It is of great interest to all practitioners of dentistry, and particularly its historians, that as early as 1819 when Robert Watt died, he had included in his Bibliotheca under the heading TEETH 39 books and articles.

The list below consists of three columns - the first the number entered beside the title in the subject section of the book: the second the author and the third the title, place and date of publication.

347 x Eustachius, Bartholomew

Libellus de Dentibus,  
Ven., 1563.

Glasgow University Library

Opuscula Anatomica ....  
et de dentibus, Ven. 1568.  
Also other editions.

ished Italian anatomist  
in 1574.

Recherches sur les Dents,  
Lyon, 1582.

La Fleur des Remedes contre  
le mal de dents. Paris, 1621.

De Dentibus. Witteb, 1657.

Observations on Hair, Teeth  
and Bones found in different  
Parts of the Body. Phil. Trans.,  
1681.

born in Somersetshire
