12. The Drift operated well. Patient was very restless all day. At night at
8 p.m. took the follow^g: Rj. Siniat. Opri ʒij. Sp. Aeth. Saeph. li. ʒij.
Mist. Camph. ʒij. Cij. acph. tinct. horis. Was very quiet till about 9 p.m.
when agitation began. In night she was less violent, & conversed rationally,
but had no sleep - ate a good breakfast, & then began to be more agitated.
Tongue dry & rather redder than morning. Passed two urines since yesterday morning.

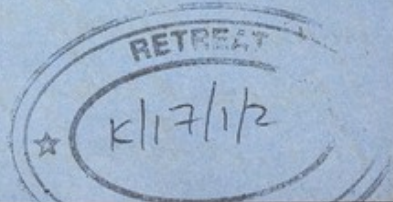

13. A gradual mitigation of the symptoms. At 2 o'clock yesterday I went
to see her on account of her violence. On my going she became calmer,
we wrapped her up in a dressing-gown & blanket, & placed her in the padded
room with mattresses & laid her down alone in it. She was compar-
atively quiet. At 7 o'clock again, I found she had completed the
fladder & was much colder. I brought her into the warm room - put
her to bed on the floor; she slept from 10 to 1. Then was
restless awhile, but fell asleep for another hour. This
morning her pulse is rather quick, but less feeble - the tongue
is whitish but not dry. She has taken four made water - passed
a very small amount. Her mind is much clearer &
more rational. She answers questions collectedly about herself.
When asked if she was not better, said "Yes, I'm better,"
but rather humbly? Still her moveable death countenance, but now
more subdued form -

#18th March Has had no violent attack since last report.
Sleep is very scanty. Bowels constipated. Some dysuria yesterday
morning had a long fit of agitation. I was ordered the following:

Dear Friend;

I have conferred with Dr Kitching, the Superintendent, on the subject of thy letter, & now ~~conclude~~^{answer} it in accordance with his views as well as my own.

To one of thy questions a definite answer can be given, viz that referring to the names of any patients now in the Retreat, enjoying the privilege of recommendation by Bristol & Somerset Quarterly Meeting.

We have one patient enjoying this privilege viz Mary Gilmore. The payment of the lowest terms is not confined to those who are supported by this Monthly Meeting. It happens not rarely, that when the friends or family of a Patient are in poor circumstances, but still able to pay the lowest terms, they apply to the Meeting for a recommendation or to some Donor in the Meeting, & thus obtain the privilege, whilst the Meeting having nothing to pay, may forget that its privilege has been used.

This appears to have been the case with ~~Mary~~ Mary Gilmore, who came in 1863, on the lowest

terms, by virtue of the contributions of your meeting. With regard to the extent of the unoccupied rights of your meeting, it is more difficult to afford precise information. By reference to our Books, it appears that since the year 1793, a sum of £1365, inclusive of the proceeds of Clarke's gift has been contributed by members of your Quarterly Meeting to the Retreat.

Interpreting this by Rule 1st page 14 of the accompanying "Rules", your meeting would appear to possess the right of recommending 13 Patients on the lowest terms. From this number must be deducted the number of those claims exercised in past years by individual friends not now living, & whose claims have expired with them.

If we take six as the number of expired claims, there will still remain six as the present possession of your Quarterly Meeting.

The question extends over a period of more than 70 years past, & has become so complicated, that it is difficult without much research, to arrive at a precise adjustment.

A sufficient amount of privilege will be
accorded to your Quarterly Meeting to cover
all the requirements which are likely to
exist at the same time, & this will probably
be deemed a satisfactory reply to the
~~inquiries~~ enquiry.

Sister

Filey. June 9th / 69 -
My dear Miss Sarah,

You will be surprised to find I am at Filey, and I fear you have wondered that I have been so much longer than usual without writing to you - The reason is my Sister Lucy and her delicate little Baby have been paying us a long visit, & I was kept so very busy whilst they were with us that I had to neglect my friends altogether - I was sitting a while with your dear Sister on Monday evening & promised her that

I would write you from
here - I am glad to tell
you she is very nicely,
and had quite enjoyed
being in the garden;
she desired her kindest
love to you, and wished
me to say she should
be much delighted to
receive a line from you.
There was a beautiful
white geranium in
full bloom in your
sitting room. Mrs Wells
went to see Miss Cole
the day last week;
she was very nicely,
but as she would walk

both boys were sadly tired
afterwards. Miss Jackson
walked up from Miss Cole
on Monday; Miss J. has
gone to Gekley to visit
the Bride; they were
all quite well. Filey is
very attractive now; the
sea is always beautiful,
and I think I never
saw the fields and hed-
ges so luxuriant as
now - I hope dear
Miss Sarah you get
out very much and
are feeling better and
able to enjoy the beau-
ties that surround you.

All your friends will re-
joice when you are well
and able to return to
your dear Sister; we
pray that if it please
our Heavenly Father
this may soon be the
case. With kindest love
in which Mother joins
me -

I remain,

Your sincere friend,
James Blumel

There is one thing I ^{think best} to mention before the Medical Examination that the advice thou gave me respecting a practice I always was inclined to which thou spoke to me about on returning from York has not been attended to. I thou knowest that I told thee that until the beginning of the 5th mo 1849 nothing had ever come from the part but that almost involuntarily for the whole of the months 5, 6, 7, & 8 of that year a great deal of excitement was in that part & the effect of it in fluid flowing. From the 8th month of 1849 till the 5th mo 1850 there was no temptation nor involuntary action there but in the beginning of the 5th mo 1850 the excitement & prevailed & the effect partly involuntary in the fluid flowing took place in the 5, 6, 7, & 8 of the 1st week in the 9th mo when I determined that nothing should take place there & nothing did from that time till the 8th mo 1852 when suffering from the despair as regards everlasting things caused me to commence as a relief from distress on that point & from that time until the present I believe on an average fluid has

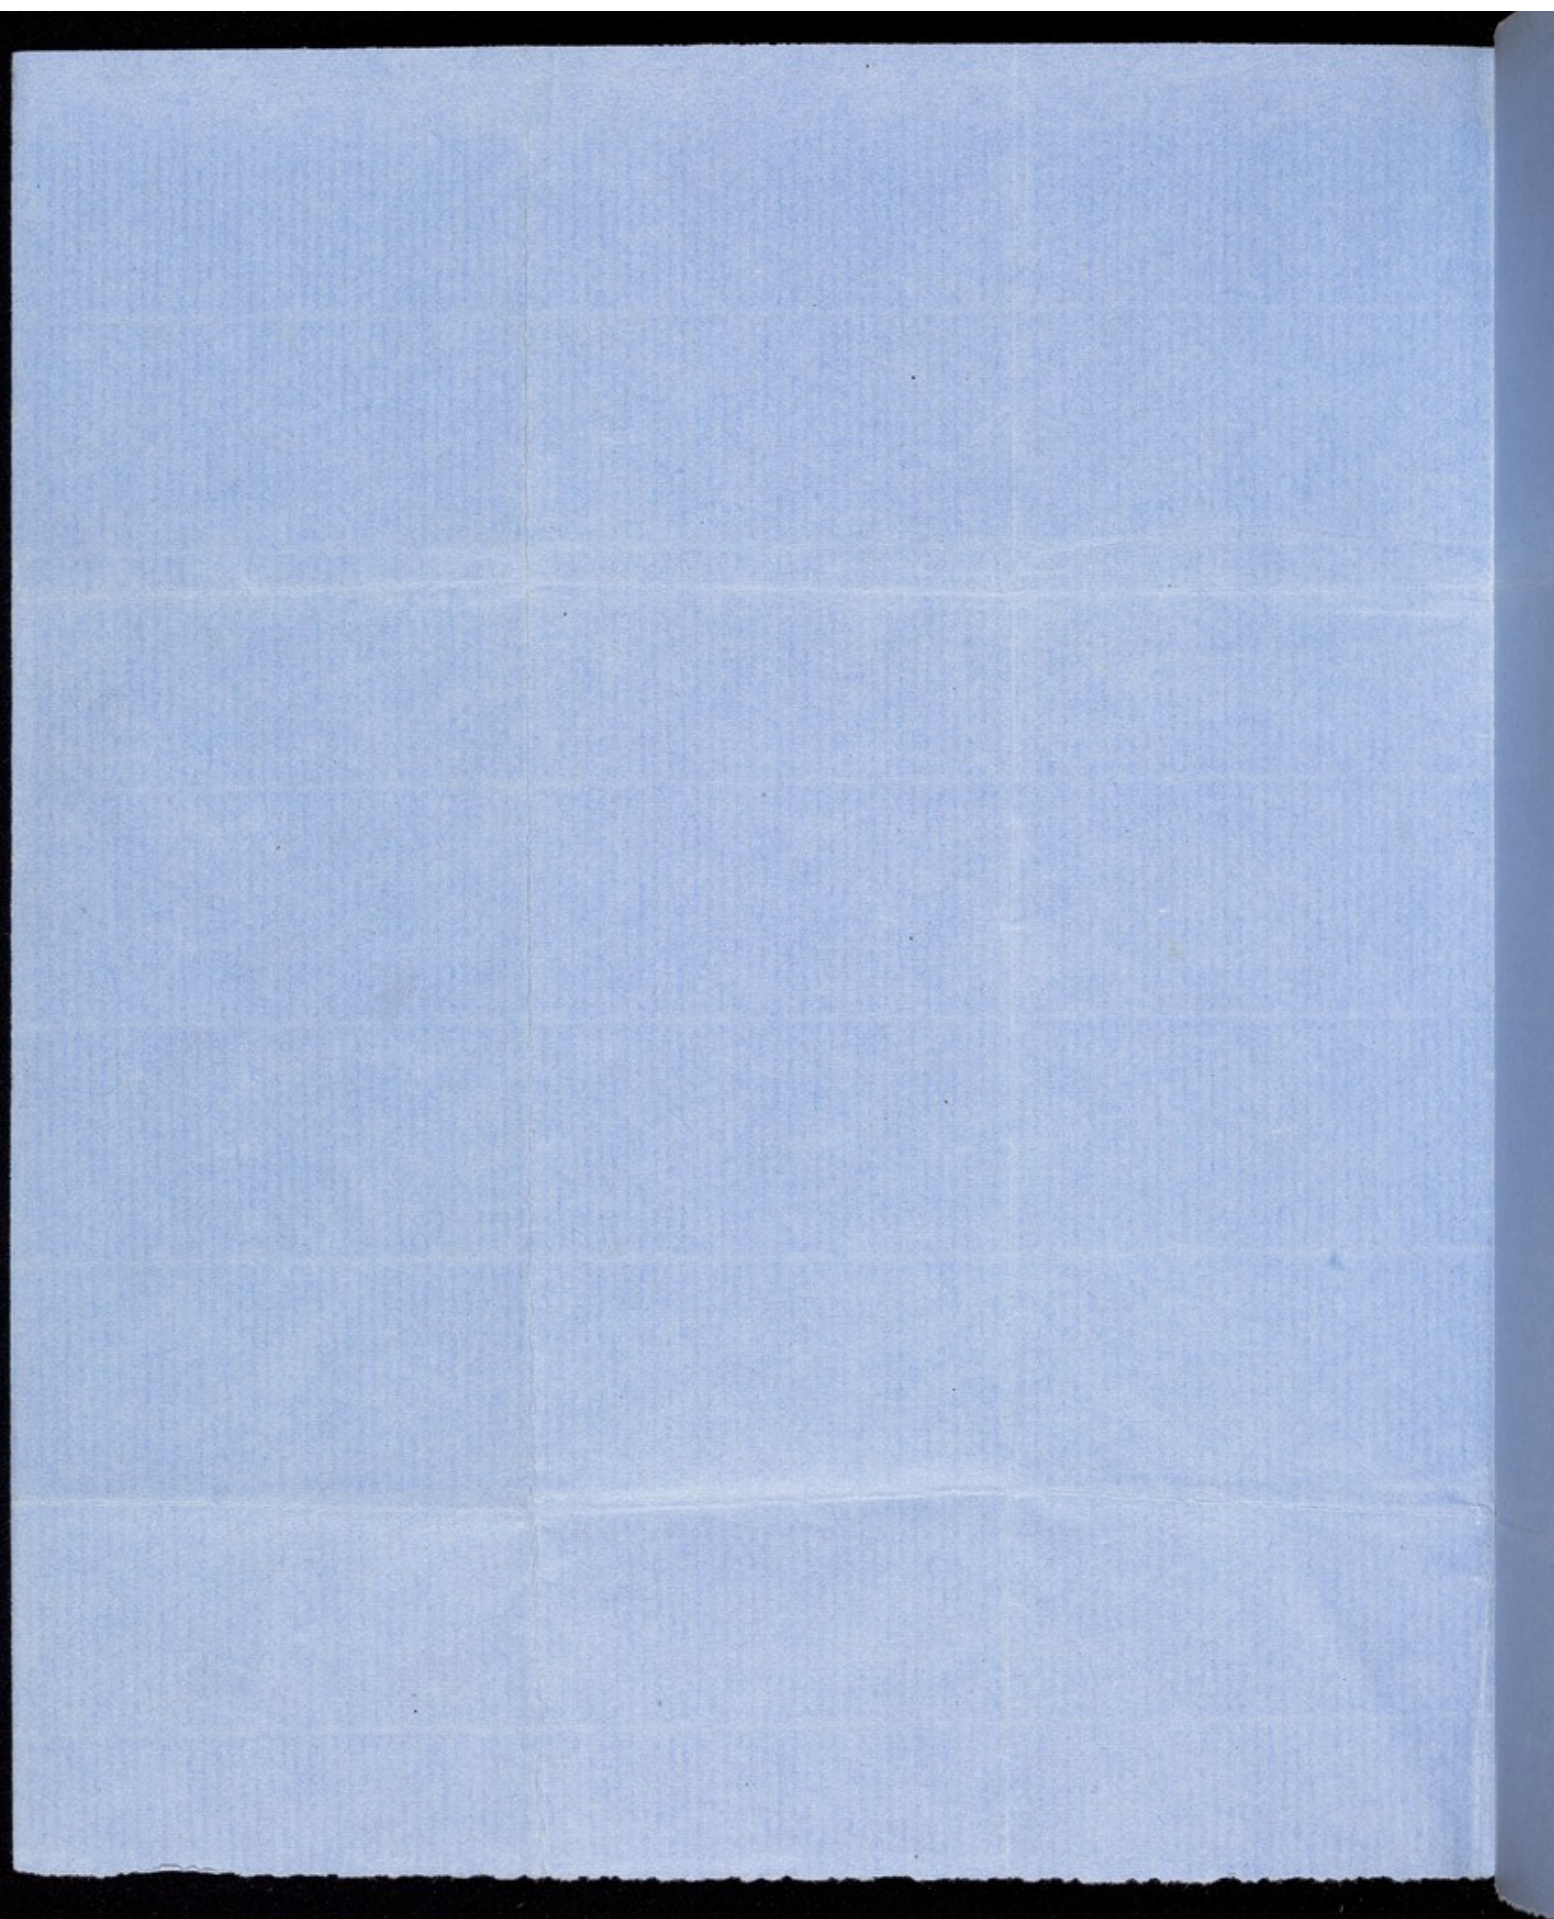

flowed from that part ~~full~~ once
a week & often during the time it
has flowed twice a week. The
thing which caused me to begin it
was Despair as regards Everlasting
things & I believe that the thing I
has not done me any harm
whatever for I have often ~~tried~~
tried to leave it off but it has
seemed needful to excite it
to revive me. It has always
seemed to revive me & with
the exception of sometimes during
it, very great beating of the heart
has taken place. I have ^{not} felt any
sore for it. I should certainly
in the Medical Examination like
for the heart to be tried by the
thing called a ~~stethoscope~~ for it
would be very bad to begin
trying to cure if there is
any thing the matter with that
organ.

Quakers Marriage

In a snug little corner, in the West Riding of Yorkshire where stands a Quakers Meeting House, at H. in Tindley, there ^{at which} a place was solemnized a marriage between Wm Morehouse, Farmer, Biggin in Thurstonsland of Kirkburton, & Mary Ann Beaumont, ^{spinster} of Highlathe at their week day meeting. which is held on a Friday.

On the 28 of April was seen both Old & young directing their steps towards the Quakers meeting to witness the ~~same~~ ^{another of marriage} & long before the usual time of meeting there was a goodly number assembled. At length the time arrived, which brought the lucksome ^{Bride} groom of the age of from 70 to 80 years ~~with his~~ sparkling Bride, side by side, up the aisle of the meeting House. He mounted the gallery as spritely as many a ^{half a century} young man. The ~~Brides~~ ^{who} man was a modest old Quaker, from 60 to 70 summer long, but (of the Batchelor School), with brides maid, ^(a spinster) ~~at~~ his side led the way, ~~with~~ but we must not forget to say that she is of a full age, say from 70 to 80 Christmas days.

after a short time ^{thing set} in silence a highly esteemed ^{person} ~~person~~ arose with these words: They that follow me, (says our saviour), shall not walk in darkness but shall have the light of life &c. then ~~up~~ ^{up} jumps another in an harsher tone, Woe unto thee ^{the speaking in the way of ministry was made} ~~corasin~~ ^{of 2} after this the Bridegroom & Bride arose, & in a rather low tone said = Friends I take this my Friend Mary Ann Beaumont to be my Wife. promising to be to her a loving & faithful husband.

Chapter 2nd

From the 1st of October 1852 - to the 1st of December 1853.

We sailed down the Channel, with a vile head wind from the South-west, & squalls, & hard frosts with it.

The first time we "took in sail" I was long in coming out, & the carrins were hauled out on the main top-sails yard before I had gained the deck I heard the mate (Mr. Gladle) coming for me, & took to the lar-board door for an exit unobserved, but he was too sharp, & hailed me on the galley threshold. Then the villain berthed me with the royal halliards, & sent me up the main rigging screaming & cursing like a cat, or more properly like a sailor, for I doubt if ever a cat, or even a sailor, heard or knew of such language. I stood in the top, roaring in concert with the winds, till the 2nd mate (Mr. Lewis) sang out to me to hold my country tongue & come down, this I did, & was on the point of going on my knees, & blessing him for his kindness, when he gave me a crack that sent me backwards, & told me not to get him in a row; & set me on the booby-hatch till the mate's watch was called, when he hurried me up into the top again, as if he did not want the mate to know; though I afterwards heard that the mate told him to call me down.

When the mate found I was in the top he sang out

for me, & (God forgive me for it) made me go on my knees, & ask his pardon, when he picked me over, & told me to go below. After this the unconquerable pride that possessed me got me upon bad terms with all my ship-mates. Rows between me & the rest of the men frightened the very sharks from the boats. One Sunday afternoon I made fire with a piece of peas-pudding which was in the gally; being "caught in the act" I was taken to the mate, who threw a rope round my neck, & set the old Cook (the prosecutor) to leather me; but it being in his interest to soften the stroke, he gave me, the Skipper came forward, & cut about half a pound of meat out of my arms. "You damned coward," said I when he had done, "I'll tell the owners of you," this seemed to paralyze him, as he walked away, though any other Captain would have ended me for it. When we got to Bombay I got 7 respects of the Captain, & went ashore with the other apprentice to spend the day, here we were duped by a Coolie, who took us to all the lowest clews in the town, & there are plenty, & by this means spoilt us out of all our money for what was not worth 15 pence. The eldest apprentice died at my feet after a week's illness, during which I nursed him, glad enough to get out of the scene, he was sun-struck. During our voyage out the mate had conducted himself in a very improper manner, & one

day having as he thought been insulted by one of the men, he took me aside, & asked me to go into the fore-castle, & get the fore-castle man to strike me, & then come out & complain to him about it. I saw the drift of this, but happening to be upon ill terms with the man myself, I was glad enough to be able to revenge myself on him. As quick said as done, I putted forcibly against him, upon which he struck me. Upon my complaint to the mate he came in, & knocking the man down, beat him till his trousers & shirt were covered with blood. The man went to the Captain, but what he said I knew not, but the mate was discharged in Bombay. Heck rich lost all his wages, he went in a country ship for China. Coming home I had a row with the second mate on the following circumstances, an order had been given to take in the main royal, which I not hearing had gone on to the fore-castle to pump ship, when he came after me, & called me a — dodger, pushed me off the fore-castle on to the main-deck. I got up, & told him that I was no more a — dodger than him, upon which he followed me to the main-mast, striking & swearing at me by intervals. When we got to the main-mast I turned round, & struck him in the face, this was something new, & all hands were soon mustered on the quarter-deck. We scuffled & fought round the aft-deck hatch, and

Finally he pushed me down on to the main sheet, which was tacked to the bitheads right across the deck.

I sat down of my own accord, but upon his pushing me over it, I seized hold of the back of his neck, and lugged him over after me, then rolling on to the top of him kept him down while all the seas in the ocean were coming over him; he then tried to use his teeth on my arm, upon which I sang out "Don't bite y'er buzzer, don't bite" which became the cry-word of the ship from that day. I then got off him, the mate who had not been able to eat his breakfast for laughing came out, & told me I had hauled him well, but not so the Captain, he looked green as a turkey-cock, & when he had eat his fill sent for me to come aft.

I tried to obey him by running on to the jib-boom, but he soon had me lugged aft, & flashing one of my hands to the pump-break, & the other to a belaying pin he gave me 2 dozen on my bare back, tearing off my clothes for that purpose. He had scarce given me the 24th blow, when "crash" went the fore top-mast, & gave us a 3 days job to repair it.

Upon another occasion, when we were becalmed underneath Fogo, or the island of Fire one of the Cape Verde Islands, I was sent up to scrape one of the top-masts, closing my knife I was forced to sit there all day, but on the whole I was better off coming home, as the

Captain tired of such continued fighting forced the mate to touch me. I was taken bad with the Scurvy in my leg, & the second mate from entirely good motives stopped my meat, but without substituting any thing for it; thus I did not relish, & therefore complained to the Captain, who ordered that I should have my usual allowance, & the consequence is that I have been bad ever since with this awful disease.

When we were in Bombay I had received a letter from my father, in which he told me to take care of my money, & told me that he should like me to see China. Now, as I thought that my Father wished me out of the world, (which indeed he had good reason to do,) I supposed this to mean that he would like me to be a few months longer at sea, & perhaps be eaten by the Malacca pirates. This unfounded suspicion wrought so on my mind that I would not so much as write an answer, but on the contrary tore the letter up, & prayed that if ever I wrote home from there, I might fall overboard on the passage. When I got home I wrote to my brother Marshall & told him of the case, adding in my letter "But let my Father stop at home & buy soap for his new child" lately born of my mother in Laos. Now, it happens that as this letter was written on a Saturday I directed it to my father, where my brother always passed the Sunday, but it happened that he had gone to Birmingham that day to see one of his uncles,

6
Therefore my Father knowing the direction, anxious to know how I was getting on, & not suspecting any unpleasantness, opened the letter, & to his surprise & anger saw the imputations I had put on him. He carried it to my brother, & told him to come & see me, & let me know that he would not see me; & I should not go home.

As I had expected my father would apologise for his wishes I was vexed & disappointed, & when his letter was explained to me very much grieved at having displeased him. My anxiety was such that I very soon apologised myself. He then came to see me, & dined with me at the Temperance Hotel, & gave me 10/- at parting.

We arrived in the Albert Boston at about 10 o'clock at night, & the Captain when he went ashore, left the other apprentice & me directions not to leave the ship that night, very properly supposing that we should get into trouble & mischief, this at first seemed very pleasant to have any luck we pleased, & I sleep all night too with the Kid full of meat, but soon after a conductor came aboard from the Sailors' Home, & asked me whether we should like to have our supper ashore. The Captain's injunctions were not much of an obstacle in the way of two hungry sea-boys with soft sacks, cheese, beer, & what not on the other side of it. So after a good supper we once more sank down into a feather bed. I slept so soundly that

I never woke till 't past 10 o'clock, when after getting my breakfast, I hurried down to the ship, which was just docking in the Albert dock. "You rascal. I'll give you a fathom of rope when you come aboard" I said the Captain, but as he was employed in administering a Rich cordial to a thief who had stolen aboard for the purpose of pursuing his profession, I escaped for that time. He signed the note for my admittance into the Sailor's Home, where I took up my residence. About a week after I was taken ill with what I believed to be my ~~old~~ disease at W—, but this was nothing but the salt meat being forced out of my body by the green food I had. Under this impression I informed Mr. Louther of it, who not liking to have such a disease near him got me lodgings at in B— street, under the eye of a doctor. There I stopped a week without work, but the doctors could not do anything towards curing my disease, & my bad propensity to arguing soon caused me to fall out with the people of the house. We were arguing one morning with the landlady Mrs. B—, when angry at something that I said she caused the poker & gave me such another boy with it as I had got from his royal mistress; but with this difference, that I was looking her full in the face at the time, & instead of laying my hand on my sword, I

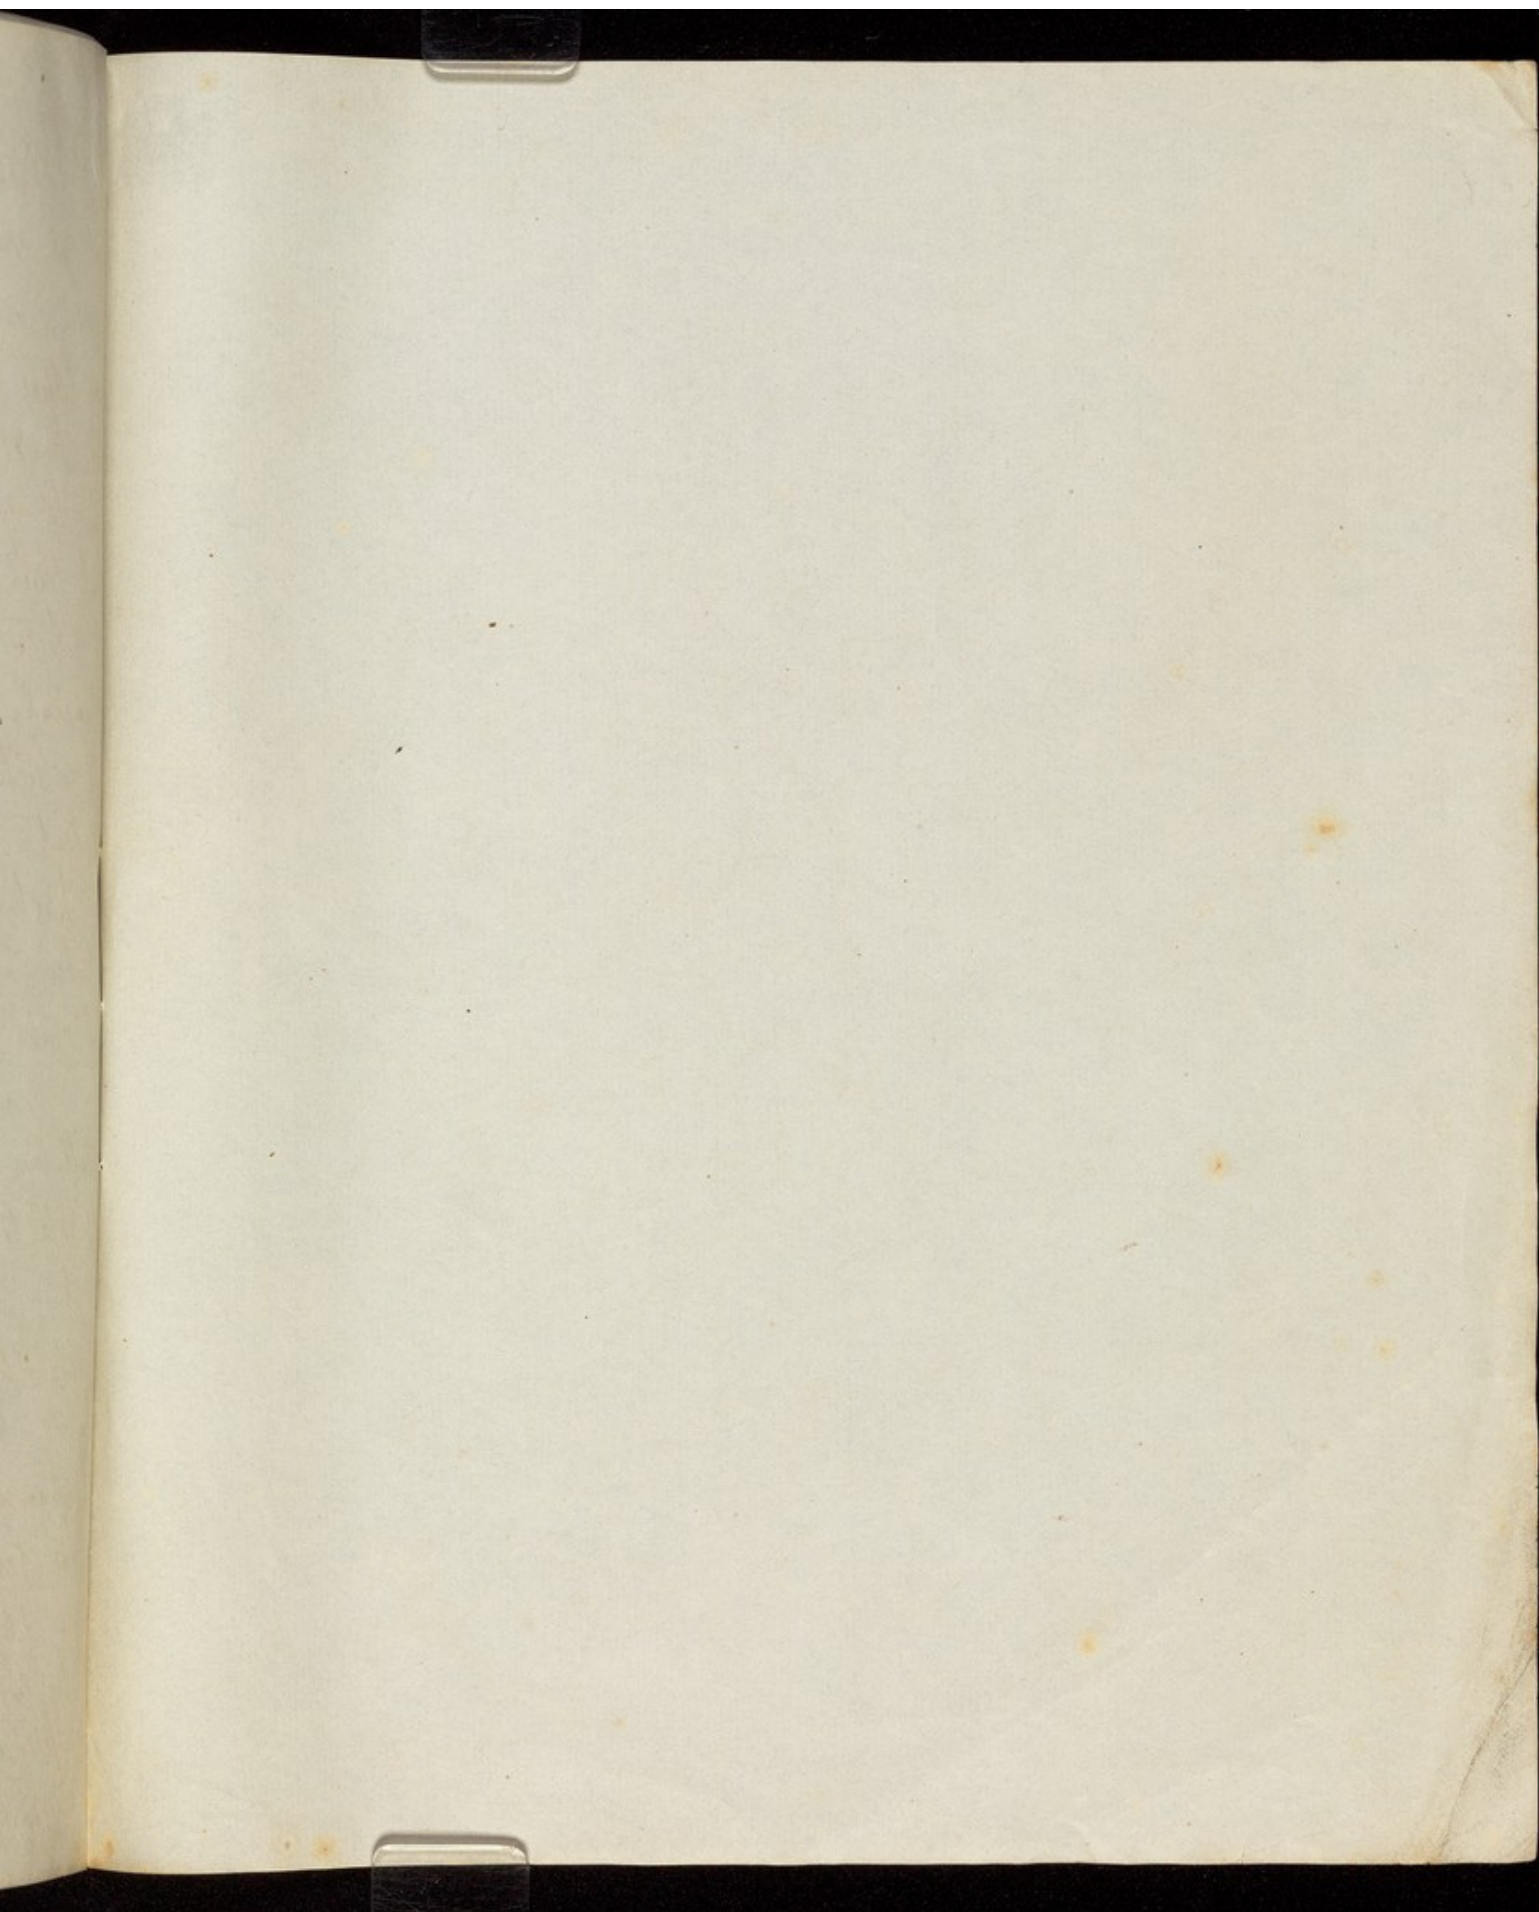

fingered the tongs, & gave her a clip that brought the blood trickling out of every individual hair of her head.

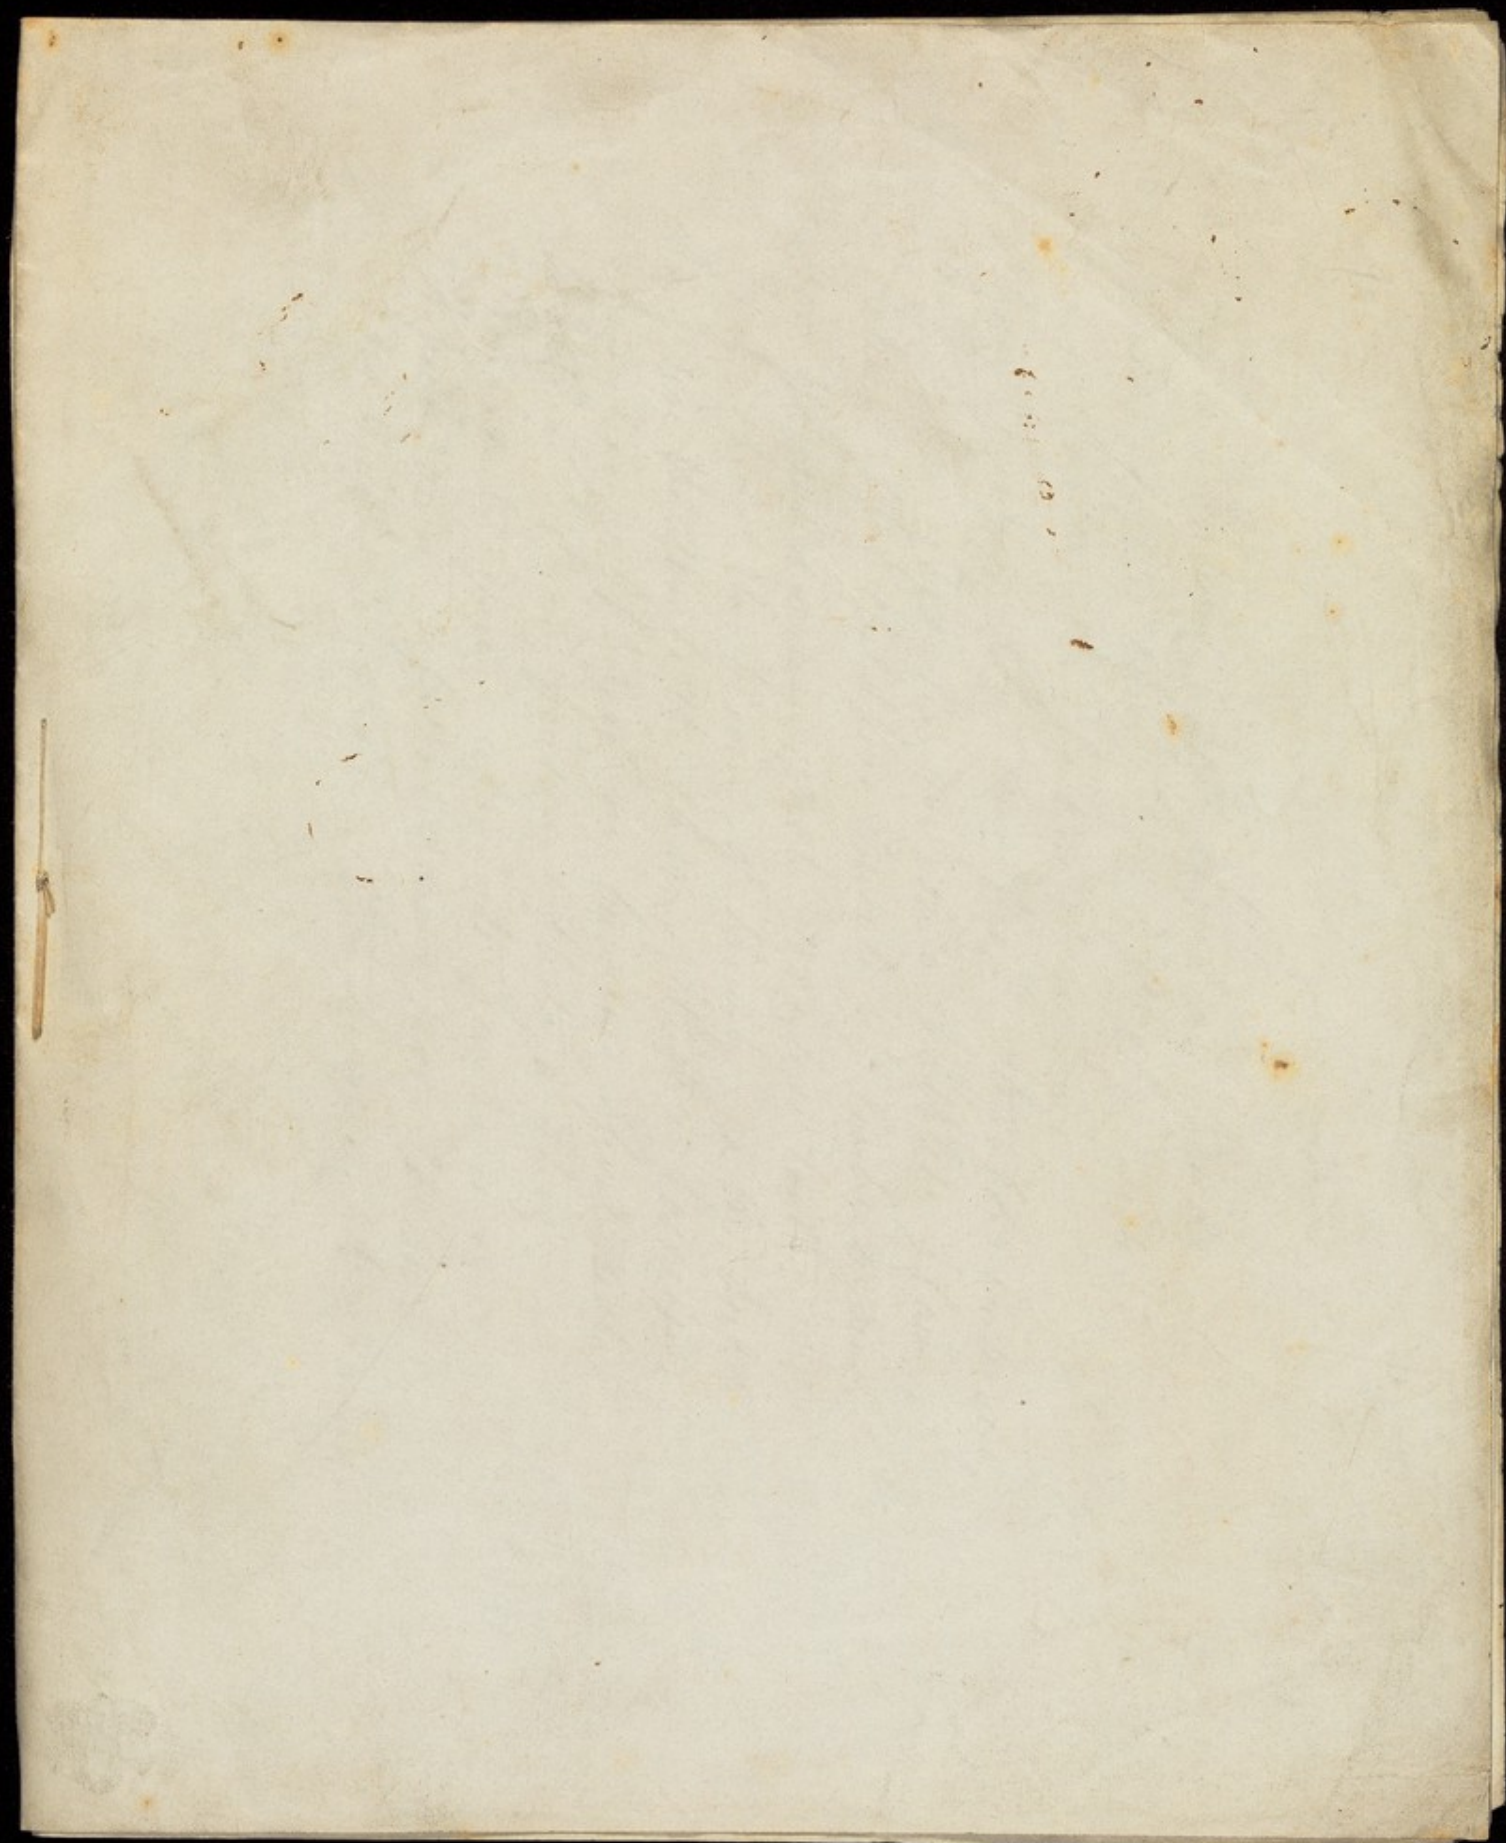

The servants ran to her assistance, her son ran for her father, while I made the best of my time, & went to my work, with the marks of a lady's love all across my right cheek. I went up to the Home to get my dinner, & got a note for admittance into it for the Captain, but I knew that he would not sign it all of a sudden, without seeing my late landlady. There was as nice a temptation to forgery as ever presented itself, for if I could not get the note signed when was I to go for a night's lodging. For this reason I went into an eating-house, & called for a bottle of lemonade, and a pen & ink, & sat down to counterfeit my Captain's signature, but thank God I was prevented by His grace, & determined to go & induce the overseer to take me in till Monday. This he did, & on Monday I went up to the Owner's office to get the note signed, they were very wary, & it was as much as I could do to get them to sign it. I stopped at home that day and Tuesday with a bad leg, but on Thursday morning the Captain sent up to the Home for me, & when I went ~~up~~ down to the ship proceeded to discharge me; this I was very willing he should do, & wrote home to my Father, complaining of my Masters' conduct to me, & declaring my wish to come home.

I threatened to turn Soldier if my father did not get me a situation ashore. He answered it by sending my brother Marshall. He had also written two letters to me, but having directed them to my late landlady's I did not receive them. My brother tried to get the Owners to take me back again, but their determination, coupled with my unwillingness to return prevented this. They also accused me of several crimes which I had never committed, one of which was taking one of the Captain's books, with intent to steal it. They had also me to sign a protest about the ship losing her head-mast & believing which to be a fraud on the part of the Owners I told them so.

After this I continued in the Sailor's Home till my disease grew so alarmingly worse that I ~~wrote~~ wrote to be brought home several times, but could not get a satisfactory answer; and therefore was forced to go into the Royal Infirmary, a note for which Mr. Addison got me. This life seemed stranger than all to me, & I cursed my father a thousand times for letting me be in it, while he gave his new child a shelter under his own roof. The rage brought on by these malignant feelings was only kept down by pride, and this pride, silently, and slowly deprived me of reason.

Oh! gentle Nature, soft, indulgent Guide,
I never slighted thee, nor left thy side,
I ever loathed the follies of my race,
Whose frenzy tore me from thy fond embrace,
And why forsake me on a pathless plain,
Return! Oh! childhood mounts my limbs again,
For joyous exercise, not ceaseless toil,
That sheds the bloom of Beauty on the soil.
Oh! give the words the charms it once possessed,
And give, Oh! give my burdened spirit rest.
Whatever I now pursue uplifts a sting,
The insect queen upon its painted wing,
Which once I followed over mossy trees,
Now quick to spoil, then lingering to admire.

Cardinal Beaufort, accused of having murdered the Duke of Gloucester, the faithful remembrance of which seemed to have filled his mind with indescribable terrors; for it is stated his end was one of the most terrible ever witnessed. His last words were — 'And must I then die?' — will not all my riches save me? I could purchase a kingdom if that would save my life! What! is there no bribing death?' That description of the Cardinal's death is awfully yet scrupulously true. — Extract from The Friend. A Religious and Literary Journal For The Society of Friends. 3rd. Month. 1858. p 47. from Dying Words of distinguished men. (From Salut for the Solitary.)

Contrast this with the following.

† "Lord Cardinal, if thou thinkst on Heaven's bliss,

Hold up thy hand; make signal of thy hope:—

He dies, and makes no sign". —

It is almost impossible to remove the impression made by Shakespear's terrific death bed scene; but that it is historically incorrect there can be little doubt. The great cardinal died almost in public, surrounded by the clergy of his diocese. — Pictorial History of England. page 84. Note.

My dear Sir.

I thank you
you is somewhat improved
in his general health - his
appetite is good - he takes
a large amount of Exercise
and he generally sleeps well -

My opinion as
to his mental condition is
however not a favorable one

He is in a Condition of
"General Paresis" a form of
Mental disease of which there
is no case of permanent
recovery on record & which
generally runs its course to
a fatal termination in 3 or 4

years. I will however be
some small satisfaction to you

To hear that, as is usual
in such cases, yr. son is
cheerful, happy, & contented.

Yours faithfully
W. Parker

Dear Sir,
I have the honor to acknowledge
the receipt of your letter of the 11th inst.

the same has been forwarded to the
proper authorities for their consideration.
I am, Sir, very respectfully,
Your obedient servant,

Slavery.

Slaves, Slaves, Slaves,

Come all who pity
And attend to my doleful ditty.

The slaves so abound in our city.
That in my heart I have found to take pity—

I do dislike the Quakers,

They are the greatest slave makers,

Go see few Quakers in Drabs, But plenty in Cabs—
Each Sabbath day when they go to Pray—

Theres first Jemima, Spence, An abominable nuisance.

And theres Billy-Goat-Back has and his sister

With legs like a Jack-Ass—

And theres Rowentree and Walkers and lots more nice talkers,
And many more I could name, but at present refrain—

Theres some not so nice on their little shank nags—

Theres little Johnny Briggs—for all he keeps figs—

And his tight little Brother, who sells such stiff figs

And theres Thomas Eye Canning, with his chariot friend White,

You think I am punning, But I think I am right—

Why they walk and they talk all the news of the week.

Its shocking to think how the Sabbath they break.

Set God's laws at defiance, His commands disobey—

And cause others to work, when they go to pray—

Theres Rowentree and Spence—Jemima I mean.

They ride in a cab for fear of being seen.

Unfeeling is Buckhus, - He cares naught for a
Black Horse.

I think, He would look better astride of a Jackass.
But my rhyme I must end and pray God they may

(Mend.)
For I'm sick of the Quakers
There's two, they might do, I mean - Kitchen & Baker,

Declaration 4th Month 1836

Now the questions I am going to put are these. What is the object of my being here? Is it not because I am more or less insane & that I may get cured if such a thing is possible by using every means in my power that I consider right & that those around me should give me all the means in their power to get well. Am I under any last restraint? Certainly not because I am diseased to that extent that I have no Conscience or Religion to give me notice of the wishes of a God to me & therefore I am under no obligation to God or Man. Very well although I am in this state certainly there seems no law that ever to guide me any way except that has God has brought me in to this state of unanswerable & irresponsible the belief that he has done it to answer some purpose of his & that although even Death by one's own hand under such circumstances if Nature points that way seems to be as much according to the will of God as any other doings yet I consider that although death by my own hand is allowable yet I have likewise this consideration on the subject that although the act of death by my own hand is sinful yet how can I be sure but that I shall be judged for the actions which I may be under condemnation for before I get into an unanswerable state & condemned for them to Punishment therefore I must die in an irresponsible state let it be by the direct act of God instead of by my own hand because then I can say whatever may be the consequences of my transgressions before I come into an unanswerable state yet I have done nothing to hasten or insure the condemnation of them. Again how can I be sure as long as I live but that God may take away this irresponsible state & give me a responsible state & then the transgressions which may be against me for my doing whilst in an unanswerable or irresponsible state may be atoned for & forgiven. So that for these Reasons & these Reasons I do not see any good in living on.

2. Now before I came here it was my wish to come to a Lunatic Asylum because I believed myself irresponsible for my actions & because Lunatic Asylums I believed were reported to be kept up for the purpose of curing those who are insane.

3. Now it was considered by my Relations that a certain Habit which had been indulged in from very early years was the chief cause of my being in such a state as to require the protection of a Lunatic Asylum. Now I deny that assertion. That is, My Mind has been diseased from childhood & has been getting worse & worse & diseased out by my peculiar state of Disease viz. Melancholy & unhappiness. I do not deny, may be very much affected by keeping up this certain Habit that is all I will say on that Point. I do not say that if it was possible which it is not viz. keeping as quiet as a lamb by those around one that the mere leaving off alone of this Secret Habit would cause a getting into a thoroughly well sound state of mind without allowing Nature to have her other way which she points out for getting well & the chief of which I consider is in letting Nature have her full way in everything as will be hereafter more fully stated. I consider that from very early years I have had very great nervous Weakness which nervous Weakness has caused Nature to put before me the temptation to yield to this Habit as a temporary though in the end injurious & conclusive Poison of the mind & system.

4. I will now give thee some lines which I have met with which

as regards my state of mind are extremely expressive
I think not though forlorn & dear the Maniacs doom his lot the worst
There is a suffering more severe than his sad records have rehearsed
In his more heart & conscience prey
Upon the soul that slights their sway

There are whose mental ear has heard the still small voice though
Have proudly foolishly preferred the Sophists creak the Tyrens song
And staked upon a desperate throw
Their hopes above their peace below

With theirs compared the Maniacs doom though Abject may be
His mind though oft-times veiled in gloom, at times may know
Not so where thought & conscience prey
Upon the soul that slights their sway

5. Now tell me thou must remember the first week that I was here
that I was under the most advantageous circumstances for getting
well that the keeping on of that Habit viz. Self Abuse would nullify all
Now I am willing to use my utmost to stop this Habit & thus put a
Stop to it under certain circumstances which I will here explain
Now what has been the fundamental Reason of my keeping on the
Habit throughout the whole of the time I have been here & more forcibly
still for the last 7 mos. notwithstanding I have at times formed
Conclusions to put a stop to it? The answer is Not the fear of the
Halter but the fear of the Shower Bath for for the last 7 mos. we have
been on the brink or verge or tip of showing indubitably my Insanity
& Madness but as the Shower Bath seems inevitably to be given on any
outbreak of Madness & as I know this unnatural habit is the only
one to keep me from outward show of Madness, therefore for the last
7 months I have kept up this habit on purpose to avoid the horror of
the Shower Bath & have thought that only been enabled
to draw on in Misery without getting Shower Bath. A cowardly
State of things is it not but so it is & I can liken my hatred of the
Shower Bath in this respect in the way that a Member of the Faculty
has told me of his horror of a certain pain. A certain Medical
Man has told me that he would rather suffer Toothache for a
Twelve month than have a tooth drawn out. Now however I begin
to come to a Point as thou will see by the 6th Paragraph

6. Now as I have told thee before I feel myself to be under no law what-
ever except that of using every effort to get well & as I am in this
Irresponsible state of mind I have been in it for so very long &
more particularly for the last 7 mos. what am I to do? Shall
I struggle on as I have done more or less the whole of the time
I have been here in suicidal Misery & perfect Torment & keep
from violence & outward appearance of Madness by the force
of the unnatural habit which I have used which thou call
Self Abuse & perhaps in some unguarded moment from my sui-
cidal Tendency put an end to myself for the sake of avoiding
the Torture of the Shower Bath, Or shall I determine to leave
off this Habit of Self Abuse & thus let Nature have her full way
of Madness & Insanity & determine to suffer Martyrdom by
the Shower Bath rather than yield to the former suicidal plan
of keeping from giving way to showing my Insanity by the unnat-
ural habit of Self Abuse? Here is the Point there shall be no thr-
ing away from it. I tell thee I believe there is no one in a really

madder state nor have been during the last 7 mos. than I have been & yet I have managed to draw on my misery for the sake of escaping the Shower Baths which seem to me inevitably to follow every outbreak of Madness. I am under no law as I said before nor can any Man make me do or keep from anything which I choose to do or keep from. The answer is I care not for Life & therefore I have fully come to the Determination that as I firmly believe & have believed that as the only way for my getting well is to let Nature have her own way in every thing & in so doing to work her own cure, I say I have fully come to the Determination to let Nature have her own way in every thing & venture by to leave off the unnatural Habit of self Abuse & to suffer Martyrdom by the horrible Shower Baths rather than yield an Inch. I fully expect now that I have come to the Determination to have Shower Baths every day. But what if I do die under them, what then, I shall only be dying in a Right & Righteous Cause.

7. Now I will ask the Question what are the Shower Baths given for? Is it not to prevent Nature having her own way & working her own cure? At any rate if they are given to me they will be given to me for that Reason but however if the Madmen here do try & thwart the Object of my being here by endeavouring to prevent my getting well by giving me the Shower Baths as I said before what can I do but die in the Righteous Cause of endeavouring to get well by those Means which Nature appoints. Now if you do give me Shower Baths to endeavour to frustrate Nature's Cure, Mind that on this I now condemn not myself for as I wrote to my brother Ed. I now told me once that I now would rather see me in a state of convulsion as regards the consequences than in this miserable state I have been in & I thought that Nature would then most likely get over the Disease sooner. Now what is this state of convulsion? Is it not the full showing of Insanity by allowing Nature to work her own way which I have been of the King or King of the last 7 months but which state though bearing with misery has been got over through & only through self Abuse. That again is this state of convulsion I now wish to see me in but an Effort of Nature to cure herself a full show of that Insanity which I am possessed with & besides did not tell the Remark to one of the attendants & he said "I expect the same that under those circumstances was a state of convulsion" you will get well the Quicker. Did I not show my Manifesto about my future course to Dr. Tucker & he said he on the whole was quite pleased with it. Did I not show it to Dr. Williams but he said nothing at all about it. Did I not give it into their hands for them to read before it went to my Brother Ed. & did I not read it that question I want to know. Now as I told him before I have made up my mind what course to pursue even to suffer Martyrdom if I am to have Shower Baths & if I am to have them I expect they will be given every day at least.

8. Now then I wish to state why I have endured inwardly what I have rather than obtain help & thus get Shower Baths given in. The Reason is this. I am may like Shower Baths. But the chief Reason is I was never fond of the Water & Last Spring I had three Shower Baths given me & as I expressed to my Brother E. I never remember to have experienced anything more suffering & Death like than during those three from the feeling of Total Inability & Pain of Breathing which those gave me & I must have heard how I used to suffer with my Breath & Tightness at the Chest whenever any little Cold was taken that that Chest Weakness may make the thing more suffering for me than the Rest of the Patients. The three I mention were given me as part of an intended series in the hopes of strengthening me & making me feel more vigorous. But they had exactly the contrary Effect for I felt so debilitated & weak after them that it seemed almost insupportable &

They were left off as not seeming to answer the Purpose of
making me stronger. These three Shower Baths I have
mentioned were given me before I had my present Issue &
& have not had any since then & I have thought that owing to my
having an Issue, that you might not give me Shower Baths
I do not know how that may be. Again I have understood that
Shower Baths are defended because they are said to cool the Head
when the Head is heated. Now I think I can say that I never
Complain of my Head feeling heated. It feels heavy & aching & dizzy
as if there was cold Water in it sometimes but as for its feeling
heated that is quite out of the question. Now then having stated
my statements I wish to have these questions answered - Am
I to be freely Shower Bathed for allowing Nature to work her own
Cure, or am I to have the Temptation still put before me
to keep up the Old Suicidal Plan of Yielding to "Self Abuse" one
purpose to be able to Control Nature & thus avoid these Out-
rageous Shower Baths. I shall not be satisfied without these
questions being fully answered, Affirmatively or Negatively. Besides
if a man is bent upon getting well, he should be put to it. However I have
now fully explained myself & there needs be nothing further said if
these points are kept to.

Lecture 248. Nov 14. 1886.

The senses by which outward knowledge is gained frequently applied to spir. means. Seeing - hearing - even handling - as in this last.

Seeing comes first being in light walking in in the c. e. having light & doing "things of light & day - avoiding "works of darkness."

2. Hearing - having "spiritual ear opened." One of the great offices of Chr to open ears Lk 25.5x Chr. literally fulfilled it Mark 7. 31x note "sigh - run again Mark 8. 12x Jesus is said to have groaned in John 11x

Chr. gives "hearing y^e deaf as one of the proofs of his divine power. Matt 11. 5x

Spiritual quickness & attention signified by deafness. Ps 58. 4x

Hearing in a spir. sense means obeying - Hear also is used naturally - senses with outstretched in "pass. Lk. 6. 9. 10x Matt 13. 15x

How beautifully does Chr. use it. My sheep hear my voice. They will be among "sheep of his pasture." The number & harmony these alluded to in Acts. 5. 14x having sight & light - having ears & hearing. Whilst hearing understand & obeying.

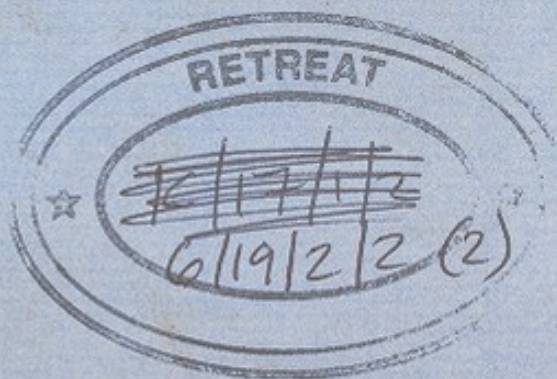

He uses to us "senses," so blessed should be put. Turn away these eyes.

Dear Father;

I am looking forward to seeing
you again, & I hope the time will
soon be fixed, perhaps you will consult
with Maunna Vinford me. I should like
to come about the middle of March, if it
would suit you - or as soon after as you
please. I do hope that I shall not re-
turn here again I am sick. Unusually
I have been very unwell this winter but
have had no kind sympathising letter from
home about my health. Dr. Fitching has told
me 3 days consecutively that I should be
better in bed. but after having had 9
hours on a flock bed I am glad to
turn out in a morning. I am going to
try to get better. I believe this fever has
been forced upon me through colds. Do
not pay more for me as it would

he likes throwing money in the sea. Several
of my teeth have become rapidly loose lately
good sound teeth. I do not think Dr. Keating
will much like this letter. I shall take a
copy of it & also a memorandum of the
date!

P. S.

I hope I shall get compensation
out of the Government for my imprison-
ment here. I have received a little good,
I an immense amount of evil -

Wallingford
My Dear Mother

I am very sorry
to distress thee but I
thought it best to write
& tell thee how things are
I have been induced such
against ~~the~~ nature of men
at Bath with such
frequent temptation
to destroy myself
that I can sincerely
with truth say it was
with the greatest difficulty

I have tried to avoid
the awful deed. As I
wrote to Edward for the
last 2 years & for I
have daily believed that
I am sentenced to
eternal ruin & that
with ~~as~~ dreadful torture
of agony & distress of
mind & feeling I will
~~as~~ have been the tempter
to destroy myself to
get out of my misery
~~as~~ being so great but
looking to what

as I said so madly
sure so desperate as
this I have powerfully
endeavoured to keep myself
from it & have believed
my only way is to escape
from my torment at
Bath & so I have. I
pray thee to be merciful
to me for I declare
sincerely what I say
is no lie & I hope that
thou wilt look mercifully
on me. When I went to
Bath I did not at all
expect to be obliged to stay
here or I should never
have accepted the invitation

Knowing the state of my mind

I may truly say, without
 to one with the best
 the mind as reproach

[Faint, illegible handwriting]

Since I have been at school
 must have said upon

~~Destiny is in the self~~

Therefore I have drawn

Have rights except it

Wish to be humbled

Dear Edw,

The thing which caused me
to leave Bath was my great unhappiness
& to tell thee that As she ~~said~~^{said}
she was willing for me to be at
Devizes to help her, I was willing
to submit to all that the Physician
requires me to do at Devizes
but I am not willing to be
at Bath because I have suffered
such ~~almost~~ ^{unbelievable}
unhappiness there which I
believe very few could have
endured & because I have
~~heard~~ some remarks she
has made to me. I believe I
should be more comfortable
& less unhappy with thee
than with Joseph. And because
I should be more comfortable

in my present tried &
unhappy state with an
own sister than with a
stranger. As I said before
I believe very few if any
have suffered so much
even, unaccountable and
unhappiness as I have
lately therefore I do require
some sympathy & feeling.
The Physician I saw say
thou have seen the letter.
I wrote to Joseph the morning
before thou left about a
temptation of mine. The
Physician I saw accounted
nearly all my unhappiness &
debility & ill ~~health~~ health to
the ~~tempting~~ way to the temptation
& said as soon as he saw my
face he saw what was the

snapped with me. And he accounted
my ailments on the back & heart
He to give way to the ~~Furniture~~
He told me I was not well
but by attending to his directions
I should be better but the
recovery would be slow. He
said if he was my father he
should make great allowance for
my temper owing to the state of
the body & mind. The Directions
he gave me were to

Soak my loins in cold water
Night & morning
to work as much as I could
not to sleep ~~much~~ if possible
more than 6 hours
to go to bed with an empty
stomach
And leave off what he
traces my ill health & mind
too

So that owing to my unhappiness
at Bath I am willing to do
all I can to help the old Druggists
As there said they was willing
to have my help in the shop
But I said I determined at Bath
I would rather go to prison than
Bath

And Joseph can send me a
Prescription the Physician
giving me I can take
the medicine of Bath to
see the Physician again
I can walk to Bath
often as necessary as
I can do but I am
battered and I am
tired

HOW TO SAVE A SHILLING.

A parent asked a priest his son to bless,
Who forthwith told him he must first confess;
“Well,” said the boy, “supposing I am willing,
“What do you charge?” “To you ’tis but a shilling!”
“Must all men pay, and all men make confession?”
“Yes, every man of Catholic profession!”
“And who do you confess to?” “Why, the dean!”
“And does he charge?” “O yes a whole thirteen”
“And do the deans confess?” “Yes boy, they do,
Confess to bishops, and pay smartly too.”
“Do bishops, sir, confess; if so, to whom?”
“Why they confess, and pay the Church of Rome.”
“Well,” quoth the boy, “all this is mighty odd;
“And does the Pope confess?” “O yes to God!”
“And does God charge the Pope?” “No, quoth the priest,
“GOD CHARGES NOTHING!” “Oh! then God is best,
God charges nothing and is always willing,
To Him will I confess and save my shilling.”

My Dear Friend +

I expect they will be after me in two or three days time with a Secretary of States Warrant for my removal from the Retreat either to the place of execution, or to a place of penal servitude for life, this being the case I have deem'd it prudent to absent myself from the Retreat for a few days as you will have no power to protect me. I shall if possible endeavour to see the newspapers and if my worst anticipations should prove incorrect, I shall endeavour to return to the Retreat immediately after the 16th of April 1863.

~~From them~~ From them³ must the chorus ascend,
Which shall peal through the confines of space,
Of Holy, thrice holy, and praise, without end,
Unto God, for the Gift of His grace,
And praise to the Lamb, who for mortals was slain,
Yet liveth, for ever, and ever, to reign.

In that holy, and heart⁴ thrilling song,
Oh my soul, can silence be thine?
Or wilt thou not join, with the jubilant throng,
In hosannas to Glory Divine,
Even such, the fruition, faith whispers for me,
Nor ^{holier, nor} happier, could recompense be!

Then who with acceptance shall stand¹
In the Presence of Glory and Light
Having palmbranch or censer or harp in the hand
And array'd in apparel of white
While that volume its awful contents shall reveal
Which the Lion of Judah alone can unseal?

Even they who through great tribulation,²
Have worship'd the Holy I Am!
Whose spiritual garments are pure by lavation,
In the allcleansing blood of the Lamb,
'Tis these, and these only, by day and by night,
Shall kneel in His temple, and stand in His sight.
