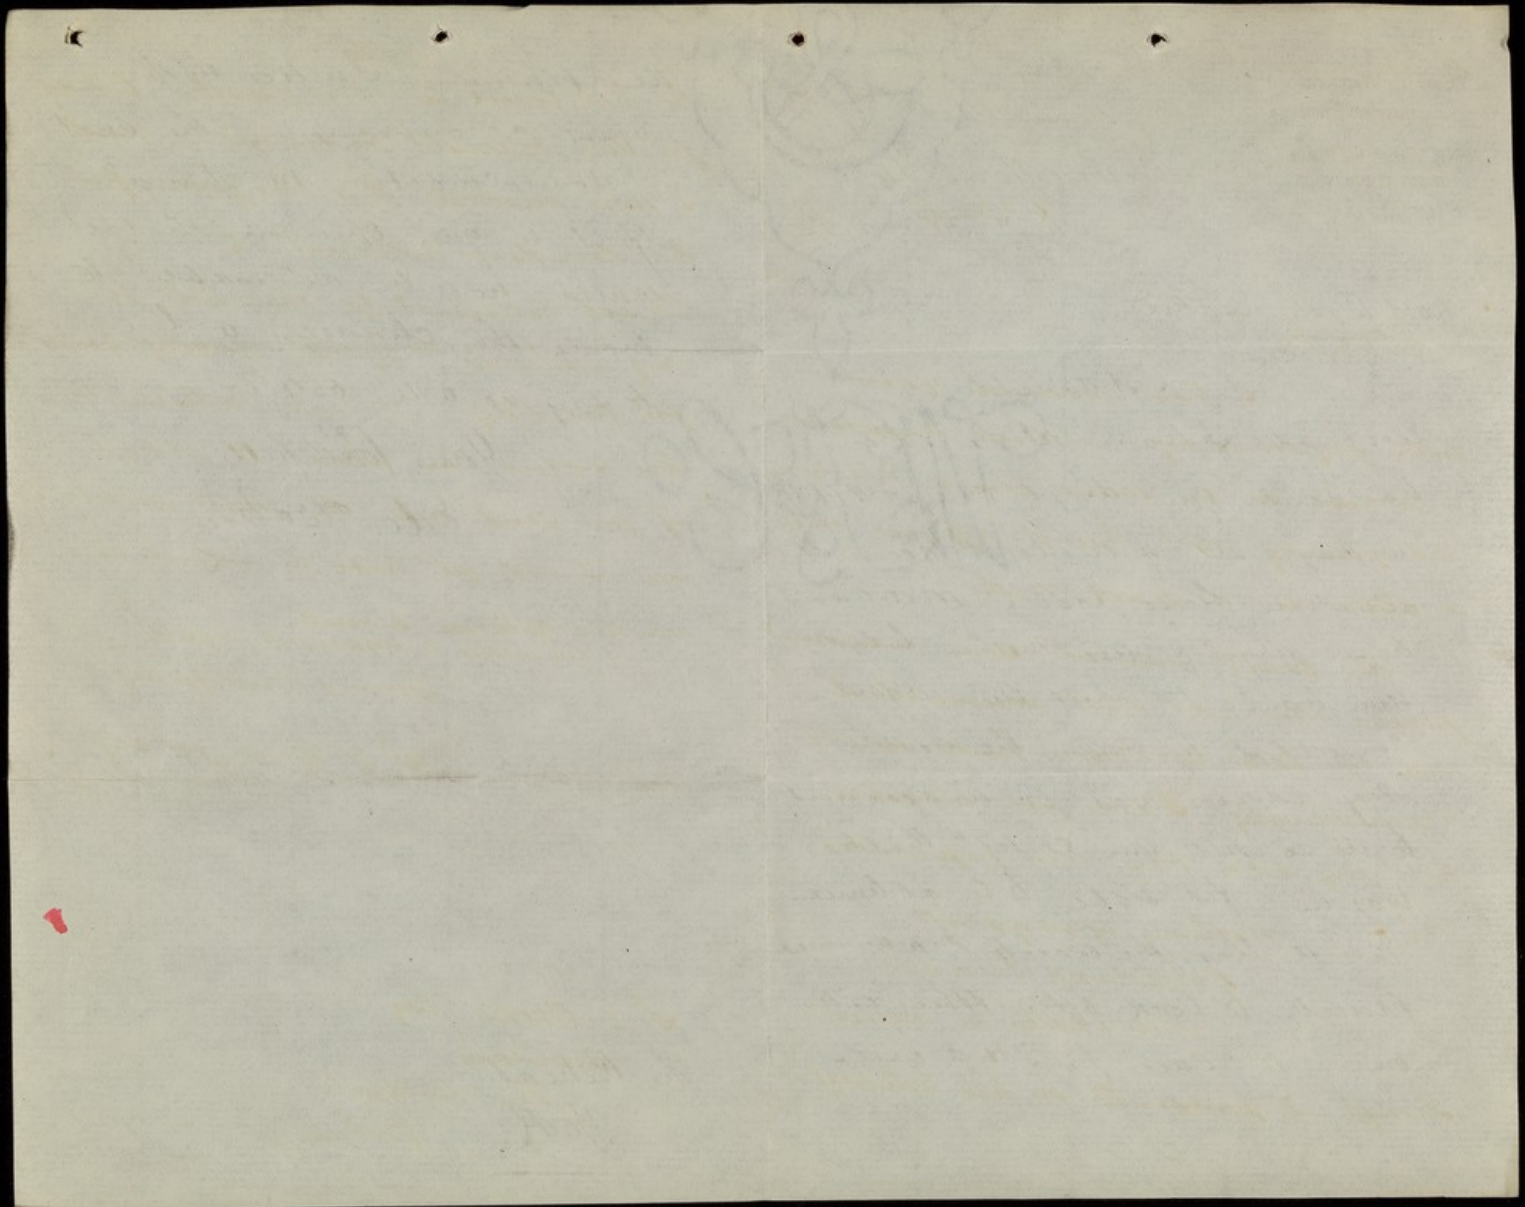

he at home. I stuck to the  
report accompanying the acc<sup>t</sup>  
"Bodily condition no change".  
If it is your opinion that it  
would not be advisable to  
make the change - a line  
to say so will oblige.

Yours faithfully,

Edward Watson.

Dear Sir

I have received your letter of yesterday, which happens to arrive at the same time as we are getting Mr. Row's affairs into a state to be dealt with.

The Court wanted some independent person who was not connected with the late Mr. Row's Trust Estate & accordingly I was not eligible, but my son has been appointed.

he has come to Newcastle today for this special business, and I now enclose his cheque for the overdue amount of £88.5.0  
Please acknowledge receipt to my address, as he is only here for one day, & will return to his home in about 10 days.

If you send me the next quarter's etc I will get him to attend to it on his return home  
I also enclose the agreement, signed

The first part of the paper is devoted to a general  
 consideration of the subject. It is shown that the  
 results of the experiments are in general in  
 agreement with the theoretical predictions.  
 The second part of the paper is devoted to a  
 detailed description of the apparatus used in the  
 experiments. It is shown that the apparatus is  
 capable of measuring the rate of reaction to  
 within 1% of the true value. The third part  
 of the paper is devoted to a discussion of the  
 results of the experiments. It is shown that the  
 rate of reaction is independent of the initial  
 concentration of the reactants. This is in  
 agreement with the theoretical predictions.  
 The fourth part of the paper is devoted to a  
 discussion of the mechanism of the reaction.  
 It is shown that the reaction is a simple  
 bimolecular reaction. The fifth part of the  
 paper is devoted to a discussion of the  
 effect of temperature on the rate of reaction.  
 It is shown that the rate of reaction increases  
 with increasing temperature. This is in  
 agreement with the theoretical predictions.  
 The sixth part of the paper is devoted to a  
 discussion of the effect of solvent on the rate  
 of reaction. It is shown that the rate of  
 reaction is independent of the solvent used.  
 This is in agreement with the theoretical  
 predictions. The seventh part of the paper  
 is devoted to a discussion of the effect of  
 catalyst on the rate of reaction. It is shown  
 that the rate of reaction is increased by the  
 presence of a catalyst. This is in agreement  
 with the theoretical predictions. The eighth  
 part of the paper is devoted to a discussion  
 of the effect of pressure on the rate of  
 reaction. It is shown that the rate of  
 reaction is independent of the pressure used.  
 This is in agreement with the theoretical  
 predictions. The ninth part of the paper is  
 devoted to a discussion of the effect of  
 light on the rate of reaction. It is shown  
 that the rate of reaction is independent of  
 the intensity of light used. This is in  
 agreement with the theoretical predictions.  
 The tenth part of the paper is devoted to a  
 discussion of the effect of pH on the rate  
 of reaction. It is shown that the rate of  
 reaction is independent of the pH of the  
 solution used. This is in agreement with the  
 theoretical predictions. The eleventh part of  
 the paper is devoted to a discussion of the  
 effect of ionic strength on the rate of  
 reaction. It is shown that the rate of  
 reaction is independent of the ionic strength  
 of the solution used. This is in agreement  
 with the theoretical predictions. The  
 twelfth part of the paper is devoted to a  
 discussion of the effect of dielectric constant  
 on the rate of reaction. It is shown that the  
 rate of reaction is independent of the  
 dielectric constant of the solvent used. This  
 is in agreement with the theoretical  
 predictions. The thirteenth part of the  
 paper is devoted to a discussion of the  
 effect of viscosity on the rate of reaction.  
 It is shown that the rate of reaction is  
 independent of the viscosity of the solution  
 used. This is in agreement with the  
 theoretical predictions. The fourteenth part  
 of the paper is devoted to a discussion of  
 the effect of surface area on the rate of  
 reaction. It is shown that the rate of  
 reaction is independent of the surface area  
 of the reactants used. This is in agreement  
 with the theoretical predictions. The  
 fifteenth part of the paper is devoted to a  
 discussion of the effect of stirring on the  
 rate of reaction. It is shown that the rate  
 of reaction is independent of the rate of  
 stirring used. This is in agreement with the  
 theoretical predictions. The sixteenth part  
 of the paper is devoted to a discussion of  
 the effect of time on the rate of reaction.  
 It is shown that the rate of reaction is  
 independent of the time of reaction used.  
 This is in agreement with the theoretical  
 predictions. The seventeenth part of the  
 paper is devoted to a discussion of the  
 effect of concentration on the rate of  
 reaction. It is shown that the rate of  
 reaction is independent of the concentration  
 of the reactants used. This is in agreement  
 with the theoretical predictions. The  
 eighteenth part of the paper is devoted to a  
 discussion of the effect of temperature on  
 the rate of reaction. It is shown that the  
 rate of reaction is independent of the  
 temperature used. This is in agreement with  
 the theoretical predictions. The nineteenth  
 part of the paper is devoted to a discussion  
 of the effect of solvent on the rate of  
 reaction. It is shown that the rate of  
 reaction is independent of the solvent used.  
 This is in agreement with the theoretical  
 predictions. The twentieth part of the  
 paper is devoted to a discussion of the  
 effect of catalyst on the rate of reaction.  
 It is shown that the rate of reaction is  
 independent of the catalyst used. This is in  
 agreement with the theoretical predictions.  
 The twenty-first part of the paper is  
 devoted to a discussion of the effect of  
 pressure on the rate of reaction. It is shown  
 that the rate of reaction is independent of  
 the pressure used. This is in agreement with  
 the theoretical predictions. The twenty-  
 second part of the paper is devoted to a  
 discussion of the effect of light on the  
 rate of reaction. It is shown that the rate  
 of reaction is independent of the intensity  
 of light used. This is in agreement with the  
 theoretical predictions. The twenty-third  
 part of the paper is devoted to a discussion  
 of the effect of pH on the rate of reaction.  
 It is shown that the rate of reaction is  
 independent of the pH of the solution used.  
 This is in agreement with the theoretical  
 predictions. The twenty-fourth part of the  
 paper is devoted to a discussion of the  
 effect of ionic strength on the rate of  
 reaction. It is shown that the rate of  
 reaction is independent of the ionic strength  
 of the solution used. This is in agreement  
 with the theoretical predictions. The  
 twenty-fifth part of the paper is devoted to  
 a discussion of the effect of dielectric  
 constant on the rate of reaction. It is shown  
 that the rate of reaction is independent of  
 the dielectric constant of the solvent used.  
 This is in agreement with the theoretical  
 predictions. The twenty-sixth part of the  
 paper is devoted to a discussion of the  
 effect of viscosity on the rate of reaction.  
 It is shown that the rate of reaction is  
 independent of the viscosity of the solution  
 used. This is in agreement with the  
 theoretical predictions. The twenty-seventh  
 part of the paper is devoted to a discussion  
 of the effect of surface area on the rate of  
 reaction. It is shown that the rate of  
 reaction is independent of the surface area  
 of the reactants used. This is in agreement  
 with the theoretical predictions. The  
 twenty-eighth part of the paper is devoted  
 to a discussion of the effect of stirring on  
 the rate of reaction. It is shown that the  
 rate of reaction is independent of the rate  
 of stirring used. This is in agreement with  
 the theoretical predictions. The twenty-  
 ninth part of the paper is devoted to a  
 discussion of the effect of time on the rate  
 of reaction. It is shown that the rate of  
 reaction is independent of the time of  
 reaction used. This is in agreement with  
 the theoretical predictions. The thirtieth  
 part of the paper is devoted to a discussion  
 of the effect of concentration on the rate  
 of reaction. It is shown that the rate of  
 reaction is independent of the concentration  
 of the reactants used. This is in agreement  
 with the theoretical predictions.

Mr. S. E. Woods,  
The "Retreat",  
York.

Dear Sir,

We are obliged for yours, & as it appears to be only a new boiler which you want, also that you wish it to be exactly like the old one, an intelligent hot water fitter can do what is required in the way of seeing the boiler just as well as one of us. We are therefore writing to a man we have near Pontefract, who will be returning home in a day or two, & we are instructing him to call at York & take exact particulars of the present boiler, so as to enable us to quote for a new one.

Yours truly,

*W. Richardson & Co.*

W. RICHARDSON &amp; Co.

(S. E. Woods Esq.,)

We shall be glad to quote for a boiler exactly similar if you prefer it, but we think you will find others quite as good, if not better. On hearing further with particulars we can advise as to the boiler we think would be best, but we ought to know exactly what amount of work is to be done by the boiler. Is it simply for warming rooms, or for Bath work etc, or if we have nothing to do with this we can probably include the exact power of the present boiler, in case you have found it do its work easily, & quote for any other kind which will do an equal quantity of work, with a minimum quantity of fuel. We suppose you prefer a boiler to feed from the top as the "Atlas" does, rather than at the front ?

The best probably will be for one of us to call the first opportunity, see the place, & obtain the necessary particulars.

We are, Dear Sir,

Yours truly,

*W. Richardson*

*P.S. Can you by referring to the original notice give us the No. in catalogue of the boiler now in use, & exact outside height & diameter ?*

S. E. Woods Esq.,

The Retreat, York.

Dear Sir,

We are obliged for yours, & shall be most happy to quote our lowest price for the new boiler you require, & also for any other heating work, if this may be found to be necessary. We cannot however allow anything for the old boiler, as it will be useless to anyone, except for its value as old iron.

We send you herewith our new catalogue of boilers, & hot water pipes etc, which you may be interested in looking into, but as the boilers shewn there are not nearly all that we supply, we also enclose a small catalogue with a few more in it, but the "Atlas" is so seldom used, that it does not happen to be shewn in either of these catalogues. We have turned down a corner of page 8 in the small list, shewing the "Premier" boiler, which is exactly the same as the "Atlas", except having single plate midfeathers, whereas the "Atlas" is rendered a little more powerful by having waterway midfeathers. Yours also seems to have been made specially by having internal cross tubes.

Mr. Wood,  
Friends, Retreat, York.

Dear Sir,

Our man has this morning given us particulars of the new boiler required for The Retreat, & says you wish to have a quotation to-morrow. As we dont make the boiler ourselves, we are obliged to write to the makers to know their price, & we are asking them to wire us as early as possible to-morrow what the price will be. We will then immediately let you know, but if you dont hear by wire, you may conclude that they have not been able to arrive at the cost in time, & we will let you know as early as we possibly can.

We are, Dear Sir,

Yours truly,

Mr. S. E. Woods,

The Retreat, York.

Dear Sir,

you will doubtless have received our telegram, stating that we shall be glad to supply the new boiler, to be exactly the same as the old one, for the sum of £ 16.10.0.

We hope that this quotation was in time for the Committee, & that it may have received their approval.

The boiler is not in the makers list, but has evidently been made specially for your purpose, & it is doubtless a good one.

We have not included any fittings for the boiler, as we understand these are not required.

The time fixing & connecting we should charge by hour, & we should send a man thoroughly competent for his work.

We are, Dear Sir,

Yours truly,

Mr. S. E. Woods,

The Retreat, York.

Dear Sir,

We received your telegram yesterday & letter this morning, & we are much obliged for the order for the new boiler, according to our quotation. We cannot say what the cost of fixing & connecting the boiler will be, but we shall simply charge for our man, most carefully, according to the time he takes, & for any fittings that are required, at their lowest value. We should suppose that £ 5 or £ 6, as named by you, will more than cover the cost, but we notice that you require fittings for the boiler, which we conclude means a complete set, including furnace front, fire bars, bearing bars, & soot doors etc, but probably not a damper. On reference to the makers book, we notice their price for a complete set of fittings for this boiler, is between £ 3 & £4, we cannot tell the price exactly, the boiler being a special one, we will however charge as low as possible for the fittings, but if this amount is to come out of the sum you name, we are afraid there

(over)

is not much chance of the total cost not exceeding the latter. *Slightly*

We are having the boiler put in hand to-day, & will send it off as quickly as possible.

We are, Dear Sir,

Yours truly,

*J. S. Richards & Co. We understand our man that fittings were not raised to this and he supposed the old ones would do, hence our blame for not naming them in our tender.*

THE RETREAT,

16/9/92

Dear Mr Rowntree

- The Grocery Contract will expire with the Current month. I think there should be an improvement in the manner in which the supply is arranged for, if I may be allowed to say so. It occurred to me that seeing there are now four Grocers (Friends) much on an equality as to supply - Messrs King, Comins, White & Robinson, it would be well to ask each, what discount from retail prices would be given for our complete orders to each in turn for 3 Mos (payments monthly as now) I therefore did so unofficially

received prompt replies from two, offering a discount of  $7\frac{1}{2}\%$ . The third has written me today offering the same & this rate strikes me as a fair one. I am to have the reply of the fourth by Monday Morning. I have seen Mr Thompson our Treasurer, who thinks favourably of it I believe, subject to any modification or improvement, which may present itself to his mind by Tuesday the very suitably suggested my writing to you, that you also should consider it. I hope to have a little time with you before the Committee Meeting on that day. The supply might be for 1, 2, or 3 Mos at a time, the Committee

Having the option of dropping  
either name should supply  
be unsatisfactory. By the  
foregoing we should secure  
a uniform discount of fair  
amount, instead of contract  
prices for some half dozen  
leading things, the remainder  
being uncovered by any  
specific rates, it is  
rather difficult to contract  
for the sundries we require  
satisfactorily.

With kind regards,

Yours faithfully

As regards the terms I wish to say that I shall be glad if you can arrange that they shall not exceed £3. 10s. a week

Mr Brown is now and always has been perfectly harmless both as regards himself and all who have had to do with him: his mania is that his soul is lost and that he must do certain strange things in order to save it, and wishes to be where he is not.

The Account for "Medical Supervision" is I think open to two questions. One, the apportioned figures £40.7.6 & £28.17.0 should I think be £39.9.0 & £27.18.11 respectively.

The other is perhaps a matter on which I should address Dr. Baker - viz that for what is done, the fee is too large.

In the fact the arrangement has borne too heavily on Mr Salvin, and I venture to think that if Dr Baker had made it on his own account, he would have recognized this fact and not insisted on payment without abatement or allowance. The Retreat, York

I have this day (7<sup>th</sup> day of October 1892) seen and examined the above named patient, and I find her present mental & bodily condition to be as follows.

She is irritable & morose, & often declines to answer when spoken to. She complains of her relations & does not want to see them or any of her friends. She prefers to be alone, and dislikes associating with other patients whom she says smell badly.

Complains of the soldiers in the barracks (about quarter of a mile distant) says they are frequently photographing her. She keeps her blinds down to avoid the flashes of their cameras. She says the soldiers are idle fellows, & wishes for a war to kill them off. At times she is noisy, & very abusive.

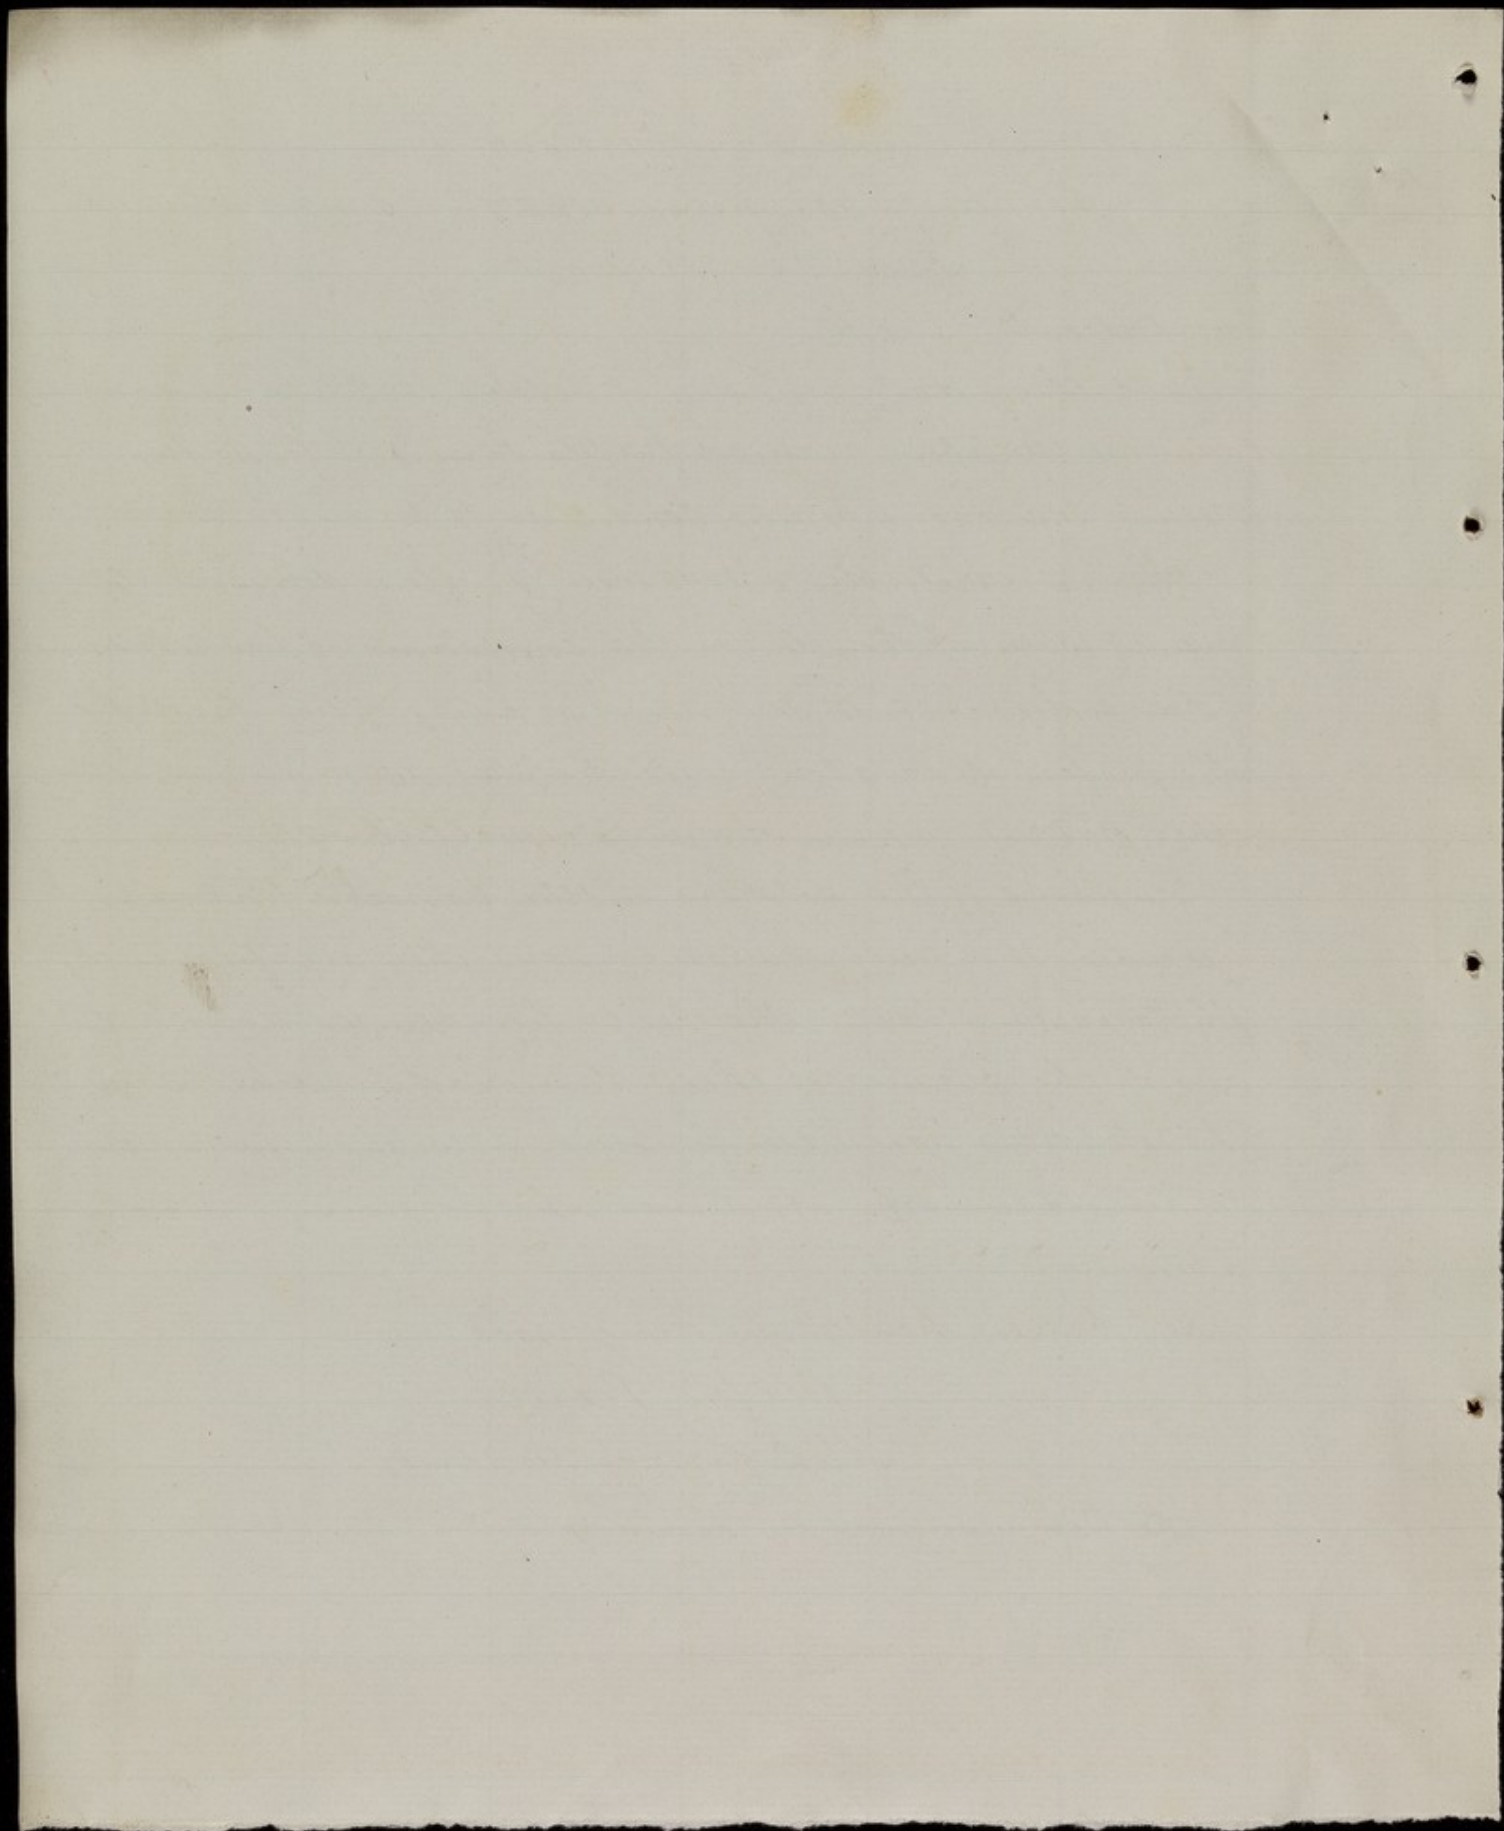

Her bodily health is very good.

Dear Sir.

Bow. Please send to Mr W. Hutchinson, Gunby, cheque £24.0.0, for bow which he has bought today. I do not know sellers name, but if made out to Mr Hutchinson, he will endorse and deal with. If you write note to Mr H. and send cheque with it, I can sign the cheque and post both.

Mare. Mr Hutchinson has also bought a mare at £44"10"0 nett, for which you can send me cheque. It can be made out to Mr ~~Fordington~~<sup>do</sup> Fordington, the Vet. Surg. to whom I will hand it for payment when he has passed the horse as all right.

Both cheques will, of course, require the signature of some other member of the Committee. Please have this obtained before sending to me.

Dear Sir, I am sorry to say I cannot alter the conditions of your account, that is, I cannot subject it to any discount. The price of our gas runs from  $2\frac{1}{2}$  to  $2\frac{2}{3}$ , & yours is charged upon the lowest scale at  $2\frac{1}{2}$ , & this is the main item in your account. Then in the case of gas Fittings & Gas Coke, you are charged upon the same scale as the rest of our customers, but in the case of Coke I find you are charged cartage at  $2\frac{1}{6}$  per ton. Now I will, with your Coke, have the time exactly tested for delivering it, & as we do not want one penny profit upon cartage, I will see that you are charged strictly at net cost to us, & on the face of the charge,  $2\frac{1}{6}$ , I think I shall be able to make you some reduction. In fact, I feel sure I shall be able to do so, & will promise you that I will go to the very bone.

Yours faithfully

In my letter of Oct<sup>r</sup> 14<sup>th</sup> I said that I thought I should be able to make you some reduction upon the cartage of your coke. A test was made this morning, and, although it does not show 6<sup>d</sup> per ton, even as I said to go to the very bone, however to meet you in this instance I will reduce the charge from 2<sup>1</sup>/<sub>6</sub><sup>d</sup> to 2<sup>1</sup>/<sub>9</sub><sup>d</sup> per ton, and this I trust will be satisfactory to you.

Dr Sir

I should consider it a favour if you could inform me whether the sum of £600 was invested in the trust of the Retreat of York by the Trustees of Robt Elam of Roundhay Leeds in 1826 or about that time. Also if the money is still in the Society's hands, & to whom the interest is paid.

I am in search of

the descendants of the afore-named Robert Elam & should be glad if you could afford me any information by which I might trace them. As he & his family (brothers & Sisters) were members of the Society of Friends perhaps it may be in your power to refer me to place, or district where I may learn some of his history. If I could find the parish record of his nativity, or death this would greatly assist me, <sup>especially</sup> if I could trace his lineage downwards in bringing to his descendants

an interest of which I  
think they are little aware.

Any information you  
could tender would

Dear Sir,

I do not find the Plan of Blandsdale's Fields to be in my possession, but I have a traced memorandum of it, copy of which I enclose. The circumstances are so altered now, - Mr Larrar's Field being bought by Mr. Crumbie, and the Field adjoining the Convent bought by them, - that this Plan is of little value.

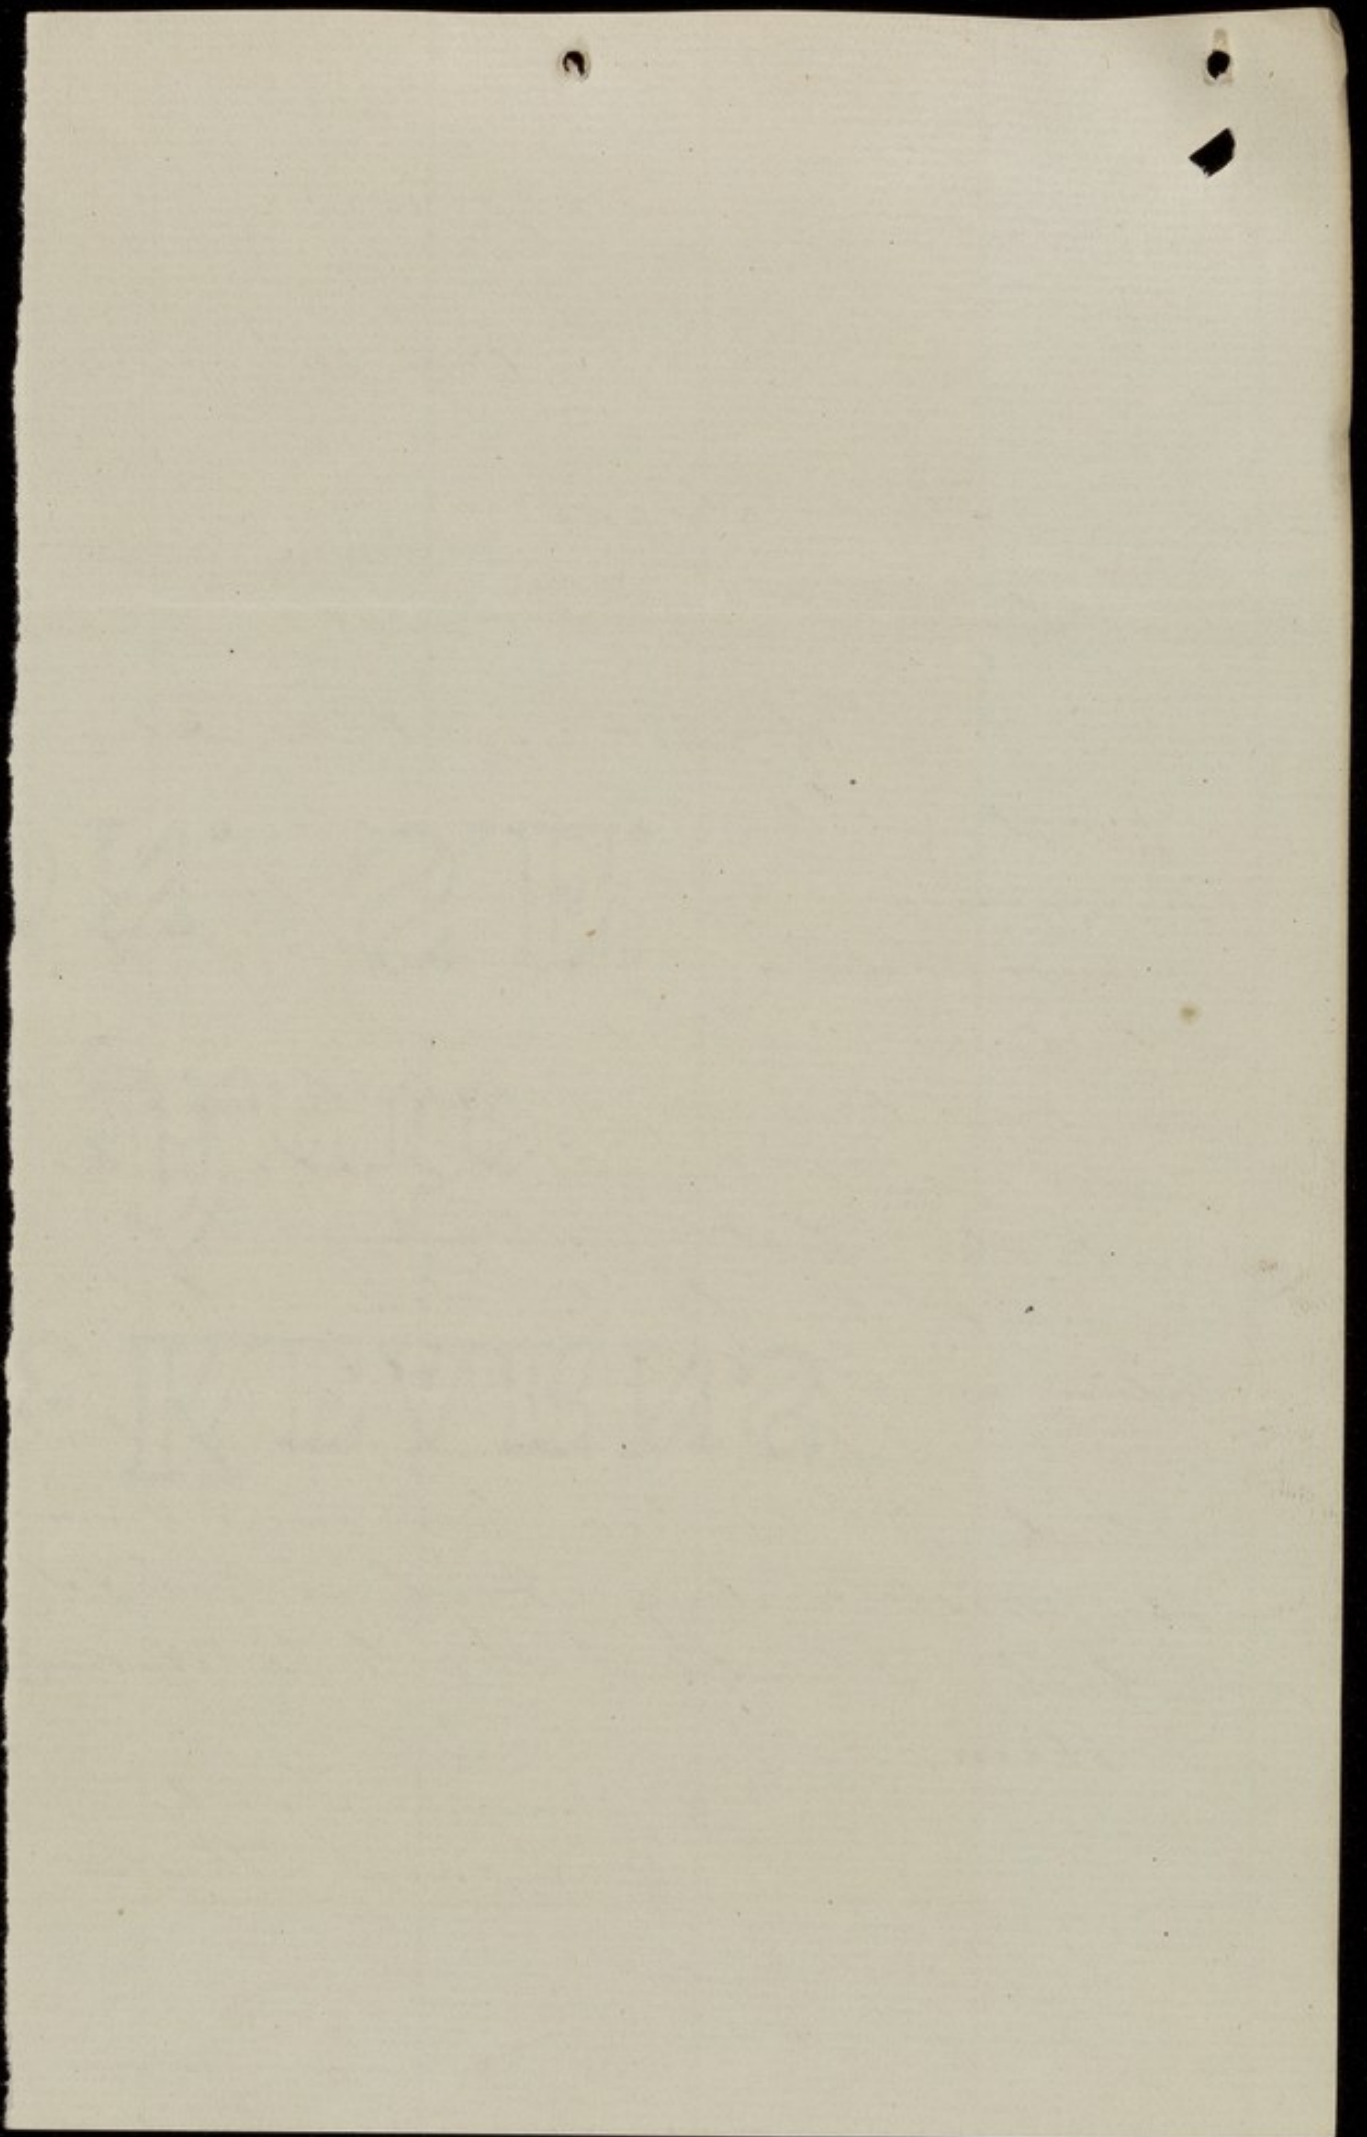

I have come across a plan which Dr Butler borrowed from the West Riding Asylum, Wakefield which should I think be returned to them.

Dear Woods

I do not think I ever knew why  
the certificates in Mr Leopeland's case  
were ruled out of order and do not know  
all the circumstances and therefore I  
cannot give you any really valuable  
clue. I should think however, that  
~~the petition was not presented~~ it was  
because the petition was only presented  
subsequent to the patient's admission to the  
Refuge. When Dadmit on an urgency  
order Dalway advised the friends to send  
the petition and accompanying  
certificates filled up ready for  
presentation at the time the urgency  
order is signed and I have never had  
any trouble. - ~~The urgency order's~~  
petition is pending when the patient  
is admitted if that course is

adopted. I have never had certificates  
disallowed in these cases yet.  
I should think there can be no doubt  
as to the liability of the certificates  
were held out of order by the  
Commissions. Wilson managed  
the matter and he should be able to tell  
you all about it. Baker was at  
home at the time.

Sir Joseph Lemy spoke to me on  
Friday about your letter to him  
concerning Drumbry's charges. I told  
him very strongly that I thought the  
charges should not be made and  
that it was adding an additional  
weight to an already grievous  
burden if they are inserted in. I  
also told him I would not myself  
pay any such charges or advise  
friends to do so. Let me know the

I thank you for the kind interest you took in my letter. I am glad to say that I have been fairly successful since hearing from you. I have traced one branch of the family, namely the Storrs who were Cousins to Robert Elam. I had a personal interview with a grand child of Joseph Storrs mentioned in Samuel

Will, on Saturday last. Through "Devonshire House" I have secured a list of the Elams.

I should like to trouble you a little further by asking the favor of the date of discontinuance of payment of annuity to Joseph Elam of Plymouth, if he outlived his Cousin John Em, also the address of one or both so that I may see up to how late they were residing in the districts where the money would be sent, if possible trace any children they may have left.

I shall be glad to let you know of any further success.

Dear Sir,

We are in receipt of yours, & cannot at all understand how it is that the new "Atlas" boiler is smaller than the old one, as it was ordered from the same trade firm who made the previous old "Atlas" boiler, with instructions that they should make it exactly to the same sizes. We sent them moreover the sizes taken by our fitter, which were taken as accurately as he could, & we therefore think you surely must be mistaken. However a few inches will not affect the heating power to any material extent, but we regret if it will cause any more alteration in the brickwork than was anticipated. Perhaps when our fitter arrives you would get him to look into the matter & see if he can account for the difference, & communicate with us.

We remain, Dear Sir,

Yours faithfully,

Dear Sir,

We were surprised & annoyed to see our fitter (J. Burrell) & Saturday, & you will know the cause of his having to return to Darlington viz.- that unfortunately he made a mistake in measuring for the new "Atlas" boiler, so that the latter has been made specially & supplied too small. This is most unfortunate both for you & for us. So far as we are concerned, we presume that the boiler will now be thrown on our hands, & seeing it is a kind of boiler we hardly ever use, we shall probably be unable to dispose of it for many years.

On the other hand, we are exceedingly sorry to have caused you any trouble & delay through our fitter's mistake, but we might mention that he is a thoroughly competent man, has been with us for 20 years or more, & so far as we know this is the first mistake he has made in measuring for a new boiler, although he has taken particulars of a very large number.

We will quote you in a post or two for a boiler of the right size, delivered carriage paid, & meanwhile.

not find this out before.

The extra cost to us of this boiler will be £2, & if under the circumstances the Committee can see their way to allow us this extra price, we shall of course much appreciate their kindness, & we are certain that they will then have got very good value indeed for the price paid.

We shall still be at a loss of nearly £ 3 on the first boiler made by having it to return to the makers, which we think it better to do rather than to take it into stock ourselves, & we shall be at a further considerable loss in the expenses of our man in the matter. We are however responsible for all this, & extremely regret the inconvenience which we fear must be caused by the delay in having the new boiler fixed.

We are telegraphing to day to have it put in hand immediately, & sent to The Retreat in the shortest possible time.

Dear Sir,

We are to-day in receipt of a letter from Mr. S. E. Woods, Secretary, The Retreat, York, in reference to this unfortunate mistake in the size of the new boiler which we have sent to replace the old one at the Retreat, & he asks us to write per return to you stating the extra price of the new boiler yet to be sent for the first one already delivered.

On looking into our original quotation for the boiler, we find we did not quote for any particular size, but for a boiler exactly like the old one, the price to be £ 16.10.0. We therefore acknowledge at once that we have legally no claim whatever for any extra cost of the second boiler. We would however bring to your notice that you have proof in our having delivered the boiler originally quoted for at the Retreat that it was the one we intended to supply, & of course our man had given us particulars, & we know that the price we quoted was a very low one for that size of boiler. The man we sent to take the particulars has been with us many years, & is a thoroughly competent man, but unfortunately he has in this case made a stupid mistake, although we acknowledge it would be difficult for him to get the exact size of the boiler while surrounded with brickwork & with a fire unit. When we asked the makers for their price for that boiler, we said we believed they were the makers of the original boiler, & we hoped they would be able by referring back obtain full particulars & quote for exactly the same, in any case our man might not be correct in some matters of detail, but at that time they could not find the particulars wanted, although they felt pretty certain they supplied the boiler.

We have to-day received a quotation for the larger sized boiler, & they say they have now discovered the information wanted as to the previous boiler, & they quote for one exactly the same, the former having been made in April of 1886; it is unfortunate for us they did

Dear Sir,

We are today in receipt of a letter from Mr. J. J. Wood, regarding the receipt, work, in relation to this boiler. The size of the new boiler which we have seen to replace the old one at the present, we take on to state per your letter. The price of the new boiler to be sent for the first one is being delivered.

On looking into our original quotation for the boiler, we find that we have quoted for a boiler of size, but for a boiler of size, the price to be £1,100.00. We therefore acknowledge that we have not had regard to the extra cost of the boiler. We would however bring to your notice that you have not in our having delivered the boiler originally quoted for, the fact that it was the one we intended to supply, & of course our price given as previously, & we have then the price we quoted was £1,100.00 for that size of boiler. The fact we wish to state is that we have been with us many years, & is a thoroughly competent firm, but without being in our own minds a capital concern, & should be considered as well as difficult for us to get the exact size of the boiler with dimensions and work with a fine line when we quote the price for that boiler, we said we intended only to quote the price of the original boiler, & we hope you will be satisfied with our price for the boiler. It is our policy to quote the price, in any case our price will be the same as the original price, but we will not take any further charge.

We have received a quotation for the first one of boiler, and we have also received the quotation for the second one. We have also received the quotation for the third one. We have also received the quotation for the fourth one. We have also received the quotation for the fifth one. We have also received the quotation for the sixth one. We have also received the quotation for the seventh one. We have also received the quotation for the eighth one. We have also received the quotation for the ninth one. We have also received the quotation for the tenth one.

We are sorry to hear that you are having trouble with the boiler. We will do our best to help you. Please let us know what the problem is. We will try to solve it as quickly as possible. Thank you for your letter. Yours faithfully, Chas. Leomans Ltd.

Dear Sir,

We are obliged for yours re the new boiler, & we are writing to Mr. Yeomans fully on the subject of the extra cost named, which we find will be at least £ 2 to us, besides the loss of several Pounds in returning the first boiler to the makers, & having to accept what they will allow for it, as it was specially made & is somewhat unsaleable. We have also the loss of our man's time & expenses, but all this we are responsible for, & are extremely annoyed at the stupid mistake he made.

On reference to our quotation of £ 16.10.0, we find we have no legal claim whatever for the larger sized boiler, as we fully trusted in our man's correctness, & that the quotation we had from the makers was for the same thing. They have now found exact particulars of the original boiler, which they say was supplied in April 1886, & they will make the one now ordered exactly like it. We are telegraphing

Mr. S. E. Woods,

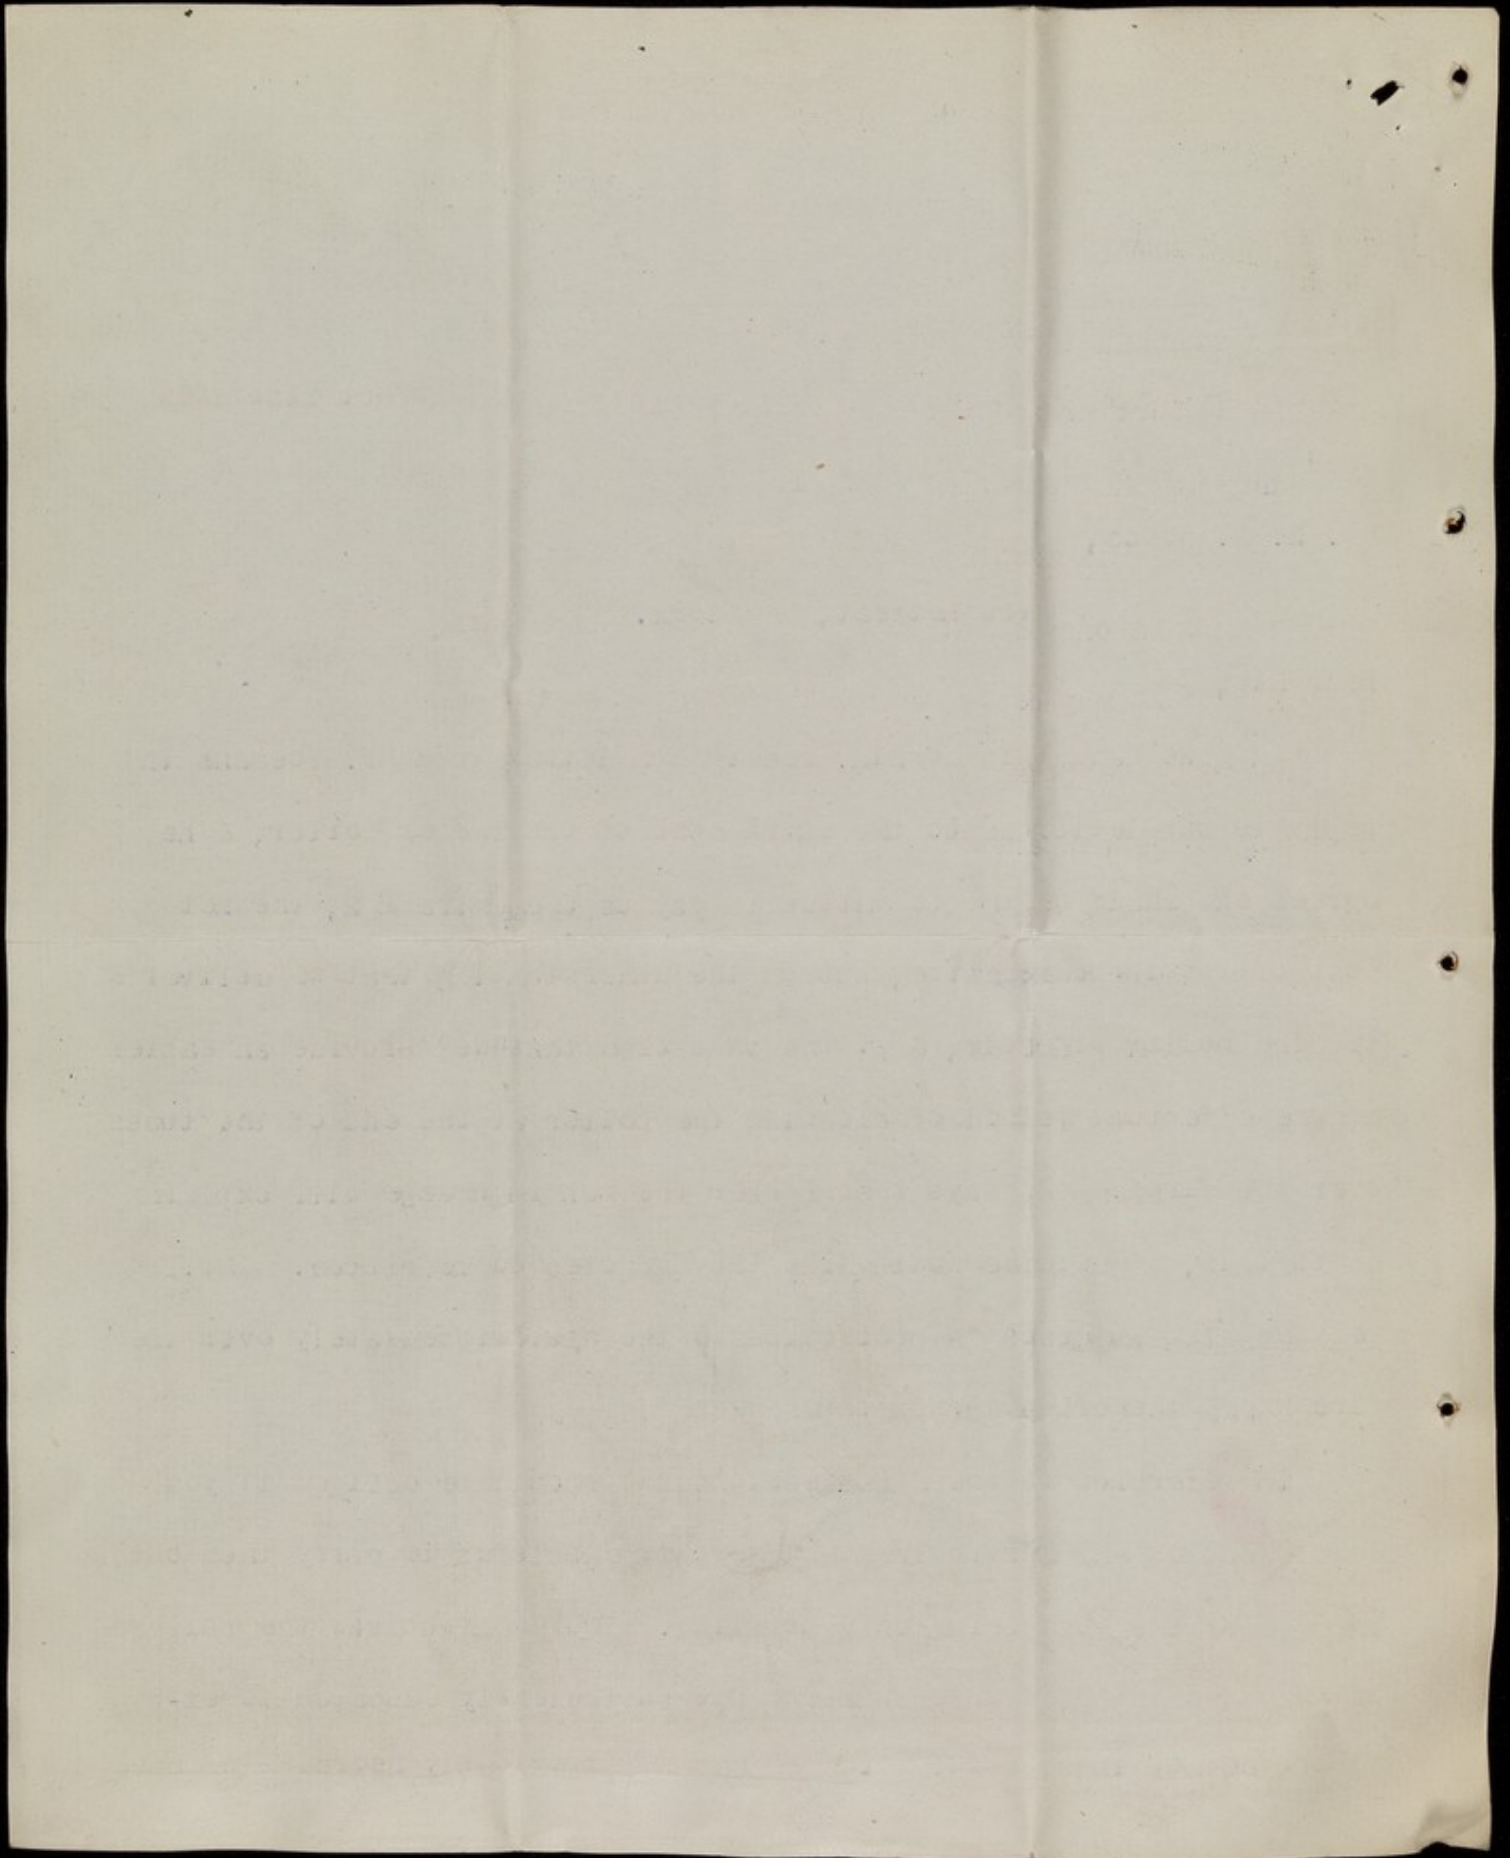

The Retreat, York.

Dear Sir,

We have this morning received a letter from Mr. Yeomans in reply to our letter as to the extra cost of the larger boiler, & he agrees on behalf of the Committee to pay us the extra £ 2, the net cost of its increased size, but on the understanding that we deliver & fix the boiler promptly, & at the same time that we "Provide an easier & more effectual method of cleaning the boiler at the end of the tubes over the fire". He says that Parker the man in charge will explain as to this, & where he would like the manholes to be placed. Mr. Yeomans also suggests "A protection to the plate immediately over the fire where the cracking has taken place".

In reference to these suggestions, we should be obliged if you would send us any particulars which would enable us to carry them out, in case of the cost being only trifling. Our man who saw the boiler is away from home, & unfortunately not sufficiently educated to explain these things, about which we had not previously heard. We have

W. RICHARDSON & Co.

(Mr(S. E. Woods.)

however written to the makers to delay the boiler a day or two until they hear further about this, & we have also asked further what they can suggest in the matter, but if the £ 2 is to include all this, it is of course not exactly making us the allowance which we had hoped, because it is only natural that these additions will cost something, & whatever it may be, we shall have to charge for them extra, still hoping that the Committee may make us the allowance before named, but as to this we are entirely in your hands.

Mr. Yeomans also says that "It is of course understood that the cost of fixing & extras are not to exceed £ 5". As to this, our original letters will explain. We are not writing back to Mr. Yeomans, because he asks us to write direct to you.

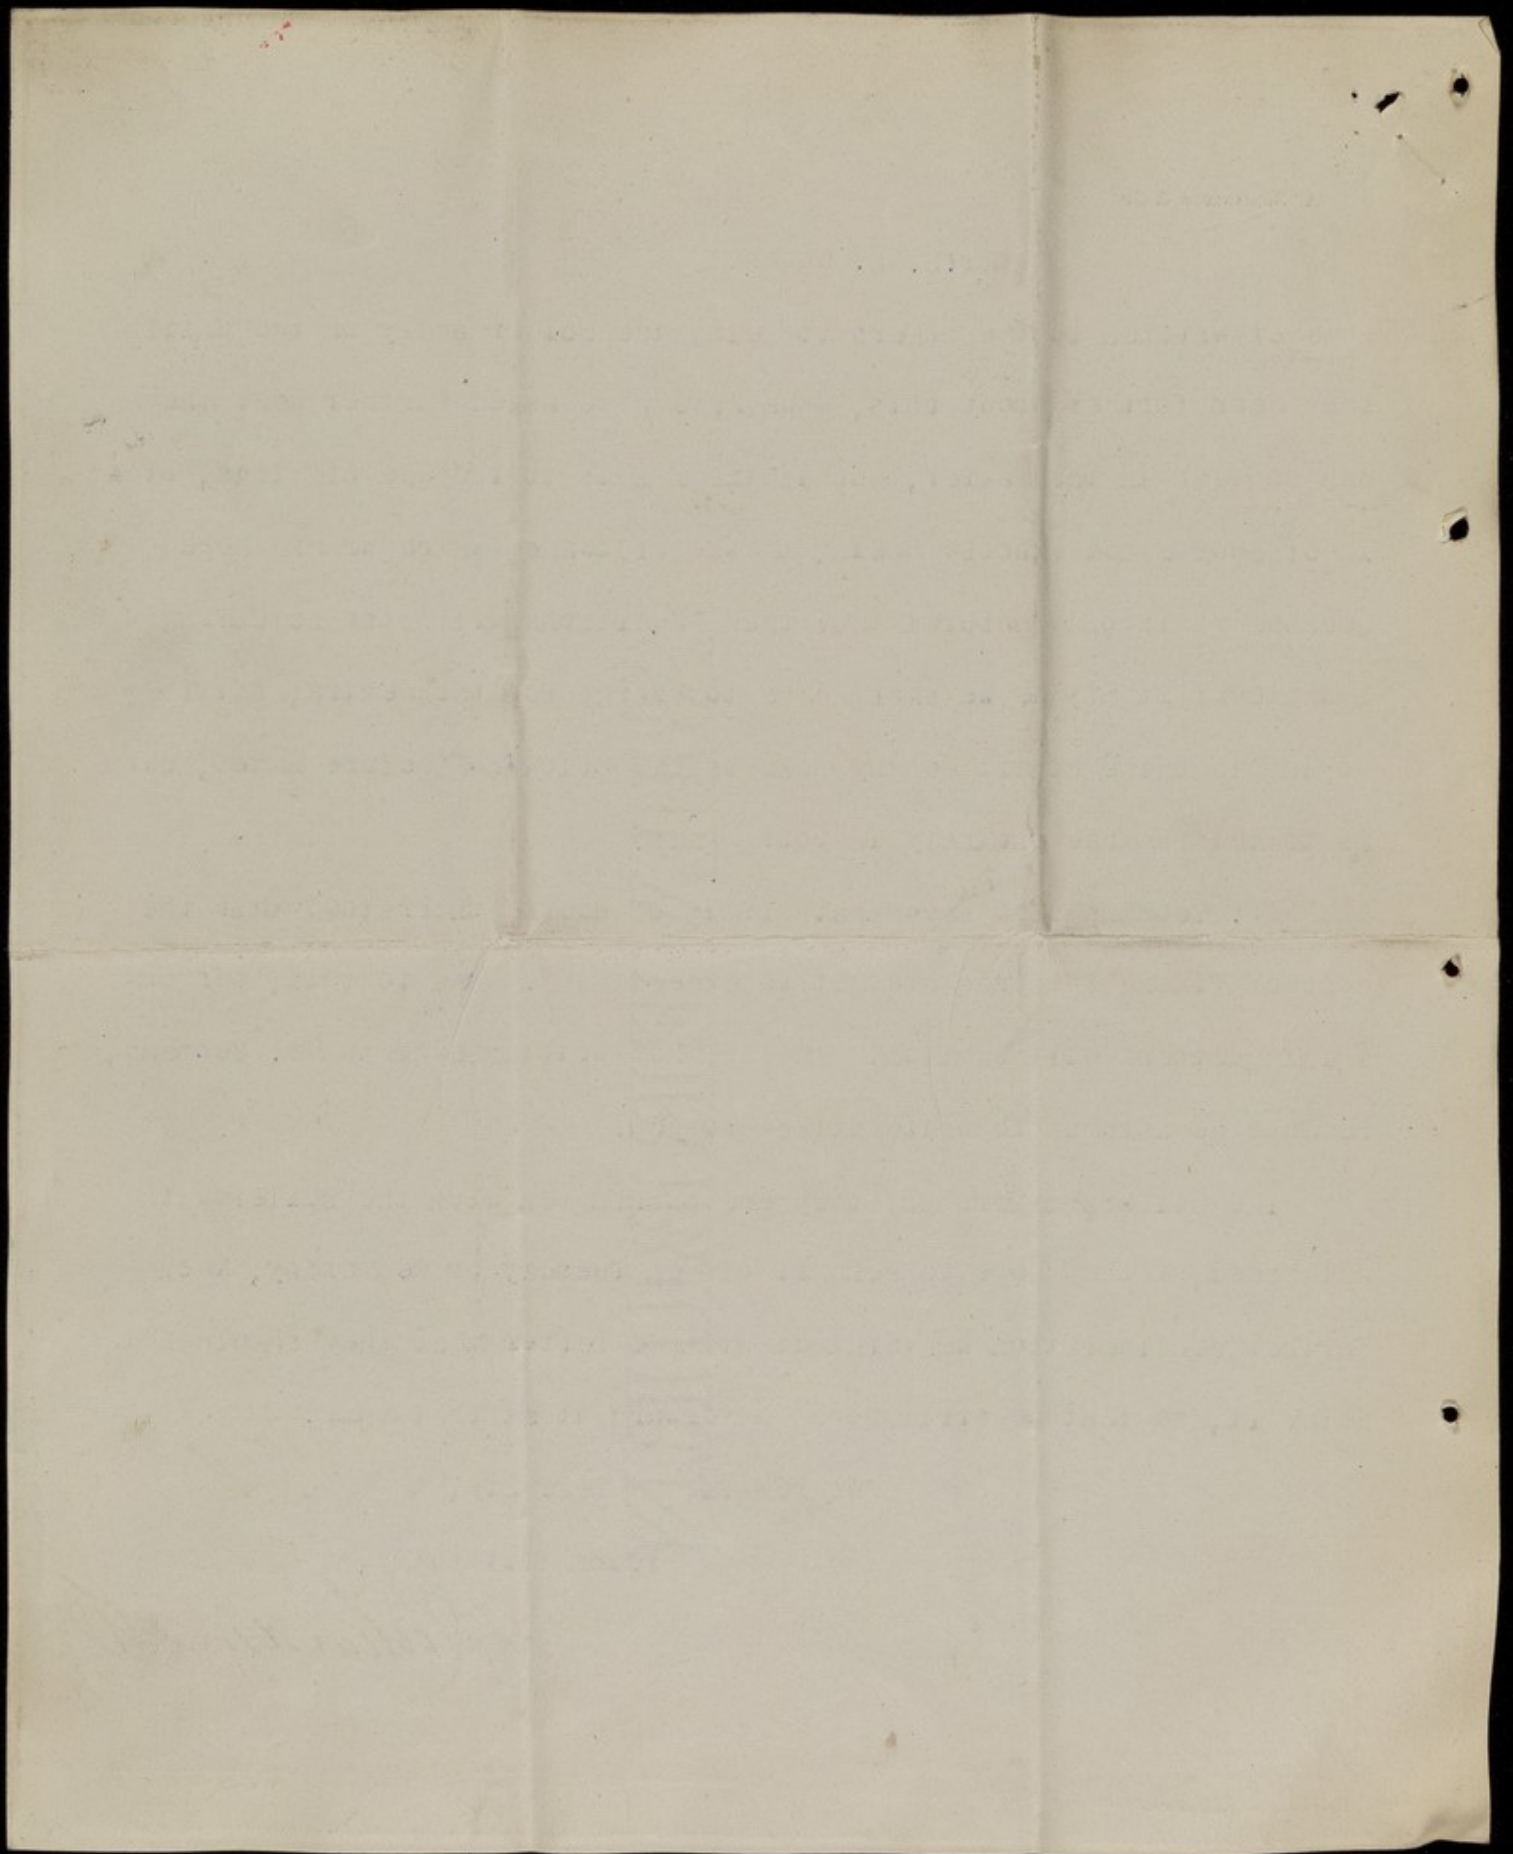

The boiler makers say they are pushing on with the boiler with all speed, & they hope to send it off on Tuesday or Wednesday, & on further consideration we think it will be better that they should not delay it, so that we still hope to forward it at that time.

We remain, Dear Sir,

Yours faithfully,

Mr. S. E. Woods,

The Retreat, York.

Dear Sir,

We are in receipt of yours with suggestions as to manholes etc to be made in the new boiler, so as to enable you to clean it out more easily, & also to protect certain parts. We are not quite sure that we clearly understand some of these suggestions, & we are therefore sending on your letter to the makers of the boiler, who will most likely understand them, & will let us know at once whether there will be any difficulty in carrying them out, & what the extra cost will be. We did write to the makers last week about the covers opposite the tubes, & in some other parts if desired, the cost of which will be 4/- each. They regret however that they cannot suggest anything in the way of protecting the plate immediately over the fire, the only way to prevent the possibility of this cracking being to have the boiler regularly cleaned out, & thus avoid any incrustation from the water.

We regret that these little matters will necessarily delay the

(over)

boiler, but we conclude that you would prefer this to having it sent without these improvements.

Immediately we receive further information from the makers we will write you again.

Dear Sir,

We have this morning heard from the makers of the new "Atlas" boiler, saying that it would certainly be well to have "mudholes" as shewn in your letter of the 23rd. inst., & in addition to these they suggest one at the end of each tube, & one for the arch, six in all. The cost of these would be 4/- each net extra, as named before, & they say they think they would suffice to thoroughly clean out the boiler.

They go on to say they can make a cast protecting plate as shewn in your letter, & they think this would cost, including the pattern, about £ 1. Owing to the cost of this latter being so much, we are at once writing them saying they need not make this, but that you will agree to have the six manholes they recommend. In case we have done wrong, kindly wire us immediately on receipt of this, but we feel sure you will find the advantage well worth the cost.

Dear Sir,

We have just heard from our fitters, who are working near Easingwold, & who have instructions to fix your new boiler, saying that they are afraid it will be Tuesday morning at the soonest before they can possibly finish & leave for York. We have at once replied asking them to work late, & if possible to get away earlier, & we regret that there should be any delay now that your new boiler has arrived.

While writing, we take the liberty of asking how it is that your engineer has returned the boiler to us here which was supplied of the wrong size ?. We believe you were aware that this boiler was supplied direct from the makers in Halifax, & the carriage from York to Darlington & back again will be a serious item. As the mistake seems to be your own, we should feel obliged if you would let us know what we must do about this.

Dear Dr. Pierce:

You are aware  
I believe that a  
question has arisen with  
respect to my brother  
W. P. Thompson; it being  
the opinion of Dr. Baker  
that the time was come  
for him to be given a  
trial outside the Retreat.

You may possibly  
have heard from Dr.  
Baker that whilst  
we his family are quite  
willing to contemplate this  
step under due safeguard,  
we are not prepared to  
consent to the immediate  
cancellation of his certificate,  
having very good reasons

for thinking this step to  
be highly injudicious, and  
indeed wrong.

Under the circumstances  
we trust you would not  
raise any objection to  
our calling in an  
additional professional  
opinion: and, should  
you be agreeable I propose  
to ask Dr. Hack Tuke, who  
has known our family  
for many years, to advise  
with you on the matter.  
I have indeed already

That I have been spared to provide  
all that was necessary to make  
her as comfortable as circumstances  
would permit. If she had outlived  
me, it would, probably, have been  
a serious matter for her.

I hope never to be afforded  
the opportunity, but if I am  
I shall always strongly recommend  
the Retreat.

Dear Friend

May I ask thee kindly to send me the last Report of the Friends Retreat also the lowest price charged for patients & what is necessary to do to admit get a patient admitted.

I am very anxious about a young woman friend of mine who has been growing mentally worse for some months believing that it is not safe for her to live longer at home & that the wise management at the Retreat might with Gods blessing restore her.

1/18

Her bodily health is good but she is quite past any control from her sisters who keep a day school <sup>for young children</sup>. They are all members of our Society & are becoming worn out with the anxiety caused by their poor dear sister. Their circumstances are very limited.

I do not mention the name as I cannot yet find them willing that she should go to an Asylum though they feel

something ~~should~~ must be done. So I write for this information on my own account thinking it might help, after mentioning the case to our friend J. A. Luke

I am thine truly,

Jane Hanson

the cost in your next quarterly  
Statement I shall be quite content.

I am pleased to hear that  
the patient is much better  
just now than sometimes.

I am glad that you can  
report so favorably as regards  
yourself and M<sup>rs</sup> Pierce.

With kind regards

I remain

Yours very sincerely

I am sorry to say  
we had to take Mr. Beet to

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above mentioned matter. I have the pleasure to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,

Dear Bedford Peice

I have a patient at  
Virginia Water, a young American  
Friend, with congenital excentricity  
quite easy to manage, - he is in  
No. 4 Gallery there, - intermediate between  
the convalescents & the refactory.

His Father has lately died & I think  
the relatives will have to curtail the  
expenses - we are paying 12 guineas  
now, besides extras say £5 a quarter, -  
and I think we could get the  
rate reduced to 25%.

I am writing to you to  
enquire whether, if the relatives  
desired it, there would be a  
probability of his being admitted  
into the Retreat at a low rate.

172

Although a member of the Society  
he is not a member of any English  
meeting. The relations <sup>in America</sup> are

now considering what to do for  
the patient, and I want to give  
them all the information I  
can. It will be an advantage

if I can tell them what would,  
probably be the lowest terms on  
which he could be admitted to the  
Retreat.

I hope Mrs. Pease and  
yourself are well & with  
kind regards remain

always saying he should  
like to have who signed

afraid if he finds out it  
was I who signed it he

says when the other is

Dear Mr. Pierce

I left Scarborough  
yesterday afternoon  
I am hoping to re-  
turn on Saturday. I  
wish to sign the certi-  
ficate on Tuesday next.  
Mr. Baker said I might  
do so by course if  
Captain Beverly should

Become troublesome an attendant could easily be got gain - At present I don't think he requires one, & it is only an annoyance to him - If you will kindly let me have all bills &c. I will pay them so I don't like accounts running on. The three bills I sent - were quite correct - those are the only ones I have seen, but I have asked

Mrs Pitt-Rivers before sending the ticket to let me to know if she is in - You see I have all the finishing & everything to look after & expect you - It has fallen very heavily upon me, having no one but my Mother & I help me to run my - & I have never been accustomed to having any thing to look after, every thing

Remain  
Yrs sincerely

Nov 18<sup>th</sup> / 92

Dear J<sup>r</sup> Pierce,  
Thanks for your kind  
letter. I am just in the  
same fix as when I last  
saw you - Captain Beverley  
is continually asking me  
to sign the certificate he  
promises faithfully to re-  
main blue and is just  
to on as usual. I certainly  
have no difficulty with  
him whatever of he says  
he will never get better

until all connection with  
she herself is severed.  
The only difficulty I fear  
is his business. But it will  
have to be impressed upon <sup>him</sup>  
that he cannot go. He  
wishes talk of going yet.  
If it were not for this business  
I would let him come home.  
But if he gets worse, as  
you seem to think he will,  
I should never like him  
to go back to the Fleet.  
He could have private  
attendants & every possible  
comfort either at home or  
take a house somewhere.

Use. To think that all I must  
sign the certificate & take all re-  
sponsibility upon me. O my I should have  
thought that I should have  
to get help from my mother's  
I am obliged to you, but I feel sure  
& can protect him at present. I really  
wonder what the responsibility of  
I thought I should have seen that  
way to act against your advice.  
I am very glad to hear  
of your going to see your  
mother - I shall write again  
in a few days - I shall write again

31st October, 1892.

SIR,

I AM directed by the Commissioners in Lunacy to request that you will have the goodness to fill up the enclosed Return relative to any Criminal Lunatics who are or have been under your charge during the year ended 31st October, 1892. As the Return is needed by the Secretary of State for the purpose of being laid before Parliament, and is required annually, I am directed to beg that it may be filled up with all possible care and accuracy, and transmitted to this Office without delay.

If none of this class of persons have been on the books of your Asylum during the period, you are requested to make a "nil" Return.

I am,

Sir,

Madam,

By direction of the Commissioners in Lunacy, I herewith enclose the requisite consent and form of order (in duplicate) for the transfer of

the Rev. Francis A. Bloodbent  
from The Retreat, York to Canterwell  
House

One copy is to be left with  
Mr. Pierce, who is required by the Act to furnish, free  
of charge, a copy of the Reception Order and documents accompanying the  
same, upon which the Patient was received into his house, the other, together  
with such copy, is to be sent with the Patient, and delivered at Canterwell Ho.

I also send a blank form for Dr. Schofield

Sir,

The Commissioners in Lunacy direct me to thank you for your letter of the 18<sup>th</sup> inst and its enclosures relative to the complaints of this patient. The Commissioners wish me however to call to your notice that the restraint of this patient on the four occasions when he has been fed with the tube should not only be entered, as doubtless it has been, in the Register of Mechanical restraint, but that copies

Bedford Pierce, Esq. M.D.

of such entries should be sent to this Office at the end of the current quarter. The Commissioners mention this as they do not appear to have received copies of any entries in the Restraint Register at the Retreat for the past two quarters.

Presumably therefore no restraint was used during that period.

Dear Dr. Bedford Pearce

Re Sarah Benson.

I have to thank you for forwarding under cover a letter addressed to me by the above who is a cousin of mine and for whom I am now the sole surviving Trustee. She says she is badly off for clothes and among other things wants a good warm winter cloak and asks me to send her £5 to enable her to procure them. There is no difficulty in finding this small amount and I would send her a £5 note at once but I do not know what the Regulations of the Institution may be as to sending money to patients and can easily see that in many cases

it would be a very inexpedient thing to do although in the case of Sarah Benson it might possibly do no harm. I have written to her in reply and sent it in separate cover thinking she would probably prefer this but for your information I enclose copy of the letter.

I think I have understood that when she is suffering from excitement she sometimes destroys her clothes and it may be that this has happened lately but of course proper clothing must either be supplied or renewed as the case may be and I will either send her £5 direct on hearing from you or I will ask you to let the Matron see that she has whatever is proper and you can add the amount to the next account or send me

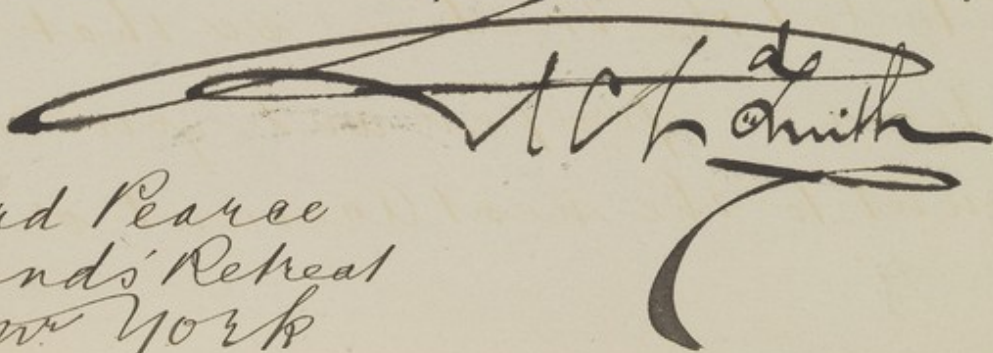

a memorandum at once in which case I will remit the amount. Please do whatever you think best about it.

I do not remember even to have seen my Cousin since she went to the Retreat now many years ago except on one occasion when I had ~~occasion~~ to be there (I think re Walker Woodward) and took the opportunity of speaking to Sarah Benson in one of the corridors

With kind regards and hoping that you and Mrs Pearce are well and that you have no cause to regret having accepted the important post that you now occupy.

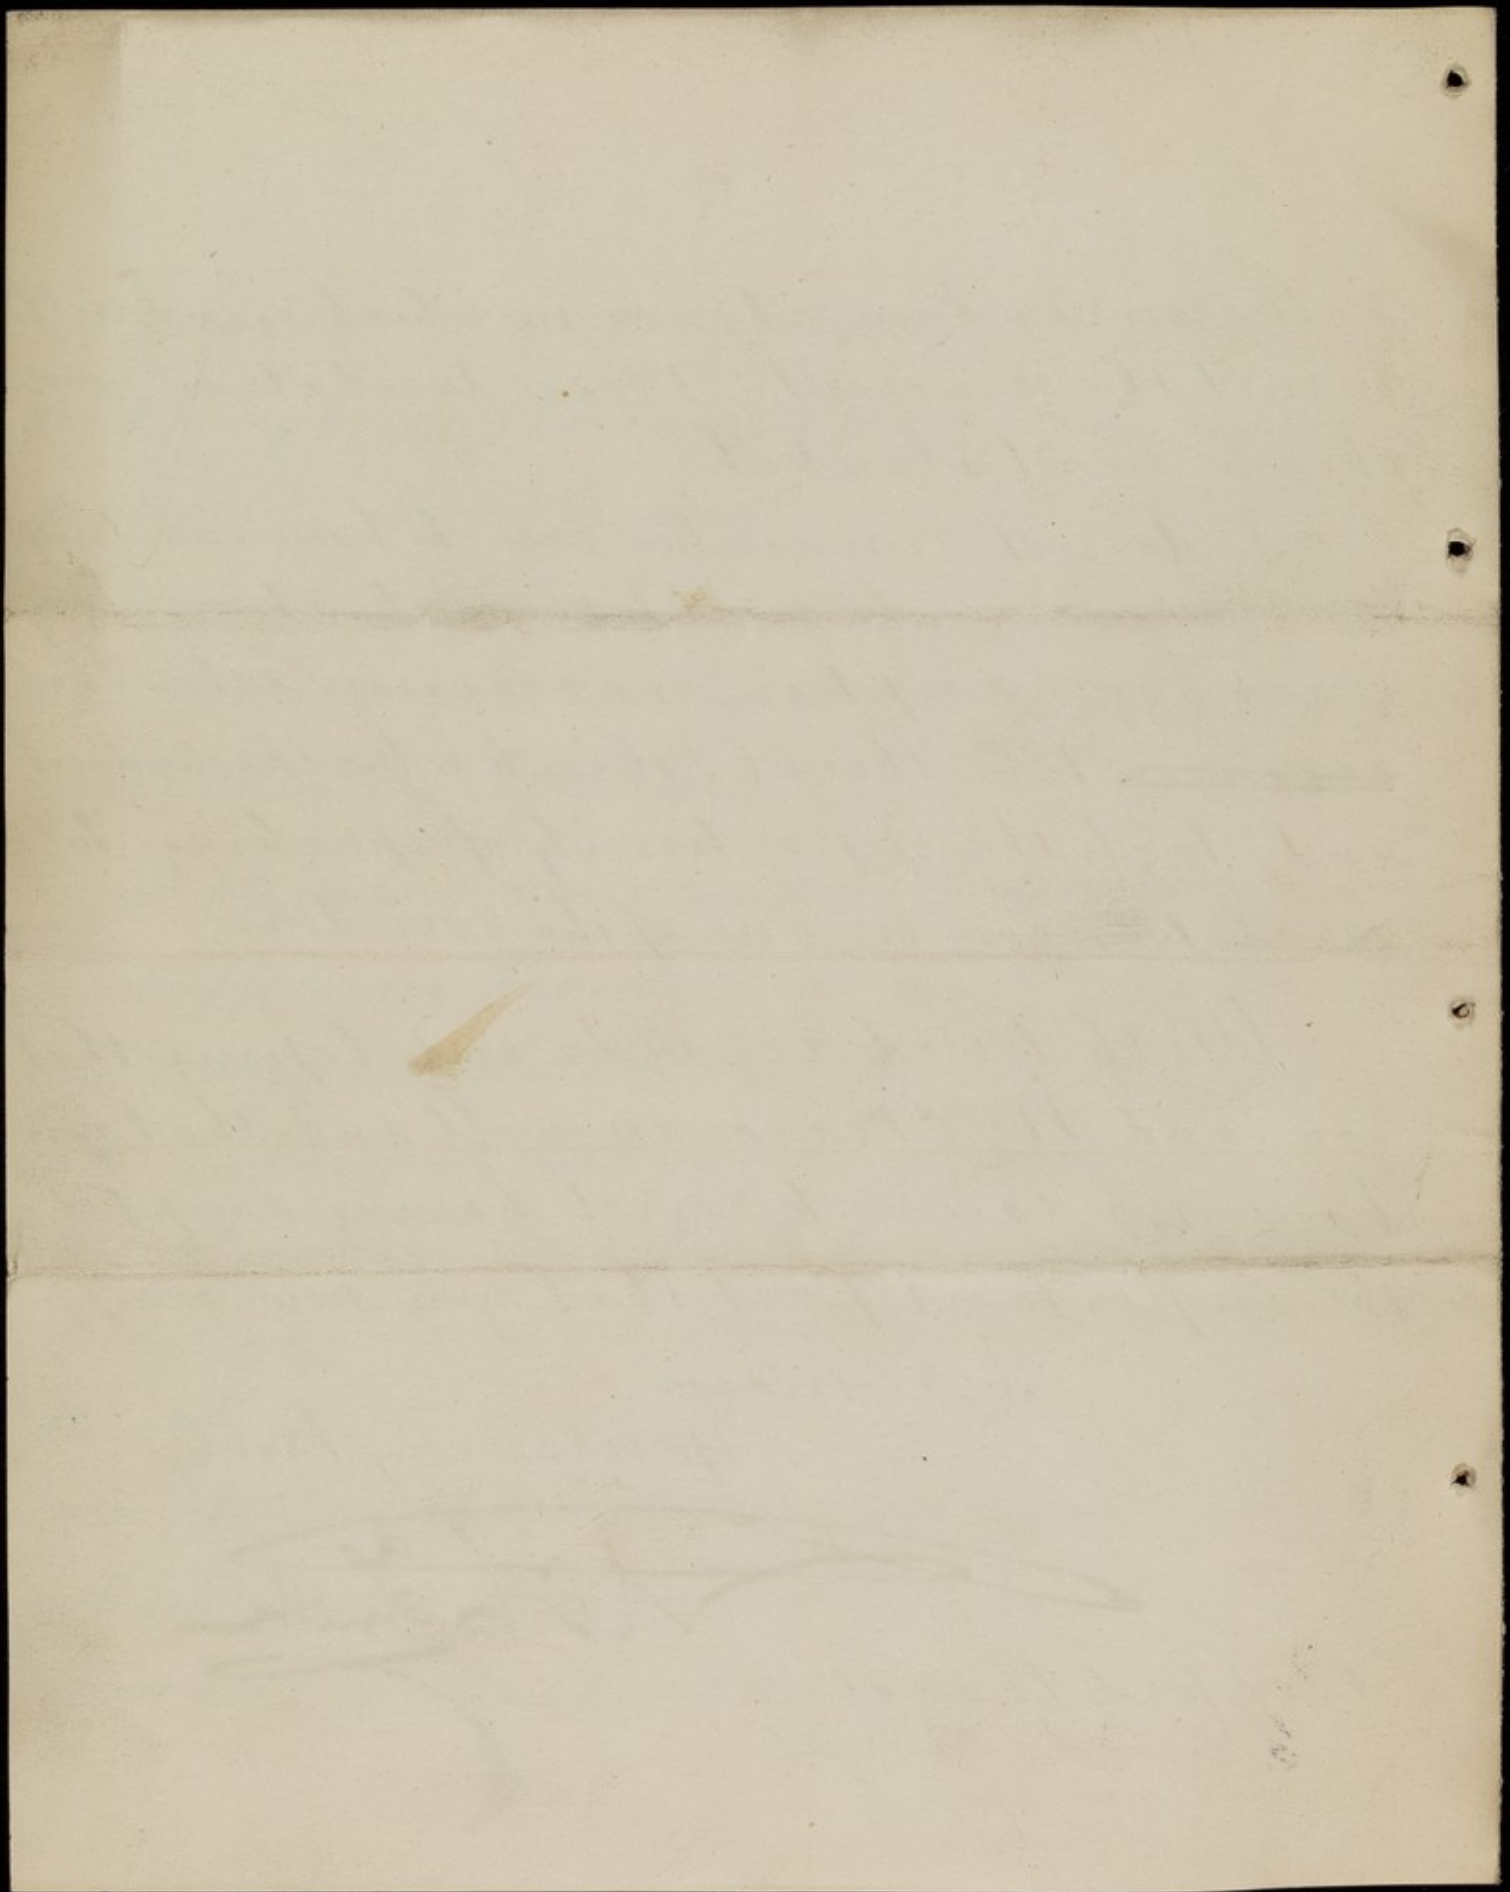

I remain

Yours very truly

Friends' Retreat  
n<sup>y</sup> York

Brighton 3/4/92

Dear Friend

Bedford Pierce

I have been requested by the Overseers of this meeting to enquire whether there is a vacancy at the Retreat for a patient—a member of Surrey, Surrey, Hants & part of Dorset Quarterly Meeting at the lowest rate.

One who joined our Society a few years ago is now

182

requiring treatment and  
to be under care for  
a time.

Sarah Woolven is the  
widow of a tradesman.  
When she married she  
believed her husband  
to be one with her  
in religious interests  
but he got led away  
and took to drinking  
& caused her untold  
distress and his con-  
duct was the cause  
of these attacks on  
the nerves which  
now take the form  
of mental delusions  
and <sup>fits of</sup> hysterical screaming.

One aspect of the case  
has been a great  
comfort. Sarah  
Woolven's quiet trust  
in God has not been  
shaken by all that  
she has gone through.  
She has said in past  
years "My trust has  
kept me from going  
out of my mind."  
This last attack which  
has been coming  
on for several  
months ~~was~~ aggravated  
by living in a house

in which there was  
much noise at night  
and her rest was  
broken. The final  
trouble was the  
illness of the son  
who, with his sister,  
supports her.

Her daughter has taken  
her into the country  
to a life-long friend  
who understands  
her perfectly but  
she does not improve.

I hope you are both  
well and your dear  
little boy also.

I am thine truly  
Mary P. Hoack

99 Trafalgar Street  
Brighton 16/11/92

Dear Dr. Pierce

Thanks for thy  
letter and enclosed directions  
from the Doctor received this  
morning.

We have been making  
what speed we could,  
since Sarah Woolven's re-  
turn yesterday, to  
complete the arrangements.

The Doctors' certificates  
are signed but in

consequence of the Magistrate requiring to interview one of the medical practitioners his (The magistrate's) signature cannot be obtained till to-morrow (5<sup>th</sup> day) morning. We are anxious to carry out the plan for S.W. to go to York to-morrow by the train leaving London at 3.20 to accomplish which it may be needful for her to leave Brighton before the document is signed. In that case we propose to send the papers by post to arrive at York on 6<sup>th</sup> day morning.

Thanks for the arrangements for C. Patching.  
I am Thine Truly Mary P. Hoack

P.S. She hopes that Southamie Patching may stay a day or two <sup>to wait for her in</sup> Worcester S.W. to the prospect of going to York.

99 Trafalgar Street  
Brighton 9/11/92

Dear Dr. Pierce

I have had to delay writing till I heard from Barcombe. The friend (Catharine Patching) who is kindly taking charge of Sarah Woolven is now anxious that the matter should be settled as soon as possible.

We have one of the printed forms (which was sent for for another case & not required at the time) containing questions and form of certificate for the two doctors. These we will get

filled up as soon as possible.

As to the money part of the transaction I may say that the Monthly Meeting will have to do the greater part.

On the recovery of the son, who is now at the Sanatorium, & his return to work he will do a trifle but that cannot be at present - The married son & the daughter will also try to do a little but altogether it will be but a small part of the whole.

Thanking thee for thy letter,  
I am thine truly

Mary D. Hoach

49 Trafalgar Street  
Brighton 10/11/92

Dear Dr. Pierce

I have laid the  
case of Sarah Woolven  
again before the Overseers.  
Their view is that our  
Quarterly Meeting has  
been accustomed to send  
patients to York at the  
lowest rates and they  
do not feel that in this  
case more can be  
guaranteed by them.

S.W.'s son <sup>who resides with her</sup> is still ill

and the daughter has been obliged to give up part of her means of support in order to be constantly with her mother. Both I am sure would desire to help but it is impossible for them to do so at present.

I am a little perplexed about the certificates. Our friend Robert Horne Penney (the convenor of the average) thinks that it cannot be required that we should go to the cost

of the medical certificates till we know that the Committee will accept the case. Kindly telegraph on receipt of this to say whether this is so and <sup>also</sup> whether the first part containing the questions is to be filled up before the Committee if the Doctors' certificates are left over.

In haste thine truly  
Mony P. Hack

99 Trafalgar St  
Brighton 14/11/92

Dear Dr. Pierce

We are much  
obliged for letter & telegram.  
We expect to get the  
necessary medical  
certificates in the  
course of to-morrow  
and next day and it  
is proposed for Catharine  
Patching (an intimate  
friend of Sarah Woolven)  
to go down with Sarah  
Woolven on 5<sup>th</sup> day  
the 17<sup>th</sup> Inst to York.  
C. Patching has known  
S.W. intimately for many

187

years and knows all the circumstances of the first attack & has often been able to help her friend by her presence or by taking her away from the home surroundings.

With regard to the books. Our father Daniel Poyer Hack was for many years the agent for the Retreat in the Quarterly Meeting & used to send the subscriptions until the Committee of the Retreat sent word they did not desire any more should be sent. We see a clause about "privileged Quarterly Meetings". Will thou kindly find out if Sussex, Surrey &c is such.

Thine Truly  
Mory R Hack  
P.S. Is there any place near The Retreat where C. Patching could lodge for one night?

Carr End,  
Reigate.

17 Nov. '92

Dear Alice

I have been asked by  
Brighton Friends to make ap-  
plication, in my capacity of  
Quarterly Meeting Clerk, for  
the admission of Sarah Wood  
at the lowest rate of payment,  
ours being a privileged Qy. Mtg.

Such applications have hitherto  
to be made by Minute of the

Gy. Mty. I do not think  
I have any authority to act  
without consulting the Gy. Mty.

Our next G. M. falls on the  
26<sup>th</sup> of Jan'y.

Will you accept this as  
a preliminary application? I  
have no reason to suppose  
that the G. M. will refuse to  
make the application.

Very truly yr.  
Albert J. Crofford  
Clerk.

Carr End,  
Reigate.

22. 11. '92

Dear Sir

I am in receipt of  
your kind note of the 19<sup>th</sup> inst.  
enclosed in one from Mr Woods.  
I will take care to send a  
copy of the G. M. minute when  
passed.

I am not inclined to give any  
personal guarantee in the matter  
as Mr Woods proposes  
it does not appear to me to  
be reasonable to expect a

189

By. My. clerk to do so.

I. very truly

Abel J. Crossfield

If your Com<sup>tee</sup> is not satisfied it seems to me that the Overseers of Brighton meeting are the right persons to apply to.

Dear Dr Pierce,

We wish to thank thee  
for all the trouble thou  
hast taken in reference  
to our poor friend S. Woulven.  
also I wish to apologise  
for our seeming stupidity  
in giving thee the trouble  
to send telegram - It arose  
from my construing the  
word 'detain' into a  
qualification of "receive".  
instead of as I now <sup>190</sup>  
see it meant, an explanation

or intensification of it.  
I am extremely happy  
the possibility of being five  
minutes too late was  
obviated, and we are  
thankful to hear you  
found the papers. Correct  
and were able at once  
to receive the patient.

I expect you had had  
Albert Brasfield's note  
to our Monthly Meetg.  
Cashier will send the  
quarterly payment as

soon as he knows certainly  
what it will be. —

With our kind regards
