PREFACE.

The Buxton mineral water is discharged from several openings in very large quantities, at the temperature of 82 degrees, Farenheit. It is charged with nitrogen gas in, probably, a larger degree than any other mineral water; being estimated by Dr. Lyon Playfair to contain at the moment of issue no less than 206 cubic inches of nitrogen gas per gallon; and by Dr. Sheridan Muspratt, the most recent analyst, to contain no less than 504 cubic inches per gallon. This gas is presented in water, which has, otherwise, alkaline, earthy, and saline properties, and is remarkably detergent and softening to the skin when used as a bath; while it is free from odour or disagreeable taste, is clear and bright in its appearance, and of a singularly beautiful faintly blue colour.

The medicinal action of the water, whether used as baths, or drank, has been from time immemorial known to be great in relieving or curing all conditions of a rheumatic or gouty character. It is stated by Dr. Jones, so long ago as in the year 1572, that it was then used for the relief of the same ailments as it is at the present time.

Dr. Jones says, that, in his time, Buxton was much resorted to by poor afflicted persons; and, towards the end of the sixteenth century, this was considered to be so serious an injury by the inhabitants of the adjoining chapelry of Fairfield as to render them unable to provide funds for the maintenance of their chaplain, by reason of the urgent and continual claims of the many poor sufferers resorting to the Buxton baths, as set forth in a petition on this matter addressed by them to Queen Elizabeth. These poor persons had been from time immemorial so far aided, as to have had gratuitous baths of the mineral water provided for them; and there seems to have been a fund called the "Treasury of the Bath," by which their pecuniary necessities were more or less ministered to. Dr. Jones writes, in reference to this fund, what may be quoted in this place; "If any think this magisterial imposing on people's pockets, let them consider their abilities and the sick poors' necessities, and think whether they do not in idle pastimes throw away in vain twice as much yearly; it may entail the blessings of them who are ready to perish upon you, and will afford a pleasant after reflection. God has given you physic for nothing; let the poor and afflicted (it may be members of Christ) have a little of your money,—it may be the better for your own health: Heaven might have put them in your room and you in theirs; then a supply would have been acceptable to you."

Beyond this somewhat vague earlier history, there is no record of the Buxton Bath Charity until the year 1785, of which date there is extant a document, apparently an annual report of the Institution; from which time the use of the baths and waters and pecuniary aid had been regularly given to the poor patients until the year 1859, when the Devonshire Hospital was provided for the reception of the patients.

It has been gathered from the annual reports that in the eighteen years from 1820, 14,906 patients were admitted to the benefits of the Charity, of which number 12,608 were discharged as cured or much relieved.

In the twenty following years, from 1838 to 1858, 23,319 patients were admitted; and of these, 16,575 were cured or much relieved; 5,859 were relieved in some degree; and 885 were no better at the time of discharge.

The Devonshire Hospital was opened for the reception of the patients of the Charity in the year 1859. It is the successful result of the conversion of a very extensive range of building, erected and used as stables since the commencement of the present century. The structure, which is of important and substantial character, surrounds a parterre of considerable extent, and contains a colonnade of handsome proportions, is situated on a commanding eminence, presenting views of the town and valley of Buxton, and is near to the baths, the railway stations, and the principal buildings.

From the year 1820, then, to the beginning of September, 1858, when the Hospital was opened, or in 38 years, the Institution had received 38,225 patients; of which number, 35,042 were beneficially treated, and 2,183 were very partially if at all relieved. During those 38 years the Buxton Bath Charity received, on an average, upwards of 1,000 patients every year, and afforded cure or marked relief to 922 of that number. To a very large proportion of this important number of poor sufferers, chiefly from chronic rheumatism, the Charity gave a weekly allowance of 6s. during their stay in Buxton, in addition to all other benefits; until the funds became so seriously impaired, that the weekly money allowance was necessarily reduced to 5s., at which sum it remained until the opening of the Hospital. From the time of reducing the weekly money allowance, the pecuniary prosperity of the Buxton Bath Charity may be dated. The funds accumulated year by year, until the time of rebuilding the Buxton baths on the part of the Duke of Devonshire, when a capital of nearly £3,000 had been gathered together by the scrupulous management of the Trustees. The names may be mentioned, first and particularly, of Bishop Spencer, at one time Trustee and Incumbent of Buxton, and more recently one of the Vice-Presidents of the Hospital; of Mr. Heacock and Mr. Smithers, its successive Treasurers; and of Sir Charles Scudamore, Mr. Page, Mr. Cumming, and Dr. Carstairs,—as being no longer alive to witness and take part in the present development of the Charity; and also in order of seniority as to connection with the Institution, of Dr. Robertson, the Hon. and Rev. F. R. Grey, Mr. Darwin, and the Rev.

R. P. Hull Brown, as still living to rejoice in the well-doing of the Buxton Charity and its Hospital. Of these £3,000, £500 was judiciously expended on the rebuilding of the Charity Natural Baths; the large remaining sum which those baths cost, and the whole cost of the Hot Baths of the Charity, having been paid by the munificence of the late Duke of Devonshire. Again, in 1853—54, when the proposal of an hospital to receive the patients of the Institution was first brought before the public by Mr. Smithers and the other Trustees, the sum of £1,000 from the accumulated fund was given towards the Hospital; leaving a residue of £1,500 consols, which sum remains thus invested. (See Estate Account.)

The history and doings of the Buxton Bath Charity have thus been summarily brought down to the time of forming the Hospital, the expenses of which were defrayed by the individual and collective liberality of the Trustees; by special subscriptions from the public; by the proceeds of a bazaar, that was bountifully supplied and supported, &c.,—a total sum of £6,000 having been thus got together, and expended on the conversion of this valuable building to hospital purposes. This conversion, with its anxious details and successful results, was mainly due to the untiring exertions of the late Mr. Wilmot, aided by the architectural skill of Mr. H. Currey, and the liberal consideration of the late Duke of Devonshire.

It forms an interesting episode in this history, that, in the winter of 1862—63, during what will be long remembered as the Cotton Famine, a special fund was obtained, chiefly by the exertions of the late Mr. Wilmot; and 100 young women, under 30 years of age, selected by the Relief Committees of their respective towns, as being most likely to be benefitted by the change of air and the comforts of the Hospital, were received, and taken care of, as to food, and as to medicines, and restored to their homes in the subsequent spring, with renovated health and strength, and full of gratitude for what they had received. The balance of the subscriptions, amounting with interest to £256, was invested as a separate fund for ever, to enable poor female operatives from factory towns to be received into the Hospital. This fund may be increased by special donations.

A very important circumstance in the history of the Hospital is, that the grounds in front of it have been, with much kind consideration, made over to the Institution, on the part of the Duke of Devonshire, at a nominal rent; maintaining the detached position of the building, enhancing its appearance, and adding to the out-of-door advantages of the patients.

The building is the property of his Grace the Duke of Devonshire; and the conversion of it to the use of the Hospital for ever, on the payment of the rent of £5 yearly, was benevolently granted by the late Duke of Devonshire, as testified on the stone over the principal entrance, on which is inscribed: "The last munificent Charity of William Spencer, 6th Duke

of Devonshire, K.G., who allowed these buildings to be converted to the use of the sick poor, January, A.D. 1858." A considerable sum of money that had been collected for the construction of the Hospital was expended upon the work. The walls and roof of the structure were fortunately found to be in good preservation; the interior was entirely removed and re-arranged; the subsoil carefully taken away; and about two-thirds of the building occupied for the purposes of the Hospital, by a chaplain's house, a house for the master and matron, kitchen, day-rooms, dining-hall, and spacious dormitories affording separate beds for 120 patients, in addition to the beds provided for cases of accident, and in addition to the rooms required for the servants of the establishment.

During the year 1868, a legal Conveyance of the buildings and grounds of the Hospital was given to the Trustees by the present Duke of Devonshire, as stated in the Report of the Committee of Management, at the nominal rent of five shillings yearly, on the condition that they shall be used exclusively for the purposes of the Charity.

During the ten years since the Hospital was opened, there have been 11,011 patients under treatment, of which number 9,702 have been treated beneficially; and 1,404, or about one-seventh of the whole, were not suffering from any of the forms of rheumatism, but were such cases as are ordinarily met with in hospitals. On the average of the ten years, the patients remained under treatment 24·8 days; and 9,607 cases of rheumatism, embracing every conceivable variety of this obstinate disease, were thus extensively relieved by the remedial agency of the Buxton mineral waters.

This prefatory account has seemed to be needful for the information of those not already acquainted with the nature and merits of this Institution. The operations of the ten years have shown the desirability of forming or modifying definite rules for the government and regulation of the Charity; and these are submitted to the public in the expectation that as they are founded upon the experience of the wants of the Institution, and modelled on the rules of similar charitable foundations, they will be of use, meeting the wishes of the subscribers, and contributing to the well-doing of the Hospital.

W. H. R.

Report of the Committee of Management For the Year 1868.

The Committee are most thankful to be again enabled to report, that the Hospital has not only maintained its character for usefulness and efficiency during the past year, but has been useful in a greater degree, and to a larger number of Patients, than was detailed in the report for 1867.

The number of In-Patients admitted during the year 1868 was 1,204, or 74 more than in 1867, or 80 more than in 1866, or 112 more than in 1865, or 219 more than in 1864, or 330 more than in 1863. Of the 1204 In-Patients, 1058 have been beneficially treated, 89 were no better at the time of discharge, 3 died, 26 were discharged at their own request, 7 cases were found to be unfitted for the Hospital, 7 were discharged for breach of rules, and 14 remained on the books at the end of the year.

The number of Out-Patients admitted during the year was 233, or 12 fewer than in 1867, of whom 184 were beneficially treated, 23 were no better at the time of discharge, 4 were made In-Patients, 20 left without having been discharged, and 2 remained on the books at the end of the year.

The average number of Patients daily in the Hospital throughout the year has been as 84.4, or nearly 84½, or nearly 13 more than in 1867; the average number of days in the Hospital of every In-Patient has been as 25.66, or more than two days longer than in the previous year.

The average cost of every In-Patient has been £1 14s. 2d. per three weeks, or 2s. 1¾d. less than in the previous year; and the average cost per head per diem has been 1s. 7½d., or 1¾d. less than in the previous year.

The disadvantage which has been so constantly brought under notice in these Reports, that a comparatively small number of Patients are sent to the Hospital by the Subscribers during certain months of the year, has been so far lessened, that the number of beds occupied on the average of the whole year, has been as nearly 84½; but this still leaves 35 to 40 of the beds unoccupied, and cripples the usefulness of the Charity to the extent of little less than one-third of its real capability for the relief or cure of the sufferers from rheumatism, and its allied painful or disabling complaints. It is still too much the case, as was set forth in the last Report, that, during the winter months, the In-Patients only average the number of from 15 to 30; whereas, during the remainder of the year, from 100 to 200 Patients have to wait for vacancies, and sometimes have

to wait during six weeks or two months. It seems to be matter for very serious regret in the interest of the Patients, that they should not be sent in equal proportions at all times of the year, to a house which is well built, well warmed, well ventilated, which affords every comfort and convenience that can be wished, which is situated in a locality possessing sanitary advantages of the highest character; and whereas the baths and waters of Buxton are known to be quite as influential in relieving rheumatism and its congeners during the winter as at any other time of the year.

The cost of the Patients' diet, &c., although reduced during the last year by 2s. 1½d. for the term of three weeks, or 1½d. per day, is still so high as to require the explanation that it is owing to an unrestricted allowance of animal food at dinner every day, and to the general excellence of the food which is provided. The large amount of benefit afforded to the Patients must be partly referred to the aid thus given to the medicinal effect of the air of the mountain limestone, and to the restorative and curative power of the nitrogenous and saline waters. The majority of the Patients, it cannot be too often repeated, are not only relieved from rheumatism, and the wearing and disabling consequences of the disease, but are sent back to their several homes and occupations in a condition as to health and strength much better fitted to perform their labours and earn the means of subsistence for themselves and their families. And it should be again and again stated, that the returns of relief afforded by the Hospital,—large and important as these returns are,—represent very inadequately the amount of benefit that is eventually derived. As a rule, the Patients are placed at so great an advantage as to strength, and ailment, and power of restoration, that they continue to become less and less invalided for a considerable time after leaving the Hospital. The returns would in general represent a much greater result if they were obtainable six months after the Patients have left the Institution.

The financial position of the Hospital, at the end of the year, although still a cause of some anxiety, is matter for much thankfulness and hope. The reduction in the price of food has enabled 74 more Patients to be provided for, and the whole of the Patients to remain more than two days longer in the Hospital than in the previous year, at a smaller total charge to the funds of £57 11s. 1d. There has been, moreover, a larger receipt from Annual Subscriptions, amounting to £104 10s. 0d.; and from Casual Subscriptions, amounting to £48 15s. 6d.; and as these sums represent an actual increase of work in the Hospital, and the more active co-operation of the benevolent public, the larger receipts under these heads are especial subjects for congratulation. The Donations received at the Hospital during the year are larger than in the previous year by £44 19s. 7d.; whereas the donations received through the kind agency of the Hotels and Lodging Houses of Buxton are smaller by £41 7s. 10d. The amount of the Collections after sermons preached on behalf of the Hospital in churches and chapels is less than in the previous year by £74 4s. 7d.

The establishment of the Dispensary in the Hospital continues to furnish

most satisfactory financial results. In addition to valuable assistance given by the Dispenser to the Secretary in the office during any greater pressure of office work, and in addition to the usefulness of the Dispenser as Clerk to the Members of the Medical Staff during their visits, the total cost of the Dispensary during the year, including the salary and board of the Dispenser, has been only £127 17s. 6d., or as 2s. 1½d. per Patient; 4890 prescriptions having been dispensed, without any avoidable delay; the very best quality of drugs having been purchased; and a saving having been effected in money alone of £61 7s. 7d.

One Legacy was received during the past year, amounting to £261 5s. 10d., from the Executors of W. Sharman, Esq., of Hull; one Legacy of £45 from the Executor of Mrs. Ann Greenwood, of Trubsmithy, near Rochdale, was reported to the Committee before the end of the year, and has been received during the present month of January; and one Legacy of £250 under the will of William Gibson, Esq., of Arbroath, was reported during the past year, and is to be paid during the ensuing month of May. Mr. Sharman's Legacy, and that of £100 received under the will of Miss Emma Hurt during the year 1867, and the whole of the Life-Subscriptions received during the year, amounting to £193, have been invested in Consols, together with so much of the money received from Donations as makes a total investment amounting to £1080 10s. 0d.; serving as an additional provision and guarantee against the liabilities of the Hospital in regard to the recommendations of its Life Subscribers. The amount of these liabilities on the 288 powers of recommendation possessed by the Life Subscribers, subject to a cost of £1 14s. 2d. per Patient, would, if exercised, occasion a charge on the expenditure of the year of £492, and would require a representative capital in the three per cents of no less than £16,400. Even with the recent investment, the whole funded property of the Hospital only amounts to £3309 5s. 7d., in addition to an investment of £100 in Midland Railway debentures; showing that, while most thankful for the success that has attended the operations of the Hospital, both in regard to its beneficial influence on the Patients and the maintenance of its solvency, the future is still dependent upon uncertain sources of income; and it possesses no invested money from which to derive the difference between the One Guinea received from the Annual Subscriber, and the £1 14s. 2d. expended on the Patient, but has to look, with some anxiety, to the donations of the charitable public, to collections in churches and chapels, and to the Legacies of its friends and benefactors, for the means of maintaining its great position and extending its usefulness.

The names of William Currey, Esq., of London; George Drewry, Esq., of Holker; and John Guest, Esq., of Rotherham, have been added to the list of Vice-Presidents of the Hospital. These gentlemen have been kind friends and supporters of the Hospital during many years.

Dr. Robertson has been again unanimously re-elected Chairman of the Board of Trustees and of the Managing Committee of the Hospital.

Mr. Samuel Turner has been again unanimously re-elected Treasurer to the Hospital.

Mr. James Wardley and Mr. John Dawn have been elected Auditors for the year.

During the year a legal Conveyance of the buildings and grounds of the Hospital has been given to the Trustees by His Grace the Duke of Devonshire, on the condition that they shall be used exclusively for the purposes of the Charity, and subject to an annual payment of five shillings. It is impossible to express too strongly the gratitude with which the transfer of so valuable a property has been received. The use of the buildings had been granted to the Hospital by the munificent liberality of the preceding Duke of Devonshire; but the legal conveyance of the buildings for ever, and of the valuable and extensive grounds which nearly surround the Hospital, have been the charitable act of the present Duke of Devonshire.

The outlay upon the grounds amounts to a considerable sum; but they detach the Hospital for ever from other buildings, and afford a valuable place of resort and means of health to the Patients. The walks are now thoroughly drained and gravelled, they are supplied with seats, and they are seen to be much used and valued.

The Lord Bishop of New Zealand and Lichfield delivered a most kind and earnest address to the Patients of the Hospital on the afternoon of Sunday, May 24th. At that time of the year the Hospital was as usual quite full of Patients; and nearly all of them were able to be present on the occasion. It is impossible that the supporters of the Hospital will not feel that the gratitude of the Institution is due to so active and valuable a manifestation of interest in the Patients. The address was printed, and a copy was presented to the several Patients on leaving the Hospital, during the remainder of the year.

A valuable set of instruments for taking meteorological observations was obtained by public subscription during the year, and presented to the Hospital, on the condition that they should be maintained, and the observations be regularly taken by the Dispenser or other Officials of the Institution. This is now regularly done; and the returns are published, free from charge, in many journals and newspapers, to the obvious publicity and consequent advantage of the Charity. The midland situation of the Hospital, nearly midway between the Mersey and the Humber, almost in the centre of the mountain elevations of secondary limestone and millstone grit, and at the height of 1040 feet above the level of the sea, may be expected to render this one of the most interesting and important meteorological stations in the kingdom.

The thanks of the Committee are hereby tendered to those Clergymen and Ministers who have allowed sermons to be preached and collections made in their churches and chapels on behalf of the Hospital, and also to the Clergymen and Ministers who have preached the sermons. It is anxiously felt that, while gratitude is due to those who have thus helped the Institution, the number of instances of such kind consideration might be reasonably expected to be multiplied many times, and more especially in the neighbouring towns and districts, and in those great industrial centres from which a large proportion of the Patients of the Institution are sent. While attention is called to the condition that a Subscriber's recommen-

dation is given in return for every such collection as amounts to three pounds or upwards, it is necessary to mention the stipulation that such collections, or any part of them, should not be sent as ordinary subscriptions, and involve a power of recommendation as if from individual subscribers. Such a power would involve the finances of the Hospital in serious danger, and will be generally admitted to be hazardous and unreasonable.

The thanks of the Committee are hereby tendered to the proprietors of the Hotels and Lodging-Houses of Buxton, who have exerted themselves to obtain support for the Hospital. The powers of the Institution depend much on these exertions. The interests of Buxton are so greatly promoted by the prosperity and usefulness of the Hospital, that the claims of the Institution are urged upon the inhabitants as being identical with the interests of the town.

The thanks of the Committee are hereby tendered to the proprietors of the Newspapers, in which the Weekly Reports from the Hospital are inserted. In no way can the value and usefulness of the Charity be published more effectually.

The thanks of the Committee are hereby tendered to the ladies and gentlemen, who have acted as Visitors to the Hospital during the several months of the year. The value of such services may be obviously very important. It is hoped that it will be increasingly felt that these official visits should be frequent—not less frequent than once a week—and that the visits should not be of merely formal character, but that the details of household management should be enquired into at the visits, and any suggestions and remarks should be entered in the book kept for the purpose.

The thanks of the Committee are hereby tendered to the members of the Medical Staff, for their arduous and gratuitous services to the Hospital. Any adequate pecuniary compensation for these services must be always beyond the means of the Institution, and would probably not be received from the Charity if it could be offered. The duties of the Medical Staff become more onerous year by year, as the work of the Hospital increases, and as the character of the cases becomes more severe in consequence of the railway facilities; cases of aggravated character being now sent to the Hospital which could not have borne the fatigue of travelling otherwise than by railway. It is only right that the additional duty thus imposed upon the members of the Medical Staff should be gratefully acknowledged.

The thanks of the Committee are hereby tendered to the Treasurer, to the Auditors, to the Chaplain, and to the various officials, whether honorary or otherwise, who in their several capacities have served the Hospital most satisfactorily during the year. The Secretary, the Dispenser, and the Master and Matron deserve and are hereby offered the thanks of the Committee of Management.

It will be noticed, that, owing to the conditions of the Deed of Conveyance of the buildings and grounds of the Hospital from the Duke of Devonshire to the Trustees, a considerable change was required in the rules for the management of the Hospital. The terms of the Conveyance, a

copy of which is presented to the Subscribers with this report, do not render it necessary that the expense of a deed for the creation of new Trustees should be incurred until the number of existing Trustees shall be reduced to five; and the rules for the election of Trustees, and a separate constitution of the members of the Managing Committee, have been formed and modified accordingly, after due notice and much consideration, to suit the altered circumstances of the Institution.

It will also be noticed that the Annual Meeting of Subscribers is to be held on the first Saturday in April, at three o'clock in the afternoon. It is wished that the later period of the year may induce or enable some of the subscribers who reside at a distance from Buxton to attend the meeting.

The Statement is submitted of Receipts and Expenditure for the year ending December 31st, 1868, and also of the Estate Account, and General Balance sheet; together with the annual statement of the Wilmot Relief Fund Account.

**COPY OF LEGAL CONVEYANCE OF THE GROUNDS AND
BUILDINGS OF THE DEVONSHIRE HOSPITAL.**

THIS INDENTURE, made the 22nd day of June, 1868, between the Most Noble William, Duke of Devonshire, of the first part; and William Henry Robertson, of the Square, Buxton, in the county of Derby, M.D.; Reginald Darwin, of Fern, Buxton, aforesaid, Esq.; William Parker Shipton, of the Square, Buxton, aforesaid, surgeon; Samuel Turner, of Sylvan Park, Buxton, aforesaid, surveyor; John Milligan, of Winster Place, Buxton, aforesaid, draper; Robert Rippon Duke, of Spring Gardens, Buxton, aforesaid, surveyor; Robert Bennet, of Hardwick Street, Buxton, aforesaid, M.D.; Thomas Dickson, of Wye House, Buxton, aforesaid, M.D.; Robert Broome, of Burbage, near Buxton, aforesaid, Esq.; Marmaduke Walter Vavasour, of North Wood House, Buxton, aforesaid, Esq.; Edward Levett Darwin, of the Park, Buxton, aforesaid Esq.; Joseph William Taylor, of Hardwick Terrace, Buxton, aforesaid, Esq.; Frederick Turner, of the Quadrant, Buxton, aforesaid, surgeon; Francis Kennedy Dickson, of the Square, Buxton, aforesaid, physician; the Rev. Stephen Ray Eddy, of the Parsonage, Buxton, aforesaid, clerk; the Rev. Charles Smith, of the Parsonage, Fairfield, near Buxton, aforesaid, clerk; George Francis Barnard, of Spring Gardens, Buxton, aforesaid, wine and spirit merchant; William Henry Flint, of Terrace Road, Buxton, aforesaid, physician; and Isaac Walton, of the Bank, Buxton, aforesaid, Esq., of the second part. Whereas the parties hereto of the second part are the Trustees of an Institution known as the "Devonshire Hospital and Buxton Bath Charity," instituted for the relief of poor persons from all parts of Great Britain and Ireland suffering from rheumatism, gout, and certain other specified diseases; and whereas the said William, Duke of Devonshire is seized of the land and buildings herein after mentioned for an estate of inheritance in fee simple in possession; and whereas the said land and buildings have, for some time past, by the permission of the said William Duke of Devonshire, been used by the said parties hereto of the second part (in their character of Trustees as aforesaid) as the Hospital of the said Institution; and whereas the said William Duke of Devonshire, being desirous of benefitting the said Institution, has agreed to convey the said premises to the said parties hereto of the second part upon the Trusts hereinafter expressed; Now this INDENTURE witnesseth that, in consideration of the premises, He, the said William Duke of Devonshire, doth hereby grant and convey unto the said parties hereto of the second part, and their heirs, all that piece of land situate at Buxton, in the county of Derby, containing by estimation 2a. 2r. 2p., or thereabouts, and abutting and bounded as more particularly described in the plan drawn in the margin of these presents, and therein coloured pink; together with all buildings now standing and being thereon; and together with all ways, easements, and appurtenances whatsoever to the said piece of land belonging or appertaining; and all the estate, right, title, interest, property, claim, and demand whatsoever, of Him, the said William Duke of Devonshire, in to and out of the said premises and every part thereof; to have and to hold the said piece of land and premises unto and to the use of the said parties hereto of the second

part, their heirs and assigns, yielding and paying unto the said William Duke of Devonshire, his heirs and assigns, the yearly nominal rent of Five Shillings, on the 29th day of September in every year. And it is hereby declared that the said parties hereto of the second part, or the survivor or survivors of them, or the heirs of such survivor, shall stand possessed of the premises hereby conveyed upon trust to permit the said premises to be used as the Hospital of the "Devonshire Hospital and Buxton Bath Charity," and for no other purpose. And it is hereby declared that if the Trustees hereby constituted, or any or either of them, or any Trustee or Trustees, appointed as hereinafter provided, shall die, or desire to be discharged, or refuse or become incapable to act, then, and in every such case, it shall be lawful for the surviving or continuing Trustees or Trustee for the time being, and for this purpose refusing or retiring Trustees shall, if willing to act in the exercise of this power, be considered continuing Trustees, or for the acting executors or administrators of the last surviving or continuing Trustee, to appoint a new Trustee, or Trustees, in the place of the Trustee, or Trustees, so dying, or desiring to be discharged, or refusing or becoming incapable to act as aforesaid, and upon any such occasion, if it should be thought proper, the number of Trustees for the time being may be reduced, but so that the number of the surviving or continuing Trustees, together with the new Trustees, shall not be less than five; and upon every such appointment the trust estate shall be so conveyed that the same may be vested in the surviving or continuing Trustee, or Trustees, jointly with such new Trustee or Trustees, or in such new Trustee or Trustees solely, as the case may require. Provided, nevertheless, that no person shall be appointed a Trustee under the preceding power who is not a member of the Committee of Management, for the time being, of the said Hospital. And this Indenture also witnesseth that the said parties hereto of the second part do hereby, for themselves, their heirs, executors, administrators, and assigns, covenant with the said William Duke of Devonshire, his heirs, executors, administrators, and assigns, that they, the said parties hereto of the second part, their heirs or assigns, shall not nor will, without the previous consent in writing of the said William Duke of Devonshire, his heirs or assigns, erect or build upon the premises hereby granted and conveyed any house or building whatsoever other than those now standing and being thereon; and will keep the buildings now standing and being thereon in good repair, and will keep in a condition similar to the present all such part of the said land as is now used for garden or pleasure grounds. In witness whereof the said parties to these presents have hereunto set their hands and seals, the day and year first above written.

WILLIAM HENRY ROBERTSON, Chairman.

General Rules and Regulations.

Title.

1.—This Institution shall be known and distinguished by the name of THE DEVONSHIRE HOSPITAL AND BUXTON BATH CHARITY.

Trustees.

2.—The property belonging to this Institution shall be vested in the Trustees for the time being.

3.—The number of Trustees shall not exceed nineteen, and any deficiency in this number shall be filled up by the Trustees from the members of the Committee of Management from time to time, as may seem to be expedient, according to seniority, care being taken that the number of the Trustees shall not be less than five, in accordance with the terms of the Deed of Conveyance of the Hospital to the Trustees by His Grace the Duke of Devonshire.

4.—The Trustees shall meet at such times as they may find it expedient, upon the requisition of five of their number to the Chairman, at seven days' notice thereof.

Committee of Management.

5.—The power of making and repealing rules for the government of the Institution shall be vested in the Committee of Management for the time being.

6.—The number of members of the Committee of Management shall not exceed twenty; and they shall be elected from the resident life and yearly subscribers; the Vicar of Buxton, and Medical Officers, being members *ex-officio*.

7.—No new rule shall be made, or existing rule altered, without three months' notice being previously given; and all such alterations and additions shall be made at a special meeting called for that purpose, of which meeting the Committee of Management shall have, farther, two weeks' notice beforehand.

8.—The Committee of Management shall select from the list of subscribers and benefactors, persons of eminent rank, or who may have been distinguished by their contributions or services, to hold the honorary positions of Patron, President, and Vice-Presidents.

General and Special Meetings of the Committee of Management.

9.—The Committee of Management shall have full power to manage and conduct the Institution; but no member of the Committee shall be entitled to vote on any question in which he is *personally* interested, nor shall voting by proxy be allowed.

10.—Voting by ballot shall be adopted, and the proposer of a motion may have the option of taking the votes in this way.

11.—Should the number of members of the Committee of Management fall below seventeen, they shall proceed to elect a new member or members, at their next meeting, notice having previously been given that a vacancy has occurred.

12.—Any member of the Committee of Management being absent from the meetings for six months continuously, shall be disqualified to act.

13.—The Committee of Management shall meet on the first Saturday of each month, at such place and at such hour as they may appoint, for the transaction of business, four forming a quorum. The order of business shall be as follows:—The reading and approving of the minutes of the previous meetings; the appointment of the honorary visitors; the examination of the visitors', chaplain's, and other books; the reception of the report of the House Committee; the passing and signing cheques for all payments due; and the transaction of any other business that may come before them. No member of the Committee of Management shall bring forward any motion or resolution unless he is provided with a seconder.

14.—The Annual Meeting of the Committee of Management shall take place on the first Saturday in January, when they shall elect from their number a Chairman and a Treasurer for the year ensuing; and also a House Committee, which shall consist of the Chairman, and five other members; and may fill up any existing vacancies in the Committee of Management, which can only be done at this meeting, unless the number of members fall below seventeen. Names of candidates for the office of member of the Committee of Management to be publicly announced at an ordinary meeting at least a month previously. The Chairman shall retain his seat as Chairman until the Annual Meeting of Subscribers in each year. The same rule to apply to the Treasurer and House Committee.

15.—They shall also hold an Annual Meeting of the Subscribers, at such time and place as the Committee of Management may appoint, when the Annual Reports of the Committee of Management, and Treasurer, for the past year shall be received.

16.—The proceedings of the Committee of Management at their Monthly Meetings may be reported in the local papers.

House Committee.

17.—The House Committee shall meet at the Hospital once every month, or oftener if necessary, at such hour as they may appoint.

18.—They shall examine the books of admissions and discharges, and all other books kept by the Master.

19.—They shall investigate any complaints of neglect or misconduct of any one connected with the Hospital.

20.—The register of attendance of the Medical Officers and the Chaplain shall be laid upon the table, and the remarks in the House Visitors' books read.

21.—They shall prepare a statement of, and examine and sign, all such accounts as may require to be laid before the next monthly meeting of the Committee of Management for payment.

22.—They shall present at the monthly meeting all contracts for the supply of provisions and coals required for the use of the Hospital.

23.—They shall superintend all alterations, or improvements, the care of the grounds, and the conservation of the Hospital.

24.—They shall examine from time to time the inventories of household goods, furniture, linens, &c., belonging to the Institution.

25.—They shall replace and renew from time to time, as circumstances may require, all such internal fittings and furniture of the Hospital as may urgently require renewal; and make the contracts for these and all other ordinary domestic

purposes ; and shall expend, should it seem to them expedient to do so, any sum not exceeding £10 in any one month for the general purposes of the Hospital.

Treasurer.

26.—The Treasurer shall receive all monies and deposit them in such bank as the Committee of Management shall direct.

27.—He shall cause all money received on behalf of the Hospital to be paid into the bank, and all payments to be made by cheque, signed by the Chairman, and one other member of the Committee of Management, and countersigned by the Secretary.

28.—He shall cause all deeds, evidences, and writings relating to the Hospital to be deposited at the Hospital in a chest provided for that purpose, the keys whereof shall be kept by himself and the Chairman of the Committee of Management.

29.—He shall insure from fire the building, furniture, &c., to such an amount and in such offices, as the Committee of Management may direct.

30.—He shall annually cause a full statement of accounts of the Hospital to be made up to the 31st of December in each year, which, after having been duly examined and signed by the Auditors, shall be presented by him to the Chairman, and shall afterwards be printed and circulated with the annual report.

Medical Officers.

31.—The Medical Officers shall be appointed by the Committee of Management.

32.—No Medical Officer shall be considered eligible who is not a Fellow, Member, or Licentiate of the Royal Colleges of Physicians or Surgeons of London, Edinburgh, or Dublin, or who does not hold a degree in medicine of a recognised British University, such qualification having been obtained after due examination ; and no medical man shall be a Medical Officer of the Institution who only resides during certain seasons of the year.

33.—The three senior officers shall attend every week-day in rotation to admit patients, such patients being under their charge during their residence in the Hospital. The number of acting Medical Officers for the present to consist of four, to be from time to time increased as the exigencies of the Institution may require. No Medical Officer shall consult in reference to the Hospital patients with any medical gentleman who is not a member of the Medical Staff of the Hospital ; and no medical gentleman who is not a member of the Hospital Staff shall be permitted to prescribe for any of the Hospital patients, or assist at any operation upon any Hospital patient, unless on an emergency, when the assistance of a member of the Medical Staff cannot be obtained. And no capital operation shall be performed upon any Hospital patient without a summons being sent to every member of the Medical Staff, to afford the opportunity of being present, unless the immediate emergency of the case renders such notice impossible. The members of the acting Medical Staff shall receive the accident cases in rotation.

34.—The last elected Medical Officer shall take the sole charge of the out-patients.

35.—Any Medical Officer, after officiating for twelve years, may, upon his resignation of his office, and subject to the sanction of the Committee of Management, become a Consulting Physician or Surgeon.

36.—Consulting Physicians and Surgeons may be summoned to attend consultations, operations, and inspections.

37.—No medical man shall be eligible as a candidate for a vacancy in the Medical Staff, who, in addition to his professional qualification, follows the occupation of a chemist and druggist.

Chaplain.

38.—A clergyman of the Church of England shall be appointed by the Committee of Management as Chaplain, on such terms as they may determine.

39.—He shall read prayers every morning and night.

40.—He shall visit the wards as often as he may see occasion, and such patients in particular as may request his attendance.

41.—He shall have the charge and superintendence of the books and tracts, which may be supplied for the use of the patients.

42.—He shall keep a journal in which he shall record the times when prayer has been read.

(NOTE).—Other ministers of religion are at liberty to visit such patients as are confined by sickness to their rooms and may desire their attendance.

Duties of Master and Matron.

43.—They shall be appointed by the Committee of Management.

44.—The Master and Matron shall be responsible for the good and orderly management of the Hospital and premises, and see that the domestic affairs of the Institution are conducted with the greatest possible attention to regularity, cleanliness, and economy. They shall devote their whole time and attention to the business of the Hospital, and shall not both absent themselves from the Hospital except by the authority of the House Committee.

45.—They shall hire all nurses and servants, under the direction of the House Committee, subject to a month's notice on either side.

46.—They shall take care of all household goods, linen, and furniture; keep a correct inventory for production when required by any meeting of the Committee of Management or House Committee; and shall see that all the linen be marked with the words "Devonshire Hospital," and be numbered progressively according to the several classes.

47.—They shall take care of all the keys of the Hospital, and see that all the outer doors are locked, and shall keep the keys of them from five in the evening till eight in the morning, from Michaelmas to Lady Day; and from eight in the evening until six in the morning, from Lady Day to Michaelmas. The keys of all the outer doors of the basement story shall be always kept by the Master and Matron.

48.—They shall cause every key to be numbered progressively by an engraved figure, and the doors to which such keys belong to be marked with corresponding numbers, and shall keep a book with similar numbers showing to what doors the keys belong.

49.—They shall purchase such provisions and stores as the Committee of Management shall direct, and shall see that their quality be good. They shall weigh or measure the whole as they are received, and enter them in a receiving-book with exact particulars of their weight or measure. They shall keep them under their own care, and deliver only such a quantity at a time as shall enable them to know that it is consumed at the Hospital; and they shall not permit anything belonging to the Charity to be sold or disposed of, without the knowledge of the Committee of Management.

50.—They shall treat the patients with kindness and civility, and shall never suffer any degree of cruelty, insolence, or neglect in the nurses or servants towards them to pass unnoticed.

51.—The Matron shall superintend the Cook in preparing the food; and they shall take care that the meals are served at the regular hours, and that no food is wasted; also, that neither liquors nor provisions are brought to the patients by their friends.

52.—They shall cause the meals of the patients to be ready at the following hours, and see that those hours are punctually kept, viz.:—breakfast, eight; dinner, twelve; tea, five; supper, eight.

53.—They shall take care that grace is said at the commencement and conclusion of every meal, and order preserved during meals. They shall also visit the wards, to see that those patients who are unable to dine in the convalescent rooms have the diet prescribed for them, and that it is properly and comfortably served.

54.—The Master shall visit the men's wards, and the Matron the women's, at least every morning and evening, and see that all the patients are present; and shall inquire whether they have had their medicines regularly given them, and report to the proper medical officer if they have not been regularly taken. They shall also inquire whether they are properly attended to and well used by the nurses; and they shall examine into the conduct of the patients, and if they find anything improper shall report it to the next meeting of the House Committee.

55.—They shall see that all nurses, servants, and patients strictly observe the rules and do their duty, and in cases of improper behaviour in the nurses or servants, *they shall have full power* to discharge them, stating the particulars to the next meeting of the House Committee.

56.—They shall not employ any patient without first obtaining leave from the medical officer under whose charge the patient has been placed.

57.—They shall take care that daily prayers be read, and that all such patients as are able, attend prayers, and also Divine service at St. John's Church, or some other place of worship on Sundays. They shall themselves attend these services with as many of their servants as can be spared from their household work. During the occasional absence of the Chaplain the Master shall read prayers, from a form of prayers approved by the Chaplain.

58.—None of the friends of patients, or visitors, shall be allowed to eat or be entertained in any other way at the cost of the Institution, nor to remain in the Hospital after the hour of locking doors for the night.

Duties of Secretary.

59.—He shall be appointed by the Committee of Management, and shall attend all meetings of the Trustees, Committee of Management, and all Committees appointed by them; receive the recommendations of the patients to be admitted; and shall give to the patients who return thanks a note of their discharge to their recommenders, and to the minister of their respective places of worship, signifying their desire to return public thanks. He shall read the minutes of the last meetings of the Trustees and Committee of Management, and the reports of the House Committee; report any new subscriptions, or subscriptions withdrawn, donations, or legacies; fill up the "weekly reports" for the newspapers; draw the minutes of the proceedings; read them over; and procure their signature by the Chairman.

60.—He shall examine all bills presented for payment, and also examine the Master and Matron's cash account—draw the cheques for their payment; and,

after they have been signed, enter them in the "cash book;" and shall keep all vouchers for payment made, with the name, date, and amount endorsed on each.

61.—He shall collect the annual and other subscriptions, under the direction of the Committee of Management, and give security to be approved of by them, if required.

62.—He shall keep an account of all the expenses under their proper heads, add up the payments at the end of every month, and produce the amount to the Committee of Management at the first ordinary meeting afterwards, with statements of the average cost per patient for provisions, and of the average cost per head of the whole establishment. He shall as soon as possible after the 31st December make up and lay before the Committee of Management the annual accounts of receipts and expenditure, with statements of the average cost per patient, and also per head of the whole establishment, for the year, for provisions and every other expense.

63.—He shall make up the "cash book," once a week, from the "Treasurer's Pass Book," post the various items to their proper accounts in the ledger, state the balance due from the Treasurer, enter the subscriptions paid in the "Alphabetical Subscription Book," and in the "Treasurer's Receiving Books," and, every year, lay before the Committee of Management a list of the subscriptions six months in arrear.

64.—He shall make up the "Servants' Wages Book," quarterly, stating the amount due to each individual, when a cheque for the total amount shall be given to the Master to pay them.

65.—He shall write all letters belonging to his department, and keep copies of them—make copies of orders and resolutions of meetings; when necessary, prepare and insert all advertisements. He shall, as soon as possible after the 31st December, make out an abstract of the receipts and expenditure, for the year, including a list of the collections, donations, subscriptions, legacies and fines received, for insertion in the annual report, and attend the meetings of auditors, for the purpose of passing the accounts, and attend to all other matters of a casual nature which pertain to his office, and shall devote the whole of his time to the duties of the Hospital. Office hours from 9.30 a.m. to 5 p.m., from November to April; from 9.30 a.m. to 6 p.m., from May to October, inclusive; and on Saturdays from 9.30 a.m. to 1 p.m.

Duties of Dispenser.

66.—He shall be appointed by the Committee of Management.

67.—He shall scrupulously attend to the orders, and promptly make up the prescriptions of the Medical Officers; and shall be generally responsible for the accuracy and regularity with which the medicines ordered are provided for the patients. He shall have the charge of and be responsible for the surgical instruments, and of the Dispensary and its contents. Unless under an emergency, he shall order all drugs, &c., from wholesale druggists, through and with the sanction of the House Committee. When not engaged in the duties of his department, he shall be expected, during office hours, to assist the Secretary in the duties of his office.

Auditors.

The Auditors, not being members of the Committee of Management, shall examine the Annual Statement of the Treasurer's Accounts, previous to its being presented to the annual meeting of the Committee of Management, and for this

purpose all books and vouchers relating to the accounts shall be open to them, and on their being satisfied as to the correctness of the accounts, the signature of each Auditor shall be appended to the said statement. The honorary fee of one guinea only, to be paid to each Auditor.

Extracts from the Rules and Regulations for Patients.

- 1.—An In-Patient will be entitled to Board, Lodgings, Baths, and Medicines, for three weeks; after that time, a charge of 10s. per week will be made for so long a time as the Patient may remain in the Hospital with the sanction of the Medical Attendant.
An Out-Patient will be entitled to Medical Advice, Medicines, and Baths; but the Medical Officers will attend these Patients only at the Hospital at the appointed days and hours. No Patient will be allowed to remain more than six weeks on the Books of the Institution without a special order signed by at least two of the Medical Staff of the Hospital.
- 2.—All Applicants for Admission, either as In or Out-Patients, will be required to produce a recommendation, signed by a subscriber, and a certificate from the officiating minister, churchwarden, or some other parochial officer, or respectable inhabitant of the place from which they come, that they are fit objects of charity, and unable to pay for themselves.
N.B.—Subscribers are earnestly requested to pay particular attention to this rule, as it is much feared many have been admitted who were not fit objects for any charity.
- 3.—The Medical Staff are authorised to refuse admittance to, or discharge any Patients they consider unfit objects of the Charity; such refusal, or dismissal, to be signed by at least two of their number.
- 4.—Every In-Patient will be required to bring a proper change of clean body linen, and will have to pay for his, or her, own washing out of the Hospital. Out-Patients will have to provide their own towels for bathing. All Patients must be provided with money for their travelling expenses when leaving the Hospital.
All the Patients will be required to observe strictly the Rules laid down for their guidance; any infringement of them will render the Patient liable to immediate dismissal.
- 5.—Cases of Accidents will be admitted to the Hospital on payment of 10s. per week for board and lodging, and a guarantee given for payment of any extra charges that may be required.
- 6.—All Patients are required to give at least One Week's Notice before coming to the Hospital, and not to come until they receive notice that there is room for them, as no allowance of any kind will be given to those who cannot be taken in.
Such notice to contain the name and age of the Patient.
- 7.—In-Patients are admitted into the Hospital every day between the hours of 9 a.m. and 6 p.m. (Sundays excepted.)
Out-Patients will be attended by one of the Medical Staff every Wednesday and Saturday, at 4 p.m.

General Rules and Regulations for Subscribers.

- 1.—A Donation of Twenty Guineas shall constitute a Subscriber for Life, with power to recommend One In or Four Out-Patients annually.
An Annual Subscription of One Guinea shall entitle a Subscriber to recommend One In or Four Out-Patients; but no annual Subscriber shall send a Patient until he has been a Subscriber for at least three months; nor until his Subscription for the current year is paid.
All Subscriptions shall be considered as due in advance on the 1st January in each year. Subscriptions not paid until after June 30th in each year, shall be considered to be in default, and shall not entitle to the recommendation of a patient unless by an extra payment of nine shillings. The Annual Subscription if paid before June 30th is One Guinea, as heretofore; and if paid afterwards, Thirty Shillings. This does not apply to new subscribers.
- 2.—Persons, not being Subscribers, may recommend an In-Patient on payment of 30s., subject to the same rules as Patients recommended by Subscribers.
Subscribers of One Guinea per annum are allowed to send, in addition to the Patient eligible from the subscription, Three Out-Patients per annum, by paying 7s. with each.

Any Clergyman or Minister kindly preaching a Sermon or Sermons, on any one day, in aid of the Funds of the Hospital, and contributing therefrom not less than 3*l.*, shall be entitled to one In or four Out-Patients' recommendations.

No money shall be received as a Subscription which can in any way be regarded as the proceeds of any public collection, or offertory, in any place of worship; but all such sums shall be received as donations, with the privileges defined in this rule.

All Cheques and Post Office Orders to be made payable to the Treasurer, Mr. Samuel Turner, Sylvan Park, Buxton; or Subscriptions may be paid into the Sheffield and Rotherham Bank, Buxton.

3.—Visitors to the Hospital are particularly requested not to interfere between the Patients and Medical Staff under whom they are placed.

4.—No Patient can be admitted without producing a medical certificate that the case is a proper case for the Devonshire Hospital.

5.—Persons suffering from any incurable, or infectious, disorder—women more than six months advanced in pregnancy—persons in the last stage of consumption—or afflicted with itch, ulcers, epileptic fits, or insanity—or infested with vermin—cannot be admitted as In-Patients; or, if inadvertently admitted, cannot be allowed to remain.

List of Annual Subscribers for 1868.

Form of Bequest.

To those who may be inclined to be Benefactors to this Institution, of
Personal Property, by Will, the following Form is
recommended :—

*“ I give and bequeath to A B and C D the sum of
upon Trust, and to the intent that
they, or either of them, do pay the same to the Treasurer,
for the time being, of the Devonshire Hospital and
Buxton Bath Charity ; which said sum of
I desire may be applied towards carrying out the
charitable design of the Trustees of the Institution.”*

Residences of the In-Patients admitted during the Year 1868.
