The Buxton mineral water is discharged from several openings in very large quantities, at the temperature of 82 degrees, Fahrenheit. It is charged with nitrogen gas in, probably, a larger degree than any other mineral water; being estimated by Dr. Lyon Playfair to contain at the moment of issue no less than 206 cubic inches of nitrogen gas per gallon; and by Dr. Sheridan Muspratt, the more recent analyst, to contain no less than 504 cubic inches per gallon. This gas is presented in water, which has, otherwise, alkaline, earthy, and saline properties; and is remarkably detergent and softening to the skin when used as a bath; while it is free from odour or disagreeable taste, is clear and bright in its appearance, and of a singularly beautiful faintly blue colour.

The medicinal action of the water, whether used as baths, or drank, has been from time immemorial known to be great in relieving or curing all conditions of a rheumatic or gouty character. It is stated by Dr. Jones, so long ago as the year 1572, that it was then used for the relief of the same ailments as it is at the present time.

Dr. Jones says that in his time, Buxton was much resorted to by poor afflicted persons; and towards the end of the sixteenth century this was considered to be so serious an injury by the inhabitants of the adjoining chapelry of Fairfield, as to render them unable to provide funds for the maintenance of their chaplain, by reason of the urgent and continued claims of the many poor sufferers resorting to the Buxton Baths, as set forth in a petition on this matter addressed by them to Queen Elizabeth. These poor persons had been from time immemorial so far aided, as to have had gratuitous baths of the mineral water provided for them; and there seems to have been a fund called the "Treasury of the Bath," by which their pecuniary necessities were more or less ministered to. Dr. Jones writes, in reference to this fund, what may be quoted in this place :-- "If any think this magisterial imposing on people's pockets, let them consider their abilities and the sick poors' necessities, and think whether they do not in idle pastimes throw away in vain, twice as much yearly; it may entail the blessings of them who are ready to perish upon you, and will afford a pleasant after-reflection. God has given you physic for nothing; let the poor and afflicted (it may be members of Christ) have a little of your money,-it may be the better for your own health: Heaven might have put them in your room and you in theirs; then a supply would have been acceptable to you."

Beyond this somewhat vague earlier history, there is no record of the Buxton Bath Charity until the year 1785, of which date there is extant at the hospital, a document (vide page 25), apparently an

annual report of the Institution, from which time the use of the baths and waters and pecuniary aid had been regularly given to the poor patients until the year 1859, when the Devonshire Hospital was provided for the reception of the patients.

It has been gathered from the annual reports that in the eighteen years from 1820, 14,906 patients were admitted to the benefits of the Charity, of which number 12,608 were discharged as cured or much relieved.

In the twenty following years, from 1838 to 1858, 23,319 patients were admitted; and of these, 16,575 were cured or much relieved; 5,859 were relieved in some degree; and 885 were no better at the time of discharge.

The Devonshire Hospital was opened for the reception of the patients of the Charity in the year 1859. It is the successful result of the conversion of a very extensive range of building, erected and used as stables since the commencement of the present century. The structure, which is of important and substantial character, surrounds a parterre of considerable extent, and contains a colonnade of handsome proportions, is situated on a commanding eminence, presenting views of the town and valley of Buxton, and is near to the baths, the railway stations, and the principal buildings.

From the year 1820, then, to the beginning of September, 1858, when the Hospital was opened, or in 38 years, the Institution had received 38,225 patients; of which number 35,042 were beneficially treated, and 2.183 were very partially if at all relieved. During those 38 years the Buxton Bath Charity received, on an average, upwards of 1,000 patients every year, and afforded cure or marked relief to 922 of that number. To a very large proportion of this important number of poor sufferers, chiefly from chronic rheumatism, the Charity gave a weekly allowance of 6s. during their stay in Buxton, in addition to all other benefits; until the funds became so seriously impaired that the weekly money allowance was necessarily reduced to 5s., at which sum it remained until the opening of the Hospital. From the time of reducing the weekly money allowance, the pecuniary prosperity of the Buxton Bath Charity may be dated. The funds accumulated year by year, until the time of rebuilding the Buxton baths, on the part of the Duke of Devonshire, when a capital of nearly £3,000 had been gathered together by the scrupulous management of the Trustees. The names may be mentioned, first and particularly, of the late Bishop Spencer, at one time trustee, and incumbent of Buxton, and more recently one of the Vice-Presidents of the Hospital : of Mr. Heacock, and Mr. Smithers, its successive Treasurers; and of Sir Charles Scudamore, Mr. Page, Mr. Cumming, Dr. Carstairs, and the Rev. R. P. Hull Brown,-as being no longer alive to witness and take part in the present development of the Charity; and also in order of seniority as to connection with the Institution, of Dr. Robertson, and of the Hon. and Rev. F. R. Gray, as still living to rejoice in the well-doing of the Buxton Charity and its Hospital. Of these £3,000, £500 was judiciously expended on the

rebuilding of the Charity Natural Baths; the large remaining sum which those baths cost, and the whole cost of the Hot Baths of the Charity, having been paid by the munificence of the late Duke of Devonshire. Again, in 1853-4, when the proposal of an hospital to receive the patients of the Institution was brought before the public by Mr. Smithers and the other Trustees, the sum of £1,000 from the accumulated fund was given towards the Hospital; leaving a residue of £1,500 consols, which sum remains thus invested. (See Estate Account.)

The history and doings of the Buxton Bath Charity have thus been summarily brought down to the time of forming the Hospital, the expenses of which were defrayed by the individual and collective liberality of the Trustees; by special subscriptions from the public; by the proceeds of a bazaar, that was bountifully supplied and supported, &c.—a total sum of £6,000 having been thus got together, and expended on the conversion of this valuable building to hospital purposes. This conversion with its anxious details and successful results, was mainly due to the untiring exertions of the late Mr. Wilmot, aided by the architectural skill of Mr. H. Currey, and the liberal consideration of the late Duke of Devonshire.

It forms an interesting episode in this history, that, in the winter of 1862-3, during what will be long remembered as the Cotton Famine, a special fund was obtained, chiefly by the exertions of the late Mr. Wilmot, and 100 young women, under 30 years of age, selected by the Relief Committees of their respective towns, as being most likely to be benefited by the change of air and the comforts of the Hospital, were received, and taken care of, as to food, and as to medicines, and restored to their homes in the subsequent spring, with renovated health and strength, and full of gratitude for what they had received. The balance of the subscriptions amounting with interest, to £256, was invested as a separate fund for ever, to enable poor female operatives from factory towns to be received into the Hospital.

A very important circumstance in the history of the Hospital is that the grounds in front of it have been, with much kind consideration, made over to the Institution, on the part of the Duke of Devonshire, maintaining the detached position of the building, enhancing its appearance, and adding to the out-door advantages of the patients.

The building is the property of his Grace the Duke of Devonshire; and the conversion of it to the use of the Hospital for ever, on the payment of the rent of £5 yearly, was benevolently granted by the late Duke of Devonshire, as testified on the stone over the principal entrance, on which is inscribed: "The last munificent Charity of William Spencer, 6th Duke of Devonshire, K.G., who allowed these buildings to be converted to the use of the sick poor, January, A.D. 1858." A considerable sum of money that had been collected for the construction of the Hospital was expended upon the work. The walls and roof of the structure were fortunately found to be in good preservation; the interior was entirely removed, and re-arranged; the subsoil carefully taken away; and about two-thirds of the building

occupied for the purposes of the Hospital, by a chaplain's house, a dispensary, and a dispenser's apartments, a house for the master and matron, kitchen, day-rooms, dining-hall, and spacious dormitories, affording separate beds for 120 patients, in addition to the beds provided for cases of accident, and in addition to the rooms required for the servants of the establishment.

During the year 1868, a legal Conveyance of the buildings and grounds of the Hospital was given to the Trustees by the present Duke of Devonshire, at the nominal rent of five shillings yearly, on the condition that they shall be used exclusively for the purposes of the Charity. (A copy of the Conveyance is appended at page 17.)

During the year 1872, the duties of Chaplain to the Hospital were kindly undertaken by the Vicar of Buxton, and the Chaplain's House was converted to the general purposes of the Hospital; the number of beds for patients was raised to 150; and better accommodation afforded to the out-patients, Dispensary, &c.

During the twenty-two years since the Hospital was opened, there have been 29,228 patients under treatment, of which number 25,396 have been treated beneficially; and 3,246, or about one-ninth of the whole, were not suffering from any of the forms of rheumatism, but were such cases as are ordinarily met with in hospitals. On the average of the twenty-two years, the patients remained under treatment 24.08 days; and 25,982 cases of rheumatism, embracing every conceivable variety of this obstinate disease, were thus extensively relieved by the remedial agency of the Buxton mineral waters.

The year 1879 must be lastingly and especially memorable in the history of the Hospital, as dating the formal execution of the agreement between the Governors of the Cotton Districts Convalescent Fund and the Trustees of the Charity, as to the extension of the Hospital to the whole of the great building-its entire re-arrangement, raising the number of beds for patients to 300-and enabling the remainder of the stables to be removed from the neighbourhood of the building-and securing, moreover, additional baths to any extent that future wants may render desirable. The accommodation for 300 patients is secured by the removal of the two walls which traversed the entire circuit of the main building, and formed the corridor communicating with the various wards, &c., thus throwing open the whole space from the outside to the inside of the building, giving inner and outer windows to all the wards, increasing the internal area very greatly, and providing ample space for wards and day-rooms, to receive and accommodate 300 patients. But this has rendered necessary the supply of an independent means of access to all the rooms of the Hospital, which could only be obtained by covering the interior, and giving access to the ground floor rooms from the floor of the inner basement, and to the rooms of the upper floor from a gallery above this. This arrangement has, however, not only supplied the means of access to all parts of the Hospital, but has practically detached all the wards from one another, almost giving the advantage of the deservedly praised pavilion-

principle of Hospital construction; while it has facilitated the ventilation of the whole building to an important degree and increased the full and ready admission of light to every part of the interior; while a fire-proof gallery has given all possible security in the event of fire; and the great, covered, dry, warmed area of half-an-acre, canopied by the largest dome that is known to have ever been erected, will supply very obvious and valuable contingent advantages for religious service, and the exercise and recreation of the patients in cold or wet weather; advantages which may well represent a value to the afflicted and often crippled inmates worth as much or more than the cost incurred. As the whole of the main building is now devoted to the patients of the Hospital, new buildings have been erected on the North side for all purposes that might be desirably detached,-such as kitchens and kitchen offices, laundries, engineroom, cellars, store-rooms, bedrooms for household servants, and separate wards for accident cases, &c. The twenty-four thousand pounds to be expended from the Cotton Districts Convalescent Fund, giving a prior claim on the additional beds to the nominees of the Governors of the Fund, and thereby adding to the expectation of the full use of the powers of the Hospital by the needy sufferers from rheumatic affections, may probably be the most judicious and admirable of the many wise objects upon which the large benefactions of the Cotton Districts Convalescent Fund have been bestowed. It may surely be reasonable subject of regret, if-after all this shall have been accomplished-after the expenditure, the most wise and economical expenditure, of twenty-four thousand pounds, by the governors of the Cotton Districts Convalescent Fund, for the extension of the Hospital, the building shall have to be left without the completion of the entire plans of the architect, if its exterior effect shall be blemished by the absence of an adequate portico to cover and shelter its principal entrance, if the character of the building should want any effect that could be given by a higher structure, which would be useful as a muniment room and a clock tower. It is of no moment under what pretext this completion may be asked for; but it cannot be matter of doubt, that, if the supporters of the Hospital could be collected, and could see and judge for themselves as to the value of what is asked for, the contracts would not be allowed to expire under which the extension is being carried out, the building would not be allowed to remain uncompleted for deficiency of funds, but the additional three thousand pounds required would be given at once and most readily, to secure a result that could not but be admitted to be more than commensurate with the outlay.

This prefatory account has seemed to be needful for the information of those not already acquainted with the nature and merits of this. Institution.

## REPORT

#### OF THE

# COMMITTEE OF MANAGEMENT

## FOR THE YEAR 1880.

The members of the Committee of Management are thankful to be able to report the continued and great usefulness of the hospital, adding, as it has done, during the last twenty-two years to the value of the ancient Buxton Bath Charity, affording board and lodging, and every desirable care and attendance, to the patients of the institution.

Notwithstanding the very great interference from the works and progress of the extension of the hospital with the reception-powers of the building, 1,189 in-patients were admitted during the year 1880. The interference has been mainly occasioned by the necessity of erecting and fixing the great central dome throughout the whole of its circumference at the same time, producing occasional anxiety lest it might become necessary to discontinue the work of the hospital altogether during a longer or shorter interval. The difficulty, however, has been met, and met so far satisfactorily that the large number of patients have been received, and that of the 1,189 in-patients, 1,067 were discharged improved, 86 were no better at the time of discharge, 7 were discharged at their own request, one was discharged for refusing the treatment ordered, two left without report, three died, and 23 remained on the books at the end of the year. It must be matter of thankfulness that the work of the hospital has not been interfered with to a much larger degree, and that the results have not been affected : the orderly maintenance of the establishment having been secured, and the curative and restorative results having been obtained in full proportion to any previous experience from the work of the hospital. It is gratifying to be empowered by the architect to state, that when the pressure arrives in March and April from the applications for admission, the full average may be expected to be receivable, and that probably a larger amount of hospital work may be looked for at the end of the year 1881 than has ever yet been registered.

The number of out-patients admitted during the year was 290. Of these, 220 were discharged as improved, 7 as no better, 3 at their own request, the large number of 55 left without report, and 5 remained on the books at the end of the year. The unreported cases are necessarily unsatisfactory to all concerned, and can only be dealt with by the subscribers recommending them. The majority of these patients consist of those who cannot obtain in-patients' recommendations; but some of them are of a better class, although deserving the utmost charitable consideration; and some consist of those who cannot defer the visit to Buxton until vacant beds in the hospital are obtainable.

It had always been matter of regret that no report was given as to the final result of the hospital treatment; and during the last seven years, a form, printed on a postal card, has been given to every in-patient on leaving the hospital, to be filled up and returned six weeks after discharge. During the seven years 7,695 of these cards have been received; and 5,579 are reported as improved; 2,077 as no better; and 39 as having died. The long duration, the chronic character, and the severity of many of these cases must be borne in mind in estimating the value of the record. It may be imperfect at the best. Any remaining lameness would influence the report, or any other salient interference with perfect health, strength, or ability, notwithstanding any amount of general improvement in most particulars, constitutional and otherwise.

The average number of patients daily resident in the hospital throughout the year has been 88. The number in the hospital has, as usual, varied considerably. The building was necessarily closed as to the admission of patients during January and February. But in these months as a rule few patients would have been sent. The average number of beds occupied during March was 48; during April and May, 60; during June, 89; during July, August, September, and October, the average was as high as it was found possible to receive; falling in November to 77, and in December to 69. To economise to the greatest degree the means of the hospital, the subscribers should send patients as nearly as possible in the same ratio throughout the year, enabling more work to be done, and lessening the delay in the reception of the patients. As usual, during the present year, much delay was suffered during the pressure of the applications, intensified by the lessened means of accommodation which it may be trusted will never occur again.

The average number of days in hospital per patient has been 22.5; the cost of every in-patient for three weeks has been  $\pounds 2$ . 11s. 24d.; and the cost of every patient, per day, has been 2s. 54d. While a large part of the cost is due to the adequate restorative dietary of the hospital, some part is the result of extra diets, considered necessary for the more invalided cases, and specially ordered by the members of the Medical Staff. One great difficulty may always be, to hold a middle course between kindly expenditure on the wants and well-being of the patients, and unwise or needless outlay. The matter can only be constantly pressed upon the consideration of the executive.

The financial position of the hospital has been less affected, on the whole, by the general depression of the money interests of the kingdom than might have been expected; and it has probably suffered less from this cause than most similar institutions. The amount of annual subscriptions has been fractionally greater than in the previous year; the amount of casual subscriptions has been less in direct proportion to the smaller number of patients receivable; and the same remark applies to the sums received for extra time during which patients have been allowed to remain in the hospital. The several sums received under the heads of donations, collections in hotels and lodging-houses, offertories and collections in churches, have been nearly the same as during the previous year. The total receipts are less than those of the year preceding by £320 19s. 1d.; and the total expenditure has also been less in consequence of the inability to receive the usual number of patients.

There has been one legacy received during the the year, bequeathed by Miss Jane Wheatley, a kind subscriber and benefactor to the hospital during. a very long time.

## The life subscriptions received during the year amount to £84.

The total sum obtained from offertories and collections in churches and chapels during the year has amounted to £176 18s. Offertories have been only granted in the Buxton churches on one Sunday during the year. Those at St. John's and St. James' Churches have amounted to £107 16s. 11d. Efforts have been made during recent years, by the unanimous wish of the members of the Committee of Management, to obtain united action in aid of the hospital from all the churches and chapels of Buxton and its neighbourhood on a given Sunday of the year. This wish has been readily and kindly responded to by the clergy and ministers of Buxton, Trinity Episcopal Chapel (Buxton), Burbage, Harpur Hill, Wormhill, Bentley (near Ashbourne), Bottesford, Alfreton, Belvoir Castle, New Mills, Northenden, Bradbourne, Staley, Ballidon, Mansfield Woodhouse, Aldwark Mission-room, Buxton Congregational Church, and Malvern House, Buxton. It is a subject of reasonable regret that collections have not been obtained from any other churches and chapels. Much more might be expected to be received from these influential sources of benevolent action, and especially when situated in the manufacturing centres of population, obtaining, as these towns and districts do, a very large proportion of the benefit derived from the operations of the hospital.

The works of the hospital extension, as they advance, and approach more and more nearly to completion, realise most satisfactorily the great gain that may be hoped for to the future well-doing of the institution. The thorough and satisfactory character of the construction, the enlarged area of all parts of the interior, the greater number and increased size of the windows, the fireproof access to all the wards, the detached security of all of the wards, and the sanitary effect of this, and the character and capacity of the dome-covered interior, cannot but be full of advantage in the working of the hospital. The convenient arrangement of the cellars and store-rooms, the kitchens and various offices, the business-rooms, receiving-rooms, dispensary, &c., the detached building for surgical uses and accident cases, the detached provision for any infectious case that may at any time unhappily have found admission, will, it is trusted, supply so many elements of great good, and might well be considered to have been indispensable. The detailed account of the extension has now been repeatedly brought before the subscribers to the hospital; and it need only perhaps be added that, although the munificent grant of £24,000 from the Governors of the Cotton Districts Convalescent Fund is intended to cover the entire cost of the extension, and has been provided for accordingly, under binding contracts with eminent and responsible contractors, there must remain smaller items of necessary or desirable outlay, that would minister to the satisfactory working of the hospital, and more or less to the comfort and advantage of the patients, and that donations and benefactions in aid of such expenditure would be thankfully received and of unquestionable advantage. When it is seen how much of valuable detail has been foreseen and provided, it will be admitted how much skill and care have been exercised on this behalf; but it must be expected, in so complicated a construction, with the various and multiplied wants that the working of a hospital must develop, that such unforeseen and desirable items of expenditure will present them-The cost of the patients, so much above the sum received from selves. the annual subscribers for the privilege of recommendation, justifies the desirability that the general funds of the hospital should be taxed as little as possible for any extraordinary expenditure, however important. The attention of the supporters of the hospital is anxiously requested on this behalf.

Dr. Robertson has again been unanimously re-elected Chairman of the Board of Trustees and Committee of Management.

The Sheffield and Rotherham Banking Company have again been unanimously re-elected Treasurers of the Hospital.

The Chairman is *ex officio* a member of the House Committee, and Mr. R. R. Duke, Mr. I. Walton, Mr. P. Le Gros, and Dr. Dickson have again been unanimously re-elected members of this Committee; and Mr. Josiah Taylor has been unanimously elected to fill a vacancy occasioned by the resignation of Mr. J. W. Taylor.

The Chairman is *ex officio* a member of the Building Committee; Mr. I. Walton and Mr. E. C. Milligan have been unanimously re-elected members of this Committee; and the Rev. W. Malam has been also unanimously elected as a member.

Mr. A. Schofield and Mr. S. Taylor have again been unanimously reelected Auditors.

The thanks of the Committee are hereby tendered to the Clergymen and Ministers who have allowed sermons to be preached in their churches and chapels on behalf of the hospital; and also to the clergymen and ministers who have preached the sermons.

The sermons preached on behalf of the hospital in the churches and chapels of Buxton were by the Very Rev. the Dean of Bangor, the Rev. Gage Earle Freeman, M.A.; the Rev. J. G. H. Stamper, the Rev. G. O. Holt, the Rev. R. Rowton, M.A.; the Rev. A. A. Bagshawe, M.A.; the Very Rev. Dean Bagot, and the Rev. J. W. Blore. The Dean of Bangor preached on behalf of the hospital in both St. John's and St. James' Churches.

The thanks of the Committee are hereby tendered to the proprietors of the hotels and lodging-houses of Buxton, and also to the presidents at the public dinner tables of the several hotels, to the managers and attendants, and to all who in any way have exerted themselves to obtain support for the hospital. The powers of the institution depend much on these exertions. The interests of Buxton are so greatly promoted by the prosperity and usefulness of the hospital, that the claims of the institution are urged upon the inhabitants as being identical with the interests of the town.

The thanks of the Committee are hereby tendered to the Chairman and members of the Buxton Local Board, for permission to place conspicuously in St. Ann's Well a newspaper box in aid of the hospital.

The thanks of the Committee are hereby tendered to the Chairman and Directors of the Palace Hotel Company, for permission to place conspicuously in the Entrance Hall of the Hotel, a donation box in aid of the hospital.

The thanks of the Committee are hereby tendered to the Chairman and Directors of the Buxton Improvements Company, for permission to place conspicuously at the entrance to the Pavilion, a donation and newspaper box in aid of the hospital.

The thanks of the Committee are hereby tendered to the Proprietors of the Newspapers, in which the quarterly reports, weekly reports, and meteorological reports from the hospital are inserted. In no way can the interests of the charity be more effectually promoted.

The thanks of the Committee are hereby tendered to the ladies and gentlemen who have acted as Visitors to the hospital during the several months of the year. The value of such services may be obviously very important. It is hoped that it will be increasingly felt that these official visits should be frequent, and that the visits should not be of merely formal character, but that details should be enquired into, and any suggestions and remarks entered in a book for that purpose.

## The life subscriptions received during the year amount to £84.

The total sum obtained from offertories and collections in churches and chapels during the year has amounted to £176 18s. Offertories have been only granted in the Buxton churches on one Sunday during the year. Those at St. John's and St. James' Churches have amounted to £107 16s. 11d. Efforts have been made during recent years, by the unanimous wish of the members of the Committee of Management, to obtain united action in aid of the hospital from all the churches and chapels of Buxton and its neighbourhood on a given Sunday of the year. This wish has been readily and kindly responded to by the clergy and ministers of Buxton, Trinity Episcopal Chapel (Buxton), Burbage, Harpur Hill, Wormhill, Bentley (near Ashbourne), Bottesford, Alfreton, Belvoir Castle, New Mills, Northenden, Bradbourne, Staley, Ballidon, Mansfield Woodhouse, Aldwark Mission-room, Buxton Congregational Church, and Malvern House, Buxton. It is a subject of reasonable regret that collections have not been obtained from any other churches and chapels. Much more might be expected to be received from these influential sources of benevolent action, and especially when situated in the manufacturing centres of population, obtaining, as these towns and districts do, a very large proportion of the benefit derived from the operations of the hospital.

The works of the hospital extension, as they advance, and approach more and more nearly to completion, realise most satisfactorily the great gain that may be hoped for to the future well-doing of the institution. The thorough and satisfactory character of the construction, the enlarged area of all parts of the interior, the greater number and increased size of the windows, the fireproof access to all the wards, the detached security of all of the wards, and the sanitary effect of this, and the character and capacity of the dome-covered interior, cannot but be full of advantage in the working of the hospital. The convenient arrangement of the cellars and store-rooms, the kitchens and various offices, the business-rooms, receiving-rooms, dispensary, &c., the detached building for surgical uses and accident cases, the detached provision for any infectious case that may at any time unhappily have found admission, will, it is trusted, supply so many elements of great good, and might well be considered to have been indispensable. The detailed account of the extension has now been repeatedly brought before the subscribers to the hospital; and it need only perhaps be added that, although the munificent grant of £24,000 from the Governors of the Cotton Districts Convalescent Fund is intended to cover the entire cost of the extension, and has been provided for accordingly, under binding contracts with eminent and responsible contractors, there must remain smaller items of necessary or desirable outlay, that would minister to the satisfactory working of the hospital, and more or less to the comfort and advantage of the patients, and that donations and benefactions in aid of such expenditure would be thankfully received and of unquestionable advantage. When it is seen how much of valuable detail has been foreseen and provided, it will be admitted how much skill and care have been exercised on this behalf; but it must be expected, in so complicated a construction, with the various and multiplied wants that the working of a hospital must develop, that such unforeseen and desirable items of expenditure will present them-The cost of the patients, so much above the sum received from selves. the annual subscribers for the privilege of recommendation, justifies the desirability that the general funds of the hospital should be taxed as little as possible for any extraordinary expenditure, however important. The attention of the supporters of the hospital is anxiously requested on this behalf.

Dr. Robertson has again been unanimously re-elected Chairman of the Board of Trustees and Committee of Management.

The Sheffield and Rotherham Banking Company have again been unanimously re-elected Treasurers of the Hospital.

The Chairman is *ex officio* a member of the House Committee, and Mr. R. R. Duke, Mr. I. Walton, Mr. P. Le Gros, and Dr. Dickson have again been unanimously re-elected members of this Committee; and Mr. Josiah Taylor has been unanimously elected to fill a vacancy occasioned by the resignation of Mr. J. W. Taylor.

The Chairman is *ex officio* a member of the Building Committee; Mr. I. Walton and Mr. E. C. Milligan have been unanimously re-elected members of this Committee; and the Rev. W. Malam has been also unanimously elected as a member.

Mr. A. Schofield and Mr. S. Taylor have again been unanimously reelected Auditors.

The thanks of the Committee are hereby tendered to the Clergymen and Ministers who have allowed sermons to be preached in their churches and chapels on behalf of the hospital; and also to the clergymen and ministers who have preached the sermons.

The sermons preached on behalf of the hospital in the churches and chapels of Buxton were by the Very Rev. the Dean of Bangor, the Rev. Gage Earle Freeman, M.A.; the Rev. J. G. H. Stamper, the Rev. G. O. Holt, the Rev. R. Rowton, M.A.; the Rev. A. A. Bagshawe, M.A.; the Very Rev. Dean Bagot, and the Rev. J. W. Blore. The Dean of Bangor preached on behalf of the hospital in both St. John's and St. James' Churches.

The thanks of the Committee are hereby tendered to the proprietors of the hotels and lodging-houses of Buxton, and also to the presidents at the public dinner tables of the several hotels, to the managers and attendants, and to all who in any way have exerted themselves to obtain support for the hospital. The thanks of the Committee are hereby tendered to the Chairman and Directors of the Palace Hotel Company, for permission to place conspicuously in the Entrance Hall of the Hotel, a donation box in aid of the hospital.

The thanks of the Committee are hereby tendered to the Chairman and Directors of the Buxton Improvements Company, for permission to place conspicuously at the entrance to the Pavilion, a donation and newspaper box in aid of the hospital.

The thanks of the Committee are hereby tendered to the Proprietors of the Newspapers, in which the quarterly reports, weekly reports, and meteorological reports from the hospital are inserted. In no way can the interests of the charity be more effectually promoted.

The thanks of the Committee are hereby tendered to the ladies and gentlemen who have acted as Visitors to the hospital during the several months of the year. The value of such services may be obviously very important. It is hoped that it will be increasingly felt that these official visits should be frequent, and that the visits should not be of merely formal character, but that details should be enquired into, and any suggestions and remarks entered in a book for that purpose. The thanks of the Committee are hereby tendered to the members of the Medical Staff for their gratuitous services to the hospital. Any adequate pecuniary compensation for these services must be always beyond the means of the institution, and probably would not be received from the charity if it could be offered.

The thanks of the Committee are hereby tendered to the Honorary Chaplain, to Dr. Sykes (as meteorologist), to the Treasurers, to the Auditors, and to the various Officials, whether honorary or otherwise, who, in their several capacities, have served the hospital during the year.

It will be noticed that the annual meeting of subscribers is to be held on the first Saturday in April, at half-past three o'clock in the afternoon. It is wished that the later period of the year may induce some of the subscribers who reside a distance from Buxton to attend the meeting.

The statement is submitted of the revenue account for the year ending December 31st, 1880, and also the estate account, and general balance sheet, together with the annual statement of the Wilmot Relief Fund account.

There is a nucleus for a Samaritan Fund, kindly and chiefly contributed by Frederick Cooper, Esq. (Inspector General of Hospitals), aided by J. H. Challis, Esq., Miss Hall, Douglas Hebson, Esq., A. Hardwick, Esq., Mrs. Jackson, Mrs. Garner, G. Walton, Esq., Dr. Sanderson, the Rev. T. France-Hayhurst, F. A. Burrows, Esq., J. J. Edgar, Esq., Mrs. Nesfield, the Rev. F. G. Hodgson, M.A., the Rev. B. Winfield, Henry Robinson, Esq., Mrs. Pym-Reading, and the "King William the Fourth" Lodge of Oddfellows, Chesterfield, intended for the relief of urgent cases of distress on being discharged from the hospital, the interest of which is available at the discretion of the officials, under the authority of the House Committee. During the past year a portion of the small fund thus accruing has been utilized for the relief of urgent and necessitous cases. Contributions to this fund are earnestly solicited. The statement of account is submitted for the past year.

It is gratifying to state that Miss Mitchell, Miss M. Lucas, and Mrs. Welby, have again sent a quantity of warm clothing, comforters, knee eaps, &c., for the patients; and that Mrs. Philips, Miss Trimmer, Mrs. J. Haworth, Miss Ross, Mrs. Wickman, Miss Appleyard, Miss Thexton, Miss Holdgate, the Dowager Lady Barrow, Miss Giles, Mrs. D. Richardson, Mrs. Luck, the Rev. F. Parker, Mr. W. Appleton, Captain Cozens, Mr. W. Walker, Mr. J. Brown, Mr. J. C. Bates, Mr. C. Howard, and various other ladies and gentlemen, have sent books, illustrated newspapers, periodicals, tracts, &c., for the use of the patients; and that Mrs. Parker has presented draughts, chessmen and boards, and appliances for other games for the entertainment of the patients. The Vicar of Buxton and the Incumbent of Harpur Hill have very kindly presented the offerings of fruit and flowers from the harvest festivals in their respective churches. Mr. Aronsberg, of Manchester, has kindly presented twenty-four thermometers for the uses of the hospital.

Lists have been prepared and inserted, as usual, of the residences, and of the occupations and trades, of the in-patients admitted during the year 1880. In this and other ways, endeavours have been made to comply with wishes expressed, from time to time, in medical and other newspapers.

At a meeting of the Committee of Management, held at the Hospital, on Saturday, December 4th, 1880, after the consideration and adoption of the Annual Report, it was resolved, on the motion of Mr. Henry Shaw, seconded by the Rev. W. Malam, "That the thanks of the Trustees and the Committee be given to the Chairman, Dr. Robertson, for the Report, and for his assiduous attention to the business of the Hospital.

## BUXTON BATH CHARITY, A.D. 1785.

## COPY OF REPORT OF THE CHARITY

## FOR THE YEAR 1785.

The Original is in the Hospital, and was presented by Dr. Robertson, December 29th, 1871.

## BUXTON.

RESOLUTIONS by the Stewards of the several Houses at Buxton, on behalf of the Contributors to the Charitable Fund established here, for the better regulation of the Charity, made September 13th, 1785.

#### 1st. As to the Contribution.

WHEREAS, at the commencement of this Charity, in the year 1779, instituted for the purpose of rendering the Beneficence of the Noble Proprietor and his Ancestors (in setting apart a Bath for the Use of the Poor) more extensively beneficial; two Stewards were appointed in each House kept open for the Reception of Company to receive a Contribution of One Shilling only, from each Person residing in such Houses, for the Benefit of the Charity. And upon the Departure of one of the Stewards, the departing Steward hath nominated a Successor; and in order to ascertain the Sums contributed, the Stewards for the Time being, at each House, have kept a Subscription Book, in which the Contributors have respectively written their Names and the sum of One Shilling opposite thereto; and as the Subscriptions have amounted to competent Sums, the Stewards have paid over the same to Mr. Samuel Buxton, Apothecary, in Buxton, as Treasurer, to be applied by him towards the Aid and Support of the Poor, whose Infirmities have caused them to come to Buxton for the Use of the Waters; for which Sums the said Mr. Buxton hath signed Receipts in the Subscription Books. Resolved that such practice be continued, and that no Person be permitted to subscribe a greater Sum than One Shilling in the books; and that the Receipts of Mr. Buxton, or the Treasurer for the time being, in the Subscription Books, be sufficient Discharges to the Stewards for what they receive.

Resolved, That it be recommended to future Stewards to hold an Audit on the 13th of September, yearly, to inspect the Accounts of Mr. Buxton, or of the Treasurer for the Time being, and to state Accounts of the preceding Year in like manner as the Accounts are this Day stated in the Subscription Book at the Hall. And it is declared, that the Allowance of a Duplicate of the Account by any two of the Stewards, under their hands, shall be a sufficient discharge to Mr. Buxton, and all future Treasurers.

Resolved, That all future contributors to the Charity do subscribe thereto upon the terms of these Resolutions.

### 2nd. As to the Admission of the Objects of this Charity.

Resolved, That no Inhabitant of Buxton, Fairfield, or of any place within Seven Miles distance from Buxton, be admitted to partake of the Charity; nor any Person be relieved during the months of November, December, January, February, March, or April; and that during the remaining six Months of the Year, not more than sixteen Objects, at one Time, be relieved by the Charity. And that no Person shall be admitted on any other Day than Monday in every Week, between the Hours of eight and twelve in the Forenoon; on which Day, during such Hours, the weekly allowance to each Individual shall also be paid.

# THE METEOROLOGICAL REPORT FOR 1880,

### FROM THE OBSERVATIONS TAKEN AT THE

# DEVONSHIRE HOSPITAL, BUXTON.

It once more becomes a duty and a privilege to record the meteorological history of another year. Frequent and varied have been the changes that have occurred during the defunct year 1880, in some cases particularly marked by an excess over the averages, in others showing a diminution. Some of these we naturally hope for on the one hand, while on the other we find phenomena which we would gladly dispense with, and perhaps the foremost of these is the excess of rain, or downfall in other forms, yet when we examine the number of days on which rain, &c., fell, we find a decrease of 38 rainy days, which must afford us ample room for congratulation. Snow fell on 16 days less than in 1879.

The average temperature of the air has only suffered a slight decrease, not amounting to a degree. A higher temperature in the shade was attained than in 1879.

The highest degree of radiation was a little below that of the former year, the lowest degree of radiation was higher than that of 1879, consequently the absolute range is somewhat less, but more uniform.

The mean temperature of the dew point shows an increase of 4° on that of the past year; this must be accepted as being very satisfactory, as most other hygrometrical conditions are influenced by this circumstance.

This year the South wind has not been sufficiently prominent as to be ranked among the other cardinal points. There is a decrease in the number of miles travelled by the wind. Unfortunately the months of September, October, and November have no report in this respect, on account of the Anemometer being necessarily removed to make way for the alterations now taking place at the Hospital.

The sky has evidently been clearer than in the former year; that kind of cloud formation known as the cirrus has been most prevalent, next the stratus, and lastly the cumulus; the most common combination of these being the cirrostratus.

Ozone has been more abundant this year, an increase both in the mornings and evenings being decidedly apparent.

The Barometer.—The mean height of the barometrical readings for the last eleven years was 29.912 inches; the mean height of the readings for 1880, when reduced to the sea level, and corrected for temperature to 32° F., was 30.043 inches, or above that of last year by 059 of an inch. The barometer recorded its maximum height 29.711 inches (unreduced) on January 20th, being 086 of an inch above that of 1879; and its minimum 27.647 inches (unreduced) on the 16th November, below the minimum of last year by 274 of an inch. The range between the maximum and minimum was 2.064 inches, or 360 of an inch more than that of the previous year; the mean average range for the year 1880 was 1.179 inches, or .220 of an inch above that of 1879.

The Temperature in the Shade.—The average mean temperature of the air for the last eleven years was  $46^{\circ}$ ; the mean temperature of the air for 1880 was  $46^{\circ}$ , or '9 less than that of last year. The maximum degree of temperature in the shade was 80°1 on the 4th September, or 8°2 more than that of the previous year; the minimum 12°1 was registered on the 28th January, being an increase of 8°4 on the amount of the former year. The total annual range is 68°0, or 7°6 less than that of 1879; the mean monthly range is 36°4, or °°5 more than that of the previous year. The mean diurnal range is 16°5, shows an increase of 4° on that of 1879. The greatest range of temperature that occurred in one day was 39°5, on May 3rd; and the least 2°3, on November 29th.

### METEOROLOGICAL REPORT.

Radiation.—The maximum degree of solar radiation was  $129^{\circ}4$  on the 10th August, which was  $1^{\circ}1$  less than that of the previous year; the minimum degree of the terrestrial radiator was  $9^{\circ}6$  on the 23rd January, above that of the previous year by  $3^{\circ}1$ . The total annual range between the maximum and minimum radiators was  $119^{\circ}8$ , showing a decrease of  $4^{\circ}2$ . The mean average monthly range of radiation for the year was  $86^{\circ}3$ ; the greatest range of radiation occurring in one day was  $90^{\circ}8$ , on the 17th May; and the least  $0^{\circ}7$ , on the 12th January. There were 138 nights on which the temperature was at  $32^{\circ}$  or below,which shows a decrease of 40 nights on the amount in the previous year.

The Hygrometrical Condition of the Atmosphere.—The average mean temperature of the dew point for 1880 was 42°, 4° more than the mean of 1879; the mean degree of humidity (\*892) was below that of 1879 by '060 of a degree—that is, assuming 1.000 as a standard point when the atmosphere is thoroughly saturated with moisture. The average mean elastic force of vapour was '276 inches, or '037 more than that of 1879; the mean weight of vapour in a cubic foot of air was 3.07 grains, or '36 grains more than that of the previous year. The mean amount of additional vapour required to saturate a cubic foot of air was '41 grains, or '14 grains less than the quantity required in 1879.

The Rainfall.—The average mean amount of rainfall at Buxton for the last fifteen years was 56:488 inches. The amount collected at Buxton for 1880 was 59:323 inches, or 7:426 inches more than in 1879. The maximum fall of rain during 24 hours was 2:190 inches on the 27th of October. Rain, snow, &c., fell on 162 days during 1880, being 38 days less than in 1879. The total rainfall on Axe Edge was 47:880 inches, showing an increase of '5 inch on the amount of 1879. The average fall for the Buxton district was 51:479 inches.

Wind.—The average of the mean directions of the wind may be proportionately represented by the following numbers, viz.: W. 10, N. 6, and E. 5. The mean estimated force was 1.6, or .3 less than than that of the past year. The mean average number of miles traversed by the wind daily was 129.1.

Cloud.—The mean estimated amount of cloud was 7.3, or .6 below the mean of 1879. May, March, August, January, April, and November were the least cloudy months of the year.

Ozone.—The mean monthly average amount of ozone was 51.5 in the mornings, and 37.5 in the evenings; in the month of December the greatest amount was registered.

Strong winds occurred on Jauuary 1st, 2nd, 3rd, 10th, 17th, 24th, 25th, and 31st; February 6th, 10th, 12th, 16th, 25th, and 26th; March 1st, 6th, 14th, 15th, 16th, 17th, and 18th; April 2nd, 18th, 20th, 21st, 24th, and 28th; August 15th, 25th, and 29th; September 22nd; October 3rd, 5th, 7th, 9th, 10th, 11th, 25th, 28th, and 31st; November 7th, 8th, 12th, 13th, 14th, 17th, 23rd, 25th, 26th, 27th, 28th, and 29th; and December 1st, 5th, 8th, 9th, 10th, 12th, 13th, 19th, 23rd, and 28th.
