TESTIMONIALS

IN FAVOUR OF

Henry Rutherford, M.B., C.M.

TESTIMONIAL

Wm. Knickerbocker, 1880

9 PRINCES TERRACE, DOWANHILL,
GLASGOW, *7th March*, 1886.

GENTLEMEN,

I beg to offer myself as a Candidate for the post of House Surgeon to the Greenock Infirmary.

I am a graduate of the University of Glasgow (M.A., 1880; M.B., C.M., 1884). From October, 1884, till June, 1885, I was one of the Resident Assistants in the Western Infirmary; the first six months with Dr. Hector Cameron; thereafter with Professor Gairdner, my time with him, however, being cut short by an attack of scarlet fever.

This winter I spent five months in Vienna studying some of the special subjects in Medicine and Surgery.

I beg to submit to your consideration the accompanying testimonials, to which I have added a list of teachers in Vienna from whom I hold certificates.

Should you see fit to appoint me, I think my interest in the work should ensure its being done to your satisfaction.

Your obedient Servant,

HENRY RUTHERFURD.

I have been thinking of you very much lately
and wondering how you are getting on.
I hope you are well and happy.
I am a student of the University of Chicago
and am doing my best to make the most
of my time. I am also a member of the
Phi Kappa Phi Honor Society.
I have been thinking of you very much lately

TESTIMONIALS.

*From W. T. GAIRDNER, M.D., etc., Regius Professor of the
Practice of Medicine in the University of Glasgow;
Physician in Ordinary to the Queen in Scotland.*

WESTERN INFIRMARY,
GLASGOW, 5th March, 1886.

DR. HENRY RUTHERFURD was attached to my wards as one of the Resident Physicians of this house in the Summer of 1885, and I had the advantage of being able to appreciate the great care and ability with which all his duties were performed at that time ; but unfortunately he was seized with scarlet fever, and was not able to resume his duties, and thereafter, going to study at Vienna, has been withdrawn from my observation since the period referred to.

I believe Dr. Rutherford to be in a very special degree well qualified for a hospital appointment, or for private practice, whether by his professional skill or by his manners and demeanour as a gentleman ; and I beg very warmly to recommend him accordingly.

W. T. GAIRDNER.

TESTIMONIALS

From W. J. Patterson, M.D., and James Patterson, Jr., M.D.,
of the University of California at Berkeley, in the treatment of children
who are delinquent or who are at risk of becoming delinquent.

Atkinson, J. W., and
Graham, P. M., 1977.

The book, *Antisocial Behavior*, was referred to my attention
by one of the authors, Dr. James Patterson, of the University of
California at Berkeley. I had the advantage of being able to inspect
the book and read it with interest. All the authors were
convinced at that time that antisocial behavior was caused
by genetic factors and was not due to nurture. It differed
from other forms of antisocial behavior in that it was more
persistent and more severe. The book is a good read and
contains many interesting facts and figures.

I believe the book should be in every parent's library
and should be read by every parent who has a child who is
delinquent or who is at risk of becoming delinquent. I say
this because the book is so well written and so easy to read.

J. W. Atkinson

From T. M'CALL ANDERSON, M.D., etc., Professor of Clinical Medicine in the University of Glasgow ; Physician to the Glasgow Dispensary for Skin Diseases.

2 WOODSIDE TERRACE,
GLASGOW, 6th March, 1886.

I HAVE great pleasure in stating that MR. HENRY RUTHERFURD, M.B., C.M., was a distinguished student in the University of Glasgow. In my own class of Clinical Medicine he distinguished himself so highly that a first-class certificate of honour was awarded to him.

He also acted as Clinical Clerk in my wards at the Western Infirmary during the winter session 1883-84, the duties of which office he discharged to my entire satisfaction.

Since that time he has much enlarged his field of knowledge during a residence at some of the great Continental Schools of Medicine.

I anticipate for him a career of much usefulness and honour.

T. M'CALL ANDERSON.

THE CHURCH OF THE FUTURE
AND THE CHURCH OF THE PRESENT
IN THE LIGHT OF THE FUTURE

A. W. WATSON
CHURCH OF THE FUTURE

I have been thinking a great deal lately
of the Church of the Future. It is a
subject which has long interested me
and which I have often written about.
I have been thinking of the Church of the
Future as a Church which is not only
different from the Church of the Present
but also better than it.

The Church of the Future is a Church
which is not only different from the
Church of the Present but also better
than it. It is a Church which is not
only different from the Church of the
Present but also better than it.

The Church of the Future is a Church
which is not only different from the
Church of the Present but also better
than it. It is a Church which is not
only different from the Church of the
Present but also better than it.

The Church of the Future is a Church
which is not only different from the
Church of the Present but also better
than it. It is a Church which is not
only different from the Church of the
Present but also better than it.

THE CHURCH OF THE FUTURE
AND THE CHURCH OF THE PRESENT
IN THE LIGHT OF THE FUTURE

From GEORGE H. B. MACLEOD, M.D., etc., *Regius Professor of Surgery in the University of Glasgow; Surgeon Extraordinary to the Queen in Scotland.*

10 WOODSIDE CRESCENT,
GLASGOW, *March*, 1886.

MR. HENRY RUTHERFURD, M.B., etc., was distinguished as a student by his intelligence and his conscientious application to his work. In all his classes he was among the best informed and most attentive workers, and he has since graduation not only acted as Resident Medical Officer in the Western Infirmary, where he had the best opportunities of learning his profession practically, but he has been in the foreign schools perfecting his knowledge in the higher branches of medical education.

It will be thus seen that Mr. Rutherford is now not only well equipped for practice, but has had such a training as specially fits him to hold with success the post of medical officer to a public institution.

In disposition and manners Mr. Rutherford is in every respect fitted to fill such a post as I have indicated with the utmost advantage.

GEO. H. B. MACLEOD.

From A. E. MAYLARD, B.S., M.B. Lond., Extra Dispensary Surgeon to the Western Infirmary, Glasgow.

GLASGOW, *March*, 1886.

DURING his House Surgeoncy at the Western Infirmary, Glasgow, DR. RUTHERFURD came immediately beneath my notice. While earnest in his application to his profession, I always found him kind to and careful of the patients; courteous and obliging to all with whom he laboured.

Possessed of the attributes of a gentleman and the essential requisites of a skilled professional man, his appointment to any institution cannot, I feel sure, be otherwise than to the interest of the same.

A. ERNEST MAYLARD.

From GEORGE BUCHANAN, M.D., etc., *Professor of Clinical
Surgery in the University of Glasgow.*

GLASGOW UNIVERSITY, 6th March, 1886.

I HAVE much pleasure in recommending MR. H. RUTHERFURD, M.B., C.M., as in every way well qualified for the office of House Surgeon to the Greenock Infirmary.

After taking his degree he resided in the Western Infirmary in charge of some of the Surgical and afterwards of the Medical wards. Besides gaining in knowledge of his profession in this practical way, he has added to his information by studying in Vienna.

I can confidently affirm that he will be a most useful and reliable official.

*From A. W. RUSSELL, M.B., Medical Superintendent,
Western Infirmary, Glasgow.*

GLASGOW, *March*, 1886.

I HAVE much pleasure in recommending the application of DR. H. RUTHERFURD to the consideration of the Managers of the Greenock Infirmary.

Dr. Rutherford was one of our Resident Surgeons during the winter of 1884-85, and was afterwards a Resident Physician during the following six months, having charge of Professor Gairdner's wards. He also for three months attended the patients of the Erysipelas house. Having fully availed himself of the experience to be gained in these various departments, an experience to which he must have considerably added by a visit during this winter to the special clinics at Vienna, he is, I am sure, well fitted to discharge the duties of the post for which he now applies.

A. W. RUSSELL.

Wm. A. W. Russell, M.D., Medical Superintendent
Boston City Hospital, Boston

Dear Sirs:

I have much pleasure in recommending the application of
Dr. H. K. Russell to the consideration of the Hospital
of the General Hospital.

The Hospital was one of our best and most successful
the winter of 1881-82 and was awarded a Medal of Honor
during the following six months during which of
the Hospital's work. It also the first hospital
attached to a general hospital. It was the first hospital
fully equipped with all the appliances to be found in any
other hospital, an equipment to which it was
completely equal by a well known and well known to the
general hospital. It was the first hospital with all the
appliances of the hospital for which it was applied.

Wm. A. W. Russell, M.D.

From HECTOR C. CAMERON, M.D., etc., *Surgeon and Lecturer on Clinical Surgery, Glasgow Western Infirmary; Surgeon to the Glasgow Hospital for Sick Children; Consulting Surgeon to the Glasgow Royal Lunatic Asylum, Gartnavel.*

203 BATH STREET,
GLASGOW, 5th March, 1886.

MR. HENRY RUTHERFURD, M.B., acted as my House Surgeon in the Glasgow Western Infirmary for six months.

Afterwards he acted as House Physician under Dr. Gairdner in the same institution, and since leaving it has been engaged in the further study of his profession in Vienna.

I need hardly say that no course of preparation could possibly be more suitable in the case of any one essaying, as he does now, to become House Surgeon of an important general hospital, than that which he has thus passed through.

I have pleasure in adding that while he acted under me he gave abundant evidence of being possessed of an excellent knowledge of his profession, and was always most kind in all his relations with the patients. I wish him every success in his present application.

HECTOR C. CAMERON.
