IS THE FINEST ARTIFICIAL FOOD FOR  
INFANTS AND GROWING CHILDREN  
EVER DISCOVERED, AS IS BEING  
PROVED DAILY BY THOUSANDS OF  
MOTHERS ALL OVER THE WORLD. . .

It contains nothing but milk taken from selected cows, scientifically fed on model farms in the finest Dairy section in the world, under the supervision of the Company's Inspectors; the most scrupulous care in every detail being observed from the time of milking until finally canned and sterilized. The process used being the result of years of scientific experiments, our cream is purer, far more easily digested, more economical and better in every way than ordinary milk or cream.

Every can is GUARANTEED ABSOLUTELY, it will keep in any climate. In using follow the directions on the can. Keep in a cool, clean place after opening the can, and only remove the contents as needed. For all culinary purposes it will be found invaluable.

HIGHLY RECOMMENDED BY PHYSICIANS EVERYWHERE as an excellent food for nursing mothers, aged people or those with weak digestion.
