(This work was evidently issued in parts. The introduction is signed J. C. C. The vol. 1, 1846, is exactly the same as to text as vol. 2, 1855, and contains the same introduction, though the plates differ. The Library of Congress has a copy, vol. 1, 1846, which lacks pp. 145-176 and doubtless lacks some plates. We have a copy of this date which is imperfect, only having 304 pp. and 35 pls.)

We find also that our vol. 1, 1855, is identical as to text with J. L. Comstock's "Floral Belle for 1854." In the Library of Congress there is a copy of J. L. Comstock's "Illustrated Botany," edited by J. L. Comstock and assisted by J. C. Comstock, which is also the same as to text as our Vol. 2, 1855, of Newman. The plates of the two vols. of Newman, 1855, and Comstock's "Floral Belle for 1854" are all to be found in Comstock's "Illustrated Botany."

We are indebted to Miss Warner of the Bureau of Plant Industry for data concerning the copies in the Library of Congress.)
