## PREFACE.

The Buxton mineral water is discharged from several openings in very large quantities, at the temperature of 82 degrees, Farenheit. It is charged with nitrogen gas in, probably, a larger degree than any other mineral water; being estimated by Dr. Lyon Playfair to contain at the moment of issue no less than 206 cubic inches of nitrogen gas per gallon; and by Dr. Sheridan Muspratt, the most recent analyst, to contain no less than 504 cubic inches per gallon. This gas is presented in water, which has, otherwise, alkaline, earthy, and saline properties; and is remarkably detergent and softening to the skin when used as a bath; while it is free from odour or disagreeable taste, is clear and bright in its appearance, and of a singularly beautiful faintly blue colour.

The medicinal action of the water, whether used as baths, or drank, has been from time immemorial known to be great in relieving or curing all conditions of a rheumatic or gouty character. It is stated by Dr. Jones, so long ago as in the year 1572, that it was then used for the relief of the same ailments as it is at the present time.

Dr. Jones says that, in his time, Buxton was much resorted to by poor afflicted persons; and towards the end of the sixteenth century this was considered to be so serious an injury by the inhabitants of the adjoining chapelry of Fairfield, as to render them unable to provide funds for the maintenance of their chaplain, by reason of the urgent and continued claims of the many poor sufferers resorting to the Buxton Baths, as set forth in a petition on this matter addressed by them to Queen Elizabeth. These poor persons had been from time immemorial so far aided, as to have had gratuitous baths of the mineral water provided for them; and there seems to have been a fund called the "Treasury of the bath," by which their pecuniary necessities were more or less ministered to. Dr. Jones writes, in reference to this fund, what may be quoted in this place: "If any think this magisterial imposing on people's pockets, let them consider their abilities and the sick poor's necessities, and think whether they do not in idle pastimes throw away in vain twice as much yearly; it may entail the blessings of them who are ready to perish upon you, and will afford a pleasant after-reflection. God has given you physic for nothing; let the poor and afflicted (it may be members of Christ) have a little of your money,-it may be the better for your own health: Heaven might have put them in your room and you in theirs; then a supply would have been acceptable to you."

#### PREFACE.

Beyond this somewhat vague earlier history, there is no record of the Buxton Bath Charity until the year 1785, of which date there is extant at the Hospital, a document (vide page 17), apparently an annual report of the Institution; from which time the use of the baths and waters and pecuniary aid had been regularly given to the poor patients until the year 1859, when the Devonshire Hospital was provided for the reception of the patients.

It has been gathered from the annual reports that in the eighteen years from 1820, 14,906 patients were admitted to the benefits of the Charity, of which number 12,608 were discharged as cured or much relieved.

In the twenty following years, from 1838 to 1858, 23,319 patients were admitted; and of these, 16,575 were cured or much relieved; 5,859 were relieved in some degree; and 885 were no better at the time of discharge.

The Devonshire Hospital was opened for the reception of the patients of the Charity in the year 1859. It is the successful result of the conversion of a very extensive range of building, erected and used as stables since the commencement of the present century. The structure, which is of important and substantial character, surrounds a parterre of considerable extent, and contains a colonnade of handsome proportions, is situated on a commanding eminence, presenting views of the town and valley of Buxton, and is near to the baths, the railway stations, and the principal buildings.

From the year 1820, then, to the beginning of September, 1858, when the Hospital was opened, or in 38 years, the Institution had received 38,225 patients; of which number, 35,042 were beneficially treated, and 2,183 were very partially if at all relieved. During those 38 years the Buxton Bath Charity received, on an average, upwards of 1,000 patients every year, and afforded cure or marked relief to 922 of that number. To a very large proportion of this important number of poor sufferers, chiefly from chronic rheumatism, the charity gave a weekly allowance of 6s. during their stay in Buxton, in addition to all other benefits; until the funds became so seriously impaired that the weekly money allowance was necessarily reduced to 5s., at which sum it remained until the opening of the Hospital. From the time of reducing the weekly money allowance, the pecuniary prosperity of the Buxton Bath Charity may be dated. The funds accumulated year by year, until the time of rebuilding the Buxton baths on the part of the Duke of Devonshire, when a capital of nearly £3,000 had been gathered together by the scrupulous management of the Trustees. The names may be mentioned, first and particularly, of the late Bishop Spencer, at one time trustee, and incumbent of Buxton, and more recently one of the Vice-Presidents of the Hospital; of Mr. Heacock and Mr. Smithers, its successive Treasurers; and of Sir Charles Scudamore, Mr. Page, Mr. Cumming, and Dr. Carstairs, -as being no longer alive to witness and take part in the present development of the Charity; and also in order of seniority as to connection with the Institution, of Dr. Robertson, the Hon. and Rev. F. R. Grey, and the Rev. R. P. Hull Brown, as still living to rejoice in the well-doing of the Buxton Charity and its Hospital. Of these £3,000, £500 was judiciously expended on the rebuilding of the

#### PREFACE

Charity Natural Baths; the large remaining sum which those baths cost, and the whole cost of the Hot Baths of the Charity, having been paid by the munificence of the late Duke of Devonshire. Again, in 1853—4, when the proposal of an hospital to receive the patients of the Institution was brought before the public by Mr. Smithers and the other Trustees, the sum of  $\pounds1,000$  from the accumulated fund was given towards the Hospital; leaving a residue of  $\pounds1,500$  consols, which sum remains thus invested. (See Estate Account.)

The history and doings of the Buxton Bath Charity have thus been summarily brought down to the time of forming the Hospital, the expenses of which were defrayed by the individual and collective liberality of the Trustees; by special subscriptions from the public; by the proceeds of a bazaar, that was bountifully supplied and supported, &c.;—a total sum of £6,000 having been thus got together, and expended on the conversion of this valuable building to hospital purposes. This conversion with its anxious details and successful results, was mainly due to the untiring exertions of the late Mr. Wilmot, aided by the architectural skill of Mr. H. Currey, and the liberal consideration of the late Duke of Devonshire.

It forms an interesting episode in this history, that, in the winter of 1862—3, during what will be long remembered as the Cotton Famine, a special fund was obtained, chiefly by the exertions of the late Mr. Wilmot; and 100 young women, under 30 years of age, selected by the Relief Committees of their respective towns, as being most likely to be benefitted by the change of air and the comforts of the Hospital, were received, and taken care of, as to food, and as to medicines, and restored to their homes in the subsequent spring, with renovated health and strength, and full of gratitude for what they had received. The balance of the subscriptions, amounting with interest to £256, was invested as a separate fund for ever, to enable poor female operatives from factory towns to be received into the Hospital.

A very important circumstance in the history of the Hospital is that the grounds in front of it have been, with much kind consideration, made over to the Institution, on the part of the Duke of Devonshire, maintaining the detached position of the building, enhancing its appearance, and adding to the out-door advantages of the patients.

The building is the property of his Grace the Duke of Devonshire; and the conversion of it to the use of the Hospital for ever, on the payment of the rent of £5 yearly, was benevolently granted by the late Duke of Devonshire, as testified on the stone over the principal entrance, on which is inscribed: "The last munificent Charity of William Spencer, 6th Duke of Devonshire, K.G., who allowed these buildings to be converted to the use of the sick poor, January, A.D. 1858." A considerable sum of money that had been collected for the construction of the Hospital was expended upon the work. The walls and roof of the structure were fortunately found to be in good preservation; the interior was entirely removed and re-arranged; the sub-soil carefully taken away; and about two-thirds of the building occupied for the purposes of the Hospital, by a chaplain's house, a dis-

pensary and dispenser's apartments, a house for the master and matron, kitchen, day-rooms, dining-hall, and spacious dormitories affording separate beds for 120 patients, in addition to the beds provided for cases of accident, and in addition to the rooms required for the servants of the establishment.

During the year 1868, a legal Conveyance of the buildings and grounds of the Hospital was given to the Trustees by the present Duke of Devonshire, at the nominal rent of five shillings yearly, on the condition that they shall be used exclusively for the purposes of the Charity.

During the year 1872, the duties of Chaplain to the Hospital were kindly undertaken by the Vicar of Buxton, and the Chaplain's House was converted to the general purposes of the Hospital; the number of beds for patients was raised to 150; and better accommodation afforded to the Out-Patients, Dispensary, &c.

During the fifteen years since the Hospital was opened, there have been 17,601 patients under treatment, of which number 15,307 have been treated beneficially; and 2,056, or about one-eighth of the whole, were not suffering from any of the forms of rheumatism, but were such cases as are ordinarily met with in hospitals. On the average of the fifteen years, the patients remained under treatment 24.32 days; and 15,542 cases of rheumatism, embracing every conceivable variety of this obstinate disease, were thus extensively relieved by the remedial agency of the Buxton mineral waters.

This prefatory account has seemed to be needful for the information of those not already acquainted with the nature and merits of this Institution.

## REPORT

#### OF THE

## COMMITTEE OF MANAGEMENT FOR THE YEAR 1873.

THE members of the Committee of Management report the great and increasing usefulness of the Hospital, year after year; and they do this with much thankfulness. The Hospital has been added to the means of usefulness of the Buxton Bath Charity during fifteen years, affording board, lodging, &c., to a much larger number of in-patients than the total number of the patients of the older institution, with which it was incorporated in the year 1859.

The number of in-patients admitted to the Hospital has been more than doubled since the first and second years of its existence; and the number of in-patients received is greater year after year. The season of the year, and the kind of weather which may prevail, always influence the pressure of patients to be admitted to the Hospital. The effect of the wet weather during the last two years has been to reduce the number of the patients below what might have been otherwise received; and this seems to have been particularly the case during the earlier months of 1873, and to have reduced the probable increase that would otherwise have been obtained from the recent increase in the number of the beds. This will explain the circumstance that the increase upon the year preceding has been only four patients. During the past year the total number of in-patients has been 1,407; but this number, although so small an increase on the 1,403 patients of 1872, is 89 more than in 1871, and 134 more than in 1870, and 237 more than in 1869, and 261 more than in 1868, and so on, until we arrive at the vast difference of number between 622 in 1859, or 691 in 1860, and the 1,407 in 1873.

The beneficial result obtained by this increasingly large number of inpatients has been of adequate proportion to these larger and larger numbers. Of the 1,407 in-patients, 1,149 were treated beneficially; 189 were no better; 22 were discharged by their own request; 13 had to be discharged for breach of rules; one was found to be an unfit case for the Hospital; 3 died; and 30 remained on the books at the end of the year.

The number of out-patients admitted during the year was 179, or one less than in the preceding year. The comparatively small number of the outpatients is the best possible evidence of the high estimation in which the internal comfort and appliances of the Hospital are held by the patients and the subscribers. It is remembered, that there was a general sense of anxiety, lest patients should prefer the freedom from all control, and the comparative privacy of being lodged in the town and neighbourhood of Buxton, and lest only the more necessitous, or the more helpless, might be ready or willing to avail themselves of any possible advantages which could be offered to them within the walls of the Hospital, then about to be provided. The contrary holds good. The patients, with scarcely an

#### REPORT OF THE COMMITTEE OF MANAGEMENT.

exception, are most anxious to enjoy the great and obvious advantages of residence within the Hospital; and the out-patients consist chiefly of those who cannot obtain the privilege of an in-patient's recommendation. Nevertheless, the number of the out-patients is of much importance, supplementing and extending the work of the Hospital, and affording results which are entirely satisfactory. Of the 179 out-patients received during the year, 147 were treated beneficially; 13 were no better at the time of discharge; 18 left Buxton without having been discharged, and the results of their treatment cannot therefore be reported; and one remained on the books at the end of the year. It is probable, as has been said again and again in these reports, that of the 18 out-patients who were not sufficiently impressed with the sense of the duty of presenting themselves before leaving Buxton, a considerable proportion had derived benefit. The Subscribers who send the out-patients to the Hospital should endeavour, as far as may be, to impress on the minds of these poor persons, before they are sent to Buxton, and make enquiries of them after they return home, as to the fulfilment of this easy duty, the neglect of which necessarily occasions some sense of dissatisfaction, renders the returns so far incomplete, and cannot but be a matter of some regret to all concerned.

The average number of patients daily resident in the Hospital throughout the year has been 89 and five decimals, or one more patient daily in the House; and the average number of days of every in-patient in the Hospital has been 23 and thirty-six decimals, or an increase of more than one day on the previous year.

The average cost of every in-patient for three weeks has been £1 17s.  $9\frac{1}{2}d$ ., being a slight reduction from the previous year; and the average cost per head per day has been 1s.  $9\frac{1}{2}d$ ., also a slight reduction from the previous year. It cannot need explanation that these yearly differences, whether less or more, are owing to the varying prices of articles of food and of coals; and they will be admitted to give proof of good management, when the comparatively unrestricted dietary is considered, as well as the prices of provisions, &c.

The greater number of patients, and consequently greater amount of benefit afforded year by year, is so far evidence that the subscribers are more or less alive to the duty of sending as many patients as possible to the Hospital during the winter months. But even in the past year the average number of patients in the Hospital during the month of January was only 23 and eight decimals, and during February only 31 and five decimals, and during March only 34, and during April only 67 and one decimal,-shewing that so much more of Hospital work might be done in this direction. It is sufficiently well known on the other hand, that during the middle of the summer some 200 patients may be waiting at one time for their turn to be admitted, and that sometimes a patient has had to wait four or five weeks before a vacant bed could be obtained. The Hospital, in fact, cannot be said to have been filled during more than six months of the year. The House is so well built, warmed, and ventilated, and affords such conveniences and comforts, and enjoys from its locality such high and evident sanitary advantages, while the Baths and Waters of Buxton are known to be quite as curative during the winter months as at any other time, that the subscribers might regulate their recommendations in such a way that all the beds should be constantly occupied, and its value utilised to the fullest degree.

The great pressure upon the Hospital during six months of the year is nevertheless regarded with much regret; and the more so as about onethird of the great building of the Hospital is otherwise occupied. It will be remembered that the Committee of Management have been urged from time to time to solicit the concession of the remainder of the building for the pur-

poses of the Hospital; and were able to state in the previous reports that the noble owner of the property and his professional advisers were disposed to give the subject their favourable consideration, when certain engineering difficulties as to the supply of the mineral water to the Hot Baths shall have been surmounted. The conversion of the remainder of this great building to the uses of the Hospital would involve the expenditure of a very large sum of money; but it is felt by the Committee that such an extension would be not only to fulfil the primary Christian duty of granting to the suffering poor the utmost opportunity of using the healing waters of Buxton, but would indirectly benefit all the vested interests of Buxton, by increasing value of its land, houses, &c., in direct proportion to its increasing celebrity. Such an extension would not only enable a larger number of patients to be received, but would entirely isolate all the buildings of the institution, surround it with open and ornamental grounds, and embellish the whole appearance and location of the Hospital. This is felt by the Committee to be peculiarly a case in which the interests of the Hospital and of the visitors and residents of Buxton go hand in hand, and they trust that so great an improvement may be carried out as soon as it may be found practicable to do so.

The cost of the patients' diet, &c., always requires the explanation in these reports, that it is owing to an unrestricted allowance of animal food of the best quality at dinner every day; and the average consumption of meat per head, per day, is accordingly nearly three-quarters of a pound. The consumption of bread and potatoes, entirely unrestricted, is also very large; and all the patients not forbidden by the medical attendant have beer at dinner. The large amount of benefit afforded must be partly referred to the aid thus given to the medicinal effect of the air of the mountain limestone, and to the restorative and curative power of the Buxton mineral water. It is a necessary statement in these reports, that the majority of the patients are not only relieved from rheumatism, and the wearing and disabling consequences of the disease, but are sent back to their several homes and occupations, in a condition as to health and strength, much better fitted to perform their labours, and earn the means of subsistence for themselves and their families.

The financial position of the Hospital at the end of the year affords much reason for thankfulness, and may be held to shew, in some degree, the amount of assistance to be expected from the public, whenever the full extension of the Hospital may be conceded. There has been a receipt from Annual Subscriptions, amounting to £100 9s. 0d. more than in 1872; and the Donations received at the Hospital have been £126 16s. 10d. more than in the preceding year; and the Donations received by the kind agency of the Hotels and Lodging-houses of Buxton have amounted to £42 15s. 0d. more than in 1872.

The sum of £3404 3s. 3d. has been received from Legacies during the year. Of this sum the large amount of £3384 3s. 4d. has been derived from the total residue of the personal estate of Mrs. Robinson, of Elterwater Hall, near Ambleside, which was most munificently devised to the Hospital by this lady, who had been a kind benefactress during many previous years; and the remaining sum of £19 19s. 0d. is the amount of a legacy from the Rev. Charles Ingleby, also a subscriber and benefactor previously. It has often been mentioned in these reports as matter of surprise, that so many friends and supporters of the Hospital should have left no record beyond the grave, of the interest taken in its prosperity during their lives. Invested capital must be the only security for the future usefulness of such an institution: empowering extensions, justifying improvements, and enabling prompt payments to be made, and the best sources of supply to be had recourse to. The advantages of pecuniary competence are so obvious, that it might seem to be superfluous to have stated them, were it not that the opposite opinion is expressed from time to time, as a plea for relaxation as to rules and conditions of management.

There is a liability under the power of recommendation possessed by the Life Subscribers, which varies somewhat from year to year, but which must be the multiple of existing life subscribers by the cost of every patient, or  $\pounds 1$  17s. 9<sup>1</sup>/<sub>2</sub>d. multiplied by more than 300. There is also a liability to the Annual Subscribers of 16s. 9<sup>1</sup>/<sub>2</sub>d. beyond the guinea subscribed, which represents a very large yearly sum, if the powers of recommendation were to be always made use of. These two great and constant liabilities are only mentioned to demonstrate the importance, and indeed necessity, of a large capital sum of invested money, to insure the solvency of the institution.

The total sum obtained from Churches during the year has been rather more than it was in 1872. It should be gratefully mentioned that this is principally due to large offertories obtained in St. John's and St. James' Churches, in Buxton, on two Sundays. It is, however, a subject of regret that collections have been obtained from fewer churches either near to Buxton or at a distance from it; and that no collection has been obtained. from any Chapel either in Buxton or its neighbourhood, or elsewhere. It is regretfully felt that much more might be expected to be received from churches and chapels, and especially from those which are situated in the great manufacturing centres of population, obtaining, as these towns and districts do, such a very large proportion of benefit from the operations of this Charity. Patients have been received from some 130 different towns and districts during the past year, and only six collections have been received from outlying churches. It would be a great boon to the Hospital, if all the Churches and Chapels in Buxton and its neighbourhood would kindly grant two Sundays for collections in its behalf, during the busier parts of the Summer and Autumn-say, in August and September.

It will be remembered that, according to the last report, the increasing work of the Hospital, and the increasing labours of the honorary Medical Staff, were found to necessitate the appointment of a resident medical officer, who would see the patients at the time of admission, prescribe any treatment immediately necessary, act in all emergencies in the absence of the medical officers, keep the case books, prepare a tabulated account of the cases, and assist in such chemical and microscopical investigations as would facilitate the medical work of the Hospital. This appointment was made accordingly in the beginning of August, 1872. Circumstances arose in the commencement of 1873 to occasion the resignation of the House Surgeon; and it was signified about the same time, that Mr. Sykes, the Dispenser, was about to resign his appointment in the Hospital. He had occupied the position of Dispenser during seven years, and had given entire satisfaction to the Committee of Management; and he received from the Committee a testimonial to that effect. The Committee then decided to appoint a qualified medical man who would endeavour to perform the combined duties of House Surgeon and Dispenser; and Dr. Lorimer accepted the appointment on this condition. The result is believed to be The Dispensary continues to be economically managed; and satisfactory. the total cost of these medical services, and of the prompt dispensing of the medicines, including the salary and board of the resident medical officer, is found to amount to less than half-a-crown per patient.

Mr. Sykes had acted as honorary meteorologist to the Hospital during five years of his residence in the Hospital; and he continues to perform these duties without payment.

The duties of Chaplain to the Hospital, kindly undertaken by the Rev. S. R. Eddy, M.A., Vicar of Buxton, an *ex-officio* trustee, and member the Committee of Management, have been efficiently discharged by the Rev. A. R. Tomlinson, M.A., the *locum tenens* of the Vicar during his absence from Buxton from indisposition, kindly assisted by the Curates of Buxton. The Committee have learned, with much satisfaction, that the Rev. S. R. Eddy may be expected to return to Buxton in the course of the spring, with restored health and strength.

Dr. Robertson has again been unanimously re-elected Chairman of the Board of Trustees and the Managing Committee of the Hospital.

Mr. Samuel Turner has again been unanimously re-elected Treasurer of the Hospital.

The chairman is *ex-officio* a member of the House Committee, and the members of the House Committee for 1873, have been re-elected.

Mr. Josiah Taylor and Mr. Schofield have been again unanimously reelected auditors for the year.

The thanks of the Committee are hereby tendered to the Clergymen who have allowed sermons to be preached in their churches on behalf of the Hospital, and also to the Clergymen who have preached the sermons.

The thanks of the Committee are hereby tendered to the proprietors of the Hotels and Lodging-Houses of Buxton, and also to the Presidents at the public dinner tables of the several hotels who have exerted themselves to obtain support for the Hospital. The powers of the institution depend much on these exertions. The interests of Buxton are so greatly promoted by the prosperity and usefulness of the Hospital, that the claims of the institution are urged on the inhabitants as being identical with the interests of the town.

The thanks of the Committee are hereby tendered to the Chairman and Directors of the Buxton Palace Hotel Company, for permission to place conspicuously in the Entrance Hall of the Hotel a Donation Box in aid of the Hospital.

The thanks of the Committee are hereby tendered to the Chairman and Directors of the Buxton Improvements Company, for permission to place conspicuously at the entrance to the Pavilion a Donation and Newspaper box in aid of the Hospital.

The thanks of the Committee are hereby tendered to the proprietors of the newspapers in which the weekly reports and meteorological reports from the Hospital are inserted. In no way can the interests of the charity be more effectually promoted.

The thanks of the Committee are hereby tendered to the ladies and gentlemen who have acted as Visitors to the Hospital during the several months of the year. The value of such services may be obviously very important. It is hoped that it will be increasingly felt that these official visits should be frequent, and that the visits should not be of merely formal character, but that details should be enquired into and any suggestions and remarks be entered in a book kept for that purpose.

The thanks of the Committee are hereby tendered to the members of the Medical Staff for their arduous and gratuitous services to the Hospital. Any adequate pecuniary compensation for these services must be always beyond the means of the institution, and would probably not be received from the Charity if could be offered. The duties of the Medical Staff become more onerous year by year, as the work of the Hospital increases, and as the character of the cases becomes more severe in consequence of the railway facilities; cases of aggravated character being now sent to the Hospital, which could not have borne the fatigue of travelling otherwise than by railway. It is only right that the additional duty thus imposed upon the members of the Medical Staff should be gratefully acknowledged.

The thanks of the Committee are hereby tendered to the Honorary Chaplain, to the Treasurer, to the Auditors, to Mr. Sykes as Meteorologist, and to the various officials whether honorary or otherwise, who in their several

capacities have served the Hospital most satisfactorily during the year. The House Surgeon, the Secretary, and the Master and Matron deserve, and are hereby offered, the thanks of the Committee of Management.

It will be noticed that the Annual Meeting of Subscribers is to be held on the first Saturday in April, at half-past three o'clock in the afternoon. It is wished that the later period of the year may induce some of the Subscribers who reside at a distance from Buxton to attend the meeting.

The Statement is submitted of receipts and expenditure for the year ending December 31st, 1873, and also of the Estate Account, and General Balance Sheet; together with the Annual Statement of the Wilmot Relief Fund Account.

There is a nucleus for a Samaritan Fund, kindly contributed by Mr. Challis, Miss Hall, Mr. Hebson, Mr. Hardwick, Miss Jackson, Mr. G. Walton, and "A Friend," per Dr. Robertson, intended for the relief of urgent cases of distress on being discharged from the Hospital; the interest or the principal of which is available at the discretion of the officials under authority of the House Committee. Contributions to this Fund are earnestly solicited.

At the Annual Meeting of the Trustees and the Committee of Management, held at the Hospital, on January 3rd, 1874, after the consideration and adoption of the Annual Report, it was resolved, "That the thanks of the Trustees and Committee be given to the Chairman, Dr. Robertson, for the Report, and for his assiduous attention to the business of the Hospital."

#### BUXTON BATH CHARITY, A.D. 1785.

## COPY OF REPORT OF THE CHARITY FOR THE YEAR 1785.

#### The Original is in the Hospital, and was presented by Dr. Robertson, December 29th, 1871.

#### BUXTON.

RESOLUTIONS by the Stewards of the several Houses at Buxton, on behalf of the Contributors to the Charitable Fund Established here, for the better regulation of the Charity, made September 13th, 1785.

#### 1st. As to the Contribution.

WHEREAS, at the Commencement of this Charity, in the Year 1779, instituted for the purpose of rendering the Beneficence of the noble Proprietor and his Ancestors, (in setting apart a Bath for the Use of the Poor,) more extensively beneficial; two Stewards were appointed in each House kept open for the Reception of Company to receive a Contribution of One Shilling only, from each Person residing in such Houses, for the Benefit of the Charity. And upon the Departure of one of the Stewards, the departing Steward hath nominated a Successor; and in order to ascertain the Sums contributed, the Stewards for the Time being, at each House, have kept a Subscription Book, in which the Contributors have respectively written their Names and the Sum of One Shilling opposite thereto ; and as the Subscriptions have amounted to competent Sums, the Stewards have paid over the same to Mr. Samuel Buxton, Apothecary, in Buxton, as Treasurer, to be applied by him towards the Aid and Support of the Poor, whose Infirmities have caused them to come to Buxton, for the Use of the Waters; for which Sums the said Mr. Buxton hath signed Receipts in the Subscription Books. Resolved, that such Practice be continued, and that no Person be permitted to subscribe a greater Sum than One Shilling in the Books; and that the Receipts of Mr. Buxton, or the Treasurer for the Time being, in the Subscription Books, be sufficient Discharges to the Stewards for what they receive.

Resolved, That it be recommended to future Stewards to hold an Audit on the 13th of September yearly, to inspect the Accounts of Mr. Buxton, or of the Treasurer for the Time being, and to state the Accounts of the preceding Year in like manner as the Accounts are this Day stated in the Subscription Book at the Hall. And it is declared, that the Allowance of a Duplicate of the Account by any two of the Stewards, under their Hands, shall be a sufficient Discharge to Mr. Buxton, and all future Treasurers.

Resolved, That all future contributors to the Charity do subscribe[thereto upon the Terms of these Resolutions.

#### 2nd. As to the Admission of the Objects of this Charity.

Resolved, That no Inhabitant of Buxton, Fairfield, or of any Place within Seven Miles Distance from Buxton, be admitted to partake of the Charity; nor any Person be relieved during the Months of November, December, January, February, March, or April; and that during the remaining Six Months of the Year, not more than sixteen Objects, at one Time, be relieved by the Charity. And that no Person shall be admitted on any other Day than Monday in every Week, between the Hours of eight and twelve in the Forenoon; on which Day, during such Hours, the weekly Allowance to each Individual shall also be paid.

Resolved, That before the Patient intending to take the Benefit of the Charity be removed from where he or she dwells, Mr. Buxton, or the Trea-

surer for the Time being, be applied to by Letter, Postpaid, signifying such Intention, mentioning the Patient's Name, Place of Abode, and Nature of the Disorder; and that no Person be admitted, unless there be a Vacancy in the Number of Sixteen, and unless he or she first produces to the Treasurer his own Letter written in answer to such Application, and also a Letter of Recommendation from some Lady or Gentleman, resident in the Neighbourhood, certifying, whether the Patient is relieved by his or her Parish, or not, and if not, whether he or she is a proper Object, with Respect to Circumstances; and in case he or she is a Pauper, relieved by the Parish, then also a Certificate signed by the Churchwardens or Overseers of the Poor, that the Pauper's Settlement is in the Parish from which he or she is sent, and also a Certificate from a Physician or Apothecary, that the Case is proper for the Buxton Waters.

Resolved, That the Names and Places of Abode of the Objects admitted, be entered by Mr. Buxton, or the Treasurer for the Time being, in a Book (of which Book each Contributor is to have free Inspection), with a Description of the Patient's Disorder; and after his or her Discharge a Minute of the Consequence of the Use of the Waters.

#### 3rd. As to the Application of the Charity Fund.

It being the Intention of the Contributors, that the Money arising from the Contributions, be in every Case applied for the Purposes of supplying the Patients during their Stay at Buxton, with Board, Lodging, and Medicines only; all Ladies and Gentlemen recommending Patients, and all Churchwardens and Overseers giving Certificates, are therefore particularly desired to take Notice, that in Case the Patients shall be admitted to partake of the Charity, and shall die in the Parishes of Buxton or Fairfield, or in any Place, within seven Miles distance from Buxton, before he or she shall have actually returned to his or her own Parish, such Persons recommending, and such Churchwardens and Overseers certifying, shall be liable to pay the Expenses of the Funeral of such Patients respectively; and that the Charity Money, on no Account whatever, shall be suffered to be applied to defray travelling Expenses, either to, or from Buxton.

Resolved, That no Patient be admitted more than once during a Season, nor be relieved, by the Charity, for a longer Space of Time than five Weeks, from the Date of his or her Admission, nor with a greater Sum than Six Shillings per Week. But for how long a Time he or she shall be relieved less than five Weeks, or what Allowance shall be made him or her less than Six Shillings per Week, shall be at the Discretion of Mr. Buxton, or of the Treasurer for the Time being, taking the Advice of the resident Physicians, or Physician, on the Case, who it is hoped, will kindly consent to give gratuitous Assistance, when necessary.

Resolved, That Mr. Buxton, or the Treasurer for the Time being, be at liberty to retain all his necessary Expenses, occasioned by the Administration of the Charity, over and above what shall be expended in Board, Lodging, and Medicines.

Resolved, That if any Object receiving the Benefit of this Charity, shall beg or receive Alms, during his or her Stay at Buxton, or be guilty of prophane Swearing, Drunkenness, Impertinence, or any gross misbehaviour, he or she shall be instantly, (on complaint made) discharged from the Charity.

Ordered, That these Resolutions be printed, and hung up in as public a manner as possible, in the several Houses in Buxton kept open for the Reception of Company, and wherever Contributions are received; and that the said Resolutions be sent by Mr. Buxton, or the Treasurer for the Time being, to every Person recommending a Patient, as a proper Object to partake of the Benefit of this Charity.

## THE METEOROLOGICAL REPORT FOR 1873,

#### FROM THE OBSERVATIONS TAKEN AT

## THE DEVONSHIRE HOSPITAL, BUXTON.

The year 1873 resembled the previous year in many of its meteorological characteristics, most particularly with regard to the mildness of the temperature and scarcity of severe frosts, though the number of frosty nights exceeded that of the previous year; the genial weather observed during the latter portion of 1872 continued almost uninterruptedly till the close of the past year. There has been a great decrease in the fall of rain, and also in the number of storms accompanied with electrical disturbance; fog, hail, and snow, have also been rarer. It will be observed in the tabular report that several new instruments have been added to the observatory: these are the anemometer, electrometer, and ozonometer. This valuable addition of instruments will produce, from the present accuracy of their working, very satisfactory and reliable results, which will form a basis of valuable information for future deductions.

The month of January commenced with mild, sunshiny weather-quite the reverse of what is usually the rule ; there was less mist and fog than in the previous January; two storms of hail, four of snow, and four of wind, occurred; frequent showers of rain fell, but unproductive of large quantities, and the amount of ozone was greatest during this month. February was the month of the year during which the greatest amount of cold, from frost, was experienced; snow fell on several occasions, and hail once; the rainfall was below the average; fog appeared on one day, and heavy wind on several. During the first four or five days of March the character of February was well sustained: it was in this month the lowest degree of temperature was registered, but after this period there appeared to be a break in the weather of a more desirable kind, both rain and snow were plentiful, and very thick fogs appeared on two occasions, and very heavy winds on several; the early portions of the days were generally overcast, and seldom varied much throughout the day. With April came a still greater change for the better; the temperature during the middle and latter portions of the month increased very rapidly, small quantities of downfall of any kind were registered, many of the nights were rendered cold by slight frosts—the effects of these generally disappeared in an hour's time after the sun alose, under the influence of which the trees soon became covered with leaves; small quantities of snow and hail were observed on a few occasions. May commenced with some very unsettled weather, although the rise of temperature was steadily progressing and a gradual decrease in the number of frosty nights, after the few days had passed that were disturbed by squalls, the chief features were almost cloudless skies, fine, warm, and sunshiny; there was a larger amount of downfall during this month than any previous one; hail fell on one occasion. June, like the preceding month, began with a few brisk gales and electrical disturbance; after this had subsided a great increase of temperature was recorded, notwithstanding the gloominess which

occurred on many of the mornings, the latter portions of the days were warm and all that could be wished for; one frosty night was the greatest amount of cold that was registered, and snow fell once, though somewhat unusual at that period of the year; and a hailstorm was recorded. Several thunderstorms were observed during July, which varied the otherwise seasonable weather; moderate quantities of rain fell-the showers were very frequent and light; the highest degree of temperature was registered during this month. August commenced with showers, which were maintained throughout the month with a very few exceptional days ; the temperature was much higher than could have been anticipated under the circumstances; the dullness of the mornings formed a predominant feature; the later portions of the days were generally interspersed with varying quantities of enjoyable weather. September began with a high temperature, which was continued through the month ; an average amount of rain fell ; frost again commenced, but the general warmth was little affected by it; many of the mornings were somewhat dull and watery-looking, which changed in the afternoons to fine pleasant weather. October commenced with an excess of temperature, which continued for a few days, and was succeeded by several very heavy thunderstorms; during this month the rain was most abundant, and may justly be termed the wettest month of the year; snow, hail, and fog, were observed on several occasions; an increase of frost was also registered, the general temperature of the few days in the earlier part of the month was rapidly reduced, making the mornings and nights very much cooler than had hitherto been felt. During the month of November a gradual decrease of temperature continued until the lowest temperature was registered on the 15th; average quantities of rain fell, hail and fog appeared on one occasion; but the most remarkable feature of the month was the prevalent storms of wind, attended in some cases with disastrous results; on several of the days fine open weather was noted, interspersed with frequent light showers of rain. The month of December was remarkable for the prevailing high temperature, which attained on Christmas Day 70° in the sun; the average temperature of this month was higher than that of November, though frost was more frequent; the few showers of rain that did occur were so slight that the total rainfall of the whole month registered little more than one inch and a half; lightning was observed on one evening; there were also several very heavy storms of wind recorded-the one on the 16th was particularly violent, and caused much injury to life and property in many of the manufacturing towns in the middle and northern counties.

The Barometer.—The mean height of the barometrical readings for the last five years was 29.873 inches; the mean height of the readings for 1873 when reduced to the sea level, and corrected for temperature to 32° F., was 29.873 inches, or above that of last year by 155 inch. The barometer recorded its maximum height 29.675 inches (unreduced) on the 18th of February, being 177 inch above that of 1872; and its minimum 27.446 inches (unreduced) on the 20th of January, above the minimum of last year by 011 of an inch. The range between the maximum and minimum was 2.229 inches, or 175 of an inch more than that of the previous year; the mean average range for the year 1873 was 1.142 inches, or .127 of an inch above that of 1872.

The Temperature in the Shade.—The average mean temperature of the air for the last five years was  $45^{\circ}1$ ; the mean temperature of the air for  $1873 \text{ was } 45^{\circ}2$ , or  $^{\circ}7$  lower than that of last year. The maximum degree of temperature in the shade was  $88^{\circ}$  on the 22nd of July, or  $3^{\circ}5$  above that of the three previous years; the minimum  $6^{\circ}5$  was registered on the 24th of February, being a deficiency of  $9^{\circ}$ on the amount of the former year. The total annual range is  $81^{\circ}5$ , or  $11^{\circ}$  more than that of 1872; the mean monthly range is  $39^{\circ}9$ , or  $1^{\circ}4$  more than that of the previous year. The mean diurnal range  $14^{\circ}7$  shows an increase of  $0^{\circ}2$  on that of 1872. The greatest range of temperature that occurred on one day was  $38^{\circ}$  on the 30th of May, and the least  $2^{\circ}5$  on the 23rd of November.

Radiation.—The maximum degree of solar radiation was 99°, on the 22nd of July, which was 2° above that of the previous year; the minimum degree of the terrestrial radiator was 11° on the 22nd of February, below that of the previous year by 5°. The total annual range between the maximum and minimum radiators was 88°, showing an increase of 7°. The mean average monthly range of radiation for the year was 53°4; the greatest range of radiation occurring in one day was 58°5 on the 30th of May; and the least 4° on the 30th of January and the 2nd of February. There were 162 nights on which the temperature was at 32° or below, which shows an increase of 43 nights over the amount in the previous year.

The Hygrometrical Condition of the Atmosphere.—The average mean temperature of the dew point for 1873 was 42°1, 0°2 below the mean of 1872; the mean degree of humidity ('951) was above that of 1872 by '106 of a degree, that is, assuming 1.000 as a standard point when the atmosphere is thoroughly saturated with moisture. The average mean amount of elastic force of vapour was '276 inches, or '002 of an inch more than that of 1872; the mean weight of vapour in a cubic foot of air was 3.14 grains, or '03 grains more than that of the previous year; the mean amount of additional vapour required to saturate a cubic foot of air was '6 grains, or '07 grains less than the quantity required in 1872.

The Rainfall.—The average mean amount of rainfall at Buxton for the last nine years was 51.731 inches. The amount collected at Buxton for 1873 was 43.271 inches, or 27.080 inches less than in 1872. The maximum fall of rain during 24 hours was 1.205 inches on the 21st of October. Rain, snow, &c., fell on 212 days during 1873, being 63 days less than in 1872. The rain guage at Poole's Cavern furnishes a total for 1873 of 44.630 inches; the greatest fall during 24 hours was 1.430 inches on the 21st of October; rain, snow, &c. fell on 190 days, being 53 less than the previous year. The total rainfall on Axe Edge was 36.010 inches, showing a decrease of 18.610 inches on the amount of 1872. The average fall for the district was 41.303 inches.

Wind.—The average of the mean directions of the wind may be proportionately represented by the following numbers, viz.,—W. 11, N. 7, S. 4, and E. 2. The mean estimated force was 1.7, or .2 more than that of the past year. The mean average number of miles traversed by the wind daily was 230.

Cloud.—The mean estimated amount of cloud was 7.2, or .6 less than the mean of 1872. September, April, and July, were the least cloudy months of the year.

  - Out-Patients will be attended by one of the Medical Staff every Wednesday and Saturday, at 3 p.m.

#### General Rules and Regulations for Subscribers.

- A Life Subscription of Twenty Guineas shall entitle a Subscriber to recommend One In and Two Out-Patients annually.
  - An Annual Subscription of One Guinea shall entitle a Subscriber to recommend One In or Four Out-Patients; but no annual Subscriber shall send a Patient until he has been a Subscriber for at least three months; nor until his Subscription for the current year is paid.
  - All Subscriptions shall be considered as due in advance on the 1st of January in each year. Subscriptions not paid until after June 30th in each year, shall be considered to be in default, and shall not entitle to the recommendation of a patient unless by an extra payment of nine shillings. The Annual Subscription if paid before June 30th is One Guinea, as heretofore; and if paid afterwards, Thirty Shillings. This does not apply to new subscribers.
- 2.—Persons, not being Subscribers, may recommend an In-Patient on payment of 30s., subject to the same rules as Patients recommended by Subscribers.
  - Subscribers of One Guinea per annum are allowed to send, in addition to the Patient eligible from the subscription, Three Out-Patients per annum, by paying 7s. with each.
  - Any Clergyman or Minister kindly preaching a Sermon or Sermons, on any one day, in aid of the Funds of the Hospital, and contributing therefrom not less than 3*l*., shall be entitled to one In or four Out-Patients' recommendations.
  - No money shall be received as a Subscription which can in any way be regarded as the proceeds of any public collection, or offertory, in any place of worship; but all such sums shall be received as donations, with the privileges defined in this rule.
- 3.—Visitors to the Hospital are particularly requested not to interfere between the Patients and Medical Staff under whom they are placed.
- 4.—No Patient can be admitted without producing a medical certificate that the case is a proper case for the Devonshire Hospital.
- 5.—Persons suffering from any incurable or infectious disorder—women more than six months advanced in pregnancy—persons in the last stage of consumption—or afflicted with itch, ulcers, fits, or insanity—or infested with vermin—cannot be admitted as In-Patients; or, if inadvertently admitted, cannot be allowed to remain.

All Cheques and Post Office Orders to be made payable to the Treasurer, Mr. Samuel Turner, Sylvan Park, Buxton; or Subscriptions may be paid into the Sheffield and Rotherham Bank, Buxton.

All Communications to be addressed to Mr. Joseph Taylor, Secretary, Devonshire Hospital, Buxton.
