PREFACE

The Buxton mineral water is discharged from several openings in very large quantities, at a temperature of 82 degrees, Fahrenheit. It is charged with nitrogen gas, in, probably, a larger degree than any other mineral water. This gas is presented in water which has, otherwise, alkaline, earthy, and saline properties; and is remarkably detergent and softening to the skin when used as a bath; while it is free from odour or disagreeable taste, is clear and bright in its appearance, and of a singularly beautiful faintly-blue colour.

The medicinal action of the water, whether used as baths, or drunk, has been from time immemorial known to be great, in relieving or curing all conditions of a rheumatic or gouty character. It is stated by Dr. Jones, so long ago as the year 1572, that it was then used for the relief of the same ailments as it is at the present time.

Dr. Jones says, that in his time Buxton was much resorted to by poor afflicted persons; and towards the end of the 16th century, this was considered to be so serious an injury by the inhabitants of the adjoining chapelry of Fairfield, as to render them unable to provide funds for the maintenance of their chaplain, by reason of the urgent and continued claims of the many poor sufferers resorting to the Buxton Baths, as set forth in a petition on this matter addressed by them to Queen Elizabeth. These poor persons had been from time immemorial so far aided, as to have had gratuitous baths of the mineral water provided for them; and there seems to have been a fund called the "Treasury of the Bath," by which their pecuniary necessities were more or less ministered to. Dr. Jones writes, in reference to this fund, what may be quoted in this place:—"If any think this magisterial imposing on people's pockets, let them consider their abilities and the sick poor's necessities, and think whether they do not in idle pastimes throw away in vain, twice as much yearly; it may entail the blessings of them who are ready to perish upon you, and will afford a pleasant after-reflection. God has given you physic for nothing; let the poor and afflicted (it may be members of Christ) have a little of your money,—it may be the better for your own health; Heaven might have put them in your room and you in theirs; then a supply would have been acceptable to you."

Beyond this somewhat vague earlier history, there is no record of the Buxton Bath Charity until the year 1785, of which date there is extant at the Hospital, a document (*vide* pages 37-38), apparently an annual report of the Institution, from which time the use of the baths and waters and pecuniary aid had been regularly given to the poor Patients, until the year 1859, when the Devonshire Hospital was provided for the reception of the Patients.

The air of Buxton, resting on the large area of the mountain limestone and millstone grit formations, at an elevation of 1000 feet and upwards above the sea level, must be an important factor in enhancing the health advantages of the situation of the Hospital; and the sanitary position that has been secured by the efficient drainage and sewerage of Buxton, and its conveyance to a distance from the town; and complete chemical defœcation, and the destruction of all remaining refuse in a powerful furnace, must have completed the sanitary advantages, and lessened beyond calculation the risks of zymotic or epidemic disease. The reduction of the yearly death-rate to one or one-and-a-half per cent., as recorded by Mr. Frederick Turner, the Medical Officer of Health, is the well-earned result of the well-devised action of the Buxton Local Board.

It has been gathered from the annual reports that, in the eighteen years, from 1820, 14,906 Patients were admitted to the benefits of the Charity; of which number, 12,608 were discharged as cured or much relieved.

In the twenty following years, from 1838 to 1858, 23,319 Patients were admitted; and of these, 16,575 were cured or much relieved; 5859 were relieved in some degree; and 885 were no better at the time of discharge.

The Devonshire Hospital was opened for the reception of the Patients of the Charity, in the year 1859. It is the successful result of the conversion of a very extensive range of buildings, erected and used as stables since the commencement of the present century. The structure, which is of an important and substantial character, surrounds a parterre of considerable extent, and contains a colonnade of handsome proportions, is situated on a commanding eminence, presenting views of the town and valley of Buxton, and is near to the baths, the railway stations, and the principal buildings. It is curious and interesting, that in what purports to be the first volume of a work, entitled "*Les Delices de L'Espagne et du Portugal*," dated 1707, plate 495, is an exact representation of the interior area of the Devonshire Hospital. (*See frontispiece.*) The plate is inscribed "*Palais des Rois Chrétiens à Granade, vu par dedans de la Cour.*" It does appear to be an extreme turn of what we may surely think to be Providential fortune, that such a building should have been

used as the design for stables, and the stables have become, little more than half a century after erection, a Hospital for the reception and care of the poor afflicted sufferers, resorting to Buxton for the use of its mineral waters.

From the year 1820, then, to the beginning of September, 1858, when the Hospital was opened, or in 38 years, the Institution had received 38,225 Patients; of which number 35,042 were beneficially treated, and 2183 were very partially if at all relieved. During those 38 years, the Buxton Bath Charity received, on an average, upwards of 1000 Patients every year, and afforded cure or marked relief to 922 of that number. To a very large proportion of this important number of poor sufferers, chiefly from chronic rheumatism, the Charity gave a weekly allowance of 6s. during their stay in Buxton, in addition to all other benefits; until the funds became so seriously impaired, that the weekly money allowance was necessarily reduced to 5s., at which sum it remained until the opening of the Hospital. From the time of reducing the weekly money allowance, the pecuniary prosperity of the Buxton Bath Charity may be dated. The funds accumulated year by year, until the time of rebuilding the Buxton Baths, on the part of the 6th Duke of Devonshire, when a capital of nearly £3000 had been gathered together by the scrupulous management of the Trustees. The names may be mentioned, first and particularly, of the late Bishop Spencer, at one time a trustee, and incumbent of Buxton, and more recently one of the Vice-presidents of the Hospital; of Mr. Heacock and Mr. Smithers, its successive Treasurers; and of Sir Charles Scudamore, Dr. Robertson, Mr. Page, Mr. Cumming, Dr. Carstairs, the Rev. R. P. Hull-Brown, and the Rev. the Honourable F. R. Grey, as being no longer alive to witness and take part in the present development of the Charity. Of these £3000, £500 was judiciously expended on the rebuilding of the Charity Natural Baths; the large remaining sum which those Baths cost, and the whole cost of the Hot Baths of the Charity, having been paid by the munificence of the 6th Duke of Devonshire. Again, in 1853-4, when the proposal of a Hospital to receive the Patients of the Institution was brought before the public by Mr. Smithers and the other Trustees, the sum of £1000 from the accumulated fund was given towards the Hospital; leaving a residue of £1500 Consols, which sum remains thus invested. (See Estate Account.)

The history and doings of the Buxton Bath Charity have thus been summarily brought down to the time of forming the Hospital, the expenses of which were defrayed by the individual and collective liberality of the Trustees; by special subscriptions from the public; by the proceeds of a bazaar, that was bountifully supplied and supported, &c.—a total sum of £6000 having been thus got together, and expended on the conversion of this

valuable building to hospital purposes. This conversion, with its anxious details and successful results, was mainly due to the untiring exertions of the late Mr. E. W. Wilmot, aided by the architectural skill of Mr. H. Currey, and the liberal consideration of the 6th Duke of Devonshire.

During the years 1851 to 1858-9 the office of Secretary to the Buxton Bath Charity was held by the late Mr. James Wardley; and the Secretarial duty, in connection with the large and liberally-supported Bazaar, was willingly and sedulously performed by Mr. Wardley, until the Hospital was instituted.

It forms an interesting episode in this history, that, in the Winter of 1862-3, during what will be long remembered as the Cotton Famine, a special fund was obtained, chiefly by the exertions of the late Mr. Wilmot; and 100 young women, under 30 years of age, selected by the Relief Committees of their respective towns, as being most likely to be benefited by the change of air and the comforts of the Hospital, were received and taken care of, as to food and as to medicines, and restored to their homes in the subsequent Spring, with renovated health and strength, and full of gratitude for what they had received. The balance of the subscriptions, amounting, with interest, to £256, was invested as a separate fund for ever, to enable poor female operatives from factory towns to be received into the Hospital.

A very important circumstance in the history of the Hospital is, that the grounds in front of it were, with much kind consideration, made over to the Institution on the part of the late Duke of Devonshire; maintaining the detached position of the building, enhancing its appearance, and adding to the outdoor advantages of the Patients.

The building is the property of His Grace the Duke of Devonshire; and the conversion of it to the use of the Hospital for ever, was benevolently granted by the 6th Duke of Devonshire, as testified on the stone on the south front of the building, on which is inscribed: "The last munificent Charity of William Spencer, the 6th Duke of Devonshire, K.G., who allowed these buildings to be converted to the use of the sick poor, January, A.D. 1858." A considerable sum of money that had been collected for the construction of the Hospital was expended upon the work. The walls and roof of the structure were fortunately found to be in good preservation; the interior was entirely removed and re-arranged; the subsoil carefully taken away; and about two-thirds of the building occupied for the purposes of a Hospital, and by a chaplain's house, a dispensary, and a dispenser's apartments, a house for the master and matron, kitchen, day-rooms, dining-hall, and spacious dormitories; affording separate beds for 120 Patients,

in addition to the beds provided for cases of accident, and in addition to the rooms required for the servants of the establishment.

During the year 1868, a legal Conveyance of the buildings and grounds of the Hospital was given to the Trustees by the late Duke of Devonshire, at the nominal rent of five shillings yearly; on the condition that they shall be used exclusively for the purposes of the Charity. (A copy of the Conveyance is appended at page 30.)

During the year 1872, the Chaplain's house was converted to the general purposes of the Hospital; the number of beds for Patients was raised to 150, and better accommodation afforded to the Out-Patients, Dispensary, &c.

During the year 1878, a legal Conveyance of additional buildings and ground was made by the late Duke of Devonshire. This addition was acquired by the Trustees, to enable them to accept a proposed grant from the Cotton Districts Convalescent Fund for the extensions described below. (A copy of this Conveyance will be found at page 32.)

During the same year, 1878, the land and buildings of the Charity Hot Baths were legally conveyed by the late Duke of Devonshire to the Trustees, at the nominal rent of five shillings yearly. (A copy of this Conveyance will be found at page 34.) An undertaking was entered into during the same year, by which the Charity Natural Bath is held by the Trustees under a nominal rent of five shillings yearly.

During the thirty-eight years since the Hospital was opened, there have been 70,275 Patients under treatment, of which number 62,748 have been treated beneficially; and 8034, or about one-ninth of the whole, were not suffering from any of the forms of rheumatism, but were such cases as are ordinarily met with in hospitals. On the average of the thirty-eight years, the Patients remained under treatment nearly 24 days; and 62,241 cases of rheumatism, embracing every conceivable variety of this obstinate disease, were thus extensively relieved by the remedial agency of the Buxton mineral waters.

During the year 1881, the great extension works of the Hospital were practically completed, and the Hospital was formally opened by the Patron, His Grace the late Duke of Devonshire, and the Governors of the Cotton Districts Convalescent Fund, on the 11th of October. The accommodation for the additional number of Patients, under the grant of £24,000 from the Cotton Districts Convalescent Fund, was obtained by the removal of the two walls which traversed the entire circuit of the main building, and formed the corridor communicating with the various wards; the whole space from the outside to the inside of the building was thus thrown open, and inner and outer

windows supplied to all the wards; the internal area was thus increased very greatly, and ample space provided for wards and day-rooms to receive and accommodate the 300 Patients. But an independent means of access to all the rooms of the Hospital was rendered necessary in consequence of this arrangement; and this was obtained by covering the large area of the interior, and giving access to the ground floor rooms from the floor of the inner basement, and to the rooms of the upper floor, from a gallery above this. This arrangement has, however, not only supplied the means of access to all parts of the Hospital, but has enabled all the wards to be practically detached from one another, almost giving the advantages of the deservedly praised pavilion principle of hospital construction; while it has facilitated the ventilation of the whole building to an important degree, and increased the free and ready admission of light to every part of the interior. The gallery has with much ingenuity been constructed exclusively of bricks and iron, by which it has been rendered entirely fireproof, giving all possible security in the event of fire. The great, covered, dry, warmed area of half-an-acre, canopied by the largest dome that has ever been erected, supplies very obvious and valuable contingent advantages for the recreation of the Patients in all cold or doubtful weather; advantages which must represent a value to the afflicted and often crippled inmates, beyond any calculation. As the whole of the main building is now devoted to the Patients of the Hospital, new buildings have been erected on the north side, for all purposes that might be desirably detached, such as kitchen and kitchen offices, laundries, engine rooms, cellars, storerooms, bedrooms for household servants, separate wards for accident cases, and rooms for the immediate isolation of any cases of infectious character that might become manifested. The extensions were carried out under the architectural superintendence of Mr. R. R. Duke. The £24,000 expended from the Cotton Districts Convalescent Fund give a prior claim on the 150 additional beds to the nominees of the Fund; and these beds have been allotted to the principal Hospitals within the area of the manufacturing districts. It cannot but be a subject of much regret that the extension has cost a larger sum than the grant by nearly £9000, besides the £5000 paid for the land and premises for the Hospital Extension. It is of evident importance that this outlay should not be left as a charge on the means and resources of the Hospital.

During 1896, the Terrace surrounding the Hospital building has been laid down with asphalt, rendering this extensive promenade available for Patients whose ailments have hitherto debarred them from taking exercise thereon owing to the irregularity of the gravelled surface, and its condition after rains.

This Prefatory account has seemed to be needful, for the information of those not already acquainted with the nature and merits of this Institution.

W. H. R.

A Clock Tower was erected in 1882, over the principal entrance of the Hospital, by subscriptions specially given for this purpose; the late Duke of Devonshire contributing the sum of £200 thereto, and also presenting a clock, with Cambridge chiming apparatus, and four illuminated dials, at a cost to His Grace of £500. The expense of lighting this clock, during the hours of night, has been kindly undertaken by the Buxton Urban District Council. It was intended that a portico of architectural character should have been erected as an ornament and protection to the principal entrance; but funds were not forthcoming. Such a completion is evidently desirable, and is commended to the kind consideration of munificent benefactors. It is needful to the architectural completion of the exterior of the Hospital.

The general wish which was expressed that the successive Patrons and Presidents and Vice-Presidents, the Trustees and members of the Committee of Management of the Buxton Bath Charity, and more recently of the Devonshire Hospital, should be requested to present photographic copies of their portraits of suitable size and plainly framed, to be hung on the walls of the Board Room of the Hospital, as an interesting record of its history, benefactors, and executive friends, has been attended with marked success, and fifty of these photographs are now displayed in the Board Room. Photographic portraits of the fifth, sixth, seventh, and present Dukes of Devonshire, the successive Patrons; and of the Duke of Rutland, the President, have been presented; and those of the remaining Vice-Presidents, &c., not hitherto obtained, will be most gratefully received. The walls thus decorated are a signal and permanent record of numbers of deceased friends and benefactors, and must be a constant record of the grateful sense of priceless services, and be the contemporary record of the friends who are still working and striving for its advancement and history.

R E P O R T
OF THE
COMMITTEE OF MANAGEMENT
OF THE
DEVONSHIRE HOSPITAL
AND
BUXTON BATH CHARITY,
FOR THE YEAR 1897.

The death of Dr. Robertson is severely felt, as the constant, almost daily, attention to the Hospital of one whose experience extended over so great a number of years, is no longer available. The Committee desire to place on record their appreciation of his most valuable services, and to once more state how sincerely they regret his loss.

In presenting their Annual Report the Committee of Management are again able to call the attention of the Subscribers to the growing usefulness of the Devonshire Hospital. The great advantages offered by the Institution to all needy persons afflicted with rheumatic and kindred affections need hardly be repeated. All the world over the efficacy of the Waters and the pure mountain air for which Buxton is noted is frankly acknowledged, and their curative action taken advantage of by visitors from almost every part of the globe. It is most gratifying to those who have watched and aided the growth of the Hospital to know that thousands of sufferers have been enabled within its walls to gain that relief which otherwise they could not have hoped to obtain. The successive Dukes of Devonshire have, by their philanthropic and generous action rendered the establishment and growth of this Institution possible, and from its inception, forty years ago, to the present time have aided in every step of

its development; and the Governors of the Cotton Districts Convalescent Fund, by providing, in the years 1879 and 1880, a sum of £24,000, have enabled the Committee to complete the building, original in design, and specially suited to the cases for which it was built, a result which, remembering the unusual form of the old buildings, reflects much credit on all who were instrumental in their adaptation. The Hospital gives accommodation to 300 Patients; the central area, warmed to a genial temperature, is a feature to be specially noted, as it gives the Patients opportunities for exercise in all weathers, and renders them independent of the variations of the English climate. The site of the Hospital is picturesque and beautiful, and the grounds surrounding it are an undoubted boon to the Inmates. Since our last Annual Report several improvements of importance have been carried out, bringing the buildings more up to date, viz:—More commodious waiting rooms, consulting rooms, dispensary, and a lift, which is most useful in dealing with helpless cases and those who find it difficult to ascend and descend stairs, however gentle their gradient. This work has been done under the direct supervision of Dr. Dickson and Mr. Duke, and to both these gentlemen our best thanks are due. It is now sixteen years since the Hospital was extended, and the Committee are thankful to be able to report that the efficiency and popularity of the Institution are fully maintained.

Subscribers will no doubt have noticed that the Hospital is often inconveniently crowded in Summer; the number of Patients in Spring, Autumn, and Winter being proportionately small. This, if taken advantage of by Subscribers who wish to send cases which from their nature require lengthened treatment, would help the Committee very much, as, in Summer, so many Patients are awaiting admission that they find it impossible to allow many to remain beyond the three weeks term who ought to do so. The efficiency of the treatment is equally good in Winter as in Summer, and the bright weather of the Buxton Winter is emphatically bracing and healthful.

The Committee gratefully acknowledge the efforts of all, who by giving their services in entertaining the Patients have greatly helped to lighten their sufferings. The piano so kindly presented to the Hospital helps materially in the success of these entertainments, which are given in the Women's Day Room.

Prayers are read morning and evening in the Men's Day Room, under the direction of the honorary chaplain; other religious services, including one on Sunday, are also held, and, in the absence of the chaplain these services are conducted by others sanctioned by him, and are much appreciated by the Patients. The organ presented some years ago continues to do good service in this connection.

During the year 1897 2769 In-patients have been admitted. This is more by 124 than the number received during 1896, and exceeds the admissions of 1895 by 207. As a very large number of the Patients come from great distances, and are unable to bear the expense of a long journey, it has been pointed out in former Reports that a fund for the purpose of assisting such persons is desirable, and any sums given for this object will be thankfully received by the Board of Management. This fund would, of course, be distinct from the Samaritan Fund, but would be a most useful supplement to the same.

There have been 409 Patients admitted on the recommendation of the Governors of the Cotton Districts Convalescent Fund, being 44 more than during the year 1896. It is hoped that the Governors of this fund will be as generous in granting these admissions as their means will permit, as the Patients from these districts are essentially cases that this Hospital greatly benefits. The atmosphere of the mills renders the factory workers especially liable to the worst forms of rheumatism and cognate diseases. The distinct change to the dry air of Buxton and the action of its waters produce in most cases marked improvement which is often permanent.

The report of the 2769 In-patients admitted during the year shews that 2498 were discharged as improved, 142 as no better, 14 at own wish, 2 as unfit cases, 3 for misconduct or breach of rules, 4 were transferred to the Out-patients' department, 1 was transferred to the Sanatorium, 1 as "infested with vermin," 5 for mental weakness, 5 died, 2 left without report, and 92 remained on the books at the end of the year. When the serious nature of many of the cases is considered, it must be granted that the work done is most satisfactory.

The number of Out-patients under treatment during the year was 241. Of these, 192 were discharged as improved, 7 as no better, 4 were transferred as In-patients, 37 left without report, and 1 remained on the books on December 31st. The Committee again call the attention of the Subscribers to the large number of Out-patients leaving without report, and desire their co-operation in aiding the executive to form a clearer estimate of the results of the connection of these Patients with the Hospital.

It will be well to remind the Subscribers of the post cards which are given to Patients on leaving; as a reliable record of their state six weeks after quitting the Hospital is much desired. This information would help the medical staff to estimate more correctly the amount of permanent benefit derived by Patients from the treatment. Although many of the Patients admitted were suffering from affections of a serious and often chronic nature, 2253 cards received during the year record improvement

in no less than 1678 cases. The post cards received during the year 1897, numbering 2253, give 1678 as improved, 569 as no better, and 6 as having died. These figures the Committee consider to be most encouraging.

The average number of Patients daily in the Hospital has been 183.2. There were 59.4 beds occupied in January, 93.2 in February, 148.3 in March, 181.3 in April, 246.1 in May, 252 in June, 264.7 in July, 274.5 in August, 256.4 in September, 213.1 in October, 110.2 in November, and 92.7 in December. The average length of stay of each Patient in the Hospital has been 24.1 days.

The average cost per day of each In-patient has been 2s. 3 $\frac{1}{4}$ d., and per week 15s. 11 $\frac{1}{4}$ d., for 3 weeks £2 7s. 10d., being 1s. 4 $\frac{3}{4}$ d. more per week than last year. It is usual to charge any necessary improvements to Revenue and not to Capital Account, this raises the average cost of each Patient considerably. The diet of the greater number of the Patients is perforce generous, as they are often suffering from the want of sufficient nourishment, thus rendering them especially liable to chronic-rheumatic conditions, and a generally low state of the system. The cost of an efficient and sufficiently large nursing staff is also considerable, and, if the number of Patients continues to increase, will necessarily rise in proportion. The Bathing Establishment connected with the Hospital, which is a principal factor in its success, also entails a heavy annual charge, amounting in the gross to £356 7s. 11d. The customary expenses of such institutions as this, viz: Salaries and wages, drugs and surgical appliances, etc., etc., must also be taken into account in estimating the averages. The Committee endeavour to conduct the Hospital as economically as is consistent with comfort and efficiency.

The financial position of the Hospital is fairly sound. When the cost of each Patient, as compared with the smallness of the Annual Subscription, is considered, there is cause for great thankfulness that the Committee are able to continue, without break, the most beneficent work of the Institution. This could not long be the case were it not for the numerous donations and legacies received from time to time.

The Revenue Account for the year ending December 31st, 1897, is submitted, together with the Estate Account, and General Balance Sheet.

From the following sources of income there has been an increase on the receipts of last year viz:—Annual Subscriptions, Casual Subscriptions, Cotton District Convalescent Fund for Patients sent by the Governors, Extra Time, Extra Out-patients, Donations, Hotels and Boarding Houses, and Sundry receipts; and from all other sources the receipts have been fairly proportionate.

His Grace the Duke of Portland has again generously contributed a donation of £50, from the sums received from Visitors at Welbeck Abbey; Miss M. Beckett has contributed as a Diamond Jubilee gift the sum of £60; Mrs. Steward has given a donation of £20; and Her Grace the Duchess of Devonshire has presented the proceeds of a dramatic entertainment given by the Chatsworth House Party, in the Pavilion Theatre, amounting to £205 1s. 6d. The example set by the Duchess of Devonshire and her friends will, it is hoped, induce others who have the talent and opportunity to assist the funds of the Hospital in like manner, and the Committee tender their heartfelt thanks to Her Grace for her assistance.

On the Estate Account, Legacies have been received as follows:—Mrs. Overend, £500; and Mrs. E. Barker, £30. These legacies, with the Life Subscriptions received during the year, have been duly invested in Midland Railway Preference Stock.

The Annual Statements of the Wilmot Relief Fund Account, and the Samaritan Fund Account, are also submitted. Under the first of these several very deserving cases have been received in the Hospital during the year; and, under the latter, 39 poor and almost destitute Patients have been assisted with their return railway fare, or necessary clothing, on their discharge. £14 7s. 11d. has been thus disbursed during the year, and £7 1s. 1d. of this has been returned by the Patients or their friends. Contributions to the Samaritan Fund are earnestly solicited.

The total sum received from Offertories and Collections in Churches and Chapels has been £153 10s. 10d. Of this sum £105 10s. 11d. was from St. John's and St. James's Churches, Buxton. The preachers on Hospital Sunday were as follows:—St. John's Church, the vicar, the Rev. C. C. Nation, M.A., the Rev. A. R. Thorold Winckley, M.A., and the Rev. C. A. Brereton, B.A.; in St. James's Church, the Rev. Canon Valpy, M.A., and the Vicar; St. Anne's Church, Rev. G. W. Palmer; Burbage Church, the Rev. F. E. W. Wilmot, M.A.; Trinity Church, the Rev. E. P. Riddall, M.A.; St. Ann's Catholic Church, the very Rev. Canon Hoeben; Congregational Church, the Rev. John Hall, D.D., and the Rev. R. Rew. Offertories were also received from Davenham, Prees, Over Tabley, New Mills, and Rowsley Churches, from Flagg Unitarian Chapel, and the Primitive Methodist camp meeting.

The Committee gratefully acknowledge the aid given to the Institution by many outside agencies in Buxton, year by year. The proprietors of some of the Hotels, Boarding-Houses, and Lodging-Houses have materially assisted its funds by obtaining contributions from Visitors. The Directors of the Buxton Gardens Company, Ltd., have allowed a donation box and a box for the reception of newspapers to be placed at the entrance

to the Pavilion; the Directors of the Palace Hotel Company, Ltd., have allowed a donation box to be placed in the entrance hall of the Hotel; the Buxton District Council has allowed a box for the reception of newspapers to be placed in the Pump Room; the proprietors of the local newspapers have inserted, gratuitously, the annual, quarterly, and weekly reports, and the meteorological reports.

The gratuitous services of the Honorary Medical Officers, the Dental Surgeon, the Honorary Chaplain, and the House Visitors, also demand the hearty thanks of the Committee.

The Committee desire also to thank most heartily all the officials of the Hospital for their assiduous attention to their duties.

The Committee gratefully acknowledge the receipt of gifts of warm clothing for the use of poor Patients from Miss Luck, Miss Osmond, Mr. Jackson, Mrs. E. W. Birley, Mrs. Percival Pearse, the Derby and Derbyshire Needlework Guild, Miss Machin, Miss Vernon Wentworth; of presents of game from Mr. V. C. W. Cavendish, M.P., and Mr. T. W. Eastwood; of wine from Mrs. Mothersill; of four screens from Miss Squires; and of books, magazines, newspapers, etc., from the Duchess of Portland, Mrs. W. Bickham, Mrs. J. E. Sutton, Mrs. Ball, Mrs. Austin, Mrs. Young, Mrs. Saxton, Mrs. Orme, Mrs. Fry, Colonel Fernley, Miss Clarke, Mrs. Whympier, Mrs. Plant, the Rev. W. H. Scotter, Mrs. Gant, Miss Neale, Colonel Cornwall Legh, Mr. Sydney Taylor, Mr. E. Brookes, Miss Popham, Rev. J. Eayrs, Messrs. Fleetwood and Co., Mrs. Bowden, Miss Owen, Miss Jacques, Mrs. Hubbart, the Leewood Hotel Co., Mr. Ellis, Mr. Rooney, Miss Trimmer, Miss Armstrong, and the Committee of the Buxton Union Club.

A Sub-committee, to consider the question of Surgical Wards, Operating Room, etc., has been appointed, and will in due course report upon the scheme they recommend for adoption. Meantime, the following most valuable gifts for fitting and furnishing these wards have been received in commemoration of the Queen's Diamond Jubilee, and others are expected to follow, viz.:—An operating table, presented by Dr. Dickson; an aseptic table for surgical instruments, presented by Mr. J. M. Brown and Mr. J. H. Mr. Henry Shaw has been unanimously re-elected Chairman of the Board of Trustees and Committee of Management.

The Sheffield and Rotherham Joint Stock Banking Company have again been unanimously re-elected Treasurers of the Hospital.

The Chairman is *ex-officio* a member of the House Committee, and Mr. Duke, Mr. Walton, Dr. Dickson, Mr. Josiah Taylor, Mr. E. C. Milligan, Mr. J. H. Orme, Mr. F. Turner, Mr. T. H. Lowthian, and Mr. F. Drewry, have again been unanimously re-elected members of this Committee.

Lowthian, J.P., and resolved unanimously, That the thanks of the Trustees and Committee of Management be given to the Chairman (Mr. H. Shaw, J.P., D.L.), for the Annual Report, and that it be printed, with the Treasurers' Accounts, etc., and circulated amongst the Subscribers and Supporters of the Institution.

BUXTON BATH CHARITY, A.D. 1785.

COPY OF REPORT OF THE CHARITY,
FOR THE YEAR 1785.

*The Original is in the Hospital, and was presented by Dr. Robertson,
December 29th, 1871.*

BUXTON.

RESOLUTIONS by the Stewards of the several Houses at Buxton, on behalf of the Contributors to the Charitable Fund established here, for the better regulation of the Charity, made September 13th, 1785.

1st. As to the Contribution.

WHEREAS, at the commencement of this Charity, in the year 1779, instituted for the purpose of rendering the Beneficence of the Noble Proprietor and his Ancestors (in setting apart a Bath for the Use of the Poor) more extensively beneficial; two Stewards were appointed in each House kept open for the Reception of Company to receive a Contribution of One Shilling only, from each Person residing in such Houses, for the Benefit of the Charity. And upon the Departure of one of the Stewards, the departing Steward hath nominated a Successor; and in order to ascertain the Sums contributed, the Stewards for the Time being, at each House, have kept a Subscription Book, in which the Contributors have respectively written their Names and the sum of One Shilling opposite thereto; and as the Subscriptions have amounted to competent Sums, the Stewards have paid over the same to Mr. Samuel Buxton, Apothecary, in Buxton, as Treasurer, to be applied by him towards the Aid and Support of the Poor, whose Infirmities have caused them to come to Buxton for the Use of the Waters; for which Sums the said Mr. Buxton hath signed Receipts in the Subscription Books. Resolved that such practice be continued, and that no Person be permitted to subscribe a greater Sum than One Shilling in the books; and that the Receipts of Mr. Buxton, or the Treasurer for the time being, in the Subscription Books, be sufficient Discharges to the Stewards for what they receive.

Resolved, That it be recommended to future Stewards to hold an Audit on the 13th of September, yearly, to inspect the Accounts of Mr. Buxton, or of the Treasurer for the Time being, and to state Accounts of the preceding Year in like manner as the Accounts are this Day stated in the Subscription Book at the Hall. And it is declared, that the Allowance of a Duplicate of the Account by any two of the Stewards, under their hands, shall be a sufficient discharge to Mr. Buxton, and all future Treasurers.

Resolved, That all future contributors to the Charity do subscribe thereto upon the terms of these Resolutions.

2nd. As to the Admission of the Objects of this Charity.

Resolved, That no Inhabitant of Buxton, Fairfield, or of any place within Sever Miles distance from Buxton, be admitted to partake of the Charity; nor any Person be relieved during the months of November, December, January, February, March, or April; and that during the remaining six Months of the Year, not more than sixteen Objects, at one Time, be relieved by the Charity. And that no

Person shall be admitted on any other Day than Monday in every Week, between the Hours of eight and twelve in the Forenoon; on which Day, during such Hours, the weekly allowance to each Individual shall also be paid.

Resolved, That before the patient intending to take the benefit of the Charity be removed from where he or she dwells, Mr. Buxton, or the Treasurer for the Time being, be applied to by Letter, Postpaid, signifying such Intention, mentioning the Patient's Name, Place of Abode, and Nature of the Disorder; and that no Person be admitted unless there be a vacancy in the Number of Sixteen, and unless he or she first produces to the Treasurer his own Letter written in answer to such Application, and also a Letter of Recommendation from some Lady or Gentleman, resident in the Neighbourhood, certifying whether the Patient is relieved by his or her Parish, or not, and if not, whether he or she is a proper Object, with Respect to Circumstances; and in case he or she is a Pauper, relieved by the Parish, then also a Certificate signed by the Churchwardens or Overseers of the Poor, that the Pauper's Settlement is in the Parish from which he or she is sent; and also a Certificate from a Physician or Apothecary, that the case is proper for the Buxton Waters.

Resolved, That the Names and Places of Abode of the Objects admitted, be entered by Mr. Buxton, or the Treasurer for the Time being, in a Book (of which Book each Contributor is to have free Inspection), with a Description of the Patient's Disorder; and after his or her Discharge a Minute of the Consequence of the Use of the Waters.

3rd. As to the Application of the Charity Fund.

It being the Intention of the Contributors, that the Money arising from the Contributions, be in every Case applied for the purposes of supplying the Patients during their Stay at Buxton, with Board, Lodging, and Medicines only; all Ladies and Gentlemen recommending Patients, and all Churchwardens and Overseers giving Certificates, are therefore particularly desired to take notice, that in Case the Patients shall be admitted to partake of the Charity, and shall die in the Parishes of Buxton or Fairfield, or in any Place within seven Miles Distance from Buxton, before he or she shall have actually returned to his or her own Parish, such Persons recommending, and such Churchwardens and Overseers certifying, shall be liable to pay the Expenses of the Funeral of such Patients respectively; and that the Charity Money, on no Account whatever, will be suffered to be applied to defray Travelling Expenses, either to or from Buxton.

Resolved, That no Patient be admitted more than once during a Season, nor be relieved, by the Charity, for a longer space of time than five Weeks, from the Date of his or her Admission, nor with a greater Sum than Six Shillings each Week. But for how long a Time he or she shall be relieved less than five Weeks, or what allowance shall be made him or her less than Six Shillings per Week, shall be at the discretion of Mr. Buxton, or of the Treasurer for the Time being, taking the advice of the resident Physician, or Physicians, on the Case, who it is hoped, will kindly consent to give gratuitous Assistance, when necessary.

Resolved, That Mr. Buxton, or the Treasurer for the Time being, be at liberty to retain all his necessary Expenses, occasioned by the Administration of the Charity, over and above what shall be expended in Board, Lodging, and Medicines.

Resolved, That if any Object receiving the Benefit of this Charity, shall beg or receive Alms, during his or her stay at Buxton, or be guilty of prophane Swearing, Drunkenness, Impertinence, or any gross misbehaviour, he or she shall be instantly (on complaint made) discharged from the Charity.

Ordered, That these Resolutions be printed, and hung up in as public a manner as possible, in the several Houses in Buxton, kept open for the Reception of Company, and wherever Contributions are received; and that the said Resolutions be sent by Mr. Buxton, or the Treasurer for the Time being, to every Person recommending a Patient, as a proper Object to partake of the Benefit of this Charity.

METEOROLOGICAL REPORT FOR 1897.

FROM OBSERVATIONS TAKEN AT THE DEVONSHIRE HOSPITAL, BUXTON.

The instruments from which the observations are taken are the property of the Devonshire Hospital, and consist of Fortin's barometer, wet and dry bulb thermometers, black bulb thermometer, sunshine recorder (Jordan's pattern), and rain gauge. They are standard instruments, and are inspected and verified from time to time by an officer of the Royal Meteorological Society. Buxton is a second-class station of the Society, and observations are taken twice daily.

A full report is sent to the Society every month, and weekly reports are sent to the local paper.

RAINFALL.—The total rainfall for the year was 50·89 inches. This measurement is above the mean of the last ten years, but is 1·01 inches below the previous year's record. The greatest fall for one day was 1·30 inches. This occurred on December 7th. Rain fell on 215 days. The greatest number of wet days occurred in March. Snow fell on 21 days.

SUNSHINE.—1269·9 hours of sunshine were registered during the year 1897. May was the sunniest month, having a record of 215·9 hours. The longest duration of sunshine that occurred on one day was on July 12, when 14·3 hours were charted. The year 1897 had 118 sunless days. November and December had the greatest number, both these months recording 20.

TEMPERATURE.—The highest temperature recorded in the shade was 84·1 on August 1st. The lowest, 20·8, was on January 26th.

ATMOSPHERIC PRESSURE.—The highest reading of the barometer was 29·853, which occurred on October 4. The lowest was on March 2nd, when 27·668 was the reading noted.

WIND.—The prevailing winds were South-west and North-west—168 observations of the former, against 107 of the latter. East and North-east winds prevailed through April and May. Only 17 observations were made of the wind being North. After North-west and South-west, the most prevalent wind was West.
