When a book which has been out for more than the fixed period is wanted by any Fellow, he shall enter its title, along with his name, in the book kept in the Reading-room for that purpose, when intimation shall be made, by the Librarian, or Sub-Librarian, to the holder, who shall be bound to return the same to the Library within two

days, under the penalty of One Shilling for each day it may be retained beyond that time. When books are wanted, or returned, a written list must be sent to the Librarian, which, in the former case, must specify the place of each book in the Library.

18. During the time New Books or Periodicals are lying in the Reading-room, any Fellow, after four o'clock P.M., may take out one volume or periodical, inserting its title and his name in a book kept for the purpose, which volume must be returned next day by eleven o'clock A.M., otherwise he will incur a fine of One Shilling for each day it is so kept out.

21. No Book above Ten Pounds in value shall be ordered into the Library without the approval of the Faculty.

22. Non-resident Fellows, during their occasional visits to Glasgow, and Medical Officers of the Army, Navy, and East India Company's Service, not permanently residing in Glasgow, and introduced by a Fellow, shall have free admission to the Reading-room.

## ASSISTANT VISITORS OF DRUGS.

24. On the day of the General Election, the President and Visitor shall each name a Fellow of Faculty to assist them in visiting and inspecting all shops and places in Glasgow where drugs are sold; so that if they be of bad quality, this may be detected, and necessary measures adopted, agreeably to the Powers contained in the Faculty's Charter.

4. Medical Students who had commenced their education prior to June 7, 1830, are exempted from the necessity of producing evidence of attendance on Practical Anatomy, and Clinical Medicine and Surgery; prior to April 4, 1831, on Medical Jurisprudence; and prior to November 8, 1831, on Practical Chemistry. Also, prior to February 3, 1834, on Botany, and on more than twelve months of a Public Hospital. Also, prior to May 1, 1850, on more than eighteen months of a Public Hospital, or six months of Practical Anatomy. At which latter date, also, the alternative was permitted of an attendance of twenty-one months on a General Hospital, or of eighteen months on such Hospital, with a three months' Course of Lectures on the Eye, and attendance for six months on an Eye Hospital.

5. Besides attendance on all these branches, which is *imperative*, the Faculty *recommend* the following, viz.:—

1. Lectures on the Eye, and Hospital for Eye Diseases. (A three months' course of Lectures on the Eye, with six months' attendance on an Eye Hospital, containing at least twelve beds for operation-cases, will be considered equivalent to three months of a General Hospital.)
2. Lying-in Hospital.
3. Hospital for Syphilitic Diseases.
4. Pathological Anatomy.
5. Natural History, and Comparative Anatomy.
6. Greek, French, German, and Italian.

6. Courses of six months must consist of not fewer than one hundred and ten Lectures, and courses of three months of sixty Lectures, with the exception of Military Surgery and Clinical Lectures. Two courses of three or four months, on any of the above subjects, will be taken as equivalent to one six-months' course.

7. The above Lectures must have been delivered by Professors or Lecturers in a University or College, instituted by public authority, or by Fellows of the Royal Colleges of Physicians or Surgeons, respectively of London, Edinburgh, or Dublin, or of this Faculty, in any Metropolitan or Provincial School, either British or Foreign, where there is a General Hospital of more than eighty beds,—the Lecturer and the School having been recognized by the Faculty or the Royal Colleges of Surgeons of London, Edinburgh, or Dublin.\*

8. The Faculty will not recognize any Course of Lectures by a Professor or Lecturer who teaches more than one of the branches included in their Curriculum, or who, in addition to any one of these branches, teaches any branch, Medical or general, not included in the Curriculum; unless such Professor or Lecturer shall have obtained special leave from the Faculty. The following are exceptions, however, to this regulation; viz., Lectures on Anatomy and Practical Anatomy may be delivered by the same individual; also on Chemistry and Practical Chemistry, or on Materia Medica and Botany, in schools where separate Professors for these branches are not appointed. Practice of Medicine and Clinical Medicine may be taught by the same individual, and Surgery and Clinical Surgery; also Clinical Medicine or Clinical Surgery with any one of the other branches of education prescribed in the Curriculum.

9. The Candidate having been supplied with a Schedule of the above Curriculum, having filled it up and subscribed it, and satisfied the Registrar, by the exhibition of the necessary evidence, that his education has been conducted agreeably to the above regulations; also, that he is twenty-one years of age, and of good moral character, and having lodged in the hands of the Registrar the sum of Ten

\* The only exception to this rule relates to Lecturers on Chemistry, Practical Chemistry, and Botany, who may be non-professional men, but must be specially recognized by the Faculty.

Pounds, as the fee for his Diploma, he shall be admitted to Examination. The Examination days shall be on the first and third Tuesdays of every month, but in special cases, at the discretion of the President, the Candidate may be examined on another day; in which case he must, in addition to the ordinary fee, pay Two Guineas, which are not to be returned in case of rejection.

10. Each Candidate shall be examined, partly orally, and partly by written question and answer, without the use of books. He shall also write, at the dictation of any of the Examiners, two or more formulæ of prescription; and his knowledge of Latin shall be tested by translating a portion of a Latin author. Bones, other Anatomical or Surgical preparations, and specimens of *Materia Medica*, shall be used at the discretion of the Examiners, for testing the knowledge of the Candidate.

11. The Committee of Examiners being satisfied with these trials, and having reported the same to the next Meeting of Faculty, or to a General Meeting of the Examiners, which the President may call for the purpose, the Candidate shall be entitled to his Diploma, on taking and subscribing the declaration authorized by law, in place of extra-judicial oaths.

12. The unsuccessful Candidates shall be remitted to their studies for a period of not less than Three Months after a first rejection, and Six Months after a second, and their names shall be concealed. The whole of the deposited fee shall be returned to an unsuccessful Candidate on his first rejection, but on every future similar occasion, Two Guineas shall be retained.

13. With the view of ascertaining more perfectly the fact of the Glasgow Students having attended the above courses, and their diligence whilst doing so, the Faculty will keep a book at their Hall for registration, at stated times, of all Medical Students who may apply.

14. In this book, all Glasgow Students who desire to possess the Diploma of the Faculty must register their names, and place and date of birth, in their own handwriting, and the classes they attend. The Faculty Registrar shall cause to be entered in separate columns—1. The name of each individual; 2. The Medical classes, Hospitals, and Dispensaries attended by each during the current session; 3. The names of the teachers. The Registrar shall enter only such as apply to him personally; he shall examine all the tickets produced by each individual, and shall not register any classes for which tickets are not produced. This book shall be closed for Registration, of the winter classes, on the 30th November in each year; and of the summer classes, at the end of the second week from their commencement. Sickness alone shall excuse irregularity of Registration, but such excuse can only be sustained, and the Registration effected, at a later period, on application to, and satisfaction of, the President and his Council.

15. At the close of each session, the Students shall produce to the Registrar the Certificates of attendance they may have received from their respective teachers, the terms of which shall also be entered in the Registration-book.

16. The Faculty require that every Private Lecturer, under pain of his Certificates not being recognized by them, shall ascertain, at least twenty-five times in a six-months', and twelve times in a three-months' course, the actual attendance given by his Pupils. That he shall do this by calling the name of each Pupil at least once a week on uncertain days, marking his presence or absence in a regular Roll-book. That, in granting Certificates of attendance, he shall specially mention, in words at length, the number of times the Roll was called, and the number of occasions on which the Pupil was present.

17. When the Student shall have been absent more than five times in a six-months', or three times in a three-

months' course, he will be specially examined on the particular branch where the attendance was defective; but when his absence shall exceed eight times in a six-months', or four times in a three-months' course, unless accounted for to the entire satisfaction of the Council of the Faculty, he shall not be admitted to examination until he has attended another course of Lectures on such department of study.

18. For Registration, a fee of Five Shillings shall be paid annually by each Student; but he shall be entitled, without fee, to a certified Extract, at any time, from this Register, attested by the signature of the Registrar. Such Certificates will be required from all Candidates for Surgical Diplomas, in regard of that part of their medical education which they have received in Glasgow. Similar Certificates will be required from any other Schools in which Registration-Books are kept, relative to such portions of the course of study as the Certificates may embrace, in place of the testimonials of the individual Lecturers or Teachers. Candidates educated at Schools where no Register is kept, must produce Certificates from their respective Professors or Lecturers, both of their having entered the several classes at an early period of the course, and also of their having attended these classes with due regularity.

19. The Faculty having resolved to institute an Examination in Latin, on the second and following Saturdays in December, annually, without expense to the Students who may choose to avail themselves of it, such Students as apply and give a satisfactory exhibition of their proficiency in these branches, will have such Examination entered in their Registration, and shall not be again called upon to give evidence of such proficiency at any future Examination. Students who have taken a Degree in Arts, from a University of Great Britain or Ireland, will also be exempted from these Examinations.

## CHAPTER VI.

## ADMISSION OF FELLOWS.

1. All Licentiates of Faculty, or Fellows or Licentiates of any of the Royal Colleges, or Surgical Graduates of any of the Universities, whose Curriculum shall be equivalent to that of the Faculty, or Students who have fulfilled the necessary Curriculum, who have attained the age of Twenty-three years, and shall have produced satisfactory evidence of good moral character, shall be eligible to be admitted as Fellows.

## RESIDENT FELLOWS.

2. Resident Fellows are those who, having been duly admitted to the Faculty as such, have their residence within five miles of the Faculty Hall. They alone, with the exception after mentioned, shall be entitled to vote at Meetings of Faculty, or to take any share in the administration of the affairs thereof.

3. A Candidate for admission as a Resident Fellow, if he has previously been a Licentiate or Surgical-Graduate, and otherwise qualified as above, must be proposed in writing by two Resident Fellows, at an Ordinary Meeting of Faculty. The proposal must lie on the table one month, when the Candidate shall be balloted for; and if he have a majority of votes of the Fellows present, he shall, on signing the usual affirmation (*see* APPENDIX), and paying Fifty Pounds to the funds of the Faculty, be admitted a Resident Fellow.

4. A Candidate for the Fellowship, not having been previously examined, must be proposed as above (*i. e.*, by two Fellows) at an Ordinary Meeting, and then remitted to the Examiners, who shall report the result to the first Ordinary

Meeting thereafter. The Curriculum of study and mode of trial shall be the same as in the case of a Candidate for License. The report of the Examiners being favourable, he shall be balloted for at the next Ordinary Meeting, and if he have a majority of the votes of the Fellows present, he shall be declared elected; and on signing the usual affirmation, and paying Fifty Pounds to the funds of the Faculty, he shall be admitted a Resident Fellow.

5. All Licentiates of Faculty who shall hereafter be admitted to the Fellowship, shall be entitled to have the License-fee deducted from the Entrance-fee, whatever that may happen to be at the time.

6. Any person wishing to be admitted a Fellow of Faculty, to practise as a Physician only, shall be proposed in the usual way; shall produce his degree of Doctor of Medicine, and also satisfactory evidence that, prior to obtaining his degree, he had undergone an examination in Medicine. If the Faculty are satisfied, the Candidate having subscribed the usual affirmation required of Resident Fellows, and paid the sum of Fifty Pounds to the funds of the Faculty, shall be admitted on his degree to practise as a Physician only. If, at any future period, he shall practise Surgery and Pharmacy without having qualified himself, as in Chapter VI., he shall be censured as the Faculty shall direct.

7. All Resident Fellows intending to lecture on any branch of Medical Science included in the Curriculum of the Faculty, must have been Fellows, or legally qualified Practitioners, of at least five years' standing, and be recognized by the Faculty, on a special application made to that effect, on or before the first Meeting in November annually.

#### NON-RESIDENT FELLOWS.

8. The Faculty may admit as Non-resident Fellows such individuals, whether Licentiates of their own or of any

other licensing body, whose Curriculum is equivalent to that of the Faculty, who may have their residence beyond the limits already declared to be those within which Resident Fellows must be located. The proposal for admission must be in writing, signed by at least four Resident Fellows. It must lie on the table for two months. The election must be by Ballot, and if the Candidate has a majority of the votes of the Fellows present, he shall be admitted as a Non-resident Fellow, on taking the usual affirmation (*see APPENDIX*), and paying Twenty-five Pounds to the funds of the Faculty. In the case, however, of Licentiates of Faculty, this affirmation may be dispensed with.

9. If the Candidate be a Licentiate of Faculty, he shall be entitled to have deducted from the above Entrance-fee whatever sum he may have previously paid to the Faculty for his License.

10. Non-resident Fellows, who have never been Resident Fellows, shall not be entitled to interfere with the affairs of the Faculty, nor be interested in the property thereof. They shall, however, be allowed to attend and vote at the annual election of Office-bearers, in October.

11. Non-resident Fellows, who may have been previously Resident Fellows, shall continue to enjoy their former privileges; but shall have no right to interfere in the administration of the affairs of the Faculty, nor to vote at any of the Meetings, except the annual election of Office-bearers.

12. Non-resident Fellows, who shall afterwards come to reside within five miles of the Faculty Hall, may be admitted Resident Fellows, and become entitled to all the privileges of such, on paying the difference between the Entrance-fee of a Non-resident and a Resident Fellow, and subscribing the affirmation required of a Resident Fellow.

## HONORARY FELLOWS.

13. The Faculty may confer on any Gentleman distinguished in the Profession the rank of Honorary Fellow ; who, if in town, shall have a right to the use of the Library, but can have no share in the Property of the Faculty ; neither shall he have any right to attend the Meetings of Faculty, nor have any vote in the affairs thereof. The proposal for an Honorary Fellowship must be made in writing, subscribed by at least four Resident Fellows, which proposal shall lie over for two months, when the election shall take place by Ballot, and the votes of two-thirds of the Fellows present shall be necessary for his admission. Notice of the election must be put on the cards.

---

 CHAPTER VII.

1. On the first Monday of November, annually, the Faculty may grant, for the following year, Pensions to decayed Fellows or their destitute families.

2. Every Petition for a Pension must first be referred to the Treasurer's Committee, who shall examine the circumstances of the case, and report to the Faculty.

3. When a Petition for a Pension is rejected, no new Petition can be received until next enrolment.

By the authority of the Faculty of Physicians and Surgeons of Glasgow.
